Texas	507
Platte	490
Dakota	486
Missouri	479

The second man on the Dakota team made the same score as Corporal Michel, winner of the Missouri gold medal, 479. The total aggregate scores for four days made by the Department teams of the division during the recent contests give their standing as follows:

Texas	5,843
Dakota	5,522
Platte	5,420
Missouri	4,891

Corpl. John J. Wolford, Co. E, 19th Inf., will proceed to Fort Leavenworth. (S. O. 119, D. Tex., Sept. 1.)

1st Lieut. T. C. Woodbury, 16th Inf., and 2d Lieut. E. B. Ives, 19th Inf., will proceed to Fort Leavenworth and report, Sept. 4, for duty in connection with the Division rifle competition. (S. O. 118, D. Tex., Aug. 31.)

Major Guy V. Henry, 9th Cav., Inspector of Rifle Practice, Dept. Platte, will proceed to Fort Leavenworth, on public business. (S. O. 112, D. Platte, Sept. 2.)

The Dept. Platte Rifle Team will proceed under charge of 1st Lieut. John Conline, 9th Cav., to Fort Leavenworth. (S. O. 112, D. Platte, Sept. 2.)

The organization of the ranges is as follows: Officer in charge—1st Lieut. Philip Reade, 3d Inf., Inspector of Rifle Practice Div. of the Missouri; Capt. T. J. Wint, 4th Cav., Commanding Rifle Camp; 2d Lieut. C. B. Hardin, 18th Inf., Adjt.; 2d Lieut. W. T. Wood, 18th Inf., Q. M. and Ord. Officer; 2d Lieut. Jonas A. Emery, 11th Inf., Commissary. Statistical and Financial Officers—1st Lieut. Charles Dodge, Jr., 24th Inf., and 2d Lieut. E. B. Ives, 19th Inf.; Captain George D. Wallace, 7th Cav., Executive Range Officer. Range Officers—1st Lieuts. Harry Reade, 25th Inf.; Loyd S. McCormick, 7th Cav.; W. H. W. James, 24th Inf.; T. C. Woodbury, 16th Inf.; F. W. Foster, 5th Cav.; H. J. McGrath, 4th Cav.; 2d Lieuts. V. J. Brumback, 2d Inf.; E. F. Taggart, 6th Inf.; W. L. Simpson, 3d Cav.; J. Y. M. Blunt, 10th Inf.

Capt. George D. Wallace, 7th Cav., and 2d Lieut. James A. Emery, 11th Inf., will proceed to Fort Leavenworth and report for duty in connection with the Div. Rifle Competition (S. O. 89, D. Dak., Sept. 1.)

The distinguished marksmen present are: Lieut. W. H. Sage, 5th Inf.; Ord. Sergt. George Seymour and Sergts. Hugh Griffith, Troop D, 8th Cav.; J. W. Weeks, E, 6th Inf.; H. Lloyd, E, 2d Inf.; E. W. Bonton, E, 2d Inf.; B. Otten, B, 20th Inf.; G. N. King, F, 20th Inf., and Corpl. A. Moore, A, 21st Inf.

The following will report to the Inspector of Rifle Practice for duty in connection with the Division competition: Capt. T. J. Wint, 4th Cav.; 1st Lieuts. Harry Reade, 25th Inf.; L. S. McCormick, 7th Cav.; W. H. W. James and Charles Dodge, Jr., 24th Inf.; F. W. Foster, 5th Cav.; H. J. McGrath, 4th Cav.; 2d Lieuts. W. T. Wood and C. B. Hardin, 18th Inf.; W. L. Simpson, 3d Cav., and J. Y. M. Blunt, 10th Cav. (S. O. 98, Dept. Mo., Sept. 1.)

Department of the Platte.—Last week we gave the team and other particulars. Circular No. 17 since to hand shows that the totals of the team are 143 points ahead of last year, and that of other competitions 443 points ahead of the corresponding number 42 of 85. In the regimental team matches the 17th Infantry made 730 out of a possible 800. The 6th Infantry and 21st did not desire to form a team. Among the first half of competitors the 6th has 2, the 2d 5, the 7th 6, the 17th 5, and the 21st 4. Altogether the showing is good and indicates a rapid advance in marksmanship. We note that on Sept. 3, 1st Lieut. Z. W. Torrey, 6th Inf., who heads the team, made the following remarkable scores in succession, shooting with the Springfield rifle, ten shots at each of the ranges mentioned, viz.:

200 yards	42
300 yards	48
500 yards	48
600 yards	47
Total	185

Out of a possible 200.

Division of the Pacific.—The teams of California, Columbia and Arizona are at the Presidio. The competitions commenced September 5 and will terminate September 13. They are in charge of Capt. W. N. Tisdall, 1st Infantry.

Department of Dakota.—The competitions terminated September 3, amid great interest, Gen. Ruger being one of the most interested spectators. The team is as follows, with scores:

1. 1st Sergt. J. Unger, Co. F, 5th Inf	486
2. Lieut. F. Perkins, 5th Inf	479
3. Corpl. W. H. Daykin, Co. H, 3d Inf	468
4. Pvt. J. Stanley, Co. I, 5th Inf	467
5. Sergt. F. Marti, Co. B, 3d Inf	465
6. Corpl. C. E. Mayo, Co. B, 15th Inf	464
7. Sergt. S. W. Ogden, Troop K, 1st Cav	463
8. Sergt. S. P. Crow, Co. C, 20th Inf	461
9. Corpl. P. Boyle, Co. I, 20th Inf	447
10. Corpl. E. F. Drake, Co. K, 3d Inf	442
11. Pvt. C. Palmer, Co. E, 3d Inf	441
12. Sergt. G. Zobel, Co. G, 3d Inf	439
ALTERNATES.	
13. Pvt. L. Lubecki, Co. A, 20th Inf	439
14. Sergt. A. Wood, Co. K, 20th Inf	437

Captain F. A. Boutelle, 1st Cav., commands the team.

The regimental team match was shot September 2. Eight regiments were represented. The match was won by the team of the 1st Cavalry by the score of 1,583. Upon the conclusion of the match, a contest took place between the members of the winning team to decide the question of the possession of the gold badge which had been offered as a prize. Sergt. A. E. Winslow, of Troop C, 1st Cavalry, won the badge, with the score of 127 points at the distances of 200, 300 and 600 yards. Following is the score:

1st Cavalry	1,583	20th Infantry	1,542
5th Infantry	1,574	7th Cavalry	1,526
15th Infantry	1,560	11th Infantry	1,465
3d Infantry	1,546	25th Infantry	1,462

The prizes were presented by Gen. Ruger Sept. 3 on the Fort Snelling parade. Col. Van Horn commanded the troops. In his remarks Gen. Ruger congratulated the men upon their soldierly appearance and upon their success in achieving honors which any soldier should be proud to bear, and said he felt assured that they would be worn worthily, as they had been honestly and with difficulty won. To the men of the Department team he expressed the hope that they would give a good account of themselves in the division competition in which they were about to engage, and be a credit to the Department which they represented. To each man, also, as he stepped forward to receive his prize, some appropriate word of commendation was spoken by the General. The troops then passed in review, with the colors flying, the band playing its liveliest music, and the sixth annual competition of the Department of Dakota riflemen ended. The names of the men to whom prizes were awarded are as follows:

1st Sergt. John Unger, Co. F, 5th Infantry, the Department gold medal for the best score in the four days' competition; also, the Department silver medal for the best score in the two days' skirmish firing. Sergt. George Zobel, Co. G, 3d Infantry, the Robertson badge for the best aggregate score in the three days of preliminary practice. Sergt. Truman Organ, Troop B, 1st Cavalry, won the regimental team skirmish badge, and the regimental team badge was won by Sergt. J. C. Winslow, Troop C, 1st Cavalry.

Capt. George D. Wallace, 7th Cavalry, has been selected by Gen. Terry to act as range officer during the division competition. The experience which Capt. Wallace has had as range officer in former contests renders the selection particularly appropriate.

Department of Texas.—We supplement our account of last week by the following list of prize winners:

Pvt. Forsyth, Co. C, 19th Inf., won the "Department Gold Medal" and also the "Department Silver Medal." Sergt. J. E. Morgan, Co. B, 19th Inf., won the "Friedlander Prize," for the best shooting at known distances during the competition. Sergt. Fink, 19th Inf., won the "Brackettville Medal," for the highest aggregate score in the "Preliminary Practice." The 8th Cavalry competition as a team, won the "Bell Cap," for the highest per cent. during the "Department Competition."

Department of the Columbia.—In the regimental team match the 2d Cavalry, and 4th and 14th Infantry participated. The scores were very close, the total score of the 2d Cavalry being 942; 4th Infantry, 942, and 14th Infantry, 940.

Department of California.—The team, with aggregate scores for four days:

Sergt. Douglas Zirkle, Batty. B, 1st Art	422
Sergt. Geo. F. Nelson, Batty. H, 1st Art	414
Corpl. Hermann Hass, Co. C, 1st Inf	398
Pvt. Calvin Yates, Co. E, 1st Inf	394
1st Lt. and R. Q. M. C. L. Best, Jr., 1st Art	392
Sergt. Patrick J. Connell, Batty. C, 1st Art	384
Pvt. Ernest A. Stamm, Co. B, 1st Inf	382
Corpl. Eugene McCarty, Batty. A, 1st Art	377
1st Sergt. Wm. Bowman, Co. F, 1st Inf	369
Pvt. Cephas Burkett, Batty. I, 1st Art	349
Corpl. James Watts, Co. G, 1st Inf	345
Sergt. Nils Asserson, Co. D, 1st Inf	345
Pvt. Henry Brickwedel, Co. K, 1st Inf	344
Sergt. J. H. Rayburn, Co. I, 1st Inf	338

Sergt. Douglas Zirkle, Batty. B, 1st Art., is the winner of the Department medal; and having made the best aggregate score for the two days' competitive skirmish firing, is the winner of the Department skirmish medal.

THE ARMY.

CIR., WAR DEPARTMENT, A. G. O., Sept. 3, 1886.

Announces that the Leavenworth National Bank, of Leavenworth, and the Nebraska National Bank, of Omaha, have been designated depositories of public moneys.

G. O. 11, DEPT. OF THE PLATTE, Sept. 1, 1886.

1. In accordance with par. 13, S. O. 128, c. s., H. Q. of the Army, Lieut. Col. Horace B. Burnham, Deputy Judge Advocate General, is relieved from duty as Judge Advocate of this Department.

The Department Commander takes this occasion to express his appreciation of Colonel Burnham's conscientious fidelity to his duties during his long tour of service in this Department.

2. Every commander of a post or station will hereafter, during the months of May and October of each year, cause the officer of his command doing duty in the Quartermaster's Department, accompanied by two commissioned officers, the post quartermaster sergeant and ten additional enlisted men, to examine the boundaries of the whole Military Reservations connected with the Post. All the boundary marks will be put in good condition, and a full report of any that appear to have been moved will be made with a view to have their correct position determined. If any of the boundary marks are missing and cannot be *accurately* replaced on the spot, the fact will be reported. The report of these inspections will be forwarded to these Headquarters.

By command of Brigadier General Crook:
SAM'L BRECK, Asst. Adjt.-Gen.

G. O. 12, DEPT. OF THE PLATTE, Sept. 2, 1886.

In accordance with par. 4, S. O. 191, c. s., H. Q. of the Army, A. G. O., 1st Lieut. Orin B. Mitcham, Ord. Dept., Chief O. O. of the Dept., is hereby relieved from duty in this Department. The Department Commander regrets that the call of Lieutenant Mitcham to other fields of duty, makes it necessary for the Dept. of the Platte to lose an officer of so high professional accomplishments and such assiduous attention to his duties.

By command of Brigadier General Crook:
SAM'L BRECK, Asst. Adjt.-Gen.

G. F. O. 9, DEPT. OF ARIZONA, Aug. 28, 1886.

In consequence of his promotion, Capt. Wm. Stanton, 6th Cav., is hereby relieved from duty as A. D. C. on the staff of the Brigadier General Commanding.

In this connection the Department Commander desires to express his appreciation of the fidelity and zeal with which Capt. Stanton has discharged his duties as A. D. C.

By command of Brigadier General Miles:
WM. A. THOMPSON, Capt. 4th Cav., A. A. A. G.

STAFF CORPS AND DEPARTMENTS.

General Officers.

The Major General Commanding, accompanied by 1st Lieut. John Pitcher, 1st Cav., A. D. C., will proceed to Fort Niagara, N. Y., on public business (S. O. 131, Sept. 8, Div. Atlantic).

Adjutant and Inspector Generals.

2d Lieutenant Robert J. C. Irvine, 11th Infantry, to be 1st Lieutenant, August 24, 1886, vice Raphall, retired from active service.

2d Lieutenant Pierce M. B. Travis, 11th Infantry, to be 1st Lieutenant, August 24, 1886, vice Taylor, retired from active service.

2d Lieutenant Harvey D. Reed, 25th Infantry, to be 1st Lieutenant, August 17, 1886, vice Andrews, appointed Regimental Adjutant.

CASUALTY.

Major Theodore Schwan, Assistant Adjutant-General, resigned his commission as Captain, 11th Infantry, only, August 7, 1886.

Courts-martial.

The following courts have been ordered:

At Fort Washakie, Wyo., Sept. 9. Detail: Major Alfred T. Smith, 7th Inf.; Capt. Louis H. Rucker, 9th Cav.; Capt. Allan H. Jackson, 1st Lieuts. Levi F. Burnett and Edward E. Hardin, 7th Inf.; 1st Lieut. Montgomery D. Parker, 9th Cav.; 2d Lieut. James A. Goodin, 7th Inf., and 1st Lieut. William J. Wakeman, Med. Dept., J.-A. (S. O. 112, Sept. 2, D. Platte.)

At Fort Wingate, N. M., Sept. 6. Detail: Lieut.-Col. R. E. A. Crofton, Capts. W. M. Waterbury and William Auman, 13th Inf.; Capt. R. W. Shufeldt, Asst. Surg.; 1st Lieuts. M. F. Jamar and J. B. Goe, 2d Lieuts. M. B. Saffold, A. B. Scott, and E. P. Lawton, 13th Inf., and 1st Lieut. J. S. Bishop, 13th Inf., J.-A. (S. O. 82, Aug. 30, D. Ariz.)

At Vancouver Barracks, W. T., Sept. 2. Detail: Major J. Ford Kent, Capts. Edwin M. Coates and William H. Bisbee, 4th Inf.; Capt. Chandler P. Eakin, 1st Art.; Capt. Henry S. Kilbourne, Asst. Surg.; Capt. Henry Seton, 4th Inf.; 1st Lieut. Abner H. Merrill, 1st Art.; 1st Lieut. Charles A. Johnson, 2d Lieuts. Frederic S. Calhoun, Stephen J. Mulhall, William A. Kimball, Alfred Hasbrouck, Jr., and Henry C. Cabell, Jr., 14th Inf., and 1st Lieut. James A. Buchanan, Adjt. 14th Inf., J.-A. (S. O. 147, Aug. 25, D. Columbia.)

At Fort Monroe, Va., Sept. 10. Detail: Capt. Joseph B. Campbell, 4th Art.; Capt. John H. Calef, 2d Art.; Capt. Samuel M. Mills, 5th Art.; Capt. William A. Kobbé, 3d Art.; 1st Lieut. John McClellan, 5th Art.; 1st Lieut. Henry B. Osgood, 3d Art.; 1st Lieut. Oliver E. Wood, 5th Art.; 1st Lieut. Thomas C. Davenport, 4th Art.; 1st Lieuts. Erasmus M. Weaver, Jr., and Edward E. Gayle, 2d Art.; 2d Lieut. Charles J. Bailey, 1st Art.; 2d Lieut. William F. Hancock, 5th Art.; 2d Lieut. Willoughby Walke, 2d Art., and 1st Lieut. Henry H. Ludlow, Jr., 3d Art., J.-A. (S. O. 129, Sept. 6, Div. A.)

At Fort McHenry, Md., Sept. 10. Detail: Major Richard Lodor, 3d Art.; Major John Brooke, Surg.; Capt. George F. Barstow, 1st Lieuts. Edward C. Knower and Charles G. Woodward, 3d Art., and 1st Lieut. Ramsay D. Potts, 3d Art., J.-A. (S. O. 131, Sept. 8, Div. A.)

Army Boards.

A Board of Survey, to consist of Capt. Philip H. Ellis, 13th Inf., will assemble at St. Louis, Mo., Sept. 8, for the purpose of investigating the circumstances connected with a deficiency of clothing (S. O., Sept. 3, H. Q. A.)

A Board of Officers of the Corps of Engineers, to consist of Lieut.-Col. William P. Craighill, Major Alexander Mackenzie, and Capt. James C. Post, will assemble at Beaver, Pa., to report upon questions in connection with the construction of a guiding dike by the Pittsburgh and Lake Erie R. R. Co. (S. O. 1-7, Sept. 4, C. E.)

Retirements of Enlisted Men.

Comy. Sergt. Hippolite Gustowski (S. O., Sept. 7, H. Q. A.)

DEPARTMENT NEWS.

Division of the Atlantic.—Maj.-Gen. Schofield.

The Indian prisoners at Fort Marion, Fla., are well looked after by Colonel L. L. Langdon, post commandant, and his assistant, Lieut. S. C. Mills, 12th Infantry. The ladies of the post and of St. Augustine have taken an interest in the Indian women and children, and benevolently donated them suitable garments for every-day wear.

Major Charles B. Throckmorton, 2d Artillery, commanding at Jackson Barracks, New Orleans, will remove his command temporarily to the camp at Atlanta, should he deem it necessary on account of the appearance of yellow fever. The garrison is composed of Battery M, Captain Joseph Gales Ramsay, and Battery I, Captain William P. Vose, 2d Art.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

A despatch from Helena says: "The officials of the War Department are exercised over the recent raid of Indians upon the stock of the Crows at Custer Station. It is said that the commanding officer at Fort Maginnis has received orders to hunt up the depredators and that scouts from Fort Assinniboine are already out."

Dept. of the Missouri.—Brig. Gen. J. H. Potter.

The Fort Worth *Gazette* thus discusses the recent imbroglio: "The garrisons along the Rio Grande, from El Paso to Brownsville, were found in a decidedly inefficient condition when the Cutting trouble came up. Any day the city of El Paso could have been gutted by the Mexicans at Paso del Norte, and the small garrison at Fort Bliss with its meagre equipment of antiquated artillery, would have been powerless to interpose an adequate defence. It will always be prudent to maintain an effective military establishment in this State." The El Paso *Times* on this says: "El Paso could at any time have defended herself against anything that Paso del Norte could have sent over. At the same time it is very plain, and so acknowledged by every man of sense, that Fort Bliss ought to be a ten company post."

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

A Roster of Troops for August comes to hand this week and is replete with valuable information as to the present distribution of forces under Gen. Miles. We infer that recent events will cause a rearrangement very soon.

Dept. of the Platte—Brig. Gen. George Crook.

Gen. Crook has directed that every commander of a post or station will, during May and October of each year, cause the officer of his command doing duty in the Q. M. D., accompanied by two commissioned officers, the post quartermaster sergeant and ten additional enlisted men, to examine the boundaries of the whole Military Reservations connected with the Post. The boundary marks will be put in good condition, and a full report of any that appear to have been moved will be made with a view to have their correct position determined.

A report comes from Fort Du Chesne that great anxiety is felt at that post and in the vicinity arising from rumors that the Indians are on the war-path. A Government train on the way thither from Fort Bridger is believed to be in imminent danger, and Colonel Benteen is throwing up breastworks and has sent requisitions for additional troops in anticipation of a raid by the red men.

ARTILLERY SCHOOL.

IN G. O. 29, Sept. 3, General Tidball directs that the exercises for September, commencing on the 10th, will be: *Artillery*—service of the piece—siege and sea-coast guns and mortars; *Cordage*, officers who cannot be employed on the above, for want of detachments, will receive instruction in cordage during the usual drill hours; *Signalling*, officers who cannot be employed at either of the foregoing exercises will receive instruction in signalling under the Post Signal Officer during the usual drill hours.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

SEPTEMBER 8, 1886.

DURING the past week Highland Falls has been the scene of a number of daring burglaries at night. Houses were entered, the inmates chloroformed and all the money and valuables taken. One one-armed man lost $50, a woman whose husband had sent $90 for her support during the coming winter, lost it all; a number of smaller thefts were also reported. Two strangers were watched and through the detective skill of Mr. Schondel, known to generations of cadets as the Chief of Staff of Professors Bartlett and Michie in the Philosophical Lecture Room, more familiarly called "Experiments," one of the burglars was caught. He proved to be a painter, named Campbell, who had been employed once by the Quartermaster to do some work at the post. He had in his possession several revolvers, a lot of burglar inplements, a bottle of chloroform and several sponges. He was caught in the act of trying to rob the Post Office and his next exploit was to pay a visit to the house of our cadet barber, Mr. Max Repenhagen, who lives at the Falls.

We are experiencing some very warm weather for this season.

Gen. Fitz-John Porter, with his son and daughter, arrived here last Saturday and is at the hotel.

Capt. Shaler, of the Ordnance, was here on Tuesday. Mr. Peck, of Watertown, N. Y., is also here on business. He was in the class of 1880.

Cadet Gregg, 1st Class, while riding yesterday, was knocked from his horse and carried to the hospital, where he laid a long time in an unconscious state. How the accident happened is a mystery unless he was struck by the horse's head.

There is to be considerable moving on the part of officers. Capt. Williams will take the house that Capt. E. E. Wood had last year, and which has been thoroughly painted and new floors put in from attic to basement. Col. Winthrop will occupy Lieutenant Wyatt's old quarters; Capt. Rockwell will take Prof. Curtis's house: Lieut. Davis is to move to Lieut. Murray's old quarters; Lieut. Beach will go to Lieut. Davis's; Lieut. Warren is to have the house where Capt. Rockwell is now; Lieut. Wisser is to take Lieut. Beach's house, and the Post Adjutant will keep Bachelor's Hall in the cottage next to the Post Office.

Miss Julia Wheeler, a daughter of the late Prof. Wheeler, is visiting her sister, Mrs. Warren. Lieut. Crozier, Ordnance, is also here.

The schools for officers' and soldiers' children were opened last Monday. An informal census lately made gave over 300 children on the reservation belonging to soldiers and civilian employees living on the post. There are nearly 50 belonging to the officers, the latest arrival among them being a son at Lieut. Totten's quarters.

The following named candidates for admission to West Point were designated this week: Arthur B. Wadsworth (alt.), Trout Brook, N. Y.; Elmer E. Reisenger, York, Pa.; C. S. Beinton (alt.), Camp Hill, Pa.; Claude W. Wicker, Sandersville, Ga.

TROUBLE AT WEST POINT.

A COURT-MARTIAL has been in session at West Point, this week, investigating what is regarded, by the authorities at least, as one of the most flagrant cases of disobedience and violation of rules and discipline that has been witnessed at the Academy in many years. The occurrence is thus described in the New York *World* of Tuesday last:

The trouble began over a week ago. Each year the young men who have been two years in the cadet ranks are permitted to spend the summer vacation away from the Academy. As the furlough class go off in a body, so do they come back in a like fashion, and for years it has been the custom when the cadets in civilian mufti made their appearance on the plains for something of a college rush to take place on the part of the men in camp.

The pilgrims were given a hearty welcome, with handshaking and embracing. In the greeting it generally happened that the high silk hats which the cadets off limits always wear were smashed, and canes too were reduced to splinters. It was all taken in good part, and any company of returning furloughers failing to get this old-time greeting would consider themselves in a measure, "cut." Gen. Merritt knew of the custom, but concluded that it was an undignified performance, and so on Aug. 27 last, the day preceding the expected appearance of the absent second-class men, he issued an order directing that any greeting thought necessary should take place within camp lines. This order was rattled off by the cadet adjutant at the dress parade on the evening before and furnished the cadets a subject for their night chats. The general impression was that the order was a sharp one. On Saturday morning 60 merry fellows tumbled up the long incline, calculating upon getting the noisy welcome. They caught sight of the camp, and behind the sentry line they saw the reception committee of cadets, nearly three hundred strong. The new comers were not aware of the order of Gen. Merritt, and therefore could not appreciate the strain under which their companions in camp were suffering. It was the time-honored duty of the first-class men to do the proper thing at this point, but there was the order of Gen. Merritt, with all the penalties of disobedience, but before them on the plain, near the parked light battery, were their friends and companions, full of expectancy, with light hats and canes, waiting to be smashed.

It was more than human nature, even in uniform, could stand, and when Cadet Fakett sent up a shout like a Comanche and darted across the sentry-line to greet his particular chum there was a general break, and soon there was a mixture of campers and comers engaged in a whirling dance of joy and welcome.

Lieut. Homer was officer of the day in command of the camp, and he with the cadet officer of the day under the battalion organization were on the scene in an instant. A sharp order to fall in, which they instinctively obeyed, brought the greeters to their senses. They stood in line, while their names were taken; thirty-four in all there were, and all but two first-class men.

Col. Hasbrouck, commandant of the corps, was duly notified and there was nothing to do but to prepare charges against the men who had so flatly set at naught the orders of Gen. Merritt. To arrest the whole thirty-four would be doing things in too wholesale a fashion, so as a compromise the cadet officers who had taken part in the rush were picked out to stand their fate before a Court-martial. There were six of them: Capt. Jenkins, of South Carolina, and Lieut. Isham, of Illinois; Williamson, of Pennsylvania, Meyler, of New Jersey; Peck, of New York, and Harman, of Virginia. They were placed under arrest, but not in confinement, being permitted the limits of the post on honor. They take part in recitations, but not in the battalion formation at evening parade.

Charges were duly drawn up and the particular article of war which the culprits had violated was duly set forth. They had not gone more than a dozen yards beyond the sentry line, but they had violated the special order, and for that they were cited to appear before a Court-martial. Thirteen officers made up the court, with Major Spurgeon, 21st Inf., the Cadet Commissary and Quartermaster, as President of the court, and Lieut. Febiger, of the Engineers, as Judge-Advocate. Lieut.-Col. Winthrop, the Law Professor, volunteered to appear in defence of the young men, and on Saturday last the Court duly convened in the Academic building.

Lieut. Meyler was the first on the list put on trial. He asked for time to consult counsel and the Court adjourned till Monday. Yesterday was taken up with the evidence against the young lieutenant, who stands third in his class and like all the others he feels the position in which he is placed very keenly. It was duly shown that the order had been issued and the circumstances of its disobeyal told. The defence will open to-day. There will be no denial of the fact, but it will be shown in extenuation that there was no deliberate defiance of the order, but rather that under the habit of long usage the thirty odd were carried away on the spur of the moment and did that for which they are now heartily sorry.

The matter has stirred up the post as it has not been agitated for many a year. The punishment may extend to actual dismissal as the court may fix. If such an extreme punishment is decided upon it will require the sanction of the Secretary of War before being carried out. Anything short of this such as suspension or deprivation of privileges may be carried out by Supt. Merritt at once. There was one colored cadet among the incomers, but his fellow African in the corps remained in the camp, and his name is missed from the list. The six men arrested are in the front rank of their class in their studies and are very popular with everybody on the post. A week will probably elapse before the trials are finished.

Cadet James J. Meyler is one of the honor men in his class; Fremont P. Peck stands No. 11; John M. Jenkins, No. 12; Geo. McK. Williamson, No. 33; Pierrepont Isham, No. 36, and John A. Harman, No. 42.

(Correspondence of the Army and Navy Journal.)

COLUMBUS BARRACKS, O.

SEPTEMBER 6, 1886.

THE annual reunion and picnic of the surviving members of the Regular Brigade, 14th Army Corps, took place at Columbus Barracks on Tuesday, Sept. 1, permission having been given them by Colonel Offley, the commandant, to use the Library Hall and grounds for that purpose. The morning camp fire was devoted to the business of the association. Colonel Offley, in a brief speech on their arrival at the hall making them welcome, referred to his having to leave in a short time for his post in Wyoming Territory, and invited them to hold their next reunion out there. At the evening camp fire Colonel Offley was presented with a gold badge bearing the inscription, "Presented to Colonel R. H. Offley by the survivors of the Regular Brigade, 14th Army Corps." The pendant is a consolidated design of the 8th, 14th, 15th, and 17th Army Corps badges. The presentation was made by Chaplain Blake, and was a complete surprise to the Colonel, who was quite unable to say anything more than to express his thanks, and hopes to meet the members of the brigade at some other reunion. Captain A. H. Young, the Depot Quartermaster, was then called on for a speech, but contented himself by expressing his happiness at having met with the members. Chaplain Van Horne, U. S. A., retired, made the speech of the evening, which was well received. Several other comrades made a few remarks, the meeting closing after having passed a series of resolutions thanking

Colonel Offley and the officers and enlisted men of his command for their courtesies to the association.

A dance was given in the ball room of the depot, Aug. 31, by Messrs. Young, Taylor, and Captain Callinan's sons to the visiting ladies at the barracks. A number of visitors from the city were present, and a very enjoyable time was secured by all present.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

SEPT. 1, 1886.

ONE of the most delightful affairs of the year was the children's dramatic performance at the residence of Col. Elmer Otis, on Government Hill, Tuesday last. The novelty of the entertainment and the little mystery surrounding the invitations quickened curiosity and added to the pleasure of the guests.

The programme was divided into two parts. In the first part the children yielded to their elders; a charming duet, with flute accompaniment, was rendered by the Misses Clark and Mr. F. Clarke. The recitation, "Asleep at the Switch," was skilfully handled by Mr. Elmer Otis, and he gave proof of unusual talent and showed thorough dramatic and vocal training. The curtain then rose on the sparkling little comedy, "Master Jones's Birthday." The little ones did admirably, the minor parts being sustained by Miss Mattie Otis, Miss Gertie Clark, Masters Ned Godwin, and Albert Otis. The "stars" of the evening, however, were Masters Frank Otis and David Stanley, who were a surprise to all, and who gave evidence of a precocious dramatic talent worthy of further cultivation. The evident pleasure afforded her guests seemed to fully repay the affable hostess for her trouble and a unanimous request for a repetition was made.

Among those present were Gen. and Mrs. Stanley, Dr. and Mrs. Vollum, Major and Mrs. Sumner, Gen. and Mrs. Ruggles, Capt. and Mrs. Godwin, Major Cushing, Captain Richards, Mrs. Herbert Delamer, the Misses Howard and McGonigle, Mr. T. A. Phelan, Mr. T. Howard, Mr. Mitchell, and others.

MIZPAH.

(Correspondence of the Army and Navy Journal.)

AUGUSTA ARSENAL, GA.

I TELL you the great earthquake gave us a good shaking up here, and at the arsenal the quarters of Major J. W. Reilly, the commandant, and Captain Grealish, M. S. K., suffered most severely. Captain Grealish's house was the worst used up of the two, being almost entirely shaken to pieces. The four walls remain standing, but they are cracked and demolished in so many places, and so thoroughly, that a collapse at any time would not be surprising.

The brick parapet around the roof, several feet high, was tumbled off as if it was made of paper, and all the chimneys on the main building were hurled to the ground. The sleeping-chambers upstairs were even in a worse condition than the lower floors, the rubbish from the walls and ceilings completely covering the floors. How the family escaped without injury is a mystery. The captain has moved to safer quarters.

At Major Reilly's the damage was great, but not quite so bad. The inside is considerably battered, and the floors a foot deep with débris. Several other buildings on the arsenal grounds are somewhat wrecked, but not so much.

The Lord deliver us from such another shake. B.

(Correspondence of the Army and Navy Journal.)

FORT HANCOCK, TEXAS.

THE silver wedding of Col. S. B. M. Young, 3d Cavalry, was celebrated here Sept. 2, together with the weddings of his two daughters, Miss Edith and Miss Burton, Miss Edith to 2d Lieut. John T. Knight, 3d Cavalry, and Miss Burton to Lieut. J. M. Read, 5th Cavalry. The ceremonies were witnessed by all the officers of the command and many of the garrison. Gen. J. J. Reynolds, retired, and Mrs. Reynolds, and Lieut. B. Reynolds, 3d Cavalry, his son, were also present. The brides were dressed in white satin, and both looked very beautiful. The grooms were in full uniform. The quarters of Col. Young, in which the ceremony took place, were handsomely decorated. Mrs. Young, mother of the brides, felt, of course, very much grieved at parting with her children. Wishing these two comely ladies, who now are the wives of Lieuts. Knight and Read, a happy journey on their Eastern tour, S.

FORT CLARK, TEX.

A RECENT report by the Temperance Association of Fort Clark says: When we look back, down the vista of time, previous to the organization of the temperance movement and compare the post of Fort Clark then, to what it is today, how much one is struck by the comparison; the besotted blear-eyed drunkard is not seen as frequently as heretofore. The guardhouse has not the number of applicants for admission as formerly, nor do we hear of the repeated drunken rows in town, which brought disgrace and shame on the name of the American soldier. As long as the post exists so long will credit be due to the noble few, who first inaugurated the movement. We cannot refrain from mentioning the names of Chaplain Merrill and Lieut. Eckerson, backed as they were by the self-sacrificing and noble efforts of the officers of the lodge at that time, together with the marked kindness and consideration invariably shown by the post commander, Gen. Smith. It is a proud boast to be able to say that out of from 480 to 500 men, who compose the garrison at Fort Clark, about 350 belong to the different societies.

THIRD INFANTRY BAND.

THE Helena *Independent* says: The band of the 3d U. S. Infantry serenaded the Hon. Martin Maginnis last evening at his residence on the West Side. The music was up to the band's high standard, the selections from the Mikado being rendered in especially exquisite style. In thanking them for the serenade Major Maginnis said:

I have heard the 3d Infantry band long ago and on far different occasions. I remember it in the Peninsula and when the music floated over the field at Antietam and was heard above the carnage at Fredericksburg. I know and esteem its gallant Colonel. John Brooke, whom the people of Montana believe should be the next created Brigadier-General. In inviting you in to take some refreshment I can only remind you:

It was sometimes water and sometimes milk,
And sometimes applejack, finer than silk.
But whatever the tipple has been
We shared it together in bane or bliss,
And I warm to you comrades when I think of this—
We have drunk from the same canteen.

Military Order of the Loyal Legion.

At a meeting of the Maine Commandery, held at Portland Sept. 1, the officers elected last May were duly invested and the following applicants balloted for: Lieut. H. B. Hill, U. S. V.; E. A. Butler, late Acting Ensign, U. S. N., and C. H. True, eldest son of Paymaster J. True, U. S. V.

Gen. Lucius Fairchild, commander of the Wisconsin Commandery, has issued a stirring appeal urging every ex-officer in Wisconsin to join the Order. The next meeting takes place at Milwaukee, Oct. 6.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at Portsmouth, N. H., Sept. 5.

SWATARA, 3d rate, 8 guns, Comdr. E. T. Woodward. Arrived at Portsmouth, N. H., Sept. 6, from a visit to the Gulf of St. Lawrence, making short calls at Arichat and Port Hawkesbury.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At Newport, R. I.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. At Portsmouth, N. H., Sept. 4.

S. Atlantic Station—Captain E. E. Potter (in command temporarily).

Acting Rear Admiral D. L. Braine will shortly command this station.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. At the New York Navy-yard. She will shortly be ordered to join the South Atlantic Station.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese (ordered). Sailed from Cape Town June 29; arrived at St. Helena July 11, sailed 26; arrived at at Rio de Janeiro, Aug. 12. Will probably remain until October. During her Eastern trip sailed over 15,000 miles. Lieut. Paul was detached on the arrival of the ship at Rio, and was to sail for New York, direct, Aug. 21. All well on board.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Bahia Aug. 1, sailed 10th, and arrived at Rio de Janeiro Aug. 13, one day after the arrival of the *Lancaster*. Had pleasant weather all the way down.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. Arrived at Leghorn, July 28

KEARSARGE, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. Was to remain in Phalerum Bay, near Athens, Greece, until about Aug. 1. Has been ordered to return to U. S.)

QUINNEBAUG, 3d rate, 8 guns, Comd. Geo. W. Coffin. At Southampton, England, August 11, 1886. Will leave the English channel by the middle of August or September for Genoa, touching on the Spanish coast and at Marseilles. Will be sent to the East for the winter, if no other vessel joins the squadron.

Pacific Station—Rear-Adm. E. Y. McCauley.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Was at Iquique, July 31.

HARTFORD, 2d rate, 16 guns (f. s. p. s.), Capt. J. H. Gillis. Was at Callao July 31.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Sailed from New York, Aug. 16, for Pacific Station.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson (ordered.) En route to Panama. Was at Payta, Peru, Sept. 7. All well.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr George B. Livingston in command. Used as a store ship at Coquimbo, Chili. Comdr. S. H. Baker is ordered to command, and sail per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Reported by cable from Melbourne, Aug. 20, to have sailed for Samoan Islands, to remain there during the session of Commission on Samoan affairs.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. Address care of Navy Pay Agent, San Francisco, Cal. Arrived at Sitka Aug. 16, 1886.

SHENANDOAH, 2d rate, 9 guns, Captain Byron Wilson. At Callao, Peru, July 31. Has been ordered to proceed to San Francisco for repairs, touching en route at South and Central American ports.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station.

Asiatic Station—Rear-Admiral J. L. Davis.

Commodore Ralph Chandler has been ordered to command this station, and will leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail, to care U. S. Consul, Yokohama, Japan.

ALERT,† 3d rate, 4 guns, Comdr. Chas. J. Barclay. Arrived at San Francisco, Cal., Sept. 9. Will undergo repairs at Mare Island.

BROOKLYN, 2d rate, 14 guns, Capt. E. O. Matthews. Sailed from New York, Aug. 12, for the Asiatic Station. Arrived at Lisbon, Portugal, Sept. 2, 1886.

ESSEX, 3d rate, 6 guns, Comdr. T. F. Jewell. Sailed from New York for the Asiatic Station Sept. 2, 1886.

MARION,† 3d rate, 8 guns, Commander Merrill Miller. At Shanghai July 21—undergoing repairs.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Canton July 21.

OMAHA,† 2d rate, f. s. a. s., 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL, at Shanghai, China, July 17.

OSSIPEE,† 3d rate, 8 guns, Comdr. John F. McGlensey. Left Nagasaki, July 10, for Chemulpo, Corea. Has been ordered to return to New York by the middle of February, 1887.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. On her way from Chemulpo to Shanghai July 21.

TRENTON, 3d rate, 10 guns, Capt. Robert L. Phythian. Arrived at Fort Monroe, Va., Sept. 2, 1886, where she was inspected by the Board Sept. 6, and has been ordered to Norfolk, where she will be put out of commission in a few days.

Her officers are: Captain, R. L. Phythian; Lieut. Comdr. and Executive, Asa Walker; Lieuts., W. T. Swinburne, A. G. Berry, Henry W. Schaefer, C. G. Calkins; Lieuts. (junior grade), M. L. Wood, F. W. Coffin, W. B. Caperton and C. A. Gove; Ensigns, Albert Gleaves, C. N. Atwater, J. H. L. Holcombe, E. H. Tillman, W. W. Buchanan, Gilbert Wilkes and W. R. M. Field; Medical Inspector, Edward S. Bogert; Surgeon, N. McP. Ferebee; Passed Asst. Surg., Clement Biddle; Asst. Surg., H. B. Scott; Paymr., George H. Griffing; Chief Engr., John Trillery; P. Asst. Engr., James J. Barry; Asst. Engrs., H. T. Cleaver and E. R. Freeman.

Apprentice Training Squadron.

Address of *Portsmouth* and *Saratoga*, care of B. F. Stevens, 4 Trafalgar Square, London, England, until Aug. 25, and after that date Newport, R. I.

MINNESOTA, 1st rate, 24 guns, Comdr. T. F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. Sailed from Lisbon for Newport, R. I., Aug. 31.

SARATOGA, 3d rate, 12 guns, Comdr. C. H. Davis. Sailed from Lisbon for Newport, R. I., Aug. 31.

On Special Service.

CONSTELLATION, 3d rate, 10 guns, Practice Ship of Naval Academy, Commander C. L. Huntington. Put out of commission at Annapolis Aug. 31.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr. Returned to the Navy-yard, New York, Sept. 8, from a long cruise in the Sound, during which she had Secretary Whitney and party on board. She sails early Sept. 9 for the purpose of hunting up some reported derelicts in the way of navigation off the Long Island coast.

DOLPHIN, despatch boat, ———— At Norfolk, Va. Undergoing repairs, extensive alterations having been ordered by the Board of Inspection and Survey.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Sailed from Annapolis to Norfolk for repairs.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. Arrived at Erie Sept. 2.

RANGER, 3d rate, 4 guns, Comdr. Chas. E. Clark. At San Francisco.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. On her annual cruise. Was in Hempstead Bay, L. I., Aug. 16.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard. To go on trial trip for about a week at sea about Sept. 20.

VARIOUS NAVAL ITEMS.

THE Coston Electric Signals are, as a result of the experiments in the *Defiance*, to be further tried in the flagships of the English Channel and Mediterranean Squadrons, in competition with the Very signal light, which they already carry. Both of these inventions are American.

LORD GEORGE HAMILTON, First Lord of the Admiralty, replying to interrogatories in the House of Commons, Sept. 3, denied that any agent of the United States had access, through the firm of Sir William Armstrong and Co., to the designs for naval vessels under confidential consideration by the British Government.

REAR ADMIRAL JAMES E. JOUETT and his board of naval inspectors arrived at Norfolk, Va., Sept. 3, and inspected the U. S. S. *Dolphin*. The board was brought over from Norfolk in the commandant's launch, and after the inspection a number of the visitors called on Capt. Brown before leaving the yard. The *Dolphin*, it is thought, will soon leave the yard.

CAPT. ROBERT L. PHYTHIAN, of the *Trenton*, it is said, has gone to Washington to use his efforts in getting his ship sent to the New York yard. Other influence is at work to have the ship sent from here. Secretary Whitney, however, has promised that the ship shall "go out of commission at the Norfolk Navy-yard and be overhauled and repaired there." —*Norfolk Landmark.*

COMMANDER S. H. BAKER, U. S. N., has been ordered to take command of the store ship *Monongahela* at Coquimbo, Chili, as the relief of Lieut. Comdr. Geo. B. Livingston. The *Monongahela*, formerly a steam corvette, similar to the *Ticonderoga*, was transformed into a sailing vessel at the Mare Island Navy-yard, loaded with coal and stores, and, under command of Lieut. Comdr. Livingston, joined the South Pacific Station as store ship in 1884. The climate of Callao having been deemed unhealthy, on account of the prevalence of yellow fever during 1883, '84, '85, the store ship was transferred to Coquimbo, a pleasant port with a good harbor, in the northern part of Chili. The English squadron on the Pacific make Coquimbo headquarters for refitting and laying in stores.

ON Sept. 4 the U. S. S. *Iroquois* sailed from Callao Bay, bound north, under orders from Rear Admiral McCauley. The *Iroquois* was placed in commission at the Mare Island Navy-yard, on April 10, 1882, Comdr. James H. Sands, U. S. N., commanding. In July of that year the *Iroquois* sailed for the South Pacific Station, where she has remained since with the exception of seven months among the South Sea Island and the Australian colonies. No repairs of note have been made either to hull, engines or boilers, and it is believed that her decks are about the only point where extensive repairs are necessary. On June 2, 1884, at Callao, Comdr. Yates Stirling assumed command, relieving Comdr. Sands who sailed for the United States three days after. Comdr. J. Crittenden Watson, U. S. N., has been ordered as the relief of Comdr. Stirling. It is quite probable that the *Iroquois* will not receive another commission, although it is hoped that the name will not be allowed to lapse from the Navy Register.

THE Naval Board of Inspection has completed its tour of inspection of the receiving ships, and in a few days will hand in a report showing them to be in excellent condition in point of cleanliness, etc.

THE Navy Department received a despatch Sept. 8 announcing that the *Fortune* had been badly damaged near Norfolk by running into a drydock. The vessel was being turned, when a defect in the machinery made it temporarily unmanageable, and the collision was inevitable. Repairs were at once begun, and it is likely that the tug will not be out of service more than a couple of days.

NO FURTHER action has yet been taken by the Secretary of the Navy concerning the order turning the Washington Navy-pard over to the Ordnance Bureau. The order abolishing the Bureau of Yards and Docks has not yet been revoked, but it is urged that it should be, as the money appropriated for keeping the yard in repair, etc., cannot under the law be spent except by the Bureau of Yards and Docks.

A COURT-MARTIAL, to consist of the following members, is ordered to convene at Norfolk, Va., on Sept. 13, for the trial of Private John F. Gibbs, U. S. M. C.: Capt. Henry Wilson, president; Lieut.-Commanders E. S. Houston and Eugene E. W. Watson; Lieuts. Robert T. Jasper, Thomas C. McLean, and Hugo Osterhaus; Maj. James Forney, M. C., and Lieut. S. C. Lemly, Judge-Advocate. A Court-martial has also been ordered to convene at Annapolis, Md., on Sept. 10, for the trial of Wm. Chappell, Boatswain's Mate. Detail of Court: Comdr. John Schouler, President; Capt. Robert H. Huntington, M. C.; Lieuts. J. P. Merrell, G. W. Tyler, Richard Mitchell, Jesse M. Roper, C. J. Boush, Samuel Mercer, M. C., Judge-Advocate.

THE Engineer-in-Chief of the Navy has received from the Public Printer, in a neat and convenient shape for use, the completed "Specifications for two horizontal direct-acting compound screw engines for U. S. S. *Newark*, of 4,000 tons displacement, each engine, with its auxiliaries, of 4,250 I. H. P., under forced draught; including boilers, screw propellers, and all appendages and appurtenances complete, together with a list of tools, instruments and duplicate pieces to be furnished." Such is the title, and its contents comprise 60 pages of specifications, four pages of instructions to inspectors, and, rarest and best of all in such productions, an index containing not less than 270 items and references. The specifications are of the most complete description, and reflect no little credit upon Chief Engr. W. H. Harris and P. A. Engr. A. Mattice, under whose special supervision they were elaborated. As soon as advertisements for bids are made public, copies of these specifications will be furnished would-be contractors.

ON Thursday afternoon on the new naval cruiser *Boston*, which is now lying in the Cob Dock being fitted out with steel masts, a heavy steel "top" weighing about two tons was being hoisted with the aid of a derrick over the foremast. A man named Hugh Noble was in the top to fix it in its proper place, when suddenly the rope sustaining the "top" parted and the heavy mass fell with a crash to the deck, smashing the pilot-house and damaging the gearing and steam-heating apparatus. The "top" itself was considerably damaged. Noble was thrown to the deck with great violence and was picked up unconscious and bleeding profusely. It was discovered upon examination that he had sustained bodily injuries and a small bone in the leg had been fractured. Two other men were slightly injured. Noble is expected to be well and around again in a week or two. Constructor Pook inspected the damage done and reported to the Secretary of the Navy that he estimated the cost of repairs at $1,462.

NAVY GAZETTE.

Ordered.

SEPT. 3.—Assistant Paymaster R. T. M. Ball to the Yantic, Oct. 1.

Passed Assistant Paymaster R. Frazer to the Receiving ship New Hampshire, Oct. 1.

SEPT. 4.—Commander Samuel H. Baker to command the storeship Monongahela, at Coquimbo, Chili, per steamer of Sept. 21 from New York.

SEPT. 6.—Assistant Surgeon Charles E. Woodruff to the receiving ship Vermont, Oct 4.

SEPT. 10.—Boatswain W. H. Frary to the Franklin.

Detached.

SEPT. 4.—Lieutenant Henry H. Bartoll from duty at the branch hydrographic office, Philadelphia, and ordered to the Lancaster, per steamer, Sept. 11, for Rio de Janeiro, Brazil.

Ensign Houston Eldridge from the Yantic and ordered to the branch hydrographic office, New York.

Assistant Engineer George S. Willits from the Trenton and granted leave until Oct. 1.

SEPT. 6.—Assistant Surgeon Louis W. Atlee from the Vermont on Sept. 20 and ordered to the Quinnebaug, per steamer, Sept. 23.

SEPT. 7.—Commander Wm. B. Hoff and Lieutenant R. T. Mulligan from the duty assigned them on board the Tennessee and ordered to duty in the Bureau of Navigation.

SEPT. 8.—Professor Harry D. Todd from the Naval Academy and granted one month's leave.

SEPT. 9.—All officers of the Trenton are detached and placed on waiting orders. (For list see under Trenton.)

Lieutenants York, Noel, and Frank E. Sawyer detached from the Swatara and placed on waiting orders.

SEPT. 10.—Boatswain John H. Brown detached from Franklin and placed on waiting orders.

Promotions.

Commodore W. W. Queen promoted to Rear-Admiral, Sept. 10.

CASUALTIES.

List of deaths in the U. S. Navy for the week ending Sept. 2, 1886:

Henry Hughes, Master at Arms, died Aug. 15, 1886, at Vallejo. Cal.

Hans Clausen, Ordinary Seaman, died Aug. 25, 1886, on board U. S. F. S. Tennessee, at sea.

Thomas Lander, Seaman, died July 16, 1886, on board U. S. S. Lancaster, at Jamestown, St. Helena.

No deaths reported during the week ending Sept. 9, 1886.

MARINE CORPS.

SEPT. 6.—Second Lieutenant Lincoln Karmany, when the guard of the U. S. S. Trenton has been transferred to Norfolk Barracks, detached from that post and granted leave of absence for one month with permission to apply for an extension.

SEPT. 8.—1st Lieutenant L. J. Guhck, detached from the Marine Barracks, Portsmouth, N. H., and ordered to report for duty at the Marine Barracks, Brooklyn, N. Y.

SEPT. 9.—1st Lieutenant Jesup Nicholsen, present sick leave of absence extended three months from Sept. 12.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

Forty out of 70 applicants for naval cadetships failed in English studies, and were given a re-examination.

The following candidates have been admitted into the Academy, having passed both the physical and mental examination: Eugene D. Ryan, N. Y.; Wm. A. Snow, Mass.; John L. Soule, Ill.; and Geo. B. Fife, Washington, D. C.(at large); W. W. Beck, Maryland; Benjamin L. Coulson, O., and F. W. Ballschmider, Wisconsin; Charles T. Vogelgesang, Col.; C. S. Smith, W. L. Norton, and E. H. McDonald, N. Y.; R. N. Chappell, Ind.; G. B. White and D. H. Kreamer, Wis.; F. L. Eaton, Mich., and Porter Chandler, Mo.; W. W. Beck, Md.; Benj. L. Coulson, O.; W. A. Moffett, S. C.; Clinton V. White, Mo.; John P. J. Ryan and Chas. V. Butler, N. Y.; Lucius A. Bostwick, Mass.; H. L. Green, Kas.; John W. Dinger, Pa.; Claude Bailey, Ark.; H. W. Williams, Conn.; C. O. Bone, Iowa.

Comdr. Sampson, who is to assume command of the Naval Academy, arrived Sept. 8, and relieved Capt. Ramsay Sept. 9. Before taking charge the new superintendent met the officers of the Academy, and each in turn was introduced by Capt. Ramsay. The ceremony took place at the Academy library. Afterward Capt. Ramsay took farewell of the officers, leaving on the afternoon train for Washington.

(Correspondence of the Army and Navy Journal.)

THE MARINE BASE BALL CLUB.

The Champions of the Army and Navy of the United States played a one-sided game at Governor's Island, Saturday, easily defeating the Governor's Island Base Ball Club. The Marines had no difficulty in administering a crushing defeat to the above club. The Marine Base Ball Club has been very successful this year, having played twenty-nine games, and only losing six. They have played with nearly all the principal Base Ball Clubs of Brooklyn and New York.

GEORGE BOYCE, 1st Sergeant, U. S. M. C.
MARINE BARRACKS, NAVY-YARD, NEW YORK.

OUR COAST DEFENCES AND NAVY.

IN the short debate during the closing hours of the session of the Senate on the failure of the House to act with the Senate in making adequate appropriations for fortifications the following colloquy occurred:

Mr. Hawley—For many years we have done nothing towards the fortifications along the coast, except to cut grass and occasionally to put up a brick that has fallen down or clear out a ditch. For many years nothing has been given towards the renewal of the old works or to build substantial new ones.

The bill came here this year from the House giving $100,000, the old standard appropriation under which they painted a fence, cleaned a ditch, cut down a little grass, and put some black paint upon some honey-combed old gun along the fortifications and on top of some of our great works around our great harbors—notably I remember Fort Columbus in New York Harbor, where stand clumsy, old, useless iron guns, which they dare not fire upon the ramparts lest they shake the walls down.

The best of the forts have an 8-foot wall of granite, thinning down to 5 feet, through three of which walls the modern rifle will send its projectile. Some people think we can rely upon a sand bank. The largest steel rifles made will send their projectiles of 1,200 to 1,800 pounds through 70 feet of sand.

The upshot of it is that we are absolutely defenceless, so far as coast defences are concerned, against modern ships of war, which can have their own sweet will sailing through the entrances of our great harbors. By carefully compiled statistics they may safely anchor at Portland, Boston, New York, San Francisco, and other great cities under the reach of our guns with property to the amount of $4,500,000,000, these returns being taken from the official returns of taxable property in those cities.

I need not discuss the condition of our Navy. We are not quite so badly off there because we have a few respectable ships of the third, fourth, or fifth class, and we have an excellent body of officers, and we have as many as the great number of about thirty steel guns very nearly done for the armament of the Navy, a large majority of which are of the smallest size known in the use of the Navy.

Mr. Edmunds—That is not one gun for a State.

Mr. Hawley—It is not one gun for a State. A 6-inch steel gun carries a 100-pound projectile, and in the Washington Navy-yard we are finishing up about thirty guns, the majority of them of the smaller size. The work, though it is of limited extent, has been admirably done; but the heavy, rough forged parts of the 8 and 10-inch guns have been bought abroad, and we are absolutely dependent upon the mercy of foreign contractors for any guns we may make of the larger size.

There is not a manufacturing establishment in the United States that can make them, nor is there one that will contract to make them under the ordinary terms of an appropriation bill, because no wise manufacturer would put in a new plant costing $600,000 or $1,000,000 or more to build these guns depending upon an annual appropriation by Congress. No sensible man would do it; no man ought to do it.

We are building a few large guns by the leave of foreign countries, which can be forbidden in a moment by their governments refusing to let us have those rough parts. But it is an essential element in national defence that we shall be able to make our own weapons of defence. The Army has not one single high power modern gun. It has some very nice little field pieces of steel; it has a large number of old 15-inch and 10-inch guns, etc.; old cast-iron guns admirable in their time, and it has about 200 10-inch Columbiads altered down to 8-inch rifles, which cannot take a heavy charge of powder and are only useful for perhaps a thousand yards against vessels of the third or fourth class.

Mr. Gorman—The great trouble is, as all admit, that for 20 years past you have neglected the coast defences. No ample provision has been made for the construction of guns or to encourage manufacturers to make the best classes of steel. All admit that it should be done speedily, but there is a great distrust as to the ability of the officers in charge, the Army officers and the ordnance officers, to carry out this great work. There is a very serious division as to whether this large expenditure should be placed in their hands or placed in the hands of a board of experts consisting of Army officers and civilians.

HOWARD AND THE BOUQUET.

INCIDENT OF THE GRAND REVIEW OF 1865.

AN incident of interest to those who were present in our National Capital at the close of the War, is thus related by an eye-witness:

At the close of our bloody inter-State difficulties as will be remembered, one of the grandest military reviews of modern times took place in Washington. All the Armies of the Federal Government, both Regular and Volunteer, that had served in the Virginia and other contiguous campaigns, passed in review along the world-renowned Pennsylvania avenue before President Johnson and Cabinet, the Diplomatic Corps and Supreme Justices, and many foreign persons of rank. This was in May, 1865, only a little more than a month after the assassination of Lincoln. It took the whole day to review the remaining veterans of the War, those who had survived the bullets and the fevers of the "Old Dominion," and not two days, as has been generally stated.

The Army of the Potomac had just passed down the avenue on the memorable day in question, and Gen. Sherman rode at its head, some distance ahead of his staff. The avenue was black with enthusiastic spectators. A veritable sea of heads, roaring with excitement, greeted the veterans as they passed along. Each mounted General or staff officer's horse was ornamented with a wreath of flowers around its neck, made by the fair hands of patriotic ladies. Behind Sherman and staff, some distance off, rode Gen. Howard with his single arm. The cheering was so intense that General Sherman's animal began to grow restive, when the stand was reached that had been erected in front of the Treasury building, and filled with girls dressed in white, bearing baskets of flowers which they flung at the heroes of the victorious Army. At this point a handsome young lady stepped out to present an elegant bouquet to old Tecumseh, but his charger was too restive to admit of his taking it, and the old hero exclaimed to an old soldier near, in a sonorous voice, loud enough to be heard many feet off, "Give it to Howard." The crowd shouted to Howard to take it, and the latter, putting his reins into his mouth, placed a bouquet that he had been carrying already under his surviving arm, and gracefully accepted the sweet offering from the hands of beauty. The roar of the multitude at this act was said to have been as mighty as a cataract. Cheers rent the air for several minutes, and the scene was simply indescribable. Perhaps old Tecum or some of the heroes remember it yet.

FUTURE GENERALS.

To the Editor of the Army and Navy Journal:

IF the Civil War is to be considered a criterion, none of the colonels or generals would perform any active service in the next war. The generals of that war will be the men who at its commencement were lieutenants, and probably 2d lieutenants, for many of our 1st lieutenants are as old to-day as the Lieutenant-General was at the end of the last war. The promotion from time to time that agitates the Army, and divides it into parties, each urging its favorite, resolves itself into deciding which particular colonel shall hereafter, as brigadier-general, perform similar duties in an office in a city in citizen's clothes, with a staff of higher rank; and which particular brigadier-general is hereafter, as major-general, to perform similar duties in a larger city with a staff of still higher rank.

As these officers are not to go into the field, can we not have some regular rule for their promotion that will prevent the excitement, bitterness and hatred it now causes?

It is reasonable that colonels should wish to be generals, and very natural that generals should wish to hold on to their positions as long as possible.

Their incomes are comfortable although moderate. They have the advantages of cities for the education of their children and for society. Their duties are easy and agreeable, and, as any officer can perform them, they have the advantages of leaves of absence without the expense other line officers incur. The position gives them social and official prominence, and among military men they are autocrats.

They are "not bothered by the damned soldiers," which Prince John Magruder considered the height of military bliss.

"FOGY."

A BAR HARBOR correspondent writes: A few days ago I met in the street a bold, buccaneer-looking individual, whose muscular figure, bronzed color and air of vitality and high-pressure energy were in marked contrast with the spindling young men lounging about:

He was evidently fresh from the raging main. Standing with his legs wide apart, with a long-visored naval cap pulled down well over his eyes and with his hands plunged deep into the pockets of his heavy-ribbed blue corduroy suit, he had the appearance of a naval conqueror about to take possession of a town to sack and destroy. Suddenly he roared out, "How are you?" and then I recognized him as A. E. Bateman, a former officer of the United States Navy, and the gentleman who procured the practical suspension of Judge Advocate General Swaim from the Army. He is the Vice-Commodore of the American Yacht Club, and is at the same time one of the most active brokers in Wall street. At the time I met him at Bar Harbor he was out with his wife and a party of friends on a cruise on his steam yacht *Meteor*.

Some West Point cadets are being tried for making a "rush" there the other day in disobedience of Superintendent Merritt's orders. The boys claim that in the excitement they forgot that General Merrit was the Autocrat of all the Rushers.—*Critic.*

ARMYNAVY.

SURRENDER OF GERONIMO.

IF there is any service rendered by our Army of late years that demands public recognition and reward, it is that for which we are indebted to General MILES and his soldiers in the capture of GERONIMO and his band of marauders. No one who has not actually taken part in the campaign in Arizona can realize the difficulties of the task finally accomplished. The recognition of this service by the Lieutenant-General has been prompt and generous, and it should set an example for the Army and for the country. Past experience gives little hope that an attempt will be made to reward the services of our soldiers in a substantial way, but at the very least, a general order should be issued, mentioning by name all who have especially distinguished themselves by their zeal and efficiency. The recognition they have thus far received has been chiefly the kicks and cuffs of adverse criticism. Now that they have silenced their accusers, it is little enough to ask that those whose duty it is to officially recognize merit should take advantage of the opportunity for speaking in their praise. It is nearly a quarter of a century since the attention of the country was fixed upon the grand battle fields where popular reputations were made, but, though that opportunity has passed, as we hope for ever, our Army has not ceased to thirst for the reward so dear to the soldier—the public acknowledgement of honorable service.

Soldierly achievement has never been measured by the extent of the field upon which it was displayed, for the three hundred Spartans who fell at Thermopylæ have the highest place in history. Nor is devotion to public duty to be judged alone by the sacrifice of life it involves, however much this may appeal to the popular imagination and to public applause. It is by the difficulties overcome that the service of our soldiers is to be judged, and the trials and hardships of the campaign in Arizona, thus happily brought to a close, have been abundantly set forth in the correspondence which has appeared in our columns, and is again presented in connection with this final episode in a letter which appears elsewhere.

We must await fuller information as to the exact terms of GERONIMO's surrender before commenting upon it in detail, and meanwhile it is instructive to read the article on the "Apache Problem" by General GEORGE CROOK, which apppears in the *Journal of the Military Service Institution* for September, as well as the "Apache Campaign Notes" of Lieutenant J. S. PETTIT, in the same periodical. General CROOK shows how the invention of breechloading arms, adapted to use in the saddle, has changed the nature of warfare with all Indian tribes, and added to an almost incredible extent to the difficulties to be contended against and overcome in the case of the Apaches. In describing the organization of his system of scouts he answered a criticism made upon him by saying that the commanders of the Indian scouts have been, as a rule, selected "from the younger officers whose health is still unimpaired, and whose ambition is a guiding motive, rather than from officers of more experience upon whose vigor and energy the effects of long service have begun to tell." The Apache scouts, he says, "for this class of warfare, are as worthy of trust as any soldiers in the world, and in all the experience I have had with them have proved themselves energetic, reliable, truthful and honest." There is undoubtedly much difference of opinion as to this, and when we have fuller account of the experience of General MILES we may have further light upon the subject.

BATTERIES OF THE NEW CRUISERS.

IN the JOURNAL of August 27, appeared a communication from a naval correspondent, which commented seriously upon the alleged unprotected arrangement of the guns of the new cruisers. Thus far our correspondent's grave exceptions have elicited no response in defence of the battery designs of the vessels, although it is desirable that the work of reconstruction of the Navy should be thoroughly discussed as to its effective details especially. If we are to go abroad for a type of warship construction, not only adopting designs *in toto* but copying individual details, it is certainly best to consider both designs and details carefully with regard to their defensive as well as their offensive merits. The French have for some years been building ships with their heavy ordnance mounted in barbette-turrets, obviously a more secure arrangement for guns and gunners than that which we have copied from the British builders of setting the guns on sponsons, protected only partially by segmental shields; yet the French are finding out that the armament of their best vessels is very inadequately defended against quick-firing and revolving cannon of the HOTCHKISS type. One of the most effective ships of the French Navy is now near completion at Brest, and will probably be ready for trial by the end of the year. Of this ship, *Le Yacht*, a very ably edited marine authority, says:

The *Terrible* is a warship similar to the *Indomptable*, and like her armed with two 42 cm., 75 ton guns, in barbette turrets, one forward and the other aft, in addition to a battery of 10 cm. guns, on Vavasseur carriages, and revolving cannon. What strikes us at first sight of this ship is the very small protection of her enormous guns. Here are two great pieces of 42 cm. calibre, the largest in our service, in spite of the steel shield partially screening them, practically at the mercy of revolving and rapid firing cannon. All the action of the guns, their aiming and loading, being operated by mechanical means, the slightest damage to a single part of this machinery will disable the armament. This is truly a

circumstance that disconcerts our hopes and forces the question whether the barbette-turret system, so generally adopted in our navy, does not deserve the adverse criticism it has received. The experiments with the *Provence* have demonstrated the destructive power of revolving cannon and the necessity of secure defence against the projectiles discharged by repeating ordnance. The designers of barbette-turrets should earnestly consider the best mode of preserving the armaments they carry from the serious incidents that are not incapable of paralyzing the effectiveness of too many of our most valued warships.

The experiments referred to with the *Provence* were prosecuted recently to test the effect of a machine gun fire, at a range of 1,200 to 1,500 metres, on the deck and barbette batteries and tops of a hostile vessel. The officers and crew were represented by dummies. The result showed that the HOTCHKISS revolving and quick firing cannon were al together too powerful for segmental or other shields and that batteries so protected would soon be indefensible. The *Provence*, which had been condemned, was towed to a convenient spot and was attacked by the *Colbert*, *Duperré*, *Devastation* and *Redoutable* at various short ranges, first Hotchkisses and then with musketry. The results, says *Le Journal de la Marine*, were terrible; the deck of the frigate was riddled with splinters of shells, which would cer tainly have put all the officers and gunners who were exposed *hors de combat*.

The lesson taught by this trial has obviously made a serious impression upon the French experts, and should be carefully considered by our own designers. However fast our new cruisers may turn out to be—and we hope their sea speed will be actual rather than hypothetical or based upon the illusive suggestions of a "measured mile" test—they are intended to fight should the occasion come for fighting, and it is important that the defensive as well as the offensive features of their construction shall be as perfect as American science and execution can make them.

RETIREMENTS IN THE ENGLISH SERVICE.

ONE of the first acts of the new English administration is to suspend compulsory retirement, which, according to the *Army and Navy Gazette*, has resulted in "financial paralysis with, as its only set-off, a long list of confiscated commissions and broken hearts." "Purchase," it adds, "was abolished avowedly to protect poor officers, who could not buy their steps, and yet the legislation which was evolved out of this identical measure eventually ruined many of the very men whose interests it was professed to be their desire to guard! It is now about two years since the Marquis of Salisbury spoke some touching words in the House of Lords regarding numerous sad cases that had come to his notice of officers scattered over the face of the world, broken in spirits and professionally ruined through the penal awards attached, for the first time in the history of the army and navy, to misfortune. The German Army," it concludes, "is cited as an example of the organization to be imitated. Many officers of that country have, in the last few years, been heard to observe—'How is it that a practical, common-sense nation like England is dismissing wholesale from the Army officers, in the prime of life, who, if they are worth their salt, must have acquired experience which is invaluable, in order to make way for those who will need many years to acquire it?'"

A similar system has been applied to the English Navy, where promotion became so slow that officers remained on the active list, especially in the higher ranks, long after arriving at the retiring age. In 1870, during the period of Mr. CHILDERS's control as First Lord of the Admiralty, a scheme was framed by which the active list has been reduced to the number required by the actual wants of the Service, and provision for a regular flow of promotion has been made by enforced retirement for age and non service afloat.

The regulations at the present time in force in the English Navy require that admirals and vice-admirals retire at sixty-five years of age; rear admirals at sixty, or if their flag has not been hoisted for ten years; captains at fifty-five, or at any age if seven years have elapsed since last service; commanders retire at fifty, and lieutenants at forty-five, or at any age after five years of non service; sub-lieutenants are retired at forty years of age. [Order in Council, Feb. 5, 1872.] Flag officers, captains, commanders, and lieutenants can retire some years before the age of compulsory retirement, and their retired pay, all or part of it, may be commuted for a lump sum. Staff captains are retired at sixty, or at any age after non-service for seven years; staff commanders retire at fifty-five, and navigating lieutenants at forty-five, or after five years of non service; chief engineers retire at fifty-five, or after five years since last service; chaplains retire at the age of sixty, or after five years of non-service; medical inspectors and deputy inspectors of hospitals retire at sixty, or after five years of non-ser vice; fleet surgeons, staff surgeons, and surgeons are retired at fifty-five, or after five years of non-service; paymasters retire at sixty years of age; naval instructors are retired at sixty, or after three years of non-service. These officers can obtain permission to retire five years before reaching the age when retirement is compulsory. The object of these regulations has been to favor promotion, the employment of none but vigorous men, and the reduction of the active list to the number deemed necessary for the Service.

THE Army and Navy Hospital at Hot Springs, Arkansas, will be open to patients some time during October. Due notice of the opening will be given by circulars from the War and Navy Departments, containing all necessary information as to the particular classes of disease which may be benefited by treatment there, and as to the proper procedure for obtaining admission. Major D. L. HUNTINGTON is now engaged upon these circulars, and they will be issued as soon as Major RICHARD S. VICKERY, the surgeon recently designated to take charge of the hospital, has reported that everything is in readiness for the presence of patients. The hospital will be practically under the control of the Army, though surgeons of the Navy will be detailed for duty there whenever a sufficient number of sailor patients have arrived to require their presence. Details of Army and Navy surgeons will be made by the Secretaries of War and Navy, respectively, in such numbers as may be deemed necessary. The selections will depend a good deal on the officer in charge, and, of course, no details will be made until he has learned how many patients are expected at the opening. The JOURNAL of June 19 contained an announcement of the issue of a General Order, No. 36, prescribing rules and regulations for the government of the hospital. It is to be known as the "Army and Navy General Hospital," and is to be restricted to members of the two Services and the Marine Corps. A charge for subsistence, not to exceed $1.50 a day, will be made against officers under treatment, and the rations of enlisted men will be commuted at 30 cents per day, to be paid to the surgeon in charge. The order provides that—

> The organization of this hospital shall include one medical officer of the Army, who shall be the surgeon in charge, and who shall be detailed by the Secretary of War; such medical assistants from the Army or Navy as may be deemed necessary, detailed by the Secretary of War, or by the Secretary of the Navy; one officer of the Quartermaster's Department of the Army, who shall also be Acting Commissary of Subsistence, if required, detailed by the Secretary of War; one hospital steward, and such civil employees as may be necessary for the proper service of the hospital, in accordance with the act of Congress appropriating money for the payment of such employees. The civil employees of the hospital shall be selected by the surgeon in charge with a view to their fitness and capacity, and upon the approval of the Secretary of War. The surgeon in charge is authorized to prepare such rules and regulations for the internal government of this hospital as may be, in his opinion, necessary and proper for the maintenance of discipline and for the interests of the institution, subject to the approval of the Secretary of War.

WE have received a fuller account of the trial of the 8-inch steel breech-loading rifle at Sandy Hook, Sept. 1 and 2, which we reported last week. The gun was fired ten rounds at a 3,000-yard target to determine the relative accuracy of two widths of projectile bands on trial. The charge was 100 pounds of DUPONT'S powder, with a 285 lb. projectile. The velocities were uniform, being 1,780 feet (nearly) at 150 feet from the muzzle of the gun. The bands differed in width by 0.2 of an inch, and the results of five rounds with each were in favor of the wider band, with which the following results were obtained:

> Mean vertical deviation from centre of impact, 1.9 feet.
> Mean horizontal deviation from centre of impact, 1.56 feet.
> Mean deviation from centre of impact, 2.46 feet.

The pressures in the bore of the gun were nearly uniform and somewhat below 35,000 pounds per square inch. The regular proof rounds will not be fired until a sufficient quantity of the new grade of powder, which DUPONT is now manufacturing, has been furnished.

IN accordance with the provision of the recent law appropriating one million dollars towards the armament of the vessels of war soon to be advertised for, and for the unfinished monitors, the Naval Ordnance Bureau are preparing advertisements inviting bids from American steel munufacturers for supplying guns in rough for all the vessels. Commo. SICARD ran down to Washington from his resting place in New York for a few days this week to put the finishing touches on these advertisements. They are now complete, and only await the approval of the Secretary before publication.

IN his contribution to *Outing* for September, entitled "After Geronimo," Lieutenant John BIGELOW, 10th Cav., U. S. A., has the criticism that follows:

> We should have a more honest and generally better class of colored men in the Army if our colored regiments were recruited exclusively by officers of those regiments; for, as compared to the general run of officers they are better judges of colored people. I see from recent orders that now, when our troops are not even taught the use of their arms, they are to be taught the waving of a signal torch and flag and disk, and what not, and monthly reports of this *wig-wag*, as the drill was called at West Point, are to be furnished the Chief Signal Officer of the Army, which means more scribbling for the Lieutenants.

IN the absence of the President and Secretary ENDICOTT, there is absolutely nothing new to chronicle in connection with the appointment of a Chief of Engineers and a Surgeon-General. It is hardly possible that either of these places will be filled before the return of the President.

THE provision in the bill appropriating funds for the new cruisers, requiring that all materials used shall be of domestic production, is, in our judgment, a wise one. To secure a permanent reorganization of our offensive and defensive power over land and sea we must recognize and develop the material and inventive resources upon which we shall have to depend in the event of foreign war. It is ignorance of our home resources, or a want of disposition or ability to make use of them, which has prompted the call for foreign material. This was shown notably in the discussion upon the bill providing for the new cruisers. We recall particularly the exception taken by Senator McPherson, of New Jersey to the provision of the bill above referred to, on the ground that he had been informed that it would be a benefit to permit the importation of a small number of articles pertaining to engines. There were other interpellations of a similar character in Senate and House. It is understood that Senator McPherson's informant was Mr. Cramp, of Philadelphia, and that the conspicuous default of American ingenuity sought to be remedied by a resort to British workshops was the Corrugated Boiler Furnace.

In the JOURNAL of last week we stated that this furnace is of American origin. For some years it has been produced at Leeds by the Leeds Forge Co., the British Patent Law allowing anyone to secure the patent of an invention not previously entered in the Office. It is now used in the best ships of the merchant marine and the Royal Navy; in fact no first class steamer of modern construction would be considered perfectly appointed in her boilers, if the corrugated furnaces were not in use. But it is not necessary for us to go abroad for them, as the corrugated furnaces of Montgomery's invention can now be obtained in this country. Messrs. T. F. Rowland and Co., of the Continental Iron Works, Brooklyn, have been for some months erecting the plant for the production of the Montgomery furnace, and are now ready to supply them. The corrugated furnaces turned out by this firm will be counterparts in all respects of those made at Leeds; of guaranteed strength after test by hydraulic pressure of 300 lbs. per square inch, and of any size not exceeding the maximum now required of 8½ feet length and 4 feet internal diameter.

AS SHOWING that the recent order of Secretary Whitney is not the outcome of a new idea or of recent origin, the following extract from a letter addressed to Hon. John P. Hale, while Chairman of the Senate Committee on Naval Affairs, by Gideon Welles, Secretary of the Navy, is interesting. The letter is dated March 25, 1862: " * * * I have already given orders to construct fifteen and twenty-inch guns, but their manufacture is attended with great difficulties. * * * There are but few establishments in the country willing to undertake the manufacture of these guns. * * * It is therefore earnestly requested that an appropriation of $500,000 be made to extend the grounds and to build furnaces at the Washington Navy-yard, where some of the lathes and turning machines are already in operation. In that event the anchors and cables now manufactured at that yard should be transferred to some other station, leaving nothing to be manufactured but

guns, ordnance stores, and matters pertaining thereto." In the same letter Mr. Welles concludes: "Finally, I would ask that the sum of $30,000,000, including the appropriations already made the present session, be appropriated for ironclad vessels, heavy ordnance, and plating. * * *"

THE *Liberté* announces that the Council of State has decided on cancelling the decree of the Minister of War which struck the Duc d'Aumale's name off the Army List, on the ground that the property of the grades was inviolable, and that His Royal Highness's title to his rank could not be contested. The *Soleil* observes: "The Princes received their commissions in a regular manner, and according to laws existing at each period. The Prince de Joinville and the Dukes of Nemours and Aumale were appointed under the Monarchy, in conformity with the laws of the Monarchy. Prince Murat was appointed under the Empire, in conformity with the laws of the Empire. The Dukes of Chartres, Alençon, and Penthièvre, together with the young Prince Murat and Prince Roland Bonaparte, were appointed under the Republic in conformity with the laws of the Republic; and Prince Henry of Orleans was about to go through the regular examinations for entering the School of St. Cyr." It will require a good deal of special pleading to prove that all these commissions were obtained illegally.

THE Transcaspian Railway, the first in Central Asia, was completed as far as Merv in July last, having a total length of 700 versts (500 miles), a great part of it being across a particularly bad desert; one which, with great risks, could not be traversed in less than 30 days, but is now passed in 12 hours. It is now being continued in such a way as to pass by Bokhara, and will reach as far as Samarkand. The railway was originally the idea of Gen. Skobeleff, and the first section of it was made immediately after the capture of the Akhal Teke oasis. Before the year is out it will have reached almost to Samarkand, which is 1,000 miles from the Caspian Sea, but only 500 from Peshawur. Lord Beaconsfield has the credit of giving to Russia her first great impulse towards new frontiers in Central Asia, the beginnings of the Afghan trouble being found in Bosnian and Herzegovinian questions.

A COURT-MARTIAL is to be ordered for the trial of Captain Wm. S. Johnson, U. S. Army, retired, on the charge of duplicating his pay account. Two accounts for the same month were recently paid; one by the Paymaster in New York and the other in Washington. As neither were presented by him in person the presumption is that they were both hypothicated. Captain Johnson was recently detected in the commission of the same offence and let off with a reprimand from the Secretary of War, in view of certain extenuating circumstances, which do not appear in this instance. In 1869 Captain Johnson was tried and dismissed for irregularities in the issue of quartermaster's stores, while acting as regimental quartermaster of the 43d Infantry, the charge being "conduct unbecoming," etc. He was subsequently reappointed and being mustered out as a supernumerary under the Act of 1870, was again reappointed and placed on the retired list.

THE advertisements heretofore referred to, inviting designs for the two large armored vessels authorized by the last Congress, have been prepared and are to come out as soon as those inviting bids for the five already designed have been published. As previously stated, foreign shipbuilders will be given an opportunity of submitting designs for these vessels. There is a suspicion that Commodore Walker's visit abroad is connected in some way with this subject. The orders under which he is travelling have not been made public, but it is known that his trip is not for pleasure alone.

THE few officials and clerks of the War and Navy Departments, who are not enjoying a leave of absence, find plenty of business to engage their attention in the compilation of the annual estimates which the law requires should be in the hands of the Treasury official by Oct. 1. As this is to be the short session of Congress, it is the desire of the Treasury people that the law be strictly complied with this year, which is not always the case. The Appropriation Committee of the House purpose meeting about a month in advance of the opening of Congress, in order to get the appropriation bills in shape early in the session.

THE claims of officers and soldiers for bounty, longevity, and other back pay provided for at the last session of Congress are being paid as rapidly as the limited force of clerks in General Dewey's office can make out the necessary papers. At present they are being settled at the rate of about 100 per day, but after Sept. 16 several new clerks will be added to the force, and it is expected that about double that number can be disposed of. Of the 9,000 claimants about 2,000 have thus far received their money.

THE San Francisco *Report* is not wont to overpraise the Army, but referring to the recent long march of General Forsyth's Cavalry, in Arizona, finds itself constrained to say: "The performance was a most brilliant one."

FIRES are reported at Fort Snelling and Plattsburg Barracks this week, but the damage was not serious.

LATE ARMY ORDERS.

A board of engineer officers, consisting of Lieut-Cols. Henry L. Abbot, Cyrus B. Comstock, and Walter McFarland will convene in New York to examine for promotion of Capt. Jas. C. Post, 1st Lieut. Eugene Griffin, and 2d Lieut. Irving Hale. (S. O., H. Q. A., Sept. 9.)

Col. Thos. M. Anderson, 14th Inf., will, upon expiration of his leave, join his regiment in the Dept. the Columbia. (S. O., H. Q. A., Sept. 9.)

Lieut.-Col. Geo. M. Brayton, 9th Inf., will report for assignment to a station in the Dept. of Arizona. (S. O., H. Q. A., Sept. 9.)

Major Hugh A. Theaker, 15th Inf., will report for assignment to a station in the Dept. of Dakota. (S. O., H. Q. A., Sept. 9.)

Leave is granted Lieut.-Col. John D. Mizner, 8th Cav., for two months after being relieved from recruiting service. (S. O., H. Q. A., Sept. 9.)

The sick leave of Capt. Emerson H. Siscum, 19th Inf., is extended two months. (S. O., H. Q. A., Sept. 9.)

Lieut.-Col. Henry L. Chipman, 7th Inf., is granted four months' leave. (S. O., H. Q. A., Sept. 9.)

A. G. C.-M. will meet at Washington Barracks, D. C., Sept. 13. Detail: Maj. Edm. C. Bainbridge and Capt. Edw. R. Warner, 3d Art.; Capts. Timothy E. Wilcox, Asst. Surg.; Lewis Smith, and James Chester, 3d Art.; 1st Lieuts. Geo. A. Thurston, Chas. Humphreys, John D. C. Hoskins, Adjt.; Chas. Sellmer, and Wm. E. Birkheimer, 3d Art., J.-A.

GERONIMO CAPTURED AT LAST.

THE news of the capture of Geronimo and his followers was received early in the week. General Howard telegraphed to A. G. O. Sept. 4:

Gen. Miles has returned to Fort Bowie with Natchez, the son of Cochise; Geronimo and his brother, with three other Apaches, as prisoners of war. They surrendered unconditionally Sept. 4. Capt. Lawton is followed with the remainder of the hostiles, thirty-six adults and three children in all.

A Washington despatch of Sept. 7 says: "Gen. Drum, Acting Secretary of War, was in good spirits on account of the surrender and said it was the end of a war running with brief intermissions through 25 years, and Gen. Miles deserved credit for his vigorous work. Capt Lawton had also distinguished himself as a gallant officer and his pursuit of the hostiles under adverse conditions and hardships was thoroughly commendable."

Later orders are to the effect that the Apache and Warm Spring tribes are to be sent at once to Fort Marion, St. Augustine, Fla., with the exception of Geronimo and other Apaches recently captured.

A later despatch says:

Capt. Lawton arrived at Fort Bowie Sept. 8 with all of the Apache prisoners except four bucks and three squaws, who failed to surrender as promised. Gen. Miles immediately placed Geronimo, Natchez, and the rest of the band under a strong guard and hurried them to Bowie station, where a special train was in waiting to bear them to Fort Marion, Fla. The captives are in charge of Capt. Lawton, who will see them safely to their destination.

Col. Langdon, U. S. A., commandant of Fort Marion, is making energetic preparations for the reception of the Indians who will number nearly 500. Gen. Miles has been the recipient of innumerable congratulations on his success. Among these are the following:

HERMOSILLO, Mexico, Sept. 6.

General Miles:

I thank you for your handsome news and congratulate you on your success. The capture of Geronimo and his band, and the moving of the reservation at Apache will undoubtedly secure permanent peace to the people of Arizona, New Mexico and Sonora. For what you have done in securing these benefits to Sonora I send you my most hearty thanks.

LOUIS E. TORRES, Governor.

WASHINGTON, D. C., Sept. 7.

General Miles:

I most heartily congratulate you and your officers and the men of your command for the unconditional surrender of Geronimo and his band. The perseverance, endurance and bravery displayed by all are worthy of the highest consideration. I sincerely thank you for securing peace and security to the Territories of Arizona and New Mexico.

P. H. SHERIDAN.

FORT MASON, San Francisco, Sept. 6.

General Miles:

Gen. Howard heartily congratulates you upon the happy termination of your Indian campaign, and extends his warmest expressions of thanks to you and your officers and men for the fidelity and energy displayed from first to last. The Apaches and Warm Springs Indians must be sent on straight to Fort Marion, Fla., as the President through the War Department directs. CHASE, A. D. C.

The following account is given of the surrender: Geronimo still clamored for an interview with Gen. Miles, but received no definite answer as to where an interview could be had. On Wednesday, Sept. 1, however, Capt. Lawton thought that the proper time had come to bring negotiations or parleying to a close. Accordingly he sent word to Geronimo that if he wanted to talk to Gen. Miles he must seek an interview at Fort Bowie. The captain thought that very likely the hostiles would make a break when Gen. Miles's ultimatum was delivered, and had taken every precaution to capture or kill them should they do so; but they made no attempt of any kind. Natchez, who is with the hostiles, was at once in favor of going to Fort Bowie, and Geronimo, evidently realizing that all was lost, soon yielded.

A start was made on Thursday, and the ever vigilant Lawton put yet another barrier between the savages and liberty. He placed other detachments of troops in their rear, and in such a position that if the savages should repent their determination and seek to regain their haunts south of the line they would find only capture or death facing them. It is believed that no attempt at escape will be made by the hostiles. They are nearly out of ammunition, and many of them are entirely naked, owing to the four months' pursuit so vigorously maintained by Lawton and his gallant command.

Notwithstanding all reports, Geronimo is not wounded, nor has he been during the campaign. Capt. Lawton has exercised the greatest vigilance over the scouts in his command. He always has a dark suspicion of treachery on their part. Their cartridges were counted to them and they were ordered to return the shells under penalty of death for disobedience or failure.

A newspaper despatch from Washington, Sept. 9, says:

The War Department is in a great deal of trouble over what shall be done with Geronimo now that he has been captured. Gen. Howard has telegraphed that Geronimo has surrendered unconditionally. Gen. Miles's despatch says: "The hostile Apaches surrendered to the troops in the field as prisoners of war." Geronimo himself says that he trusts to the mercy of Gen. Miles, but expects to be treated as a prisoner of war. Just before Gen. Crook was relieved and Gen. Miles was put in command the former informed the War Department that Geronimo was ready to surrender as a prisoner of war. The War Department, at the suggestion of the President, informed Gen. Crook that it did not desire his surrender in that way. Gen. Crook then said that he would issue orders that he should be taken dead or alive. The War Department informed the General that that would not be satisfactory to the Department. Gen. Crook then asked to be relieved. Geronimo came down from the mountains and surrendered. He was ready to do this, according to Gen. Crook's report, five months ago.

Gen. Drum, Acting Secretary of War, has instructed Gen. Miles to take Geronimo and his band to a secure place of confinement, and while it is not yet known at the Department where they have been taken, it is surmised that the captives have been removed to Fort Bliss, Texas, or some neighboring post.

WILLCOX, ARIZONA, Sept. 9.

A special train of three cars left Bowie station at 3 P. M., yesterday, having on board Geronimo, Natchez, and other hostiles in charge of Capt. Lawton, bound for Fort Marion, Fla. Gen. Miles goes with them to El Paso, and thence to Albuquerque to meet the train containing other Indians from the Apache reservation, who will be taken to Florida via Kansas City, St. Louis, and Atlanta. Intense enthusiasm prevails throughout the Territory over the knowledge that at last the murderous Apaches have been disposed of.

A despatch to the New York *Herald* from Tombstone, A. T., Sept. 9, says:

Some interesting facts regarding the part taken by Gen. Miles in securing the removal of the hostile Apaches from Arizona have come to the knowledge of your correspondent. When Chatto at Washington was petted and praised by the various Departments, and it was decided that he should return to the San Carlos Reservation and receive proper treatment, and the Secretary decided to have him return, they started him from Washington without notifying Gen. Miles. This that officer very properly considered a discourteous proceeding on the part of the Government, and at once wired a vigorous protest against the return of the marauder, and ordered that he and his companions be meanwhile detained in Kansas until Secretary Endicott could be heard from. The Secretary telegraphed to Gen. Miles that if good and sufficient reasons were not presented to him at once Chatto and his friends would be sent to the reservation at Fort Smith.

The reply of Gen. Miles is worthy of the man and the occasion. He at once notified Secretary Endicott that he would forward his reasons for not desiring the return of the Apaches to the reservation. Here is a portion of the reply:

"You ask me why I desire the removal of the Apaches from the Territory? I will tell you in as few words as possible. I ask it in the name of the Territory whose prospects and progress have been blasted and retarded by the fiendish cruelties of those Indians. I ask it in the name and on behalf of the widows and fatherless children whose lives have been wrecked and whose future has been darkened by the murdering raids of these fiends. I ask it in the name of the thousands of lives that have been offered up as a sacrifice to the reservation system. Finally, I ask it in the name of civilization, which can never make an advance in this Territory so long as the Indians are allowed periodically to terrorize the country."

The latest information is that General Drum has ordered the surrendered hostiles to be sent to San Antonio until a determination is arrived at as to their final disposition.

THE Sacramento *Bee* has a long account of H. Brickwedel who, it says, passed through the city recently on his way to San Francisco to report to Gen. Kelton as a 2d lieutenant. The *Bee* says: "Brickwedel is one of the best rifle shots in the country, and while serving under Capt. Lawton had ample opportunity to exercise his marksmanship on the Apaches. Some time ago he was ordered to Fort McDermit, where he was when a commission of 2d lieutenant reached him and he was ordered to report to Gen. Kelton at the Presidio by midnight. Brickwedel was taken by surprise at his promotion, which was the result of a recommendation from Gen. Miles to the War Department." No person of this name has been commissioned 2d lieutenant, nor examined for a commission, nor recommended for one; so far as known at the A. G. O., Gen. Kelton is not in San Francisco. "Brickwedel" is a private in Co. K, 1st Infantry.

PRIVATE letters which we have received from Madrid state that Spanish society has been thrown into excitement by the sudden exile of one of the handsomest and most dashing officers of the Queen's Guards. The officer was continually on duty in and about the royal palace. He fell violently in love with his Sovereign, and, making no concealment of his passion, revealed it in various ways. One day he made his way to the Queen's boudoir, and, throwing himself at her Majesty's feet, poured forth his tale of passion. But alas for his devotion! the Queen banished him from her presence, and hinting to her Ministers that his absence would contribute to the repose of her mind, the Secretary for War interyened. He signed an order next day, ordering the removal of the cavalry regiment, to which the officer is attached, to a town remote from the capital. The gentleman belongs to a powerful aristocratic family. Nevertheless, he is likely to have a warm time in the regiment, which, in consequence of his escapade, has been ordered into virtual exile.—*Broad Arrow.*

(Correspondence of the Army and Navy Journal.)

THE CAMPAIGN IN ARIZONA.

IN THE FIELD, Sept. 1, 1886.

"Ascend the watch-tower, yonder, valiant soldier,
Look on the field, and say how goes the battle."

I LEARN from despatches received last night from Lawton that the hostiles are with him. They are encamped on one side of the San Bernardino and he on the other. They have agreed to come in with him and it is the general impression here that the "war" is over. They are coming in as they did with Crook. Yesterday Gen. Miles ordered all the Chiricahuas at Apache to be arrested, disarmed, and confined, which was successfully accomplished by Col. Wade. They have 65 bucks in the forage house up there. This is preliminary to transporting them out of the Territory.

Courier just in from the South says orders were sent down to the troops at San Bernardino last night from Gen. Miles to force hostiles to surrender this morning or fight. Troops at Rucker Cañon, of the 10th and 4th Cavalry left yesterday for San Bernardino. Colonel Beaumont, of the 4th, with Troop I (Wood's), went down there three days ago when it was first learned that Geronimo had come in. Gatewood, who was sent into Sonora with two friendly Chiricahuas sometime since, to communicate with the hostiles, brought them in. Gatewood has had very extensive experience with the Chiricahua Indians for a number of years and is well known to all the members of the tribe.

It is stated that none of the hostiles have been hurt in the two engagements with the troops during the past summer. Geronimo, who was reported badly wounded, has not been scratched. Gen. Miles is at Fort Bowie awaiting a summons to proceed to San Bernardino should it become necessary.

The campaign against Geronimo, which, it is hoped, has thus happily closed, has been so plentiful of disappointments, until late, that it bids fair to rival the Florida War in duration. Quite as vexatious and more costly than that was, it has imposed an equal degree of hardship and privation upon the soldiers, without, however, an equal loss of life. It has been chiefly marching and hiding with us and no fighting, because the hostiles would have it so. A soldier was seldom killed, though occasionally a lonely prospector or *ranchero* furnishes a victim; some stock was stolen, a trail found, and we were thus made aware that the wily Chiricahua was still abroad engaged in murder and robbery, as time, inclination, and convenience suited him.

The obstinacy of Geronimo and his followers in their refusal to surrender or to fight was exasperating to the soldiers, deplored by the isolated settler, and rejoiced at by the sutler, the contractor and the numerous beneficiaries of the Quartermaster's Department. While to some classes Geronimo has been the scourge, he has, at the same time, been the life of Arizona. By reason of the drouth of the past year and the natural poverty of resources of the country, it is no great exaggeration to say that without the expenditures incident to the operations of the Army and the maintenance of the Indian Agency, the Territory would now be little more than a cattle pasture, and, as a whole, not a good one either. This Territory has its full share of the class of citizens who usurp, without courage or danger, the emoluments of war. They are not without influence or numbers in Arizona and New Mexico, and the appeals for more troops, and the invectives against faithful officers who have attempted to administer the public business with economical method, have usually been inspired by them. If it is true that Arizona has become "the graves of splendid military reputations," this class have prepared them. Individual fortunes of officers are unnoticed in the contemplation of battalions and regiments, with their commissariat, quartermasters' departments, and a multitude of guides, scouts, packers, and interpreters.

The difficulties, almost insuperable, of successful operation against the Chiricahuas in this country have been related to you in previous letters. Gen. Miles has labored with zeal and energy during the past six months for their capture or destruction. If one method failed, he immediately adopted another, believing that in time he would hit upon a plan of circumventing these Indians. The Arizonians, full of suggestions and zeal, were given a chance. They proved worthless, as was foreseen by officers who knew them well. "Long Knife Charley," "Bloody Dick," and "Poker Jim" raised sufficient funds for a joyful supply of the exhilarating liquid and a stack of food checks, "but nary scalp." A detachment of Mexicans were employed and a young lieutenant of cavalry at the head of them on foot walked away from them. Of course, they were nothing like the Mexican regulars, that can march their sixty miles a day. They were scouts whom, through the wisdom and patriotism of Congressman Laird and a few others, it was contemplated to organize into a legalized body of horse thieves by a bill framed with a more specious title in Congress last winter.

In this, like many other things attempted by American Congressmen, Mr. Laird failed to comprehend what would be the certain results of his bill had it become a law, as it is not to be presumed he intended to ally himself with the Apaches in their raids on the Arizona ranges.

The witty "Reverdy," who appeared in your columns in a recent issue in a somewhat presumptuous dissection of the military reputations of Miles and Crook, charitably observes that both have done their very best out here in Arizona. If "Reverdy" has been unjust, he has at least been amusing, and if he should put the Army to laughing, for a moment, at the expense of both officers, there are few officers who, in sober reflection, will refuse to accord to each the merit to which their reputation and rank in the Service entitle them. I do not think there are any partisans out here in the sense that "Reverdy" speaks of them, among the officers doing active service in the field. Gen. Miles has introduced many changes in the administration of affairs. His division of the two territories into many districts has been discussed as of questionable utility, and may, perhaps, at times, have caused confusion and a needless amount of detail, as has been alleged. Like the monks hatched in the valley of the Nile, who once darkened Europe and astonished with their numbers, the Department was suddenly invaded by a multitude of headquarters, district and post, and A. A. A. G. with all that machinery which involves so much circumlocution in the transaction of public business. But is not the General in doing this simply giving substance instead of shadow to the established and legal organization of the Army? Have we not Colonels, Lieut.-Colonels and Majors who, since Congress will not provide a place on the retired list for them and they are unable to take the field, can command in the posts and telegraph, heliograph, the youngsters how to pursue, flank and destroy the Indians? Perhaps a youngster may be permitted to observe that a precept of Gen. Grant, related by him at Chattanooga, would comprise about all the orders necessary in these Indian operations. "Get up just as close to the enemy as you can, then up guards! and at them!" It has been difficult to get close to Geronimo, but the merit of my suggestion will not lose in its appreciation by some for that reason. It ought not to cause pain or engender resentment to enunciate the proposition that since our own history has demonstrated that the most successful brigade and division commanders in *civilized warfare* did not exceed the age of 35 years, a man 50 years old is out of place in a campaign against hostile Indians. The ambition, the physical endurance, the temerity, and the fresh intellect of youth, with limited experience, are more useful and effective in such service. Perhaps somebody will discover after a while what is the matter with this Army.

It is too old, and with the best of brigadiers it cannot accomplish the results that a practice of the true principles of the art and a strict adherence to the rules of the profession will give with any army organized on a basis of adaptation to the use to be made of it.

Until recently we have heard but little of the hostiles' movements in Sonora. Occasionally they have made their presence known by some depredations which have been chronicled in the daily press. Captain Lawton has been operating down there some three months with cavalry, foot troops, and Indian scouts. He has a very efficient command, but the difficulties of that country are almost insurmountable. The greater part of the cavalry, which is not with Lawton, has been stationed in the passes and cañons of the several mountain ranges on our side of the line. The remaining cavalry troops, and all the infantry, with the exception of a few companies, are at the several posts doing garrison duty.

Last week it was reported through a Mexican scout that the Indians with a few Mexican allies were in the neighborhood of Fronteras and were desirous of making a treaty with the Mexicans in which they would stipulate no longer to molest the Mexicans and would abide in friendly commerce with them, if they would give them a home from which they would raid into New Mexico and Arizona. Shortly afterwards Torres, Governor of Sonora, telegraphed that the hostiles were at Fronteras and wished to treat. Four troops of the 4th Cavalry were immediately ordered to proceed to Fronteras. United there they were under the command of Col. Forsyth, of that regiment. The orders were to give the Indians the same terms as those given by Crook to the Indians who were sent to Florida, except that they should be required to deliver up their arms. If the Indians refused these overtures, no effort was to be made to surround them and strike them a hard blow. Forsyth despatched from Fronteras that the Indians all escaped.

Later, on Saturday last, a courier arrived at Huachuca with the information that a Mexican had seen a party, in which there were two Mexican soldiers, ladened with mescal en route to the camp of the hostiles in the mountains west of Fronteras. The Indians were supposed to be on a mescal drunk. Gen. Miles ordered Lieut. Lockett, who was with Forsyth at Fronteras, in command of a detachment of Pima Indian scouts, to proceed with his scouts and endeavor to surprise or engage them. The Pimas, 40 in number, were recently enlisted, and this is their first service. Their employment is due chiefly to the fact that they have been enemies of the Apaches from time immemorial, and it has been hoped that good service would be obtained from them.

NAVAL COLLEGE AND TORPEDO SCHOOL.

NEWPORT, R. I., Sept. 8.

THE Naval War College was opened September 6 for a course of lectures on the art of military warfare, and for an advanced course of professional study for naval officers. Captain Mahan, the superintendent, very properly requested Admiral Luce to open the course of instruction, and an instructive as well as interesting address was made by the Admiral. He spoke first of the foundation of the institution, and referred to the great necessity which existed at the present date in this as well as other countries for a college of war. In speaking of war, the Admiral said:

War has been called a game, and as a game it possesses a great interest to the majority of men, while to a certain order of minds it has a positive fascination. We find in civil life men who love to study the campaigns of the great captains of history, who read the life of Alexander the Great, made up wholly of his campaigns, with the eagerness with which others peruse the pages of romance. No one can read the stories of manœuvres, the play and counterplay of Turenne and his great opponent, Montecuculli, without a thrill of admiration for the skill displayed by these two well-matched adversaries, and although confined entirely to the land forces such campaigns are replete with valuable lessons to the naval officer.

It is our present purpose to build up with these materials the science of naval warfare. We are far from saying that the various problems of war may be treated as rigorously as those of one of the physical sciences, but there is no great question that the naval battles of the past furnish a mass of facts amply sufficient for the formulation of laws or principles which, once established, would raise maritime war to the level of a science. Having established our principles by the inductive process, we may then resort to the deductive method of applying those principles to such a changed condition of the art of war as may be imposed by later inventions or the introduction of naval devices.

The Admiral said that speed is an essential element in naval warfare. The grouping together of a number of important facts gathered from the accounts of naval battles will enable the naval student to lay down the principles for his own guidance in war. Among other things Admiral Luce said:

For having no authoritative treatise an the art of naval warfare under steam; having no recognized tactical order of battle; being deficient even in the terminology of steam tactics, we must per force resort to the well-known rules of the military art with a view to their application to the military movements of a fleet, and from the well recognized methods of disposing troops for battle ascertain the principles which should govern fleet formations. Thus from the known we may arrive at something like a clear understanding of what is now mere conjecture. It is by this means alone that we can raise naval warfare from the empirical stage to the dignity of a science. The fleet most thoroughly drilled in naval tactics will have the greatest advantage in war.

In his concluding remarks the Admiral said:

Having known the system by which it is proposed to conduct the course of study in naval warfare it is but just and proper to state at the outset that we are without instructors, or even text-books. This should be distinctly understood. But we have an instructor in naval history to tell us some of the great lessons of the past, and we have an instructor in military science to teach those of us who are willing to learn what he knows of the general principles of that science. It is our part to learn what we can of them; to draw our own conclusions and to make our own deductions; and to apply the principles which they illustrate by the operations of past wars, both at sea and on land, that we may formulate our own ideas on the subject of naval warfare. By doing this we adopt the comparative method. Inspired by the example of the warlike Greeks and admonished by the warning of the modern English and knowing ourselves to be on the road that leads to the establishment of the science of naval warfare under steam, let us confidently look for that master mind who will lay the foundations of that science and do for it what Jomini has done for the military science.

The series of lectures to be read by prominent Naval and Army officers and professors of the Naval Academy began Sept. 7 with an address by Admiral Luce on "Grand Tactics." In speaking of naval tactics the Admiral said that this term has been used in such a general way as to lead to some confusion of ideas regarding its true meaning. Tactics has been well defined as the art of military movements. Naval tactics is the art of conducting the military movements of a fleet. Battle being the chief object and end of a fleet, the order of the battle contributes the principal formation, and to bring the vessels composing a fleet from any given order to the order of battle is to perform an evolutionary or tactical movement. The two different branches of tactics as represented by Admirals Howe and Nelson are: First—Minor, elementary or evolutionary tactics. Second—Fighting or grand tactics, or the tactics of battle. While the Signal Book furnishes the necessary instructions in the evolutions of a fleet, still there is no recognized code of fighting tactics. Minor tactics change with the change of arms or improvement in naval architecture. Not so with grand tactics. But whether it was Drake or Nelson or Perry, the victory has generally been with that leader who had the skill to throw two of his own ships upon one of the enemy's. That is one of the most valuable lessons of all naval history, and that is one of the fundamental principles of the science. It is the capacity to carry out that principle that gives evidence of the skilful tactician; it is the ignoring of that principle that serves as one of the most impressive warnings of naval history. In former years the Signal Book was the only manual of evolutions, and that was sedulously guarded from the eyes of the profane. For fear it might fall into the hands of the enemy, as it did on one or two notable occasions, or be surreptitiously copied by traitorous hands, it was heavily weighted with lead, and when not in actual use kept within the sacred precincts of the captain's cabin, whence none but the elect might take it. In the event of defeat it was to be cast into the sea.

Sept. 9 a lecture was delivered by Admiral Luce on the moral effect of victory, as illustrated by the battle between the *Monitor* and the *Merrimac*. A parallel was drawn between the effects produced in England and France by the surrender of Burgoyne and his army in 1777, and those produced by the victory of the *Monitor*, and striking similarity of the moral and political results pointed out.

Comdr. W. B. Hoff, U. S. N., then lectured on the ship in action on the open seas. Most authorities agree, said he, that during an action the highest speed should be maintained by the ship; that the speed is even of greater moment to a ram than handiness or turning power, and that a powerful stern fire is at least as important as a powerful bow fire. The ram is the most formidable of all the weapons of the ship, and its use requires practical study. "If your ship is a ram," said the lecturer, "and you are chasing an enemy, and you have superior speed, do not keep in his wake as you might run on top of a torpedo which he has thrown overboard. Keep a little on his quarter, and as you draw well up on his broadside sheer into him as normally as you can, trying to destroy his crew and rudder. This is a good maxim." In speaking of two ships attacking one, Capt. Hoff said: "Two vessels should keep within one cable of one another."

On Monday next John C. Ropes, from Boston, will lecture on "The Battle of Gettysburg."

A large number of officers of the Navy and Army were present at the opening of the college. Coaster's Harbor Island, where the College is placed, is a magnificent piece of property which the people here ceded to the United States. The staff of the college and the subjects they will instruct in are as follows:

Captain Mahan, U. S. N., president—Naval History and Naval Tactics.

Lieutenant Tasker H. Bliss, 1st U. S. Artillery—The Science and Art of War.

Professor James R. Soley, U. S. N.—International Law.

Medical Director Dean, U. S. N.—Naval Hygiene.

Lieutenant Meigs—Advanced Course in Gunnery.

Lieutenant Cornwell—Adjustment of Compasses of Iron Ships.

Commander C. F. Goodrich, Commandant of Torpedo Station—Maritime Defences.

Lieutenant C. C. Rogers—Naval Staff Duties.

Naval Constructor Gatewood—The Preservation of Iron Ships.

The following is a list of the civilian lecturers and their subjects:

John C. Ropes, of Boston—The Battle of Gettysburg.

General Palfrey, of Boston—Yorktown Campaign.

General John M. Corse—Altoona Campaign.

The college class proper consists of 17 officers from the late Torpedo Class, and several other officials have signified their intention of being present.

The graduating exercises at the Torpedo Station last Friday were entirely theoretical. There being no available funds the practical experiments formerly employed on similar occasions were not introduced.

The following subjects were considered theoretically: Planting mines, countermining, landing submarine mines, destroying booms attached to torpedoes, clearing channels of torpedoes, and destroying lines of torpedoes in channel. The list of the graduates has already appeared in the columns of the JOURNAL. Captain Sampson has gone to Annapolis to assume his duties as superintendent of the Naval Academy.

COLONEL BATCHELDER'S VIEWS.

WASHINGTON, Sept. 8.

COLONEL BATCHELDER, of the Quartermaster-General's office of the U. S. Army, who went to Charleston in order to make an official report upon the condition of Affairs there and to deliver to the city authorities the Army tents, returned to this city late on Tuesday night.

"Are the people of Charleston in much distress?" asked a *Post* reporter of the Colonel.

"Mentally, yes, but otherwise, no. The recurrence of the shocks is enough to keep them distressed in mind, but railroad communications are all open, and there is plenty to eat and drink. The people have everything in their houses that they need. It is true that the frail, breakable articles, such as vases, pictures, and looking glasses, are broken, but these can hardly be considered necessaries. The loss will fall principally upon the owners of real estate and not upon the people at large. It is said that these owners lived on their rents, spent all the money as soon as they got it, and consequently will find it a hard matter to rebuild, but I don't know anything at all about that. It is merely a rumor I heard."

"Then you think the reports published in the newspapers from Charleston are exaggerated?"

"Not in regard to the amount of damage done."

"But in regard to the prevalence of distress?"

"Certainly, yes. I did not see any of the pitiable cases of distress the papers tell about. The business section of the city is in ruins. There is scarcely a brick house in that portion of the town which will not have to be torn down. But most of the people in Charleston live up in the northern portion of the city, and nearly every residence is wooden. These buildings remain intact. The only damage they have sustained is in the loss of chimneys and the breaking off of the plaster, making the walls look less even and pretty than they were before. There is no reason why the people should not return to these houses, except that they are afraid. But there is no danger to be apprehended in them. No one was killed in a house during the earthquake, but all those who died were killed in the streets. No one was killed by a wooden house, but all the dead came to their end through the falling of brick stores and warehouses. It would be a good thing for Charleston to have a storm and make the people get into their houses, and they would then find that they had plenty of good shelter there."

"This morning's papers describe how an immense crowd of sufferers (all colored) gathered in front of the supply wareroom and clamored for their rations, and say that 'they were a pitiable lot of people, ragged, gaunt, and sad.' Are things in that condition?"

The Colonel smiled knowingly as he replied:

"The distribution of rations could be done with just as much propriety as here. Suppose that you were to issue a notice that the colored people of Washington were to be fed at the Corcoran Building, you would nave 50,000 of them 'clamoring for their rations.' That is just the case at Charleston. The negroes know that money is being subscribed and sent to Charleston to relieve the sufferers from the earthquake, and they want their share of it. As for the working classes, the earthquake is a benefit to them, for it provides them with plenty of employment at higher prizes than they were earning before. Now, I don't want you to understand me as wanting to prevent the sending of money from charitably disposed persons to Charleston, for they can make use of all they have got and all they can get."

ADMIRAL SIMPSON'S ARTICLE.

To the Editor of the Army and Navy Journal:

IT must be satisfactory for the Service at large to find that the Navy has not lost the pen of Admiral Simpson, now that he has retired from the more active duties of his profession.

In his article in "Harper's Magazine" for September, he has presented very forcibly the inutility of expending any more money in the development of the League Island Naval Station, either as a repairing or constructing yard. The antagonism of the private shipbuilding interests of the vicinity and the immense cost of filling in, preparatory to the erection of buildings are alone reasons for abandoning it as a Naval Station, and the necessity of a fresh water basin or river for ironclads has been proven by those nations largely possessing them to be imaginary.

What has been written by Admiral Simpson of the geographical, climatic, defensive and other advantages of the Norfolk Yard has been well and wisely said. It is a station to which immediate attention should be paid.

In regard to the geographical and defensive advantages of New London the statement of Admiral Simpson can hardly be controverted; but the disadvantages of climate, restricted anchorage and channel, difficulty and cost of grading, absence of plant, limited size of present site and the fact that the necessary *materiel* and *personnel* would have to be brought there from some distance outweighs all the advantages claimed. The proximity of the New York Navy-yard, with all the possibility of its future extension both along its immediate water-front and by the reconstruction and development of the Cob dock, would seem to forbid the addition of one more struggling Navy-yard to the already too large number existing.

But what I particularly desire to speak of is the docking plant and facilities proposed by Admiral Simpson at New London.

He proposes, in his article, the system of floating docks, shallow basins and marine railways. This system, after a patent granted in 1843 to Messrs. Dakin and Moody, was placed in the old Navy-yard at Philadelphia and also afterwards in the Navy-yards at Portsmouth, N. H., Pensacola, and Mare Island, the latter costing over $850,000.

For the purpose intended of docking vessels this system has been a waste of money, amounting to about $2,000,000, and has been used of late only at rare intervals, for hauling out ships for rebuilding. A Navy-yard official would be considered rash to the verge of madness who would undertake the hauling up, in this manner, of a 6,000 ton ironclad like one of those about to be built.

The process alone of placing the floating dock with a vessel upon it in the shallow basin is a delicate one requiring great care to get the bottom of the sectional dock in a perfect plane to correspond to the bottom of the basin.

Marine railways are in use now only for comparatively small vessels and shipowners and underwriters as a rule decline to subject large merchant steamers to the risk of being hauled out in this manner, and much less should the costly war vessels of modern build and complicated machinery be subject to such danger.

Excavated docks, both by our own experience and by the experience of the naval and maritime world, afford the best and almost the only safe facilities for docking large ships.

Being built of sufficient size for the largest vessels, they, of course, include facilities for the smallest and with an extra caisson and stops can be subdivided so as to be capable of receiving two vessels at one time.

Whether built of granite, concrete or wood, the graving or dry dock affords the best possible advantages for the purpose of cleaning vessels, for their repair, or even for their construction. C. H. S.

WARAMAUG LAKE, CONN., Sept. 6, 1886.

THE REASON WHY.

To the Editor of the Army and Navy Journal:

"DERITER" returns thanks for the very full and explicit manner in which "The Reason Why" is explained in your valuable journal of Aug. 7. Not being posted as to the "usual way of preferring a simple request" to any department of the Navy, he concluded to put the question where he thought it would do the most good, *i, e.*, in the ARMY AND NAVY JOURNAL, and did it as an extremely "earnest" man, without the shadow of an idea that there could be any objection, and without the most remote idea or intention of "turning up any mare's nests," and with "a genuine desire for information" upon an apparently incongruous subject.

"Should not any earnest and intelligent man be above imagining that the A. M. A. was above, or beyond, criticism?" Albeit the peroration to the very courteous explanation diverges into the personal, whereas the query was more of a general nature, the answer to which would give information to the nine hundred and odd members who are interested in the A. M. A. "The Reason Why" would never have been known had not "Deriter" written the communication which you published, and which has, apparently, raised the ire, somewhat, of the worthy secretary of the A. M. A., who may rest assured that nothing personal was intended. The secretary may say, Why not write to the secretary of the A. M. A. if writing to the Navy Society was objected to? Very true, but in that case no one outside of the secretary and "Deriter" would have been any the wiser, whereas it is presumed that the whole matter is understood now by all members who read the ARMY AND NAVY JOURNAL, thereby doing the greatest good for the greatest number. All *chances* of discontent from that source are now removed, and "Deriter" takes the liberty, for which he solicits pardon, to remind the worthy secretary that members of *our* Association who have paid their hard cash into its funds from its earliest days cannot afford to "take their departure" from it before the Lord sees fit to call them, and God knows we are falling by the wayside fast enough.

The officers of the Army Mutual Aid Association are gentlemen for whom "Deriter" entertains the most unbounded respect, as he has for long years past. He has unlimited confidence that the interests of the widows and orphans, who are the real interested parties, will be conscientiously subserved by them, and he sincerely hopes that they may live for many years to come to give the Association the benefit of their advice and experience.

Trusting that this will wind up all that is to be said regarding "The Reason Why" is the desire of, still, DERITER.

PURCHASE OF FOREIGN DESIGNS.

THE *Nautical Gazette* quotes an article from the London *Fairplay* on "the Admiralty Ring," which says:

It is a matter of undeniable fact that Sir Nathaniel Barnaby, at the beginning of last winter, visited the United States for the purpose of selling man-of-war designs of the most improved type to the Government of that country. It is also an established fact that Mr. W. H. White held at the time the position of Director of Naval Construction at our Admiralty, with permission to do certain work for Messrs. Armstrong and Mitchell. Sir N. Barnaby, of course, will not admit that he sold Admiralty plans and designs, but as a pensioner he claims a right to give his services to and act in the interests of Messrs. Armstrong and Mitchell, and so the Ring is thus completed; and if the Americans had not taken up the matter as they did this Ring would probably have cleared considerably more than just the sum of £5,000 for plans.

Among other statements published in America may be noticed the following: "It is true that our Navy Department is in possession of copies of every design of value relating to naval construction that has been prepared by the British Government. Ex-Secretary Chandler says that under his administration it was the business of the Department to secure such information, and that the United States Government could duplicate the designs of the latest improvements in the possession of the British Government;" and the ARMY AND NAVY JOURNAL, an authority much respected in New York, and one of the most conservative organs of that city, says, editorially: "The Navy Department has entered into some arrangements with Sir Nathaniel Barnaby, the Armstrongs, and other English parties for assistance in making the plans of new vessels, and $25,000 have been paid for plans now in the custody of the Naval Department."

We may gather from the foregoing paragraphs that the Americans found themselves considerably at a loss to place their Navy on a decent modern war footing on account of the want of experience and consequent inability of their home shipbuilders and marine engineers, but that they had no difficulty whatever in obtaining the latest plans and improvements as marked out and arranged at our Admiralty. The parties engaged in supplying these plans to our transatlantic neighbors, not feeling satisfied with the profits to be made in selling the information belonging to their country, although being liberally paid from our public purse, endeavored to influence the American Navy Department to have their work done in this country, in which case the Ring could have worked the oracle to a handsome tune. In this they overreached themselves, as Jonathan shied at the proposal, and the half measure was then proposed to introduce modern plant and thoroughly equip a first-class shipbuilding works in America (in which, of course, the Ring would have had the main pull), but this would not work. As the Yankees said: "We have got your plans, and that is all we want, as our engineers and shipbuilders are sufficiently practical to work from them, consequently we will do our own work of construction."

NEW PUBLICATIONS.

Senator John A. Logan appears in the triple character of legislator, politician, and soldier, in all of which he has a national reputation. His work, "The Great Conspiracy: its Origin and History," published by A. R. Hart and Co., New York, is rather a political than a military record. Its main object is to show that the Rebellion was the culmination of a conspiracy to change the existing order of national government, having its ramifications throughout the North and West, as well as in the South. In early days the tariff question was made the pretext for discontent; in later years slavery was the issue. In both cases the motive for agitation was the same; the dismemberment of the Union and the establishment of a Southern Confederacy which should ultimately dominate this continent. The division was on the lines of a mistaken, but undoubtedly sincere, conviction, as to the correct form of government. How narrowly the conspiracy failed of success, and at what a cost we have purchased the freedom of which it would have deprived us, we all know. Gen. Logan tells the story graphically, and with that earnestness of conviction and warmth of feeling which characterize him. His conclusion is that "the old chieftains intend to take no more chances. They feel that their Great Conspiracy is now assured of success inside the Union. They hesitate not to declare that the power, once held by them and temporarily lost, is regained. Like the Old Man of the Sea they are *now on top* and they MEAN TO KEEP THERE—IF THEY CAN." (The italics, capitals, and small caps. are his.) But it is hard to see how complaint can reasonably be made, so long as the work goes on inside the Union, and in the exercise of strictly legal rights. For General Logan's comfort it is well to remember that "the old chieftains" are no more immortal than General Logan, and that the controversy, to which they were parties, will soon be transferred to the happy hunting grounds. A new generation is coming forward, is, indeed, already occupying the land, and to them the questions that divide us are historical curiosities—rather than living and vital issues. Sectional lines are not dividing them, at least not the sectional lines which once separated North from South. But General Logan thinks differently, and in this volume he presents his view most interestingly, as well as most forcibly. His work has the value belonging to contemporaneous history and is a statement concerning some of the most notable events in our history by one who was a prominent actor in them. Whatever may be thought of General Logan as a political leader there can be no dispute that he has a most noble record as a soldier. His ardent temperament makes him in all things a partisan and so far unfitted to view things in the "dry light" which is proper to those who venture upon historical statement.

The proceedings of the 17th annual reunion of the Association of the Graduates of the U.S. Military Academy at West Point June 10, 1886, appear in a neat pamphlet volume of 160 pages. The Necrology List for the year contains 35 names, many of them distinguished in the history of their country, including Grant, Hancock and McClellan. The last pages of the volume contain portions of letters written to his wife by Mr. George Ticknor when he was one of the Board of Visitors at West Point in 1826. They are very interesting and in one dated June 17, 1826, we find the following: "Gen. Thayer is a wonderful man. In the course of the fortnight I have been here he has every morning been in his office doing business from 6 to 7 o'clock; from 7 to 8 he breakfasts, generally with company; then goes to the examination room, and for five complete hours never so much as rises from his chair. From 1 to 3 he has his dinner party; from 3 to 7 again unmoved in his chair, though he is neither stiff nor pretending about it. At 7 he goes on parade; from half-past 7 to 8 does business with the cadets, and from 8 to 9, or even til 11, he is liable to have meetings with the Academic Staff. Yet with all this labor and the whole responsibility of the institution, the examination and the accommodation of the Visitors on his hands, he is always fresh, prompt, ready and pleasant."

The September number of the "Century" has an article by Gen. Pleasonton upon "The Successes and Failures of Chancellorsville;" "Jackson's Attack upon the Eleventh Corps," by Gen. O. O. Howard; "Sedgwick's Assault at Fredericksburg," by Col. Huntington W. Jackson," and "Chancellorsville Revisited by General Hooker," by Samuel P. Bates. These articles are all illustrated, and besides these the "Century" adds to its war literature a page and a half of "Memoranda," which contain an account by Gen. Colston of how Lee had daily information of Hooker's movements, a paragraph by Gen. Anderson on "the Reserve at Antietam," a letter from Joel Benedict Erhardt on "General Grant's Reasons for Relieving General Wm. F. Smith," and a "Correction from Mr. Whittier" in regard to the story of Barbara Frietchie. This war department of the "Century" is of unfailing interest to our readers, and the rest of the number will be no less so. The "Balloon Experiences of a Timid Photographer," beautifully illustrated with views taken from the balloon, is interesting, and so is an account of Franz Liszt, while Mr. Howell's serial story is entertaining, as always.

The late General George B. McClellan's reminiscences of the Civil War will be published about Dec. 1 by Charles L. Webster and Co., under the title, "McClellan's Own Story: The War for the Union; The Soldiers who Fought it; The Civilians who Directed it, and his Relations to it and to them." The illustrations are by A. R. Waud, who accompanied Gen. McClellan.

G. P. Putnam's Sons announce as forthcoming the following: "The History of the United States Navy," with a review of the colonial naval expeditions, and a sketch of our present Navy, by Edgar Stanton Maclay, in two octavo volumes. "Reminiscences of the 'Filibuster' War in Nicaragua (1855-60)," by General C. W. Doubleday.

INSPECTORS OF RIFLE PRACTICE.

To the Editor of the Army and Navy Journal:

THANKS for your kind mention of Inspectors of Rifle Practice in JOURNAL of Aug. 28. The said Inspectors on their part, are much indebted to the JOURNAL for its constant endeavors to promote the rifle practice of the Army, weekly, from the inception of the present system several years ago to the present. Go on and prosper. BULL'S-EYE.

THE Cheyenne *Leader*, referring to a batch of recruits which recently passed through that city for Fort Bridger in charge of Lieut. Waring, 2d Inf., tells this doubtful story:

They were of the slums of the great city, and of the toughest. From the appearance of the brutal and sodden faces framed in the car windows, a continual drunk was in progress. One burly fellow, clothed as far as could be seen, in a tattered and begrimed undershirt, leaned far out of a window, and filled the air with blasphemous inquiries in regard to the qualities of Cheyenne whiskey. The noise of tramping, pushing and swearing, constantly came from the interior of the car, and finally one of our nation's defenders forced himself through a window and started on a staggering run toward the southern part of town. He was pursued, captured, and vigorously persuaded to re-enlist.

THE STATE TROOPS.

FALL MANŒUVRES.

IN a recent well written article, the New York *Times* points out the importance of autumn manœuvres as a factor in the instruction of State as well as National troops. Various plans are proposed to carry the scheme into execution, and all are admirable, but to all there is the objection that as long as the organization of our military system is kept on its present basis, any attempt at autumn manœuvres, as proposed, can be nothing else but an illusion. There are abundant troops in New York and Brooklyn for manœuvres to any extent, and the surrounding country offers excellent opportunities for them. Long Island affords every facility for the repulse of a simulated attack from the ocean, while Westchester county possesses every feature to illustrate the repulse of an enemy advancing upon us from the North. No doubt the addition of the Connecticut and New Jersey National Guard, and the Army and Navy troops, would add still more valuable features to manœuvres as proposed. Nobody recognizes these facts more thoroughly than the ARMY AND NAVY JOURNAL.

In dealing with the subject, however, we have to look the existing condition of things squarely in the face. That our troops receive too little field instruction is a well recognized fact, and officers who know this have at various times endeavored to somewhat supply the want by "field days," "sham battles," "marches," camps, etc., etc. All these were necessarily carried on on a small scale and of very short duration, and their benefits, if any, but limited.

Looking at the National Guard, we find, first, that service under its banners is entirely voluntary, without remuneration or compensation. Its personnel consists of a class each individual of which depends for existence upon his daily civil efforts, be they in the halls of science, the banking house, or in the mechanic's workshop. As a rule our modern employer looks out for his own interest first, and it is no secret that National Guardsmen frequently have difficulty in obtaining their consent even for the purpose of attending the 3 or 4 compulsory annual turnouts. There are numerous cases in which young National Guardsmen sacrifice their annual vacations to their soldierly ardor for the purpose of attending the Peekskill encampment. The difficulty of getting men away from their business even for half a day is the principal reason for having annual inspections at night time. All this goes to show that the time available to our young men to perfect themselves in military duties is very limited.

European autumn manœuvres, as we understand them, are participated in by large masses of troops trained in all practical garrison and theoretical field duty, all subject at any time to the orders of their superiors and controlled by no other power or influence. They are kept in camp for weeks, and the manœuvres are carried out according to well-matured plans, requiring great preparation.

Until we have compulsory service (which will hardly be the case in the present generation), manœuvres on such a scale are out of the question. Supposing it were possible to get the 1st and 2d Brigades "off" for an entire day or even two days, there would be no other alternative but to put them on so many trains or steamers and "dump" them in some field or wood, as has been the case in almost every attempt of anything of the kind in the past. There would be the usual helter skelter scramble, promiscuous waste of blank ammunition, everybody would return home tired, and nobody would be any the better off for his trouble in a soldierly respect. To profit by manœuvres on a grand scale officers and men must be thoroughly familiar with what is termed garrison instruction. To be a good soldier in the field it is necessary to be a good "garrison soldier," which implies at least habits of prompt obedience and discipline, a knowledge of the proper care of arms, ammunition, etc., and of ordinary drill. To obtain such men, standing armies are kept. Cowboys, bridge-jumpers, and men of that class possess individual "nerve," but would we prefer them as soldiers on that account to men who know how to work together at the right moment and submit to the will of one directing mind?

Considering the fact that under present circumstances all we can do is to bring our National Guardsmen to the standard of good "garrison soldiers," "fall manœuvres" must necessarily for the present remain a thing of the future. No matter how much we may regret this state of affairs, it is nevertheless true and the wisest thing is to look it square in the face and do the best we can under the circumstances. This means to attend in the best possible manner, to the individual education of the citizen soldier in the armory, supplement his acquirements there by field work in small encampments, and try to teach him something about coast defence, as is now customary in the 12th regiment. The camps should be made as long as circumstances will permit. Fall manœuvres are nice to write and talk about, but until we devise a system adapted to them they are impracticable.

THE ANNUAL INSPECTIONS.

THE necessity for ascertaining the true condition of the regiments of the National Guard of New York has never been so urgent as it is at the present time. There is an apparently well founded impression abroad that two regiments in New York City and one in Brooklyn are to be disbanded. If such disbandments are to be made, they should, of course, be based on the present military merits of the organizations concerned and particularly should no selections be made on political grounds. No disbandments should be made without a thorough inspection of the whole force, and under circumstances where concealment of actual condition as to efficiency and deceit with regard to the real numerical status cannot be practiced. This is only possible in the field, in broad daylight, and with plenty of time for the inspector to do the task thoroughly. Common justice, therefore, requires that inspections should be held at such places and at such times as will afford an opportunity for this purpose.

Since our short article in last week's issue we have received many communications endorsing our remarks about this matter, and this we regard as an additional reason to those given above, why orders should be modified with regard to these inspections, so as to have them in daytime and on suitable grounds. Places for the purpose can be obtained in various directions in the vicinity of New York at a very limited expense to the State. $400 or $500 would probably be sufficient for the entire eight regiments. While it is unjust to saddle any expense for travelling to or from a place of inspection on any organization, the necessity of having all inspected properly is manifest, and the State should, therefore, set aside the necessary amount.

NATIONAL GUARD ITEMS.

The visit of the officers of the 22d Regiment to Willet's Point on Thursday, Sept. 2, to which we briefly referred in our last issue, in addition to being a highly enjoyable occasion to both Regulars and National Guardsmen, was one of great profit, in a military respect, to the latter. They all speak in high terms of the hospitality of the regulars and their courtesy, but what interested them most were the mysteries of torpedo and engineer warfare. The visitors were treated to an exhibition of the skill of "those at the Point" in managing the torpedo as well as their thorough knowledge of laying pontoon bridges. The perfection shown by the Regulars in dealing with both these branches of military instruction, called forth the warmest admiration of the citizen soldiers. After witnessing an admirable dress parade the whole party adjourned to Gregory's Hotel, where a fine supper was laid out and where newly made friendships were cemented over many a flowing bumper.

The terms upon which the difficulty between the 7th Regiment and the veterans were adjusted have at last been published. The question had long ago ceased to be one of general interest. Other regiments involved gradually settled their difficulties, and lately the fight was kept up only in the 7th. Here it developed into a series of mere personal squabbles, both sides apparently having no object beyond annoying their opponents in every possible manner. The important military questions involved, upon which we took our stand in the beginning of the issue, were lost sight of long ago. It would seem that both parties made concessions, as will appear from the following terms of the agreement:

1. The officers and members of the Veteran Association, except those authorized by act of Congress, will not hereafter wear the insignia of military rank now in use by the National Guard and the United States Army.

2. The military titles now in use by the field and company officers in the National Guard and the United States Army will not hereafter be used by the officers of the Veteran Association (except so far as required by the enactment establishing a benevolent fund in the Veteran Association), and such other titles as may be selected by the association shall be hereafter used by its officers.

3. The objections to the use of such uniform or parts of uniform as the Veteran Association may prefer are withdrawn, provided such uniform is not similar to that worn by the National Guard S. N. Y.

4. That the Veteran Association shall have all the use of the veteran room that the lease of the armory site and the laws of the State will permit.

5. That the existence of any association or society of exempt and veteran members of the 7th Regiment other than the "Veterans of the 7th Regiment" and the "Society of War Veterans of the 7th Regiment" shall cease or be discouraged.

6. Hereafter any difference that may arise between the regiment and the Veteran Association on any subject shall be adjusted without publicity by the officers of the two organizations

The regiment is very quiet now, but in a few weeks things will be very lively. Co. B will hold a meeting to-morrow evening.

On general principles we congratulate both parties that a quarrel is ended, and while it is an acknowledged fact that rows will occur in the best regulated families, it is to be hoped that this will be the last of the kind in an organization as famous as the 7th Regiment.

On Monday evening, Sept. 6, the 8th Regiment, by a unanimous vote, elected Captain Henry Chauncey, Jr., of Company H, to the position of major, which had been vacant since the resignation of Major Russell. Major-elect Chauncey has proven himself in every position he has heretofore held a fine soldier and a competent officer, and the 8th could hardly have made a better choice. Major Chauncey was born in Rhode Island and entered the National Guard of New York as 1st lieutenant of Co. G, 8th Regt., March 1, 1883, where his ability and enthusiasm soon secured him the election as captain, Co. H, July 12, 1883. Brigadier-General Louis Fitzgerald, who presided at the election, after announcing the result in a few neat remarks, congratulated the old regiment, which he said had always held a warm place in his heart, upon its choice. He further gladdened the hearts of those present by the announcement that within a few days he had made a large stride towards obtaining the long wished-for new armory, work on which he said would certainly begin in the autumn. Once removed from the present old rookery and placed in decent quarters, he felt sure the regiment would at once resume its former prominent position among the New York regiments. Major Chauncey, after accepting the new position, called the attention of those present to the necessity of "wetting" the new commission at Commissary "Phil. Milligan's," a proposition the propriety of which was promptly acknowledged by the entire audience, and carried out to the full extent of the purpose.

The 12th Regiment will have a street riot drill on Wednesday evening, Sept. 15. A Delinquency Court, consisting of Capt. James M. Brady will be held Monday, Sept. 20. Capt. Brady will also have charge of the regimental team practice on the 17th. Col. J. H. Jones has applied for a leave of absence until Oct. 16. Outside of the staff of the late 2d Brigade the 12th Regiment officers are, we believe, the only body of their class, who have added pistol practice to their shooting programme. The following scores were made on the regular rifle practice day of the regiment at Creedmoor, Thursday, Sept. 2, at the Massachusetts Ring Target. Highest possible, 50; rounds, 5; distance, 25 yds.: Captain C. H. Eagle, 36; Lieut. John Macaulay and Col. Jones, 33 each; Dr. Henry, 28; Adjt. Schermerhorn, 20; Capt. Aspinwall, 19; Capt. Murphy, 18; Lieut. Smith, 15; Capt. Burns, Lieut. Delafield and Lieut. Roosevelt, 14 each; Capt. Kirby and Capt. Barnard, 13 each; Capt. Content and Lieut. Powers, 11 each; Lieut. Appleton, 12; Capt. Pell, 10; Lieut. Knoedler, 9; Capt. Brady, 8; Capt. Boylan, 7; Lieut. Parsons, 0. Pistol practice for officers should form part of the instruction of each regiment, and the 12th deserves credit for their enterprise in this direction. In the regimental rifle practice, so far as known now, 132 have qualified during the present year.

Col. Thos. H. McGrath, Assistant Inspector General, on Tuesday, Aug. 7, inspected the new separate company at Niagara Falls, on the day following the 65th Regiment, and on Thursday the 74th Regiment at Buffalo. On the 10th he was at Rochester inspecting the 8th Separate Company.

At the funeral of the late Gen. Lloyd Aspinwall, which took place on Tuesday, Sept. 7, Gen. M. T. McMahon and ex-Gov. Cornell were among the pallbearers. Among the mourners we noticed Cols. Jos. G. Story and J. V. R. Cruger, Gen. G. W. Wingate and delegations from the Old Guard and 22d Regiment, veterans. The absence of active officers of that organization was conspicuous.

The appointment of Lieut. Col. John B. Frothingham as chief of staff by Brig. Gen. James McLeer is an excellent selection, and shows the General's level head. Lieut. Col. Frothingham is not only an able staff officer, but during his recent command of one of the provisional regiments at the camp, he has also proven himself a commander of men of more than average ability. We regret that during the week just ended Gen. McLeer was still unable to leave his house, but we hope that he will be able to make good his promise to be at the Brigade Office on Monday next.

Gen. E. L. Molineux has been appointed president of the committee for the relief of the Charleston sufferers, and as such was as busy in collecting and providing material and money, as if he were preparing for one of his campaigns 22 years ago.

Massachusetts will be represented at Creedmoor by the following team during the fall meeting: Lieut. C. S. Bumstead, 2d Inf., I. R. P.; Capt. C. W. Hinman, 1st Brigade, I. R. P.; Private M. W. Bull, 2d Infantry; Private F. R. Bull, 2d Infantry; Private Lincoln Grant, 1st Cadets; Private A. C. White, 2d Inf.; Private M. W. Daulton, Co. D, 1st Inf.; Capt. John Osborn, 1st Brigade; Private A. A. Brackett, Co. D, 1st Inf.; Sergt. W. M. Merrill, 2d Brigade; Lieut. R. B. Eades, 5th Inf., I. R. P.; Capt. J. P. Frost, 2d Brigade, I. R. P.; Private C. C. Foster, 1st Cadets; Private F. D. Bartlett, 1st Cadets; Private T. B. Wilson, 2d Infantry, substitute, to be added in case of vacancy before Sept. 10.

At a meeting of the line officers of the 4th Mich. Regiment Maj. P. J. Sheehan received the unanimous vote for the lieutenant colonelcy. The office of major was unanimously rendered to Capt. Rupp, the senior captain of the regiment, who, however, courteously declined the promotion, whereupon Capt. W. G. Latimer, of the Detroit Light Guard, received the unanimous election. The whole result is entirely satisfactory.

The place as adjutant of the 1st Massachusetts Battalion of Cavalry, recently vacated by the appointment of Adjt. J. P. Frost to the position of Inspector of Rifle practice, 2d Brigade, has been filled by the appointment of Lieut. Geo. A. Keeler.

The 23d will go to Prospect Park for battalion drill Saturday afternoon, Sept. 25. This is a move in the right direction.

Gen. Barnes has received his discharge as colonel of the 13th Regiment. The matter has been pending a long time. On Thursday evening Lieut.-Col. Edward Fackner was elected to fill the vacancy, by 13 votes to 11 for Col. Austen. Col. Fackner first entered the Service as private in the 12th June 19, 1863. He was promoted through the various grades until he became Captain Aug. 1, 1874. Aug 12, 1881, he was chosen Captain of Co. E, 13th Regt., and Lieut.-Colonel of the 13th March 27, 1884.

The sale of the office trappings of the recently disbanded 4th Brigade, on Monday evening, Sept. 7, completed the wiping out of that once famous organization.

In discussing the advantage of the new brigade organization and the present numerical standing of the Brooklyn regiments, the Brooklyn *Eagle* pertinently remarks: "It is passing strange that in the face of all the encouragement to enlistment—providing of uniforms, handsomely furnished armories, more nearly approaching club houses in the luxuriousness of their appointments than military quarters, and supplied with gymnasiums, tennis courts and like aids to physical development and healthful recreation—that the several organizations do not 'lift' to any appreciable extent but manage to just about hold their own from year to year. Colonels of regiments and captains of companies in the 2d Brigade have now an opportunity to demonstrate what can be accomplished in the way of recruiting."

This is still more strange when the personal interest in the National Guard entertained by every Brooklyn individual, male and female, is considered. In New York, where the general public shows no concern in the National Guard, the only organization which has an armory of the kind described, has its full complement of 1,003 with many waiting to join its ranks. This goes to show that when the long-promised armories are at last things of reality there will be no difficulty in filling up every New York regiment.

In the *Journalist* of Sept. 4 we find as a frontispiece a fine picture of Gen. Horatio C. King, and in the article following a high tribute is paid to his capacity, as a military lawyer especially.

G. O. 25, of Sept. 1, announces the following commissions: 1st Brigade—Louis Fitzgerald, Brigadier General, with rank from March 28, 1882, original; 2d Brigade—James McLeer, Brigadier General, with rank from October 13, 1885, original; 3d Brigade—Amasa J. Parker, Jr., Brigadier General, with rank from August 25, 1886, original; 4th Brigade—Peter C. Doyle, Brigadier General, with rank from January 16, 1886, original.

Colonel Clark announces in orders: The 7th Regiment will proceed to Creedmoor for Second Rifle Practice, as follows: Sept. 20, Companies C, E, B, K, and G; Sept. 21, H, F, D, A, I. Assembly at 7.10 o'clock, A.M. Enlisted men who have already qualified for the Marksman's Badge for 1886 are excused from Second Rifle Practice.....First Lieut. Harry D. Cooper having been commissioned Captain (May 21, 1886) and 2d Lieut. Austin E. Allen, 1st Lieut. Company D (June 14, 1886); 1st Sergt. James J. McKenna, 2d Lieut. Co. A (June 28, 1886), and Sergeant Franklin Bouker, 2d Lieut. Co. D (July 30, 1886) they will be respected and obeyed accordingly. .....Sergeants, E. L. Reynolds, Fredk. H. Clark; Corporal, W. A. Dixon, have received their warrants.....The Annual Inspection and Review will take place at the Armory Oct. 14, at 8 o'clock, P. M.

Co. F, 14th Regiment, Capt. W. V. Peacon, was instructed in guard mounting, skirmishing, and whistle calls devised by Colonel Edmunds, of the Mass. V. M., September 10, 1886.

Co. H, 9th N. Y., will hold its annual summer-night's festival at Lion Park, on Tuesday evening, September 14.

Majors W. Emlen Roosevelt and Frank Appleton have received their commissions as aides-de-camp on the staff of Brigadier-General Louis Fitzgerald, commanding the 1st Brigade. General Fitzgerald is very cautious in the appointment of his staff officers, and it is evident that for the working positions he intends to have none but practical soldiers. This shows that he understands his responsibility, and it may be taken as a guarantee that New York City is safe while its soldiers are under his control. The position of Adjutant General was tendered to Lieut. Col. Harding, 22d Regiment, but that officer considered his ties to his old organization too strong to be severed, and on this account he declined the appointment. From all indications Gen. Fitzgerald will make an excellent commander-in-chief of the New York City troops.

According to our advice Col. John T. Camp has at last appointed 2d Lieut. W. B. Smith, of Co. E, to the adjutancy of the regiment. The appointment dates from Sept. 8, 1886. He could not have made a better choice, for Adjt. Smith is competent in every respect in a military sense, and his geniality and popularity secure him at once the support of the entire regiment. He first enlisted in Co. E, June 7, 1875, was promoted sergeant Feb. 26, 1877, 1st sergeant Feb. 1, 1886, and 2d lieutenant Oct. 20, 1880. In all these positions he has given eminent satisfaction. Company drills in the 22d have been ordered as follows: A and B, Monday; D and F, Tuesday; C and E, Wednesday; H and I, Thursday; G and K, Friday. These drills must not be suspended or shortened without permission from headquarters.

Col. John L. McEwan has been appointed adjutant general of the 3d Brigade, commanded by Gen. A. B. Parker.

RHODE ISLAND.

THE Brigade of Rhode Island State Militia went into camp at Oakland Beach on Monday, September 6; at least, on that day the pitching of tents began by details sent ahead of the regular organizations. The troops arrived and work began on Tuesday, September 7, and with them is encamped a battery of Regular troops from Fort Adams, R. I., under command of Captain J. W. Roder, 5th Artillery. The camp is named "Camp U. S. Grant," and will break up to-day, Saturday, September 11.

MEXICAN ITEMS.

Sept. 8 being the anniversary of the defence of the Castle of Chapultepec during the American war, solemn memorial services commemorative of the valor of the cadets who fell there were held at Cha-

pultepec, the President, Cabinet, and highest officials of the army and civil service being present. Services were also held in all the churches.

A despatch from Eagle Pass, Tex., Sept. 8, says: "News has been received from Piedras Negras that a band of revolutionists on Monday seized the town of El Pana and took complete possession of it. During the trouble in Piedras Negras all the able-bodied males were arrested and pressed into the revolutionary military service and placed in the cuartel for safe-keeping during the night. Yesterday morning, 150 strong, they were mounted on confiscated horses and, accompanied by 100 regular soldiers, taken to El Pana to combat the revolutionists, supposed to be under the leadership of 'El Coyote,' Mexico's most celebrated bandit and revolutionary leader." The revolution is reported to be assuming alarming proportions in Tamaulipas.

ANSWERS TO CORRESPONDENTS.

Dujardin Beaumetz.—You stand No. 4 on hospital steward list.

E. H.—The appointment to Commissary Sergeant was made Aug. 30, 1886.

Q. M. says: I am a sergeant in charge of more than 20 mechanics. What is my extra duty as overseer? ANS.—Thirty-five cents per diem.

Recruit.—After Sept. 30 next the Superintendency Mounted Recruiting Service is abolished, and the only Superintendent of Recruiting will be Lt. Col. A. L. Hough, 13th Infantry, Army Building, New York City.

Q. asks whether a board has been appointed to select the Medical Staff on the Hot Springs Hospital. If so, who compose the board? ANS.—They are to be detailed by the Secretary of War or the Secretary of the Navy. See editorial paragraph elsewhere published.

J. C. R.—The guide is on the marching flank during the wheel because he is responsible for the length and cadence of the step, the radius to be taken. The men branch toward the pivot to prevent opening out and crowding the guide, to whom they turn their heads to preserve alignments.

Old Subscriber asks: Are appointments in the Marine Corps still made from civil life—that is, in the grade of 2d lieutenants? ANS.—The act of Aug. 5, 1882, stopped appointments from civil life, and vacancies in line and Engineer Corps of Navy and of Marine Corps are now filled from graduates of Naval Academy.

Landsman.—We never heard of any regulation in the British Army to the effect that if a soldier came in receipt of a certain private income he must be discharged. It is the regulation that prior to discharge for purchase, a board is convened to record facts connected with application for discharge, service, character, etc. We answer from *personal* knowledge.

Knox asks: 1. An officer retired after five years' service, is he entitled to increase of pay up to the maximum of 40 per cent.—twenty years' service—the same as on active list, but no increase of rank? ANS.—Yes. See the decision of the Supreme Court, published in G. O. 40 of 1882 from A. G. O.

2. If only two months of the four months' leave is taken on the first four years on full pay, would the remaining two months be forfeited, and would an officer have to serve four years additional to be entitled to four full months' leave, or, in other words, does he forfeit the two months' leave on full pay which were due him on the first four years if he asks for another leave during the sixth or seventh year? ANS.—Yes. An officer must avail himself of his leave (say 4 months) within the first four years. A failure to do so forfeits what he may have been entitled to.

THE MESS.

SONG OF SIR REDVERS BULLER.

I am Sir Redvers Buller, Major-General;
Chinese I've sent to their eternal doom;
But my grandest victories I've won, sir, if you please,
In my most potent sovereign's drawing-room.

I have fought the Kaffirs wary, they who love hot missionary,
And oft the wild Ashantees put to flight;
But this I'd have indited in my history should you write it,
My chief glory 'twas to be a carpet knight.

I have sabred the fierce Zulu and thrashed the base Egyptians,
With other barb'rous races picked a bone;
But Sir Garnet and I treasure the days of priceless pleasure
That we spend in proudly loafing 'bout the throne.

Let me at the beastly Celt!—I will give him many a welt,
He's a contumacious cur—that is plain;
But why should I berate him? I'll straightway exterminate him,
And be a valiant carpet knight again.

. . . . . .

Why the Irish when I sneeze will all fall upon their knees,
And ere the Irish flowers cease to bloom
To England I shall fly and there Garnet and I
Will lord it in the Queen's big drawing-room.

LEO C. EVANS, in the New York *World*.

"We had a good time, considered as a picnic," continued the G. A. R. man, "but I saw enough on my journey to make me want to restrict the scope of the G. A. R. more and more. There are too many non-combatants getting into it, I fear. I never saw so many 'veterans' who had never been in a battle as I saw on this trip. I never saw so many quartermasters and commissary clerks. I never saw so many headquarter orderlies. They're all out in California now as colonels and majors. I don't want another encampment away out there; it takes me too far from the war."—*Chicago Herald.*

The other day a lady was knocked down on the Strand by a horse, but happily escaped with a few scratches. A gentleman rescued her and said: "Can I get you anything?" She (much out of breath and gasping with excitement): "Oh—ah—can you kindly get me"— He: "Some brandy?" She: "No—not—drink—some safety-pins. I feel I'm falling all to pieces."—*London Life.*

"Yes," said an El Paso man, who has lately been at the White Oaks, on the Mescalero reservation, "Indians are powerful fond of whiskey, and they will give up everything for it. An old chief out there offered me a pony, saddle, bridle, and blanket, and I don't know what else, for a pint of whiskey I had along with me."

"And you would't give it to him?"

"Not much. That was the last pint I had. But it shows how fond Indians are of whiskey."

HOW CONTRACT COATS WERE MADE TO FIT.

"Do you want to hear a story that will interest a gentleman rather prominent in New York just at present?" asked Col. George Alderson, formerly of the Q. M. D.

"Certainly; tell me."

"It is the story of an overcoat. The gentleman of whom I'm about to speak is the father of an ex-statesman. During the war he had the allotment of a contract to uniform one of the New York regiments. Several bids were put in. One day he entered the store of one of the bidders and said: 'I want an overcoat that will suit me quite as badly as you desire that clothing contract. Can you fit me?'

"'We shall try,' answered a member of the firm. The dealer then selected one of his very finest broadcloth garments and tried it on the customer. It was a tolerable fit, but it did not satisfy. The prospective owner of the coat thrust his hands deeply into its pockets and exclaimed:

"'It is not full enough here.'

"A clerk who had had some experience with the givers of contracts held a whispered conference with the proprietor. The latter then came forward and said: 'You are right. I see what the coat needs. A little pressing out will fix it. Let me take it back to the tailor and it will be made satisfactory.' The clothier went to his desk, filled out a check for $5,000, placed it in the right hand pocket of the coat and returned to the front of the store with the garment. The official lost no time in again thrusting his hands into the pockets. Then he turned his back to the clothier and looked at the size of the check. Replacing the paper, he said: 'I like the coat better now, but it is not large enough for me yet. Suppose I try another one.' Taking the hint, the clothier went back and changed the check for one of twice the amount. This time the coat did very well, and two days later that firm received the contract, amounting to about $45,000. And yet some people wondered that poor materials were put into the soldiers' clothing. It had to be done, I tell you, after all the 'strikers' had been paid."

(From the Engineer, August 20, 1886)

MARINE ENGINES IN THE NAVY.

ARE the engines, boilers, and machinery of our ships of war what they are generally believed to be, or are we living in a kind of fools' paradise, and reposing our faith and the safety of the nation on a delusion?

It is perfectly well known that the propelling machinery of our men-of-war is not only very light, but that every possible endeavor is made to still further reduce weight. This is the popular belief. Let us see precisely what it means. We can only measure weight in marine or other steam engines by comparing weight with power. The same engine may in this sense be either light or heavy, according to the amount of work got out of it. A set of engines and boilers weighing 500 tons may be regarded as very light if 10,000 indicated horse-power are developed; it would be very heavy indeed if the engine indicated 1000-h. power only. Now taking Mr. Sennett as a competent authority—which he admittedly is—and turning to the second edition of his valuable treatise "On the Marine Engine," we find that the weight of all the multifarious machinery in a modern man-of-war, in the shape of steam engines and boilers, does not exceed 2 cwt. per indicated horse-power with forced draught. We are told, furthermore, that the forced draught augments the efficiency of a boiler by 66 to 70 per cent. Consequently engines which weigh 224 lb. per indicated horse-

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

power with forced draught, will weigh about 380 lb. without it. The efficiency of a war vessel is very largely affected by her speed, and if her high speed depends on forced draught for its existence, it follows logically that the efficiency of the ship so far will depend on the satisfactory performance of the forced draught system. If this is not quite satisfactory in every way—if, in a word, the results obtained on trial cannot be obtained uniformly, with certainty, and at any time, then the efficiency of the ship is less than it pretends to be. If we look at the figures given in our last impression, a number of entries will be found like this: "*Benbow*, 17 knots; constructor's estimated speed with forced draught." This kind of statement applies to a considerable number of our latest and presumably our best ships. Without forced draught the speed of the ship would of course be smaller—possibly 15 knots, or a little less. The two knots or so are no doubt well worth having. The question is, is it safe to reckon on getting them when they may be most wanted? This leads directly to another question, which is—Is the machinery now in our ships of war of such design and proportions that even without forced draught it can be relied on to perform its duties for long periods at a time when worked up to its full power?

We shall set one or two facts before our readers, and ask them to draw their own deductions. The first is that in design, proportions, and weights, the engines of a modern man-of-war have no true analogue in the merchant service. The engines in a man-of-war, whatever their power, are smaller, and lighter, and more cramped for room than they are in any merchant steamer. It may be urged that this is the result of the peculiar conditions under which they have to be used, and that we must take our chance that they will work all right when wanted. Against such an argument as this we have, of course, nothing to argue. Those who make it look honestly at the facts of the case. But this is not the view taken by the Admiralty or their advisers. These gentlemen hold that the marine engines of men-of-war are the best in the world, and that the practice of the commercial marine is all wrong. This, it will be seen, is taking very high ground, and against this view of the matter we enter our protest. We hold that the superintending engineers of our great ocean companies—such, for example, as the Cunard Company—know perfectly well what is best for them; and that they have deliberately rejected the system of design adopted by our dockyard officials because experience has told them that their own methods are better than those of the dockyards, and they can point with satisfaction to the results they obtain. The engines of the *Etruria*, for example, run without stop or trouble for a week continuously just as hard as they can be driven. The same thing may be said of hundreds of engines in the mercantile marine. It cannot be said at all of any engines in a modern man-of-war. A six hours' full speed trial is the maximum exertion they are called upon to make.

Furthermore, there is not at this moment half-a-dozen steam-going steamers in existence, excluding the Royal Navy, to which the forced draught system is applied. The mail steamer *Ireland* is the most prominent example outside Mr. Howden's practice that we can call to mind, and the engines on board the *Ireland* will drive her at over her contract speed without the aid of forced draught at all. Indeed, the fans are used rather to ventilate the stokeholes than to force the fires. A water-gauge of less than ½in. is all they are called on to produce; and even if they were worked at full power it must be borne in mind that the maximum duration of a run is not more than four hours. While, then, the ablest and most experienced marine engineers in the world are feeling their way with the greatest caution in adopting forced draught, we find the Admiralty applying it to great warships with the utmost freedom, and staking the success or failure of their designs on a system concerning which only the most limited experience is possessed, and that experience, be it understood, not altogether satisfactory,

If our readers have followed us thus far they will understand now that we bring two definite charges against the dockyards, namely, that they are using machinery much smaller, lighter, and more cramped in proportion to the power developed than dare be adopted in the mercantile marine; and that furthermore they are freely adopting the forced draught system of urging furnaces without adequate and necessary experience of the results to be obtained from it.

Again, a third charge is involved in this, namely, that if machinery is now too small and light for the power developed with natural draught, it must be still worse off with forced draught. It will, no doubt, be urged that we are completely in error, and that the shipowners and engineers of this country are far too slow and too conservative—that they have not "go" enough, nor sufficient originality. Such statements carry their own refutation, and require no comment. Against the further argument that the engines of our warships are all perfect, or nearly so, as machinery can be, we reply that this is a statement which has no foundation but pure assumption. Until an engine has been tried, no one can tell whether its performance will be satisfactory or not. But there is not a set of propelling machinery in any modern man-of-war which has been worked up to its full power for even a single week together. Can any of our dockyard readers name a vessel, not a troopship, which has steamed at full speed for a distance of even 1,000 miles? If so we shall be glad to have particulars. As to the forced draught, on which so much is made to depend, has a run exceeding six hours ever been made with forced draught? How many runs of even four hours have been made without a breakdown of some kind? Has not one of the latest additions to the navy come recently to utter grief in the engine-room? Are the Admiralty prepared to send a man-of-war for a trip across the Atlantic, with instructions to get across as fast as it is in the power of steam to take her? Of course not. We have been told that it is quite unnecessary to be able to run a ship of war at full speed for more than a few hours at a time. But is it not conceivable that it might be of the utmost importance to place a large squadron at some point within a few hours? Let us suppose that a Russian fleet threatened the shores of Scotland while the Channel fleet was cruising at the South of Ireland, what would speed be worth then? It is, however, mere waste of paper to argue that if our ships are fitted with engines which can only be worked up to maximum power for a few hours, they are not what they ought to be, or what the country believes them to be.

The reticence of the Admiralty authorities is such that the nation is in complete ignorance concerning the performance of the machinery for which the taxpayer pays so large a price. No one save the dockyard authorities and the contractors is ever allowed on board during a trial, if, indeed, we except the representative of one non-technical journal, presumably not an engineer, and with his mouth sealed by the very nature of the conditions under which he is permitted to be on board. Of the successes achieved we hear freely enough; of the failures we never hear, unless they result in so serious a break down that absolute silence becomes impossible. The trial trip of a man-of-war finds its precise analogue in a race horse. The fleet creature traverses his three or even four miles at a tremendous pace, but he could not continue the exertion for a quarter of an hour. If our readers were behind the scenes and really knew what takes place in the engine and boiler-rooms of a man-of-war making her six hours trial, they would have no difficulty in tracing the resemblance between the ship and the horse.

FOREIGN ITEMS.

CERTAIN Spanish men-of-war's men on the northern coast of Jamaica are said to have behaved like pirates.

THE grand manœuvres of the French cavalry commenced week before last at Châlons, where 12 regiments belonging to the 2d and 6th independent divisions are operating under the command of Gen. Lhotte, who has succeeded the Marquis de Galiffet as president of the Cavalry Committee.

THE Spanish Government intends to spend $38,000,000 in the construction of 11 cruisers of from 3,000 to 5,000 tons; 10 torpedo-cruisers, of from 1,000 to 1,500 tons; 96 first-class torpedo boats, of from 100 to 120 tons; 42 second-class torpedo-boats, of from 60 to 70 tons; and a transport vessel of 3,000 tons.

THE Italian War Minister Brin, says the *Esercito Italiano* (Rome), has issued an order of the day, to be read before the officers, men, and civil employees of the naval arsenals of the kingdom, by which all documents, maps, and plans of whatever description are regarded as secrets, the betrayal of which will be visited upon an offender with the utmost rigor of the law.

THE grand military manœuvres in the neighborhood of St. Petersburg, which commenced Aug. 19, were concluded on Aug. 23, after which the various foreign officers took leave of the Emperor and Empress. Some interesting experiments in the attack and defence of field fortifications, both by day and by night, were the distinguishing feature. The operations in the Lithuania District are, according to present orders, to be kept secret, but two large forces will be employed in operating against each other. One from Warsaw, consisting of 80,000 infantry, 10,000 cavalry and 288 guns, and another from Wilna of some 65,000 infantry, 7,000 cavalry and 240 guns. It is understood that in the course of these manœuvres extensive raids and forced marches will be practiced, for the purpose of obtaining reliable data as to the efficiency of the vast force of dragoons now adopted by Russia.

THE *St. Stephen's Review*, which is close to the Foreign Office, gives this as gossip: I am in a position to state that but for the attitude taken by the Queen on the Bulgarian question Prince Alexander would at the present moment be interned in Russia and possibly in a fortress. It was decided by a telegram received at St. Petersburg from Balmoral. That produced his release, and nothing else. The Emperor of Germany was annoyed that the first wire from Balmoral to the Czar, which was a serious one, was sent before his advice was sought. To quote his own words on the matter: "The whole of Europe might have been precipitated into a war through the too free use of the wires at a critical moment." Then he is said to have added, reflectively: "Acting on impulse is womanly, but not diplomatic!" Yet I am assured that Prince Bismarck heartily applauded in private the action of the Queen.

No. 33 BLEECKER ST., NEWYORK

THE Italian torpedo-cruiser *Tripoli*, says the *Italia Militaire* (Rome), was successfully launched at Castellamare on the 23d inst., in presence of the Minister of Marine.

GERMAN officers are henceforth forbidden to ride races except in uniform, to hold any interview with a bookmaker or to ride a horse belonging to a man who makes racing a business.

THE Marquis Tseng and suite arrived at Essen on August 25 in order to inspect Messrs. Krupp's gun foundry and other establishments. His Excellency remained there until August 27.

A NEW torpedo-boat station, says the *Avenir Militaire* (Paris), has been constructed at the mouth of the River Lézardrieux, under shelter of a small island about half a mile distant. A jetty is to be constructed about 500 mètres in length, behind which, in case of war or heavy weather, four armorclads and eight torpedo-boats may take refuge. An old frigate will serve as a coal depot. The necessary outlay is estimated at one million of francs.

AUG. 27 was the anniversary of the loss of the *Royal George*, which sank in the awful catastrophe of August 29, 1782, when "Kempenfeldt went down with twice 400 men." The *Royal George* was a floating fortress, carrying 108 guns. The length on the gun deck was 178 feet; extreme breadth, 51 feet 9 inches, and her burden was 2,047 tons. Fifty guests it is said could dine in the admiral's cabin. The poop lanterns were so large that when they required to be cleaned three men at a time could enter them. She had carried the loftiest masts, the heaviest metal and the greatest number of admirals' flags in the navy; and at the time of her loss her ship's company exceeded 800 men. When, however, the fatal event occurred, there were 1,100 souls on board, and of these additional 300 the large majority was composed of women and children. The rest were peddlers, and prize agents, fiddlers, and ballad-singers, and, as one of the very few survivors afterwards deposed, "The 'tween decks was like a fair." Grog was to the fore; watches and silk kerchiefs were being bargained for; skylarking was general, the children were romping, "Jack's delight, his lovely Nan," was emulating the agility of her sweetheart in the double shuffle; all was mirth and revelry.

JAPAN, says the *Progrès Militaire* (Paris), will be represented at the manœuvres of the 12th Corps d'Armée by Captain Tsurada, of the Artillery, and Lieut. Hanasima, of the Cavalry. Bolivia is to send Captain Solinas Vega; Guatemala, Lieut.-Colonel Aguilar.

THE *Rattler*, 6-gun screw composite gunboat of 670 tons and 1,200 horse-power, launched week before last from the Elswick shipbuilding yard of Sir William Armstrong and Co., is the first of a new type, of which four are in course of construction for the Admiralty. Although the keel was only laid in October last, the vessel is expected to be ready for sea in two months.

BULGARIA, says the *Deutsche Heeres-Zeitung* (Berlin), has shown herself since the war determined to improve the condition of her national armaments. Among other changes, the artillery is in course of reorganization. Krupp has already delivered 48 guns of 8·7 centimetres calibre, and he has been further commissioned during the last few weeks to supply a similar number of 7·5 centimetres calibre.

THE *Railroad Gazette* remarks that no less than five explosions of hollow cast iron pistons have occurred in French workshops in the last 20 years in reheating these pistons—generally for the purpose of removing the piston rod. Investigation into the interior of a piston in use for eleven years showed the existence of a brown substance containing fatty matter, oxide of iron, peroxide of iron, and carbon. It is thought that a certain quantity of water had been forced into the cavity in service either through the iron or through imperfections in the plugs with which the original core support cavities were filled. This water in forming oxide of iron set free its hydrogen, which filled the piston cavity. The recombination of this hydrogen with the oxygen at a low red heat would produce the explosion, and it is recommended that all such pistons should be tapped before reheating.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

R. W. TANSILL & CO., Chicago, are now making especially for the Officers of the Army and Navy a new and very fine Havana hand-made cigar, known as "TANSILL'S REINA." They are put up in beautiful packages of 25 cigars, each cigar banded. They come in three sizes, 4¼, 4½, and 4¾, inches, while their moderate cost, viz. $65, $70, and $75 per thousand brings them within the reach of the entire Service.

JAS. E. WALKER, 20 Jacob St., N. Y.

AN EXTRAORDINARY RAZOR. HAS BEEN INVENTED BY THE QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied; sent by mail 10c. extra or C. O. D.

NEW ENGLAND MUTUAL Life Insurance Company, OF BOSTON, Mass.

Assets, ------ $17,846,546.65
Liabilities, --- 15,238,761.16
Total Surplus, · $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office,

Proposals For Quartermaster's Stores.

NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, HOUSTON ST. Cor. Greene, New York City, Aug. 28, 1886.

SEALED PROPOSALS in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock A. M., Sept. 20th, 1886, at which time and place they will be opened in the presence of bidders, for furnishing and delivering at this depot, miscellaneous Quartermaster's Stores, stove parts, tools, rowboat, wheelbarrows, etc., etc., specified on schedule to be seen and had at this office.

The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the Department.

A preference will be given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast to the extent of the consumption required by the public service there.

Blanks and information as to bidding, etc., will be furnished by this office on application.

Envelopes containing proposals should be marked "Proposals for Quartermaster's Stores, to be opened Sept. 20, 1886," and be addressed to the undersigned.

HENRY C. HODGES,
Lieut.-Colonel and Deputy Quartermaster-General, U. S. A., Depot Quartermaster.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 8. WHOLE NUMBER 1204. | NEW YORK, SATURDAY, SEPTEMBER 18, 1886. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE next retirement in order and that soon, is that of Brigadier General JOSEPH H. POTTER, U. S. A., on October 12. Speculation as to a successor is, of course, already rife, but we prefer to "bide a wee" before expressing an opinion.

THE retirement, Sept. 17, of Captain CHARLES J. VON HERRMANN, of the 4th Infantry, promotes 1st Lieutenant B. D. PRICE. This will probably be the only promotion to follow the retirement, as it is understood that Colonel CARLIN will appoint a second lieutenant adjutant, vice PRICE.

MAJOR SCHWAN has arrived in Washington and is associated in charge of the enlisted branch with Major VOLKMAR, who will shortly be ordered to the Department of the Columbia, relieving Major WOOD, who will probably come to Washington in place of Major WARD. Other changes in the Adjutant-General's Department are also looked for at an early date.

THE death of Post Chaplain E. W. BRADY and the retirement in December next of Post Chaplain GEO. D. CROCKER will give President CLEVELAND two appointments of post chaplains during the present year. Applications have been coming in for some time in anticipation of Chaplain CROCKER'S retirement, and now that another place is open they have doubled in number, so that the President will not be at a loss when he returns for material from which to select.

THE *Atlanta* has been reported to the Navy Department as ready for sea; she was to leave New York for Newport Sept. 18, to have her compasses adjusted. She will then start on a week's trial trip at sea, going in the direction of the Gulf of Mexico. The exact conditions of the trial are not known at the Navy Department, as all the arrangements were made by the Secretary with the commanding officer direct. Engineer in-Chief LORING is to be on board to give personal supervision to the management of the engines and machinery. It is expected too that several civilian experts, members of the Advisory Board, and representatives of Mr. JOHN ROACH will be invited to make the trip.

APPLICATIONS are pouring in in great numbers from officers of the Army for duty in connection with the settlement of the claims of the States of Texas, Colorado, Oregon, Nebraska, California, Kansas, and Nevada, and the Territories of Washington and Idaho, for money expended in the suppression of Indian hostilities. Under a recent act of Congress three officers are authorized to assist the Secretary in the examination of these claims. As they will be selected by the Secretary of War personally, no details need be expected until he has returned from his vacation. As the tour of duty is likely to be for a year or more it is not surprising that the details should be in such great request.

IN a recent issue *Broad Arrow* says: "Russia is laying in naval stores as fast as she can at all the Black Sea ports, and that fleet is being strengthened with all rapidity. The Sultan is not blind to these omens, but his exchequer is empty, so he leaves the matter to Kismet, although he will fight hard and die game. But what of the menaces to England? The first train of the Russian Trans-Caspian Railway entered Merv only a fortnight ago; the Turcomans have been gained over; the Ameer of Cabul is troubled as to whether Russia or England is the stronger, and it has now been discovered that a Russian army can march on Rawul Pindi, in spite of all the precautions understood by scientific or strategic frontiers."

THE *Dolphin* is now from stem to stern the property of the United States Government, the assignees of Mr. JOHN ROACH having this week receipted for a check of twenty thousand dollars as payment in full of all claims against that vessel. When the *Dolphin* dispute first arose, the ROACH assignees proposed a compromise, fixing forty-five thousand dollars as a fair sum for final settlement. This the Secretary declined to pay, on the ground that much of the work on the vessel did not come up to the terms of the contract, and for nearly a year the Department has been trying to fix upon a basis for compromise. After much figuring and discussion, the sum above mentioned was finally agreed upon, and the *Dolphin* difficulty is now supposed to be at an end. Mr. ROACH has also received twenty five thousand dollars as payment in full of all demands for storage of the *Puritan*, being about forty thousand dollars less than was originally claimed for the service.

THE report of the statistical commission appointed by the Russian Minister of War to determine the losses suffered by the Army of the Danube in the campaign of 1877-8, shows that 6,465 deaths were due to wounds, and 44,459 to disease. Compared with the effective strength of the army in July, 1878, said to be 592,085, rank and file, this ratio of mortality is claimed to be less than that of any other corps in active warfare since the beginning of the century. During the Crimean campaign, out of 400,000 French soldiers, 105,678 were carried off by disease. The comparatively small loss, both by wounds and infection, reported in the Russo Turkish war, may be in a minor degree due to the superior endurance and simpler regimen of the Muscovite; but such authorities as VON DER GOLTZ and DERRECAGAIX ascribe it to the greater regard for sanitary conditions and the more intelligent and bountiful safeguards against incipient disease that attend an army a-field.

INCIDENTAL to the successful termination of the campaign against the hostile Apaches, it is a noteworthy fact that, although General MILES has been in command of the Department of Arizona for five months, he has not yet visited, nor even seen, the headquarters of his Department at Prescott. Transferred from command of the Department of the Missouri at the critical period following GERONIMO'S escape from General CROOK, he hastened from Leavenworth direct to the immediate field of hostilities, and personally took charge of operations on the border. His movements since then, with his personal staff, have extended throughout Southern Arizona and New Mexico, and into Sonora, Mexico, with frequency and characteristic celerity. As soon as leisure shall ensue from the closing labors of the campaign, the Department staff and garrison at Whipple Barracks will offer a late but cordial welcome to their Commanding General to his Department Headquarters.

THE following circular, relating to the test of torpedoes, has been issued from the Navy Ordnance Bureau:

To whom it may concern:

The Navy Department has appointed a board before which persons interested in the development of torpedoes, for naval use, can exhibit their torpedoes, models and designs, and perform such practical experiments as may appear advisable.

Those who wish to avail themselves of this opportunity should communicate with the undersigned, who will give such further information as may be necessary in the premises. MONTGOMERY SICARD, Chief of Bureau.

The board referred to consists of Captain A. P. Cooke, President; Commander C. F. Goodrich, Lieutenant Commander R. B. Bradford, Lieutenants A. A. Conden and S. P. Lemly. The sum of $75,000 was appropriated at the last session of Congress for "manufacturing, purchasing and experimenting with torpedoes of American manufacture," and the above board was appointed to ascertain the most desirable torpedo for naval purposes. As soon as the inventors submit their torpedoes in answer to the above circular the board will convene and commence the experiments.

PRESIDENT CLEVELAND will have the appointment of three, and, if he concludes to give the Army a Judge-Advocate General, four Brigadier Generals during the year 1886, a Surgeon General, a Chief of Engineers, a Judge-Advocate General, and a successor to Colonel POTTER. For the appointment of Surgeon General, Colonel SUTHERLAND is regarded as the coming man. He has the advantage of seniority, as well as capacity to fill the position acceptably, and the fact that he has allowed his case to stand on its merits, without troubling the President with appeals from this one, that one, and the other, is much in his favor. As to General NEWTON'S successor, nearly every officer of the Engineer Corps has come to the conclusion that Colonel DUANE is to be selected. One argument in his favor is that, if he is passed over this time, he will be deprived of the last chance of occupying an office which he is so competent to fill, and to which his distinguished record so clearly entitles him. Colonel STEWART, having been retired September 16, and Colonel BLUNT having applied to be retired on the 10th of January next, Colonel DUANE has also the claim of seniority.

THE Midvale Steel Works were the only bidders for furnishing the Army Ordnance Bureau with one steel lining tube and 18 steel hoops for the 8 inch gun, to be built of all American steel. Their bid for the tube is 35 cents per pound and for the hoops 40 cents per pound. The tube, jacket and forged trunnion hoop for this gun were contracted for over a year ago with this firm, and as they will get the contract for the materials here referred to, they will go on record as the first American manufacturers to produce all the material for an 8 inch steel gun. The forgings made by them are sound and good, thus demonstrating beyond doubt the practicability of producing the steel for guns up to 8 inch calibre with present facilities. This is a very important step towards the production of still larger forgings. An advertisement for the construction of the gun referred to will be issued very soon. This will be about the only new work in the way of heavy gun construction that can be done by the Bureau during the current fiscal year, owing to the failure of the fortification bill. It was at first supposed that this work could not be done but it was found that a small sum from another fund could be made use of for this purpose.

PERSONAL ITEMS.

LIEUTENANT L. M. BRETT, 2d Cavalry, has joined at Fort Bidwell, Cal., on promotion.

GENERAL L. P. GRAHAM, U. S. A., is spending a short season at Old Point Comfort, Va.

GENERAL W. B. HAZEN, U. S. A., lately at Panama, will return to Washington early in October.

GENERAL W. T. SHERMAN, U. S. A., paid a visit to friends at Governor's Island on Saturday last.

LIEUTENANT T. W. DEFREES, 5th U. S. Infantry, has returned to Washington from Berkeley Springs.

LIEUTENANT H. D. REED, 25th U. S. Inf., under recent promotion, has joined at Fort Snelling, Minn.

CAPTAIN W. P. PEASE, 9th U. S. Infantry, has returned from Europe and is visiting at New Haven, Conn.

MAJOR C. H. CARLTON, 3d U. S. Cavalry, has bid good-bye to Fort Davis and taken command of Fort Elliott, Texas.

LIEUTENANT E. SWIFT, Adjutant of the 5th Cavalry, left Fort Riley, Kansas, this week, to be absent for a fortnight.

CAPTAIN J. G. RAMSAY, 2d U. S. Artillery, now in Washington, will rejoin at Jackson Barracks, La., at the end of October.

LIEUTENANT GRANGER ADAMS, 5th U. S. Artillery, rejoined at Fort Hamilton, N. Y. H., early in the week on a post leave.

COLONEL W. R. SHAFTER, 1st U. S. Infantry, has returned to Angel Island from an official trip to Benicia Barracks, Cal.

LIEUTENANT E. E. HATCH, 18th U. S. Infantry, lately at Liberty, Me., has received a two months' extension of sick leave.

LIEUTENANT W. W. TYLER, 13th U. S. Infantry, visiting at Sackett's Harbor, N. Y., has had his sick leave extended two months.

MAJOR F. LUTTMAN JOHNSON, British Army, stationed in Bermuda, was in New York this week, quartering at the Fifth Avenue Hotel.

LIEUTENANT W. L. PITCHER, 8th Infantry, lately in temporary charge of the recruiting rendezvous at Baltimore, has returned to David's Island.

CAPTAIN L. R. STILLÉ, 23d U. S. Infantry, on leave from Fort Brady, Mich., will prolong his visit to Philadelphia until the latter part of November.

LIEUTENANT EUGENE GRIFFIN, Corps of Engineers, U. S. A., came on to New York from Washington this week to be examined for promotion to Captain.

LIEUTENANT E. L. ZALINSKI, 5th U. S. Art., has had a busy week of it as Executive Officer of the Fall meeting at Creedmoor of the National Rifle Association.

LIEUTENANT G. K. HUNTER, 3d U. S. Cav., has taken charge of the recruiting rendezvous at 219 West street, Cincinnati, in succession to Lieut. F. A. Edwards, 1st Cav.

LIEUTENANT S. Y. SEYBURN, 10th U. S. Inf., has taken charge of the infantry and cavalry recruiting rendezvous at 218 West Pratt and 87½ South Sharp streets, Baltimore, Md.

MAJOR-GENERAL J. M. SCHOFIELD, U. S. A., accompanied by Lieut. John Pitcher, A.-D.-C., visited friends in Chicago this week and afterwards returned to Governor's Island.

LIEUTENANT-COLONEL J. K. MIZNER, 8th Cav., who relinquishes duty at Jefferson Barracks, Mo., in a few days, will remain East a couple of months before joining his regiment in Texas.

COLONEL H. G. LITCHFIELD, U. S. A., arrived in New York City on Friday last from St. Augustine, Fla., and will spend several weeks here. The longer the better say his many friends in the East.

COLONEL R. F. O'BEIRNE, U. S. A., is a temporary guest at the New York Hotel, New York, preparatory to taking over the command of the Recruiting Depot at David's Island, New York Harbor.

LIEUTENANTS W. A. NICHOLS, W. H. Johnston and D. E. McCarthy, U. S. A., returned to Fort Leavenworth this week from a pleasant trip to Jacksonville, Ills., where they acted as judges of a competitive drill.

THE seniors in the Infantry arm now are Lieut.-Colonel E. F. Townsend, 11th; Major E. G. Bush, 6th, and Captain W. J. Lyster, 19th. The retirement of General Potter, October 12 next, will give them their step.

WE are indebted to the New York *Sun* of Sept. 12 for the information that General Miles, the famous Indian fighter, went to Erastina, Staten Island, yesterday (Sept. 11), and saw Buffalo Bill's Wild West show.

CAPTAIN J. H. DORST, 4th U. S. Cavalry, was to leave Fort Leavenworth this week with the Apache Indians there for St. Augustine, Fla., where the Indians are to be turned over to the commanding officer, Fort Marion.

LIEUTENANT-COLONEL J. J. COPPINGER, 18th Inf., has relinquished the command of Fort Hays, Kas., to Colonel John E. Yard, of the regiment, who has lately reported for duty. Col. Coppinger will likely go to Fort Gibson.

CAPTAIN J. G. TURNBULL, 3d U. S. Art., rejoined at Fort McHenry, Md., with his battery, this week, from a two weeks' tour of rifle practice at Washington Barracks. Battery I, 3d Art., will go from Fort McHenry, Md., next week to Washington Barracks for a similar purpose.

MAJOR J. J. UPHAM, 5th Cav., representative of our Government at the autumn manœuvres of the 12th and 18th Army Corps of the French Army, was presented, with the representatives from other powers, to General Boulanger in Paris, Sept. 11, and afterwards left for Bordeaux. The manœuvres were in progress at La Reole, near Bordeaux, this week.

COLONEL T. F. BARR, U. S. A., left Chicago early in the week on a month's leave.

CAPTAIN GEORGE F. TOWLE, U. S. A., was at the West Hotel, Minneapolis, a few days ago.

COLONEL ANSON MILLS, U. S. A., on leave from Arizona, is visiting friends at Zanesville, Ohio.

CAPTAIN C. S. SMITH, Ordnance Corps, U. S. A., has returned to Washington from a short vacation.

GENERAL E. S. BRAGG has failed to receive the nomination for another term as member of Congress.

LIEUTENANT COLONEL HORACE JEWETT, 3d Infantry, was in St. Paul last week on his way to Fort Missoula.

LIEUTENANT-GENERAL P. H. SHERIDAN, U. S. A., registered at the Fifth Avenue Hotel, New York, on Saturday last.

MAJOR THOMAS MCGREGOR, 2d Cav., has taken command of the military camp near Ellensburg, Washington Territory.

CAPTAIN P. D. VROOM, 3d U. S. Cavalry, left Fort Davis, Tex., last week for the North to enter upon a tour of recruiting duty.

MAJOR-GENERAL ARTHUR S. MOBERLY, British Army, retired, was a guest this week at the Hotel Brunswick, New York City.

CAPTAIN W. P. VOSE, 2d U. S. Artillery, lately at Fort Niagara, N. Y., at the rifle competitions, is on a brief visit to friends in Washington.

CAPTAIN W. MCK. DUNN, 2d U. S. Art., rejoined at Little Rock Barracks this week from a long leave, and resumed command of his battery.

COLONEL JOHN N. MACOMB, U. S. A., retired, has returned from East Gloucester, Mass., to his home 1314 N street, N. W., Washington, D. C.

THE new issue of two-dollar silver certificates bears a portrait of the late Major-General W. S. Hancock, U. S. A., in full dress uniform.

CAPTAIN R. H. MONTGOMERY, 5th Cavalry, who leaves St. Louis October 1, will spend a month in the East before joining his troop at Fort Reno, I. T.

COLONEL JOHN CAMPBELL, U. S. A., retired, has returned to his home, 232 East 18th street, N. Y. City, after a residence of two months on Lake George, N. Y.

LIEUTENANT A. C. TAYLOR, 2d U. S. Artillery, a "distinguished marksman," returned to Little Rock Barracks, Ark., this week from a pleasant trip to Fort Niagara.

GENERAL GEORGE CROOK, U. S. A., accompanied by Lieut. Kennon, A.-D.-C., have gone to Portsmouth, O., to attend the reunion of the 36th Ohio and the Army of West Virginia. Mrs. Crook is at Oakland, Md., where the General will join her later on

GENERAL MARCY is going West for a hunt in Wyoming, expecting to reach Douglas, the terminus of the extension of the F. E. and M. V. R. R., of the Chicago and North Western system, and a few miles from old Fort Fetterman this week. Before returning he will probably visit Fort McKinney.

GENERAL W. T. SHERMAN, U. S. A., is reported by a "New York Interviewer" as saying: "I have come to live permanently. My family is here and we are comfortably lodged. I feel splendidly, have had a pleasant summer, and in a few days shall run down to Block Island. Although I have come to make New York my home I don't suppose I will be in the city very much."

THE Washington correspondent of the New York *Herald* says: "Mr. Endicott, Secretary of War, is absent so much that his return at this season of the year would entitle him to be classed as a distinguished visitor. He has never taken kindly to Washington society. He still prefers the domestic quiet of old Salem and his New England associates to the gewgaws of life at the Capital."

COLONEL P. C. HAINS, of the Engineer Corps, who was designated to act as disbursing officer of the War Department when Mr. Lawton became incapacitated for duty, has been relieved from that duty at his own request, and has gone to Fortress Monroe for his health. Capt. C. S. Adams, of the Engineer Corps, on duty in the office of Chief of Engineers, has been designated to take Col. Hains's place, and made the semi-monthly payments on Wednesday.

IN an interesting description of the lighthouse at the southern end of Mare Island, the Vallejo *Chronicle* says: "The keeper's building forms a pretty picture in front of the bluffs, and is painted in an artistic manner, and when it is reached the visitor is greeted in a hospitable manner by the keeper, Mrs. Katie C. McDougal, widow of the late Comdr. C. J. McDougal, U. S. N., and her charming daughters, who at all times are ready to give any information of interest to those having an opportunity of visiting this quiet retreat under the hills.

THE Baron de Charette, who arrived in New York on Monday, comes of a military family. His grandfather, a Chouan chief, was one of the royalists who defended La Vendée and Bretagne against Napoleon. Baron Charette entered the military profession at an early age. In 1859 he became Colonel in the Guards of the Duke of Modena. When the Papal Army was organized to repel the Sardinian invasion the Baron entered the service of Pius IX. After the surrender of Rome he entered the French service, in which he distinguished himself on a number of occasions.

LIEUTENANT-GENERAL P. H. SHERIDAN returned to Washington from New York early in the week and in a few days will go to Fort Leavenworth, Kan., to attend the Army competition. A reporter of the Washington *Post* asked the General about the fate of Geronimo. "I do not yet know," he said, "whether any conditions attached to his surrender. There is no doubt what ought to be done with him. He is entitled to no mercy or consideration. If he cannot be dealt with summarily he will probably be removed east of the Mississippi—to Florida, perhaps—the very place where he doesn't want to go. The Dry Tortugas would be a good reservation for him."

MRS. STACEY, wife of the late Col. M. H. Stacey, has taken a home in Washington, D. C., No. 1,146 17th street, N. West.

CAPTAIN C. A. CURTIS, U. S. A., retired, has left Madison, Wis., for Gainesville, Fla., where he will spend several months.

LIEUTENANT H. H. BENHAM, 2d U. S. Infantry, was in New York this week, on his way to join at Union College, Schenectady, N. Y.

COLONEL J. E. YARD, 18th Infantry, has appointed 1st Lieut. G. L. Turner Regimental Adjutant. Lieut. Turner was graduated from West Point in 1874, and has had a large experience.

LIEUTENANT SEDGWICK RICE, 7th Cavalry, recently transferred from the 22d Infantry, has been presented by the officers with a fine charger. Lieut. Rice is at present a witness before the U. S. courts at Wichita, and will on his return attend to the shipment of this noble animal to his station in Dakota.—*Kansas City Times.*

THE wedding of Lieutenant A. M. Fuller, 2d U. S. Cavalry, to Miss Carrie M. Scheller, which took place at San Jose, Cal., August 25, was a brilliant affair. The wedding took place at the residence of the bride's parents, which was handsomely decorated for the occasion. A breakfast followed the ceremony, and after innumerable god speeds, the married couple left for San Francisco. The bridal presents were numerous and elegant.

THE litigation pending for the last six years between Jacob Reese, of Pittsburg, the inventor of the basic steel process, and the Bessemer Steel Company, Limited, which has prevented the use of the basic steel process in the United States, owing to an injunction obtained by the Bessemer Steel Company, has been decided by the Master in Chancery, who reports that the injunction should be dissolved and the bill dismissed at the cost of the Bessemer Steel Company.

THE Omaha *Excelsior* of Sept. 11th says General Burnham was a passenger to the Pacific Coast on Wednesday night.....Miss Storms, who has been visiting with Captain and Mrs. Ebstein at Fort Sidney, started Thursday for her home in Brooklyn. Mrs. Ebstein accompanied her as far as Grand Island. .....Major Downey is in command at Fort Sidney this week. Lieut. Corman is Acting Adjutant, Quartermaster, Commissary, etc., and also does duty as Officer of the Day.

THE will of Gen. Lloyd Aspinwall gives $10,000 each to his sons, William H. and Lloyd Aspinwall, Jr., and his grandson, Lloyd Aspinwall third; $2,500 to his friend Gen. Martin T. McMahon, and $2,000 to John Johnston, who is described as "the dear friend of my son Willie." All the residue of his estate, real and personal, including property worth about $200,000 bequeathed him by his mother, and which would revert to her heirs at law unless specifically devised by him, he leaves to his widow, Harriette Prescott Aspinwall. He makes his widow executrix and his sons executors of his will. The estate is estimated at about $600,000.

CAPTAIN C. J. VON HERMANN, 4th U. S. Infantry, was duly retired for age on Friday of this week, September 17, after an honorable service, dating from 1861. He served throughout the war with great credit, receiving the brevet of Major in the Regular Army for gallantry at the siege of Port Hudson, and the brevet of Lieutenant Colonel of Volunteers for "coolness, gallantry, and valuable services during the campaign terminating with the surrender of the army under General Lee." The retirement of Major Von Hermann promotes Adjutant Butler D. Price to Captain, and devolves the selection of a Regimental Adjutant upon Colonel Carlin.

EVERY target fiend knows who Lieut. W. H. Sage, 5th Infantry, is. We believe him to be the best shot, all things considered, that there is in the Division of the Missouri. His modesty and courtesy is commensurate with his merit. Last year when Jimmy Goodin, 2d lieutenant 7th Inf., waxed Billy Sage in the preliminary division competition for the Robertson badge, Lieut. Sage was the first to congratulate Mr. Goodin. Such acts as this are not forgotten.....Lieut. Bates, 18th Inf., is at Fort Leavenworth, the guest of Capt. Rafferty, 6th Cav..... Lieuts. J. A. Irons and J. F. Morrison, 20th Inf., are looking up old friends. Lieut. Irons is on a four months' leave, and expects to visit Europe before he rejoins his regiment.....Lieut. and Mrs. Perkins, 5th Inf., are the guests of Capt. and Mrs. Pope.—*Kansas City Times.*

BEN PERLEY POORE, in the *Boston Budget*, says that Senator Sumner, in the early part of the war, learning that a son of the poet Longfellow had applied to enlist, "went to the War Department and laid the case before the Secretary, asking in conclusion a commission in a cavalry regiment for the young Cambridge soldier. Mr. Stanton at first peremptorily refused, saying that his own son had run away from home and enlisted as a private in a Union regiment in Tennessee, where he proposed to let him remain. The commission was, however, forthcoming, and young Longfellow wore shoulder straps as a second lieutenant of cavalry. But he did not fancy army life and resigned to engage in more congenial pursuits. Senator Sumner also obtained a commission for a son of Mrs. Harriet Beecher Stowe, who did not distinguish himself as a soldier."

LIEUT. DWIGHT HOLLEY, 1st U. S. Infantry, a graduate of this year, was married Sept. 1, 1886, at Syracuse, N. Y., to Miss Lizzie Lapham Howard, of that city. The ceremony was performed in St. James Church, Lock street, by Rev. Joseph M. Clarke, and was witnessed by one of the largest and most fashionable assemblages of the season. The bride was attended by her mother, Mrs. Adele B. Howard, and four bridesmaids—Miss Holley, sister of the groom, Miss Nellie Huntington, Miss Helen Myers, and Miss Margaret Westcott. The ushers were Lieutenants John E. McMahon, 4th Artillery; A. D. Andrews, 5th Artillery; Thos. B. Mott, 1st Artillery; E. M. Lewis, 11th Infantry; L. G. Berry, 4th Artillery, and Messrs. Place, Myers and Chase. Lieut. F. L. Winn, 1st Infantry, was "best man." A supper followed, after which the happy couple left on a short tour. They will soon return to Syracuse, and then go to Fort Halleck, Nev., Lieut. Holley's station.

COLONEL A. J. MCGONNIGLE, U. S. A., East from Arizona, was in Washington this week.

LIEUTENANT B. F. HANDFORTH, 4th U. S. Infantry, on sick leave, is visiting in New York City.

COLONEL GEORGE GIBSON, 5th U. S. Infantry, and Mrs. Gibson, were in Washington this week.

LIEUTENANT C. G. STARR, 1st Infantry, has gone to Benicia Barracks, Cal., for temporary duty.

COLONEL E. C. MASON, U. S. A., has rejoined at Fort Snelling, Minn., from a trip to Montana.

LIEUTENANT H. J. REILLY, 5th U. S. Artillery, and family, are visiting at Sackett's Harbor, N. Y.

GENERAL W. H. PENROSE, U. S. A., left Fort Niagara, N. Y., early in the week on a short leave.

LIEUTENANT F. J. KERNAN, U. S. A., has entered upon duty at Thatcher's Institute, Shreveport, La.

MAJOR D. PERRY, 6th U. S. Cavalry, left Greenwich, Conn., this week for his post, Fort Lewis, Col.

COLONEL H. G. LITCHFIELD and Maj. G. W. Shorkley, U. S. A., spent most of the week at Creedmoor, N. Y.

THE class graduated at West Point in June, 1886, numbered 78 members. Of these eight were married before Aug. 31.

CAPTAIN EDWARD FIELD, 4th U. S. Artillery, passed through New York on Wednesday, returning from leave to Fort Adams, R. I.

MISS BESSIE HUNT, the only daughter of the late Col. Lewis Cass Hunt, is visiting her uncle, Lieut. E. W. Casey, U. S. A., at Fort Lewis, Col.

LIEUTENANT M. MAXWELL, 15th U. S. Infantry, who is visiting at De Witt, Ark., will join his company at Fort Buford, Dakota, early in October.

COLONEL G. W. WALLACE, U. S. A., retired, returned to New York City this week from Lake Mahopac, N. Y., where he has been spending the summer.

CAPTAIN J. S. SIMPSON, Quartermaster U. S. A., lately visiting in New York and vicinity, will return to San Antonio towards the end of the present month.

MISS MATTIE SCOTT, daughter of Col. R. N. Scott, U. S. A., returned to her home in Washington this week after a very pleasant visit to Col. Barr at Fort Snelling and Major Forsyth at Jefferson Barracks.

GENERAL STEWART VAN VLIET, U. S. A., registered at the Glenham Hotel, New York, on Tuesday. The General went on to the Hotel Kaaterskill, N. Y., and attended the meeting and dinner of the Holland Society there Sept. 14.

A SAILBOAT containing William Ross, Private Coughlin, and Sergeant Carroll, of Battery H, 4th Artillery, capsized last Sunday off Fort Warren and the sergeant named was drowned. He was in charge of the guard at Mount McGregor last year during the Grant obsequies.

OWING to a confusion of dates we were made to report last week, under "Married," the marriage "September 6" of Lieut. F. L. Denny, U. S. Marine Corps, to Miss Julia Graham Palmer, daughter of Gen. I. N. Palmer, U. S. A. The ceremony will not take place until *October* 6, at St. John's Church, Washington, D. C.

LIEUTENANT J. H. KING, 8th Cavalry, and his beautiful young bride, says the Brackett *News*, are spending a few days at Fort Clark. Mrs. King received a welcome from the ladies and brother officers of the Lieutenant that must be very gratifying to her husband. They were serenaded by the band the night after their arrival.

CAPTAIN W. E. Dougherty, 1st Inf., and Assistant Surgeon H. I. Raymond, U. S. A., have been in San Francisco recently as witnesses in the case of the U. S. v. Pactah Billy and Ben, two of the Hoopa tribe of Klamath Indians, who are charged with the murder of Ike, a member of their tribe, at or near the Hoopa Valley Reservation, Humboldt County, in June, 1885.

GENERAL A. V. KAUTZ, U. S. A., says the Cincinnati *Volksfreund*, is so deserving of the Brigadier-General vacancy on the 12th of October, and is so generally recommended that President Cleveland will no doubt be unable to resist his appointment. General Kautz is a native of Baden, and for the past 40 years of a faultless service has honored the German name in this country.

THE following officers of the Army registered at the War Department this week: Lieut. Col. A. J. Dallas, retired; 1st Lieut, C. W. Foster, 3d Art.; Maj. Theo. Schwan, A. A. G.; 1st Lieut J. J. Dougherty, 11th Inf.: Lieut. Col. H. M. Robert, Corps of Engineers; 2d Lieut. John S. Mallory, 2d Inf.; Capt. Chas. J. Von Herrmann, U. S. A.; 2d Lieut. L. E. Sebree, S. O.; Capt. J. B. Campbell, 4th Art.

GENERAL S. W. CRAWFORD, U. S. A., has gone to Charleston, S. C., to aid in the relief of sufferers by the earthquake. General Crawford is not unfamiliar with Charleston, having been stationed at Fort Sumter in 1861. Gen. Crawford, in a letter to Governor Fairchild, Commander-in-Chief of the Grand Army of the Republic, who also has gone to Charleston, says: "Nothing could have been more opportune than your visit to this afflicted city. The great organizations that you represent could do nothing more in accordance with their principles and practice than to assist in this great Christian effort." Gen. Crawford has an interesting article on the "Reserves at Gettysburg," in the Philadelphia *Weekly Press* of September 8.

A CHEYENNE special says: "It is reliably reported here that Lieut. John F. McBlain, 9th Cavalry, tried by court-martial for obtaining a divorce from his wife by questionable methods, was acquitted." A despatch of Sept. 16 says: "The Court-martial that tried Lieutenant McBlain has sentenced him to dismissal, but General Crook set aside the sentence for the reason that the evidence was such as should have secured the accused an honorable acquittal. Lieutenant McBlain is restored to duty. General Crook's action is highly commended for impartiality."

CAPTAIN C. B. SEARS, Corps of Engineers, U. S. Army, will locate at Bismarck, Dakota, towards the end of September.

GENERAL F. H. SMITH, Superintendent of the Virginia Military Institute for the last 47 years, has tendered his resignation.

LIEUTENANT C. B. BAKER, 7th Infantry, who is visiting friends at Columbus, O., will shortly start to join his company at Fort Laramie, Wyo.

COLONEL P. C. HAINS, Corps of Engineers, U. S. A., has gone to Old Point Comfort to recuperate from a malarial attack. Capt. H. M. Adams, of the corps, has been detailed to make disbursements for the War Department.

LETTERS from General William S. Harney, U. S. Army, state that the family affairs which required his departure from Florida, have been arranged, and he hopes to return and settle in Orange County or Hillsborough among his old comrades.

PAYMASTER-GENERAL WM. B. ROCHESTER left Vineyard Haven last week for Albany, where he is spending a few days with relatives previous to returning to Washington for the autumn work in the way of preparing annual report, etc. He is expected in Washington on Saturday.

BISHOP DUNLOP, whose diocese takes in all of New Mexico and Arizona, recently, after holding service in Silver City in the morning, preached to a large and interested audience at Fort Bayard in the evening, being the guest of Lieut. and Mrs. Baird. The Bishop is an "old-timer," as the expression is out there, and no "tenderfoot," and has a host of Army friends along the border.

CAPTAIN CHARLES S. SMITH, of the Ordnance Department, has returned to Washington after a month's vacation, and is now Acting Chief of Ordnance in the absence of General Benét and Captain Birnie, who had been acting until Captain Smith's return. Capt. Birnie is now enjoying a short vacation himself. Captain Valentine McNally, Ordnance Storekeeper, has also returned, and can be found at his desk as usual.

COMMANDER B. J. CROMWELL, U. S. N., has left Montrose, Pa., for the Arandale House, Bedford, Pa.

LIEUTENANT J. FRANKLIN, U. S. N., and Mrs. Franklin, arrived in Washington this week from West Apopka, Fla.

CHIEF ENGINEER H. W. FITCH, U. S. N., has returned to his home, 3939 Chestnut street, Philadelphia, from Ocean Beach, N. J.

NAVAL CONSTRUCTOR GEO. W. MUCH arrived at Norfolk September 14 and joined the Board, and has commenced survey on the *Trenton*.

COLONEL C. G. MCCAWLEY, Commandant of the Marine Corps, and Mrs. McCawley, have returned to Washington from their summer's vacation.

THE marriage of Miss Clitz, daughter of Rear Admiral Clitz, U. S. N., to Lieut. H. E. Waterman, Corps of Engineers, U. S. A., is to take place in New York this month.

LIEUTENANT JAMES FRANKLIN, P. A. Engr. Reah Frazer, Comdr. S. H. Baker, Lieut. Comdr. Joshua Bishop and P. A. Paymr. James A. Ring are registered at the Navy Department this week.

ENSIGN W. LEE CAPPS, who has left for Europe, is, says the Norfolk *Landmark*, the son of Mr. Washington T. Capps, of Lambert's Point, Norfolk County. He goes to the University of Glasgow to further prosecute the study of naval engineering and architecture.

P. A. ENGINEER JAMES ENTWISTLE, U. S. N., of the training ship for boys *Minnesota*, has determined not to take a leave of absence this summer, but will employ the time in perfecting his arrangements for comfort the coming winter. His address is Station E, New York City.

CHIEF ENGINEER J. P. KELLY, U. S. N., is in Buffalo in attendance upon his mother, who is dangerously ill. Mrs. Kelly, who is upwards of seventy years old, was formerly a Miss McDermott, and is a lineal descendant of the Princess of Coolvin, of Roscommon, Ireland.

COMMODORE DANIEL L. BRAINE arrived from Washington at Fort Monroe on Saturday morning and sailed from Newport News the same night on the steamer *Finance* for Rio, to take command of the South Atlantic Squadron. Lieut. A. B. Wyckoff, U. S. N., goes with him as Secretary, and Lieut. Henry H. Barroll, U. S. N., as Flag Lieutenant.

PAY INSP. F. C. COSBY, U. S. N., well known in Washington, is now stationed at the Kittery Navy-yard, Me., in charge of the Pay Department, and with his family is enjoying pleasant quarters at the Rockingham House. Pay Inspector Cosby is number one of the list of Inspectors, and by due process of the retired list will be a Pay Director on the 5th of July, 1889.

ALTHOUGH nothing has been received from Lieut. Charles H. Lyman, U. S. N., commanding the naval station at Port Royal, S. C., it is hoped that no harm has come to him from the recent shaking up in that part of the Union. Mrs. Lyman and family are at the station with the Lieutenant. She is well known in Georgetown, and, as Miss Rebecca Chew, was a universal favorite.

THE marriage of Lieut. James T. Smith, U. S. Navy, to Miss Florence Skyring Rundle, which took place at Zion Church, Madison avenue, New York, Sept. 14, brought together a large concourse of friends. The Rev. F. Lobdell, S. T. D., Rector of St. Andrew's Church, officiated. The fair bride is a daughter of Richard P. Rundle, Esq., of 126 West 36th street, New York City.

MEDICAL INSPECTOR D. KINDLEBERGER, U. S. N., assumes the charge of the Naval Hospital, Washington, D. C., shortly, as the relief of Medical Director A. L. Gihon, U. S. N. Dr. Kindleberger and wife have been enjoying the pleasures of Narragansett Bay, they having been at Conanicut Island since Mrs. Kindleberger's return from Europe. It is said the Dr. intends building a summer cottage at that delightful hot weather resort.

CAPTAIN R. W. MEADE, U. S. N., was a recent guest at the Grand Pacific, Chicago.

NAVAL CADET W. C. COLE, U. S. N., is a recent guest at the Merchants' Hotel, St. Paul.

REAR-ADMIRAL S. B. LUCE, U. S. N., has left Newport, R. I., for Sunset Hill House, Sugar Hill, N. H.

ASSISTANT ENGINEER F. H. ELDRIDGE, U. S. N., was a recent guest at the Occidental Hotel, San Francisco.

CAPTAIN C. G. GORDON, of the British Royal Marines, was a recent guest at the Fifth Avenue Hotel, New York City.

REAR ADMIRAL J. J. ALMY, U. S. N., was in New York this week en route to his home in Washington, from Bar Harbor, Maine.

LIEUTENANT N. E. NILES, U. S. N., has returned from leave to the labors of the Meteorological Department of the Hydrographic Office.

LIEUTENANT JESUP NICHOLSON, U. S. Marine Corps, visiting at 1,718 N street, Washington, D. C., has had his sick leave extended until December 12.

MRS. A. C. DILLINGHAM, wife of Lieut. Albert C. Dillingham, U. S. N., is summering at Jamestown, Narragansett Bay. The Lieutenant is stationed on the flagship *Tennessee*.

ENSIGN H. McL. P. HUSE, U. S. N., was married at Mt. Washington, Md., Sept. 14, to Miss Mary Stockton, daughter of Mr. Wm. Whitelock, of Baltimore. The Rev. M. Pursell officiated.

CHIEF ENGINEER JOHN LOWE, U. S. N., of the *Dolphin*, paid Washington a short visit last week. The *Dolphin* lacks but two requisites to go on a cruise, a commanding officer and orders.

ASSISTANT ENGINEER W. J. BAXTER, U. S. N., sailed from New York Sept. 16 for Glasgow, Scotland, where he has been ordered on special duty to undergo an advance course in steam engineering.

ENSIGN H. O. DUNN, U. S. N., of the Bureau of Equipment and Recruiting, is still off duty from malaria. His last cruise embraced both shores of the Pacific Ocean, beginning on the South Pacific Station in the *Iroquois* and ending on the *Essex* in Corea, etc.

CHIEF ENGINEER B. FRANK GARVIN, U. S. Navy, and Mrs. Garvin arrived in Washington last week to spend a few days on the way home to Philadelphia from Hot Springs, and were the guests of Commander and Mrs. Augustus G. Kellogg at the Navy-yard.

P. A. PAYMASTER JAMES E. CANN, U. S. N., was in Washington last week looking none the worse for his long rest from duty. The paymaster has been residing most of the time in Harrisburg, Pa., since leaving the *Iroquois*, on the South Pacific Station, early in 1885. He goes to Key West, Fla., as the relief of P. A. Paymr. John W. Jordan, U. S. N.

MISS MARGARET MEADE is lying dangerously ill at her residence in Washington, and on account of her advanced age, some 80 years, grave fears are entertained of her recovery. She is a sister of the late Major-General George G. Meade, the hero of Gettysburg, and of the late Commodore Richard W. Meade, U. S. N. Her illness is a cause of anxiety to a large circle of relatives and friends, both in the Services and in civil life. A sister of Miss Meade, Mrs. Salvadora Meade Paterson, died September 10 at Perth Amboy, N. J. Mrs. Paterson was twice married, her first husband having been Lieut. John T. Sullivan, U. S. N., who died July 6, 1847. Lieut. Sullivan entered the Navy as a Midshipman December 1, 1827.

"REAR-ADMIRAL BALDWIN, U. S. N.," says a Saratoga correspondent, "has been here several weeks, and is one of the most popular guests of the States. He came here severely affected with a bronchial trouble, and his stay has been so beneficial to him that he has prolonged it from week to week. Mrs. Baldwin returned to Newport a fortnight or more ago, and the admiral joins her there on Saturday for a day, when they will go to Morristown, N. J., for the remainder of the month. Admiral Baldwin is tall and slender, with plenty of glossy, steel-gray hair shading his broad temples; beautiful luminous eyes, and an endearing courtesy to his friends, of whom he seems to have more in the States dining-room than any other guest I have ever noticed."

RECENT DEATHS.

THE father of the recently deceased Colonel Lewis Cass Hunt, and of General Henry J. Hunt, was not Thos. F., but Samuel W. Hunt, who entered the Military Academy in 1814, and died Sept. 11, 1829, as 1st Lieutenant 3d Infantry. Their grandfather was Thomas Hunt, who was Captain 2d Infantry March 4, 1791, attained the rank of Colonel in 1803, and died August 18, 1808, at Belle Fontaine. Samuel W. Hunt left the Military Academy to get married. Colonel Hunt's remains have been temporarily interred at Fort Union, N. M. They are to be transferred to Colonel Casey's farm at Boston Neck, R. I. The Kansas City *Times* calls attention to the fact that the death of Colonel Hunt leaves but one survivor of the party witnessing the establishment of the present post of Fort Leavenworth in 1827, General Henry J. Hunt, now in command of the Soldiers' Home in Washington. In a recent letter, General Hunt said: "My mother died in St. Louis, and when my father's company was ordered up to the Missouri River with the rest to establish the new cantonment (Leavenworth), he took me, then eight years old, and my two brothers, aged six and four respectively. We had an extremely sickly summer (1827). I have heard that nearly half the garrison died. My second brother was one of the victims of this sickly season. After a time my youngest brother and myself were sent to Liberty, Clay County, Missouri, to school. Of the officers at this time I only remember two

distinctly, Captain Belknap, father of the late Secretary of War, and Surgeon Finley, who was Surgeon-General of the Army in the first year of the late Civil War, both now dead. When my father's company was ordered back to Jefferson Barracks, my brother and myself returned to Leavenworth. We went back to Jefferson Barracks in a steamboat This was in the spring of 1829, and my father died at that post in September of that year."

—

THE following paragraph appeared among the death notices in the Washington *Evening Star* of Sept. 8, 1886:

PETER.—Suddenly, September 8, 1886, MARTHA CUSTIS PETER, wife of Dr. Armistead Peter.

Funeral from chapel at Oak Hill Cemetery, Friday evening, September 10, at 5 o'clock. Relatives and friends are invited to attend.

MRS. Martha Custis Peter was the daughter of Captain Beverly Kennon, U. S. Navy, who, on the 28th of February, 1844, was killed on board the U. S. S. *Princeton* by the explosion of the large gun called the "Peacemaker." The sudden and untimely decease of the only daughter of Captain Kennon renders a brief recital of the circumstances attending his tragic death not inappropriate, and certainly interesting. An account of the affair is compiled for the benefit of our readers from contemporaneous records.

Yesterday was a day appointed by the courtesy and hospitality of Captain Stockton, commander of the *Princeton*, for receiving as visitors to his fine ship (lying off Alexandria) a great number of guests, with their families, liberally and numerously invited to spend the day on board. The day was most favorable, and the company was large and brilliant, of both sexes; not less probably in number than 400, among whom were the President of the United States (John Tyler), the heads of the several departments and their families. . . . During the passage down, one of the large guns on board (carrying a ball of 225 lbs.) was fired more than once, exhibiting the great power and capacity of that formidable weapon of war. . . . The vessel was on her return up the river, opposite to the fort, where Capt. Stockton consented to fire another shot from the same gun, around and near which, to observe its effects, many persons had gathered, though by no means so many as on similar discharges in the morning, the ladies who then thronged the deck being on this fatal occasion almost all between decks, and out of reach of harm.

The gun was fired, and before the smoke cleared away so as to observe the effect of the explosion, shrieks and cries arose, announcing a dire calamity. The gun had burst, and the lower part, from the trunnions to the breech was blown off, and one-half section of it lay on the breast of Captain Beverly Kennon, of the Navy, who at the same time was Chief of the Bureau of Construction. Besides Captain Kennon, the following were instantly killed by the explosion: Mr. Abel P. Upshur, Secretary of State; Mr. T. W. Gilmer, recently placed at the head of the Navy; Mr. Virgil Maxey, lately returned from a diplomatic residence at the Hague, and Mr. Gardiner, of New York, formerly a Senator from that State. In addition to the killed, 17 seamen were wounded, some mortally. . . . Captain Kennon has left a young wife, and children by his first wife. [Mrs. Peter was born some little time after the tragic death of her father, being the only child of Captain Kennon by his second wife.]

The accounts of the occurrence published at the time conclude with a full description of the funeral of the victims, which was held at the Congressional Cemetery, although appropriate religious services were held at the Presidential mansion.

The "Peacemaker" was a wrought-iron gun 15 feet long and weighed 10 tons, having a bore of 12 inches, and throwing a ball of 230 pounds. This gun was made in the United States. A second, of the same general type and size, on the *Princeton* also, called the "Oregon," was constructed in England.

—

THE California Commandery of the Military Order have issued a circular containing the following obituary notice of Lieut. Johnson, who died at San Francisco, Sunday, Aug. 8, 1886, of heart disease, while taking a Turkish bath:

Henry Johnson, Jr., was born at New Castle, Delaware, in 1855. Too young to take part in the War of the Rebellion, he inherited membership in the Military Order of the Loyal Legion, U. S., from his father, Capt. Henry Johnson, Medical Storekeeper, U. S. Army, and was elected a Companion of the Second Class of this Commandery, June 10, 1885. Insignia No. 3,651. He was appointed 2d Lieutenant, 8th U. S. Infantry, from the State of California, Oct. 23, 1875, and was promoted 1st Lieutenant July 3, 1883, serving with his regiment on the Pacific Coast and in Arizona until July, 1886, when he resigned his commission. The circumstances attending his death were very sad, and cast a deep gloom over all his friends. In the heyday of youth, a bright and intelligent young man, of a lovable disposition, and with pleasant manners which endeared him to all, while apparently in perfect health, he has been suddenly taken from us, leaving behind him a host of sorrowing relatives and friends. In the death of our young Companion this Commandery has sustained a severe loss; and to his afflicted relatives, we extend the right hand of fellowship and sincere sympathy in this their great bereavement.

LUDWIG LOWE, head of the great machine shops at Berlin, whose death is reported, was a member of the Reichstag and, after Krupp, probably controlled the most extensive mechanical industry in Prussia. Some years since he underbid the American firm of Smith and Wesson on a large contract of S. and W. revolvers for the Russian Government. As a producer he could lay no claim to creative genius or mechanical application, his life-long practice being to pirate the inventive ideas of American and English designers.

THE decease of Annibat Ardisson is reported in *L'Avenir Militaire* of Sept. 1, which characterizes him as "one of the most conscientious inventors, the creator of the dirigible balloon and of the perfected system of aerial navigation." At the moment of his death, a despatch reached his bedside from the Minister of Marine, announcing the appointment of a commission to test and report upon a submarine-boat of which he was likewise the inventor.

A DESPATCH of Sept. 11 from London, England, says: "Col, Lewis Carr, of Philadelphia, a graduate of Princeton, an officer in the Mexican campaign, and who was attached to the legation in China when Robert M. McLane was Minister, has died, aged 64, in a hospital here, of paralysis, induced by privation. He was buried from St. Ann's, Soho." Lewis Carr was a 1st Lieutenant and afterwards Captain of the 16th Infantry; disbanded Aug. 17, 1848.

WILLIAM ARMSTRONG IRVINE, M. D., who died Sept. 7, at Irvine, Pa., aged 82, was the son of Commissary General Callender Irvine, U. S. A., who died in 1841, and the grandson of Brig.-Gen. William Irvine, of the Continental Army of the Revolution, who died in 1804. The deceased gentleman was Vice President General of the Society of the Cincinnati and President of the Pennsylvania State Society of the same.

WILLIAM W. BOWLBY, who served with credit during the War as Surgeon of the 3d New Jersey Cavalry, and as Surgeon-in-Chief of Gen. Custer's Cavalry Division, died Sept. 11, of heart disease, at Morris Plains, N. J.

CAPTAIN H. T. COMSTOCK, father-in-law of Colonel James A. Bates, U. S. Army, retired, died at Terrace Hill on the Connecticut Aug. 15. The deceased gentleman was in his 71st year.

THE son of Lieut. F. D. Sharp, 20th U. S. Infantry, a child of not quite three years of age, died at Fort Assininiboine, Montana, Aug. 28.

(Special Despatch to the St. Louis Globe-Democrat.)

REJOICING AT TUCSON.

TUCSON, A. T., Sept. 6.

THERE is great rejoicing throughout Arizona to-night over the final surrender of Geronimo, which ends the Indian war in this Territory. There was an immense open air meeting at this place to-night at which speeches were made, giving all the praise to General Miles and Captain Lawton, who are the heroes of the hour. The success of General Miles is the more appreciated here because of the many obstacles and stumbling blocks that have been thrown in his way by the friends and emissaries of General Crook, who did everything they could to defeat his success in the field, and prevent the removal of the White Mountain and Warm Spring Indians from San Carlos Reservation; but thanks to his undaunted courage and his persistent work, he has overcome his enemies at home and the savage in the field. 100 guns are now being fired in honor of General Miles and Captain Lawton, neither of whom saw the inside of West Point.

THE WEST POINT COURT-MARTIAL.

A SPECIAL telegram to one of the daily papers is as follows:

HIGHLAND FALLS, N. Y., Sept. 12.

The latest advices regarding the court-martial of the cadets at West Point is that upon information being received at the War Department about the state of affairs Secretary Endicott sent a sharp despatch to Gen. Merritt, the superintendent, which had the effect of making him go slow. As the superintendent cannot carry out a sentence of dismissal against the cadets, and can only inflict a punishment, if the Secretary should not approve the finding of the court it would be an implied censure upon both the court and the superintendent. The disposition on the part of both Secretaries Endicott and Whitney has been to discourage the arbitrary methods which have prevailed during the last few years at both the military and naval academies by which incessant turmoil has been kept up, and the cadets lost valuable time by these wholesale court-martials. Young Wheeler, the cadet adjutant, has been restored to duty.

(Correspondence of the Army and Navy Journal.)

ARMY OF WEST VIRGINIA.

THE 10th Reunion of the Army of West Virginia and the semi-annual encampment of the G. A. R., Dept. of Ohio, took place last week at Portsmouth, O., and produced a combination long to be remembered. The various committees "worked like beavers," and so success attended their efforts. The city was magnificently decorated, let that suffice. The procession on Tuesday was a brilliant spectacle. In the evening there was a great meeting at the pavilion, and Gen. R. B. Hayes being introduced, was received with great applause. He referred in glowing terms to General Sheridan and General Crook, the latter of whom was present, and was given six ringing cheers. Gen. Rosecrans arrived on Wednesday and at the evening session the enthusiasm culminated on the arrival of Gen. Sheridan. Gen. Crook introduced him amid tremendous cheering and booming of cannon. "Little Phil." then made a few remarks, concluding by saying: "I am not much on talking but am pretty good on shaking hands," and he shook. At the election of officers Gen. Crook was re-elected President, and Gen. R. B. Hayes the Senior Vice-President. Portsmouth deserves everlasting tribute for its welcome and treatment of the veterans and so let it be recorded. O.

WHO HAS BEATEN THIS?

To the Editor of the Army and Navy Journal:

The Department of California claims the cake for the following record of known distance scores made during this year's Department and Division practice and competitions. The shooting was made by Private E. A. Stamm, Company B, 1st Infantry, who was an entire stranger to the range at Presidio when work began August 19th:

	200 yds.	300 yds.	500 yds.	600 yds.	T'tl.

PRESIDIO, Sept. 7. Witness.

LATE ARMY ORDERS.

Leave for one month and twelve days, to take effect on or about Oct. 15, is granted 2d Lieut. Isaac N. Lewis, 2d Art., Camp Hancock, Ga. (S. O. 137, Div. A., Sept. 17.)

S. O. 134, directing 1st Lieut. George A. Thurston, 3d Art., to proceed to Newport Barracks, Ky., is amended so as to authorize him to take to his new station, at public expense, the regulation allowance of baggage (S. O. 137, Div. A., Sept. 17.)

The leave granted 2d Lieut. Charles F. Parker, 2d Art., Camp Hancock, Atlanta, is extended seven days (S. O. 137, Div. A., Sept. 17.)

Leave for six months, with permission to go beyond sea, is granted Capt. Alfred C. Markley, 24th Infantry, and 2d Lieut. John B. Bellinger, 5th Cav.

Col. C. E. Blunt has been granted leave until date of his retirement in January, 1887.

THE ARMY.

CIRCULAR 8, H. Q. A., Sept. 10, 1886.

The following decisions, rulings, etc., have been made during the month of Aug., 1886, and are published to the Army for the information of all concerned:

EXTRA DUTY PAY.

The increased rates of pay per day fixed by law of March 3, 1885, for extra duty men, viz., "fifty cents per day for mechanics, artisans, school teachers," * * * "and thirty-five cents per day for other clerks, teamsters, laborers, and other enlisted men on extra duty," are still in force.—(Decision Sec. War, letter Aug. 12, 1886.)

The mere fact that a non-commissioned officer has been detailed as acting commissary sergeant does not entitle him to any extra duty pay whatever, but if he has been properly detailed as clerk in the Subsistence Department, and the detail has been approved by the Secretary of War, he may as clerk be paid at the rate of thirty-five cents per day for the time he was so employed, if it exceeded ten days.—(Decision actg. Sec. War, letter Aug. 17, 1886.)

MEDICAL ATTENDANCE AND MEDICINES FOR ENLISTED MEN ON THE RETIRED LIST.

Enlisted men of the Army on the retired list will be permitted to apply to medical officers on duty for medical attendance, and to obtain necessary medicines, dressings, etc., for Army dispensaries on prescriptions of medical officers of the Army, with the understanding that a medical officer is not required to leave his post or station to render such service.—(Decision actg. Sec. War, letter Aug. 20, 1886.)

GENERAL SERVICE CLERKS AND MESSENGERS.

As General Service clerks and messengers do not belong to any of the grades specified in section 4819, Revised Statutes, they are not subject to the deduction of twelve and one-half cents per month from their pay directed by that law.—(Decision actg. Sec. War, letter Aug. 25, 1886.)

Under the act for the support of the Army for the year ending June 30, 1887, and the act approved July 29, 1886, General Service clerks and messengers are not entitled to any additional pay for previous service.—(Decision actg. Sec. War, letter Aug. 21, 1886.)

EXTRA DUTY PAY TO SCHOOL TEACHERS.

Under the decision of the Secretary of War of March 24, 1880, that "a school teacher is entitled to extra duty pay throughout the year; he should be held responsible for the school room, school property, school books, etc., during Saturdays, Sundays, and vacation, as well as during the regular school term," a school teacher is assumed to be constantly on duty, and in order to be entitled to extra duty pay for Saturdays, Sundays, and during vacation his control over and responsibility for the school room, school property, etc., must be at all times an active one. The decision published in Circular, No. 4, of May 24, 1883, from this office, is amended so as to authorize the payment of extra duty pay to a school teacher during an occasional brief illness not exceeding seven days at one period.—(Decision actg. Sec. War, Aug. 30, 1886.)

TACTICS.

Par. 188. The captains and guides do not fall back at the command "Load." They do not fall back until the first command, such as "Fire by battalion," "company," "file," etc., is given. The proper commands would be: 1, battalion; 2, load; 3, fire by battalion, company, file, etc.: 4, battalion; 5, ready, etc.—(Decision Lieut. Gen., letters June 2, 1885, and Aug. 6, 1886.)

The interposition of the side step or other company movements between two manual exercises would require the command "By the numbers" to cause the second exercise in the manual to be executed in detail.

In executing the firings or at inspection the soldier should not look toward the hammer while lowering it, unless there is something wrong about the mechanism of the lock and it is necessary to use his eyes as well as his hands to correct it. Care should be taken to release all pressure on the trigger after the hammer has passed the half-cock notch.

The tactics authorize manœuvring with the pieces loaded; on drill and as a precaution against accidents, it would be well to draw cartridges before executing the company movements.

Pars. 245, 246, 247. Forming single rank from double rank, the line should not be formed toward the file-closers.

Par. 265. Marching column of platoons, etc., the chief of the second platoon gives no commands.—(General decision, letter Aug. 9, 1886.)

Sentinels carry their rifles at a support or right shoulder, or a corresponding position on the left shoulder. They should not be required to halt or change the position of the rifle on arriving at the end of the post; they should not be required to execute the "to the rear march" precisely as described in the tactics, but be permitted to face about while marching in the way most convenient to them, and either to the right or left about and at any part of the post, as may be best suited to the proper performance of their duties.—(Decision Lieut. Gen., letter Aug. 27, 1886.)

TARGET PRACTICE.

"Student officers" at the Infantry and Cavalry School will not hereafter be required to attend target practice, and will not be included in the figure of merit unless in such practice as they may have had they should have qualified as marksmen.—(Decision of Lieut. Gen., letter Aug. 25, 1886.)

CLOTHING.

The articles borne upon the annual price list of clothing published by authority of the Secretary of War should be considered the "prescribed uniform" within the purview of par. 183 of the Regulations, and no deviation therefrom should be allowed.—(Decision Lieut. Gen., Aug. 28, 1886.)

CITATION OF PREVIOUS TRIALS AND CONVICTIONS BEFORE COURTS-MARTIAL.

The language of par. 894½ of the Regulations (G. O. 41, of 1886) is not limited to previous convictions of offences similar to the one for which an accused may be on trial, and should not be construed. The object of the paragraph is stated to be "to see if the prisoner is an old offender and therefore less entitled to leniency than if on trial for his first offence." This information might not be fully obtained if evidence of previous convictions of similar offences only were laid before the court. It has no bearing upon the question of guilt of the particular charge on trial, but only upon the amount and kind of punishment to be awarded, and to this end it is proper that all previous convictions should be known.

As the accused is not on trial for the offences, evidence of the previous convictions of which it is proposed to introduce, the 103d Article of War cannot be held to apply.—(Opinion actg. Judge Adv. Gen., letter Aug. 27, 1886; Circ., No. 1, A. G. O., 1886.)

PRINTING AT DIVISION AND DEPARTMENT HEADQUARTERS.

The printing in question should be advertised for under the law, giving thirty days' notice, and the printing office and materials on hand may be used by the party to whom the award for the printing is made; but no additions or repairs may be made to the plant, and no purchase made except of paper and ink. The printing of general and special orders from headquarters is not emergency work; bids therefor, could be invited and contract let so much per thousand "ems," the agreement to provide for as speedy prosecution of the work as might be required, the contract to run through the fiscal year.—(Views Qmr. Gen., concurred in by Sec. War.)

COMMUTATION OF RATIONS FOR ENLISTED MEN ON DUTY AT RIFLE RANGES.

Enlisted men selected to contest for places or prizes in

department, division, and Army rifle competition are allowed one dollar and fifty cents commutation in lieu of rations "while travelling to and from places of contest," and the appropriation authorizes such commutation to all contestants.

Under Par. 2228 of the Regulations (G. O. 104, of 1882), when men travelling under orders cannot cook rations in kind en route, cooked rations or the prescribed travel rations will be furnished in all practicable cases. Par. 2229 (G. O. 104, of 1882) prohibits commutation of rations when the men can be subsisted, as required by Par. 2228. Par. 2232 (G. O. 104, of 1882) authorizes commutation at one dollar and fifty cents per day to a soldier detached, travelling under orders, when it is impracticable for him to be subsisted as required by Par. 2228. By G. O. 34, of 1883, "the commutation of rations specified in Par. 2232 of the Regulations will be allowed, as a rule, only in case of a soldier travelling alone, under orders. It will not be paid to detachments consisting of more than two men, nor in any case where the travel can be accomplished in less than 24 hours, except in case of an enlisted man ordered from the place or station where his rations have been regularly commuted, or where rations in kind cannot be furnished."

Markers and scorers and all the enlisted men except the competitors come under the general regulations above referred to. No good reason is seen why arrangements cannot be made for furnishing at the range travel rations to the markers and scorers for their return to their posts, and for furnishing the assistant commissary of subsistence at the range with funds for coffee money (A. R. 2158 and 2159, G. O. 104, of 1882). Commutation costs between three and four times as much as the travel rations (with coffee money), and due regard to economy requires the use of the travel ration in all possible cases in place of commutation.—Views Comy. Gen. Subs., approved by Sec. War, letter Aug. 7, 1886.)

ORDERS ISSUED BY A DEPARTMENT COMMANDER WHILE ABSENT FROM HIS COMMAND.

In the absence of special orders of legislation to that effect, personal presence within the territorial limits of his department is not essential to the validity of commands given by a department commander to be executed within such limits, such, for instance, as the appointment of a court-martial.—(Opinion Atty. Gen., G. O. No. 73, of 1880; letter Aug. 26, 1886.)

PRINTED MATTER FOR ENLISTED MEN AND FOR POST LIBRARIES.

Newspapers, periodicals, books, etc., procured or donated for distribution among the soldiers, are not official matter which can be covered by the penalty envelope.

Officers of the Army are required by the Regulations to take charge of and disburse post funds. Such funds are created and maintained pursuant to the Regulations and are expended by officers in pursuance of orders and regulations promulgated for the guidance of the Army. One of the objects for which they may be expended is the purchase of books and papers for the post library. Property purchased with these funds becomes public property attached to the post for the benefit, instruction, and convenience of the troops there stationed, and the sending of such papers or books in the mails, upon which the character of public property is impressed, by an officer in the course of his official duty, is not the sending of his "private matter." He is required by his orders to transmit public property by the mails when within the limited weight, and the books and papers purchased with post funds may be sent under the penalty envelope to the posts to which they belong by the officer charged with the duty of purchasing and transmitting them.—(Decision Postmaster Gen., letters Feb. 20 and Aug. 28, 1886.)

TRANSPORTATION FOR CIVILIAN EMPLOYEES TO AND FROM PLACES OF BUSINESS.

The Government is under no obligation to furnish a civilian employee with means of conveyance daily between his place of residence and place of employment. The employee is at liberty to select his own place of residence, and is only required to give his service to the Government during the specified hours, for which he receives a specified compensation lawfully determined upon, and the travel performed by the employee between his chosen place of residence and the place designated by the Government cannot be deemed in any proper sense to have been performed under orders while engaged in the transaction of public business, and the expense thereof is not chargeable to the Government.—(Decision Second Compt., letter Aug. 3, 1886.)

DECISION BY LIEUTENANT GENERAL OF SEPTEMBER 6, 1886.

GENERAL SERVICE CLERKS.

The number of General Service clerks allotted to division and department headquarters is liberal, and as G. O. 43, c. s., H. Q. A., requires that the medical director shall be furnished with clerical service from the number allotted, the Lieut. General directs that it be done in all cases.

By command of Lieutenant General Sheridan:
J. C. KELTON, Act. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

Judge Advocate General's Department.

Leave for one month is granted Lieut.-Col. Thos. F. Barr, D. J. A. G., Chicago (S. O. 139, Div. Mo., Sept. 11.)

Capt. J. G. Ballance, Act. J. A., will take charge of the office of the Inspector General during the remainder of the absence of the I. G. on leave (S. O. 123, D. Texas, Sept. 6.)

Quartermasters and Subsistence Departments.

Col. Rufus Saxton, A. Q. M. G., will proceed to Nashville, Tenn.; Stone River, Tenn., and Crown Hill, Ind., for the purpose of inspecting the national cemeteries (S. O., Sept. 11, H. Q. A.)

The leave granted Capt. John Simpson, A. Q. M., is extended four days (S. O., Sept. 14, H. Q. A.)

Capt. William S. Patten, A. Q. M., will proceed to Portland, Ore., on public business (S. O. 150, D. Columbia, Aug. 28.)

Leave for 15 days is granted Major James Gilliss, Chief Q. M. (S. O. 101, Dept. Mo., Sept. 8.)

Leave for five days, to commence on or about Sept. 20, is granted Major James W. Scully, Q. M., (New Orleans, La.) (S. O. 135, Div. A., Sept. 15.)

P. Q. M. Sergt. W. Koroosky has qualified as a sharpshooter.

Pay Department.

So much of S. O. 76, c. s., as assigns the payment of troops at Angel Island and Alcatraz Island to Major Daniel R. Larned, Paymr., is revoked, and payment is assigned to Major Asa B. Carey, Paymr. (S. O. 80, Sept. 2, D. California.)

Major DeWitt C. Poole, paymaster, will proceed to Portland, Ogn., on public business (S. O. 150, D. Columbia, Aug. 28.)

The following assignment is made for the payment of troops on the muster rolls of Aug. 31: Major Jas. P. Canby, paymaster, at Forts Canby and Townsend, W. T.; Major DeWitt C. Poole, paymaster, Vancouver Barracks and Boise Barracks, Idaho (S. O. 152, D. Columbia, Aug. 31.)

Medical Department.

The resignation of 1st Lieut. Philip G. Wales, asst. surg., has been accepted by the President, to take effect Nov. 5 (S. O., Sept. 11, H. Q. A.)

Acting Asst. Surg. Robert P. Finley will proceed to the Dept. of Ariz. for assignment to a station (S. O. 152, D. Columbia, Aug. 31.)

Hospital Steward Charles Gomes will proceed to Fort Union, N. M., and report for duty (S. O. 84, D. Ariz., Sept. 3.)

Leave for one month, to take effect Sept. 15, with permission to apply for an extension of one month, is granted A. A. Surg. Walter Whitney (S. O. 100, Dept. Mo., Sept. 6.)

A. A. Surg. Wm. Craig will proceed without delay to Benson, Ariz., and from there report to Capt. J. G. MacAdams, 2d Cav., for duty with his command (F. O. 86, Aug. 26, Dept. Ariz.)

Hospital Steward Victor Dupont is relieved from duty at Fort Mason, and will report at the Presidio of San Francisco for temporary duty, relieving Hospl. Steward R. M. King, who will report to the C. O., Fort Mason, for duty (S. O. 80, Sept. 2, D. California).

A furlough for four months, with permission to go beyond sea is granted Hospl. Steward John S. Sweeney, Fort Robinson, Neb. (S. O., Sept. 14, H. Q. A.)

Engineers and Ordnance Departments.

2d Lieut. Cassius E. Gillette, C. E., will proceed to Creedmoor, N. Y., and report to the Inspector of Rifle Practice (S. O. 135, Sept. 15, Div. Atlantic).

The leave granted 1st Lieut. Edward Burr, C. E., is extended one month (S. O., Sept. 13, H. Q. A.)

2d Lieut. C. E. Gillette will proceed to Governor's Island, N. Y., and report for instructions in connection with rifle team authorized to take part in the "Hilton Trophy" match at Creedmoor (S. O. 133, Sept. 13, Div. Atlantic).

Col. Chas. S. Stewart, C. E., at his own request is placed on the retired list, having served more than 40 years (S. O. Sept. 16, H. Q. A.)

Leave extended additional 2d Lieut. Chs. S. Riche, C. E., until Oct. 1 next (S. O. Sept. 16, H. Q. A.)

2d Lieut. Cassius E. Gillette, C. E., a representative from the Division of the Atlantic in the Army Rifle Team, will proceed to Fort Leavenworth and report Sept. 21st to the Com. Gen. Dept. of the Missouri (S. O. 135, Div. At., Sept. 15).

Major Oswald H. Ernst will proceed to Cairo, Ill., Capt. Wm. H. Bixby will proceed to Salisbury, N. C., and to Washington, N. C., on duty connected with works under their charge, and return, on completion thereof, to their respective stations. (S. O. 131, Sept. 9, C. E.)

Major Jared A. Smith will proceed to York Harbor, Me.; Capt. Joseph H. Willard will proceed to St. Louis and Carondelet, Mo., and to New Orleans and Shreveport, La., and Fulton, Ark., on duty connected with works under their charge, and return, on completion thereof, to their respective stations. (S. O. 132, Sept. 10, C. E.)

Capt. William T. Rossell will proceed to New York City, on duty connected with works under his charge, and return on completion thereof, to his station at Memphis, Tenn. (S. O. 133, Sept. 11, C. E.)

Leave of absence for 15 days, on account of ill health is granted Capt. Smith S. Leach. (S. O. 133, Sept. 11, C. E.)

A Board of Engineers, to consist of Lieut.-Col William P. Craighill, Major Amos Stickney, and Major Alex. Mackenzie, will assemble at Cincinnati, Ohio, to consider plans for a bridge to be constructed over the Ohio River between Covington and Cincinnati. (S. O. 134, Sept. 13, C. E.)

Major L. Cooper Overman will proceed to Dunkirk Harbor, N. Y., on duty, and return, on completion thereof, to his station at Cleveland, O. (S. O. 134, Sept. 13, C. E.)

Capt. Frederick A. Mahan will proceed to Dunkirk, N. Y., on duty connected with the works to be transferred to be transferred to him by Maj. Overman, and return, on completion thereof, to his station at Buffalo, N. Y. (S. O. 134, Sept. 13, C. E.)

Capt. Frederick A. Mahan will proceed to the harbors of Erie, Pa., and Wilson, Olcott, and Oak Orchard, N. Y., on duty connected with the works to be transferred to him by Capt. Palfrey, and return, on completion thereof, to his station in Buffalo, N. Y. (S. O. 134, Sept. 13, C. E.)

Capt. Carl F. Palfrey will proceed to the harbors of Buffalo, N. Y., Erie, Pa., and Wilson, Olcott, and Oak Orchard, N. Y., on duty, and return, on completion thereof, to his station at Oswego, N. Y. (S. O. 134, Sept. 13, C. E.)

Capt. Clinton B. Sears is relieved from duty at Willet's Point, New York, and will take station at Bismarck, Dak., relieving Captain James B. Quinn of the duties now under his charge. (S. O., H. Q. A., Sept. 15.)

So much of S. O. 198 as relates to Ord. Serg. Chas. Smith, is revoked. Ord. Serg. Patrick Mangan is assigned to duty at Fort Carroll, Md., and will proceed to Baltimore and report to Lieut. Col. Wm. P. Craighill, C. Eng., and, upon arrival at Fort Carroll, by letter to the Com. Gen. Div. of the Atlantic (S. O. H. Q. A. Sept. 9).

The leave granted 1st Lieut. Wm. Crozier, Ord. Dept., is extended four days (S. O. H.Q.A., Sept. 10).

Order directing Capt. Frank Baker, Ord. Dept., to proceed to Wilmington, Del., is amended so as to direct him to proceed to Du Pont's Powder Mills, Del. (S. O. Sept. 16, H. Q. A.)

1st Lieut. Wm. M. Medcalfe, Ord. Dept., will proceed to East Lyme, Conn., on public business connected with the erection of a battery at the latter place (S. O., H. Q. A., Sept. 15.)

Ord. Serg. Christopher Slavin, whose warrant as such dates from Sept., 1860, and who served with credit in the 5th U. S. Inf. during the Mexican war, was retired from active service Sept. 9th. He enlisted in July, 1846.

Chaplains.

Leave of absence for ten days is granted Chaplain J. D. Parker (S. O. 102, Sept. 9, Dept. M.)

Leave for one month, to take effect Oct. 4, is granted Chaplain J. B. McCleery (S. O. 101, Dept. Mo., Sept. 8.)

Signal Corps.

2d Lieut. John P. Finley, Signal Corps, will report to 1st Lieut. H. H. C. Dunwoody, A. S. O., for special duty, relieving 2d Lieut. Frank W. Ellis, Signal Corps; 2d Lieut. Ellis will report to 2d Lieut. Joseph S. Powell, Signal Corps, for duty in connection with the work of the stations and telegraph divisions (Instr. 48, Sig. Off., Sept. 10.)

The El Paso *Times* says: "Frederick Belford, of the Signal Service office here, lies at the point of death in the hospital at Fort Bliss from a wound in the left breast, inflicted between 10 and 10.30 on Wednesday evening, Sept. 8, by some unknown party. The affair is a complete mystery, not the slightest clue being in existence by which the assassin can be traced."

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, K, and M, Ft. Custer, Mont.; A and C, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assiniboine, Mont.

Capt. Frazier A. Boutelle having been selected, in connection with the Dept. Rifle Team, will proceed from Fort Snelling to Fort Leavenworth, Kas., and report (S. O. 90, Sept. 3, D. Dak.)

We publish with pleasure the following telegram:

FORT CUSTER, M. T., Sept. 4, 1886.

Captain F. A. Boutelle, 1st Cavalry, Fort Snelling:

Accept my congratulations and those of the regiment at the success attained by the Regimental Team from the 1st Cavalry. The interest exhibited by the men and attention and watchfulness of the officers during the practice season merit this reward.

(Signed) DUDLEY, Colonel, Comdg. Regiment.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Ft. McDowell, Ariz.; C, Ft. Bidwell, Cal.; D, Boise Barracks Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho; M, Ft. Klamath, Ore.

The leave for one month granted 2d Lieut. Matthew F. Steele is extended one month (S. O. 139, Sept. 11, Div. M.)

The leave of 2d Lieut. Stephen H. Elliott is extended to Oct. 1 (S. O., Sept. 11, H. Q. A.)

Vet. Surg. Richard B. Corcoran will proceed to Fort Ringgold on public service (S. O. 125, Sept. 7, D. Tex.)

A furlough for four months is granted Sergt. Sabine F. Randall, Troop L (S. O. 140, Sept. 13, Div. M.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, I, and K,* Presidio, San Francisco, Cal.; C and L, Ft. Winfield Scott, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.

* Light battery.

Capt. John W. Dillenback is detailed as range, financial, and statistical officer in connection with the Division Rifle Competition, relieving 1st Lieut. Henry L. Harris (S. O. 72, Sept. 4, Div. P.)

Bat. L is relieved from duty at Fort Canby, W. T., and will proceed to Fort Winfield Scott, Cal., and take station. Bat. B is relieved from duty at Fort Winfield Scott, and will proceed to Alcatraz Island, to relieve Bat. D, which will proceed to Fort Canby, W. T., and take station. Bat. H is relieved from duty at the Presidio of San Francisco, and will proceed to Alcatraz Island, Cal., to relieve Bat. I, which will proceed to the Presidio of San Francisco and take station (S. O. 72, Sept. 4, Div. P.)

The leave of 2d Lieut. Charles T. Menoher is extended to Oct. 1 (S. O., Sept. 9, H. Q. A.)

1st Sergt. P. Hannan, Sergt. J. Daly, and Corpl. R. Smith, Bat. G, have qualified as sharpshooters.

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Atlanta, Ga.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.

* Light battery.

1st Lieut. Asher C. Taylor, having completed his duties at Fort Niagara, N. Y., in connection with the Division Rifle Competition, will return to Little Rock Barracks, Ark. (S. O. 134, Sept. 14, Div. A.)

1st Sergt. W. Washburn and Pvt. Hugo Rehen, Bat. K, have qualified as sharpshooters.

An Atlanta despatch says: "Bat. H, 2d Art., stationed here, has just enlisted some notable recruits. The first was W. Trax. Bankston, the city editor of the *Evening Capital*, who gave up a job of $25 a week to tackle pork and beans in the Federal Army. He was followed next day by Mr. Alfred Cooper, a grandson of the novelist, Fenimore Cooper, whose chief desire is to get out where he may fight Indians. At the same time a brother of W. H. Brotherton, one of the largest merchants in the city, donned the Federal uniform."

The following letter speaks for itself:

CAMP U. S. TROOPS, NEAR GRAND ISLAND, NEB., Sept. 4, 1886.

Colonel Carle A. Woodruff, Comdg. Light Bat. F, 2d Art.:

COLONEL: I desire to express to you, and through you to the officers and men of your battery, my thanks for the cheerful, efficient, and splendid manner in which you have supported me in my efforts to afford military displays to the vast crowds which have attended the late reunion of the ex-soldiers and sailors of the State of Nebraska. The drills of the battery were one of the most attractive features of the reunion, as it well might be, for I have never seen a light battery that was better drilled in every respect than Bat. F, 2d Art., which you have the honor to command, and which I understand owes to a large degree its present fine discipline to your skill and care.

In my official report to the Headquarters of the Department I shall find pleasure in doing justice to yourself, your officers, and the men of your battery. I am, Colonel, very sincerely your obedient servant, HENRY A. MORROW, Colonel 21st Infantry, Commanding Camp.

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.

* Light battery.

2d Lieut. David J. Rumbough will, upon being relieved from duty with Light Bat. F, Oct. 1, report to Brig.-Gen. David S. Stanley, comdg. Dept. of Texas, for duty as Aide-de-Camp (S. O., Sept. 13, H. Q. A.)

1st Lieut. George A. Thurston will proceed from Washington Barracks, D. C., to Newport Barracks, Ky., and report for temporary duty (S. O. 134, Sept. 14, Div. A.)

2d Lieut. Beverly W. Dunn, having completed his duties at Fort Niagara, N. Y., in connection with rifle competition, will proceed to Fort Monroe, Va. (S. O. 136, Sept. 16, Div. A.)

Sergt. G. Dimon, Privates G. J. Crymes, H. F. Ellsworth, and J. Kropp, Bat. E; Corpl. J. A. Boyce, H; Sergt. F. T. Murphy, Privates A. E. Hardin, C. Munzinger, H. Wabbaker, and R. Koenig, K; Sergt. C. Glaser, Mus. S. D. Gibson, and Pvt. F. P. McCoy, L, and 1st Sergt. C. F. Wolf, Corpl. W. Chalker, Pvt. W. Kemp, and Sergt. J. O'Neill, M, have qualified as sharpshooters.

4th Artillery, Colonel Clermont L. Best.

* Light battery.

The leave of 2d Lieut. L. G. Berry is extended to Oct. 1 (S. O., Sept. 11, H. Q. A.)

2d Lieut. Adelbert Cronkhite is assigned to duty as Instructor of the Non-commissioned Officer's School, and as Assistant to the Instructors of the course in Engineering and of Practical Military Exercises (G. O. 30, Sept. 13, Art. School.)

Capt. George G. Greenough will proceed to Governor's Island, N. Y., and report for instructions in connection with the rifle team authorized to take part in the "General Sheridan's Skirmish Match" at Creedmoor (S. O. 133, Sept. 13, Div. A.)

Capt. George G. Greenough will proceed to Creedmoor, N. Y., on public business (S. O. 135, Sept. 15, Div. A.)

Capt. George G. Greenough will proceed to Creedmoor, N. Y., and return. (S. O. 137, Div. A., Sept. 17.)

Sergt. William D. Huddleson, Bat. K, a representative from the Div. of Atlantic in the Army Rifle Team, will proceed to Fort Leavenworth, Kas., and report for further orders (S. O. 135, Sept. 15, Div. A.)

1st Sergt. W. J. Applebea, Corpl. F. Buchanan, and Pvt. J. O'Connor, Bat. D; Capt. J. W. Roder, 1st Sergt. J. Kelly, Corpl. E. R. Horstig, Pvts. J. Cranley, D. Warfle, and J. Wark, E; Sergt. W. R. Culver, H; 1st Sergt. G. W. Isaacs, Sergts. J. Heller, C. E. Massey, and W. Wiest, Corpl. R. Beale, Pvts. R. F. Kittlitz and W. McConley, I; Corpl. L. Walizer, K, and Sergt. W. S. Rue, L, have qualified as sharpshooters.

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, L, and M, Ft. Hamilton, N. Y.; A, C, and H, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Omaha, Neb.; E and K, Ft. Schuyler, N. Y.

* Light battery.

The leave of 2d Lieut. A. D. Andrews is extended to Oct. 1 (S. O., Sept. 9, H. Q. A.)

The leave of 2d Lieut. Robert G. Procter is extended to Oct. 1 (S. O., Sept. 11, H. Q. A.)

1st Lieut. E. T. Brown will proceed to Governor's Island, N. Y., and report for instructions in connection with rifle team authorized to take part in the "Hilton Trophy" match at Creedmoor (S. O. 133, Sept. 13, Div. A.)

2d Lieut. Samuel E. Allen, Inspector of Rifle Practice, will proceed to Creedmoor, N. Y., on public business (S. O. 135, Sept. 15, Div. A.)

1st Lieut. Edward T. Brown will proceed to Creedmoor, N. Y., and report to the Inspector of Rifle Practice (S. O. 135, Sept. 15, Div. A.)

2d Lieut. Samuel E. Allen, Inspector of Rifle Practice, will proceed to Creedmoor, N. Y., and return (S. O. 137, Div. Atl., Sept. 17.)

1st Lieut. E. T. Brown, 1st Sergt. Jos. Heifer, Bat. A, and Sergt. J. Nihill, Bat. B, have qualified as sharpshooters.

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, and F, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal.; I, San Diego Bks., Cal.; B, Ft. Gaston, Cal.; K, Ft. McDermit, Nev.; H, Ft. Halleck, Nev.

1st Lieut. Charles G. Starr will proceed to Benicia Barracks, Cal., and report for temporary duty, to command Co. D (S. O. 81, Sept. 6, D. Cal.)

2d Lieut. Benjamin S. Wever will proceed to Fort Halleck, Nev., and report for temporary duty with Co. H (S. O. 81, Sept. 6, D. Cal.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

The leave of 2d Lieut. Frank G. Kalk is extended to Oct. 1 (S. O., Sept. 9, H, Q. A.)

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

2d Lieuts. W. H. Sage and Fred. Perkins having been selected, in connection with the Dept. Rifle Team, will proceed from Fort Snelling to Fort Leavenworth, Kas., and report (S. O. 90, Sept. 3, D. Dak.)

The telegraphic instructions of Aug. 17, from Hdqrs. Dist. of Montana, directing 2d Lieut. Edward R. Gilman to proceed, with troops, from Helena, M. T., to Fort Shaw, M. T., and to return from Fort Shaw, M. T., to Helena, M. T., are confirmed (S. O. 93, Sept. 7, D. Dak.)

Leave for ten days is granted Lieut.-Col. M. A. Cochran, Fort Keogh, M. T. (S. O. 94, Sept. 8, D. Dak.)

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, C, D, F, H, and K, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.

The leave of 2d Lieut. Chauncey B. Baker is extended to Oct. 1 (S. O., Sept. 14, H. Q. A.)

8th Infantry, Colonel August V. Kautz.

Hdqrs. F, and H, Ft. Lowell, Ariz.; A, Ft. Bowie, Ariz.; C, Ft. Mojave, Ariz.; D and K, Ft. Huachuca, Ariz.; B, E, and I, Ft. Grant, Ariz.; G, Ft. McDowell, Ariz.

The leave of 2d Lieut. Edward N. Jones, Jr., is extended to Oct. 1 (S. O., Sept. 11, H. Q. A.)

9th Infantry, Colonel John S. Mason.

A despatch from Omaha says: "Private Mallon, Co. C, gardener at Fort Robinson, Neb., was found murdered at his post Sept. 14. There is no clue to the murderer."

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; D, F, and H, Ft. Bliss, Tex.; G and K, Uncompahgre, Colo.

The C. O. Fort Union, N. M., will detail one company to proceed to Holbrook, A. T., to carry out instructions (S. O. 64, Sept. 1, D. N. M.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

The following promotions are announced: 1st Lieut. Leon A. Matile, Regtl. Adjt., to Captain Co. G, Aug. 7, vice Schwan, who has resigned his line commission; 2d Lieut. Robert J. C. Irvine, Co. F, to 1st Lieutenant Co. H, Aug. 24, 1886, vice Raphall, retired; 2d Lieut. Pierce M. B. Travis, Co. D, to 1st Lieutenant of same company, Aug. 24, 1886, vice Taylor, retired. On the arrival of his company at Fort Abraham Lincoln, D. T., Capt. Matile will proceed to join it (S. O. 94, Sept. 8, D. Dak.)

At a meeting of the members of Co. G, 11th Inf., at Fort Leavenworth, Sept. 6, 1st Sergt. Englehardt Endries presiding, and Private Byron P. Stephens, secretary, the following preamble and resolutions were adopted:

Whereas, It has pleased the Almighty God in His divine providence to remove from our midst our beloved comrade, Private William Clear, Co. G, 11th Inf., Sept. 4, 1886, and

Whereas, His sudden and untimely death deprives us of a true comrade and the company of a brave and excellent soldier.

Resolved, That we, the members of his late company, will ever cherish his memory as one who, by his many acts of kindness and honorable character, endeared himself to us, and

Resolved, That while we deplore his death, we sincerely sympathize with his relatives and friends, and assure them of our affectionate remembrance of him.

The funeral took place Sept. 7. The company defrayed all burial expenses, purchasing coffin, etc. Religious services were held in the Catholic Chapel and the funeral was held with full military honors. The deceased was a native of New York and it is believed has some relatives in Toledo, O.

12th Infantry, Colonel Orlando B. Willcox.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

1st Lieut. Wallis O. Clark, a member of the Rifle Team, Div. of Atlantic, will return to Madison Barracks, N. Y., and await further orders (S. O. 133, Sept. 13, Div. A.)

1st Lieut. Frederick A. Smith, Adjt., will proceed to Governor's Island, N. Y., and report for instructions in connection with rifle team authorized to take part in the "Hilton Trophy" match at Creedmoor (S. O. 133, Sept. 13, Div. A.)

Capt. John M. Norvell and 1st Lieut. Augustus G. Tassin will proceed from Madison Barracks to Fort Ontario, N. Y., and report for temporary Court-martial duty (S. O. 134, Sept. 14, Div. A.)

1st Lieut. W. O. Clark, alternate from the Div. of Atlantic to the Army Rifle Team, will proceed to Fort Leavenworth and report, Sept. 21, to the Comdg. Gen. Dept. of Missouri (S. O. 135, Sept. 15, Div. A.)

1st Lieut. Frederick A. Smith, Adjt., will proceed to Creedmoor, N. Y., and report to the Inspector of Rifle Practice (S. O. 135, Sept. 15, Div. A.)

1st Lieut. F. A. Smith, Adjt., Lieut. W. O. Clark, and Pvts. A. L. Payton and C. Bickers, Co. A; 1st Sergt. J. B. Coons and Sergt. J. N. Bean, B; Sergt. R. M. Snyder and Corpl. W. Hight, D; 1st Sergt. H. Beck, Sergt. F. Bender, Corpl. C. E. Lobdell, and Pvt. C. Fischer, E; Sergt. J. M. Williams, F; Sergts. W. Brill and C. G. Thompson, G, and Lieut. H. C. Hale, 1st Sergt. P. Gallagher, and Sergt. C. W. Hutton, K, have qualified as sharpshooters.

13th Infantry, Colonel Luther P. Bradley.

Hdqrs., Santa Fe, N. M.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.; D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.

Cos. D and F will proceed to Fort Wingate, N. M., and report for duty (S. O. 64, Sept. 1, D. N. M.)

Co. G will proceed to Fort Selden, relieving Co. K, which will proceed to Fort Leavenworth, Kas. At Albuquerque they will await the arrival of the Chiricahua Indians from Holbrook, Ariz., and will proceed with them as guard to Kansas City (S. O. 65, Sept. 2, D. N. M.)

The Kansas City *Times* says: "Co. K will arrive, Sept. 9, from Fort Selden, to relieve Co. G, 11th Inf., which goes to Fort A. Lincoln. General regret is expressed at the departure of Co. K, having been stationed at Fort Leavenworth since October, 1881. It is an excellent organization and could not be otherwise, having had as its commander Major Theodore Schwan, now Assistant Adjutant-General. The company takes with it the best wishes of the entire garrison."

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, I, and K, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T.

2d Lieuts. Joseph H. Gustin and Stephen J. Mulhall are relieved from further duty in connection with the Dept. Rifle Competition at Vancouver Barracks (S. O. 151, Aug. 30, D. Columbia.)

1st Lieut. Frank Taylor will report to the C. O. of the Presidio of San Francisco for duty in connection with the rifle competition for places on the Division Rifle Team (S. O. 71, Sept. 3, Div. P.)

S. O. 159, granting Major William F. Drum, A. I. G., leave for three months, is amended so as to grant said leave on Surgeon's certificate, with permission to leave the Dept. of Arizona (S. O., Sept. 9, H. Q. A.)

Capt. F. E. Trotter is assigned to command a detachment of twenty-five General Service recruits to leave David's Island, N. Y. H., Sept. 16, en route to Fort D. A. Russell, Wyo. T., for assignment to the 7th Inf. (S. O. 192, Sept. 11, G. R. S.)

15th Infantry, Colonel Joseph N. G. Whistler.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

Leave for one month, with permission to apply for an extension of one month, is granted 1st Lieut. William O. Cory, Fort Snelling, Minn. (S. O. 93, Sept. 7, D. Dak.)

The leave granted 1st Lieut. William O. Cory is extended one month (S. O. 140, Sept. 13, Div. M.)

The leave of 2d Lieut. Marcus Maxwell is extended to Oct. 1 (S. O., Sept. 14, H. Q. A.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., A, B, C, F, and H, Ft. Concho, Tex.; D and E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; G and K, San Antonio, Tex.

Leave for one month, to take effect on or about Sept. 30, is granted 2d Lieut. W. K. Wright, Fort Concho, Tex. (S. O. 123, Sept. 6, D. Tex.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo. B, Camp Medicine Butte, Wyo.; H, Ft. Bridger, Wyo.

The extension of leave granted 2d Lieut. James H. Frier, is further extended to Oct. 1 (S. O., H. Q. A., Sept. 15.)

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays, Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

Col. J. E. Yard, now at Fort Hays, Kas., is assigned to the command of that post (S. O. 100, Sept. 6, Dept. M.)

1st Lieut. R. F. Bates, A. D. C., Inspector of Rifle Practice, will proceed to Fort Leavenworth, Kas., for such duty in connection with the Dept. Rifle Team as may be required of him (S. O. 94, Sept. 8, D. Dak.)

1st Lieut. G. L. Turner, now at Fort Riley, Kas., having been appointed Regimental Adjutant, will proceed to Fort Hays, Kas., and report to his regimental comdr. for duty (S. O. 102, Sept. 9, Dept. M.)

Sick leave is further extended Capt. Birney B. Keeler until further orders (S. O., Sept. 16, H. Q. A.)

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D and I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

A furlough for four months, with permission to go beyond sea, is granted Sergt. Max Magen, Co. D (S. O. 140, Sept. 13, Div. M.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

A furlough for four months, with permission to go beyond sea, is granted 1st Sergt. Barney Mucker, Co. D (S. O. 139, Sept. 11, Div. M.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

The extension of leave on account of sickness granted 1st Lieut. Edward S. Farrow is extended to Nov. 1 (S. O., H. Q. A., Sept. 15).

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

Co. E will proceed by rail to Holbrook, thence march toward Fort Apache, until they meet Lieut.-Col. J. F. Wade, 10th Cav., with the Chiricahua Indians, to whom the company commander will report for duty (S. O. 64, Sept. 1, D. N. M.)

Leave for one month and fifteen days, to take effect upon completion of duties assigned him, is granted 1st Lieut. Oscaloosa M. Smith, A. D. C., San Antonio (S. O. 139, Sept. 11, Div. M.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

When the work connected with the breaking up of the Camp of Competitors is finished, Co. D will return from Fort Niagara to Fort Porter, N. Y. (S. O. 133, Sept. 13, Div. A.)

Leave for two months, on Surgeon's certificate, is granted 2d Lieut. Clarence R. Edwards, Fort Niagara, N. Y. (S. O. 133, Sept. 13, Div. A.)

Capt. Joseph T. Haskell, having completed his duties at Fort Niagara, N. Y., in connection with the Division Rifle Competition, will return to Fort Wayne, Mich. (S. O. 135, Sept. 15, Div. A.)

The leave granted Capt. Louis R. Stillé is extended two months (S. O., Sept. 11, H. Q. A.)

1st Lieut. E. B. Pratt and Sergt. W. A. Sconee, Co. K, have qualified as sharpshooters.

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

1st Lieut. A. M. Palmer is relieved from duty in connection with the Dept. Rifle Competition, and will join his company at Fort Sill, I. T. (S. O. 100, Sept. 6, Dept. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

1st Lieut. Harvey D. Reed is relieved from further duty in connection with the Dept. Rifle Competition at Fort Snelling, and will return to Fort Sisseton, D. T. (S. O. 92, Sept. 6, D. Dak.)

Capt. Edwin J. Stivers and 1st Lieut. Edwin F. Glenn are relieved from further duty in connection with Dept. Rifle Competition at Fort Snelling, Minn. (S. O. 92, Sept. 6, D. Dak.)

The following promotions are announced: 1st Lieut. David B. Wilson, Regtl. Adjt., to Captain Co,

H, July 16, 1886, vice Courtney, deceased. Capt. Wilson will proceed to Fort Meade, D. T., and join the company to which he has been promoted. 2d Lieut. Harvey D. Reed, Co. E, to 1st Lieutenant Co. I, Aug. 17, 1886, vice Andrews, appointed Adjutant. Lieut. Reed will proceed to Fort Snelling, Minn., and join his company (S. O. 94, Sept. 8, D. Dak.)

Capt. John W. French will inspect subsistence stores and C. and G. E. at the cavalry rendezvous, 174 Hudson street, New York City (S. O., Sept. 10, H. Q. A.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, September 11, 1886.

PROMOTIONS.

Lieutenant-Colonel Thomas M. Anderson, 9th Infantry, to be Colonel 14th Infantry, September 6, 1886, vice Hunt, deceased.

Major George M. Brayton, 15th Infantry, to be Lieutenant-Colonel 9th Infantry, September 6, 1886, vice Anderson, promoted to the 14th Infantry.

Captain Hugh A. Theaker, 16th Infantry, to be Major 15th Infantry, September 6, 1886, vice Brayton, promoted to the 9th Infantry.

1st Lieutenant Theophilus W. Morrison, 16th Infantry, to be Captain, September 6, 1886, vice Theaker, promoted to the 15th Infantry.

2d Lieutenant Warren H. Cowles, 16th Infantry, to be 1st Lieutenant, September 6, 1886, vice Morrison, promoted.

CASUALTIES.

Colonel Lewis C. Hunt, 14th Infantry, died September 6, 1886, at Fort Union, New Mexico.

Post Chaplain Ebenezer W. Brady, died September 9, 1886, at Fort D. A. Russell, Wyoming Territory.

Courts-martial.

The following courts have been ordered:

At Fort Union, N. M., Sept. 8. Detail: Col. Henry Douglass and Lieut.-Col. H. R. Mizner, 10th Inf.; Capt. J. A. M. La Tourrette, Post Chaplain; Capt. J. T. Kirkman, 1st Lieut. J. R. Cranston, R. Q. M., 2d Lieuts. A. W. Brewster and E. M. Johnson, Jr., 10th Inf., and 1st Lieut. R. C. Van Vliet, Adjt., 10th Inf., J.-A. (S. O. 84, Sept. 3, D. Ariz.)

At the Post of San Antonio, Tex., Sept. 8. Detail: Capt. James M. Lancaster and 1st Lieut. Henry C. Danes, 3d Art.; 1st Lieut. James B. Hickey, Adjt., 8th Cav.; 1st Lieut. Eugene Cushman, 16th Inf.; 1st Lieut. H. S. T. Harris, Med. Dept., and 2d Lieut. Elias Chandler, 16th Inf., J.-A. (S. O. 124, Sept. 6, D. Tex.)

At Fort Porter, N. Y., Sept. 17. Detail: Major Henry Clayton, Paym.; Major Samuel Ovenshine and Capt. Otis W. Pollock, 23d Inf.; Capt. William B. Davis, Asst. Surg.; Capt. Daniel H. Floyd, A. Q. M., and 1st Lieut. Charles Hay, 23d Inf., J.-A. (S. O. 133, Sept. 13, Div. A.)

At Benicia Barracks, Cal., Sept. 6. Detail: Lieut.-Col. Charles G. Bartlett, 1st Inf.; Capt. Charles K. Winne, Asst. Surg.; Capt. Robert G. Heiner, 1st Lieuts. John J. O'Connell and James S. Pettit, and 2d Lieut. Benjamin S. Wever, 1st Inf., and 2d Lieut. Charles B. Vogdes, 1st Inf., J.-A. (S. O. 80, Sept. 2, D. Cal.)

At West Point, N. Y., Sept. 17. Detail: 1st Lieut. Orin B. Mitcham, Ord. Dept.; 1st Lieut. William B. Homer, 5th Art.; 1st Lieut. Eugene A. Ellis, 8th Cav.; 1st Lieut. William A. Simpson, 2d Art.; 1st Lieut. William D. Beach, 3d Cav.; 1st Lieut. John R. Totten, 4th Art.; 2d Lieut. Carver Howland, 4th Inf., and 2d Lieut. J. F. Reynolds Landis, 1st Cav., J.-A. (S. O., Sept. 14, H. Q. A.)

At Fort Thomas, Arizona, Sept. 6. Detail: Maj. Frederick Van Vliet, Capts. S. T. Norvell, P. L. Lee, 10th Cav.; 1st Lieuts. W. L. Carpenter, J. A. Baldwin, 9th Inf.; G. H. Evans, C. G. Ayres, 10th Cav.; 2d Lieut. A. S. McNutt, 9th Inf., and 1st Lieut. R. D. Reed, Jr., 10th Cav., judge advocate. (Field Orders 87, Sept. 6, Dept. Ariz.)

Maj. Daingerfield Parker, 9th Inf., and 1st Lieut. B. H. Gilman, 13th Inf., are hereby detailed as members of the general court-martial convened at Fort Wingate, N. M. (S. O. 85, Sept. 6, Dept. Ariz.)

Army Boards.

A Board of Survey will meet at the San Francisco Subsistence Depot, Sept. 6, to examine certain subsistence stores. Detail: Capts. Charles A. Alligood and Gustavus A. Hull, M. S. K., and Capt. John W. Dillenback, 1st Art. (S. O. 71, Sept. 3, Div. P.)

A Board of Survey will meet at Fort Gaston, Cal., Sept. 13, to fix responsibility for loss of certain articles of ord. stores, C. and G. E., and clothing, for which Capt. William E. Dougherty, 1st Inf., is accountable. Detail: 1st Lieut. Marion P. Maus, 1st Inf.; 1st Lieut. Henry I. Raymond, Asst. Surg., and 2d Lieut. Hampton M. Roach, 1st Inf. (S. O. 81, Sept. 6, D. Cal.)

Retirements of Enlisted Men.

Ord. Sergt. Christopher Slaven, Sept. 9, 1886.

Disinfectants.—In circular of Aug. 25, the Acting Surgeon Gen. of the Army announces that the following disinfectants are on hand, and will be issued in the amounts specified, based upon the ordinary necessities of a one-company post, for a period of one year:

Chloride of lime, in 10-lb. jars	200 lbs.
Solution of chlorinated soda, in 2-lb. bottles.	12 lbs.
Carbolic acid, 95 per cent., in 1-lb. bottles	24 lbs.
Corrosive chloride of mercury, in 1-lb. bot	1 lb.
Sulphate of iron (commercial)	100 lbs.

DEPARTMENT NEWS.

Division of the Pacific—Maj.-Gen. O. O. Howard.

In a letter to the *Alta* "Scout" says: "Joaquin Miller revived the idea of covering Goat Island with trees, and Maj. Gen. Howard volunteered to promote the Miller plan. The public approved the plan, and warmly praised Miller and Howard. So thoughtful of one, and so good of the other! Bah! Both men acted on impulse, and, as usual in such cases, made a serious mistake. The bay of San Francisco is subject to dangerous fogs. The ferry companies are so appreciative of this danger that they often withdraw all but one of their steamers to await the lifting of a fog. Cover Goat Island with trees, and those trees would hold a fog and delay its dissipation. If Miller and Howard desire to impede bay travel let them clothe Goat Island with a forest. Gen. Howard may appreciate the force of this argument. As for Miller—well, Miller will take a poet's license and insist on the trees."

Further experiments were made Sept. 6, at Fort Point by ex-Lieut. Graydon with his dynamite loaded shells, which demonstrated clearly that dynamite projectiles can be fired from rifled ordnance with perfect safety to the gun used.

Dept. of Texas.—Brig. Gen. D. S. Stanley.

An Eagle Pass despatch of Sept. 12 says: "El Coyote" and his men dispersed and crossed the Rio Grande into Texas before the troops could catch them. This will put an end to the revolution for the present. There is, however, a strong feeling of disapproval of the present government, which is silenced only by the presence of troops in large numbers.

Upon application of Gen. Miles, the Q. M. D. will furnish transportation from San Antonio to Albuquerque, N. M., on public service, for Interpreter Montura, just arrived with Geronimo and party. (S. O. 126, Dept. Texas, Sept. 10.)

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

The Piegans still seem to be raiding the Crows. A despatch of Sept. 13, from Custer, says: The Piegan Indians made another raid on the horses belonging to a camp of Crows day before yesterday on the Big Horn, near the mouth of the Rotten Grass River, and succeeded in making way with nearly 60 of them. Soldiers from Fort Custer and some Crows are in pursuit. Gen. Brooke, commanding District of Montana and the troops of his command, are on the alert.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

A Tombstone despatch of Sept. 15 says: "On the night of Sept. 11 a small band of Indians, presumably escaped renegades from the surrendered Apaches, swooped down through the valley, stealing six horses. A detachment of scouts who were trailing the refugees appeared at the ranch the following morning in hot pursuit."

RIFLE COMPETITIONS, 1886.

The aggregate score of the winner of the gold medal this year in each Division and Department contest is as follows:

Atlantic	499
Missouri	—
Pacific	—
California	422
Platte	490
Arizona	458
Texas	507
Columbia	547
Dakota	486
Missouri	479

We append the data which has come to hand since last week:

Division of the Atlantic.—Last week we reported the winning of the Dept. East gold medal by Lieut. C. E. Gillette, Corps of Engineers, and closed our account with a list of the 14 highest at the end of the first two days. The conclusion gave the following team:

1. Sergt. W. D. Huddleson, Bat. K, 4th Art'y....499
2. 2d Lieut. C. E. Gillette, Corps of Engineers...492
3. 1st Lieut. Wallis O. Clark, 12th Inf.....484
4. Sergt. Geo. Doyle, Co. A, Batt. of Engineers..480
5. Sergt. Chas. Barrett, Co. B, Batt. of Engin'rs.473
6. Sergt. Wm. Driscoll, Co. F, 23d Inf.....463
7. 1st Lieut. Edward T. Brown, 5th Art'y.....457
8. Private Caleb Bickers, Co. A, 12th Inf.....455
9. Private John Carrie, Band, 5th Art'y.....442
10. Sergt. Henry Beck, Co. E, 12th Inf.....438
11. 1st Lieut. and Adjt. Fred. A. Smith, 12th Inf..437
12. Corporal David Scott, Battery G, 4th Art'y...437
13. Sergt. D. E. Langley, Battery C, 5th Art'y....432
14. Sergt. Wm. Collins, Battery L, 4th Art'y.....428

Lieut. Gillette and Sergt. Huddleson go to Fort Leavenworth to compete in the Army Team, and Lieut. W. O. Clark goes as alternate. The selection to compete in the Hilton Trophy Match and the General Sheridan's Match at Creedmoor, the end of this week is as follows: Capt. G. G. Greenough, 4th Art., Lieut. F. A. Smith, Adjt., 12th Inf.; Lieut. C. E. Gillette, Corps of Engineers, and Sergt. Charles Barrett, Co. B. Bat. of Engrs.; Sergt. Edwin Bickford, Bat. L, 2d Art.; Pvt. Edward Bruer, Bat. D, 3d Art.; Musician R. Curran, Bat. C; Corpl. Frank Buchanan, Bat. D; Corpl. David Scott, Bat. G; Sergt. Franklin W. Yates, Bat. H; Sergt. William D. Huddleson, Bat. K; and Sergt. William Collins, Bat. L, 4th Art.; Pvt. John Corrie, band; Sergt. David E. Langley, Bat. C; Pvt. George Beal, Bat. I; Sergt. John Nihill, Bat. B, 5th Art.; Sergt. William Driscoll, Co. F, 23d Inf.

Division of the Missouri.—The contests commenced Sept. 13 and will terminate Sept. 23. Gens. Sheridan, Terry and other distinguished officers and personages are to be present and the range presents a lively scene. Experts are as "thick as leaves in Vallambrosa." Lieut. Philip Reade is in charge. The gold and silver medals of the War Department for the team are, of course, provided as usual, but in addition, the following prizes are to be awarded:

Kansas City *Times* medal to the Team making the highest aggregate at known distances in Dept. Team competition.

Badge presented by John H. Joerger, Leavenworth, to the Team making the highest aggregate at skirmish practice in Dept. Team competition.

Badge presented by W. A. Kirkham, Leavenworth, to the person making the highest aggregate at known distances during the Division competition.

Badge by Donald and Ashmun, Leavenworth, to the person making the highest aggregate at skirmish practice during the Division competition.

One Colt's New Lightning Magazine Rifle, calibre 44, octagon barrel, 26 inch, 15 shots, presented by J. F. Schmelzer and Sons, Leavenworth, to the person making the highest aggregate during preliminary practice.

Special prize by M. P. Cranston, Leavenworth, to the officer making the highest score at a single run, skirmish practice, during either preliminary practice or the Division competition.

The Kansas *Times*, referring to the rifle contest at Fort Leavenworth, says: "The men should have that $1.50 per day they formerly obtained while on this kind of duty. They are sorry that Congress failed to make that appropriation, but rejoice over the fact that the man who was instrumental in its defeat has been refused a renomination to Congress, Gen. Bragg, of Wisconsin."

At the close of the second day's preliminary competition the scores stood: Missouri, 2,554; Texas, 2,450; Dakota, 2,390, and Platte, 2,396.

Division of the Pacific.—The competitions closed this week, but accounts are not yet in.

The Army Competition.—Will commence at Fort Leavenworth Sept. 29, and will be conducted by Col. S. E. Blunt, A. D. C.

(Correspondence of the Army and Navy Journal.)

THE MILITARY ACADEMY.

WEST POINT, N. Y., Sept. 15, 1886.

The General Court-martial which met on the 4th inst., for the trial of cadets, finished its labors today.

A new official directory and a roster of the officers and troops serving at the Military Academy were issued yesterday from the post printing office. There are 58 officers on duty here; 4 colonels, 7 lieutenant colonels, 1 major, 7 captains, 29 first lieutenants and 10 second lieutenants.

Col. Wm. Winthrop, who has taken charge of the Department of Law, has for his assistants Lieuts. G. B. Davis, 5th Cav., and W. A. Evans, 19th Inf.

The houses north of cadet barracks are numbered from 3 to 59, and south of the barracks from 2 to 32.

There are a large number of guests at Cranston's Hotel, and every afternoon the road north of the plain is filled with handsome equipages, among them being two belonging to Mrs. Barrios, mother of Cadet Barrios. She is a guest at Cranston's.

Mrs. Dr. Alexander, with two daughters, Misses Minnie and Nita, arrived yesterday to spend a week or so; they are also at Cranston's.

Lieut. Mitcham arrived last Friday and reported for duty.

Lieut. C. F. Roe, 2d Cavalry, who has been at his mother's country seat for some time, met with quite a severe accident recently. He was chopping down a tree when the axe slipped and struck his foot, cutting a gash extending from the large toe to the instep; he was confined to his room for two weeks, and is now going about on crutches.

A sort of revival, as it would be called in the Methodist Church, has been going on among our Catholic community for a week. Two very talented Jesuit Fathers from New York are here. Services are held every morning at five o'clock and in the evening at half-past seven. At each of them the little chapel under the hill is crowded with interested listeners. Several cadets have regularly attended in the morning.

Efforts are being made to have a lawn tennis tournament among the officers. There are a number of fine players here; no one has ever succeeded in taking first honors from Prof. Tillman.

The following designations of candidates for examination for admission to the Military Academy were announced this week: Harry P. Howard, Sauk Centre, Minn.; Edward Engerud (alt.), Battle Lake, Minn.; Wm. H. Bertsch, Holland, Mich.; Louis Sorley, Galveston, Tex.; Harry McClanahan (alt.), Galveston, Tex.; W. F. Grote, Wheaton, Ill.; Chas. E. Goodhue, Joliet, Ill.; Augustus F. Burke, Osborne, Kan.

(Correspondence of the Army and Navy Journal.)

DAVID'S ISLAND, N. Y. H.

SEPTEMBER 13.

WE are all expectancy here. Our old commander, Col. A. L. Hough, 16th Inf., has been chosen to succeed Col. G. L. Andrews as Superintendent of Recruiting Service, and will manage recruiting service for all branches of the Army. Our new commander is to be "Dick" O'Beirne, a most popular field officer of the Infantry branch of the Service.

Our people up here devote much of their spare time to yachting. In front of each pretty summer home you may see anchored off the beach a trim craft, ready for its owner's orders. The other day the yacht *Plover*, with Colonel Delancy Kane at the wheel, came up. The Colonel looked quite at home in his yachting suit of blue, and managed his vessel nicely in the puffy wind that was at hand. The Colonel was anxious to hear something of the race between the Englishman and the Yankee cutter, but as David's Island is so far from a telegraph office we couldn't help the skipper of the *Plover* very much. Colonel Kane has altered little in appearance since he was a cadet at the Military Academy. He is married to the daughter of Mr. C. O. Iselin, a wealthy man of New Rochelle, has a beautiful home facing on the Sound, and the gentleman, I think, gets much pleasure out of this life. He will figure conspicuously at the country club races this fall (next month). If the ARMY AND NAVY JOURNAL can spare a half-a-day when the races of the Westchester County Country Club, of Pelham, N. Y., come off, it will be well paid by a visit to the race course. There will be much "style" there, *a la Derby*.

(Correspondence of the Army and Navy Journal.)

GOVERNOR'S ISLAND, N. Y. H.

SEPTEMBER 13, 1886.

THE Ariel B. B. C., of the Ariel Athletic Association, Woodside, L. I., and Emerald B. B. C., of Governor's Island, crossed bats on the latter's base ball grounds, with the following result: Emerald, 16; Ariel, 9. Emerald's record for the season is as follows: Played 18; won 15 and lost 3, playing some of the principal amateur clubs of Brooklyn, New York City and Staten Island. In reply to the item published by the Marine B. B. Club stating that by their skillful playing they had an easy victory, why not, as we have since learned that only four or five Marine men played, while the remainder were selected from different clubs of Brooklyn.

CHAS. E. SILL, Secy. Emerald B. B. C.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

SEPT. 14, 1886.

ARTILLERY drill is in progress since the opening of the present month, the hours designated being from 8 to 9 A. M. daily. All batteries have to be in attendance; instructions are in all branches of that department. On the recommendation of the post surgeon, Dr. Wilcox, the guard is furnished with a sandwich and coffee every night, it being his opinion that it will assist in keeping down malaria fever, which is prevalent at this season of the year.

The exposed condition of the old canal, passing through South Washington and along the east side of the garrison grounds, is causing much complaint for some time past. The sewage moves very slowly and causes a large exposure to evaporation, which in warm seasons emits a very unhealthy

miasm; at times a most offensive odor. The covering in of the Navy-yard channel is the only prospect of diminishing such a nuisance, which, furthermore, is most injuriously to the health of the post.

The two weeks target practice at long ranges by Battery D, of McHenry, will be completed this week, and they will rejoin immediately. They will be relieved by Co. I of the same post. The trips seem to be very enjoyable to the men at this time of the year.

A general court-martial, in which Col. Bainbridge is president, assembled on the morning of Sept. 13.

Maj. Tucker, paymaster U. S. A., paid off this command on Sept. 7.

The Gibson Social Club gave a complimentary hop in honor of the visiting battery (D) on Sept. 7.

The Soldiers' Temperance, or better known as the "stove-pipe union," continue their usual weekly meeting every Wednesday evening.

(Correspondence of the Army and Navy Journal.)

FORT BIDWELL, CAL.

THE promotion of Captain E. J. Spaulding, of the 2d Cav., to Major, 4th Cav., was an event long looked for at this post, but finally, after months of patient waiting, the official announcement of the promotion as Major arrived, and was appropriately celebrated by Troop C, 2d Cav.

The members of this Troop had some time ago, provided a Field Officer's sword, gold mounted, of exquisite design and workmanship, for the purpose of presenting it to their commander upon his promotion. At retreat, Aug. 25, the Troop, in full dress, marched in front of the quarters of Major Spaulding; who, upon being notified that his presence was desired, appeared and was received with a "Present Sabre!" Sergt. Wm. Irwin and Corporal Samuel Segar stepped in front of the company, and the corporal in a clear, soldierly tone, addressed the Major as follows: "After years of faithful service you have at last received a long merited promotion, and the members of Troop C congratulate you. Although we feel you are leaving us in good hands, still we part with you with many regrets, and this sabre, which we now present to you as a token of our respect and esteem, is but a small token of the respect we bear for you, and which words cannot here express. With our best wishes for the future welfare of your lady and yourself we remain, respectfuly, Troop C, 2d Cavalry."

The sabre was handed to Major Spaulding by Sergt. Irwin, now 76 years of age, and a soldier of the United States Army since May, 1839; his tearful eyes were sufficiently expressive of the joy and sorrow within the breast of this aged and honorable veteran.

Major Spaulding was deeply touched and assured the Troop that words were inadequate to express his thanks for this evidence of affection and esteem; he expressed sincere regret to part with a body of men with whom he had shared for over nineteen years the dangers of Indian campaigns, and the hardships and pleasures incident to a life on the western plains and in the Rocky Mountains; he reminded the Troop of the wonderful progress made in the development of the vast territory over which they had travelled, and the proud reflection to be a citizen and soldier of this great Republic. Finally, he thanked the Troop for the zeal, fidelity, and intelligence with which it had supported him under all circumstances, and requested that the same generous and hearty support be extended to their present Troop Commander, Capt. Augur. Immediately after the ceremony the officers and ladies of the post extended their hearty congratulations to the recipient of the honor. After retreat the Troop repaired to the gymnasium and celebrated the event in a fitting manner. The officers of the post and friends visited the gymnasium during the evening and enjoyed the festivities.

The event reflects much credit upon the Troop and its former Captain. Troop C, 2d Cav., is composed of excellent material and it would be difficult to find a better and more soldierly set of men anywhere. The presentation of this costly sword is, however, only a slight expression of the real esteem in which Major Spaulding is held by his men, and the question naturally arises, why is it? Perhaps the secret of all is that the example of this excellent officer for nearly 20 years, his manly, just, and soldierly qualities have made a lasting impression upon a body of intelligent men and produced a spirit of emulation. G.

POST CHAPLAIN BRADY.

FORT D. A. RUSSELL, Wyo., Sept. 10.

To the Editor of the Army and Navy Journal:

SIR: At a meeting of the enlisted men at Fort D. A. Russell, Wyo., held Sept. 10th, the following preamble and resolutions were adopted:

Whereas, it has pleased Almighty God to suddenly remove from our midst our Post Chaplain, Ebenezer W. Brady, U. S. A., and

Whereas, it is the desire of the enlisted men of this Post, for whose welfare, interest and morals he worked so faithfully, to express a sense of their great sorrow at the sad loss, therefore be it

Resolved, That in the death of Chaplain Brady we, the enlisted men, not only of this Post, but of the whole Army, have lost a good and faithful friend, indeed; one whose endeavors to elevate the condition of the soldier in all respects will always be gratefully remembered by us, for whose welfare he labored so faithfully.

Resolved, That we deeply sympathize with the bereaved family of our late Chaplain, and our best hope is that time, which heals all sorrows, will gradually help them to bear their great loss.

Resolved, That a copy of these resolutions be delivered to the family of the deceased, and also inserted in the ARMY AND NAVY JOURNAL and Cheyenne *Sun*.

RUDOLPH WOLFER, Commissary Sergeant, U. S. A., Chairman.
HARRY HARSON, Hospital Steward, U. S. A., Secret'y.

COURT-MARTIAL CASES.

By a recent General Court-martial at Fort Lewis, Col., six men of Co. K, 22d Inf., were tried for offences involving mutiny and disobedience of orders and each sentenced to dishonorable discharge and confinement for one year. Gen. N. A. Miles, the reviewing authority, owing to certain circumstances, mitigates the sentences to confinement for three months and forfeiture of pay for the same period, and says: "It appears from the evidence that the orders for the disobedience of which these men were tried, if not conflicting, were at least misleading, and the manner in which they were given by the non-commissioned officer, as well as the comments made by him concerning the orders of his company commander, would indicate that he either had not been properly instructed in his duties and deportment, or that he executed his orders in an indifferent manner. It is believed that this experience will be sufficient to admonish those tried that their first duty is to promptly and loyally obey the orders as they receive them without question or comment, and should they feel that injustice has been done them, it is then their duty and privilege to seek redress by a full and respectful statement of their grievance to the commanding officer." (G. C. M. O. 44, D. Ariz., 1886.)

In the case of a soldier of the 1st Infantry recently tried at Benicia Barracks for larceny and violence to a non-commissioned officer, Maj.-Gen. Howard says: "The reviewing officer does not think the investigation of the case had by the Court was sufficiently full. It seems that there is something wrong in the company to which this prisoner belongs, and he has already been sufficiently punished for the offences that he actually committed. Private Skelly will be restored to duty." Gen. Howard has sent the regimental commander, Col. Shafter, to Benicia Barracks to see what the "something wrong" is.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

SWATARA, 3d rate, 8 guns, Comdr. E. T. Woodward. At Portsmouth, N. H., undergoing repairs.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At Newport, R. I.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. At Portsmouth, N. H., undergoing repairs.

S. Atlantic Station—Captain E. E. Potter (in command temporarily).

Acting Rear Admiral D. L. Braine will shortly command this station.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. At the New York Navy-yard. She will shortly be ordered to join the South Atlantic Station.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese assumed command Sept. 15. At Rio de Janeiro Aug. 12. Will probably remain until Oct.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro Aug. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. Arrived at Leghorn, July 28

KEARSARGE, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. Was to remain in Phalerum Bay, near Athens, Greece, until about Aug. 1. Has been ordered to return to U. S.)

QUINNEBAUG, 3d rate, 8 guns, Comd. Geo. W. Coffin. At Southampton, England, August 11, 1886. Will leave the English channel by the middle of August or September for Genoa, touching on the Spanish coast and at Marseilles. Will be sent to the East for the winter, if no other vessel joins the squadron.

Pacific Station—Rear-Adm. E. Y. McCauley.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Was at Iquique, July 31.

HARTFORD, 2d rate, 16 guns (f. s. p. s.), Capt. J. H. Gillis. Was at Callao July 31.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Sailed from New York, Aug. 16, for Pacific Station.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson (ordered.) Was at Payta, Peru, Sept. 13.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr. George B. Livingston in command. Used as a storeship at Coquimbo, Chili. Comdr. S. H. Baker is ordered to command, per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Advices from Auckland, N. Z., of Aug. 16, say that the *Mohican* arrived from Fiji on Aug. 16, and would remain three weeks.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. Address care of Navy Pay Agent, San Francisco, Cal. Arrived at Sitka Aug. 16, 1886.

SHENANDOAH, 2d rate, 9 guns, Captain Byron Wilson. At Callao, Peru, July 31. Has been ordered to proceed to San Francisco for repairs, touching en route at South and Central American ports.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station.

Asiatic Station—Rear-Admiral J. L. Davis.

Commodore Ralph Chandler has been ordered to command this station, and will leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail, to care U. S. Consul, Yokohama, Japan.

ALERT,† 3d rate, 4 guns, Comdr. Chas. J. Barclay. Arrived at San Francisco, Cal., Sept. 9. Will undergo repairs at Mare Island.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Lisbon, Portugal, Sept. 2, 1886.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Sailed from New York for the Asiatic Station Sept. 2, 1886.

MARION,† 3d rate, 8 guns, Commander Merrill Miller. Sailed from Shanghai for Cheefoo Aug. 14.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Canton Aug. 20, to be relieved by the *Palos*, and then proceed to Hong Kong for repairs.

OMAHA,† 2d rate, f. s. a. s., 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL, as having left Shanghai, China, Aug. 10, for Valdivostok, Hakodate and Port Hamilton. Will return to Shanghai Oct. 1.

OSSIPEE,† 3d rate, 8 guns, Comdr. John F. McGlensey. Left Nagasaki, July 10, for Chemulpo, Corea. Has been ordered to return to New York by the middle of February, 1887.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. Sailed from Shanghai for Canton Aug. 10, to relieve the *Monocacy*.

TRENTON, 3d rate, 10 guns, Capt. Robert L. Phythian. At Fort Monroe, Va., Sept. 6, and was ordered to Norfolk to be put out of commission.

Apprentice Training Squadron.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. Sailed from Madeira for Newport, R. I., Sept. 11.

SARATOGA, 3d rate, 12 guns, Comdr. C. H. Davis. Sailed from Madeira for Newport, R. I., Sept. 11.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr. At the Navy-yard, New York.

DOLPHIN, despatch boat, ———— At Norfolk, Va. Undergoing repairs.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Sailed from Annapolis to Norfolk for repairs.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. Arrived at Erie Sept. 2.

RANGER, 3d rate, 4 guns, Comdr. Chas. E. Clark. At San Francisco.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. Schoolship. Cruising in Long Island Sound.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard. To go on trial trip for about a week at sea about Sept. 20.

VARIOUS NAVAL ITEMS.

THE Russian transport *Moskwa* arrived at San Francisco Sept. 16 from Honolulu, with Admiral Shestakoff, chief of the Russian Navy, on board.

IN accordance with a request of the Coast Survey Office, the supplies for that office will hereafter be purchased under supervision of Chief Clerk Youmans, of the Treasury Department.

AN 8-inch gun, in being removed from a barge at the Naval Academy to the wharf, Sept. 11, broke a plank, knocked a sailor overboard, and broke the leg of Boatswain John S. Sinclair, U. S. N.

LIEUT. EMORY has telegraphed the Navy Department that the *Despatch* has arrived at Newport with the abandoned schooner *Abbie Dunn* in tow. The *Despatch* was sent out last week to blow up this wreck, which was lying about 40 miles southeast of Montauk Point, directly in the way of transatlantic steamers. Lieut. Emory, upon finding it, saw that it was a timber-laden vessel, and consequently very buoyant, and he was able to tow it into port, thus enabling the owners or the insurance companies to secure whatever of value remains. It was loaded with lumber for Washington.

C. O. BOUTELLE, acting under authority from the United States Coast Survey, arrived in Charleston Sept. 10 for the purpose of examining the condition of the bar in order to report any change in the channels that might have taken place consequent upon the earthquake. Mr. Boutelle has devoted two days to the work, and as the result of his observations says that changes exists in both Pumpkin Hill and South Channels, but they are slight and are all for the better, showing increased depth in both channels; it is impossible to say how much better until the tidal observations are completed and the soundings can be reduced to low water.

A VOLUME of "Regulations Governing the Uniform of Commissioned Officers, Warrant Officers, and Enlisted Men of the Navy of the U. S.," has been received at the Department from the Public Printer. It forms a volume of 9 x 6, containing 26 pages of letter press and 55 pages of plates. By its perusal officers are fully informed as to the occasions when one of the eight uniforms illustrated is to be worn. It is probable that no more alterations will be made in the uniforms for some time. The book is neatly gotten up, well bound, and is the most complete compilation yet issued for the guidance and convenience of officers and men afloat or ashore. The portion allotted to the uniforms of enlisted, rated, and appointed men, is not less complete than that part devoted to the officers. The illustrations of this book are specially to be commended for their tastefulness and accuracy.

WE have received a tabulated report of the final examination for professional certificates at the English Royal Naval College 1881-82 and 1884 85. There were ten students in marine engineering, among which Asst. Naval Constructor Richard Gatewood, U. S. N., stood four, and Asst. Naval Constructor F. T. Bowles stood five. The grand total was 10,000, of which the head of the class received 7,938, Mr. Gatewood, 6,157, Mr. Bowles, 6,029, and Asst. Naval Constructor Lewis Nixon, 5,426. The maximum credits for each study were as follows: Physics (lectures), 450; physics (practical), 175; chemistry (lectures), 450; chemistry (practical), 175; strength of materials, 500; heat, steam and combustion, 350; steam and the steam engine, 500; practical shipbuilding, 400; ditto, engineering, 600; engine design and calculation, 600; ship design and calculation, 500; practical engineering, 500; laying off, 400; design of an engine, 500; design of a ship, 500; total of Group A, 4,600. Mathematics (pure), 1,500; mathematics (applied), 1,500; applied mechanics, 900; theory of the steam engine, 750; stability and oscillation, 750; theory of waves and propulsion of ships, 750; total of Group B, 5,400.

THE N. Y. *Telegram* tells this story, to which we may apply the Italian proverb—"*se non è vero, è ben trovato.*" It without doubt correctly represents the sentiments of Meade: "It will be remembered that the new Superintendent of the Naval Academy is only a Commander. This fact was being discussed in Commodore Walker's office the other day. Mr. Walker is a Captain in the Navy, but receives the pay of a Commodore on account of being the Chief of the Bureau of Navigation. Some one asked Mr. Walker why a Commander had been detailed for the duty. Mr. Walker replied: 'I made this detail because I do not know of a single Captain in the Navy who is fit or competent to hold the place.' This was too much for bluff Captain 'Dick' Meade, who was sitting near by. He jumped to his feet and exclaimed: 'Speak for yourself, Mr. Walker! I'll be blankety, blank, blank, blanked if you speak for the rest of us!' The silence that followed was only broken by the ticking of the clock."

IT has just been learned that after the plans for the other 4,000-ton cruiser, *Newark*, were laid before the Walker Board, it was discovered from calculations made thereon that the ship would be deficient in stability if built upon these plans, and that to make her seaworthy she had to be made wider. Accordingly her beam was increased from 48 to 49 feet 1¼ inches. Her length was retained at 300 feet, and the draft at 18 feet 9 inches. This necessitated the drawing and designing of a new set of lines.

THE Fish Commission steamer *Albatross*, which is still at Wood's Holl, Vineyard Sound, completing her season's work, will go to Wilmington soon to receive her new steel boilers, which are being built there. As soon as the boilers are in, the vessel will be ordered to the Pacific Coast by way of the Straits of Magellan, and will do extensive hydrographic soundings en route. The Pacific food fish have never yet been thoroughly studied, and the work will be prosecuted along the coast as far north as the Aleutian and Sea Island groups.

IN explanation of the statement that defects in the plans for one of the new cruisers were discovered after the completion of the drawings, it is stated at the Navy Department that Secretary Whitney first approved plans for a steel vessel with wooden sheathing for protection in the event of striking rocks, but that he afterwards decided that this was not in literal compliance with the terms of the appropriation for "a steel vessel," and he therefore ordered a change of plan, so that the vessel should be of steel without the wooden sheathing.

THE Government war vessels *Trenton*, *Jamestown*, *Dolphin* and *Fortune* are in the hands of the workmen at the yards for repairs, and work promises at last to be brisk until Christmas. Some 300 workmen of all grades will be taken on within the next few days, and the enforced idleness among a great many of our working people since last May will be at an end. By the close of the month the training ships *Saratoga* and *Portsmouth* will also be in port from their summer cruise, and in need of repairs and to refit for their winter cruise in the West Indies. There is every reason to expect a busy fall and winter in this yard.—*Norfolk News.*

THE Washington *Critic* says: "The Secretary of the Navy has telegraphed to the commandants of all the Navy-yards calling their attention to the law which forbids any increase of force at Navy-yards during the sixty days preceding an election in the locality where the yards are situated, "unless there is a manifest necessity for such increase, which must be duly certified to." In this connection it is learned at the Navy Department that work is required immediately at the Norfolk Navy-yard on the frigate *Trenton*, the training ships and the tug *Fortune*, and at the Mare Island Navy-yard, California, the *Alert*, just home from China, is also in need of immediate repairs. This will require 600 men at Norfolk and 200 at Mare Island."

NAVY GAZETTE.

Ordered.

SEPT. 11.—Lieutenant Wm. W. Kimball ordered to duty in the Bureau of Ordnance, Oct. 1.

SEPT. 13.—Lieutenant G. Blocklinger to the Swatara.

Lieutenant Thos. D. Griffin to the Galena, Oct. 4.

Cadet Engineer Willis P. Day to the Atlanta.

SEPT. 14.—Ensign Ed. E. Capehart to the Naval Academy, Oct. 1.

SEPT. 15.—Ensign Wm. R. Rush to the Ranger

SEPT. 17.—Medical Inspector E. S. Bogert to New York Navy-yard, Sept. 28.

Detached.

SEPT. 11.—Commander Chas. J. Barclay detached from command of the Alert and placed on waiting orders.

Lieutenants Willie Swift, F. W. Nichols, John C. Irvine, C. K. Curtis, Henry Morrell, and F. A. Wilner; Ensigns H. C. Wakenshaw, A. B. Clements, and Harry Kimmell; P. A. Surgeons M. H. Simons and Ernest Norfleet; P. A. Engineers J. L. D. Borthwick and Chas. P. Howell from the Alert and placed on waiting orders.

Assistant Paymaster Livingston Hunt from the Alert and ordered to settle accounts and to await orders.

SEPT. 13.—Lieutenant Allan G. Paul from the Lancaster, Aug. 20, and placed on waiting orders.

Sailmaker Herman Hansen from the Independence and placed on sick leave

SEPT. 15.—Passed Assistant Engineer Herschel Main from the Bache and placed on waiting orders.

SEPT. 17.—Passed Assistant Engineer Wm. Rowbotham from Galena ordered home and placed on waiting orders.

Passed Assistant Engineer W. N. Little from the Worcester Free Institute and ordered to Galena, Sept. 25.

Revoked.

Orders of Lieutenant G. Blocklinger to the Swatara are revoked.

Leave.

Ensign W. W. Buchanan granted four months' leave.

MARINE CORPS.

SEPT. 14.—1st Lieutenant B. R. Russell, order of 10th instant revoked for the present, and ordered to resume his duties at the Marine Barracks, League Island, Pa.

2d Lieutenant C. A. Doyen, order of 10th instant revoked, and detached from the U. S. S. Galena and to proceed to and report for duty at the Marine Barracks, League Island, Pa.

Captain R. W. Huntington to hold himself ready for orders to the U. S. F. S. Hartford at San Francisco or Panama.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

THE following is a correct list of the Superintendents of the U. S. Naval Academy, from the date of its establishment to the present time. Assumed command: Sept. 3, 1845, Comdr. Franklin Buchanan; March 15, 1847, Comdr. Geo. P. Upshur; July 1, 1850, Comdr. Cornelius K. Stribling; Nov. 1, 1853, Comdr. Louis M. Goldsborough; Sept. 15, 1857, Capt. Geo. S. Blake; Sept. 9, 1865, Rear-Adm. David D. Porter; Dec. 1, 1869, Commo. John L. Worden; Sept. 22, 1874, Rear-Admiral C. R. P. Rodgers; July 1, 1878, Commo. Foxhall A. Parker; Aug. 2, 1879, Rear-Admiral Geo. B. Balch; June 13, 1881, Rear-Admiral C. R. P. Rodgers; Nov. 14, 1881, Capt. F. M. Ramsay; Sept. 9, 1886, Comdr. Wm. T. Sampson.

Comdr. Sampson will not announce the members of the Academic Board until the Academy reopens in October.

A naval general court-martial met at the Naval Academy Sept. 10 for the trial of Wm. Chappell, a boatswain's mate, who is charged with assaulting a warrant officer of the Navy, and with being otherwise disorderly. The court is composed of Comdr. John Schouler, president; Capt. R. W. Huntington, U. S. Marine Corps; Lieuts. J. P. Merrell, G. W. Tyler, R. Mitchell, J. M. Roper and C. J. Bousch, U. S. N., and 1st Lieut. Samuel Mercer, U. S. M. C., judge advocate.

Prof. Henry D. Todd, head of the Department of Physics and Chemistry, has been given a month's leave.

The following have been admitted to the Naval Academy as naval cadets: John H. Dayton, at large; John Sheehan, New York; M. T. Holure, Arkansas; Thomas J. Mason, New Mexico.

NEW CRUISERS AND GUNBOATS FOR THE UNITED STATES NAVY.

NAVY DEPARTMENT,
WASHINGTON, August 21, 1886.

Under authority conferred by the act of Congress making appropriations for the Naval Service, approved March 3, 1885, (23 Statutes at Large, page 426,) and the act to increase the naval establishment, approved August 3, 1886, sealed proposals are hereby invited and will be received at this Department until 12 o'clock noon, on Wednesday, the 24th day of November, 1886, for the construction, by contract, of five vessels for the United States Navy, which, for the purposes of this advertisement, are designated as follows:

Cruiser No. 1.—One cruiser of about 4,000 tons displacement.

Cruiser No. 2.—One cruiser of about 3,700 tons displacement.

Gunboat No. 1.—One heavily-armed gunboat of about 1,700 tons displacement.

Gunboat No. 2.—One light gunboat of about 870 tons displacement.

Cruiser No. 3.—One cruiser of about 4,400 tons displacement.

Cruisers No. 1 and No. 2, and gunboats No. 1 and No. 2, authorized by the act of March 3, 1885, are to be constructed in the manner and in conformity to the conditions and limitations provided for the construction of the new cruisers in the acts of August 5, 1882, (22 Statutes at Large, page 284,) and March 3, 1883, (22 Statutes at Large, page 472,) except so far as said acts provide for and define the duties of the Naval Advisory Board.

Cruiser No. 3 is to be constructed in accordance with the conditions and limitations prescribed in the act to increase the naval establishment, approved August 3, 1886, so far as the same relates to the construction of the protected double-bottomed cruiser authorized by said act.

All these vessels are to be of the best and most modern design, having the highest attainable speed, and to be constructed in accordance with the plans and specifications approved by the Secretary of the Navy, which plans and specifications may be seen and examined at this Department, where all information essential to bidders can be obtained.

Proposals for the construction of cruisers No. 1 and No. 2, and the two gunboats, authorized by the act of March 3, 1885, will be received "from all American shipbuilders, whose ship yards are fully equipped for building or repairing iron and steel steamships, and constructors of marine engines, machinery and boilers." Satisfactory evidence that the bidders are such builders or constructors must accompany the proposals or be submitted to the Department in advance.

Proposals for the construction of the protected double-bottomed cruiser, No. 3, authorized by the act approved August 3, 1886, will be received "from every American shipbuilder and other person who shall show, to the satisfaction of the Secretary of the Navy, that within three months from the date of the contract he will be possessed of the necessary plant for the performance of the work in the United States which he shall offer to undertake." The evidence thus required must accompany the proposals or be submitted to the Department in advance.

Proposals are divided into four classes, and may be made under either head, as follows:

Proposals for Hull and Machinery.—For the construction of the hull and machinery, including engines, boilers and appurtenances, complete in all respects.

Proposals for Hull Only.—For the construction of the hull, complete in all respects.

Proposals for Machinery Only.—For the construction and erection on board the vessel of engines, boilers and appurtenances, complete in all respects.

Special Proposals.—For the construction of hull according to the plans and specifications approved by the Secretary of the Navy; the contractor to put in engines, boilers and appurtenances of any design which he may consider more suitable than those called for by said plans and specifications, not to exceed, however, in weight, nor in the space to be occupied, that allotted in said plans and specifications, but no such proposal will be considered unless accompanied by full and complete plans and specifications of such proposed engines, boilers and appurtenances, and a satisfactory guarantee of the results of the same if adopted.

Proposals must be made according to forms which will be furnished by this Department on application. No offer for more than one vessel complete, including hull and machinery, or for the hull or the machinery of more than one vessel, should be embraced in the same proposal.

Contracts will be awarded separately for each vessel, including hull and machinery, or for the hull or machinery thereof.

Each proposal must be preceded or accompanied by a cash deposit or satisfactory certified check, payable to the order of the Secretary of the Navy, which shall become the property of the United States in case the successful bidder shall fail to enter into a contract with sureties, as required, within twenty days after the acceptance of his proposal. The amount of such deposit or checks shall be five per cent. of the amount of the bid. All deposits and checks of bidders whose proposals shall not be accepted within five days after the bids shall have been opened will, at the end of that period, be returned to them, and those of each successful bidder will be returned to him when his contract has been duly entered into.

Every successful bidder will be required, within twenty days after the acceptance of his proposal, to enter into formal contract for the performance of his work, and to give a bond therefor, with sufficient sureties, and with a penal sum equal to one-fourth of the amount of his bid.

The three cruisers must be completed within eighteen months, and the two gunboats within twelve months, from the execution of the respective contracts.

Payments to each contractor will be made in ten equal installments, as the work progresses, upon bills duly certified, from which ten per cent. will be reserved to be paid on the full and final completion of the contract.

The Secretary of the Navy reserves the right to reject any or all bids as, in his judgment, the interests of the Government may require.

WILLIAM C. WHITNEY,
Secretary of the Navy.

TO THE STEEL MANUFACTURERS OF THE UNITED STATES OF AMERICA.

UNITED STATES NAVY DEPARTMENT,
WASHINGTON, D. C., August 21, 1886.

The attention of all steel manufacturers of the United States is hereby invited to the requirements of the Navy Department in the way of armor-plates and heavy gun-forgings, for the prosecution of work already authorized by Congress.

This advertisement invites all domestic manufacturers of steel to specify, in competition with each other, upon what terms they will engage to prepare for the production of and produce the forgings and armor plate required for modern ordnance and armored ships; and no bids will be considered except such as engage to produce within the United States either all the gun-steel or all the armor-plate (or both) specified in this advertisement; nor will any bid be accepted unless accompanied by evidence satisfactory to the Department that the bidder is in possession of, or has made actual provision for, a plant adequate for its fulfilment.

Bids are hereby invited for supplying this Department with the under-mentioned material:

About 1,310 tons of steel gun-forgings, of which about 328 tons will be for guns of six inches calibre, 70 tons for guns of eight inches calibre, and 912 tons for calibres between ten inches and twelve inches (both inclusive).

These forgings are to be delivered rough bored and turned and when in that state the heaviest forging which enters into the construction of a gun of each of the desired calibres will be about as follows: 6-inch, 3¼ tons; 8-inch, 5 tons; 10-inch, 9½ tons; 10½-inch, 9¾ tons; 12-inch, 12½ tons.

All these forgings must be delivered within the following times from the closing of a contract, viz:

For 6-inch guns, 28 within one year, and the remainder within 18 months; for 8-inch guns, within two years; for 10-inch and larger guns, within 2½ years; preference will be given for earlier deliveries.

Also, about 4,500 tons of steel armor-plates, to be of the best material and manufacture, shaped accurately after patterns to fit the form of each vessel for which intended, and of such sizes as may be required, varying somewhat as follows: 20 feet by 8 feet by 12 inches thick; 17½ feet by 6 feet by 17 inches thick; 11½ feet by 4¼ feet by 6 inches thick.

There will also be thinner plates.

For information concerning shapes and weights of the gun-forgings and armor-plates, what parts must be manufactured in sets, time of delivery of each set, the chemical, physical, and ballistic tests, which the metal must sustain in each case, and for all other particulars, apply to the Chief of Bureau of Ordnance, Navy Department, Washington, D. C.

Each bid upon armor-plate must specify the time within which the bidder will engage to make delivery; and preference will be given to earliest proposed deliveries.

Proposals must be in duplicate, sealed and addressed to the Secretary of the Navy, Navy Department, Washington, D. C., the envelopes endorsed "Proposals for steel gun-forgings and armor."

They will be received at the Navy Department until 12 o'clock M. on the 10th day of December, 1886, at which hour the opening of the bids will take place.

The right is reserved to waive defects in the form of, and to reject any or all bids.

Ten per cent. of the contract price will be retained from the payment for each article delivered, until the contract, as far as relates to articles of that class, shall have been completed.

Separate bids may be submitted for the gun steel and for the armor, if any manufacturer so desires; but bids covering both will receive preference, other things being equal.

Bids will be compared in two classes. *First.* Gun-forgings. *Second.* Armor-plate.

And the total sum for which, and the time within which, the whole of the material covered by each class will be produced and delivered, will be alone considered.

WILLIAM C. WHITNEY, Secretary of the Navy.

THE COAST SURVEY.

A DESPATCH from Washington, Sept. 14, says: "At half-past twelve o'clock to-day Mr. H. Eaton Coleman, disbursing clerk of the Coast Survey, attempted to get into his room with money to pay the clerks. He was ordered out by Deputy Superintendent Colona, but refused to go. A second later there was a tussle, and for a moment or two the air was full of struggling Colonas and Colemans. In the hubbub somebody rang the police call and in a few minutes a platoon of blue-coats appeared and restored order. There has been hard feeling between Colona and Coleman for a long time. This is the third fight in the Coast Survey headquarters during the past two weeks."

The New York *Herald* says: "Discord appears to be one of the results of putting a Treasury clerk into the chair once occupied by Hassler, Bache, Pierce, and Patterson. To those who have always held the bureau in high esteem this manner of filling one of the most exalted trusts, as well as the frequent rows terminating by arrest and trial in the police court, suggests that this once dignified scientific bureau has now become a place for enacting opera bouffe."

REVENUE MARINE SERVICE.

Names and Stations of Revenue Cutters.

Alert, 2d Lieut. E. C. Chaytor, Elizabeth City, N. C.
Bear, Capt. M. A. Healy, on cruise to Arctic.

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Old Reserve Whiskey, - - - - $18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi river; and by freight to any part of the U. S. (prepaid.)

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guarantee to give PERFECT SATISFACTION; otherwise to be returned at our expense.

WHAT SHALL BE DONE WITH GERONIMO?

APPARENTLY no definite decision has as yet been arrived at with regard to the ultimate disposition of GERONIMO, NATCHEZ, and their companion bucks now at San Antonio. A despatch of Sept. 14 from there says: "Captain LAWTON, 4th Cavalry, and Surgeon WOOD left last evening for Albuquerque, having been formally relieved of their prisoners, GERONIMO, NATCHEZ, and the hostile Apaches and Chiricahuas. GERONIMO was very sullen all day after hearing that Captain LAWTON, in whom he had great faith, was going away. NATCHEZ was also very much affected by the departure of LAWTON. GERONIMO says he never would have gone to war if he had not been forced to. He says he has been well treated by LAWTON and General STANLEY, and he hopes soon to meet his family in Florida." The prisoners spent Sunday in their tents playing cards. Captain LAWTON is reported as saying that he is not entitled to all the credit of capturing GERONIMO, and that Lieutenant GATEWOOD, of the 6th Cavalry, was at GERONIMO'S camp and received the surrendering hostiles a few moments before he (LAWTON) arrived.

A Washington despatch says: "The determination of a course of procedure will probably be made by the President, but not until the terms of the surrender and all the attendant circumstances shall be officially known. With the present knowledge it seems probable that the offenders can neither be tried by a military court-martial nor by the civil authorities, but that they may be tried as the Modocs were by a military commission."

In regard to the men, women and children of the Warm Spring and Chiricahua tribes sent to Fort Marion, an Army officer is quoted as saying: "This cannot be considered a suitable place for the confinement of 500 Indians permanently. It is too small, and it would be merely a side show, as St. Augustine is a resort for tourists, invalids and pleasure and health seekers generally, who would throng to see the captives. Besides the sanitary condition should receive some consideration. That number of people living on so small a reservation would breed epidemics, and thereby wreak their vengeance on their pale-faced brethren in a less bloodthirsty but quite as effective manner as when on the war path. The Dry Tortugas would be a secluded and safe spot, not too pleasant for these savage murderers to pass the remainder of their days."

A despatch from Jacksonville says: "A petition is being universally signed at Pensacola requesting the Secretary of War to order GERONIMO and the other captive Apaches to Fort Pickens, on Santa Rosa Island, Pensacola, Fla. St. Augustine is equally anxious to add the band to her attractions. In fact, GERONIMO and his painted demons are looked upon in Florida as a better card than a circus or a sea serpent." The dryer the place to which GERONIMO is sent the better, and from this point of view perhaps Dry Tortugas will be an excellent place if the Indians are required to furnish their own supplies. It will be a heavy tax upon Army transportation to furnish them with what they need. Fort Pickens is much more accessible and affords plenty of room and every opportunity to hold them in security and seclusion. There the Indians could be effectually quarantined, if necessity required it. At Fort Pickens they would probably soon come under the control of Colonel LANGDON, who is temporarily in command at St. Augustine during the absence of General AYRES, on leave. When General AYRES returns he assumes command of Fort Barrancas, of which Fort Pickens is a dependency. There is no more conscientious officer in the Army than Colonel LANGDON, and whatever orders he might receive concerning the prisoners would be followed out to the letter.

A despatch of Sept. 15th from Las Vegas, N. M., says: To-day a train of coaches came from the south bearing the Chiricahua and Warm Spring Indians to Florida. There were 460 of the savages, guarded by three companies of U. S. infantry, under command of Colonel WADE and Major DICKEY. Although none of them have been on the warpath since GERONIMO broke loose, it is well understood that they were furnishing his band with ammunition, and there was no telling what moment they might break out. For this reason the Governor decided to ship them off to Florida, where they could do no harm.

SUNDAY IN THE ARMY AND NAVY.

THE need of some regulation governing the official observance of Sunday, in the Army at least, is enforced by the remarks from the Superintendent of the Military Academy which appeared in the JOURNAL at the time. General MERRITT said: "The trial by Court martial of an enlisted man on Sunday, there being no certified nor apparent necessity for such trial, is irregular if not illegal. It is a rule among the Christian nations that no military duties not necessary to the well-being of a command shall be performed on the Sabbath day. It is not proposed by the commanding officer of this post that at the National Military School, in this least busy season of the year, shall the first step be taken to violate a principle which is as sacred as it is venerable."

In Digest of Opinions of Judge Advocate General we find it stated that "there is no law prohibiting a Court-martial of the United States from sitting on Sunday, and the fact that a sentence of such court is adjudged on that day can affect in no manner its validity in law," "nor the fact that the convening order was dated on a Sunday," and "enlistments can be made on a Sunday." The only provisions in Revised Statutes referring to Sunday in the Army and Navy are found in 1342 and 1624, recommending attendance at divine service, and 1324 and 1526, prohibiting studies to be pursued at the Military and Naval Academies on Sunday. Statute laws of the United States, or of the States, do not in all cases enjoin the closing of courts and public offices, or declare void contracts made on that day. So in the absence of statutes to the contrary, these encroachments on Sunday can lawfully be made, but they can also be prohibited in orders, except for cases unavoidable and of absolute necessity, and any effort

to increase respect for the Christian religion is certainly to be commended. The Army would be the better for such regulations; they are worthy of trial, can work no harm, and do not clash with the religious convictions of any person. The Sabbath is observed, outwardly at least, in all American communities, and the Army, while not always progressive and advancing, from its traditions of conservatism, should follow the good example; not lead backward, if the phrase may be permitted. The exigencies of war from the earliest period have often sadly interfered with the wishes and convictions of man, and great battles have been fought and won on Sunday, and while armies exist the observance of special days will be beyond our entire control. This may be conceded without affecting the general proposition, but the spirit governing the observance of the day should be that expressed in the admirable proclamation of the President, which we recall to the attention of the Army. It is as follows:

EXECUTIVE MANSION,
WASHINGTON, Nov. 15, 1862.

The President, Commander-in-Chief of the Army and Navy, desires and enjoins the orderly observance of the Sabbath by the officers and men in the military and naval service. The importance for man and beast of the prescribed weekly rest, the sacred rights of Christian soldiers and sailors, a becoming deference to the best sentiment of a Christian people, and a due regard for the Divine will, demand that Sunday labor in the Army and Navy be reduced to the measure of strict necessity.

The discipline and character of the national forces should not suffer, nor the cause they defend be imperilled by the profanation of the day or name of the Most High. "At this time of public distress," adopting the words of Washington in 1776, "men may find enough to do in the service of God and their country without abandoning themselves to vice and immorality." The first General Order issued by the Father of his Country, after the Declaration of Independence, indicates the spirit in which our institutions were founded and should ever be defended. "The General hopes and trusts that every officer and man will endeavor to live and act as becomes a Christian soldier defending the dearest rights and liberties of his country." ABRAHAM LINCOLN.

This order came from the highest military authority known to our law; it has never been revoked or modified—is there any reason, then, why it is not still binding upon the Services?

We are not the advocates for a puritanical observance of the Sabbath. We believe in allowing each one the largest liberty as to the use he shall make of his time on Sunday; whether for religious observance or recreation, or even for labor. But we do believe in limiting the power of men to unnecessarily restrain the liberty of others in the use they may desire to make of that day of the week which is so generally regarded in Christian countries as set apart from the others by its freedom from the restraints of labor and the exactions of toil. Is it well to ask why any commanding officer should be permitted to have on Sunday especial show parades, military ceremonies, and even battalion drills. No military necessity requires them, and it cannot be shown that they are for the good of Service. It is necessary that Sunday inspections be held, that quartermasters work may not be interfered with? What is to prevent weekly inspection being held on Saturday afternoon, the Sunday guard mount at the place and hour of undress guard mount, and all offices and storehouses closed, except for actual and pressing needs on Sunday, and dress parades, reviews, artillery salutes and band concerts prohibited on this one day of the week?

If the 7th New York National Guard or any of the other popular regiments of militia should inaugurate dress parades and battalion drills in Central Park for Sundays, does any Army officer believe such disregard for the Sabbath would be overlooked, even though it might justly be argued on plea of necessity that other days of the week could not be spared from business pursuits, without involving loss of time and money; a plea which does not avail in the Army. Men have more often recurring thoughts about human destiny than is indicated in their every day words, and perhaps the more fitting observance of the Sabbath in the Army, may direct the thoughts and hearts of the idle wayfarer to better things. Only that order of affairs is asked for "which shall make Sunday more sacred for rest, and so for those who shall be minded to use it for something higher than rest."

THE "Decision Circular," (No. 8, of 1886,) published this week, contains an unusual number of interesting as well as useful decisions, many of them affecting the Army at large.

AT the last annual meeting of the Army Mutual Aid Association Lieutenant-General P. H. Sheridan, Colonel H. J. Hunt, Lieutenant-Colonel R. N. Scott, Captain J. O. Skinner, and Lieutenant T. T. Knox were appointed a special committee to consider a revision of the constitution and by-laws of the association. They have completed their report, which has been printed and is now being distributed. Suggestions and modifications submitted by Captain Ebstein, Colonel Jones, Lieutenant Swift, Captain Sanborn, and Lieutenant-Colonel Poe were discussed, resulting in the following recommendations by the committee: That $3,000 be substituted for $2,500 in section 10 of the by-laws, so that until further action is taken the benefit will not exceed $3 per capita or $3,000; that the expense of management be paid from "general reserve fund," so that the members share it equally instead of by classes; that the benefit surplus which is set apart for the payment of death claims be transferred from general to special reserve fund, as a sub-account of that fund; that all forfeited assessments and all interest on unused assessments be covered into it; that the amount of all forfeited assessments and interest on unused assessments that have already been paid into the general reserve be also transferred to the benefit surplus; that all amendments to the constitution adopted January 10, 1884, to form additional groups, be abrogated; that instead of the calendar year a fiscal and business year, commencing April 1 and ending March 31, be adopted. The membership of the association is now 955. Fourteen deaths have occurred since January 1 last, nearly three times the number that occurred during the entire year of 1885. Lieutenant Wm. M. Swaine, 22d Infantry, has just been added to the list.

THE board, consisting of Captain John A. Howell, President, and Lieuts. A. M. Knight and John F. Meigs, members, recently appointed to make the statutory test of rifled cannon, have submitted to the Secretary of the Navy a statement of what they consider the proper mode of conducting the firings. The law under which the tests are made provides that one or more rifled cannon of each type built for the Navy shall be publicly subjected to the proper test for endurance, including such rapid firings as a like gun would be subjected in battle. The principal question for the Board to determine was as to what would be a fair equivalent to battle firings. The Board's conclusions on this point await the approval of the Secretary of the Navy before the firings are commenced. The tests, of course, will be made at the Annapolis Proving Grounds. There are now seven or eight 6-in., one 5-in., and two 8-in. steel guns there, one of the latter calibre having been shipped to the Washington Navy-yard. These guns will not all undergo the statutory tests, the law only requiring one of each type to be subjected to the firings above referred to. Trials for endurance will, of course, be made of them all.

WE can vouch for the correctness of the report, which appears elsewhere, of the introduction of Lieut. Foster, U. S. N., and others on the U. S. S. *Minnesota*, to a sea-serpent taking his summer vacation in the Hudson River. There are other authentic reports of interviews with the marine monster by naval officers, though none of them ever saw one so long as that described by Pontoppidan as measuring six hundred feet.

The officers of the *Dædalus* in 1848 sent to the Admiralty a description of one which they had in sight some twenty minutes, and an officer of our Coast Survey reported seeing one off Cape Cod, showing above the water thirty feet of a body as big as a hogshead. So the gentlemen of the *Minnesota* need not concern themselves with the jibes of the scoffing and unbelieving, for we could fill this page with a mere list of those who have borne personal testimony to the existence of the mammoth lamprey, nor is it true, as Marryat declares in the "Pasha," that the animal has never "been seen before or since except by the Americans, who have much better eyes than the people of Europe boast of."

AN English paper thus describes what seems to be the projectile for the Ericsson gun: "An extraordinary projectile has been prepared at the Royal Laboratory for the trial of the new submarine gun, and has been sent from Woolwich in the *Earl de Grey and Ripon* steamer, for Pembroke, where the trial is to take place. The shot, if such it can be called, is nearly as long as the gun, and bears a strong resemblance to the Whitehead 'fish' torpedo. It was fully charged with several thousand pounds of gun cotton before leaving the arsenal, and the doubts which have to be solved by the experiment are not only whether the projectile can be sent an effective distance under water and in the desired direction, but whether a compound so sensitive as gun cotton will stand the shock of discharge without a premature explosion."

THE advertisements for the construction of the new vessels of war are to be published in the following newspapers, the Secretary having selected them as the five leading dailies, as required by the Act authorizing the construction of the ships: New York *Sun* and *World*, Boston *Herald*, Philadelphia *Times*, and Baltimore *Sun*. The advertisements for the guns, armor plates, etc., were sent to the Boston *Post*, New York *Sun*, *World*, *Times*, *Herald*, and *Scientific American*. Those inviting the designs for new ships were authorized to be published in the New York *Star*, *Times*, *Herald*, *Sun*, *Graphic*, *Evening Post*, and ARMY AND NAVY JOURNAL; London *Engineer*, and London *Engineering*.

THE Second Comptroller of the Treasury holds that the schedule of fees fixed in 1867 for attorneys and agents prosecuting claims before the Department is still in force. The Department in the settlement of claims will make out two drafts, one for the amount of fees under the regulations for the attorney, and one for the balance of the claim for the claimant. This is to protect the widows and children of soldiers from extortionate demands of claim agents. About 20,000 cases are affected by the decision.

THE Iowa Prisoners of War Association met at Des Moines, Sept. 8. The annual report gave the number of Federal prisoners captured during the war, 213,250; number paroled in the field, 46,668; number incarcerated in rebel prisons, 166 585; 30,000 died in rebel prisons; of those that were released and continued in the service of the country 13½ per cent. died. There are probably 60,000 prisoners of war yet living.

THE Glenham Hotel in Fifth avenue between 21st and 22d streets, New York City, has donned an entire new suit outside and in. Mr. Barry, the proprietor, has devoted the entire summer to making it one of the most attractive and home-like houses in the city. Many of our leading Army officers make it their home when in the city.

IT was not strictly correct to say that no appropriation was made by the last Congress for the Naval War College, as six thousand dollars was allowed for repairs and experiments and furnishing of buildings; heating and lighting, and other expenses enumerated.

THE anniversary of the battle of North Point, War of 1812, occurred Sept. 12, Sunday last, and was duly observed at Baltimore on Monday by the four survivors—George Boss, aged 92; James C. Morford, 91; John Petticord, 91, and Nathaniel Watts, 91.

THE literary event of the year will be the celebration in November of the 250th anniversary of the founding of Harvard College.

THE SURRENDER OF GERONIMO.

HARPER'S WEEKLY for September 18 has an excellent likeness of Gen. Miles and one of Geronimo, accompanied by an article in which it says: "The capture of the fierce Chiricahua chief Geronimo, through the indomitable energy and endurance of Capt. H. W. Lawton and his command, aided by cooperating forces, will add fresh laurels to the Department Commander, Gen. Nelson A. Miles. The career of this distinguished soldier has been one of remarkable success. Starting in the ranks of a Massachusetts militia company at the outbreak of the civil war, he made his way up to the command of a division of the 2d Corps, and fought it from the Rapidan to the Appomattox, becoming known as one of the ablest soldiers in the Army of the Potomac. Adopting the profession for which he had thus disclosed rare aptitude, he showed himself one of the very few who could pluck renown even from Indian campaigns, proverbially prolific of hard work and reproaches rather than of glory. He took part in the expedition against the Cheyennes and Comanches, and then, ten years ago, after the Custer massacre, made a famous campaign into the Sioux country, pursuing the Indians through the deep snows of an exceptionally severe winter, fought several battles with them, and forced Sitting Bull to take flight into Canada. Next Gen. Miles encountered and after a hard battle defeated and captured Chief Joseph's band of Nez Percés, who had baffled or beaten off command after command of their pursuers, and were just about to escape to Canada. It was his fortune also to come across the hostile Bannocks, whom he defeated at Clark's Fork. His promotion from the colonelcy of the 5th Infantry to a brigadier-generalship carried him to the Department of the Columbia, where he succeeded in quieting some Indian complaints. When in July of last year Gen. Augur's retirement required a new commander for the Department of the Missouri to deal with the uneasy Cheyennes and Arrapahoes of the Indian Territory, Gen. Miles was summoned. Again when, last spring, Gen. Crook applied to be relieved from the Department of Arizona, where he had been fighting the Apaches, Gen. Miles was selected to take up the hard task, which he has now brought to complete triumph. We may well say, therefore, that the success of Gen. Miles in Indian campaigning has been extraordinary. . . . The prodigious difficulties and hardships of a midsummer campaign in such a country against such a foe

have been recently set forth to the readers of the *Weekly*. . . . About the middle of August Geronimo, worn down, proposed to surrender to the Mexicans, but finding this impracticable, he yielded to Gen. Miles, Capt. Lawton having meanwhile, with the aid of other troops, completely barred his retreat. Throughout this trying campaign, whose conduct demands so much praise for the indomitable energy and endurance of our brave officers and men, Gen. Miles has never expressed the remotest doubt that success would one day be assured."

The Omaha *Republican* says: "The story regarding a fight between the Mexicans and United States troops and the subsequent escape of Geronimo is not believed at Army Headquarters. In fact, the question that now appears to trouble the great warriors at Washington is the disposition Geronimo will make of General Miles and his troops when he captures them." This was written before the news of Geronimo's capture had reached the headquarters at Omaha. The main question that now agitates the public is what disposition the croakers who were continually belittling Gen. Miles's ability to capture the Indians will make of themselves? Will the *Republican* answer.—*Kansas City Times.*

WHAT A WASHINGTON GOSSIP SAYS.

THE correspondent of the New York *Evening Telegram* thus gossips: "There are likely to be some surprises for certain officers of the Navy before long. About three years ago the Navy Department was very much scandalized over the seizure of a large quantity of foreign goods which had been smuggled into this country by naval officers for their family and friends. There never was much love lost between the Revenue Marine and the Navy. The record of the Revenue Marine Service is one of which it can justly be proud. Since its organization it has never lost a vessel, and the deeds of daring on the part of its officers and men are something of which the whole nation ought to be proud. To a certain extent the naval officers look down upon the Revenue Marine. The Navy considers that it has the honor and dignity of the nation upon the sea in its particular keeping, while the Revenue Marine is only a service to enforce the observance of the laws and to be used in cases of emergency. Thus it will be seen that there is very little love lost between them. Nothing so delights the Revenue Marine officers as to get even with the Navy. A naval vessel coming into port from a foreign country, especially if she has been on a long cruise, is an opportunity not to be thrown away by both customs and Revenue Marine Officers.

"There have been several stories in circulation to the effect that in a quiet way Secretary Whitney has already set men at work to ascertain the names of the men who are carrying on this business. One of the reports is that the vessels of the Navy are nearly all provided with agents whose business is not known to the men, but who are keeping a quiet watch over what is going on. Whether there is any truth in this story or not cannot be ascertained, but it is current here and some of the officers are quite indignant that the spy system should be used in a service where every officer is supposed to be a gentleman of honor."

(Special Despatch to the N. Y. Tribune.)

NAVAL WAR COLLEGE.

NEWPORT, R. I., Sept. 13.

THE announcement that John C. Ropes, the well-known historical writer of Boston, would give a lecture on "The battle of Gettysburg" at the War College drew to the college a large number of spectators. Prominent Army and Navy officers were present. Mr. Ropes described the battle minutely. He stated how the Confederate troops fought hard and bravely, and the entire lecture was delivered without the slightest partiality. In the highest terms Mr. Ropes praised General G. K. Warren. The widow of the General who was present shed tears of joy upon hearing of the memory of her dead husband.

Commander Bainbridge Hoff delivered an interesting lecture on "Formation and evolutions of the fleet." Capt. Hoff said the basis of fleet division is either the ship, section or group, and that the most modern idea is probably that each line-of-battle ship is a unit in itself, and in order that it may be thoroughly effective it must not be hampered in the use of any of its weapons by having to act as part of a formation with any other vessel or vessels. Speaking of formations and their systems Capt. Hoff said: "It is hardly necessary to go over the thousand and one modifications of the three or at most four simple formations in which a fleet can be arranged. Leading into a fight or bearing down on an enemy's position in column has its advantage. It does away in a great measure with the necessity of signalling. Then it is easier for the captains of the vessels; as they have no position to keep, but only to maintain their position in the wake of the next ahead. It is difficult to bear down upon the enemy in any spread-out formation and preserve the station of the vessels. In steaming into line the captain of each ship must preserve for his vessel: first, the course; secondly, the bearing; thirdly, its station in the line. In retreating the best formation is probably in columns, with the least injured ships nearest to the enemy. In indented column the formation is more concentrated and cohesive, every gun is capable of being used against the enemy, stations are easily kept, and the towed vessels are well protected. Finally there are no complicated manœuvres, so this formation is the best for disabled vessels in retreat, as they can be taken in under the guns of their own fortications, or can enter their ports without any evolution save changing direction."

There are three methods of evolution, those controlled by (1) simultaneous movements, (2) successive movements, (3) direct or oblique movements. In all evolutions performed by a fleet at sea in the presence of an enemy the one important point is that they should be quickly understood by the commanding officers of the ships composing the fleet.

Further on Capt. Hoff said: "It must be borne in mind that a surprise to a fleet by an enemy has ever been dangerous, but with our modern means of warfare it will certainly prove disastrous. This being the case it will require great foresight on the part of a commander-in-chief to have his fleet in such a condition as regards formation that it will not be necessary to perform any evolution of moment in the presence of the enemy. The ideal system of evolution has yet to be perfected, but we are inclined to believe that it will be founded upon the 'isochronic' method. It may be said for this system that when a fleet is manœuvring in the presence of the enemy each vessel is pretty well covered by the remaining ships from any outset of the enemy for purposes of ramming."

General Palfrey, who lectured on the landing of naval forces and their operations in connection with the Army, gave an interesting account of many instances where the naval forces had been thrown together with the Army, and how the victory could not have been gained by the one side without the assistance of the other. It was shown that one gun on shore was as good as eight guns afloat.

Comdr. Hoff also delivered an interesting lecture Sept. 15 at the War College on "The Fleet in Action on the Open Sea." Comdr. Hoff showed that plans of battles should be prearranged, so that when the enemy heaves in sight he can be attacked without numerous signals, and that the ram, which should be freely made use of, was to be considered the principal weapon of the ship. In speaking of the use of torpedo boats in action he said: "If the enemy is sighted and your boats are on board, then retreat, take your time to get your boats overboard, and when all is ready and your boats are formed between you and the enemy, change course 16 points upon signal and stand into action."

In another lecture on naval tactics he said, "that it seemed as if the coming ship would be, as regards her hull, nearly torpedo proof, through numerous water-tight compartments coming up to the spar deck; have her engines, boilers and controlling officers protected; a large number of guns of moderate or even small calibre, labor saving machinery every where, and therefore a small crew; no torpedoes; auxiliary rudder, and guns or tubes for firing some sort of high power explosives. She should also have a capacity for full sail power, and ordinarily to be barkentine rigged."

Lieut. John S. Meigs, U. S. N., opened his course of lectures with an account of the history of naval gunnery.

TORPEDO ATTACK AT NEWPORT.

The resources of torpedo attack and defence were illustrated at Newport on Tuesday last. The *Tennessee* was put in fighting trim and an attack made upon her, which is thus described:

Not even the three big electric lights which illuminate the end of Long Wharf, acting supplementary to the breakwater lighthouse and the dull red orb of the Rose Island tower, could dispel the gloom covering the ship and sea. A fine night for a daring torpedo-boat attack, and just such a night as an enemy would select! The ship had been carefully fenced in by floating booms made from the light yards and masts. The long, swinging boat booms were lowered to the water, and they acted as braces to help keep the floating protectors away from the ship's copper. The *Tennessee* resembled a caged monster with her environment.

It was not deemed best to use machine or broadside guns to repel the enemy, but something else equally effective was brought into use for the delectation of the attacking torpedo flotilla. Steam was got up in one of the *Tennessee's* boilers. A hose attached to the steam and hand pumps and a ready nozzle was in readiness for its destructive work. On either bow and quarter watch was kept, and all was silent on board ship. A number of boats were out on patrol duty, and the crews kept a strict lookout for the wild onslaught of the enemy. A keen-eyed mariner on the forecastle soon after 8 o'clock bawled out, "A boat is on the port bow!" This caused great excitement. Then an officer, peeking through his night glass, discovered a torpedo-boat in the distance. She was heading for the *Tennessee* under full steam. On she came, and when near made a break for the ship. When her prow struck the log fenders it was thrown back. The strong breastwork cracked, but it was the strongest. There was no opportunity to do any damage with the torpedo which was exploded. The water boiled and bubbled, but the *Tennessee* remained unscathed.

Then the moment of vengeance arrived. The pumps and the hose were now brought into use and a powerful stream of cold salt water surprised the enemy. The clothing of the latter principally suffered. By this time a sturdy sea wolf of a tar announced another torpedo boat nearing the ship. The fresh adversary was duly warned by hearing the officer on the bridge shout through his trumpet:

"Bring the hot water hose this way!"

Numerous boats of the enemy now approached the ship from all directions, but the floating wooden fortifications were built so strong and secure as to make it extremely difficult for the boats' noses, as well as hazardous to the clothes of the respective crews, to get torpedoes near enough to do any damage. Sharpshooters, together with Gatling guns, fired blank cartridges and the small defensive torpedoes attached to the ends of the booms were exploded. The wild discharge of water from the hose was the main factor in the work of decimating the bold foe. It can be said that all the torpedo boats were promptly discovered and summarily disposed of. A gun from the *Tennessee* in the neighborhood of 10 o'clock announced that the enemy was no longer in existence, and then everybody sailed or rowed through the thickening darkness past the big fleet of assembled yachts homeward to the wharf.

(From Edmund's Art and Science of War.)

THE FIELD OF GETTYSBURG.

PARTICULAR care should be taken not to post troops on any point from which they cannot reach the enemy with their fire, and from which they cannot move to the assistance of the troops at other points, nor should troops be placed in advance of the general line, where they might be liable to be cut off by the enemy, without providing for their safe retreat by holding, with a strong force, all the roads leading to the position. To illustrate the dangers almost certain to result from an improper arrangement of troops in position, reference is made to the Battlefield of Gettysburg, Fig. 5. The result of the Confederate reconnaissances was to fix upon the ground opposite Longstreet, that is, the left and left centre held by Sickles's corps, as the most practicable point of attack. . . . In the original ordainment of the line of battle, Sickles's corps (third) had been instructed to take position on the left of Hancock on the same general line, which would draw it along the prolongation of Cemetery Ridge, to the Round Top. Now, the Ridge at this point is not very well defined, for the ground in front falls off into a considerable hollow. But at a distance of 400 or 500 yards in advance, it rises into that intermediate crest along which runs the Emmettsburg Road. Gen. Sickles, thinking it desirable to occupy this advanced position—which he conceived would, if held by the enemy, make his own ground untenable—assumed the responsibility of pushing his front forward to that point. The motive that provoked Gen. Sickles to this course was laudable enough, yet the step itself was faulty; for though to superficial examination the aspect of this advanced position seems advantageous, it is not really so; and prolonged to the left, it is seen to be positively disadvantageous. It affords no resting place for the left flank, which can be protected only by refusing that wing, and throwing it back through low ground, towards low Top; but this, in turn, presents the danger of exposing a salient in a position which, if carried, would give the enemy the key point to the whole line. Gen. Sickles's disposition of his troops had precisely this character.

On this obtruding member Gen. Lee determined to make his attack; for, as he states: "It appeared that if the position held by it could be carried, its possession would give facilities for assailing and carrying the more elevated ground and crest beyond. This eccentricity in the placing of Sickles's corps did not become known to Gen. Meade until about 4 o'clock, when he arrived personally on the field, and then he saw the danger to which the corps exposed itself. It was thought to be too late to correct the error, for just at that moment, Longstreet, under cover of a powerful artillery fire, opened his attack, and all that remained for Gen. Meade to do was to support Sickles as far as could be done in the emergency. The final result of the attack was to carry the position occupied by Gen. Sickles, after serious losses and a stubborn resistance on the part of the Union troops; but there then remained the line which should have been occupied in the first instance, and the efforts to carry which resulted in Lee's defeat.

A PRIVATE'S VIEW.

THEODORE F. HALLAM has in the Cincinnati *Enquirer* some satirical comments on War Reminiscences from the point of view of the private soldier. He says:

Sometimes the magazines have "Recollections of a Private;" but this puzzles me. In the first place, it requires a great deal of journalistic enterprise to find a private. In the second place, I don't see how a private can have any recollections of the war. I was a private in the campaign of 1862 through Northern Virginia and Maryland, and in every fight, and I must say that I never saw a single battle or had the faintest idea of what was going on or what were the results until I was told of it afterwards or saw it in a paper. I was three days at Second Manassas and then slowly made up my mind that there would probably be a genuine engagement next day. When we rebels began to move the night after Sharpsburg, I had an idea that it was with a view to open a battle in the morning, and when we got to the Potomac and started in I couldn't comprehend why we hadn't tried a fight first. Fighting, as we generally were, with a long line over miles of front, in woods for the most part, and over hills and valleys, I don't believe that any private ever saw more than a small part of a battle (except at Fredericksburg) or knew a skirmish from a general engagement, or a reconnoissance from an attack. I have seen say as much as a brigade emerge from the woods on the other side, and we have let into them with our shells until shells came flying—I couldn't always tell from where—around and about us, or until that brigade got near our woods where our men were, and have then seen that brigade go back faster than it came. Then I have seen our men go across the same opening and come back in the same energetic style. But I never knew a whole battle till afterwards. I haven't the exact recollection of incidents which appertained to a certain friend of mine, who could refer to such details as "a small persimmon tree standing about eleven feet to the northeast of a pond thirty-seven yards west of a lane leading southward from the main cemetery road."

It was this sort of exactness which caused him to be selected by the caucus as Chairman of the Committee of Confederate War Lies. But his position was captured from him not long ago by one of the high State officers in Kentucky in this wise: I had been telling of seeing a shell go through a screen of fresh earth at the head of a new line of breastworks and fall in the ditch unexploded, and how the men rushed for it without waiting to see if it was loaded. The General then said he saw one strike outside and roll over the parapet into the shovel of a man who quietly heaved it over again. "And in less than two minutes," he said, "another shell did exactly the same thing and the same man heaved that one over on the outside in the same way, and—" but at this point the audience left the General to keep him from literally wearing that man out with shovelling shells over the parapet.

ARMY OF THE TENNESSEE.

THE Society of the Army of the Tennessee held its reunion at Rock Island, Ill., this week, amid much enthusiasm. The society on Wednesday visited the camp of the County Veterans' Association, and were received with cordial greetings. Gen. Sherman being introduced made a brief but pithy address. Gen. John A. Logan followed with a stirring oration. In the evening the society held a reception in Harper's Theatre.

On Wednesday the election of officers took place as follows: President—Gen. W. T. Sherman; Vice-Presidents—Col. J. F. Howe, St. Louis; Capt. W. D. Leach, Cedar Rapids; Capt. C. E. Lonstrum, Galesburg; Major Charles H. Smith, Cleveland; Major A. V. Bohn, Leadville, Col.; Surg. S. C. Plummer, Rock Island; Capt. J. C. DeGress, Austin, Texas; Capt. C. C. Chadwick, Detroit; Lieut. G. W. Hill, Rosedale, Kas.; Col. Edward H. Wolf, Rushville, Ind.; Capt. E. Spear, Minneapolis; Major George B. Hagin, Des Moines; Recording Secretary—Col. L. M. Dayton; Corresponding Secretary—Gen. A. Hickenlooper; Treasurer—Gen. M. F. Force.

Gen. Sherman closed the proceedings with a brief address. The next reunion will be at Detroit, the second Wednesday of September, 1887.

CHANGES AT FORT LEAVENWORTH.

THE Kansas City *Times* says: Information has reached here that Troop L, 4th Cavalry, commanded by Captain T. J. Wint, and Troop B, 3d Cavalry, commanded by Captain J. B. Johnson, would be relieved by a troop of the 9th and one of the 5th Cavalry about the middle of October. It is not known what troops of these regiments will be selected, but it is believed that the troop of the 5th Cavalry will either be Capt. Babcock's or Hays's. Troop L will go to Arizona, where the 4th Cavalry is stationed, while Troop B is more than likely to replace the troop of the 5th Cavalry should it be taken from the Indian Territory.

Later information is that Troop M, 5th Cavalry, has been selected as the troop. It is commanded by Capt. John B. Babcock. It is believed that in case a troop of the 9th Cavalry is ordered there that it will be Capt. Cooney's Troop A.

HONORS TO MILES AND LAWTON.

At a mass meeting at Tucson, Arizona, held last week, the following preamble and resolutions were adopted:

Whereas, No event in the history of Arizona has caused such a thrill of emotion in the breasts of our citizens as the capture of Geronimo and his accursed band of red-handed murderers; and whereas, General Miles stated when he first took command of this Department, that he thought the Apaches ought to be conquered within six months; and whereas, he has more than complied with the hope then expressed; and whereas, our warmest gratitude is due General Miles for his vigorous and sagacious policy, his courteous attention to the expressed wishes of the people, his wise and judicious selection of officers, and his calm determination to succeed; therefore be it

Resolved, That we yield to General Miles the distinguished honor of having accomplished the grandest achievement in the annals of Indian warfare.

Resolved, That we feel deeply grateful for the kindly manner in which he has received our citizens and has interested himself in their welfare.

Resolved, That we tender Gen. Miles and the officers and men under his command, our sincere thanks for their untiring energy and persistent zeal in the prosecution of their herculean task. That we rejoice in their success and feel proud to add our united testimony in favor of the just meed of praise which their distinguished acts merit.

Resolved, That we honor and respect Gen. Miles as the first commander who has inaugurated the policy of the removal of the Indians from the Territory, thus voicing the universal sentiment of the people and adopting the only remedy which can secure permanent peace and prosperity.

Resolved, That in the selection of Captain Lawton for the work assigned him, Gen. Miles has added new laurels to his well-earned fame, and that the services of this distinguished officer will never be forgotten by the people of Arizona.

Resolved, That Captain Lawton has endeared himself to the people by the determination, bravery and military skill which he has exhibited in the performance of this severe duty; that his relentless pursuit of Geronimo is without a parallel, and that his ceaseless vigilance and untiring march through an unknown and foreign country during the summer season, suffering for water and provisions, ever pushing on and forward, regardless of every obstacle, until complete success crowned his efforts, is a record of the most brilliant exploits and heroic endurance, which will cover his name with immortal renown.

The Society of Arizona Pioneers has

Resolved, That through the Society of Arizona Pioneers the people of Arizona tender their heartfelt thanks to the President of the United States for his prompt attention to our request made through the Society of Arizona Pioneers for the removal of the Apaches from our midst and to Gen. Miles, the gallant and efficient soldier, and his command is due our everlasting gratitude.

The Democratic Territorial Convention, held in Arizona Sept. 6,

Resolved, That it is the sense of this convention that Gen. Nelson A. Miles is entitled to the confidence and heartfelt thanks of the people of Arizona for the successful campaign he has waged against Geronimo and his band of hostile Apaches, and for his earnest and successful efforts to secure the removal of all troublesome Apaches from Arizona and New Mexico to some point far from their haunts in these territories; and this convention hereby tenders its congratulations to Gen. Miles and thanks to Capt. Lawton and his brave soldiers whose courage has, for the first time in the history of the Chiricahua Apaches, forced the unconditional surrender and acknowledgment of the supremacy of the Government of the United States.

A recent letter received in Washington from Fort Bowie says: "Geronimo did not surrender unconditionally. He had his life assured him. Geronimo admits that Capt. Crawford's fight broke his power in January last, and he would have been glad thereafter to have surrendered on the same terms as those on which he has just given himself up to Gen. Miles."

In reply to this the Albuquerque, N. M., *Democrat* says editorially:

The recent reports circulated concerning the surrender of the Apaches and detracting from the merits of the campaign have elicited considerable indignation from military men in this section, who feel that it is but an effort to deprive gallant officers and soldiers of the fruits of their victory, and believe that they are inspired by envious critics. People in this community who know all the facts appreciate the great and final success of Gen. Miles's campaign as much as they have deplored the past futile efforts of others to secure lasting peace. Those who know say that Geronimo and his band were never captured or disarmed until Gen. Miles landed them at Fort Bowie last week as prisoners of war, and the statement that Geronimo would have surrendered upon conditions before the recent change in military commanders in this Department is untrue, and that the Indians escaped after being captured and turned over to the civil authorities by Gen. Crook. Military men say that Gen. Miles's campaign was a necessity to bring the Apache troubles to a successful termination. His vigorous campaign lasted only a few months, and Geronimo only gave up when he was exhausted and helpless. He surrendered to the troops in the field, and Gen. Miles simply told him that Army officers never kill their prisoners of war; that they must lay down their arms and do what he said, trusting their future to the President.

(From the N. Y. Tribune of Sept. 16.)

READY TO SWEAR THEY SAW THE SERPENT.

THOSE who are disposed to scoff at the notion of a big, live, slimy, wriggling marine serpent existing in the Hudson River, would better keep away from the foot of West 27th Street, while the United States receiving ship *Minnesota* remains anchored there with Lieut. C. A. Foster on board. The Lieutenant solemnly declares that he saw the huge reptile last Sunday morning, and says it with an emphasis that makes contradiction dangerous. Quartermaster Kane, of the vessel, says the same thing; so does Sailmaker Macy and half a dozen more of the crew. All the marines, of course, believed it from the start, and such is the reputation of the officers for truthfulness, that every able-bodied seaman on board now believes that the monster honored the ship with a visit as thoroughly as those who were on deck when his snakeship hove in sight, and are as ready as they to resent the slightest suggestion to the contrary in the most unceremonious way.

Lieutenant Foster is a quiet, dignified gentleman of about thirty-seven years, twenty of which have been passed in the Navy, and the last man in the world, one would think, to give way to his imagination. He looked straight into a *Tribune* reporter's eyes last night and told the story of the serpent's appearance and disappearance with an earnest and candid air that would carry conviction to the most hardened sceptic's soul. "It was about 9 o'clock in the morning," said the gallant officer, "and I was standing over there on the outer gangway looking down the river. Suddenly I noticed what I thought at first was a spar about thirty feet long on the water about a hundred yards to the southwest of the ship. It was such an unusual thing to see a valuable piece of wood like that floating about that I looked more closely at it. Then, to my astonishment, it began to wriggle about in true snake fashion. A tug boat was coming up stream and it seemed to be moving slowly out of the way. I called to Quartermaster Kane, who was on the upper deck, and pointed it out to him. He at once brought his binocular to bear upon it and watched it while it remained in sight. When I first saw the monster it was lying quite stationary, but as a tug approached it began to move up with the tide at a two-knot rate. I had a good square view of it. Its head and tail seemed submerged, but the part exposed was of a dark gray color. There were no fins or scales visible upon it. At the largest part it appeared to be about eighteen inches in diameter and tapered toward each end in such a way as to lead me to think it was fully sixty feet in length. With the glass the Quartermaster was able to discern the form of the head and tail or the two ends under the surface. When it got up to 28th Street a brick barge interrupted our view and we did not see it again. At one time it could not have been over fifty yards from me, so I know it was not a spar or a hawser, or a shark, or anything else than a great big snake."

Some of the longshoremen who were on the pier at the time declare that they saw the head of the serpent and that it was fully two feet long. Lieut. Foster and all the rest are willing to make affidavits as to what they saw. None of the officers, it is said, has been ashore in a month and were as sober as deacons at the time.

(Correspondence of the Army and Navy Journal.)

DEPARTMENT OF THE PLATTE.

A BATTALION of the 2d Infantry, another of the 21st Infantry, and Light Battery F, 2d Artillery, from Fort Leavenworth, participated last week, under War Department orders, in the Eighth Annual State Reunion of Soldiers and Sailors at Grand Island, Neb. The appearance of Regular troops was a prominent feature of the Reunion, which was attended by nearly 50,000 people, among whom were not less than 5,000 veterans; and the drill of the infantry and the evolutions of the battery are highly commended by all who were present. The command was organized as follows:

Col. Henry A. Morrow, comdg.; 1st Lieut. C. H. Bonesteel, 21st Inf., A. A. A. G.; Surg. J. M. Brown, Chief Medical Officer.

Battalion, 2d Infantry.—Maj. E. Butler, comdg.; Co. A, 1st Lieut. L. S. Ames; Co. C, Capt. H. Catley; Co. D, Capt. A. Haines and 1st Lieut. W. R. Abercrombie; Co. H, Capt. A. S. Daggett, and 2d Lieut. F. G. Van Liew, Acting Adjutant.

Battalion, 21st Infantry.—Captain W. H. Boyle, comdg.; Co. C, Capt. F. H. E. Ebstein, 1st Lieut. F. J. Patten, and 2d Lieut. A. L. Parmenter; Co. G, Capt. W. H. Boyle and 1st Lieut. S. E. Sparrow.

Light Battery F, 2d Artillery.—Capt. C. A. Woodruff, 1st Lieut. R. M. Rogers, 1st Lieut. H. Rowan, and 2d Lieut. E. H. Catlin.

The troops remained in camp at Grand Island during the entire week of the Reunion and were kept actively employed. On the last day of the encampment a sham battle was fought which is described by a local paper as follows:

It was intended to represent what might have been the outcome of the Cutting affair. Gen. Morrow planned the battle. Col. Daggett of the 2d U. S. Inf., was placed in command of the Mexicans, and Maj. Boyle, 21st U. S. Inf., of the Americans. The troops participating were 2d U. S. Inf., with Col. Daggett in command, 21st U. S. Inf., with Major Boyle in command, Bat. F, 2d U. S. Art., Col. Woodruff; detached battery, Capt. Corbin; Shelton Zouaves, under command of Capt. J. S. Hodges, the veterans representing the Grand Army of the Republic mustering over 1,000 men divided into divisions, one under command of Maj. H. Russell, of Schuyler, the other commanded by Col. Dudley, of the Regular Army. These were assigned positions on the right and left of the Regulars. The battle opened with a lively artillery fire. This was followed by a rush of battery to the centre of the field. No sooner was it brought into service than a large body of infantry poured forth from the opposite side under orders to capture the battery. Here the enthusiasm of the crowd became intense, and in almost breathless expectancy the spectators seemed to wait for the outcome. Upon nearing the battery the infantry commenced firing. This was responded to by the battery, and for a few minutes the loud roar of musketry and belching of cannon united in a deafening sound. The battery finally retreated, and the battle fairly commenced. Firing opened up on all sides. Charges and repulses were made, and a scene realistic in the extreme was witnessed. Now a retreat would be ordered, then a gallant rally would be made and the attack repulsed with terrific effect, men falling as the guns poured forth their deadly volleys, aide-de-camps hurried hither and thither, while a canopy of rolling smoke covered the field of action. Finally the Mexicans were driven from the field, and from the thousands of intensely excited witnesses there arose tremendous cheers which, mingled with the rattling of musketry, the thundering of cannon, and the wild victorious yells from the troops, making in all an indescribable scene never to be forgotten by those who were in that immense and enthusiastic throng. A gunboat under command of Capt. W. H. Michael ran down the river near the battle field and aided the Mexicans by throwing shot and shell into the American ranks.

Among the military visitors to the camp were Generals A. McD. McCook and Frank Wheaton; Major Sanford, 1st Cav.; Major Hawkins, 10th Inf.; Capt. Humphrey, A. Q. M.; Lieut. Dudley, 2d Art., and Lieut. Wright, 2d Inf. Senator Manderson and Congressman Laird, of the Military Committees, were also present, and paid high compliments to the appearance and discipline of the troops.

EX-SECRETARIES, WAR AND NAVY.

OF the 39 Secretaries of War officiating from Gen. Henry Knox in 1789, the survivors comprise Joseph Holt, Simon Cameron, John M. Schofield, Wm. T. Sherman, Wm. W. Belknap, Alphonzo Taft, J. Don Cameron, Geo. W. McCrary, Alexander Ramsey, Robert T. Lincoln and W. C. Endicott. Gen. Holt is living near Washington, Simon Cameron is hale and hearty at the age of 87, in Harrisburg, Pa.; Gen. Schofield, now the Senior Major-General of the Army, commands at New York; Gen. Sherman is retired and domiciled at New York, Gen. Belknap is practicing law in Washington, Don Cameron is a Senator from Pennsylvania, Mr. McCrary is resident counsel for the Atchison, Topeka and Santa Fé Railroad Co. at Kansas City; Alexander Ramsey is at his home in St. Paul, Minn., and Robert T. Lincoln is practicing law at Chicago.

Of the 30 Secretaries of the Navy, Geo. M. Robeson, Richard W. Thompson, Nathan Goff, Jr., William E. Chandler and W. C. Whitney survive. Mr. Robeson maintains a fine residence at Washington, and practices law at Camden; Mr. Thompson resides in Indiana, and is connected in some way with the De Lesseps Panama Canal scheme; Nathan Goff, Jr., is a Representative in the present Congress, from West Virginia, and Wm. E. Chandler, who resides in a well-appointed Washington residence on I street, is at his New Hampshire summer home.

BOTHERING GENERAL SHERMAN.

CHICAGO, SEPT. 15 (SPECIAL),

GEN. W. T. SHERMAN, who left here yesterday for Rock Island to attend the annual reunion of the Army of the Tennessee, accompanied by Gen. John A. Logan, Gen. Huidekoper, and others, had a busy time dodging the newspaper interviewers in this city. He visited Gen. Terry at the Army Headquarters in the forenoon, and was caught on his way to the train by a reporter who desired his views on some matters connected with the Administration, Mexico, Geronimo, sealfishing and codfishing.

"I know nothing on these matters now," replied he. "You know I am not an official, and my opinions on public matters are therefore comparatively worthless. I am now merely a private gentleman at large."

"You have changed your residence from St. Louis to New York," suggested the reporter.

"Yes, I have taken up my residence in New York; took it yesterday."

"I hope you find the change agreeable?"

"I have only experienced it for one day. My wife and children, however, have been living there for some time."

"Would you mind giving me your reasons for the change?"

"Oh, everybody knows what St. Louis is, and everyone knows New York. Chicago people know as well as I do what it is to live in St. Louis, and can appreciate the difference between living there and living in New York. You can easily draw your own conclusions, therefore, as to my reasons for leaving the former city, and base whatever moral in any way you like on the fact that I have made the change. Don't ask me any questions about politics, please," continued he. "I never heard of it, know nothing about it, have no opinions on anything in the political line. I am tired of public life, and it's not worth while for you newspaper men to bother an old man like me. I am enjoying pretty fair health. I have been taking a tour of about 8,000 miles through a few of the States, and have only just returned. I find my health much improved by the trip."

(Special despatch to the N. Y. *Commercial Advertiser*.)

GENERAL DRUM INDIGNANT.

WASHINGTON, Sept. 14.

There is really a serious conflict of authority between General Miles and the Acting Secretary of War, General Drum. The latter is very indignant over the action of General Miles in sending the Indians south without orders, and is in a mood to make trouble about it. Already angered at General Sheridan's disposition to question his authority, he is inclined to look upon Gen. Miles' action as high-handed and insubordinate. Gen. Sheridan agrees with Gen. Miles that the hostiles should be taken south, and says Geronimo should be hanged with as little delay as possible.

ANSWERS TO CORRESPONDENTS.

M.—The Marines' Manual was prepared by Lieut. H. K. Gilman, U. S. M. C. You might get a copy by applying to the Navy Department, Washington, D. C.

A. B. asks: I made application for Commissary Sergeant while serving in the Artillery, was discharged, sergeant, re-enlisted in Cavalry, and appointed sergeant the day after re-enlisting; is it necessary for me to make a new application? ANS.—Yes.

G. S. C.—The "United Service Magazine" is one of the oldest, if not the oldest, British service magazine, and the "Army and Navy Gazette" stands about the same as a weekly paper. The "Almanac de Gotha" is in German and French, but not in English.

J. R. asks: How a ship's barber is paid; what his work is, and how long he must list for on a man-of-war. ANS.—Barbers are paid at the rate of $30 per month and are rated as first-class seamen. They must enlist for a period of three years. Their duties are to cut the hair of and shave the petty officers and other seamen.

A. S. R.—Apothecaries in the Navy are appointed by the captain of a ship upon the recommendation of the ship's surgeon. Make application to the first surgeon you see has been ordered to a ship. They are usually appointed for a full cruise. The pay is $60 per month. They rank as first-class petty officers. It depends upon the person himself as to whether he will rank as a gentleman or not.

B.—You will have to get the consent of the National, as well as of the State authorities, to enable you to carry out your scheme of building a dam across the mouth of the Hudson River, shutting in the sea serpent there and using the imprisoned waters as an aquarium for the exhibition of his serpentship. Then again, he might escape while your dam is building; unless you are correct in your supposition that he intends to spend the winter at Albany, lobbying for the passage of a bill which will give him the rights of citizenship and enable him to take proceedings against the daily papers for libellous statement concerning him.

W. F. C. asks: 1. Is a man, when shooting for sharpshooter (recruits excepted), allowed to fire more than 120 scores? ANS.—No. If, however, he qualifies as S. S. in 120 scores or less, he can fire as many scores to better his record for publication as his company commander may see fit to allow (See par. 187).

2. Is he allowed to fire—at the discretion of his company commander—ammunition, for practice, no record of the same being kept? Yes. (See par. 216.)

3. In firing for "practice," the man happens to make a qualifying score, is it right that he should get credit for that score and call out all the bad scores made? ANS.—No scores fired as "additional practice" can be counted or entered on the records as regular practice scores.

NEW PUBLICATIONS.

Included in G. P. Putnam's Sons' list of books for the fall season are: "The History of the United States Navy," with a review of the Colonial Naval expeditions and a sketch of our present Navy, by Edgar Stanton Maclay, and "Reminiscences of the 'Filibuster' War in Nicaragua, (1855-60,") by Gen. A. W. Doubleday, U. S. A.

Col. George W. Williams, the author of the "History of the Negro Race in America," is arranging for the publication of his "Military History of Negro Troops in the War of the Rebellion."

THE STATE TROOPS.

THE THIRTEENTH N. Y. IN A NEW ASPECT.

WHEN on Thursday evening, Sept. 9, the election of Colonel for the 13th Regt. was announced in favor of Lieut.-Col. Edward Fackner, there was a certain crowd who exhibited their low breeding, bad taste and lack of soldierly qualities by continued cheering for the defeated candidate, ex-Col. Austen, and other unmilitary and ungentlemanly demonstration. While not actually led by officers, it is well known that this crowd was, at least, encouraged by some of them, and the laxity displayed by those whose place it was to stop proceedings of this sort, was conspicuous. The number of the participants in this disgraceful exhibition was not large, but there were enough of them to make a tremendous noise, and among them were not a few non-commissioned officers.

The affair and subsequent developments have made quite a stir among the militia public, and this particularly in view of the proud reputation of the regiment for discipline and soldierly qualities. The high standard of drill of the 13th, as shown time and again at its popular exhibitions at the armory and at public parades in the street, gave the regiment a place among the best National Guard organizations. The scenes at the election not only shatter this reputation with one blow and prove that the splendid exhibitions were nothing but hollow show, but demonstrate that the management of the regiment must have been based upon false unmilitary principles for years past. A lack of discipline and military propriety, such as is clearly shown to exist here, must have had a long time to grow and develop. The outbreak was not unpremeditated, nor did the matter end there. Not only have similar demonstrations been given on other occasions, but "indignation meetings" have been held in which the men censure their officers for the manner in which they cast their votes, while before the election papers were got up for signature by the men urging their officers to vote for certain candidates. One 2d lieutenant has openly announced that his captain "must go" because he did not vote as he, the 2d lieutenant, and a small minority of the company wanted him to. A prominent non-commissioned staff officer, it is reported, presided in uniform over an "indignation meeting," where those who called attention to the impropriety and unmilitary character of the proceeding were hooted down. We could cite many more instances of this sort, but enough is given to show the utter want of discipline in one of the most famous regiments of the State.

We do not wish to go into any discussion of the merits or qualities of the two candidates, but we are free to say that the 13th has made a wise choice, and the demonstrations on the part of Colonel Austen's partisans give abundant evidence that they do not represent the element in the regiment which it is most desirable to cultivate. Lieutenant-Colonel Fackner is competent in every respect as a military man, and although not a millionaire is a man of character and being in the direct line of promotion these facts should at once have secured him the position. As long, however, as these places go by election, every man has a right to vote as he chooses, but when the matter is fairly decided the contest should end and everybody abide cheerfully by the result.

The claim that the demonstrations made are not against the colonel elect, who is not objectionable, but against those who voted contrary to the wishes of some of their subordinates, and the fact that probably no more than ten per cent. of the regiment have taken part in improper demonstrations, does not improve the condition of affairs. A military organization in which conduct like that referred to is possible, where men openly censure their officers and endeavor to prescribe the course of action of the former, cannot be relied upon when wanted. The same men who presumed to dictate in the matters referred to, would not hesitate to exhibit their insubordinate spirit in the face of the enemy, and they are no good as soldiers. Immediate reform is necessary and we hope that the report that the colonel intends to sift the matter to the bottom and let no guilty man escape is true. Each of the participants in these proceedings has not only disgraced himself, but brought into disrepute an organization heretofore regarded as a model for the National Guard and as the "mother of Brooklyn regiments."

Since writing the above we have seen a paragraph in the Brooklyn *Eagle*, in which it is stated that "the sentiment of the enlisted men in opposition to the action of the officers at the recent election is unqualified and unmistakable. They have arranged to hold a mass meeting on Friday night in the regimental armory to give voice to their disapprobation. That meeting will be held. Strictly speaking, it is an unmilitary proceeding and flies directly in the face of discipline. But it is wise, seemingly, under the circumstances, to afford these men an outlet for their emotions."

We can readily see the unmilitary part of the proceeding, but fail to discover its wisdom. In fact, this last mentioned view of the matter rather surprises us in our usually level-headed contemporary. The proposed proceeding is not simply insubordinate, but downright mutiny, and every military principle demands that it be suppressed at all hazards. If the 13th regiment can produce no better soldiers, then it is better to have no 13th regiment at all.

An "Old Member of the Thirteenth," (who doubtless knows what he is talking about), writes to the Brooklyn *Union* as follows:

As a National Guardsman I read with feelings of indignation and shame the communication headed "The Colonelcy of the 13th Regiment," and purporting to be from the (implying all) members of the 13th Regiment, N. G., S.N.Y., in the *Union* of Sunday, the 12th inst. That all the members were parties to this communication cannot be believed. Certain members, estimated from fifty to seventy-five, are the only ones that are making such ill-advised and disgraceful Austen demonstrations as against the Colonel elect. For such rank insubordination they should be made to answer, every man of them, before a military tribunal. The gross insult to the Colonel elect, and even to the Board of Officers, has grown out of permitting the men in the first place to get up the Austen petitions, thus interfering with the officers' prerogatives, or, to say the least, embarrassing them in making a selection. Were not the men who were instrumental in getting up the Austen petition the same ones who, two years ago, were active in the Fincke petition? If they were successful would not the same scene be enacted every time an office of any prominence was to be filled? In short, are not such proceedings destructive to discipline, calculated to grow from bad to worse; and would any officer of spirit care to hold a commission in any organization which tolerated such proceedings? I venture to say that no one would care to enter an organization where such unmilitary and reprehensible conduct exists. Were not the Austen cheers and the Fackner hisses, in the very presence of the latter officer, an aggravated violation of Article 3, Regulations, and 736, Upton's Tactics?

Was not the communication a palpable and gross violation of Article 7, Regulations? It must be borne in mind that Col. Fackner is the present commanding officer as well as Colonel elect. Here is an election ordered by Brigadier-General McLeer and held pursuant to his orders and to law, at which 24 officers assembled, 13 of whom, including six out of the ten captains, voted for Lieut.-Col. Fackner. Do the malcontents recognize that they are flaunting their insubordination in the face of these thirteen officers, as well as in the face of their commanding officers? It would be a mistaken policy to treat the culprits, they may be justly termed, leniently. They should be brought up with a round turn, especially the leaders, or discipline will be at a low standard in the future. Of course the rank and file constitute "the solid strength and mainstay of the organization," but when they elect their officers they put into the latter's hands certain privileges and prerogatives to which all deference must be observed, else a military organization would become a debating club without a head. It is lamentable that men will allow their feelings to so get the upper hand of them as to put together so many extravagant and positively untrue statements as are contained in the communication in the *Union*; and should the Colonel-elect decline the office, as is suggested in the last paragraph, it would be cowardly on his part and he would be doing the regiment an irremediable injury. Lieutenant-Colonel Fackner's services in the National Guard, now over twenty-three years, is bright and honorable. No man can point to a single instance when he has not always shown the true instincts of a gentleman and the qualities of a good and efficient officer, and the base attempt to make him appear in any other light in the eyes of the citizens of Brooklyn will fall flat among the many friends of Col. Fackner both in and out of the National Guard.

THE FALL MEETING OF THE NATIONAL RIFLE ASSOCIATION.

THIS year's meeting of the National Rifle Association (the 14th) began at Creedmoor on Monday, Sept. 13, and will break up to-day, Sept. 18. Lieut. E. L. Zalinski, of the 5th U. S. Artillery, is the executive officer, assisted by Col. Charles E. Bridges, late assistant quartermaster general, S. N. Y. Most of the matches shot are continuous, running through the whole week, and as they are not finished before we go to press we only give the results of those which were completed, reserving full reports and remarks for a later issue.

Monday, Sept. 13, opened cool and fresh, but with a strong wind across the field of fire, which bothered the shooters to a large extent. The only match finished was the Wimbledon cup match. Open to all citizens and residents of the United States. Distance, 1,000 yards. Thirty shots. Weapon, any rifle within the rules; cleaning allowed. Position, any without artificial rest. Entrance fee, $2. First prize, the Wimbledon cup. The match was won by J. H. Todd, with a score of 115 out of a possible 150. Mr. Todd had won the match in 1884 and 1885.

On Tuesday the most important event was the Shorkley match. Any military rifle, including specials. Distances, 800, 900, and 1,000 yards. Any position. Open to all comers. Ten shots at each distance. Entrance, $3. Twelve prizes, aggregating $110, viz.: $20, $15, five of $10 and five of $5 each. As this match is offered by the veteran Major George J. Shorkley of the Army it is equally interesting to Regulars and Volunteers to learn the result, which was as follows:

	800	900	1,000	Tot.
1. T. J. Rabbeth, Boston team..	47	44	38	129
2. John F. Klein, 17th Sep. Co..	45	39	40	124
3. C. W. Hinman, Boston team.	46	45	33	124
4. T. J. Dolan, 12th Regt.....	46	43	27	116
5. J. S. Shepherd, 23d Regt.....	41	39	33	113
6. Jas. McNevin, 13th Regt.....	33	33	43	109
7. R. MacMillan, Pennsylvania.	43	33	33	109
8. Geo. Joiner, 23d Regt.....	33	33	34	100
9. M. J. Merrill, Pennsylvania..	27	36	30	93
10. C. H. Gans, Albany	38	31	24	93
11. D. H. Ogden, 20th Inf.....	36	36	19	91
12. W. M. Farrow, Newport Art.	27	32	24	83

The President's match, which was finished Wednesday, was won by M. W. Bull, 2d Mass., by a score of 64 out of a possible 70 in the first stage and 44 out of a possible 50 in the second stage.

The Judd match, which was shot on Monday and Tuesday, was won by W. M. Farrow, of the Newport Artillery, by 66 out of a possible 70. He was at first tied by Capt. Ezra De Forest, of the 23d N. Y., but won on a "shoot off."

NATIONAL GUARD ITEMS.

The National Guard of California has been ordered out for rifle practice during the month of September according to the rules of the N. R. A. as far as applicable. Distances for those armed with the Springfield rifle and carbines, 200 yards. Wherever practicable, skirmish firing will take place.

The 9th Regiment has been ordered to Creedmoor for final general rifle practice on Tuesday, September 28. Lieutenant K. C. Gibson, Quartermaster, has been detailed as Acting Inspector of Rifle Practice. Captain G. Henry Witthaus, the late efficient I. R. P., has been placed upon the supernumerary list. The annual festival of Company H at Lion Park, September 14, was one of the most enjoyable and well attended affairs of the season.

It is understood that an endeavor will be made by Adjutant-General Josiah Porter to so amend the law as to admit of 12-company regiments in order to conform to the three-battalion organization. Of course, this will apply only to such regiments as can raise the necessary number of men to admit of the increase. The 7th at present has sufficient men beyond the prescribed 1,003 to organize two additional companies at once. We have no doubt the Adjutant-General will succeed.

Col. E. A. McAlpin, of the 71st New York, who returned recently from Europe, made his first appearance after his absence in the Armory on Tuesday, Sept. 14. There was a large gathering to welcome him. The officers presented him with a magnificent album containing their pictures and other mementos dear to the regiment. The Colonel entertained them in handsome style.

Here is an exhibition of National Guard discipline, which speaks for itself, and which we give as a military curiosity:

"BROOKLYN, N. Y., Sept. 14, 1886.

"A Great Mass Meeting of all the Members of the 13th Regiment, of Brooklyn, will be held in the Gymnasium, at the Armory, Friday night, Sept. 17, 1886, at 8 o'clock, to express the views and sentiments of the rank and file of their disappointment as to the election of Colonel in the 13th Regt.

"As this is a matter of the gravest and most vital importance to the "Old Thirteenth," whose bone and sinew is composed of the rank and file, we earnestly hope that each one of us will make every sacrifice—if such is needed—to be present that night.

"Let every member, old or new, stick to his principles and stand by his own convictions, no matter what influence and threats may be made against him, for they avail nothing.

"Remember, Comrades, united we stand, divided we fall!

"Fraternally, THE COMMITTEE."

Brigadier-General Louis Fitzgerald has appointed Lieut.-Colonel W. J. Harding, of the 22d, to the position of Acting Asst. Adjutant-General and Chief of Staff of the 1st Brigade, and Colonel Harding, who recently declined the offer of the permanent position, has, with the consent of Col. John T. Camp, of the 22d, accepted the temporary appointment. We congratulate General Fitzgerald upon securing the services of an officer of Colonel Harding's ability, although but temporarily, and hope that circumstances will permit Colonel Harding to accept the permanent appointment at a later date.

Company drills in the 22d New York Regiment began on Monday, September 13, with a creditable attendance. This early beginning of the season is with a view of thoroughly preparing the men for the coming inspection on Governor's Island, and the exercises executed are selected accordingly. The regiment, if nothing intervenes, will start early in the forenoon so as to arrive at Governor's Island about 10 A. M., for the purpose of getting in a good morning's work before inspection. The men will carry their lunches in their haversacks.

The veterans of the 9th New York are now holding their reunion on the battlefields of South Mountain, Antictam and Gettysburg, where the regiment was engaged. The affair began Wednesday, Sept. 15 and will last till Sept. 21.

The 32d New York will go to Creedmoor for final rifle practice Sept. 24. Company drills have been resumed.

The final orders for the drill of the 23d New York at Prospect Park on Saturday, Sept. 25, have been issued. The regiment will assemble at the armory at 3 P. M. A general recruit class has been formed under the supervision of Major Charles E. Waters. Lieuts. G. E. Hall and G. W. Middleton have been appointed instructors.

The 3d New York (Gatling) Battery, Captain Henry S. Rasquin, with its usual enterprise, will make "a day" of it at its monthly inspection at Prospect Park, Oct. 23. The battery will assemble at 8 A. M. and devote the morning to mounted drill.

The Massachusetts State rifle matches will take place at the State Camp Ground, South Framingham, on Thursday, September 30. There will be a Staff Team Match, a Company Team Match, an Officers' Match and an Enlisted Men's Match. Officers and men will appear in fatigue uniform.

The muster-out of the 2d Brigade Signal Corps has, we are glad to learn, been indefinitely postponed, which leads to the hope that it will not be mustered out at all. A signal corps, and especially one so well instructed as this one, is an important addition to any brigade, and therefore they should by all means be encouraged.

Col. Fackner, of the 13th N. Y., has placed in arrest and preferred charges against 2d Lieut. Samuel K. Smith, of Co. A, the ringleader in some of the unmilitary demonstrations referred to in our columns elsewhere, and Gen. McLeer will speedily convene a Court for his trial. Every military man endorses Col. Fackner in his prompt action and it is hoped full justice will be meted out to this as well as to any other offender.

Brig.-Gen. Louis Fitzgerald has applied to the Adjutant-General to have Lieut.-Col. Benjamin S. Church, lately on the staff of Gen. Shaler, restored to the active list as Engineer on the staff of the 1st N. Y. Brigade. Col. Church is a practical engineer, and Chief Engineer of the new aqueduct.

The application for a new armory for the 11th N. Y., has been forwarded strongly endorsed by the Commander of the 1st Brigade.

The 12th N. Y. had a street riot drill on Wednesday evening, Sept. 15, leaving the armory at 8.45 P. M. by the 44th street entrance. The 5th division marched to the right and held back the crowd on Broadway while the regiment marched out. The route was then taken up to 5th avenue, down to 30th street, to Madison avenue, up to 44th street, and back to the armory. The usual evolutions were executed. On account of the darkness and the crowd which followed, a criticism was impracticable. The simplicity of the movements moreover obviates the necessity therefor. We learn from those who participated in the drill that Lieut.-Col. Dowd made some alterations of his own in certain evolutions, the superiority of which was, however, not demonstrated on this occasion.

(Correspondence of the Army and Navy Journal.)

MASSACHUSETTS.

On Wednesday, Sept. 8th, the 5th Regt., Col. W. A. Bancroft, held its annual drill at Cambridge. The place selected is known as Jarvis Field, and is the property of Harvard College, the president and fellows of which kindly granted its use for that purpose.

The men appeared in full dress uniforms, heavy marching order, and would have made a better appearance if the companies had been equalized.

In guard mounting, a number of men failed to come to carry at the command halt—in fact, in some instances the men dressed with their pieces still at right shoulder. The first sergeants opened ranks correctly, but failed to compel the rear rank to close to the right, the result being several bad gaps. The commander of the detail from Co. H, seemed determined that the detail should have the right, and he carried this determination to such an extent that when he halted his detail it was beyond the Sergeant Major. He was of course required to move his men to the extreme left.

During the verification of the details, etc., some of the men, in the front rank especially, were unsteady—heads and hands moving, and spitting being noticeable.

After the sound off, the Adjutant failed to close ranks, and the platoons were marched past the Officer of the Day in open ranks. The guides, in passing to the opposite flank of the platoons, went outside the lieutenants. This should have been corrected at the time.

At 11:05 the line was formed for battalion drill, which lasted until 12, and consisted of the manual by the numbers, the men counting aloud, some simple ployments and deployments, and skirmish drill.

The errors noticed in the manual consisted principally of unsteadiness of the heads, a disposition to spread the fingers, and of three of the guides who executed "parade rest."

During the battalion drill the guides were slow, very slow, in taking their places, and the company and division commanders neglected to step back from the flank when dressing.

In the skirmish drill the unity of the fours was not preserved, and there was in the left wing altogether too much shouting by the company commanders, and too much confusion in executing the commands.

The commander of Co. D persisted in placing his left hand on his sword against his men, and in this manner moving them into position. He should discontinue this practice at once, and substitute good armory instruction, which will do away with the necessity of his pulling or pushing his men into place.

The hour from 2:05 to 3:05 P. M. was devoted to battalion drill, and some very difficult movements were executed with commendable precision.

The markers showed indecision, and there was altogether too much shouting on the part of the officers to the left or right guides, as the case might be, instructing them when to precede their companies on the line.

The skirmish drill was but little improvement on that of the morning, the alignment being poor and the rule requiring the *odd* numbers to kneel and fire, before even numbered men, not being generally observed. The rallies were not made at a run and the deployments were executed in double time and the positions of company officers and file closers was altogether too close to the skirmish line.

At 3.30 line was formed for review by Mayor Russell, of Cambridge. The formation would have been excellent had it not been for a gap between the 7th and 8th companies. The men were very steady while the reviewing party rode

around the regiment, and the wheeling of the companies into column was well done. At the command march there was an uncertainty about the first step, which was not pleasing, but once fairly in motion the step was very good. The cadence was 112 after the first change of direction but settled to 110 before the reviewing officer was reached. Nearly every man of the field music turned his head to look at the reviewing officer and scanned the features of the spectators. The passage of the Colonel and staff was excellent and the salute was correctly and handsomely given. the alignment of the staff approached perfection, the commanders of the 1st, 3d, 4th and 5th Companies saluted handsomely and at the proper distance, those of the 2d, 6th and 8th Companies were a little hasty, while the captain of the 7th Company marched proudly by with his sword at carry.

Inspection and muster followed at 4.20 and this formation was the poorest of the day, in fact, the only one which should be called bad. Distances were poorly citimated and the right company having halted was obliged to march by the right flank in order to become disengaged from the rear rank of the company next on its left.

Dress parade at 4.50 closed the work of the day.

The attendance as per morning reports was as follows: Field and staff, 11; non.-com. staff, 4; band, 24; Co. A, 39; B, 45; C, 36; D, 37; E, 36; F, 33; G, 45; H, 36; total, 346. At muster the attendance had increased to 379.

This report may appear critical but it is deserved. If this were the first time this year that the regiment had met for drill some of these points might have been overlooked, but with company commanders who have been in the Service for years, with non-commissioned officers who are required to pass a very trying examination before they can receive the warrants, and with the experience the whole organization received in camp during the last week in July, it is a source of regret that it did not make a better showing.

The commanding officer is a conscientious, indefatigable worker, and it is a shame that he has so little assistance in his endeavors to benefit the regiment. There are certainly several officers now holding commissions who should be summoned before the examining board and tested as to their qualifications.

Col. Edward E. Currier, Asst. Insp.-General, was present in his official capacity.

The 8th Regiment, a twelve company organization, Col. F. A. Osgood, held its annual drill at Salem Thursday, Sept. 9. The street parade, which was indulged in previous to the arrival on the common, caused a delay which was serious, as it interfered with the morning's work very materially.

At guard mounting the men looked well, but were very unsteady; as the ceremony was simply an exhibition of proficiency, it was not at all necessary for the lieutenants to waste so much valuable time in the inspection of the pieces. The passage in review was well done by the men, but the lieutenant commanding the first platoon has a very poor idea of distance, judging by the time he saluted; and the lieutenant commanding the second platoon did not know how to salute, but gave instead the salute prescribed for non-commissioned staff officers.

The formation for battalion drill was without exception the poorest we have ever witnessed. Col. Osgood very properly expressed his dissatisfaction and ordered the companies back to their streets, and had line formed a second time with much better results. As it was by this time 11.2[illegible] o'clock, the time which could be devoted to drill before the recall was sounded at 11.55 was too short to allow of any but the very simplest movements, breaking into column of fours and forming line to the left and to the right. Even these were but fairly done, distances not being carefully observed, and none but the first company marched squarely to the wheeling point when changing direction.

Adjutant's call was sounded again at 2.04 P. M., and one of the markers was embellished with a geranium blossom in his button hole. He also wore brown gymnasium slippers. The companies were very slow about getting ready, and when the adjutant and sergeant major marched out to establish the line, the 1st, 2d and 12th Companies were the only ones correctly formed, the 3d, 4th and 5th Companies were in column of fours with arms at carry, and 6th, 7th, 8th, 9th, 10th and 11th Companies were in line. The 10th and 11th Companies were very slow in getting on the line.

The first movement was breaking into column of fours followed by breaking into column of companies. In this movement distances were not good at all, and in changing direction from two to six files in nearly every company went outside the marker. The poor distances in column showed when the companies wheeled into line. Companies break from the right to march to the left, forming line to the left, were good. This was followed by close column on first division, right in front, and in the deployment there was a lamentable tardiness on the part of the left guides.

In close column on sixth division, left in front, to the colonel's credit, it should be said that when he noticed the markers he promptly ordered them to their places.

The movements, all very simple, showed that the regiment was one-sided, as all were on or to the right, and not one was on the left. In forming for muster, the band played standing in its street and did not march on the line with the companies, but when the column of companies was formed it moved to its place in the rear. At dress parade, at 4.45, the adjutant should have dispensed with the services of two markers, and should have required the two employed to mark the line to retire behind the color company at the command guides post, but four markers were used the same as in a formation for battalion drill. The manual showed improvement over that of the morning, but in the manual of the sword the officers need instruction. This was particularly noticeable at parade rest, when every man took the position which seemed to him most comfortable.

The day's work was very light, less than two hours being devoted to drill, and the ceremonies on the field, consisting of guard mount, muster and dress parade. There were no company drills, skirmish drill or firing.

The entire battalion is very slow in what it attempts, and seems to require some one to act as timekeeper, to see that things are done somewhere near the specified time.

The attendance was as follows: Field and Staff, 10; Non-com. staff, 4; band, 24; Co. A, 29; B, 39; C, 29; D, 42; E, 37; F, 42; G, 62; H, 44; I, 52; K, 45; L, 28; M, 46. Total, 533. There were a few additional men reported at muster.

Colonel Horace T. Rockwell, Asst. Inspector-General, was present in his official capacity.

Captain Brackett, of Co. I, had four men employed in shoe factories whose employers declined to allow them to parade. The captain, hearing of this, sent a non-commissioned officer and two men to the factory, marched the men out, and escorted them to their company. The result of this episode is looked for with great interest, as it is determined, in case the men are discharged by their employers, to test the case in the courts.

THE Grand Annual Complimentary Camp Fire of Judson Kilpatrick Post 143, G. A. R., New York, took place at Union Park on Thursday afternoon and evening of this week, and was a most successful occasion. The committees did their work in an energetic manner, and the veterans and their numerous friends, male and female, enjoyed themselves hugely. "Fraternity" was practiced without stint, and hospitality was the order of the occasion.

Military Order of the Loyal Legion.

A meeting of the Minnesota Commandery will be held at the Hotel Ryan, St. Paul, Oct. 6. Applications for membership have been received from Lieutenants Redmond Tully and O. J. Sweet, U. S. A., Fort Snelling; Major Charles H. Whipple and Captain Thomas F. Forbes, U. S. A., Fort Keogh, and others. During the coming year it is expected that papers on subjects pertaining to the war will be read by Col. C. D. Kerr, Gen. John B. Sanborn, Hon. Henry M. Rice, Hon. C. K. Davis, Dr. D. W. Hand, Gen. A. B. Nettleton, Gen. S. P. Jennison and other members.

A commandery of Iowa has been formed with headquarters at Des Moines, and the following have been placed in nomination: Commander, Col. D. B. Henderson; senior vice, Bvt. Maj. H. L. Swords; junior vice, Capt. M. A. Higley; recorder, Maj. Hoyt Sherman; registrar, Maj. Wm. S. Robertson; treasurer, Capt. W. D. Lucas; chancellor, Bvt. Maj. Eli Wilkin; council—Lieut. Col. W. P. Hepburn, Lieut. M. A. McCoid, Lieut. H. H. Rood, Maj. G. B. Hogin and Lieut. A. J. Holmes.

THE MESS.

Some paper originates this: "Great favoritism and corruption are said to exist in the British Ordnance Department; but so far as we are informed the German is the most Krupp service in the world. —*Army and Knavery News.*"

—

"I never saw such a forlorn looking lot of presents." Clarissa (the bride)—"But, mamma, there's some silverware." "Nonsense, child! Every piece is plated—not even triple plated. I never thought much of silver service reform before, but now I think the sooner it is brought about the better."

—

The captain of the British yacht *Galatea* is named Henn. Aha! Henn—hatchway—lay to—lay two; henn-hatchway—lay to—la— It strikes us that there is a pun there somewhere, but hanged if we can twist it into proper shape.—*Drake's Magazine.*

—

Gen. Crook, who is a philosopher as well as a soldier, advances the proposition that "man is more or less savage, according to the certainty with which his food may be obtained." Many besides Crook have noticed that the longer the waiter is in coming the savager is the guest.—*Detroit Free Press.*

—

One or two of the newspaper men who went up into Montana to write up Gaul's version of the battle of Little Big Horn, at which, ten years ago, General Custer and his entire company were killed, were not the best riders in the world, even when in practice, and they had not been on a horse for many years. They did not feel perfectly at home in the saddle. In fact they felt just about as awkward as they looked. The 200 members of the party were obliged to go from Fort Custer and over the battlefield on horses.

The newspaper men were close up to Chief Gaul as the latter rode over the battle-ground and pointed out where the Indians and Custer first located—in fact, narrated his version of the great massacre. The journalistic riders were not alone. They were attended by orderlies from the fort, who followed close behind them.

"I wonder," said one of the newspaper men, "why those soldiers stick so close to us?"

"A courtesy to the press," replied a second.

"Nothing of the kind, gentlemen," remarked an old Army officer. "We were afraid you might fall off, and directed the orderlies to watch closely, so as to prevent such an accident."—*St. Paul Globe.*

—

"Say, Jim," he began, as they shook hands, "how do you stand on this Gettysburg dispute?"

"Well, I've favored Sickles all along."

"So have I. Now, see here. Right here on this paper is Gettysburg."

"Yes."

"Along this road is where Hancock came up."

"I see."

"Howard came up by this road."

"He did."

"Sedgwick and his 6th Corps travelled right along here, and swung into action over there on the second day."

"You just bet they did!"

"Let's see? Sykes must have come up by this road."

"Yes, I'm certain of it."

"Now, then, Jim, where were you?"

"Well, our sutler wagon was way off here, say about 12 miles. Where were you?"

"I was with the wagon train off this way, about 7 miles, Say, we've got this thing down to a dot, and we ought to write a letter to some newspaper."

"'Zactly, Jim, and we can't do it too soon. Its left to us to straighten out this tangle, and we're the men to do it."

(From London Engineering, September 3, 1886.)

MACHINE GUNS IN AMERICA.

THE machine gun is a labor-saving appliance. With but half a dozen attendants it will do the work of a regiment of riflemen, and no matter how the battle rages, it will grind out its leaden discharge with the same regularity as if on parade. The men who work it need not of necessity, with one exception, have any special skill. All that is required of them is to supply the ammunition, and as long as there is one cool head and steady hand to direct the aim, the commander may rely on the gun doing its work free from panic and excitement. Such an arm would, we should have imagined, have commended itself to the American military authorities on its first appearace, for it agrees with the genius of the nation, adapts itself to their habits of thought, and is conspicuously due to American inventors. But military men appear to be alike conservative all over the world, and do not welcome novelties, even in the United States, although they may be recommended by competent authorities. . . .

But although the machine gun has not made much official progress in the United States, yet it has many friends in high positions. Recently Brevet-Colonel Edward B. Williston read a paper before the Military Service Institution, in which he insisted upon its value, not only in regular military operations, but as a weapon in use for civil troubles. It is curious to hear an American seriously discussing means for putting down popular risings. The friends of manhood suffrage anticipated that that would provide an instrument, whereby every grievance would find its expression and remedy, but they now discover that even under a purely democratic government a formidable party has arisen, which puts forward impossible demands and enforces them with the bullet and the bomb. The police in America are armed with revolvers, but all the rowdies are also, and can further obtain repeating rifles without difficulty. It is therefore necessary that the authorities should have a more powerful weapon to compensate for the smallness of their number, and Col. Williston is of opinion that the machine gun is exactly what they require. There can be no doubt that a mob would quail more rapidly before the even-distributed rain of bullets from Gatling than even before grape shot, as the slaughter could be made uniform entirely over the front ranks. But he would be a brave man who would seriously discuss such a means of crushing a street tumult in this country, at least at present, though twenty-four hours of mob law would work a change in public opinion.

The supply of small arm ammunition is one of the difficulties of modern warfare. The breech-loader taxes it to the utmost, and the magazine rifle, which is certain to be adopted in the near future, will increase the rapidity of fire. Already, the regulation supply of cartridges is heavy, being among the French 142 rounds; the Germans, 130; the Austrians, 145; the Italians, 138; the Russians, 180, and the British, 180. These quantities would probably not be sufficient for a general engagement, for among the Turks in 1876-7 the expenditure of ammunition in certain cases reached as high as 570 rounds per man. Colonel Williston favors the idea of the reserve ammunition being made up into packages of twenty rounds, as these can, if required, be put into the pocket or suspended to some part of a man's dress. . . .

Colonel Williston enforced his argument for the creation of a machine gun force by pointing out that in any national emergency the army must be, to a great extent, formed of volunteers, and such men, although more intelligent than the professional soldiers, are always lacking in discipline, and cannot be kept under strict command in the excitement of a battle. It is therefore necessary that the general should have a force on which he can depend at the critical moment, and one which will deliver a crushing fire. It is understood that the moral effect of volleys is far superior to that of indiscriminate shots, but none except the most disciplined troops can be got to act in concert in the matter of shooting. The machine gun, however, can sweep the ground like the hose of a fire engine, and by its steadiness and rapidity, give the effect of a continuous volley. Of course if the enemy are in very open order the actual loss inflicted on them will be small, but this is equally true of all kinds of fire.

The London *Army and Navy Gazette*, of the same week, says:

We understand that the Government of India have fully recognized the immense value of machine guns, and that it is probable that ere long a special committee will be appointed to consider the best means of employing the new arm in Indian warfare. The first principle to lay down clearly in any organization of machine guns is, it seems to us, that the work done by them is infantry work. They are not guns in an artillery sense, but, to quote Lord Charles Beresford's words in his recent lecture, they are "clusters of rifles." Some writers have compared their fire on certain occasions with that of shrapnel, but though this may be the case, they should be a distinct arm, and separately organized for use with any of the four other arms. It is worth while to give the views of a well-known officer at the India Office—views which are supported by the best military authorities: "Had there been a couple of 10-barrel Nordenfeldt guns with the artillery at Maiwand, the guns would never have been lost, the cavalry would have been kept so many hours inactive under a heavy fire, and the day would have been saved." Very much follows of great interest. We quote the following paragraph, for it is prophetic: "It seems to me that these guns are bound to be an all-important factor in deciding the result of the next big European war. And the nation which employs them and thoroughly understands their technical working and organization will assuredly come off victor. The result will be, if possible, more electrical and startling than the defeat of the Austrians by the Prussians in 1866—a fact which was entirely due to the superiority of an indifferent breech-loader over a good muzzle-loading rifle."

THE MILFORD HAVEN MANŒUVRES.

(Condensed from the Army and Navy Gazette.)

THE operations consisted in the main of an attempt by an enemy's fleet, comprising armorclads, gun and torpedo-boats, with materials for countermining, to clear and pass through a channel defended as it would be actually in time of war. The channel marked out for the purpose is 3,000 yards in length and 700 yards in width; all other portions of the passage-way to Pembroke being considered as land, or impassable by the enemy. This channel is defined on the south side by light-ships, and on the north side by buoys and the Stack Rock Island. The obstructions consisted of a boom formed of 12-in. balks of timber, laid end-on to the entrance, secured to another by three equidistant chains, and moored in such a position as to form an angle towards the enemy. Before and behind the boom lay a mine field, containing electro contact, observation, boat, and discovery mines. The mine field and boom defence was covered by the fire of the Stack Rock Fort in the centre of the channel, mounting 21 10-in. M. L. and five 9-in. M. L. guns, by the South Hook batteries on the north shore, with 15 7-in. M. L. and five 9-in. M. L. guns, and on the south side by masked batteries on Angle Ridge and by infantry posted to represent quick firing guns. The military force engaged in the defence consisted of one field battery and a detachment of the 2d Batn. Royal North Lancashire Regt.; one garrison battery and a detachment of the Royal Engineer Submarine Mining Corps; one garrison battery and a detachment of the Royal North Lancashire Regt.; a detachment of the Volunteer Submarine Miners and a signalling party of 24 non-commissioned officers and men distributed at the different forts. In addition to the military forces there were also attached to the defence a naval flotilla: Three gunboats, the *Avon*, *Tay* and *Forester*, manned by detachments of the Naval Artillery Volunteers; six second-class torpedo-boats, and six steam pinnaces. These picket-boats represent steamers with a speed of 15 knots, infantry with rifles doing duty as machine-guns. The enemy's force was represented by the *Minotaur*, *Agincourt*, *Sultan*, *Monarch* and *Iron Duke*, ironclads; *Hecla*, torpedo-depot ship; *Medina*, *Medway*, *Spey* and *Tees*, gunboats; four first-class torpedo-boats, several smaller torpedo-boats, the steam-pinnaces and rowing-boats of the fleet.

About 8 Tuesday evening the defence boats started out for the fleet; their attack was repulsed by a heavy fire from the *Iron Duke*, *Sultan*, and *Monarch*, and they were promptly ruled out of action,

About 9 o'clock a second detachment returned to the attack, when, in an engagement with the enemy's boats, they were again worsted, and the fleet followed it up by weighing and engaging the forts at long bowls. Under cover of the smoke from the big ships and gunboats, aided by the return fire from the forts, and from smoke rafts, a swarm of small craft of all descriptions were at work upon the mine-field. Nearly all the defending boats were quickly overpowered by their numerous enemies, and although a small party of them delivered a counter-attack upon the ships it was of no effect. For a time the enemy had it all their own way. The enemy had succeeded in fixing gun-cotton charges to the boom, the explosion of which, however, only partially broke the obstruction. The light on Stack Fort now went out altogether, and those on South Hook seemed to be in difficulties. The gunners were blinded, also, by the electric beams thrown upon them from the ships. Frequently it was impossible to make out what was going on, except that the enemy were steadily making progress, and that the outer mine-field was no longer a defence. A little after 1, the *Seahorse* tug, piloted by a steam pinnace, under heavy fire, went with a rush through the entanglements, baulks of timber, and chains of the boom as if they had been ropeyarns, and having cleared the passage, she was only ruled out of action a few maments later, when she passed over an observation mine. Several launches were seen in difficulties at the other parts of the boom, which they had attempted to jump, and some which had gone over successfully were supposed to have been blown up subsequently by observation mines. The channel was now clear, and the *Iron Duke* steamed up to the Stack Rock, supposed to have been silenced by her fire, and took up a position in readiness for the next night's work.

On the part of the fleet there was no doubt that, given a fairly dark night and calm weather, an entrance would be effected through all the engineers' obstructions. All the boats, about 60 in number, besides the countering launches and several dummies, were in position and ready to go up the harbor soon after dusk; and after the torpedo flotilla had been sent on to crush the gunboats, the gunboats and steam-launches towing the countermining barges and smaller boats started, under cover of the smoke, to carry out the programme. Sweeping and creeping operations first took place for wires of the observation mines, then the countermines were dropped and exploded, and then several charges of gun-cotton were attached to the boom, from a gig towed by one of the steam launches, which afterwards drew the fire of the forts from the smaller boat. This plan was carried out successfully several times, the steamboats acting as "forlorn-hopes." Every detail of the attack was successful, and soon after 1 o'clock on Wednesday morning, the *Iron Duke*, flying the Admiral's flag, was anchored near the remains of the broken boom, and under the silenced guns of Stack Rock. A few trifling accidents are reported, but nothing of any consequence; even a torpedo-boat which had been rammed was ready again to resume hostilities.

Wednesday morning an inspection of the mine-field showed the extent of damage done by the enemy to have been even greater than was anticipated. One line of countermines had been laid right up to the boom and another partly, so that ample space had been cleared for the ships to steam up the channel. The boom from which so much was expected was a great failure, and the naval men simply laughed at most of the obstructions relied upon by the Royal Engineers.

About 9 P. M. the action was resumed, the ships which had moored higher up the channel opening fire, followed by the gunboats, whose electric lights were thrown on to the batteries at South Hook and Angle Ridge to dazzle the eyes of the gunners. The light on the Stack Rock was again thrown across the mine-field and shattered boom, although the guns of this fort were supposed to have been silenced. The same tactics were employed by the Admiral, and under the protecting shield of smoke the sweeping, creeping, and countermining craft soon got to work, and in spite of an intermittent fire from South Hook and Angle Ridge, succeeded in clearing a channel sufficiently wide for the ironclads, the destructive area of the countermines being 90 ft. in each direction, and one line at least being laid the whole length of the passage. The clearing of the channel occupied about two hours, and then the operations came to an end.

On Thursday the fleet steamed up to Pembroke, with the exception of the *Iron Duke*, which was taken once or twice over the passage to test some observation mines. The results were not entirely satisfactory, and the experiment will probably be repeated at night.

It is evident that no defence is adequate unless it includes a very much stronger and more numerous naval flotilla. The advantage of placing the electric lights in the gunboats is also obvious, and the lesson learnt of dazzling the enemy by their beams will not be thrown away. The value of smoke impervious to the electric rays has been made apparent as a cover for operations of the nature carried out by the enemy. It would also seem likely that not one but a series of mine-fields, each protected by booms and gun-fire, is not only advisable, but also necessary. That the victory should lay with the attacking squadron is not altogether to be regretted if it serves as a further incentive to the War Office authorities to perfect their method of defending the harbors of the country.

On Monday, Aug. 16th, the fleet could not attack, because they were unable to fit out their countermining flotilla. If they cannot do this in the comparative shelter of a harbor, difficult as no doubt it was rendered by the wind blowing right in and a nasty sea, what do they expect to do when blockading outside? It appears certain that they must wait for favorable weather; hence a small mine defence may be enabled to delay a powerful fleet for a considerable time—a most important result in these days of short wars. The same day it was intended that the defence flotilla of torpedo-boats should make an attack on the fleet. The second-class boats, 85 feet long, seem to have been unable in consequence of the weather to do this, pointing to the necessity for even larger boats for harbor defence. While, as they were to be met by the 120-feet boats with the fleet, it is evident that their number should have been quadrupled. The attack was well conceived and well carried out on both nights; boats were sent in ahead to draw the electric light and fire of the defence, and in their wake the creeping, sweeping, and countermining boats did their work. But is it not improbable that boat after boat could be induced to go out like this, solely for the purpose of being destroyed? Nor must it be forgotten that in all affairs of this nature the submarine mining defence loses its strongest point—viz., moral effect. On the other hand, it was laid down by the authorities that all water outside the mine-field was to be considered as land, thus cutting off the enemy from attempting what they would certainly have a try at in real war—viz., severing the connecting wires of the observation lines, or destroying the stations.

The following deductions are to be drawn: That countermining is a very difficult operation, the success of which is very doubtful and almost impossible under a well-directed and ably sustained artillery and machine-gun fire. The smallest mine defence, if distributed over a considerable area and at irregular distances, may considerably delay a powerful fleet. Guard boats in considerable numbers are essential to the proper defence of a mine field. They must be powerful, speedy, well armed with spar torpedoes and machine guns, fitted with steel projecting rams for sinking the enemy's boats, and not allowed to waste themselves in futile attacks on ships. Torpedo boats have their special purpose in a defence, but it is principally harassing the enemy and delaying the preparations for the attack; they must, therefore, be capable of going outside the harbor in all but the worst weather. Electric lights should be numerous, powerful, and on both shores, while they require to be placed as low down as possible. It is doubtful if they would live long in action at fixed points. They certainly could not do so at short ranges. The mine field should be scattered, and a few groups be ready to be laid at the shortest notice. The object of the mines is to cause delay and prevent the enemy's ships rushing the forts until a friendly fleet can take them. The contention that torpedo boats are a better defence than mines meets with no support from the results of these operations; and, after all, the cost of one torpedo boat will go a great way towards providing mines. We have already referred to the valuable use made of smoke on this occasion. A suggestion made in *St. James's Gazette* that by firing an anchor with an endless rope attached into the mine field and so drawing smoke rafts up to the scene of action, cover might be provided for countermining operations, seems feasible. Some experiment might be made in this direction.

ENGLAND VERSUS RUSSIA.

As in the volcanic regions of the earth some destructive outbreak of subterranean forces is heralded by increasing activity in the primary volcano, and is accompanied by smoke, grumblings and quakings of the ground, so just now we have symptoms of uneasiness on the part of the Russian mountain. Accounts reach us from all parts of the world of the doings of Russia, which indicate that the forces which are always acting within her immeuse frame are impelling her into action. First we have the Batoum incident, next the threatened occupation of Port Lazareff in Corea, then there is the ever-present raw of the Anglo-Russian Afghan Boundary Commission. We hear, too, that Russia has been throwing out hints that Trebizond and Erzeroum are useless to Turkey, and on the other hand would nicely round off the Russian boundary in Asia Minor, and that she would be very happy to accept them in lieu of the Turkish war indemnity. Then we have the warlike speeches of the Czar at Sebastopol, the increase of the Black Sea Fleet, and the notice of a new smokeless gunpowder, the composition of which is most secret, and which is to effect wonders. All

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.
For sale by JOHN ROCKWELL,
20 Nassau St., New York.

MEXICAN RAILWAYS.

THE Mexican Government has granted a concession for a line to join Durango to the Mexican Central system. A contract has been signed by Governor Teraw, of Oaxaca, for the construction of a line from Tehuacan to Oaxaca. The State Government of Oaxaca is authorized to build the line on its own account, or to organize one or more companies to build it, and to work it for a term of 99 years. Permission is also given to extend the line from Tehuacan to Puebla, or to any other point on the Mexican Railway, which may be considered most advisable. Work must be begun within five years, and the line must be completed within twelve years. Certain Mexican capitalists propose to build a line about 70 miles in length to connect the Mexican Central Railway with iron mines around Zimapan.

FOREIGN ITEMS.

THE anniversary of the battle of Sedan was observed as usual all over Germany at the military centres.

THE British Admiralty have directed Nos. 68 and 69, first-class torpedo vessels, recently built for the government by Messrs. Yarrow and Co., to be completed for active service and placed in the first division of the Medway Steam Reserve.

THE Emperor William, owing to exhaustion, was unable to attend the German military manœuvres at Strasburg Sept. 15.

THE *République Francaise* publishes a telegram from London which states that "England meditates a grand coup d'etat, and will probably proclaim Egypt a British possession. She will, however," adds the *République Francaise*, "do nothing until she has a sufficient force at Alexandria."

THE French authorities at Havre have seized 11 English fishing boats for infringing the international maritime and fisheries laws in the channel. *Le Paris* says the boats were seized in reprisal for the recent arrest by the British authorities of French fishing boats off Folkestone, on the other side of the channel.

A LONDON correspondent says: "I talked the other day with an intelligent middle-class gentleman on the royal family. He said: 'When the Queen dies, we will have the Prince of Wales for King, but after him there will be no Kings nor Queens for Old England. We are on the eve of a great revolution that will come quietly and in order and surprise no one.'"

A SERIOUS explosion took place recently at the cartridge magazine at the rifle butts, Perrivale, near Ealing, England. Soon after the sergeant-major arrived in the morning, he discovered that the shed in which some 64,000 cartridges were stored was on fire. He signalled the marksman and endeavored to put the fire out with pails of water, but the shed shortly afterwards blew up. The report was heard for miles around. Neither of the men was hurt, although close at hand, and large pieces of iron sheeting were carried over 200 yards.

IN order to test the value of india-rubber and asbestos fibre as a means of automatically plugging shot holes, the *Resistance* has been fired at by quick firing guns discharging shell. The results appear to have been unsatisfactory. The *Resistance* is next to be experimented upon with torpedoes.

THE English War Office have decided to conduct a series of experiments connected with the use of balloons, more especially with reference to their utility in observing the result of the fire of the artillery on the enemy's position or forces. The Royal Engineers are in charge of the experiments.

LIEUT.-COLONEL HOPE has put the Secretary of State for War in possession of his sworn statement, in support of four definite charges against the English Ordnance Department, and Mr. Smith will, it is to be hoped, without delay, be able to arrive at a conclusion as to whether a *prima facie* case is made out.

IN Parliament Col. Hughes-Hallett asked the Surveyor-General of the Ordnance whether it was true that at the fourth or fifth round fired from the new 68-ton gun at the proof butts, at Woolwich, the liner of the gun not only receded from its position, but moved round to such a degree that the groove of the liner came opposite to and coincided with the projection in the gun, thereby rendering the gun unserviceable. Mr. Northcote said the liner was extended slightly towards the breech, and twisted slightly round, but not so that the groove came opposite to the projections in the gun. The firing was continued until the proof was completed. There was no possibility of the gun sustaining any injury from such a cause, and the gun is perfectly serviceable. Liners always shift a little.

CRAB ORCHARD WATER CO., Prop'rs. SIMON N. JONES, Manager, Louisville, Ky.

ELABORATE plans for the defence of British Columbia are being rapidly prepared by the English Royal Engineers, who have gone to the locality to survey the positions. It is expected that the militia forces of the Dominion will always supply a detachment, to assist in manning the fortifications when completed.

THE *Army and Navy Gazette* objects to the billeting-off and ticketing of seats in chapel to distinctive ranks of officers and their families. There can be no reason why officers and their wives should not perform their devotions side by side with those of slightly inferior relative rank. They mix together at "receptions" or "at homes," why not at divine worship, like other communities ashore?

EMPEROR FRANCIS JOSEPH on Sept. 13 attended a banquet given by the officers of the army participating in the manœuvres at the camp at Lubien, and proposed the health of the Czar, which was responded to with cheers, which the band re-echoed by playing the Russian anthem. News of this reaching the Czar at Brest-Litovsk, in Poland, he at once telegraphed his thanks, and the telegram reached the Austrian Emperor during the night.

WE learn from the *Madras Mail* that a small detachment of about twenty men, forming an escort to Colonels Street and Strover, of the Burmah Commission, were attacked by 150 Upper Burmans and Shans, who advanced upon them with considerable determination, probably supposing that being so superior in numbers there would be no difficulty in overwhelming this small detachment. Very slight cover was available in the open spot where the non-commissioned officer in command had to meet this attack, but he placed his men judiciously, and they coolly awaited the onset of the enemy, who, notwithstanding volley after volley being poured into them, still pressed on, and not until the men of the 5th fixed bayonets and advanced to the charge, did they retire, leaving eleven dead bodies on the ground, and it was subsequently ascertained that their loss in killed and wounded amounted altogether to about fifty or sixty. The commander-in-chief has promoted the non-commissioned officer to the rank of native officer, over the heads of many of his senior non-commissioned officers.—*Broad Arrow.*

IT is stated that M. Goubet, a French engineer, has invented a new type of boat which is destined to revolutionize naval tactics. This *bateau-poisson*, as it is called, is designed to place torpedoes under the very keels of ships.

THE *Popolo Romano* reports that in consequence of a report made by Gen. Boudet, important reforms relating to the service of military aerostatics will be submitted for approval to the Minister of War in France. Among the reforms already decided upon, at least in principle, will be the independence of the Service of Aerostatics, which at present is under the Technique Section of Engineers and the Commission of Military Telegraphs. A decree is in preparation at the Ministry of War by which the well-known inventor, Comdr. Renard, will be nominated Chief of the Aerostatic Service, under the Chief of the Headquarter Staff. The eight parks of aerostatics, which will be established at Epinal, Toul, Verdun and Belfort, and in the four schools of Engineers of Montpellier, Grenoble, Arras and Versailles, will be succursals of the general depot. All the corps will be shortly provided with aerostatic material. The total expense for these new measures is about three million francs.

THE *Rattlesnake*, the first of the newly-designed torpedo gun-vessels of the *Grasshopper* type, built for the English Royal Navy by Messrs Laird, of Birkenhead, to be ready for delivery to the naval authorities early in this month, is intended to be attached to a squadron as a protection against hostile torpedo boats. She is fitted with engines of 2,700 horse-power, and it is estimated that she will possess a steam power of 19 knots per hour on a rough sea. She will have a powerful armament, consisting of one heavy breech-loading gun, four Nordenfeldt guns, and some quick-firing shell guns. She will also be fitted with four tubes for discharging Whitehead torpedoes. Three vessels of this kind are in course of construction in the government dockyards, viz., the *Grasshopper* at Sheerness, and the *Spider* and *Sandfly* at Devonport.

R. W. TANSILL & Co., Chicago, are now making especially for the Officers of the Army and Navy a new and very fine Havana hand-made cigar, known as "TANSILL'S REINA." They are put up in beautiful packages of 25 cigars, each cigar banded. They come in three sizes, 4¼, 4½, and 4¾ inches, while their moderate cost, viz. $65, $70, and $75 per thousand brings them within the reach of the entire Service.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied; sent by mail 10c. extra or C. O. D.

UNITED STATES ENGINEER OFFICE,
P. O. BOX 5346, ROOM 124, POST OFFICE BUILDING, BOSTON, Mass., Sept. 2, 1886.

SEALED PROPOSALS, in triplicate, will be received at this office until 12 o'clock noon, Wednesday, October 13, 1886, for the dredging of 30,000 cubic yards of material and the removal of "Harbor Rocks," by blasting, from the harbor at Scituate, Mass.

For specifications, blank forms, and all information, apply to the undersigned.

G. L. GILLESPIE,
Major of Engineers, Bvt. Lt. Col., U. S. A.

NOTICE TO NAVAL ARCHITECTS AND OTHERS,

Concerning designs of steel armored vessels for the United States Navy.

The United States Navy Department, having in view the construction, in pursuance of the authority conferred by Act of Congress approved August 3, 1886, of two armored vessels of different types, of about 6,000 tons displacement each, invites the submission of designs from naval or marine architects, from engineers or mechanics of established reputation, all reputable manufacturers of vessels, steam engines, boilers and ordnance; and especially from all naval constructors, steam engineers, and ordnance officers of the Navy having experience in such work.

One of the proposed vessels is to be an armored cruiser, and the other as powerful an armored battle-ship as can be obtained on the above displacement.

The requirements of the Department are laid down in a circular which will be furnished to those interested, on application to the Department, or to Commander F. E. Chadwick, U. S. N., Naval Attaché U. S. Legation, London, England, or to Lieutenant B. H. Buckingham, U. S. N., Naval Attaché U. S. Legation, Paris, France.

The designs submitted will be carefully examined, and one of each type will be selected for purchase, provided it can be obtained at the price mentioned in the Circular and otherwise conforms to its terms.

After purchase, the Department will be at liberty to make such modifications in the design as it may desire. It will then order working drawings. These must embody the modifications, and must conform in price and otherwise to the terms of the Circular.

Designers are at liberty to offer any design deemed by them most desirable, whether conforming to the data prepared by the Department or not. The designs must, however, conform to the conditions named in the Act of Congress above referred to, or they will not be considered. These are as follows:

"Two sea-going double-bottomed, armored vessels of about 6,000 tons displacement, designed for a speed of at least sixteen knots an hour, with engines having all necessary appliances for working under forced draught, to have a complete torpedo outfit, and be armed in the most effective manner."

Designs not accepted will be returned, and no copies taken or retained by the Department. WILLIAM C. WHITNEY,
Secretary of the Navy.

NAVY DEPARTMENT,
WASHINGTON, D. C., August 21, 1886.

Proposals For Quartermaster's Stores.

NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, HOUSTON ST. Cor. Greene, New York City, Aug. 28, 1886.

SEALED PROPOSALS in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock A. M., Sept. 20th, 1886, at which time and place they will be opened in the presence of bidders, for furnishing and delivering at this depot, miscellaneous Quartermaster's Stores, stove parts, tools, rowboat, wheelbarrows, etc., etc., specified on schedule to be seen and had at this office.

The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the Department.

A preference will be given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast to the extent of the consumption required by the public service there.

Blanks and information as to bidding, etc., will be furnished by this office on application.

Envelopes containing proposals should be marked "Proposals for Quartermaster's Stores, to be opened Sept. 20, 1886," and be addressed to the undersigned.

HENRY C. HODGES,
Lieut.-Colonel and Deputy Quartermaster-General, U. S. A., Depot Quartermaster.

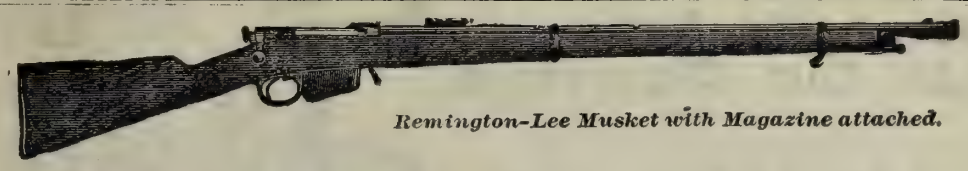
REVOLVING CANNON,



SINGLE BARREL

RAPID FIRING GUNS.

Mountain and Yacht Guns, Ammunition, &c.

Detachable Magazine, charged.

Remington-Lee Musket with Magazine attached.

The Remington-Lee Detachable Magazine Rifle.

Recommended by the U. S. Magazine Arms Board,

First in Order of Merit for Trial in the Field,

AS A SERVICE ARM FOR THE U. S. ARMY.

A single Breech Loader, that can be instantaneously changed into a perfectly safe Magazine Arm, giving an unequalled rapidity of fire.
Smaller number of component parts than any other Arm ever made. Every part simple and strong.
Magazine may be attached or detached in one second, and the Breech System dismounted or assembled in ten seconds.

The Rifle weighs 8¼ lbs. without bayonet, and can be used as a Sporting Arm.

The possibility of a premature discharge through the bullet of one cartridge coming in contact with the primer of another, from the shock of continuous firing, the simple performance of ordering arms, or the effects of a long march—incidents of danger inseparable from Repeating Arms that carry their cartridges in Tubular Magazines under the barrel or in the butt-stock—is absolutely prevented; the position of the cartridges in the Lee detachable magazine not only assuring safety against explosion by impingement but against the deformation of the projectile by "upsetting."

RELATIVE RECORDS of the three arms recommended in order of merit by the late U. S. Magazine Arms Board:

	Remington-Lee Magazine Rifle.	*Chaffee-Reece.*	*Hotchkiss.*
Two minutes' firing as repeater with accuracy	68 shots, 41 hits.	38 shots, 25 hits.	31 shots, 14 hits.
Two minutes' firing as single loader	46 shots, 31 hits.	41 shots, 15 hits.	45 shots, 21 hits.

THE LEE MAGAZINE RIFLE is the only Military Repeating Arm which has demonstrated its superiority in RAPIDITY with ACCURACY as a REPEATER over its execution as a SINGLE LOADER.

Descriptive pamphlets in English, Spanish, and French sent on application.

Present capacity of production 400 stand per day.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 9. WHOLE NUMBER 1205. | NEW YORK, SATURDAY, SEPTEMBER 25, 1886. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

SEVERAL of the new recruiting detail arrived in New York this week and will formally report to the Superintendent on Friday next, Oct. 1.

THE "Hilton Trophy" passed this week out of the possession of the Division of the Atlantic into that of the State of Massachusetts, as represented by the winning rifle team.

ORDERS have been issued from the Navy Department for the necessary repairs to the *Alert*, now at the Mare Island yard, Cal., and instructions given to have her completed within sixty days. It will require about $20,000 to put her in good condition for sea again.

A SMALL revolution was attempted in Madrid on the evening of September 20 by some of the Spanish troops stationed in that city. It amounted to little more than a mutiny and was speedily quelled, not, however, before several officers and soldiers had been killed. All of the officers implicated have been condemned to death.

THE annual reports of Division and Department Commanders and others began to arrive in Washington this week and as soon as considered by the Secretary of War will be given out for publication. Our columns, from week to week, keep close up with current events of interest to the Services, but we hope to reproduce in due season the chief features of the reports.

WE stated that the Army and Navy General Hospital at Hot Springs will be open for patients in October. This was the intention, but unfortunately the opening will be delayed until December. The appropriation for some necessary work in furnishing the buildings, such as mantels and grates, bath tubs, heating bath house, etc., were not passed until the very last days of the session of Congress, and the contracts are not made for the above work yet, and there are so many delays about all Government work, in advertising for thirty days and referring proposals to Washington, that delay is unavoidable.

THE new cruiser *Atlanta* seems to have been launched under a lucky star. From the start her record has been satisfactory; and from the report of the run from New York to Newport, whence she has gone for compass adjustment, it appears that fortune has not deserted her. During her run through Long Island she averaged a fair speed, and the engines performed satisfactorily. Should the *Atlanta* find herself to the southward of Cape Hatteras during the present trip, she might encounter all the "weather" requisite for a trial trip at sea, especially if she should encounter the earthquake which the alarmist WIGGINGS tells us is to result from the shifting of the centre of gravity of the earth on the 29th of September, creating great disturbance along a belt running from Fernandina, Fla., and thence to Galveston and Houston, Texas.

THE present *Boston* is the fourth of the name borne on the Navy List of the United States, omitting from the enumeration the vessel of this name which was sunk on Lake Champlain Oct. 12, 1776. The first ship to bear this name was built in Boston, Mass., in 1776. She mounted twenty-four guns and was captured at Charleston, S. C., May 12, 1780, by the English squadron when that city surrendered. At the time she was commanded by Capt. SAMUEL TUCKER, appointed March 15, 1777. The second *Boston* was a ship of twenty-eight guns, 250 men, and was of 700 tons burthen. Like the first, she, too, was built at Boston in 1799. She carried a Minister to France, and afterwards made a cruise in the Mediterranean. She was burned at Washington, D. C., by the British in 1814. The third *Boston* was also constructed in the city whose name she bore, in 1825. This one was also a ship of 700 tons, and carried a battery of eighteen guns. She was lost at Eletheura, W. I., Nov. 15, 1846.

THE San Francisco *Report* expresses surprise to find a veteran General like HOWARD complaining that General MILES ignores him. "When General DAVIS," says the *Report*, "virtually ignored General SCHOFIELD, in the conduct and conclusion of the Modoc war, SCHOFIELD was wise enough to drop the subject, and HOWARD would do well to follow his predecessor's example. Division Commanders, stationed at San Francisco, cannot direct Indian campaigns upon the Oregon or Arizona frontier." "It is interesting," it adds, "to note that MILES'S treatment of the Apaches is quite similar to DAVIS'S treatment of the Modocs. The Modoc chiefs were deported to Fort Klamath, where they were tried by a military commission (and executed.) The Apaches are hustled off to Florida, while GERONIMO and his gang are taken to some place best known to MILES and the War Department, where they, no doubt, will also be tried by a commission." We have been aware for some time that the ranking officers of our Army found occasion for dissatisfaction in the disregard by the War Department of the usual routine in the transmission of orders. These have been sent direct from Washington to Department Commanders, and even to post commanders, and Division headquarters, in some cases, left in ignorance of the fact until the information came from subordinates. This is naturally calculated to disturb the equanimity of a division commander, however much it may be supposed to promote the efficiency of the Army.

ALTHOUGH the Act for the increase of the Navy came upon the Department in midsummer, when most of the officials and officers were off on a vacation, considerable work has been done towards carrying out its provisions. The plans and specifications for one of the vessels (*Baltimore*) therein provided for have already been matured and bids invited for its construction. Advertisements and circulars have been issued inviting plans for the two armored cruisers, and bids have been invited from iron and steel manufacturers for furnishing the heavy gun forgings and armor plates for all the vessels. A board, consisting of Naval Constructors S. H. POOK, W. L. MINTONYE and W. H. VARNEY and Asst. Naval Constructor LEWIS NIXON, has also been appointed, and is now at work examining into the condition of the double-turreted monitors, with a view to their completion, as directed in the Act. Another board, consisting of Captains HOWELL and BRADFORD and Commander GOODRICH, is at work arranging a contract with the Pneumatic Dynamite Gun Company for the dynamite gun cruiser authorized at a cost of $350,000; the Ordnance Bureau is maturing plans for the first-class torpedo boat authorized at a cost not to exceed $100,000, and a board, the detail of which has previously been published, has been appointed to conduct the experiments with torpedoes, for which purpose $75,000 was provided. Thus it will be seen that a step, even if only initial, has been taken to carry out every provision of the bill. The bulk of the work is, of course, yet to be done, and the Department will find it hard struggling to keep up with the work this autumn, especially since the annual reports, estimates, etc., are yet to be looked after.

CONSIDERING the subject of our constantly increasing National surplus, about which the politicians, the papers and the politico economists are troubling themselves, the *Real Estate Record* says: "But why not take the bull by the horns and get rid of our surplus by spending it? Why not build a navy, encourage a merchant marine, fortify our defenceless cities, and make generous expenditures for our harbors and waterways? We could spend $500,000,000 to the immense advantage of the country. With that amount of money our sea coast could be made unassailable by means of fortifications, floating batteries and torpedo boats. Our Navy could be reconstructed. We do not need ships of war for aggressive purposes, but we ought to encourage the building of splendid American steamships and keep them plying between our own and foreign ports. Then we could make a ship canal of the Erie, construct the Hennepin Canal and so join the Mississippi to the Lakes and New York; $500,000,000 thus spent would be worth $5,000,000,000 in giving us a sense of security against foreign aggression, as well as in developing our internal and external commerce. The party who will favor these views, which will realize the imperial destiny of this nation is the one which will rule it for the next half century. But the contemptible cheese-paring and candle end saving of the HOLMANS, RANDALLS and CARLISLES will disgust the country and discredit the party which they profess to lead."

AMERICAN ship builders do not seem to receive the invitation to bid for the construction of the new vessels of war, with that degree of enthusiasm which formerly showed itself when opportunity was afforded for a large government contract. A fortnight has elapsed since the advertisement was issued, and only one firm—the Union Ironworks of San Francisco—has thus far made application to examine the specifications and plans prepared for the use of bidders. When bids were invited for the construction of the *Chicago* and other vessels three years ago, the ship builders were on hand some time before the advertisements were issued, and began overhauling the plans and forming their estimates the moment they were open for inspection. The officials of the Navy Department are not a little surprised at the backwardness of the builders this time, especially since the time for submitting bids is very short, and they are beginning to feel a little suspicious of a boycott. Indeed, there are some who confidently assert that not a single bid will be submitted. They have several theories to explain this. In the first place they say there is no firm prepared to complete the vessels in the time officially advertised, and that builders are consequently unwilling to risk the forfeit of the large "penal sum" required to be deposited. Mr. ROACH'S late experience with the Department has certainly not been such as to encourage ship builders to compete with him for its favors, especially as considerable trouble would likely be experienced in getting bondsmen.

PERSONAL ITEMS.

LIEUTENANT C. F. ROE, 2d U.S. Cav., is at Highland Falls, N. Y.

GENERAL R. B. AYRES, U. S. A., is expected to rejoin at St. Augustine, Fla., early in October.

LIETUENANT C. A. L. TOTTEN, 4th U. S. Art., is on a short visit to Garden City, Long Island, N. Y.

GENERAL J. C. TIDBALL, U. S. A., left Fort Monroe, Va., this week, to be absent until about Sept. 30.

LIEUTENANT ALBERT TODD, 1st U. S. Art., lately visiting in Boston, is on his way to Vancouver Barracks.

ADJUTANT J. D. C. HOSKINS, 3d U. S. Artillery, rejoined at Washington Barracks on Wednesday from a short leave.

LIEUTENANT C. R. EDWARDS, 23d U. S. Infantry, on sick leave from Fort Porter, N. Y., is visiting at Cleveland, O.

LIEUTENANT H. C. NEWCOMER, Corps of Engineers, U. S. A., will leave Mt. Morris, Ill., next week, for Willet's Point.

CAPTAIN R. G. SHAW, 1st U. S. Artillery, has changed station from Alcatraz Island to the Presidio of San Francisco.

LIEUTENANT C. A. WILLIAMS, regimental quartermaster, 21st U. S. Infantry, and family, have been visiting friends at Minneapolis.

LIEUTENANT LEROY E. SEBREE, Signal Corps, U. S. A., arrived in Washington from Texas this week, and came to New York on Tuesday.

CAPTAIN E. VAN A. ANDRUSS, 1st U. S. Artillery, under recent orders, takes his battery from Fort Winfield Scott to Alcatraz Island, Cal.

MAJOR W. F. TUCKER, Paymaster, U. S. A., has returned to Washington from Chicago, whither he went to attend the funeral of his father.

CAPTAIN A. C. MARKLEY, 24th U. S. Infantry, of Fort Sill, and Lieut. J. G. Bellinger, 5th Cavalry, of Fort Riley, will spend the winter abroad.

LIEUTENANT CHAS. H. HEYL, 23d U. S. Infantry, of Fort Wayne, Mich., arrived in New York this week to enter upon a tour of recruiting service.

CAPTAIN G. W. H. STOUCH, 3d Infantry, who left New York last week with recruits for the West, will shortly join his company at Fort Shaw, Montana.

LIEUTENANT R. W. YOUNG, 5th U. S. Artillery, left New York early this week for Salt Lake City, to join Light Battery D (Rawles) at Fort Douglas, Utah.

MRS. MILES, wife of General N. A. Miles, U. S. A., was expected in Washington this week from Massachusetts. The General may come East in November.

MAJOR S. S. SUMNER, 8th Cavalry, and Mrs. Sumner, have arrived in the East, the Major being under orders to report in a few days for a tour on recruiting service.

WILLIAM POPE, the negro who shot Gen. Augur, U. S. A., on the night of August 15 last, has been held for the Grand Jury in $1,000 bail for assault with intent to kill.

LIEUTENANT C. H. COCHRAN, who is to be married, Sept. 29, to Miss Granger, at Zanesville, O., was a spectator last week at the rifle contest at Fort Leavenworth.

LIEUTENANT R. J. C. IRVINE, 11th Infantry, lately appointed regimental adjutant by Colonel Dodge, is an efficient officer of varied experience. He was appointed in 1879.

LIEUTENANT E. T. C. RICHMOND, 2d U. S. Artillery, at present on leave from Little Rock Barracks, will join at St. Francis Barracks, St. Augustine, early in October.

CAPTAIN T. M. K. SMITH, 23d U. S. Infantry, has returned with his company to Fort Porter, N. Y., from a pleasant tour at Fort Niagara during the rifle competitions.

LIEUTENANT E. C. KNOWER, 3d Artillery, in command of Battery I, went from Fort McHenry, Md., to Washington Barracks, D. C., early in the week, for a tour of rifle practice.

GENERAL NELSON A. MILES, U. S. A., has highly complimented Major Merritt Barber, Asst. Adjt.-Gen., for his admirable management of affairs at the Department Headquarters at Whipple Barracks, during the past eight months when the Commanding General was absent in the field.

GENERAL C. B. COMSTOCK, U. S. A., presided over a meeting of the Mississippi River Commission held in New York a few days ago. Several delegations from the South were present and gave their views as to the disposition of the money appropriated by Congress for improvements in the river.

"IT is right and proper," says the Philadelphia *Press*, "to applaud and honor Gen. Miles for his excellent work in capturing Geronimo and the murderous Apaches. On the other hand, it would be unjust and ungrateful not to admit that for much of the information and experience which made his campaign successful Gen. Miles is indebted to Gen. Crook."

LIEUTENANT E. L. ZALINSKI, 5th U. S. Artillery, has won great praise for his management as executive officer at Creedmoor during the recent fall meeting. One paper says: "It has been agreed that there has been less 'kicking' and fewer complaints than in many a year past. Lieut. Zalinski has a quiet way of deciding disputes which has given general satisfaction."

LIEUTENANT W. H. JOHNSTON, U. S. A., one of the judges at the recent competitive drill at Jacksonville, Ill., is reported as saying, as he passed through St. Louis, that no award had been made yet, for the reason that the judges received instructions from the commandant to place their marks in a sealed envelope and hand them to one of the officers, to be kept by him until the question as to what companies were entitled to drill was settled.

GENERAL A. J. PERRY, U. S. A., has taken temporary quarters at the Palace Hotel, San Francisco.

CAPTAIN W. S. STARRING, Ordnance Corps, U. S. A., has assumed charge of the Ordnance Depot at Cheyenne, Wyo.

CAPTAIN J. H. DORST, 4th Cavalry, delivered his Indian charges to Colonel Langdon at St. Augustine early in the week.

GENERAL N. A. DAVIS, U. S. Army, retired, celebrated his sixty-fifth birthday on Monday of this week, September 20.

CAPTAIN M. C. FOOTE, 9th U. S. Infantry, who was present at the surrender of Geronimo, has returned to Fort Wingate, N. M.

CAPTAIN B. B. KEELER, 18th Infantry, now on sick leave at Asheville, N. C., hopes to be able to join his regiment in October.

GENERAL BARON DE CHARETTE, of the French Army, after a brief stay in New York, sailed for France on Saturday last.

LIEUTENANT-COLONEL J. G. TILFORD, 7th Cavalry, left Fort Meade, Dakota, this week, to be absent until the end of October.

COLONEL RICHARD I. DODGE, 11th U. S. Infantry, will leave Fort Sully, Dakota, in a few days for the East to spend the winter.

LIEUTENANT H. R. LEMLY, 3d U. S. Artillery, will prolong his stay in Bogota, U. S. of Colombia, until the latter part of October.

MAJOR JOHN E. BLAINE, Paymaster, U. S. A., on leave from New York City, was a recent guest at the Merchants' Hotel, St. Paul.

GENERAL H. J. HUNT, U. S. A., celebrated his sixty-seventh birthday Sept. 4. We are glad to know that he is hale and hearty.

LIEUTENANT J. K. CREE, 3d U. S. Artillery, on sick leave from Fort McHenry, Md., is visiting at Meadville, Pa. He will rejoin early in October.

LIEUTENANT H. R. ANDERSON, 4th U. S. Artillery, on leave for some time past, will join at Ft. Adams, R. I., for duty towards the end of September.

MAJOR J. E. BLAINE, Paymaster, U. S. A., lately on leave in St. Paul, takes station at Helena. Major W. H. Eckels, now at Helena, goes to St. Paul.

COLONEL F. BRIDGMAN, U. S. A., registered at the Palmer House, Chicago, this week, and Lieutenant R. P. Brown, 4th Infantry, at the Sherman House.

COLONEL G. L. GILLESPIE, Corps of Engineers, U. S. A., and Lieutenant R. H. R. Loughborough, 25th U. S. Infantry, were in Chicago a few days ago.

LIEUTENANT GENERAL SHERIDAN leaves Washington this week so as to be at Fort Leavenworth by Sept. 28th, and witness the conclusion of the Army contest and present the prizes.

GENERAL STANLEY has selected his son-in-law, Lieutenant D. J. Rumbough, 3d U. S. Artillery, in place of Lieutenant S. L'H. Slocum, 8th Cav., who shortly relinquishes his position.

MAJOR W. J. VOLKMAR, Assistant Adjutant-General, will shortly take Colonel H. Clay Wood's place at the Headquarters Department of the Columbia, the latter coming to the A. G. O. for duty.

1ST LIEUTENANT B. H. HANDFORTH, 11th U. S. Infantry, is spending his sick leave at his parents' home, Hoboken, N. J. He has fully recovered the use of his voice and otherwise is improving in health.

CAPTAIN AND MRS. MORTIMER LEE, U. S. Army, who have been spending the summer in the White Mountains, will return to Boston, Mass., the last of this month, stopping at No. 49 Union Park for the winter.

MAJOR THEO. J. ECKERSON, U. S. A., with Mrs. Eckerson, have crowned their summer sojourn in the White Mountains by a stay of a month in Boston, and will resume their residence in Washington September 30.

MAJOR GENERAL O. O. HOWARD is reported as saying that a recommendation was made by Gen. Miles that the Apache tribe be taken to Fort Leavenworth and the Warm Springs to Fort Riley, but for some reason this was not approved of.

MISS VOGDES has left Sea Bright for Elberon, where she will spend the month of October with Mrs. Walter Hauxhurst at the Sea View Cottage. Mrs. Hauxhurst will entertain quite a party of young people, and the month will be passed in a round of gaiety.

MR. SEDGWICK arrived in Washington Sept. 20 and repaired early to the Department of State, where he spent an hour or more in conversation with Asst. Secretary Porter and Chief Clerk Brown, and upon the arrival of Secretary Bayard he formally reported his arrival in Washington and the completion of his errand to Mexico.

CAPTAIN GEO. F. PRICE, 5th U. S. Cavalry, says the Wichita *Daily Beacon*, "is domiciled at the Occidental, attending to business before the Federal court. Capt. Price has had charge of the frontier, lying between the boomers and the Territory, since last spring. He has managed affairs in the Territory with a firm and unyielding, yet kindly hand, impressing all with the conviction that law must be obeyed, at the same time avoiding conflict of every kind. We have had the pleasure in a number of meetings, of becoming quite well acquainted with him, and he impresses us as being a fine soldier, an honorable and able officer, and a well informed gentleman."

THE Omaha *Excelsior*, of Sept. 18, says:

Maj. John B. Keefer, Paymaster, is visiting at Sidney garrison. Maj. Keefer is Mrs. Lieut. Duncan's father.....Mrs. Dempsey and Miss Anna Dempsey, mother and sister of Captain C. A. Dempsey, 2d Inf., are visiting the latter at Fort Omaha. Mrs. Demsey is quite old and has not visited her son since the regiment went West in 1877 .....Mrs. Captain Ulio has joined her husband at Fort Omaha, from Spokane Falls, W. T., her home, where she has been visiting with her parents since her husband left Fort Cœur d'Alene in July last.....Miss Sadie Henry, daughter of Col. Henry, has sailed for Bremen and will pass a year, and perhaps two years, in Dresden perfecting her musical studies. She is a very accomplished pianist.

MAJOR H. A. THEAKER, 15th U. S. Infantry, recently promoted, has gone to Fort Randall, Dakota.

CAPTAIN S. H. LINCOLN, 10th Infantry, of Fort Lyon, Col., will spend October and November in the East.

LIEUTENANT GEO. B. DAVIS, 23d U. S. Infantry, a graduate of this year, has joined for duty at Fort Mackinac, Mich.

THE marriage of Lieutenant Charles Hunter, 1st U. S. Artillery, to Miss Lake is announced to take place this month.

LIEUTENANT T. M. WOODRUFF, U. S. A., visited New York City this week and will remain for about ten days and then proceed North.

LIEUTENANT G. P. SCRIVEN, 3d U. S. Artillery, will leave Washington Barracks, D. C., next week, and join at San Antonio towards the end of October.

LIEUTENANT W. H. ALLAIRE, 23d U. S. Infantry, after a short but pleasant tour of duty at Fort Mackinac, returns next week to Fort Wayne, Mich.

ADJUTANT F. A. SMITH, 12th U. S. Infantry, visited friends in Newburgh, N. Y., this week, and afterwards went to Madison Barracks, Sackett's Harbor.

MAJOR-GENERAL A. H. TERRY, U. S. A., accompanied by his aide, Lieutenant Johnson, arrived at Fort Leavenworth early in the week to witness the rifle competitions.

LIEUTENANT C. C. TEAR, 25th U. S. Infantry, has been warmly thanked for his services as range officer during the recent National Guard rifle tournament at Fort Snelling, Minn.

LIEUTENANT H. L. RIPLEY, U. S. A., Engineer Officer of the Department of the Missouri, has gone to Fort Reno, I. T., to make a survey for a new system of sewerage at that post.

LIEUTENANT-COLONEL J. F. WADE, 10th Cavalry, arrived at St. Augustine early on Monday morning with his party of 381 Indians. The presence of so many officers and troops from a distance and the advent of these additional Indians has stirred up the quiet city of St. Augustine into a state of unusual excitement.

LIEUTENANT PHIL. READE, 3d U. S. Infantry, says the Kansas City *Times*, is master of ceremonies at the Division shoot at Fort Leavenworth, and a better or jollier officer is not in the Army. He is not only heartily and unselfishly engaged in his work, but he is kind to and considerate of all the contestants and is deservedly popular.

GENERAL A. V. KAUTZ, U. S. A., was an honored guest at a recent meeting of the Arizona Pioneers at Tucson, and in connection with several resolutions passed eulogizing Gen. Miles and Capt. Lawton, congratulated Arizona upon possessing so able a department commander, and predicted for the future a happy and a prosperous peace.

GENERAL DE FAILLY, the hero of the Alma in the Crimea, and of Tracktir in Algeria, and who distinguished himself at Magenta and Solferino, is now living in utter obscurity in the chateau of Chenaye, situated in the midst of a great forest. He has not held up his head since the day the Prussians rode down at Beaumont and caught him napping.

THE Detroit *Free Press* of Sept. 17, describing the competition drill at the Michigan State Fair, says of the cadets of the State Agricultural College, where Lieut. Lockwood, 17th Infantry, is Professor of Military Science and Tactics: "The Agricultural boys came in next. Dressed in blue and with the whitest of white gloves, they presented a very fine appearance. Their manual was manual indeed. The marching of the cadets was precision from first to last."

CAPTAIN W. F. DUGGAN, 10th U. S. Infantry, recently promoted, takes command of Company I at Ft. Union, N. M., in succession to Maj. J. B. Parke. Capt. Duggan will doubtless read with amusement an El Paso despatch which says his promotion to the captaincy was gained by "bravery and efficient service in the field." We feel assured the gallant captain has *earned* promotion over and over again in the field, but, unfortunately, it does not come in that way nowadays.

CAPTAIN FRANK D. GARRETTY, 17th Infantry, and daughter, Miss Kitty, arrived in New York City this week on a visit to their relative, Mrs. W. O'Brien, No. 7 East 30th St. The Captain is from Fort D. A. Russell, Wyo. Ty., under orders to report to the Superintendent of the Recruiting Service for duty as recruiting officer. The stations for the recruiting officers for the next two years will not be known until after October 1 next, when it is to be hoped that he will obtain a detail to suit him.

THE Kansas City *Times* says Adjt.-Gen. Martin has received a telegram from Joplin, Mo., to this effect: "Dr. L. G. Haward was shot and killed this evening. He has a brother in the U. S. Army. Can you advise him. There are four Hawards in the Army and Col. Martin does not know which one is the brother. Their addresses are as follows: Gen. Haward, San Francisco; D. A. Haward, Cold Spring, N. Y.; Lieut. G. Haward, 12th Infantry, son of Gen. Haward, Fort Niagara, N. Y., and Lieut. W. T. Haward, 2d Artillery, Effingham, S. C." As there are no Hawards in the Army this doubtless refers to the Howards.

A RECENT visitor to Montana writes: "At Glendive I had the pleasure of meeting Capt. George D. Wallace, of the famous 7th Cavalry, who is already a veteran, having participated in every campaign on our eastern frontier since 1873, and being one of the men who held the heights that look down upon the Little Big Horn on that bloody day when Gen. Custer and his brave troopers went down in death. At Miles City I met on the streets the hale, bluff Major T. H. Logan, of the 5th Infantry. The major is a veteran, having served in the Army of the Potomac from 1861 until the bugles sounded a truce four years later. It was also my happy fortune to meet Capt. Wm. Harmon, an old officer of the Regular Army who finally discovered that he could not afford to live for glory alone. In consequence he resigned his commission, and in civil life has made enough money to buy out the post of Fort Keogh."

THE wife of Captain McCauley, U. S. A., is visiting at her home in Chicago.

THE vignette of the new five dollar silver certificate will be a portrait of Gen. U. S. Grant.

COLONEL G. L. ANDREWS, U. S. A., was a guest at the Grand Hotel, New York, early in the week.

CAPTAIN J. W. BEAN, 15th U. S. Infantry, left Fort Randall, D. T., this week on a month's leave.

LIEUTENANT C. L. COLLINS, 25th U. S. Infantry, sailed for Europe this week on a four months' leave.

LIEUTENANT H. D. STYER, 21st U. S. Infantry, lately at Omaha, has joined at Fort Du Chesne, Utah.

COLONEL C. J. VON HERMANN, U. S. A., recently retired, has located at 918 Fifteenth street, Washington, D. C.

LIEUTENANT W. R. ABERCROMBIE, 2d U. S. Infantry, of Fort Omaha, will come East in October to remain for some weeks.

LIEUTENANT ARTHUR MURRAY, 1st U. S. Artillery, visited in Washington this week and afterwards left for San Francisco to join at the Presidio.

CAPTAIN G. G. GREENOUGH, 4th U. S. Artillery, rejoined at Fort Warren, Mass., this week, from a pleasant tour to Fort Niagara and Creedmoor.

MAJOR J. W. MACMURRAY, 1st U. S. Artillery, under recent changes goes with his battery from Fort Canby, Wash. Ter., to Fort Winfield Scott, Cal.

COLONEL AND MRS. E. P. PEARSON are visiting at their home, Reading, Pa., where they always receive a most cordial reception from their many friends.

CAPTAIN C. A. STEDMAN, 9th Cavalry, on relinquishing recruiting duty next week at New York City, will remain East until the latter part of November.

CAPTAIN W. B. KENNEDY, 10th Cavalry, U. S. A., has rejoined his post, Fort Bowie, Arizona Territory, after an absence on field service of thirteen months and seven days.

GENERAL J. B. FRY, U. S. A., retired, has returned from Newport, R. I, where he has been spending the summer, and is now at his home, No. 30 East 63d street, N. Y. City.

COL. ALEXANDER J. DALLAS, U. S. A., is in Washington now from Florida in attendance on his aunt, Miss Margaret Meade, to whose illness we last week referred, and will remain until next month.

CAPTAIN A. D. ADDISON, of the Royal Artillery, British Army, was married at Southampton, L. I., Sept. 18, to Miss R. M. Lough, daughter of Mr. G. F. Lough, of New York and Brooklyn. The groom is a son of General Thomas Addison, C. B., and his station is at present at Halifax, N. S.

A CORRESPONDENT writes: "Mrs. D. J. Craigie and Miss Egbert have returned to Madison Barracks; also Mrs. Ida E. King, formerly of the 12th. Mrs. King will, after spending the month of October, return to her home, 220 East 17th street, near Stuyvesant square, N. Y. City. The ladies enjoyed their visit at Fort Niagara, and their friends here gave them a hearty welcome."

THE following Army officers are registered at the War Department this week: 2d Lieut. L. E. Sebree, S. Corps; Capt. J. B. Campbell, retired; Capt. C. J. Von Herrmann, 4th Inf.; 1st Lieut. Walker S. Scott, 25th Inf.; Maj. Charles McClure, Pay Dept.; 2d Lieut. W. G. Elliott, 9th Inf.; 1st Lieut. Arthur Murray, 1st Art.; 1st Lieut. J. C. Scantling, 2d Art.; Capt. A. B. Taylor, retired.

CAPTAIN CHARLES HOBART, 3d U. S. Infantry, arrived in New York this week from his post at Fort Shaw, Mont. Ty., and will report for recruiting service on October 1. Captain Hobart came as far as St. Louis with his family, the latter travelling thence to San Antonio, Texas, to visit Mrs. Hobart's sister, the wife of Colonel E. Otis, 8th U. S. Cav. Captain Hobart is stopping at the Grand Central Hotel, New York, at present.

"CAPTAIN J. J. O'CONNELL, U. S. A.," says a Cincinnati paper, "has returned from New York City, where he reported for duty. He comes East for a two years' detail as recruiting officer, to which long service on the frontier has entitled him. Mrs. O'Connell has also returned from Canada, where she has been passing a month at the Hotel Royale, Hamilton, with her parents, Mr. and Mrs. James Le Boutiller, Sr. Capt. and Mrs. O'Connell will spend a week at the Le Boutillier place, Walnut Hills, and then go East. Their many friends here incline to petition the powers that be that their detail may bring them to this part of the world."

"CHAPLAIN J. D. PARKER, U. S. A., of Fort Riley, is," says the Junction City *Tribune*, "about to take a leave of ten days. During the past year he has performed his duties at the fort, and has also supplied the Congregational Church of this city, and he feels that a little rest and change will do him good. On his trip he will look after the collections of the Kansas Academy of Science, and the Kansas City Academy of Science, societies which he originated years ago, and to whose early growth he gave fourteen years of hard work, lecturing all over the States of Kansas and Missouri, to create a public interest in science. He will also look after his private collection, which he made while Professor of Natural Science at Washburn College, and which he has donated to the Kansas University."

THE Vancouver *Independent* of Sept. 16 says:

Capt. C. E. Dutton, U. S. A., since concluding the Crater Lake survey, is sojourning at Vancouver Barracks....Capt. Geo. D. Hill, retired, is the Republican candidate for brigadier general of the Washington Territory militia.....Capt. G. W. Davis, 14th Inf., last week returned from the survey expedition that went to Crater Lake .....Capt. W. L. Sanborn, 25th Inf., of Fort Sisseton, is now on his way to Vancouver, called by the death of Capt. D. Hakes.....Lieut. Arthur Thayer, 3d Cav., left yesterday for Fort Elliot, Tex. .....The detail of Capt. Franck Taylor, 1st Art., with the light battery, will expire in January. It is expected he will be succeeded by Capt. McCrea....On Monday a party from the garrison, including Maj. D. W. Burke, Lieut. H. C. Cahell and Lieut. F. S. Calhoun, 14th Inf., departed for Trout Lake and the Mount St. Helens country, in pursuit of fish, flesh and fatigue, all of which abound in that mountain region.

COLONEL A. TRACY, U. S. A., retired, left Castine, Me., Sept. 20, for Amherst, Mass.

GENERAL ABSALOM BAIRD, U. S. A., has returned to Washington from a trip to Kansas.

THE Paymaster-General of the Army has returned to Washington, looking well and happy, as usual.

COLONEL J. E. SUMMERS, retired, has returned to Omaha with his family from a prolonged visit in the East.

LIEUTENANT GEO. RUHLEN, 17th U. S. Infantry, was a guest at the West Hotel, Minneapolis, early in the week.

CAPT. J. H. COSTER, U. S. A., has returned from Long Branch, N. J., to his residence, 56 Irving Place, N. Y. city.

LIEUTENANT THOMAS S. MCCALEB, 9th Infantry, lately at San Francisco, has returned to Whipple Barracks, Arizona.

CAPTAIN J. A. DARLING, 1st U. S. Artillery, has taken charge of rifle practice matters in the Department of California.

LIEUTENANT D. D. JOHNSON, 5th U. S. Artillery, visited friends in New York early in the week, on his way to St. Louis.

MRS. JOHN GIBBON has come East from Vancouver Barracks to pay a visit to her old friends of the 7th at Fort Laramie.

GENERAL SAMUEL BRECK, U. S. A., Adjutant General of the Department of the Platte, has left Omaha on a month's leave.

CAPTAIN WM. AMMAN, 13th U. S. Infantry, of Fort Wingate, N. M., and lately at San Francisco, has gone on a two months' leave.

GENERAL A. J. PERRY, U. S. A., has arrived in San Francisco and taken charge of quartermaster matters in the Division of the Pacific.

THE engagement is announced of Lieutenant Abercrombie, 2d Inf., and Miss Kimball, daughter of Col. Kimball, Quartermaster, U. S. A.

MAJOR EDWARD COLLINS, 1st U. S. Infantry, of the Presidio of San Francisco, comes East this month to spend the greater portion of the winter.

CAPTAIN E. B. RHEEM, 21st Infantry, will leave Fort Bridger, Wyo., in a few days to spend the winter on leave for the benefit of his health.

MAJOR CLOUS, U. S. A., is this week Acting Judge Advocate General of the Army in the place of Col. Lieber, who is enjoying a short vacation North.

THE wife of General Dandy, U. S. A., has returned to Omaha from a summer visit to Clifton Springs, N. Y., where her daughter recovered her health.

THE Mexican war claims of Capt. Albemarle Cady, 6th Inf., for $120.00, and Capt. J. B. Magruder, 1st Art., for $51.30, were settled by the Second Comptroller of the Treasury this week.

CAPT. C. F. ROBE, 25th U. S. Infantry, and family, have arrived in New York city, the Captain being about to enter on a tour of recruiting service, well earned by long service on the frontier.

COLONEL WALTER MCFARLAND, Corps of Engineers, U. S. A., sent this week to the Board of Commissioners of Pilots, New York City, a sketch showing the present condition of the channels at Hell Gate.

CAPT. ANDREW H. RUSSELL, Ordnance Corps, has devised a modified rifle-sight which it is believed will overcome the tendency of the hausse slide to jump when the rifle is fired. The device is being tested at Vancouver Barracks, W. T., by a board of officers of the 14th Inf.

GENERAL N. A. MILES, U. S. A., has appointed that capable and gallant officer, Lieut. C. B. Gatewood, 6th U. S. Cavalry, Aide-de-camp on his staff. This is a graceful recognition of his gallant and energetic services during the campaign after Geronimo and Natchez, concerning which Captain Lawton so heartily testified.

AN unknown man about 40 years of age was found sick and speechless in front of a restaurant on the Bowery, near Houston street, last night. From papers found in his pocket he is believed to be Henry E. Scott, late Lieutenant 6th U. S. Cavalry. He was taken to Bellevue Hospital.—*N. Y. Herald, Sept. 23.*—Harry E. Scott, a native of New York, was appointed 2d Lieutenant 6th U. S. Cavalry, November 30, 1886, promoted 1st Lieutenant in 1867, and resigned September 11, 1869.

GENERAL DANIEL BUTTERFIELD, says a despatch from London, England, was married Sept. 21 to Mrs. James at St. Margaret's, Westminster. The Bishop of Bedford conducted the service, assisted by Canon Farrar. Mr. John Henry Puleston, member of Parliament, and formerly known as Col. Puleston in the service of the State of Pennsylvania, acted as master of the ceremonies. Many members of Parliament and other distinguished persons were present at the wedding breakfast. The Comte de Paris telegraphed hearty congratulations and also sent a handsome present. The bride was the widow of Frederick P. James, a member of the Union club and an old Wall street banker and broker, who died in 1884. In appearance Mrs. Butterfield is tall and possesses a remarkably fine presence.

THE Presidio County *News* of Sept. 17 has the following Fort Davis items: Lieut. Dugan, 3d Cavalry, is seriously ill.....Mrs. Lieut. J. T. Dickman is slowly recovering.....Mrs. Col. Clendenin returned Monday from a visit to Florida and Illinois..... Lieut. W. C. McFarland, 16th Inf., left Saturday for Kentucky to enjoy a five months' leave.....Mrs. Clapp, wife of Capt. W. H. Clapp, 16th Inf., arrived last week from Washington.....Mrs. Gardner, wife of Maj. W. H. Gardner, Post Surgeon, has left Madison, Wis., for Washington .....Joseph, the little son of Lieut. and Mrs. T. J. Dickman, died Sunday night. The funeral services were conducted by Chaplain B. C. Hammond.....B troop, 3d Cavalry, goes from Ft. Leavenworth to Pena Colorado, and will relieve L troop, which returns here. Lieut. Ducat and family will be gladly welcomed back, and the base ball club will be pleased to have him again as pitcher.

LIEUTENANT E. F. WILLCOX, 6th Cavalry, is a recent addition at Fort Stanton, N. M.

MISS WINIFRED POE, the daughter of General O. M. Poe, U. S. A., has returned to her home in Detroit from a visit to the family of Colonel Chambliss, Coburg, Canada.

WHEN General Sherman observed to a Chicago reporter that Chicago people could well appreciate his desire to move away from St. Louis and into a live town he struck a sympathetic chord, the echo of which has not yet died away. When New York palls on him, as it will before spring, he knows where to come.—*Chicago Herald.*—The *Herald* probably has in mind the story of the misguided little boy who asked whether when he had reached the final state of bliss he would be allowed to vary the performance by going down below occasionally to play. But this story has no application to General Sherman, who is a man of too well regulated a nature to find the virtuous life of New York City monotonous or tiresome.

GENERAL BADEAU, in one of his recent articles on General Grant, quotes a letter written to him, Badeau, during the war, by the Hon. Edwards Pierrepont, in which appears the following: "I knew Johnson personally; not very well, but well enough to see that he had immense cunning and persistency and it seemed clear to me that in the contest with his Secretary of War the President, clothed with all the powers of his great office, would in the end prevail, and that Stanton would sometime, somehow, be ousted from his place, and our long intimacy, I thought, warranted me in writing him the most earnest letter that I could pen, urging him to resign, in the very beginning of the contest with his chief. I now have his reply, in which he says that his wife warmly indorsed my letter, but that every other friend was against it; that those in the Senate and the House who had stood so faithfully by him during the war implored him to remain; and that duty, patriotism, and fidelity to party all demanded that he should 'stick.'"

NAVAL CADET F. W. HIBBS, U. S. N., was in Minneapolis last week with quarters at the Nicollet.

PAY INSPECTOR J. H. STEVENSON, U. S. N., was a guest at the Gilsey House, New York, early in the week.

REAR ADMIRAL J. H. RUSSELL, U. S. N., was in New York this week with quarters at the Gilsey House.

LIEUTENANT J. D. J. KELLEY, U. S. N., and Mrs. Kelley were in Paris, France, this week, located at the Hotel de la Bergere.

CAPTAIN L. E. FAGAN, U. S. M. C., and family, have returned to League Island, Pa., from a two months' sojourn at Conanicut, R. I.

CHIEF ENGINEER W. D. SMITH, U. S. N., is still on sick leave. His stay in Europe produced but little favorable effect, and it is feared that his illness is of a very serious and complicated nature.

THE Mayor of Charleston, S. C., has acknowledged the receipt of $123.10 from the officers and employees of the Navy Department. The Mayor thanks Chief Clerk Hogg for the timely contribution.

P. A. ENGINEER H. HERWIG, U. S. N., with his wife and baby, has recently returned from leave, and is now busily at work on the details of the boilers and machinery of the coming additions to our cruising fleet.

MEDICAL DIRECTOR GIHON, U. S. N., is rapidly completing his arrangements for entering upon the discharge of his duties at the Mare Island Naval Hospital, where he goes as the relief of Medical Inspector Robinson.

ENGINEER-IN-CHIEF LORING, U. S. Navy, left Washington on Saturday afternoon last to join the *Atlanta* on her trip in search of "weather." It is to be hoped that this trip will turn out as successfully as the former one.

PASSED ASSISTANT ENGINEER W. H. NAUMAN, U. S. Navy, has returned from leave and resumed the labors of the Draughting Room, Bureau of Steam Engineering, Navy Department. Mrs. Nauman will remain some time longer in her native city, Portland, Me.

PASSED ASSISTANT ENGINEER C. R. ROELKER, U. S. N., so thoroughly identified with the Naval Advisory Board, has taken up his residence in Chester, at which point the Board continues the business of completing the *Chicago*. Mr. Roelker's family are for the present residing in Washington.

CHIEF ENGINEER JOSEPH TRILLEY, U. S. N., recently attached to the *Trenton*, accompanied by Mrs. Trilley, was in Washington for a few days last week sight-seeing. Mrs. Trilley spent the latter part of her husband's China cruise on the station, and enjoyed the novel experience very much. Mr. and Mrs. Trilley started for Boston, Mass., Sunday evening.

MEDICAL INSPECTOR BOGERT, U. S. N., and Mrs. Bogert, says a Brooklyn item, have returned from their Maryland trip and are at home for the present on Joralemon street. Dr. Bogert brought with him upon his recent return from his last sea voyage a young Japanese boy, who has been established as dining-room boy in the family mansion, and a very quaint and odd-looking little attendant he makes.

THE many friends of Lieut.-Comdr. F. W. Crocker, U. S. N., will regret to learn of the serious accident which befell him on Sunday last, whereby one of his legs was badly fractured. Lieut.-Comdr. Crocker made his last cruise on the *Iroquois* as navigating lieutenant, and was promoted to his present grade Jan. 17, 1886. His present duty is executive officer of the receiving ship *New Hampshire*, Newport, R. I.

PAYMASTER H. T. STANCLIFF, U. S. N., is taking a well-merited rest from the severe duties of Secretary and Treasurer of the Navy Mutual Aid Association. The N. M. A. A. is in a flourishing condition, the number of members approaching 800, the benefit amounting to more than $3,700. During the absence of Paymaster Stancliff, the duties of Secretary and Treasurer are being performed by Passed Asst. Paymr. W. W. Galt, U. S. N.

PAYMASTER L. G. BOGGS, U. S. N., registered at the Bartholdi Hotel, New York City, on Wednesday.

COMMANDER WM. R. FOLGER, U. S. N., returned to Portland, Me., last week, from an enjoyable trip in the woods.

LIEUTENANT LINCOLN KARMANY, U. S. Marine Corps, late of the *Trenton*, has left Norfolk, Va., on a month's leave.

THE Vallejo *Chronicle* announces the engagement of Miss Katherine Klink of that city to Asst. Engr. Emil Theiss, U. S. N.

LIEUTENANT C. A. DOYEN, U. S. Marine Corps, was a visitor in Philadelphia this week with quarters at the American Hotel.

ENSIGN W. J. SEARS, U. S. N., has been detached from the U. S. C. S. S. *Eagre*, and is ordered to the *Arago*, at Northport, L. I.

P. A. ENGINEER W. N. LITTLE, U. S. N., lately on duty at the Free School, Worcester, Mass., was to join the *Galena* this week.

COMMANDER G. C. WILTSE, U. S. N., who has been spending the summer with his family in Minnesota, has returned to Washington.

NAVAL CONSTRUCTOR G. W. MUCH, U. S. N., has returned to New York from Norfolk, Va., where he assisted in the survey of the *Trenton*.

ENSIGN W. W. BUCHANAN, U. S. N.. was on Sept. 17 granted leave of absence for four months. He was recently detached from the *Trenton*.

LIEUT. M. L. WOOD, Chief Engineer A. S. Greene, Paymaster D. A. Smith, and Assist. Engineer J. R. Wilson, are registered at the Navy Department this week.

GEORGE PHILIP HOERNER, a defaulting paymaster of the German Navy, was arrested in New York a few days ago, being at the time a waiter in a restaurant on Fulton street.

LIEUTENANT A. G. PAUL, U. S. N., lately detached from the *Lancaster*, is visiting in Philadelphia. He has purchased for $5,000 an undivided fourth part of the estate of the late Sallie C. Lawrence at Newport, R. I.

AS THE U. S. steamer *Hartford* will shortly be ordered to San Francisco, Cal., where she will go out of commission, the order of Capt. R. W. Huntington, U. S. M. C., of Sept. 14, detailing him to that vessel is revoked.

MEDICAL DIRECTOR JOHN Y. TAYLOR, Surgeons Delavan Bloodgood and Wm. K. Van Reypen and Civil Engineer M. T. Endicott, U. S. N., have been examining the Naval Hospital at Norfolk, Va., with a view to improved drainage and sanitary arrangements.

LIEUTENANT W. W. KIMBALL, U. S. N., has recently returned from an enjoyable leave of absence, passed in Europe. He will be a valuable addition to the Ordnance Yard, Washington, inasmuch as metallurgy in its bearing upon ordnance has long engaged his attention.

THE general court-martial order promulgating the sentence in the case of Lieut. O. C. Berryman, M. C., who was recently tried at the Brooklyn Navy-yard, is in course of preparation, and will be published in a day or two. It is understood that the sentence is a brief suspension on reduced pay.

CAPT. W. SCOTT SCHLEY, Chief of the Bureau of Equipment and Recruiting, made an official visit to the Washington Navy-yard on Thursday last in connection with the removal of the anchor and chain forging plant and the galley shop to other navy-yards, preparatory to the yard becoming a naval ordnance yard.

LIEUTENANT LUCIEN YOUNG, U. S. N., is in almost daily expectation of orders detaching him from the *Shenandoah*, South Pacific Station, and it is probable that by the time his term of three years shall have expired (Nov., 1886), he will once more bear the greetings of the numerous friends to whom he is so well known in Washington. Lieut. Young has not yet received his examination for promotion, but will be ordered before the Board as soon as he arrives home.

COMMODORE BELKNAP, U. S. N., and Mrs. Belknap have, says a San Francisco paper, given a new lease of life, socially, to Mare Island. The Mare Island regime for a couple of years past has not induced a serene feeling, but Commodore Belknap has in this short time undone some things and done up others. In consequence, the beauty and bravery of the Navy are as happy as sea birds. Next week as a flyer they propose to try their dramatic wings in "Home" and "Sweethearts." The Navy will certainly not fail in playing the latter.

CAPTAIN R. B. FORBES, of Milton, Mass., a frequent contributor to our columns, celebrated his eighty-second birthday Sept. 18. Captain Forbes has, perhaps, done more than any man alive to perfect our lifeboat system, in suggesting means for saving life at sea in cases of shipwreck, and in providing for the wants of seamen when worn out. His services in behalf of the poor of Ireland in 1847, when he commanded the sloop-of-war *Jamestown*, and his personal efforts in saving the lives of passengers from the bark *Charles Bartlett*, when run down by the steamer *Europa* in 1849, will never be forgotten by those who take an interest in shipping.

MR. E. H. KENT, 1162 Broadway, New York, received permission to take some photographs of scenes upon the *Trenton* at Fort Monroe just previous to her going out of commission. There are fourteen of them in all, representing the following scenes: "Making sail;" "Group of officers;" "Reefing topsail;" "Apprentices;" "Leading party;" "Inspection;" "Forward pivot gun;" "Forward pivot gun in action;" "Torpedo explosion;" "Marine guard;" "Abandoned;" "Starboard watch;" "Port watch." The view of the attempt to extinguish fire in the fire drill exercise is particularly novel and interesting. The views have been reproduced by the photo-graveur process in very handsome style, and are printed not only upon paper, but also upon satin, forming a handsome roll, attached to a brass rod and put up in a neat box.

RECENT DEATHS.

CAPTAIN WILLIAM R. SHOEMAKER, U. S. Army, retired, died at his home, at Fort Union, N. M., Sept. 16, 1886, in his seventy-sixth year. He was appointed an Ordnance storekeeper Aug. 3, 1841, and remained in that position until June 30, 1882, when he was retired for age under the act of that date. He was born in Pennsylvania, and when appointed to the Army was a resident of Illinois.

THE Philadelphia *Evening Bulletin* of September 6 says: "Mrs. Mary Gamble, whose death occurred yesterday at Newark, N. J., had advanced well toward the completion of her ninety-ninth year. She was born in Philadelphia in February, 1788. Her father was Samuel Thomson, of this city, who held a commission in the Continental Army, and was present at the surrender of Cornwallis at Yorktown, Va. She was, in all probability, the only person alive this year who had seen and spoken to General Washington. She was nine years of age when this event, memorable to her, happened, and she was fond of describing to her descendants all the particulars of the meeting with the illustrious chief. At the age of seventeen she was married to Joseph Gamble, who held a commission in the Navy when the War of 1812 occurred. He died within a year or two of his marriage, leaving one daughter, the widow of the late Commodore McKeever, who survives her aged mother, and who is herself the mother of General Chauncey McKeever, U. S. A.; J. Lawrence McKeever, of New York, and two daughters, at the house of one of whom, Mrs. William Speiden, of Newark, the venerable lady resided during the latter part of her life. Her widowhood lasted over seventy years. It began before the battle of New Orleans and the battle of Waterloo. Mrs. Gamble was a courtly, refined, elegant lady of the old school, and she was fond of talking of her life as a young girl in Philadelphia, where she had many dear friends, who have preceded her to the grave. Her memory began to fail shortly before her death, but her mind was clear in other respects, and she took much interest in her descendants and all that related to them, recognizing gratefully the tender care which made her closing years serene and tranquil."

LAST week we reported the death at London, September 6, of Col. Lewis Carr, formerly a captain of the 11th U. S. Infantry. A correspondent writes: "Carr died from a stroke of paralysis. He was first smitten about four weeks ago, and was taken to a hospital, being entirely without means. We immediately provided for him and have taken good care of him since. He has not wanted any comfort or luxury, and has received the best medical attendance. We shall buy a burial lot, see him properly interred and arrange for a suitable funeral. He was one of the most agreeable and honorable gentlemen I ever knew, and it is a great pity he should die here in destitution. He was looking after an interest here, which, if all goes right, as I think it will, should yield a considerable sum. He incidentally informed me that he had relatives in Philadelphia, whom I judge to be people of wealth and position, but I do not know their names or address."

A FORT D. A. RUSSELL correspondent, referring to the recent death of Chaplain E. W. Brady, U. S. A., says: "There was a large attendance at the funeral. The Reynolds Post, G. A. R., of Cheyenne were present, and contributed some handsome floral wreaths and crosses. The military at Fort Russell turned out en masse and a number of the citizens of Cheyenne formed in the procession, which was half a mile in length. A man faithful to his professional duty and to his country's flag has been laid to rest."

THE body of Mrs. Elizabeth T. Wall, widow of Capt. William Wall, 3d U. S. Art., was found in the lower reservoir in Central Park, New York City, on Sunday afternoon, September 19. She was 88 years old and in good circumstances. She is supposed to have committed suicide during a temporary fit of insanity. Capt. Wall died August 13, 1847.

MRS. S. M. PATERSON, a sister of the late Major General Geo. G. Meade, U. S. Army, died Sept. 10, 1886, at her house in Perth Amboy, N. J. Mrs. Paterson was twice married, her first husband being the late Lieut. J. T. McLaughlin, U. S. Navy. The remains were interred in the Congressional Cemetery, Washington, D. C.

MAJOR RICHARD H. POND, formerly Captain 12th U. S. Infantry, died September 16, at San Rafael, Cal. He served gallantly during the war, receiving the brevets of Captain and major, and resigned in 1873.

MR. WILLIAM H. FRAILEY, son of the late Commodore J. Madison Frailey, U. S. Navy, died at Devon, Pa., Sept. 17, and was buried at Philadelphia, Sept. 20. Commodore Frailey died in 1877.

DEACON THOMAS GRIGGS, who, during the War of 1812 commanded a company at Fort Independence, died at Brookline, Mass., September 20, aged 98.

GENERAL GUSTAV VON STIEHLE, a distinguished soldier of the German Army, of long and distinguished service, died this week at Frankfort.

MRS. ANNIE V. BEARD, wife of Assistant Engineer G. W. Beard, U. S. N., died Sept. 23, at her residence, near Aberdeen, Md.

GENERAL SCHMETTORO, who led the celebrated charge of Bismarck's cuirassiers at Viouville, is dead.

THE 8-inch gun for the *Atlanta* was placed on the new barbette-carriage at Annapolis this week and fired five rounds, gun and carriage both working satisfactorily. A powder charge of 123 lbs. and projectile of 250 lbs. were used, giving a muzzle velocity of 2,013 feet. The chamber pressure was fifteen and two-tenths tons.

COMMANDER H. B. SEELY commands at the Navy-yard Philadelphia, in the absence of Commodore Richard Law on leave.

THE ARMY

G. O. 65, H. Q. A., Sept. 17, 1886.

By direction of the acting Secretary of War, par. 692 of the Regulations (and G. O. 52, of 1883, from this office, amending the same) and pars. 693 to 696, inclusive, of the Regulations, together with G. O. 30, of 1882, from this office, are rescinded, and the following regulations are substituted therefor:

692. Accounts for telegrams on military business, prepared in the name of the proper telegraph company, will, with the exceptions stated in the following paragraph (693), be settled and paid by the Quartermaster's Department, through its disbursing officers, upon Form No. 13½.

693. The exceptions to the foregoing regulation (692) are as follows, to wit:

(1.) Accounts for telegrams which pass over any of the lines constructed and operated along the bonded Pacific railroads.

(2.) Accounts for telegrams which pass partly over military telegraph lines and partly over connecting lines of private companies.

(3.) Accounts for reimbursement of amounts paid by officers of the Army for telegraphic service which should be prepared upon Form No. 13½.

(4.) Accounts for telegrams on public business of a confidential nature where, in the opinion of the officers receiving or sending them, it is improper that copies should accompany the accounts, or where copies cannot be procured, or where it is questionable that the telegrams are on official business or that the telegraph should have been used.

The accounts described in this paragraph will be forwarded to the office of the Quartermaster General for transmission to the proper accounting officers of the Treasury for settlement.

694. Where the original or certified copies of telegrams are not furnished with the accounts, or where it is questionable that the telegrams are on official business, or that the telegraph should have been used, an explanatory letter from the officer who sends or the officer who receives the telegrams should accompany the account for consideration by the War Department.

695. In counting the words of telegraphic messages, the following rules will be observed: Names of cities and places, when used to designate such cities or places, will be counted as one word. For example: New Orleans, New York, West Troy, Fort McHenry, etc,

Words connected by a hyphen, as found in Webster's dictionary, will be counted as one word. For example: to-day, to-morrow, aide-de-camp, Quartermaster-General, etc. Names of persons and places, when given to things, will be counted according to the number of distinct words in each. Names of steamers, Isaac Newton, two words: Maid of the Mist, four words. Names of hotels, Burnet House, two words; United States Hotel, three words.

In cases of prefixes to surnames, such as Van, Mac or Mc, or St., O', De, as Van Vliet, McGregor, St. Nichols, O'Connor, De Witt, etc., the whole name will be counted as one word.

All words contained in official telegrams will be counted and allowed, including names and titles of parties addressed and of persons sending the telegrams, excluding only the name of the place from which transmitted and the date, and the words official business, which should appear upon each telegram. All unnecessary words, including words of mere respect, will be omitted by the sender; the last name of the officer addressed, or his title, and the last name of the officer sending the telegram, are often sufficient for the purpose in view, and officers are enjoined to be discreet in using as few words as are needful to convey the message intelligibly.

No settlement will be made with the telegraph office to which a telegram is sent unless satisfactory proof be furnished that the office from which it has been sent has made, and will make, no charge for the service, and care should be taken that different officers, or the same officer, be not misled into double payment upon the same telegram by its presentation for payment at different times or places. The guide in the preparation of telegraph accounts is the Postmaster General's annual circular on the subject, published in general orders from the Adjutant General's Office. The table of distances prepared by the Pay Department will govern unless in specific cases it be otherwise directed. Blank forms for use in telegraphing will be furnished upon application to the Quartermaster General.

696. In each military department an officer of the Quartermaster's Department will be assigned by the department commander to the duty of adjusting and settling telegraph accounts, under the instructions of the Quartermaster General; and, so far as possible, arrangements should be made to have all such accounts which may accrue in each department, respectively, presented to the officer so assigned, who will prepare and pay them, or forward them for payment, as the case may require. At independent posts or depots the officers of the Quartermaster's Department there serving will perform this duty.

By command of Lieutenant General Sheridan:
J. C. KELTON, Acting Adjutant General.

G. O. 66, H. Q. A., Sept. 21, 1886.

By direction of the acting Secretary of War, to give effect to the provision made by the act of Congress approved Aug. 4, 1886 (appropriation for sundry civil expenses), for clothing and a donation of five dollars in money "for each prisoner released from confinement under sentence executed at military posts after discharge from the military service," the commandant of the Military Prison, Fort Leavenworth, Kansas, is charged with the disbursement of the funds appropriated.

The clothing will be similar to that furnished at the Leavenworth Prison, and will be procured in the same manner.

Commanding officers of posts where there are prisoners to be benefited by the above mentioned provision will immediately send to the commandant of the Leavenworth Prison a list of names of prisoners who will probably be released at their respective posts in the period between this date and January 1, 1887; and, beginning October 1, 1886, and will send a similar list in the first week of every quarter for the period covered by the next succeeding quarter for the period covered by the next succeeding quarter. Proper measurements for coat, vest and trousers, and sizes for hat, shoes, and socks, for each prisoner will be furnished with the list of names. The commandant will then cause the clothing to be made up or procured and properly marked, by the package or otherwise, with the name of the prisoner for whom it is intended, and turn it over to the Quartermaster's Department for delivery at its destination. The property will be accounted for in the same manner as that issued to men released from the prison, and will not be taken up on property returns at the posts to which sent.

Donations will be paid by check, which will be forwarded, with the voucher upon which payment is to be receipted, to the officer who has the custody of the prisoner for whom the check is drawn, and as soon as the payment shall have been made the receipted voucher will be returned to the commandant of the prison.

Donations will continue to be paid at Alcatraz Island and at Fort Snelling from money received for prison labor, and will not be paid from the funds appropriated except when there shall be no earnings from which to pay it.

By command of Lieutenant General Sheridan:
J. C. KELTON, Act. Adjt.-Gen.

CIR. 18, DEPT. OF THE PLATTE, Sept. 18, 1886.

Publishes a table exhibiting the figure and order of merit of posts for part of the target practice season ending Aug. 31, 1886.

Upon completion of the target practice season, at their respective posts, troops of cavalry will commence and con-

tinue, until inclement weather, dismounted and mounted pistol firing as required by "Instructions in Rifle and Carbine Firing."

The figure of merit of the regiments is:

21st Infantry, 121.97; 7th Infantry, 110.10; 2d Inf., 108.91; 17th Infantry, 93.60; 9th Cavalry, 86 82; 6th Infantry, 80.98. Dept., 99.17, against 82 in 1885.

Of Posts—Sydney, 138.82; Laramie, 120.02; Omaha, 107.62; McKinney, 96.34; Medicine Butte, 95.81; Russell, 93.66; Washakie, 93 39; Niobrara, 91.54; Bridger, 90.84; Pilot Butte, 86.99; Robinson, 84.68; Douglas, 81.10; Co. G, 21st Inf., I. F. M., 137.80; Sk. F. M., 57.11; G. F. M., 122.46.

CIR. 9, DEPT. OF ARIZONA, Sept. 7, 1886.

Publishes letter from A. G. O., directing that the Department Commander enforce the provisions of existing regulations respecting the residence of citizens on military reservations.

STAFF CORPS AND DEPARTMENTS.

Judge Advocate General's Department.

Lieut. Col. Horace B. Burnham, D. J. A. G., is announced as J. A. of this Div. and of the Dept. of California, and will take station in San Francisco, Cal. (G. O. 13, Sept. 10, Div. Pacific.)

Adjutant and Inspector Generals.

Major H. Clay Wood, Asst. Adjt. Gen., will be relieved from duty at the H. Q. Dept. of the Columbia, and will report Nov. 1, 1886, to the Adjt. Gen. of the Army for duty in his office, to relieve Wm. J. Volkmar, A. A. G., who will repair to Vancouver Barracks, and report for duty as A. A. G., Dept. Columbia (S. O., Sept. 21, H. Q. A.)

Lieut. Col. Robert P. Hughes, Inspr. Gen., will inspect Benicia Barracks, Angel Island, Fort Mason, and Fort Winfield Scott, Cal. (S. O. 84, Sept. 13, D. California.)

Quartermasters and Subsistence Departments.

Col. Alexander J. Perry, A. Q. M. G., is announced as Chief Q. M. of this Div. and of the Dept. of California (G. O. 11, Sept. 9, Div. Pacific).

The Depot Q. M. at St. Paul, will, until further orders, settle all accounts for telegrams incurred in this department, exclusive of those passing over bonded Pacific railroads, or military lines (S. O. 97, Sept. 15, D. Dakota).

Major G. B. Dandy, Chief Q. M., will proceed to Fort D. A. Russell, Wyo., on public business (S. O. 118, Sept. 15, D. Platte).

So much of S. O. 178, as relates to Commissary Sergt. John Buchanan, Fort Sill, I. T., is amended to direct the C. O. of that post to relieve him from duty at once, when he will comply with the order to proceed to Fort Riley (S. O., Sept. 21, H. Q. A.)

Com. Sergt. Carl Kohlhepp will proceed to Fort Sully, D. T., to relieve Com. Sergt. August Arndt, who will proceed to Jefferson Barracks for duty (S. O., Sept. 20, H. Q. A.)

Com. Sergt. John Powers will proceed to Fort Bayard, N. M., to relieve Com. Sergt. George Webber, who will proceed to Fort Cœur d'Alene, Idaho, for duty (S. O., Sept. 20, H. Q. A.)

Pay Department.

Major John E. Blaine, Paymr., will proceed to Helena, M. T., to relieve Major Wm. H. Eckels, Paymr., who will proceed to St. Paul, Minn., for station (S. O. 97, Sept. 15, D. Dakota).

Medical Department.

1st Lieut. Wm. C. Borden, Med. Dept., is detailed additional member of the G. C. M., at Fort Bridger, Wyo. (S. O. 119, Sept. 17, D. Platte.)

A. A. Surg. George M. Terrill will proceed to Fort Union, N. M., and report for duty (F. O. 89, Sept. 6, D. Ariz.)

1st Lieut. Leonard Wood, Asst. Surg., now at San Antonio, will proceed to Albuquerque, N. M., and report to Brig. Gen. Miles (S. O. 127, Sept. 13, D. Texas).

Captain Clarence Ewen, Asst. Surg., is detailed member of the G. C. M., at Fort Sidney, Neb. (S. O. 116, Sept. 13, D. Platte.)

Asst. Surg. Walter W. R. Fisher will proceed to Fort Apache, A. T. (F. O. 88, Sept. 1, D. Ariz.)

Leave for one month is granted Asst. Surg. Walter W. R. Fisher, to take effect Sept. 10 (F. O. 88, Sept. 1, D. Ariz.)

A. A. Surg. C. L. G. Anderson will report to the C. O., Whipple Barracks, for temporary duty (S. O. 86, Sept. 9, D. Ariz.)

Hospl. Steward C. O. Schott, Fort Wingate, will proceed to Fort McDowell, and report for duty (S. O. 86, Sept. 9, D. Ariz.)

Hospl. Steward Herman Wilkendorf will proceed to Fort Sidney, Neb., and report for duty (S. O. 116, Sept. 13, D. Platte).

Engineers and Ordnance Departments.

Lieut. Col. George H. Elliot, C. E., will proceed to Block Island, R. I., on duty connected with works under his charge (S. O. 136, Sept. 17, C. E.)

Lieut. Col. George H. Mendell, C. E., will proceed to San Diego Harbor, Cal., on duty connected with works under his charge (S. O. 138, Sept. 21, C. E.)

Major Jared A. Smith, C. E., will proceed to Little Harbor, N. H., on duty connected with works under his charge (S. O. 138, Sept. 21, C. E.)

Lieut. Col. Wm. P. Craighill, C. E., will proceed to New York City, on duty connected with the Board of Engineers (S. O. 137, Sept. 20, C. E.)

Major George L. Gillespie, C. E., will proceed to Philadelphia, Pa., on duty connected with the Board of Engineers (S. O. 137, Sept. 20, C. E.)

Major L. Cooper Overman, C. E., will proceed to Detroit and Marine City, Mich., and Buffalo, N. Y., on duty connected with works under his charge (S. O. 135, Sept. 16, C. E.)

Capt. Frederick A. Hinman, C. E., will proceed to Petersburg, Va., on duty connected with works under his charge (S. O. 135, Sept. 16, C. E.)

1st Lieut. Thomas L. Casey, Jr., C. E., is relieved as inspector of rifle practice of the Dept. California (G. O. 4, Sept. 11, D. Cal.)

Lieut. Col. George H. Elliot, C. E., will proceed to Dighton, Mass., on duty connected with works under his charge (S. O. 139, Sept. 22, C. E.)

Capt. Wm. S. Starring, Ord. Dept., is assigned to duty as Chief Ord. Officer of the Dept., with station at Cheyenne Ord. Depot (G. O. 13, Sept. 11, D. Platte).

A furlough for four months is granted Ord. Sergt. James Jones, Fort Popham, Me. (S. O., Sept. 17, H. Q. A.)

Capt. W. S. Starring, O. D., will proceed to Cheyenne, Wyo., and assume command of the Ord. Depot (S. O. 116, Sept. 13, D. Platte).

Major Clifton Comly, Ord. Dept., will inspect certain subsistence stores at Indianapolis Arsenal (S. O., Sept. 18, H. Q. A.)

1st Lieut. Frank E. Hobbs, Ord. Dept., will proceed to Johnstown, Pa., on public business connected with the Ord. Dept. (S. O., Sept. 18, H. Q. A.)

Ord. Sergt. Thomas Gardner, whose term of service expires Sept. 25, will proceed to Philadelphia, Pa., and report to Capt. Charles C. Hood, 24th Inf., at the recruiting rendezvous No. 2001 Market street, for discharge and re-enlistment (S. O. 138, Sept. 18, Div. Atlantic.)

The C. O., Fort Adams, R. I., will send a reliable sergeant to Fort Popham, Me., for duty as acting ordnance sergeant, during the absence on a four months' furlough of Ord. Sergt. James Jones (S. O. 139, Sept. 20, Div. Atlantic).

Chaplains.

Leave for one month is granted Post Chaplain George W. Collier, Fort Totten, D. T. (S. O. 96, Sept. 14, D. Dakota.)

Signal Corps.

Private Thomas Mounier, Signal Corps, on duty in Arizona, has, for disobedience of orders, been dishonorably discharged, and placed in confinement at hard labor for one year.

Sergt. Denis Moone, S. C., will proceed to San Francisco, and report for duty to Lieut. Glassford, S. C. (F. O. 88, Sept. 1, D. Ariz.)

Sergt. Fred. Belford, recently severely wounded by some unknown person at El Paso, is reported as slowly improving.

The resignation of Professor William Ferrol, meteorologist of the Signal Service, has been accepted by the Secretary of War.

The leave of absence granted 2d Lieut. Leroy E. Sebree is extended to include Oct. 31, 1886 (S. O., Sept. 22, H. Q. A.)

THE LINE.

Changes of Stations of Troops Ordered.

As reported to the Adjutant-General's Office during the week ending September 18, 1886:

Troop M, 1st Cav., to Camp Sheridan, Wyo.

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., **D, E, H,** and **L,** Ft. Riley, Kas.; **A, F, I,** and **M,** Ft. Supply, Ind. T.; **B, C, G,** and **K,** Ft. Reno, Ind. T.

Troop F, on detached service at or near Fort Reno will return to Fort Supply, I. T. (S. O. 103, Sept. 13 Dept. M.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., **A, C, G,** and **L,** Ft. Bayard, N. M.; **K,** Ft. Wingate, N. M.; **B** and **F,** Ft. Lewis, Colo.; **D, E,** and **H,** Ft. Stanton, N. M.; **M,** Ft. Leavenworth, Kas., **I,** Ft. Cummings, N. M.

Official notice having been received of his promotion from 2d Lieutenant, Troop L, to 1st Lieutenant, Troop E, at Fort Stanton, 1st Lieut. E. F. Willcox will proceed to the station and report for duty with his troop (S. O. 86, Sept. 9, D. Ariz.)

1st Lieut. C. B. Gatewood is appointed Aide-de-Camp to Brig.-Gen. Miles, commanding (G. O. 24, Sept. 14, D. Ariz.)

1st Sergt. G. A. Hartford, Sergt. B. F. Morrison, and Pvt. W. Kaufman, Troop F, have qualified as sharpshooters.

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. **A, C, E, H, K,** and **M,** Ft. Meade, Dak.; **B** and **D,** Ft. Yates, Dak.; **F** and **L,** Ft. Buford, Dak.; **G,** Ft. Keogh, Mont.; **I,** Ft. Totten, Dak.

Leave for one month, with permission to apply for an extension of fifteen days, is granted Lieut.-Col. Joseph G. Tilford, Fort Meade, D. T. (S. O. 96, Sept. 14, D. Dak.)

Leave is granted Capt. Charles C. DeRudio for fifteen days (S. O., Sept. 23, H. Q. A.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., **C,** and **H,** San Antonio, Tex.; **A,** Ft. McIntosh, Tex.; **I,** Ft. Ringgold, Tex.; **D,** Camp Del Rio, Tex.; **E, F, G, K,** and **L,** Ft. Clark, Tex.; **B** and **M,** Ft. Brown, Tex.

Troops C, G, H, and K will proceed to the neighborhood of Fort Bliss, go into camp, and await further orders. Troops C and H, under command of the senior officer, and G and K, under command of their senior officer, will proceed together to the point directed (S. O. 66, Sept. 11, D. N. M.)

1st Lieut. Enoch H. Crowder is detailed as Professor of Military Science and Tactics at the University of Missouri, Columbia, Mo., to serve the remainder of the term for which he was originally detailed at that institution (S. O., Sept. 20, H. Q. A.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., **D, H,** and **L,** Ft. McKinney, Wyo.; **C, F,** and **K,** Ft. Robinson, Neb.; **A, G,** and **I,** Ft. Niobrara, Neb.; **M,** Ft. Washakie, Wyo.; **B** and **E,** Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

Leave for one month, to take effect about Oct. 10, is granted Capt. Jerauld A. Olmsted, Fort Du Chesne, Utah (S. O. 116, Sept. 13, D. Platte.)

Leave for two months, to take effect upon being relieved from recruiting service, with permission to apply for an extension of two months, is granted Capt. Clarence A. Stedman (S. O., Sept. 21, H. Q. A.)

Before a G. C.-M. at Cheyenne Depot and Cheyenne, Wyo., of which Col. Henry A. Morrow, 21st Inf., was president, was tried 2d Lieut. John F. McBlain, 9th Cav. Charge—"Conduct unbecoming an officer and a gentleman." Specification—"That having married Jan. 6, 1878, previous to his entry into the U. S. Army, at Philadelphia, Pa., Sarah J. Rafferty, he did, at San Francisco, Cal., Oct. 27, 1884, in the Superior Court of the city and county, fraudulently obtain, or cause to be obtained, a decree dissolving the bonds of matrimony between himself and his wife, Sarah McBlain, by falsely representing himself, or causing himself to be so represented, as having been a resident of the State of California since February, 1878, continuously, to the time of his petition for the decree of divorce; and further, by failing to address, or causing to be addressed, to his wife, at her dwelling—in Philadelphia, Pa.—the number of said dwelling, and street in which situated, being well known to the said McBlain—a copy of his complaint made, and of the summons issued, in his action against her for divorce, thereby keeping his said wife in ignorance of the proceedings by him instituted against her for divorce, and causing her to default in answering his said complaint; and further, by concealing from the court, aforesaid, his resumption in July and August, 1880, of his cohabitation with his wife; and further, by concealing from the said court, his amicable correspondence with his wife, from August, 1880, to the middle of the year 1882, his contributions to her support during that period, and his admission and declaration in a letter addressed to her, on, or about, Oct. 30, 1882, to the effect that through no fault of her, his feelings toward her had changed, and that he was desirous of getting a divorce from her simply because his own condition in life had changed—which change of condition in life referred to his advancement from the position of an enlisted man to that of a commissioned officer in the U. S. Army." Pleas—"Not Guilty." Findings—Of the specification, "Guilty, except of the words, 'by falsely representing himself, or causing himself to be so represented, as having been a resident of the State of California, since the month of February, 1878, continuously, to the time of his petition for the aforesaid decree of divorce, and further,' and except of the words, 'his resumption in July and August, 1880, of his cohabitation with his wife: and further by concealing from the said court, his amicable correspondence with his wife, from August, 1880, to the middle of the year 1882, his contributions to her support during that period and,' and except of the words, 'through no fault of her's,' and except of the word 'simply,' of the excepted words Not Guilty." Of the charge, "Guilty." Sentence—"To be dismissed the service of the United States." The proceedings are approved. In the opinion of the Department Commander, on the evidence before the court, the accused was entitled to an acquittal; the findings and sentence are therefore disapproved. Lieut. McBlain will be released from arrest and returned to duty.

By command of Brigadier-General Crook:

L. W. V. KENNON, Aide-de-Camp.

(G. C.-M. O. 79, Sept. 15, 1886, D. Platte.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., **D, E, K,** and **L,** Ft. Grant, A. T.; **B,** Whipple Bks., A. T.; **A** and **H,** Ft. Apache, A. T.; **I** and **M,** Ft. Verde, A. T.; **C, F,** and **G,** Ft. Thomas, A. T.

The journeys performed by 2d Lieut. Powhattan H. Clarke, from Calabasas to Tucson and return, Aug. 26 and Sept. 1, are confirmed as necessary for the public service (F. O. 88, Sept. 1, D. Ariz.)

The following troops will proceed to the posts designated: Troop I (Baldwin's), to Fort Verde; Troops F (Kennedy's) and D (Keyes's), to Fort Thomas, and Troop K (Lebo's), to Fort Grant (F. O. 89, Sept. 6, D. Ariz.)

Leave for one month on Surgeon's certificate is granted Capt. Robert G. Smither (S. O. 75, Sept. 10, Div. P.)

Sick leave is extended Capt. Robert G. Smither for five months (S. O., Sept. 23, H. Q. A.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., **A, C, I, L,** and **K,*** Presidio, San Francisco, Cal.; **B** and **H,** Alcatraz Island, Cal.; **E,*** Vancouver Bks., W. T.; **D** and **F,** Ft. Canby, W. T.; **G,** Ft. Monroe, Va.; **M,** Ft. Mason, Cal.

* Light battery.

1st Lieut. Henry M. Andrews will remain at Alcatraz Island, Cal., on duty, until Oct. 1, and 2d Lieut. Samuel D. Sturgis, Jr., will remain at Alcatraz Island, Cal., on duty, until Oct. 1 (S. O. 74, Sept. 8, Div. P.)

Hdqrs., H, and I, Ft. Leavenworth Kas.; A, B, C, E, F, and G, Ft. Douglas, Utah; D, Camp on Montezuma Creek, San Juan County, Utah; K, Salt Lake City, Utah.

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, C, D, F, H, and K, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.

Leave for one month, with permission to apply for an extension of twenty days, is granted 2d Lieut. Charles H. Cochran (S. O. 117, Sept. 14, D. Platte.)

Capt. Thaddeus S. Kirtland, Camp Pilot Butte, will proceed to Fort Bridger, Wyo., on public business (S. O. 119, Sept. 17, D. Platte.)

Leave for fifteen days is granted Capt. Henry B. Freeman, Fort Laramie, Wyo. (S. O. 119, Sept. 17, D. Platte.)

The fifty-one recruits under orders from recruiting depots will be assigned as follows: Fort Laramie, 11; Fort Washakie, 24, and Camp Pilot Butte, 16 (S. O. 116, Sept. 13, D. Platte.)

Leave for four months, to take effect Oct. 1, is granted 1st Lieut. John T. Van Orsdale, R. Q. M. (S. O., Sept. 21, H. Q. A.)

8th Infantry, Colonel August V. Kautz.

Hdqrs. F, and H, Ft. Lowell, Ariz.; A, Ft. Bowie, Ariz.; C, Ft. Mojave, Ariz.; D and K, Ft. Huachuca, Ariz.; B, E, and I, Ft. Grant, Ariz.; G, Ft. McDowell, Ariz.

Capt. W. S. Worth, with his company (K), will proceed to Albuquerque, N. M., and there remain until the arrival of the Chiricahua and Warm Spring Indians from Fort Apache (F. O. 89, Sept. 6, D. Ariz.)

The journeys performed by Capt. W. S. Worth, from Fort Huachuca to Fort Bowie, and from Fort Bowie to Bowie Station, Sept. 5 and 6, are confirmed as necessary for the public service (F. O. 89, Sept. 6, D. Ariz.)

2d Lieut. William A. Mercer will take charge of the enlisted men designated to represent this Division on the Army Team (S. O. 75, Sept. 10, Div. P.)

9th Infantry, Colonel John S. Mason.

Hdqrs. and F, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; C, E, H, and I, Ft. Wingate, N. M.; A and G, Ft. Apache, A. T.; K, Ft. Verde, A. T.

The C. O. Presidio of San Francisco, Cal., will send the competitors for places on the Division Rifle Team to their stations. Those from the Dept. of Arizona will be sent in charge of 1st Lieut. Thomas S. McCaleb (S. O. 77, Sept. 13, Div. P.)

1st Lieut. T. S. McCaleb has qualified as a sharpshooter.

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; D, F, and H, Ft. Bliss, Tex.; G and K, Uncompahgre, Colo.

Official notice having been received of his promotion from 1st Lieutenant, Co. D, to Captain, Co. I, at Fort Union, N. M., Capt. W. F. Duggan will proceed to the station and take command of his company (S. O. 86, Sept. 9, D. Ariz.)

Leave for two months, to take effect about Oct. 1, is granted Capt. Sumner H. Lincoln, Fort Lyon, Colo. (S. O. 143, Sept. 20, Div. M.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

1st Lieut. H. O. S. Heistand is relieved from further duty in connection with Dept. Rifle Competition and will return to Fort Yates, D. T. (S. O. 95, Sept. 11, D. Dak.)

1st Lieut. R. J. C. Irvine, having been appointed Adjutant of the regiment, is relieved from duty at Fort Yates, and will proceed to Fort Sully, D. T., and report for duty (S. O. 95, Sept. 11, D. Dak.)

2d Lieut. Charles W. Penrose is detailed on Gen. Rec. Service at Fort Yates, D. T., vice 1st Lieut. R. J. C. Irvine, Adjt., relieved (S. O. 95, Sept. 11, D. Dak.)

1st Lieut. R. J. C. Irvine, Adjt., is detailed on Gen. Rec. Service at Fort Sully, D. T., vice Capt. Leon A. Matile, relieved (S. O. 95, Sept. 11, D. Dak.)

Leave for six months, to take effect in October, is granted Col. Richard I. Dodge (S. O., Sept. 18, H. Q. A.)

The leave granted 2d Lieut. Arthur Johnson is extended one month (S. O., Sept. 21, H. Q. A.)

A neat "Roster of Commissioned Officers, 11th Infantry," reaches us this week, through the courtesy of the Regimental Adjutant. The list is headed by that gallant soldier, Colonel R. I. Dodge. The "Roster" reflects much credit on the regimental press.

12th Infantry, Colonel Orlando B. Willcox.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

1st Lieut. Frederick A. Smith, Adjt., having completed duty in connection with the rifle teams authorized to take part in certain matches at Creedmoor, will return to Madison Barracks, N. Y. (S. O. 141, Sept. 22, Div. A.)

13th Infantry, Colonel Luther P. Bradley.

Hdqrs., Santa Fe, N. M.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.; D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth Kas.

1st Lieut. Emerson Griffith is appointed recruiting officer at Fort Selden, N. M., relieving 2d Lieut. W. N. Hughes (S. O. 86, Sept. 9, D. Ariz.)

Capt. William Auman will return to his station (S. O. 76, Sept. 11, Div. P.)

Leave for three months is granted 2d Lieut. Albert B. Scott (S. O., Sept. 18, H. Q. A.)

Leave for two months on Surgeon's certificate is granted Capt. Wm. Auman (S. O. 77, Sept. 13, Div. P.)

Sergts. J. H. Martin, P. J. Carmody, and Jos. Graham, Corpl. A. E. Hogan, and Pvt. E. M. Druary, Co. B, have qualified as sharpshooters.

15th Infantry, Colonel Joseph N. G. Whistler.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

Leave for one month is granted Capt. John W. Bean, Fort Randall, D. T., to take effect about Sept. 21 (S. O. 96, Sept. 14, D. Dak.)

Leave for eight months, with permission to go beyond sea, to take effect on or about April 1, 1887, is granted 2d Lieut. William F. Blauvelt (S. O., Sept. 21, H. Q. A.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., A, B, C, F, and H, Ft. Concho, Tex.; D and E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; G and K, San Antonio, Tex.

Co. A is relieved from duty at Fort Concho, and will proceed to the post of San Antonio, Tex., and take station (S. O. 127, Sept. 13, D. Tex.)

1st Lieut. S. R. Whitall is relieved from duty as member of the G. C.-M. at Fort McIntosh, Tex., and is detailed J.-A., vice 2d Lieut. B. B. Buck, relieved (S. O. 128, Sept. 15, D. Tex.)

Official notification having been received of the promotion of 1st Lieut. T. W. Morrison to be Captain, Co. D, vice Theaker, promoted, he will be dropped from the rolls of Co. B, as of his former rank, and will be taken up, as of his present rank, on the rolls of the company to which he has been promoted (S. O. 130, Sept. 17, D. Tex.)

Official notification having been received of the promotion of 2d Lieut. W. H. Cowles to be 1st Lieutenant, Co. B, he will proceed to join his company at Fort Concho, Tex. (S. O. 130, Sept. 17, D. Tex.)

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays, Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

1st Lieut. George L. Turner is appointed Regimental Adjutant (Orders 51, Sept. 8, 18th Inf.)

Lieut.-Col. J. J. Coppinger is relieved from duty at Fort Hays, and will proceed to Fort Gibson and assume command of that post (S. O. 103, Sept. 13, Dept. M.)

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D and I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

The leave for one month granted 2d Lieut. Woodbridge Geary is extended one month (S. O. 143, Sept. 20, Div. M.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

2d Lieut. James H. Waters is relieved from further duty in connection with Dept. Rifle Competition and will return to Fort Maginnis, M. T. (S. O. 95, Sept. 11, D. Dak.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

2d Lieut. Henry D. Styer is relieved from further duty in connection with the Dept. Rifle Competition, and will proceed to Fort Du Chesne, Utah, and report for duty (S. O. 114, Sept. 8, D. Platte.)

Capt. Evan Miles, 1st Lieut. Joseph W. Duncan, and 2d Lieut. John S. Parke, Jr., are relieved as members of the G. C.-M. at Fort Sidney, Neb., and Capt. George M. Downey and 2d Lieut. Almon L. Parmerter are detailed members of said court (S. O. 116, Sept. 13, D. Platte.)

Leave for six months on Surgeon's certificate is granted Capt. Edward B. Rheem (S. O., Sept. 21, H. Q. A.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

The leave granted 1st Lieut. E. W. Casey, Adjt., is extended ten days (S. O. 87, Sept. 11, D. Ariz.)

1st Sergt. J. Wanck, Co. A; Lieut. E. O. C. Ord and Sergt. C. Soffke, B; Sergts. C. E. Christiansen and H. C. Wood and Corpl. C. H. Carpenter, G; 1st Lieut. W. H. Kell, Sergts. J. Scahill, E. Miller, and O. N. Zook, Corpl. S. E. Justice, and Pvts. A. T. Swanman and J. A. Williams, H, have qualified as sharpshooters.

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

2d Lieut. D. B. Devore, having completed duty at Fort Niagara, in connection with rifle competitions, will return to Fort Wayne, Mich. (S. O. 138, Sept. 18, Div. A.)

2d Lieut. William H. Allaire is relieved from temporary duty at Fort Mackinac and will proceed to Fort Wayne, Mich., and report for duty with his company (S. O. 141, Sept. 22, Div. A.)

Lieut. W. H. Allaire has qualified as a sharpshooter.

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

1st Lieut. H. L. Ripley, Act. Chief Engr. Officer, will proceed to Fort Reno, I. T., for the purpose of making a preliminary survey with the view to the construction of a system of sewerage for the proper drainage of that post (S. O. 104, Sept. 16, Dept. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

Capt. D. B. Wilson is relieved from further duty in connection with Dept. Rifle Competition and will return to Fort Meade, D. T. (S. O. 95, Sept. 11, D. Dak.)

1st Lieut. George Andrews, Adjt., is relieved from duty as A. A. Q. M. at Dept. Hdqrs. (S. O. 96, Sept. 14, D. Dak.)

The leave for seven days granted 1st Lieut. R. H. R. Loughborough, Fort Meade, is extended four days (S. O. 96, Sept. 14, D. Dak.)

The leave for seven days granted Capt. W. I. Sanborn, Fort Sisseton, is extended twenty-three days (S. O. 96, Sept. 14, D. Dak.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, September 18, 1886.

RETIREMENTS.

Colonel Charles S. Stewart, Corps of Engineers, September 16, 1886 (act June 30, 1882).

Captain Charles J. Von Herrmann, 4th Infantry, September 17, 1886 (act June 30, 1882).

CASUALTY.

Captain William R. Shoemaker (retired), died September 16, 1886, near Fort Union, New Mexico.

Courts-martial.

The following courts have been ordered:

At Fort Snelling, Minn., Sept. 20. Detail: Capts. Charles Bentzoli and Edwin J. Stivers, 25th Inf.; 1st Lieut. Peter Leary, Jr., 4th Art.; 1st Lieuts. Owen J. Sweet, Edwin F. Glenn, and Harvey D. Reed, 2d Lieuts. Charles C. Tear, Alfred S. Frost, and William F. Martin, 25th Inf., and 1st

Lieut. Redmond Tully, 25th Inf., J.-A. (S. O. 97, Sept. 15, D. Dak.)

At Fort Sully, D. T., Sept. 20. Detail: Capts. Charles A. Wikoff, Ira Quinby, and William Hoffman, 1st Lieuts. George LeR Brown, R. Q. M., James E. Macklin, John H. Philbrick, and Pierce M. B. Travis, 11th Inf., and 1st Lieut. Robert J. C. Irvine, Adjt. 11th Inf., J.-A. (S. O. 97, Sept. 15, D. Dak.)

At Fort Maginnis, M. T., Sept. 23. Detail: Lieut.-Col. Leslie Smith, 20th Inf.; Capt. Henry Wagner, 1st Cav.; Capt. Charles O. Bradley, 20th Inf.; Capt. William W. Gray, Med. Dept.; Capt. Thomas Garvey, 1st Cav.; 1st Lieut. Herbert Cushman, 20th Inf.; 2d Lieut. Godfrey H. Macdonald, 1st Cav., and 2d Lieut. James H. Waters, 20th Inf., J.-A. (S. O. 97, Sept. 15, D. Dak.)

At Madison Barracks, N. Y., Sept. 21. Detail: Capts. Alex. B. MacGowan, John M. Norvell, and David J. Craigie, 12th Inf.; Capt. Edwin F. Gardner, Asst. Surg.; Capt. George S. Wilson, 1st Lieuts. Augustus G. Tassin and Frederick Von Schrader, 12th Inf., and 2d Lieut. Charles W. Abbot, Jr., 12th Inf., Jr., J.-A. (S. O. 138, Sept. 18, Div. A.)

At Fort Wayne, Mich., Sept. 22. Detail: Capts. George M. Randall, Joseph T. Haskell, and Richard I. Eskridge, 23d Inf.; Capt. Marlborough C. Wyeth, Asst. Surg.; 1st Lieuts. Frederick L. Dodge, Orlando L. Wieting, and Stephen O'Connor, 2d Lieuts. Edwin P. Pendleton and Daniel B. Devore, 23d Inf., and 1st Lieut. Edwin B. Bolton, Adjt., 23d Inf., J.-A. (S. O. 138, Sept. 18, Div. A.)

At Washington Barracks, D. C., Sept. 28. Detail: Major Edmund C. Bainbridge, Capts. Lewis Smith, James Chester, and James B. Burbank, 1st Lieuts. John B. Eaton, Edward Davis, Charles Sellmer, and William E. Birkhimer, and 2d Lieut. John D. Barrette, 3d Art., and 1st Lieut. Chas. Humphreys, 3d Art., J.-A. (S. O. 141, Sept. 22, Div. A.)

Army Boards.

A Board of Survey will meet at Rawlins, Wyo., Sept. 20, to report upon the quality and condition of coal received. Detail: Lieut.-Col. Henry L. Chipman, 7th Inf. (S. O. 118, Sept. 15, D. Platte.)

A Board of Survey, to consist of Col. Joseph C. Breckinridge, Insp.-Gen.; Major Thomas H. Handbury, C. E., and Capt. John R. Myrick, 3d Art., A. D. C., will meet at Chicago, Sept. 16, to fix the responsibility for deficiency in subsistence stores (S. O. 141, Sept. 15, Div. M.)

The Board of Officers of the Corps of Engineers will reconvene at Milwaukee, Wis., Oct. 20, 1886, to continue the consideration of the questions before it (S. O. 137, Sept. 20, C. E.)

Reloading Tools.—The following instructions for use of new parts of tools, to adapt them for reloading carbine cartridges, without wads, (model of 1886) are issued: Bench reloading tools—1st. In loading carbine cartridges, without wads, use the stem marked "carbine" for pressing home the bullets. 2d. Use the new total length gauge (2".45) for carbine cartridges, without wads. Hand reloading tools—3d. Use the new loading punch for carbine cartridges, without wads. Company commanders will, when necessary, make requisition upon the ordnance supply depots for the new loading punch, and return the old loading punch on receipt of the new one. (Letter A. G. O., Sept. 17.)

DEPARTMENT NEWS.

Dept. of the East.—Major-General Schofield.

The B. Altman and Co. B. B. C. was defeated in a contest with the Emerald B. B. C. of Governor's Island, on the latter named grounds Saturday, Sept. 18. Score, 7 to 11; 16 games won, 3 lost.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

Advices from Wood Mountain, Northwest Territory, give particulars of a bloody fight which took place recently just across the line south of that place between the Gros Ventres and Piegan Indians.

Dept. of Texas.—Brig. Gen. D. S. Stanley.

A New Laredo despatch of September 21, says: El Coyote's family deny the report that he was killed in the recent battle with Federal troops near this city. This places the officers engaged in an unenviable position, as their official report of the engagement was made public, and numerous congratulatory telegrams received from Federal, State and municipal officials in the frontier States, all thanking Capt. Herrora and Col. Feran for ridding the country of the terrible "Coyote." El Coyote is a large, powerful man, with long flowing beard, and it is believed that the troops mistook Juan Villcrat for El Coyote, as he closely resembled the leader, and the terrible hand to hand fight that he made for his life led them to feel doubly sure that they had killed the bold chieftain.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

The El Paso *Times* returns to the charge and says: "It is a matter of moral certainty that the geographical position of Fort Bliss will enforce its erection into a large post, containing several regiments of Federal troops, at no distant day."

RIFLE COMPETITIONS, 1886.

Division of the Pacific.—The competitions closed Sept. 15 with the following team:

	Total known distances	Total Skirmish firing	Grand total
1st Sgt. Roper, Co. F, 4th Inf., Columbia	335	174	509
Sgt. Gustin, Troop B, 2d Cav., Columbia	315	183	498
Corpl. Miller, Troop H, 2d Cav., "	329	166	495
Sgt. Denny, Co. D, 14th Inf., Columbia	325	167	492
Sgt. Pendergrass, Troop A, 10th Cav., Ariz.	319	169	488
1st Sgt. Hudson, Co. H, 14th Inf., Colu'bia	333	154	487
Mus. Lunsford, Co. F, 14th Inf., Columbia	322	162	484
Pvt. Stamm, Co. B, 1st Inf., California	350	127	477
Lieut. Mercer, 8th Inf., Arizona	321	154	475
Pvt. DeLeale, Co. E, 22d Inf., Arizona	332	142	474
Sgt. Simon, Troop H, 6th Cav., Arizona	307	161	468
Mus. Temple, Co. F, 9th Inf., Arizona	321	146	467

Major-General Howard presented the prizes.

1st Sergt. Ludwig Roper, Co. F, 4th Inf.; Sergt. Morrow C. Gustin, Troop B, 2d Cav.; Corpl. George E. Miller, Troop H, 2d Cav., and Sergt James B. Denny, Co. D, 14th Inf., with Sergt. J. C. Pendergrass, Troop A, 10th Cav., as an alternate, will represent the division in the Army team and will proceed to Fort Leavenworth, Kansas, in charge of 2d Lieut. W. A. Mercer, 8th Inf. Sergt. M. C. Gustin, Troop B, 2d Cav., having made the best aggregate score for the two days' competitive skirmish firing, received the division skirmish medal. Sergt. Douglas Zirkle, Battery B, 1st Art., having made the highest score in the four days' contest in the Dept. of California, received the division commander's department medal for that department. 1st Sergt. Edward A. Hudson, Co. H, 14th Inf., having made the highest score in the four days' contest in the Dept. of the Columbia, received the division commander's department medal for that department. 1st Sergt. John Ryan, Co. A, 8th Inf., having made the highest score in the four days' contest in the Dept. of Arizona, received the division commander's department medal for that department. 1st Sergt. Edward A. Hudson, Co. H, 14th Inf., having made the highest four days' score in the division contest of the holders of department medals, received the division commander's division medal.

Division of the Missouri.—The competitions closed on Thursday, Sept. 23. We have received careful statistical accounts of each day's firing, but as the interest centres on the results we give the latest to hand, giving the aggregate score of the first 25 competitors up to and including Sept. 20:

	Agg. for 3 days.
Kerr, Platte	352
Michel, Missouri	341
Crawford, Texas	338
Weeks, Platte	333
Macomb, Missouri	325
Garrard, Missouri	323
Torrey, Platte	321
Schmidt, Texas	318
Otten, Dakota	314
Hamburg, Missouri	311
Mayo, Dakota	311
Palmer, Dakota	310
Stevens, Platte	310
Taliaferro, Texas	309
Green, Texas	309
Bouton, Platte	308
Zobel, Dakota	308
Peterson, Missouri	306
Miller, Misssouri	301
Ehrenfreid, Missouri	300
Ray, Missouri	298
Garlinghouse, Texas	293
Unger, Dakota	291
Gormley, Texas	291
Lewis, Platte	288

The team totals are as follows:

	Skirmish first day		Skirmish for 2 days		Aggregate for 3 days	
	Total	Per cent	Total	Per cent.	Total	Per cent.
Missouri	830	34.58	1,591	33 14	3,539	47.76
Texas	732	30.50	1,429	29.77	3,379	46.93
Dakota	728	33.09	1,420	20.87	3,278	46.17
Platte	672	27.17	1,318	27.46	3,250	45.14

Lieut. J. T. Kerr, 17th U. S. Infantry, is the winner of the division skirmish medal and the special prize offered by Mr. Cranston.

Army Contest.—Commences at Fort Leavenworth on Sept. 29, Col. S. E. Blunt superintending. The selections from the Atlantic, Missouri and Pacific are all on the ground, and some fine shooting is expected.

(Correspondence of the Army and Navy Journal.)

THE MILITARY ACADEMY.

WEST POINT, N. Y., Sept. 23, 1886.

OUR post has been very quiet the past week. The tennis games have been the only attraction. The first prize for the singles is narrowed down to Lieutenants Gibson, Fisk and Stuart. After this has been decided there will be a series of handicap single games and then doubles.

There have been a number of visitors lately, among whom were Capt. Griffin, of the Engineers; Lts. Converse, 3d Cav., and Barney, 2d Artillery; McIver, 7th Infantry; Lieutenant Rodgers of the Navy, visiting his brother, and Lieutenant Tillman, of the Navy, who is with Prof. Tillman.

Mrs. Newton, wife of Captain Newton, 16th Infantry, is a guest of Mrs. Ellis.

Lieut. Kirby is away on a 15 days leave of absence.

Dr. J. P. Kimball has gone to Geneva, N. Y., to spend about 20 days.

The week of religious services at our Catholic chapel closed last Saturday. Judging from the large attendance at each of the daily services, the mission was very successful. This week the two visiting clergymen, who are of the Paulist Fathers, and not Jesuit, as stated last week, are having a series of meetings at Highland Falls. There is no place in the country where mission work is needed more than at Highland Falls, and if the Reverend Fathers succeed in reforming some of the many places where liquor is sold, they will receive the thanks of the community.

There have been an unusually large number of desertions from the detachments at this post, several going from each of the companies.

In the absence of Colonel Hasbrouck on Tuesday, Lieut. Price officiated as commandant at the afternoon battalion drill.

FIELD SERVICE IN ARIZONA.

A CORRESPONDENT who served with the column of cavalry, infantry, and Indian-Mexican scouts, commanded by 1st Lieut. James Parker, 4th Cavalry, operating recently in Mexico, co-operating with Capt. Lawton's column, sends us the following:

The command left Cloverdale, N. M., July 14. It remained at Carretas, Mexico, July 18 to July 27, awaiting the arrival of Lieut. Gatewood, with two Chiricahua scouts, sent to communicate with the hostiles should they sue for terms. During the stay at Carretas the Mexican officials made some trouble, and it was learned afterwards that the State Government of Chihuahua sent a force of 275 troops with orders to disarm the American troops and put them across the border; that the advance guard of this force, 75 in number, reached Carretas ranch two days after the American command had left. The Mexican troops were unable to go farther, as the Sonora State line passes near Carretas, and the Americans had crossed it.

July 27 the command left Carretas, escorting Lieut. Gatewood, and arrived at the Haros River Aug. 5. Here we met Capt. Lawton's command, and it was thought best that Lieut. Gatewood should join him. From the Haros River the command scouted east into the Sierra Madres, then north, cooperating with Lawton. On Aug. 23, the date the first overtures were made by the Indians, the command was near the Indians and east of them, while Capt. Lawton was west of them. The command reached the United States Aug. 25 and camped nearby during the negotiations between the hostiles and Gen. Miles.

The officers attached to the column were Lieut. Richardson, 8th Infantry, Lieut. Bullard, 10th Infantry, and Dr. Banister, Medical Corps.

(Correspondence of the Army and Navy Journal.)

STANDING ROCK AGENCY.

A CORRESPONDENT writes: We paid a recent visit to Standing Rock Agency or Fort Yates, to reach which it was necessary to cross the Missouri in a skiff. This was done without accident, and we reached Fort Yates in time to witness "guard mount." We here met Capt. O. B. Reed and his charming wife, Lieut. Tompkins, and Surgeon Deeble. Through the courtesy of Capt. Read the party was furnished with an ambulance, and, chaperoned by Mrs. Read, we visited the Indian stores and the reservation. On the latter it is stated 4,000 Indians live. Standing Rock is named from a dirty, bluish-colored rock, about two and a half feet high, about one foot wide at its base, and about six inches at its top, which stands on a cliff near the fort.

At Fort Yates we saw the dog Rusty, which, with the scout Curley and the horse Comanche, were the only survivors of the Custer massacre. The dog is a mongrel, and is quite old, and is unable to walk; still it is tenderly cared for by the soldier boys at Fort Yates on account of the sad memories it recalls. While Sitting Bull is nominally the "big chief," there is a subordinate chief by the name of Gaul, whom the officers of the post think is the most intelligent Indian they ever met, and it is he who wields a greater influence than does old Sitting Bull himself. P.

COURT-MARTIAL CASES.

Gen. John Gibbon in a recent case says: "The court, in the opinion of the reviewing authority, transcended its power in directing the judge advocate to strike out the 2d specification supporting the 2d charge. The specification does not recite previous *trials* and *convictions*, and moreover, after charges have been duly referred for trial such action is only authorized if it be the result of a motion by the accused."

BASE BALL ON GOVERNOR'S ISLAND.

To the Editor of the Army and Navy Journal:

IN your issue of last week a correspondent, writing of the late game of ball between the Marine and the Emerald Clubs, alleges as the reason of the Marines' success, that their club was composed of only "four Marines, and the balance picked from the various clubs of Brooklyn." The truth is, there is but one outsider playing with the Marines, and he, the only alien among the denizens, is a fully accredited member of the club. The game at Governor's Island was partly played by only eight Marines, and won by the remarkable score of 30 to 6. Now, as a Marine and an advocate of fair play, I defy the correspondent to prove his assertion, and will state, that the Marines will meet the Emeralds, either with our own nine or one selected from the awkward squad, or a nine composed of men who have seen 35 years of service, and not only again defeat them, but teach them a wholesome in ball playing. Why should we seek aid from the Brooklyn clubs that have been unable to successfully compete with us? The correspondent states that the Emeralds have played 18 games, and lost but three. Will he supply us with a list of such clubs, and the scores, for it would make a valuable addition to our club's archives, as a literary curiosity.

Let the correspondent avoid drawing upon his fancy for his facts; let him also remember that the game at Governor's Island was played for a ball, which, as yet, although won, has not been forthcoming. JOHN H. GRUPP, 1st Base, Marine B. B. C.

BROOKLYN BARRACKS, U. S. M. C.

THE SIGNAL SERVICE.

THE St. Louis *Globe-Democrat* referring to the Signal Service says: "It should be taken out of the control of the War Department, and placed under scientific direction and development. It is notorious that the present head of the bureau is a man whose scientific attainments are of a very indifferent order, and whose methods are in no respect calculated to promote scientific inquiry. The same is to be said in a general way of the agents charged with the practical duties and responsibilities upon which the success of the service immediately depends. It is useless to expect satisfactory results where there is so much of incompetency and such a lamentable want of sympathy with the true objects of the enterprise. We ought to have Signal Service of positive value to the country; but we shall never have it so long as the present arrangement shall be continued."

ARMY OF THE TENNESSEE.

ONE of the little speeches made by Gen. Sherman at the reunion of the Army of the Tennessee in Rock Island, Ill., on Sept. 15, was as follows:

MR. LUNDY AND GOV. OGLESBY: I thank you in the name of the Society of the Army of the Tennessee for the hearty welcome you have given us and for the kindly greetings which meet us at every corner of your streets. The Army of the Tennessee is fast going into history, and of the few men who are here to-night known to me personally, but may not be known to the audience, many of them commanded armies, some divisions, some brigades, some were staff officers. I remember them all; but it is very hard for me even at this time to see before me the old soldiers that marched and tramped with us through the South, yet each and every one of them is an epitome, is in himself a history, and he can tell the tale of the war better than I can, and better than any one who did not cross the Ohio during the war. The Army of the Tennessee took its name from the River Tennessee, just as the Army of the Potomac took its name from the River Potomac, the Cumberland from the Cumberland, the Ohio from the Ohio, the Mississippi from the Mississippi. We naturally divide into families in ordinary life. So armies take family names, and the Army of the Tennessee was that small body of men which, led by Gen. Grant, went up the Tennessee River in the winter of 1861-2, and first fought at Henry and Donelson. At that time it was not known as the Army of the Tennessee, but soon after it grew into a name, and then fought at Shiloh, afterwards at Vicksburg, and finally, after—I don't want to call it a defeat, because I know I might not convince some of my Cumberland friends—but after the shaking up they got at Chickamauga we went to their relief. [Laughter.] There Gen. Grant assumed the great character which he afterwards carried to the end of the war. The battle of Chickamauga, fought by the Armies of the Cumberland, Ohio, and Tennessee, and afterwards commenced the Atlanta campaign, you all, even the children in the audience, must recall. We went to Atlanta, fighting for 120 days, during which time, not for a minute, nor an hour, nor a day, was there an intermission of shot and shell and the sounds of battle—a battle of 120 days' duration, in which we were successful. Then to Savannah, and from Savannah northward until our enemy threw up the sponge and cried enough. [Applause.] The Army of the Tennessee doesn't boast of its history, for it was the first to say, "Go home and behave yourselves and we will forgive you cheerfully." I think the Army of the Tennessee, composed of 65,000 of the best men in America, of which Gen. Logan was the head [applause], was the first to say, "Go home; obey the laws of the place where you

are; be good citizens, and you shall be free from further prosecution or further punishment." They are under the ban still. The men who fought against us during the war are still paroled prisoners. Some of them seem to forget it. [Applause.] But we of the Army of the Tennessee do not wish to revive any such thoughts. We come here with kindness in our hearts, with charity to all, and malice to none, to exchange the greetings of old soldiers, to be thankful that we are still alive, and to meet our fellow-citizens in their prosperity and happiness; and if any words we may say or any deeds we may do will add to their happiness I believe that every member of the Army of the Tennessee that still survives will give them a helping hand and a cheering word. And now, my fellow-soldiers, in your name, as your mouthpiece, as your President, I again return thanks to the communities in which we now are—the City of Rock Island and the great State of Illinois. [Applause.]

HARTFORD'S MEMORIAL ARCH.

THE dedication of the Memorial Arch at Hartford, Conn., took place Sept. 17, amid great enthusiasm, it being estimated that there were present 7,000 veterans, 3,000 militia and about 30,000 spectators. The arch is in the nature of a triumphal arch, of mixed Roman and Grecian architecture. On the north front the artist gives a "Story of the War" and on the south "The Return of the Army." The memorial cost $60,000. The inscription reads:

> In Honor of the Men of Hartford
> Who served, and in Memory of those who fell, on
> Land and on Sea, in the War for Union, their
> grateful Townsmen have raised this Memorial.

The formal delivery was made by Col. G. P. Bissell and the acceptation by Gen. Joseph R. Hawley, who made an eloquent address. He said that the 17th of September has been a popular day for veteran celebrations in Connecticut, for it is a day marked by gallant work by Gen. Harland's Connecticut brigade in the battle of Antietam, when 602 of Connecticut's sons were left on the field. After referring to the brilliant colonial record of Hartford, Gen. Hawley came down to the period of the rebellion, and eulogized Hartford's share in sending soldiers to the front. Gen. Hawley closed with quoting from President Lincoln's memorable address at the dedication of the Gettysburg National Cemetery.

(Correspondence of the Army and Navy Journal.)

PENSACOLA NOTES.

THE summer has passed quietly and pleasantly at this station, and the arrival of fall, though less perceptible than in the Northern States, is yet marked by the shorter days and cooler nights. Frequent rains and persistent breezes from the great Gulf have robbed the long hot season of many of its discomforts, and the navy-yard and Fort Barrancas are actually looking greener and fresher now than in May.

Among the marines, who are the most numerous body of Government people here, good health has prevailed, and the emergency tents pitched early in the season by Captain Cochrane for possible fever patients have thus far been tenantless. Only a few cases of climatic disease have occurred since last January, and none of these at all serious.

As precautionary measures, the men were provided for the summer campaign with thin flannel jackets, plenty of white linen trousers, straw hats, mosquito bars, pure cool water, and sleeping quarters in an immense mold loft belonging to the Construction Department. The guard duty was also made as light as possible, and the sentinels authorized to rest their pieces in safe places after they were posted. Salt water bathing was encouraged and alcoholic liquors discouraged, and thus the marines have gotten through the hot weather finely.

The reports of yellow fever at Ship Island and Biloxi attracted attention, of course, but excited no alarm because of the confidence reposed in the vigilance of the Boards of Health of those Gulf cities. Commerce, a more important matter than philanthropy or sentiment, furnishes a great safeguard.

It has been observed that where yellow fever flourishes trade languishes, and the awakening of the Sunny South to this simple fact has resulted in increased vigilance and much incidental protection to human health.

The Bureau of Medicine and Surgery has recently taken steps to place suitable marks over the graves of those who have left their bones here and an examination of the cemeteries directed by Surgeon J. W. Ross, U. S. N., reveals about 125 graves needing much attention. Of this number a very large percentage has, through the decay of wooden head-boards, become "unknown." It has been suggested in this connection to place the two Naval cemeteries, now somewhat neglected, under the care of the Superintendent of the Barrancas National Cemetery, near by, who, with a little additional assistance, might keep them all in the same highly creditable condition that his present charge is.

By November 1, it is expected that the Fort Barrancas garrison, two companies of 2d Artillery, under command of Capt. J. E Wilson, now in camp at Atlanta, will return to their regular station. Reports from the camp state that they are tired of living under canvas and will be glad to get back. It is likely that Col. Langdon will also return from St. Augustine. At present, the post is in charge of Ord. Sergt. Carroll and some hired watchmen.

Invitations for proposals for the removal of the two miserable tenements which have so long blotted the beautiful grounds at Barrancas are posted and it is hoped that the ides of November will witness the "Oldmixon" and "Wentworth" *casas* neatly piled up on a back lot for kindling—a victory of peace.

PENSALOA, September 20, 1886.

ASSISTANT NAVAL CONSTRUCTOR FRANCIS T. BOWLES returned to Washington last week from a month's vacation pleasantly spent in Boston and vicinity, and left a few days after for Norfolk, Va., to look up quarters preparatory to entering upon his new duties there. In his search for a home he will make provision for two, as in November next he returns to Boston to take unto himself a wife.

REAR-ADMIRAL W. W. QUEEN, U. S. N., at present the commandant of the Ordnance Yard, Washington, is a native of Washington, D. C., but was appointed from New York. His first entry into the Service was forty-five years ago on the 7th of October, and since that date the Admiral has seen no less than eighteen years of sea service, and has cruised in most of the seas of the world. During the War of the Rebellion he commanded the U. S. S. *Wyalusing* during one of the most fiercely contested naval combats of the war with the celebrated Confederate ram *Albemarle*, afterwards destroyed by the gallant Cushing. At the close of a valuable life (for Rear-Admiral Queen retires on the 6th of October next), it is interesting to recall from the records of that fight the indorsement written on Lieutenant-Commander Queen's report of his share in the engagement. It is as follows:

AGAWAM, May 16, 1834.

Lieutenant-Commander Queen, his officers, and men appear to have done well their part in this gallant action.

S. P. LEE, Acting Rear-Admiral.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

SWATARA, 3d rate, 8 guns, Comdr. E. T. Woodward. At Portsmouth, N. H., undergoing repairs.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At Newport, R. I.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. At Portsmouth, N. H., undergoing repairs.

S. Atlantic Station—Captain E. E. Potter (in command temporarily).

Acting Rear Admiral D. L. Braine will shortly command this station.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. At the New York Navy-yard. She will shortly be ordered to join the South Atlantic Station.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. At Rio de Janeiro Aug. 12. Will probably remain until October.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro Aug. 13.

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. Arrived at Leghorn, July 28.

KEARSARGE, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. To sail from Leghorn to meet *Brooklyn* at Gibraltar about Sept. 10, and thence homeward bound.

QUINNEBAUG, 3d rate, 8 guns, Comd. Geo. W. Coffin. To meet *Brooklyn* at Gibraltar Sept. 10.

Pacific Station—Rear-Adm. E. Y. McCauley.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Was at Iquique, July 31.

HARTFORD, 2d rate, 16 guns (f. s. p. s.), Capt. J. H. Gillis. Was at Callao July 31. Will shortly be ordered to San Francisco, Cal., where she will undergo repairs.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Sailed from New York, Aug. 16, for Pacific Station.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson (ordered.) Was at Payta, Peru, Sept. 13.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr. George B. Livingston in command. Used as a storeship at Coquimbo, Chili. Comdr. S. H. Baker is ordered to command, per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Advices from Auckland, N. Z., of Aug. 16, say that the *Mohican* arrived from Fiji on Aug. 16, and would remain three weeks.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. Address care of Navy Pay Agent, San Francisco, Cal. Arrived at Sitka Aug. 16, 1886, and was still there Sept. 4.

SHENANDOAH, 2d rate, 9 guns, Captain Byron Wilson. At San Jose de Guatemala Sept. 4. Expected at San Francisco Oct. 15, where she will undergo repairs.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station.

Asiatic Station—Rear-Admiral J. L. Davis.

Commodore Ralph Chandler has been ordered to command this station, and will leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail, to care U. S. Consul, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Gibraltar Sept. 10, 1886, as reported by cable.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Sailed from New York for the Asiatic Station Sept. 2, 1886.

MARION,† 3d rate, 8 guns, Commander Merrill Miller. Sailed from Shanghai for Cheefoo Aug. 14.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Canton Aug. 20, to be relieved by the *Palos*, and then proceed to Hong Kong for repairs.

OMAHA,† 2d rate, f. s. a. s., 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL, as having left Shanghai, China, Aug. 10, for Valdivostok, Hakodate and Port Hamilton. Will return to Shanghai Oct. 1.

OSSIPEE,† 3d rate, 8 guns, Comdr. John F. McGlensey. Left Nagasaki, July 10, for Chemulpo, Corea. Has been ordered to return to New York by the middle of February, 1887.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. Sailed from Shanghai for Canton Aug. 10, to relieve the *Monocacy*.

TRENTON, 3d rate, 10 guns, Capt. Robert L. Phythian. Put out of commission at Fort Monroe, Sept. 18.

Apprentice Training Squadron.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor. Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. Sailed from Madeira for Newport, R. I., Sept. 11.

SARATOGA, 3d rate, 12 guns, Comdr. C. H. Davis. Sailed from Madeira for Newport, R. I., Sept. 11.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr. Lieut. Emory telegraphs the Navy Department, from Gloucester, Mass., Sept. 23, as follows: Derileet Lizzie D destroyed. All obstructions to navigation removed. *Despatch* sails for Boston when weather clears.

DOLPHIN, despatch boat. Lieut. Chas. O. Allibone in command. At Norfolk, Va., undergoing repairs.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. At Norfolk, Va., for repairs.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Penn.

RANGER, 3d rate, 4 guns, Comdr. Chas. E. Clark. At San Francisco. Comdr. F. A. Cook has been ordered to command.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. Schoolship. Cruising in Long Island Sound.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. Sailed from Newport, R. I., Sept. 22, on trial trip at sea.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 20 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Lieut. Comdr. Chas. A. Schetky, commanding officer pro tem. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Silas Casey. Receiving Ship. At Washington, D. C.

PHILOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax. Catskill. Lehigh, Mahopac, Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

VARIOUS NAVAL ITEMS.

THE San Francisco *Report* says: Customs officers searched the *Alert* Sept, 10 and found on her goods liable to a duty of $700.

A NOVEL steamer, the *Gluckauf*, Captain Fortmann, arrived at New York recently from Newcastle, England. She is built expressly for the transportation of petroleum oil in bulk, is rated at 2,600 tons, and her capacity is 680,000 gallons. The enterprise is due to some prominent Bremen merchants, whose aim it is to counteract the inroads that Russian oil has made on the trade in Germany.

WE learn from Australia of a conflict between the German gunboat *Albatross* and the natives of the New Hebrides. It appears that the *Albatross* opened fire on the natives in revenge for the murder of Klein and Cullen. Twenty were killed and many wounded. The crew of the *Albatross* then landed, whereupon the natives decamped to Pentecost Island, where the *Upolo's* mate was murdered. The Germans pursued them and opened fire with Gatling guns, which did terrible execution. Several villages were burned by the Germans.

THE daily papers mention the fact that the *Hartford*, flagship of the South Pacific Station, is to go out of commission shortly at the Mare Island Navy-yard. Speculation is indulged in as to her successor as flagship. The *Shenandoah* is en route for San Francisco, and will probably undergo extensive repairs, or perhaps go out of commission. The South Pacific will thus be left with but three cruising vessels, the *Mohican*, *Adams*, and *Iroquois*. Of this number the *Mohican* is cruising among the islands of the Pacific, several thousands of miles distant, and the *Iroquois* will soon require a tour at some Navy-yard for repairs, having been commissioned about four and a half years ago.

A LETTER lately received from a Navy officer in China tends to show that the new British Navy is not a success. The officer writes that he had recently visited on board the new British unarmored cruiser *Leander*, and, from the way the officers on board growled, he concluded that Great Britain does not lead us as much as has been thought. They (the officers) say her speed is by no means what was expected of her, and even then, while on a cruising station, changes were constantly being made, which were necessary to increase both her comfort and efficiency. The new steel armed despatch boat, which is also in the Chinese Squadron, is as much of a disappointment. She was calculated and built for nineteen knots speed in any weather, but at usual steam makes twelve knots. When forced at higher steam she makes but little more, is very wet, and rolls so badly that her speed is decreased. Her officers, too, denounce her as very unsatisfactory, and do not hesitate to growl very loudly.

THE Vallejo *Chronicle* is greatly exercised on the subject of the repairing of the *Hartford* at Callao. It says: "One year ago this ship was at the Navy-yard. All these repairs were then needed and asked for. At the same time there was an economical feeling on the Yard. No money should be wasted on useless repairs. The Republican methods should not be continued. Previous to the departure of the *Hartford*, the authorities asserted that her boilers were not fit to take the ship to San Francisco, and before Red Rock was reached defects and weak spots began to show themselves. When she got down the coast her seams were open, and the oakum falling out, it was necessary to recalk her. Now she must have a general overhauling. The short sightedness of the authorities is now manifest. Forty thousand dollars in good American money is to be spent in a foreign port, when at the instance of a Democratic Secretary of the Navy it should be expended in an Amer-

ican Navy-yard. The consequence is a number of our mechanics and laborers are kept in idleness, eating up their little savings, and a perverse economy is being practiced."

THE U. S. Steamer *Despatch* arrived at Boston September 24.

THE British sloop-of-war *Cormorant* arrived in San Francisco a few days ago from San Diego.

THE U. S. steamer *Alert* has been put out of commission. She will undergo repairs at the Mare Island Navy-yard.

THE Navy Department is now informed that the *Atlanta* has not gone to sea, as was supposed, upon her trial trip, but is making a short trial in Long Island Sound to test her speed.

THE proceedings in the case of Paymaster George R. Watkins, U. S. Navy, who is now confined at the Mare Island Navy-yard, under sentence of dismissal, are before President Cleveland for action. In addition to dismissal, the court martial sentenced him to three years' confinement at hard labor in such prison as the President may designate.

THE suggestion is made that the question of fuel for steamers—the substitution of petroleum for coal—be solved by freezing petroleum, using it in the form of bricks. It can be packed as safely as coal, it is urged, even more so. Small tanks heated by steam would be provided to feed the furnace burners, and into these tanks there might also run pipes from the bunkers to carry away all leakage from thawing. In this manner, it is claimed, frozen petroleum can be carried by a steamer that will furnish considerably more fuel for the space occupied than the same bulk of coal.

THE New York *World* loses no opportunity to criticize our naval officers. Its latest criticism is on the subject of the recently-discovered defect in the 6 in. gun at the Washington Navy-yard, of which it says: "The incompetency of the Superintendent of the Ordnance Bureau at the Washington Navy-yard and the captain in charge has been made so prominent that there is little doubt Secretary Whitney will be compelled to dismiss one and detach the other. A 6-in. steel gun has just been condemned after having been finished and pronounced by Superintendent Davis and Captain McCormick as perfect. During the different periods of construction it was examined by the officers and superintendent, and regarded as all right. After being completed it was star-gauged and found correct as far as their knowledge went. Just previous to being placed on its carriage to be sent to Annapolis one of the mechanics, on examining its powder chamber, discovered a serious defect—a sand crease where the metal had not been welded. He reported his discovery, when a hurried consultation was held and the gun was condemned. It caused a loss of about $5,000. Superintendent Davis is very much exercised over the matter, and fears that the attention of Secretary Whitney will be called to it. Davis, it will be remembered, is the gentleman who holds his position by virtue of his strong influence among the church people, and had it not been for this powerful organization no doubt there would have been a new superintendent long ago."

NAVY GAZETTE.

Ordered.

SEPT. 22.—Lieutenant G. Blocklinger, to the Pinta, as executive.

Lieutenant Commander Asa Walker and Ensigns Albert Gleaves and John H. L. Holcombe, to the Naval Academy.

Ensign Douglass F. Terrell, to the Pinta, at Sitka, Alaska.

SEPT. 24.—Carpenter Benj. Markham, to the Galena, relieving Carpenter N. H. Jenkins.

Detached.

SEPT. 22.—Lieutenant Henry T. Monahon and Ensign Harry M. Dombaugh, from the Pinta on the reporting of relief, and ordered to return home and wait orders.

Resigned.

The resignation of Cadet Engineer O. B. Shallenberger has been accepted, to take effect from Sept. 3, 1886.

MARINE CORPS.

SEPT. 18.—Captain E. P. Meeker, granted leave of absence for three weeks from the 20th inst.

Captain H. A. Bartlett, detached from the Marine Barracks, Norfolk, Va., and granted leave of absence for two months from the 20th inst.

SEPT. 21.—1st Lieutenant B. R. Russell, detached from the Marine Barracks, League Island, Pa., and ordered to the U. S. S. Galena, at the Navy-yard, Portsmouth, N. H., without delay.

SEPT. 23.—Captain Wm. R. Brown, upon the arrival of the U. S. F. S. Hartford at Panama, detached from that ship and ordered to proceed by P. M. S. S. to New York and thence to Philadelphia and report arrival home to the commandant, U. S. M. C., by letter.

FROM THE EUROPEAN STATION.

REAR ADMIRAL S. R. FRANKLIN, commanding the European Station, under date of Aug. 23, informs the Navy Department that the *Quinnebaug* and *Kearsarge*, the latter homeward bound, will meet the *Brooklyn* at Gibraltar about Sept. 10. It was his intention to effect all the transfers at that time, and have the *Brooklyn* for to proceed on her cruise from that port. Should any circumstance render this plan impracticable, he would order the *Brooklyn* to join him at Leghorn or Genoa. Four more Naval Cadets (two serving in the *Kearsarge* and two in the *Quinnebaugh*) were to be sent home in the former ship; and three Ensigns transferred from the *Kearsarge* to the *Quinnebaug*. The Ensigns came out in this ship and have 19 months yet to serve; the cadets would be ordered home next April. This will save to the Government the expenses of their passage home by steamer and will give to the cadets the experience of a long Atlantic passage under sail.

LIEUT. COMMANDER FREDERICK W. CROCKER, U. S. N., who had his leg broken in two places last Saturday at Newport by falling down a coal shute, is reported to be improving rapidly.

COMMANDER W. R. BRIDGMAN, U. S. N., registered at the Grand Hotel, New York, on Thursday, and Rear Admiral W. G. Temple and Commodore Cicero Price, U. S. N., at the Everett House.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Sept. 20, 1886.

A Court-martial is in progress at the Naval Academy for the trial of Naval Cadet George B. Fife, of the Fourth Class, and such others as may be implicated with him in the alleged hazing of Naval Cadet Ralph Chandler and others. All the participants are members of the Fourth Class, which is the only class at the Naval Academy during vacation. The court is composed of Lieut. J. P. Merrill, President; Lieut. G. P. Colvocoresses and Lieut. R. M. Doyle, members, and Lieut. C. J. Boush, Judge-Advocate. Fife is charged with annoying Chandler in the cadets' washroom, compelling him to execute certain military manœuvres for the entertainment of the crowd that had congregated there, and inflicting other degrading indignities upon him. The trial of Cadet J. W. Clinton, of New York, is now progressing. Fife's case having been concluded. Fife entered the Academy in 1885, but resigned last spring. He again entered at the recent examination, receiving his appointment through President Cleveland. Chandler is a son of Commodore Chandler, U. S. N.

The following additional candidates have passed a successful examination and been admitted as cadets in the Naval Academy: John H. Dayton, at large; John Jherhorn, of New York; Urban T. Holmes, of Arkansas; Thomas J. Mason, of New Mexico; Wendell C. Neville, of Virginia.

BUREAU DESIGNS.

NAVY DEPARTMENT, Sept. 18, 1886.

REFERRING to the provisions in the act entitled "An act to increase the Naval Establishment," approved Aug. 3, 1886, relating to the construction of two seagoing double-bottomed armored vessels of about 6,000 tons displacement, . . . referring also to the notice and circular under date of the 21st ultimo, inviting designs for such vessels from naval architects and others, I have to state that in view of the possibility that no satisfactory places may be furnished in pursuance of said action, it is deemed advisable that the Department be prepared with designs of its own in case of the non-acceptance of any designs or plans that may be furnished under the notice referred to. To this end it is also deemed advisable that the Bureau of Equipment, Ordnance, Construction and Repair, and Steam Engineering should proceed without delay to prepare places for the construction of the armored vessels authorized by the act referred to, and the Chief of the Bureau of Equipment and Recruiting, Ordnance, and Steam Engineering should, together with Naval Constructor T. D. Wilson, U. S. N., meet as frequently as may be necessary for the purpose of considering and settling upon the general characteristics of such vessels. You are therefore requested to take such steps as may be necessary to cause to be performed with as little delay as practicable such parts of plans of the vessels in question as pertain to the Bureau of Construction and Repair, and to cooperate with the other officers above named with reference to general designs and general characteristics of said vessels.

It is suggested that plans should be prepared for one vessel only. Very respectfully,

D. B. HARMONY, Actg. Secretary of the Navy.

THE NAVAL WAR COLLEGE.

NEWPORT, R. I., Sept. 20, 1886.

THE class under instruction at the Naval War College visited the steel cruiser *Atlanta* to-day upon invitation of Lieutenant Cornwell, chief of the compass office of the Bureau of Navigation at Washington, who fully explained her compasses, and who is also here for the special purpose of testing the *Atlanta's* compasses. The *Atlanta* was steamed over the mile course in Narragansett Bay for the purpose of testing her speed and to take bearings from different points in order to test the compasses. She will soon proceed to sea and make a regular trip.

On Wednesday Lieut. C. C. Rogers, U. S. N., lectured at the War College on "Naval Staff Duties."

Prof. J. R. Soley, U. S. N., in charge of the office of war records at the Navy Department, opened on Tuesday morning at the War College his course of lectures on international law. The lecturer stated that it was his object to keep constantly in mind the actual necessities of naval officers in the practice of their profession. "The only real way for an officer to get a grasp of the subject," he said, "is to learn to reason upon cases for himself within the range demanded by his professional duties."

COAST SURVEY.

CAPTAIN C. O. BOUTELLE, of the Coast Survey, who recently returned from Charleston, where he was sent to make an examination of the harbor and approaches to the city, says that with the aid of the revenue steamer *McCulloch* and her officers nearly sixty miles of the harbor were traversed and six hundred soundings made to discover if any change had taken place in the formation of the bay. The result was immediately communicated to the city officials that what change had been noted was for the better, and this fact was at once cabled to the European ports with which Charleston does commercial business.

STATIONS OF COAST SURVEY VESSELS.

W. H. Brownson, Lt. Comdr. U. S. N., Hydrographic Insp'r.
Lt. J. F. Moser, U. S. N., Coast and Geodetic Survey Office.
Lt. Geo. H. Peters, U. S. N., Coast and Geodetic Survey Office.

Steamer *A. D. Bache*, Lieut. J. M. Hawley, U. S. N., commanding. Address Cutler, Maine.

Steamer *G. S. Blake*, Lt. J. E. Pillsbury, U. S. N., comdg. Address Station F, New York City.

Schooner *Eagre*, Lieut. Chas. P. Perkins, U. S. N., comdg. Address Stat on L, New York City.

Schooner *Earnest*, Lieut. C. T. Forse, U. S. N. Address Tulalip, Snowhomish, Wash. Ter.

Steamer *Gedney*, Lieut. F. H. Crosby, U. S. N., comdg Address Port Jefferson, L. I. N. Y.

Steamer *Hassler*, Lieut. David Peacock, U. S. N., comdg. Address Box 2402, San Francisco, Cal.

Steamer *M'Arthur*, Lieut. J. M. Helm, U. S. N., comdg. Address, Navy Pay Office, San Francisco, Cal.

Steamer *Patterson*, Lieut. Comdr. A. S. Snow, U. S. N., comdg. Address Navy Pay Office, San Francisco, Cal.

Steamer *Endeavor*, Lieut. G. C. Hanus, U. S. N., comdg. Address Bath Beach, King's Co., N. Y.

Schooner *Scoresby*, Lieut. Francis Winslow, U. S. N., commanding. Address New Berne, N. C.

Steamer *Arago*, Lt. F. S. Carter, U. S. N., comdg. Address Northport, L. I., New York.

Schooner *Palinurus*, Lieut. D. D. V. Stuart, comdg. Address Larchmont, N. Y.

ANSWERS TO CORRESPONDENTS.

F. L.—At Fort Omaha, Neb.

X.—The name Geronimo is a Spanish appellation, and is pronounced Heronimo.

G. E. D. asks: When will vacancies occur at West Point from the 8th and 9th Districts, in Missouri? ANS.—8th, in 1887; 9th, in 1890.

Teacher.—You seem to have a just claim for extra duty pay and should prefer it in the usual manner through your commanding officer.

Curious.—We have no information as to why a lieutenant colonel has been selected as Superintendent of the Consolidated Recruiting Service, nor as to why an officer who has hardly finished his two years' recruiting tour has been detailed as Superintendent. These matters are regulated at the A. G. O.

F. F. says: Please decide the following: 1. A says that as no appropriation has been made for payment of extra duty pay to hospital attendants, no arrangements could be made, so as to have the Q. M. D. defray the expenses until Congress in its next session makes the proper appropriation. B says that such can be done. ANS.—It cannot be done.

2. Has anything been done so far for the payment of extra duty pay in the Med. Department? ANS.—Congress having failed to appropriate any money for such services, and the Departments of the Government being prohibited to involve the Government in any contract for the future payment of money in excess of the appropriations (Sec 3732, Rev. Stat.) the acting Secretary of War decides that the services of such enlisted men as are needed as cooks and nurses in hospitals should be rendered and accepted under the express understanding that payment for the same depends upon the action of Congress of the United States, and that the rendition of such services does not create any claim against the United States for payment therefor unless Congress shall make an appropriation for the same.

PENSION WORK OF THE YEAR.

COMMISSIONER OF PENSIONS BLACK has filed with the Secretary of the Interior his report of the operations of the Pension Bureau for the fiscal year ended June 30, 1886. On June 30 last there were 365,783 pensioners on the rolls, composed of 265,854 Army invalids, 80,162 Army widows, minor children and dependent relatives, 2,953 Navy invalids, 1,877 Navy widows, minor children, etc., 1,539 survivors of the War of 1812, showing a loss during the year of 1,406 of this class. There were 13,397 widows of soldiers of the War of 1812, showing a loss during the year in this class of 3,815. Twenty-four original claims were filed in this class during the year; the names of 304 additional widows appeared on the rolls: 40,857 new pensioners were added to the rolls during the year; 2,229 were restored to the rolls; 23,089 pensioners' names were dropped from the rolls on account of death, remarriage and frauds, leaving a net increase in the roll of 20,685 names. The annual average value of each pension was $122.23, a gain of $11.68 over the average value of the preceding year. The aggregate annual value was $44,708,027.44, being an increase in annual value of $6,617,041.51. The amount paid for pensions during this year was $63,797,831.61; the difference in the amount paid and the annual value representing the accrued and arrearage pensions paid during the year.

IN the conclusion of his illustrated article on United States Naval Artillery, which appears in *Harper's Magazine* for October, Rear Admiral Simpson pays a well-deserved compliment to the officers attached to the Naval Bureau of Ordnance, saying:

> In contemplating the present condition of our new naval armament we have the consolation of knowing that, so far as concerns the study of the subject generally and in detail, the designs, and the initial manufacture, all has been done that could have been done with the resources available. What has been achieved has been without the facilities that are provided in modern gun factories; but notwithstanding all the drawbacks, it is probably safe to assert that no guns in the world to-day are superior to those that have been fabricated at the Washington Navy-yard of steel on the new adopted pattern. The work at this ordnance yard is carried on without ostentation; there is no flourish of trumpets accompanying its operations; it is not advertised, and the people do not yet know how much they owe to the ordnance officers of the Navy for the initiation of this new industry, which enables us to assert our ability to advance in this manufacture through the incontrovertible proof of work accomplished. The results are meagre in quantity, and at the present rate of manufacture it will require many years to equip our fleet with modern artillery; this should be remedied, as there is now no doubt as to the success of the productions of this establishment. The plant should be enlarged on a liberal and well-matured plan, and the work should be encouraged by generous appropriations.
>
> The ordnance officers of the Navy have proved their ability to carry on the work successfully; they only need the opportunity, and they will establish the artillery of the United States Navy in a position of which the country may again be proud.

The poet of the Navy, Commander William Gibson, contributes to this number of *Harpers'* a poem, "Indian Summer;" and we find in it an interesting article on the "National Home for Disabled Volunteer Soldiers," with the well-known face of Colonel "Andy" Smith, Governor of the Western Branch, looking out benignantly from the page. There are also portraits of the other Governors, General Luther Stephenson, Jr., Captain P. T. Woodfin, General Jacob Sharpe, and the venerable General Marsena R. Patrick. There are also pictures of the various Homes.

LIEUTENANT-COLONEL SOCRATES HUBBARD, U. S. Navy, Executive Officer of the *Tennessee*, has been condemned by a medical survey and ordered to the New York Hospital for treatment.

"IT is stated," says a Washington correspondent, "that the anti-Mormons are much disturbed over the assignment of 2d Lieut. Richard W. Young, 5th Artillery, to duty at Fort Douglas, near Salt Lake City. Lieutenant Young is a grandson of Brigham Young, and his presence there, it is claimed, menaces the supremacy of the government of the Territory. At the War Department the idea of such an objection being raised about the assignment to duty of a second lieutenant is ridiculed. It was not remembered that he was related to Brigham Young, and he was simply regarded as Lieutenant Young, of the Army, whom it was desirous to assign to duty with a light battery." To those who know Lieut. Young as a thoroughly efficient officer and a high-toned gentleman, the strictures of the "anti-Mormons" are worse than ridiculous.

THE NAVAL WAR COLLEGE.

IN the lecture before the Naval War College, by Lieutenant RODGERS, on Naval Staff Duties, attention was called to the fact that in every great power of Europe there are "peace footings" and "war footings" for both Navy and Army, but in none of them is there a "peace Navy" or a "peace Army." Every Army and Navy in Europe is during peace a great training school for war; and intelligence and education are insisted upon as essential. The art of war should be studied only after an officer has arrived at full manhood, and therefore most Governments have established separate institutions for nearly all arms of service, where officers may study strategy, grand tactics, and all the sciences connected with modern war. The highest of these military or naval schools are war academies specially designed to qualify officers who have been in either of the Services not less than three or four years, for high command and the performance of duty on the staff. Suggesting then the war colleges of Europe as models for our own, Lieutenant RODGERS then gave a very interesting description of those established by the great powers, both for the Army and the Navy, and explained the principles of the School of War in Italy at Turin, showed how the means of providing an efficient body of staff officers for the immense Army of Russia had led to the establishment of the Nicholas Staff Academy at St. Petersburg, its object being to train officers for the general staff, and referred to the War School of Austria, intended to qualify officers for high command and for employment in the staff.

Speaking of the German method for higher education for officers, Lieutenant RODGERS said:

It was the splendid work of her staff that enabled Germany in the Franco-Prussian war to mobilize her enormous Army in nine days, and to throw 400,000 fighting men and 1,200 guns on the frontier in eight days more. It was the knowledge of the science of warfare obtained at the War Academy at Berlin that enabled that General Staff to do the splendid work that crushed the greatest military power of Europe in less than a year.

The great powers of Europe have each established a branch of the naval service which corresponds exactly to the General Staff of the Army, and is known as the General Staff or Intelligence Branch at the Admiralty or Ministry of Marine. And what is true of the armies of Europe applies with equal truth to her navies: a corps of officers trained and educated in the science of naval warfare has been found necessary to execute the duties of General Staff and to hold high command in the naval service. France has established a War School for officers of marine artillery and infantry. It is true that the War Academy in its full sense has not yet become a distinct feature in the naval institutions of Europe. But the tendency is decidedly in that direction, and it is merely a question of a few years when it will be established through a full recognition of its absolute necessity. England has the Royal Naval College at Greenwich. In Germany the Naval School and Naval Academy form two establishments. In Italy there is no advanced course for the higher education of officers after graduation as cadet.

We have seen that every great nation except ours has established a War Academy for the education of its Generals, and the instruction of staff officers who are to advise and assist them. The corresponding courses of the great naval schools of Europe also indicate that the War Academy is to become the cornerstone of her naval systems and that, in part, it is already and soon will be fully established as a special institution for the education of the Admirals of the great powers and the instruction of the staff officers who are to advise and assist them in the operations of the navies of the future.

Lieutenant RODGERS finally gave a sketch of the General Staff in our Navy, and of the duties performed at the Navy Department by the Intelligence Office. He showed that although it is in its infancy already a great and useful work has been done, and urged that the officers who do that work should be specially trained and specially educated in the science of naval warfare, and in all that pertains to it. Can this be done? Our Government answers the question on this ground and says: "Yes, in the War College on Coasters' Harbor Island." And so it can. This institution is growing in favor. Let us not fear; Congress will support it as long as its students show that the Service and the country are gainers by its maintenance; and all will recognize the War College not only as the cornerstone of our Intelligence system, but when coupled with the interchange between the staff and line, as the school of instruction for all of the Commanders of the naval forces of our country. The squadrons of our Navy are absolutely without anything that can be called a staff, in the sense herein meant.

Naval actions in future will probably consist of a series of movements, ceasing only when the victory shall have been won. A constant supervision of the ships of the fleet must be kept up. By whom is the Admiral to be assisted? Not by the Captain of his flagship. He has his own ship to look after. By the Captain of the fleet? But the existence of such an officer presupposes the existence of a staff, and if a staff is worth having, it is at least worth while to train it for its duties. The work of procuring intelligence, arranging combinations, providing and establishing depots for supplies, will be far more laborious than in our former wars it has ever been, and an Admiral who finds himself about to conduct a campaign would probably hail with delight the presence of a body of staff officers whose minds, not preoccupied with the cares and duties of their own particular ships, might be devoted to these subjects. Indeed, it is scarcely possible to contemplate the contingency of our being involved in war without feeling convinced that a staff of some kind will be formed.

With reform in our civil service; with the sentiment of young and vigorous national life; with liberty as our watchword; with railways and telegraphs leading to our frontiers; with an Army and Navy armed with breechloaders organized on modern principles, and commanded by generals and admirals skilled in the art of war, what invader might we not repel, to what seas might we not carry our standard? Lieutenant RODGERS, in his excellent lecture opens a way to the science of war,

and the necessity for an organized staff in our Army and Navy must be recognized by everybody.

THE APACHES AT FORT MARION.

THE majority of the Indians, men, women and children, sent from Arizona, are now mainly at Fort Marion, Fla., in charge of Colonel L. L. Langdon, U. S. A.; Geronimo, Natchez, 19 bucks and 13 women and children are still at San Antonio where they will remain until President Cleveland, now returned to Washington, decides what disposition shall be made of them. Captain Dorst arrived at Fort Marion Sept. 18 from Leavenworth with ten bucks, three squaws, and three interpreters, including Chato, a Chiracahua; Loco, the head man of the Warm Spring Indians and the interpreter; Micky Free, a half-breed Mexican; White Concepcione, a pure Mexican, and Sam Bowman, a Cherokee half-breed. This party are under pay as Indian scouts, and form the delegation that recently went to Washington to petition the President that they should not be removed from their reservation. They appear resigned to their fate, but do not relish the change at all, and are averse to mingling with the other Apaches previously at Fort Marion. Lieutenant Colonel J. F. Wade, 10th Cavalry, with Surgeon Cleary and Cos. E, 22d Infantry, and K, 8th Infantry, arrived at Marion Sept. 20 with 381 Indians, and turned them over to Colonel Langdon.

The Indians previously in Fort Marion were brought there last spring. They are in number as follows: Number of men married, 10; unmarried, 4; number of women whose husbands are with them, 12; number whose husbands are in the West, 20; children who are apparently under 14—male, 17; female, 8; number of half-grown youths, 2. To this should be added a female infant born Sept. 13, a daughter of one of the wives of GERONIMO (Heronimo). This squaw has been a prisoner at St. Augustine since last April. Colonel LANGDON, commanding the fort, has named the child MARION. It will be noticed there are ten men married and twelve women whose husbands are with them. The inference will naturally be drawn that some of the squaws do not have the whole of a husband. The Indians are comfortably lodged in tents, floored and framed, and pitched on the terre plein. They are well fed, and as well clothed as their preference for unencumbered limbs will permit. They are frequently, almost daily, taken out to exercise on the outskirts of the town. Of course the presence in St. Augustine of these aborigines attracts many people, who are naturally desirous of visiting them. Passes have been issued to a limited extent and under certain restrictions, but even with all the care exercised the number of applicants for permission to enter the fort has increased to such an extent as to be an inconvenience. Colonel LANGDON does not believe these Indians were sent there for an exhibition, however willing some tourists may be to make them one, and has therefore directed that no more passes be granted to visit the Indians. As many people come from a distance for this purpose, to save them from disappointment hereafter an official notice has been published in the Florida papers that permits must not be expected by people visiting St. Augustine for that purpose.

MEXICO AND THE UNITED STATES.

WE alluded some time ago to the slow progress of the difficulties which finally resulted in the war with Mexico and the acquisition of California. It is interesting to review the various steps in our progress toward war from the 15th of October, 1835, when Mr. GORDO TIZA, the Mexican Minister, complained of infractions of neutrality, asked for and obtained his passports, terminated his mission, and appealed to the American people in a pamphlet address against the acts of their Government. The year following, Mr. ELLIS, the American envoy to Mexico, demanded his passports, and diplomatic intercourse between the two countries was suspended. On the 8th of February, 1837, President JACKSON declared in a message to Congress, with reference to the Mexican outrages, that "the length of time since some of the injuries had been committed, the repeated and unavailing applications for redress, the wanton character of some of the outrages upon the persons and property of our citizens, upon the officers and flag of the United States, independent of recent insults to this Government by the late extraordinary Mexican Minister, would justify, in the eyes of all nations, immediate war."

The independence of Mexico was acknowledged on the 1st of March, 1837. April 11, 1839, a treaty of indemnity was concluded with Mexico, and the American claims referred to a commission which sat in Washington from Aug. 25, 1840, to February, 1843, adjourning finally without settling all the claims in dispute. The Mexican Government asked and obtained an extension upon those allowed. On the 27th of November, 1838, the French captured the Castle of San Juan d'Ulloa and forced the collection of claims due to French citizens.

Meanwhile diplomatic intercourse between the United States and Mexico had been resumed, but the relations between the two countries continued strained, because of the agitation in the American press and the American Congress of the question of annexing Texas, over which Mexico still claimed sovereignty. The act admitting Texas into the Union became a law on the 3d of March, 1845, and on the 6th of March, 1845, the Mexican Minister again protested and demanded his passports.

By an ordinance of July 4, 1845, Texas accepted annexation, and a dispute as to the boundary between her and Mexico immediately followed. Mr. SLIDELL was sent to Mexico as plenipotentiary to arrange this and other matters, but the Mexican Government refused to receive him, and he was granted his passports on the 17th of March, 1846. Meantime General TAYLOR had been gathering a force on the Rio Grande, and on the 4th of April, 1846 the numerous threats of war with which the Mexicans had spiced their correspondence took shape in action, and General ARISTA was directed to cross the Rio Grande and attack and destroy by every means in his power, the American Army, which on the 8th of March had marched from Corpus Christi. The result is told in the history of our war with Mexico.

We have advanced as far this time as sending a special agent to Mexico to obtain information on which our State Department can act. His advent in the City of Mexico was signalled by a remarkable exhibition on the part of the American Consul, Mr. PORCH, who sets all the newspapers agog with scandalous stories about his diplomatic colleague. Whether true or false, they should not have been published by a Government official whose proper course was to report them only to their common superior. What would be thought of an officer of the Army or Navy who should give to the newspapers what was in its nature a confidential despatch reflecting upon one of his associates? But the American method appears to be to conduct diplomatic negotiations through the newspapers.

IN answer to inquiries we publish the exact text of the two sections of the bill for the increase of the Navy, relating to the purchase of armor. The question arises whether this permits the purchase of armor abroad, in case "contracts for furnishing the same in a reasonable time, at a reasonable price, and of the required quantity, cannot be made with responsible parties." In the bill as agreed upon by the House Naval Committee these words were added after what we quote, "*otherwise the Secretary of the Navy is hereby authorized to purchase the same, or any portion thereof, and import it.*" The words italicized were stricken out before the passage of the bill.

Sec. 4. That the armor used in constructing said armored vessels and for completing said monitors shall be of the best obtainable quality and of domestic manufacture, provided contracts for furnishing the same in a reasonable time, at a reasonable price, and of the required quality, can be made with responsible parties. Such armor shall be accepted only after passing such tests as shall be prescribed by the Secretary of the Navy and inserted in the contracts.

Sec. 5. That the Secretary of the Navy shall cause one or more of the new vessels hereinbefore provided for to be constructed and one or more of the said monitors to be completed in one or more of the Navy-yards of the United States; and if he shall be unable to contract with responsible parties to construct or complete, at reasonable prices, all or any of the vessels hereinbefore provided for, he shall cause the same to be constructed or completed in such of the Navy-yards of the United States as may be best adapted thereto.

WE publish this week under the regimental heading the G. C. M. order in the case of Lieutenant J. F. MCBLAIN, 9th Cavalry, whose trial has been somewhat of a *causé celebrè*. Lieutenant MCBLAIN has resumed duty with his troop.

THE President returned to Washington Sept. 22, and as Secretaries ENDICOTT and WHITNEY will join him the early part of next week, the settlement of a number of important Army and Navy cases may be looked for at an early date. Among the matters of interest to the Army demanding immediate attention may be mentioned the selection of a Chief of Engineers and a Surgeon General, a decision as to what shall be done with GERONIMO, the appointment of the non-commissioned officers who have passed examining boards, and the garrisoning of Fort Myer. The selection of a Chief of Engineers, it is believed, will be one of the first of these matters disposed of. Ths large appropriation for rivers and harbors last year necessarily greatly increases the labor in the Engineers' Department, and the importance of having a chief at the head of it is obvious. Nothing has occurred lately to alter the general belief that Colonel DUANE will be the choice of the President. There are no new developments regarding the Surgeon Generalship, Colonel SUTHERLAND'S chances still being regarded as extremely good. In the Navy Department there are not so many questions awaiting action, since most of the preliminary work in connection with the new cruisers has been done, and answers to advertisements and reports of boards are to be received before any further progress can be made. Among the questions that are likely to receive early attention are the appointment of a Chief of Bureau of Construction and Repairs and a Paymaster General, the selection of a station for the *Dolphin*, the allotment of the appropriation for improving the plant at the Washington Navy Yard, a decision as to whether the Bureau of Yards and Docks shall still have jurisdiction of the yard in the way of care of buildings, etc., and a decision in the case of Paymaster WATKINS, who is now confined at the Mare Island Navy Yard under sentence of dismissal and confinement in prison.

THE order has been issued for an exchange of stations between Major H. CLAY WOOD and Major W. J. VOLKMAR, of the Adjutant-General's Department, U. S. Army, the same to take effect November 1. It is not thought that Major WOOD will succeed Major VOLKMAR in charge of the enlisted branch, as it is presumed that Major SCHWAN will have sufficiently familiarized himself with the duties of this branch to take charge of it by the time Major VOLKMAR goes away. It is more probable that Major WOOD will be assigned to duty in the pension branch in the place of Major WARD, whose relief from duty at the War Department is looked for when he has finished his duty in connection with the Fort Brady Board.

OUR National Guard should not overlook the lesson taught them by their ill success in the skirmishers' match at Creedmoor. Two of the militia teams led the regular team in the Hilton Trophy match, but when it came to the match that tested the capacity of the participants to shoot under the conditions most nearly simulating those of the battlefield the professionals came in so far ahead that the militia were not to be mentioned with them. The best National Guard team, the Thirteenth New York, made only 257, while the lowest Army team, that from the Fourth Artillery, made 689. The Engineers scored 748, and the Fifth Artillery 691.

THE file and record clerk of the Navy Department, Mr. M. S. THOMPSON, has completed the manuscript for the book to contain all General Orders, Court-martial Orders of officers and non-commissioned officers, bureau circulars and death notices issued from the Navy Department since 1863. This valuable compilation will be published by the Navy Department and distributed throughout the Naval Service some time during the autumn.

A REVISION of the U. S. Navy Regulations, the last edition of which bears date of 1876, has been ordered, and Lieutenants CHARLES A. BRADBURY and T. E. D. W. VEEDER are now engaged upon the work. A number of important changes may be looked for.

THE Midvale Steel Works will shortly deliver to the Washington Yard the material for a new 6-inch gun to replace the one recently condemned.

THE London *Army and Navy Gazette* is disposed to be sarcastic on the subject of our new 8-in. Army gun. It says: "Whilst the public mind is disturbed and the Press convulsed by the windy upheavings from quasi-artillerists' 'gas' and fire-damp, it is as well to know that a very considerable Power in the world seems to be more *arrière* in the Ordnance race than we are said to be, for it is only this week we have, in the ARMY AND NAVY JOURNAL, an account of 'The first 8-in., all-steel, gun ever constructed in America, after designs by the Army Ordnance Department!'" Here follows the description from the JOURNAL, and the article concludes as follows: "'The other trials will go on as soon as they get enough standard powder for 10 consecutive rounds!' Just imagine such a statement in one of our papers! How our patriots would rage and howl! 'Not powder enough for 10 rounds!' 'Splits! cracks! enlargements! openings! the breech block opening with difficulty! monstrous!' The Americans have now only to accuse the Ordnance Department of corruption and they will be on the fair way to get a good system all round. We give a cut of the carriage, which seems strong and simple, as well as of the gun, which, it will be seen, is of the dangerous type—*i. e.*, a long thin chase." The same paper finds another subject for criticism on this side of the water, saying: "There is, if we are to judge from passages in our Service contemporaries, an affectionate custom in the United States Army which is unique, and in one sense characteristic of a family and domestic feeling in the ranks of the Republican regulars across the Atlantic. When a 'popular' private dies, the sergeant of his company convenes a meeting of the rank and file, where solemn resolutions are passed, after a 'Whereas it has pleased Almighty God to remove So and-so,' lamenting the loss of the deceased, extolling his virtues, and sympathizing with the sorrow of his relatives and friends, to whom these resolutions are addressed. Not long ago we saw an account of a meeting of the men of a detachment at a 'post' out West, where the resolutions of this character referred to the death of a little girl, the daughter of one of the privates, in most affecting terms."

THE French papers report the fact of the trial of the new DeBange 13.39 inch gun at Calais, Aug. 27; but the muzzle and mean velocities, to ascertain which the trial was conducted, are not published. This gun, said to be Colonel DeBange's last production, weighs 71,500 lbs., is of 13.39-inch calibre, and carries a projectile of 992 lbs., with an estimated range of over 11 miles. We have no figures as to the length of this gun, though the DeBange cannon of like calibre but weighing 11,000 lbs. in excess of the present one, which was exhibited at Antwerp, had a length of 36 feet, 8 inches. The initial velocity of the Antwerp model was 1,868 feet. Notwithstanding the fact of the many accidents that have occurred to this system of heavy cannon through alleged defaults of the breech design, Col. DeBange still enjoys the confidence of the French experts, and the results secured with his new creation will be looked for with interest.

A PARTY sent out under the command of Captain Clarence E. Dutton, O. D., U. S. A., has succeeded in making a complete survey of Crater Lake, in Oregon, a body of water whose shores, with the possible exception of one point on the south, have never before been touched by the feet of white men. The party's boats were hauled 100 miles by mule teams, dragged by a detail of soldiers up the snow-clad sides of the ridge which surrounds the lake, and lowered by ropes from the crest to the water, 900 feet below. One hundred and sixty soundings were made, the result of which gave the general character of the lake bottom. Two large submerged cinder cones were found, respectively 800 and 1,200 feet high, the rest of the bottom being flat. Captain Dutton believes this to be the deepest body of fresh water on the continent. The greatest depth attained by the sounding line was 2,005 feet. Lake Tahoe for fifteen miles averages 1,400 feet, the greatest depth recorded being 1,645 feet, four miles south of Hot Springs. Captain Dutton is of the decided opinion that Crater Lake was formed "in much the same way as the great *calderas* of the Hawaiian Islands, by the melting of the foundations of the original mountains, the blowing out of the molten material in the form of light pumice and fine tufa."

THE detailed charges and specifications in the case of Captain William S. Johnson, U. S. Army, retired, who was recently reported for duplicating his pay accounts, have been formulated by Major Clous, of the Judge Advocate General's Department, and the Acting Secretary of War, is now having the detail for the Court-martial made out. The friends of Captain Johnson have made strenuous efforts to prevent a trial, but the Acting Secretary of War has turned a deaf ear to all entreaties, and the trial will undoubtedly take place as stated by the JOURNAL two weeks ago. Among others who called at the War Department in his behalf was Mr. Robert A. Phillips, the Washington broker, who drew the money on one of the pay receipts. He represented that the account was left with him with no intent on the part of Captain Johnson to defraud; that it was filed as security for money loaned, and was presented for payment during Captain Johnson's absence through a misunderstanding. This excuse the Department has not been willing to accept, as will be shown in the specifications prepared by Captain Clous, which indicate that there was an intent to defraud. It is not known yet who will compose the court, but as the trial will take place in Washington, where the accused resides, it is presumed, of course, that the selections will be made from among the officers stationed there. Captain Johnson will be the second retired officer ever tried by Court-martial. The first since the establishment of the retired list was Captain Page, who was tried and dismissed for a similar offence in 1874.

THE Board of Commissioners appointed by the New York Legislature will meet at the residence of the chairman, Gen. D. E. Sickles, U. S. A., October 5, to mark the positions and movements of New York State troops during the three days' battle at Gettysburg. Gen. Chas. K. Graham, engineer of the commission, has made thorough surveys of the whole battle field, from which he has prepared maps and diagrams. Representatives of every New York regiment and battery engaged in the fight are requested to attend and aid in designating the positions and movements of their commands. The following regiments and batteries have not yet reported to the Commissioners or to the secretary, at his office, No. 31 Cooper Union, New York city: Cavalry—2d, 4th, 6th, 8th and 9th regiments. Artillery—3d, 5th, 10th and 15th Independent batteries, and B, C, E, G, I, K, M, light batteries. Infantry—43d, 62d, 95th, 102d, 110th and 145th regiments. They are requested to send their reports, as indicated, before Oct. 5th.

D. W. WEAR, Superintendent of the Yellowstone National Park, in his annual report to the Secretary of the Interior, calls attention to the laws of the park, and says they are entirely inadequate for its protection. The report says there is more game now in the park of every kind than was ever before known. Elk, antelope, deer and mountain sheep are plentiful. The condition of the stock, buildings, fences, roads and bridges has been materially improved during the year. The disbursements were $39,000. The *Pioneer Press* reports Mr. Wear as saying, in a recent interview at St. Paul, that "the troops in charge are not taking proper care of the park, allowing the indiscriminate killing of game and the desecration of the formations about the mineral springs, and that unless some change is made soon, great damage will result."

THE *Scientific American*, of September 25, devotes two pages to an illustrated description of the fabrication of Heavy Ordnance at the South Boston Iron Works, which "has manufactured ordnance and war material for the United States Government for upward of fifty years, and during the Rebellion worked night and day to keep up its supply for the war." Of the 12-inch B.-L. it says: "This rifle was mounted in June, 1885, and has been fired 137 rounds with charges of 265 lbs. of powder and an 800 lb. projectile. This is the best record known in this or foreign countries for a 12-inch rifle, with this weight of powder and projectile. A 12-inch B.-L. steel rifle, made by Herr Krupp, has been fired 120 rounds. The muzzle velocity of the 12-inch gun iron rifle is 1,862 feet per second; penetration at 1,000 yards, 23 inches of armor; and range, 10 miles."

GEORGE W. FOSTER, who has extensively advertised himself as a banker, having an office at 42 Broadway, New York, has been arrested charged with swindling various parties. As his advertisement has appeared in the ARMY AND NAVY JOURNAL we call attention to the fact. If any of our readers have fallen victims to the wiles of Foster they will do well to communicate with the Chief of Police, New York, or with the Police Commissioners, one of whom is an officer of the Army, Colonel Fitz John Porter, retired.

THE Department of Military Art, U. S. Artillery School, publishes an essay by A. D. Schenck, 1st Lieutenant U. S. Army, on the "Military Geography of the Dominion of Canada," natural and strategic. It includes also a description of the Government, system of education, means of communication, military and naval forces and war resources. The Department of Artillery furnishes us with an essay by John R. Williams, 1st Lieutenant, 3d Artillery, on "Defensive and Offensive Weapons and Engines of the Ancients and of the Middle Ages, their Relation to the Constitution and Handling of Armies, and their effect upon the Art of War."

SERGEANT D. L. BRAINARD, of the Greely Arctic Expedition, is reported as saying, concerning his contemplated visit to the Arctic regions in the spring of 1890: "A vessel will visit us in the spring of 1891 to convey us back to this country, but should our work be not fully accomplished, we would remain one year longer. The money to defray the expenses will be raised by private contributions, and the approximate amount will not be far from $50,000. My object in waiting so long before starting is that I may have a thorough restoration of my broken health and to enable me to provide for the use of the expedition a complete and reliable set of instruments and a full and complete equipment for sledging and other work."

IN consequence of the length of time since the adjournment of the Court that tried the cadets of the Military Academy and its transmittal to Washington of the proceedings in the case of the principal offenders, it is thought that their sentence is, at least, suspension, if not dismissal. The punishment awarded the privates of the 1st Class who took part in the 28th of August affair, is to be confined to the area of barracks and gymnasium until July 1, 1887, and to walk extra tours every third Saturday. This, of course, takes away all of their cadet privileges and will prevent from graduating what is left of the class next June, detaining them nearly three weeks later. They will also have to go into camp next year and remain in that part east of the color line.

WE find the following despatch from London in the daily papers:

C. Lormiore Jackson, of Charleston, W. Va., is one of the passengers on board the *Aurania*, arriving at New York today or to-morrow. He returns after a year's stay in London. He came over here soon after his graduation at West Point in the summer of 1885, his rank being that of Lieutenant in the 23d Cavalry. His most intimate associate at the hotel where he lived was the son of an English baronet named Sir William Fraser, of Ledeclune. The two young men came in late one night, and at 4 o'clock in the morning Fraser was seen to walk out of the hotel with his overcoat on, and was never seen or heard of afterwards. Mr. Jackson has a large income and will be remembered here for a long time.

There is no such person among the graduates of 1885. We have also looked at the list of cadets who entered in 1881 (which was the class of 1885), and failed to find the name. It is hardly necessary to say that there is no 23d Cavalry in the U. S. Army.

REFERRING to the treasonable practices of some of the Spanish officers of the Barcelona garrison, a despatch says: "The Spanish Army is so terribly overcrowded with officers that promotion has for some time past been literally at a standstill, hence it is a very hot-bed of disaffection and latent mutiny. For a standing army of about 120,000 men there are no less than 600 Generals, 1,366 Colonels, 2,000 Majors, 5,000 Captains, and 10,000 Lieutenants."

NO SELECTION has yet been made of Disbursing Officer of the War Department in the place of Mr. E. M. Lawton, deceased, but Mr. Wm. S. Yeatman, Chief Clerk of the Depot Quartermaster's office in Washington, is considered a very prominent candidate, and it is confidently believed by many that he will be appointed when Secretary Endicott returns to Washington. There are very few applicants on account of the small salary attached to the office and the large bond required of the person filling it. The law requires that the selection shall be made from the 4th class clerks of the War Department, and very few of these care for the increased responsibility when the difference of pay is so small.

THE annual report of the Board of Visitors to the West Point Military Academy has not yet been received at the War Department, and no intimation has been given as to when it may be expected.

LATE ARMY ORDERS.

Leave for twenty-five days, to take effect on or about Oct. 2d, is granted Major Dallas Bache, Surgeon, Fort Adams, R. I. (S. O. 143, Div. Atl., Sept. 24.)

A Gen. Ct. Mart. will meet at Fort Adams, R. I., Sept. 27th. Detail: Capts. Edward Field, Arthur Morris, John W. Roder; 1st Lieuts. William Ennis, Richard P. Strong, Clarence Deems, 4th Art.; Freeman V. Walker, Asst. Surg., and 2d Lieut. Charles L. Corthell, 4th Art., J. A. (S. O. 133, Div. Atl., 1886.)

Leave for one month and five days, to commence on or about Oct. 10th, is granted 1st Lieut. James E. Eastman, 2d Art. Mount Vernon Barracks, Ala. S. O. 143, Div. Atl., Sept. 24.)

A G.-C. M. for the trial of Capt. W. S. Johnson, U. S. A., retired, will convene at Washington Barracks. Detail: Col. Horatio G. Gibson, 3d Art.; Major James Biddle, 6th Cav.; Maj. Richard Lodor, Capts. Edward R. Warner, George F. Barstow, 3d Art., Capt. John G. Bourke, 3d Cav.; 1st Lieut. Edward Davis, 3d Art., and 1st Lieut. W. E. Birkhimer, 3d Art. (S. O., H. Q. A., Sept. 24.)

Lieut.-Col. James F. Wade, 10th Cav., and 2d Lt. Frank B. Jones, 22d Inf., having completed duty, upon which they were ordered to St. Augustine, Fla., will return to Fort Apache. The leave of 2d Lieut. Samuel D. Freeman, 10th Cav., is extended two months. Leave is granted Capt. Samuel Munson, 9th Inf., for four months. 2d Lieut. Henry C. Hodges, Jr., 22d Inf., will report for duty at the Military Academy, relieving 2d Lieut. O. M. Lissak, 3th Art. (S. O., H. Q. A., Sept. 24.)

THE FALL MEETING AT CREEDMOOR.

THE Fourteenth Fall Meeting of the National Rifle Association lasted through the week commencing Monday, Sept. 13, and ending Saturday, Sept. 18. While the weather was unusually cool, with an occasional shower in the beginning days, the high winds which prevailed during the entire meeting, either as fishtails, or diagonally across the range, interfered somewhat with good shooting. Yet the scores made are, on the whole, quite creditable. The meeting, what there was of it, was quite successful, the credit for which is mostly due to the able management of 1st Lieut. E. L. Zalinski, of the 5th Artillery, as executive officer. There were fewer protests and controversies than on any previous occasions, and the settlement of any questions that arose invariably gave general satisfaction. The Regular Army, Massachusetts, Pennsylvania and Connecticut sent teams, but the attendance at the meeting was nevertheless far from satisfactory. Compared with the crowds which were wont to assemble here when Creedmoor was first started, the range looked deserted at all times. The scheme of the association to revive the enthusiasm in rifle shooting by increased cash prizes did not turn out according to expectations. The lack of enthusiasm and the apathy of the military as well as the civil public, can be proven by one glance at the names of the participants in the matches and the prize winners. On all sides we find the well known familiar names of those who have figured as crack shots and habitués of Creedmoor for years, but nowhere can be found the addition of a shooter of prominence hitherto unknown to fame. While crack shots are not born every day, yet if practice were more general, and kept up with required regularity and steadiness, there would certainly be an occasional infusion of new and young blood into the ranks of our prominent marksmen. Under present condition the race is bound to die out in due course of time.

Creedmoor is declining for lack of support. While it is a matter of great regret, the fact can no longer be concealed, and it is generally acknowledged. Yet an institution of its kind is so important that its loss would be a national one.

By many who claim to be well informed the decline is ascribed to false or effete management. In this there may be some truth, but if there is, then the remedy lies with the National Rifle Association itself, which if the management is unsatisfactory can establish any system tending to a more successful conduct of its affairs. One thing is certain, that if the range is not better supported, and frequented oftener by increased numbers of shooters, its discontinuance is only a matter of time. An increase in the attendance, which naturally carries with it a new impetus in rifle practice and improvement in the financial status of the organization, is out of the question so long as the range is situated at Creedmoor. A visit there requires the loss of an entire day, and not inconsiderable expense. Only few men can afford either, and even these when they find the shooting ground deserted naturally lose heart and remain away. The removal of the range to a more accessible ground with rapid and cheap transportation is one of the first conditions upon which the life of a National or State shooting ground depends. The realization of the project of establishing a range at the Van Cortlandt property in Westchester county seems as remote as ever, and this compels us to look in the opposite direction, where doubtless a suitable place could be found on Staten Island, which is within easy reach from the city and accessible at all times at a cheap rate of transportation. Prominent members of the association regard the establishment of a range on Staten Island with favor, and the matter seems one well worthy of consideration. Reduced expenses, and less loss of time, suitably handicapping the "distinguished" riflemen who now manage to carry off all the fattest prizes, the preparation of a different programme from those hitherto used, would doubtless tend to give to the shooter of ordinary ability renewed hope of success, and consequently increase the popularity of a range. Many other things might be mentioned, but we do not intend to go into a fuller discussion of the subject. It is absolutely necessary, however, that something decisive and different from measures heretofore taken must be done or rifle shooting in New York will become a thing of the past. Before, however, blaming the association for everything, it seems only just to say that riflemanship also suffers at the hands of those who want to win high prizes with small entries and by bad shooting, and then become discouraged because they find this impracticable.

The Division of the Atlantic Team, which won the Hilton Trophy for two years in succession, lost it this year to the Massachusetts Team, which did remarkably good shooting and won several important matches, as will be seen from the scores which follow. The pistol match, a novelty, was easily won by the Regulars, as was the Skirmish Match also, which shows that neither skirmishing nor pistol practice receives due attention in the National Guard.

Lieut. E. L. Zalinski was ably assisted in his arduous, and, at times, disagreeable, duties by Col. Chas. E. Bridge, late Asst. Qm.-Gen., S. N. Y., and Lieut. W. P. Pickett, 23d Regt., who presided over the Statistical Department in a very satisfactory manner. In this Department, however, there should be more assistance as there was too much delay in getting at the correct scores.

The following shows the matches as shot in detail

MILITARY MATCHES.

HILTON TROPHY MATCH.

Open to teams of twelve from the three Military Divisions—Atlantic, Pacific and Missouri—U. S. Army; one from the U. S. Navy; the National Guard or un-uniformed militia (one from each State or Territory), England, Ireland, Scotland and each of the Provinces of Great Britain, each of the Provinces of Canada, and all other countries, and one team each from the following: the Regular Army, the militia, the volunteers; the navy of any country. Members to appear in uniform (full dress or fatigue.) Distances, 200, 500 and 600 yards. Rounds, seven at each distance. Position, standing at 200 yards; and any at 500 and 600 yards. Weapons, any military rifle which has been adopted as an official arm by any State or Government. Ammunition, any. 1st prize, Hilton Trophy—value, $3,000. Also a medal to each member of the winning team. Won in 1878 and 1879 by State of New York; in 1880 by Division of the Missouri, U. S. A.; in 1881 by State of New York; in 1882 by State of Pennsylvania; in 1883 by State of Michigan; in 1884 and 1885 by Division of the Atlantic, U. S. A. The match was won this year by the Massachusetts State Team who scored 1,044 out of a possible 1,260; New York State second with 1,016 points; Division of the Atlantic third, 996 points; State of Pennsylvania fourth, 974 points, and 4th Regiment, C. N. G., fifth, 720 points. The following are the full scores of the other teams:

Massachusetts State Team.

	200 Yds.	500 Yds.	600 Yds.	Agg.

GENERAL SHERIDAN'S SKIRMISHERS' MATCH.

Open to teams of six from the Regular Army, Navy, Marine Corps, National Guard, Volunteers, or Militia of any country, State, or Territory. Any number of teams may enter from each organization, but no competitor may shoot in more than one team. All competitors to be regularly commissioned or enlisted members in good standing of the regiment, battalion, corps, troop, or company they represent, and to have been such on Aug. 1, 1886, and to appear in the uniform (jacket, cap, trousers, belt, and cartridge box, or belt) of the organization they represent. Distances, 600 to 200 yards and return. Second-class targets. Weapon, the military rifle with which the organization has been regularly armed, unless such be a magazine gun, in which case any military rifle which has been adopted as an official arm by any State or Government. Entrance fee, $5 for each team. The first prize is a trophy presented by S. D. Schuyler, Esq.—value, $150—to be won three times before becoming the property of the winner. It will be held for a year by the officer commanding the winning corps. Also a Bronze Medal to each member of the winning team. Won in 1884 and 1885 by 4th Artillery, U. S. A.

INTER-STATE MILITARY MATCH.

Open to one team from each State or Territory in the United States, consisting of twelve members of the regularly organized and uniformed National Guard or militia of such State or Territory. Distances, 200 and 500 yards. Position, at 200 yards standing, at 500 yards prone; any military rifle which has been adopted as an official arm by any State or Government. In cases where the State has adopted no particular model the team will be allowed to use the rifle in use by the Regular Army of the United States or by the uniformed militia of any other State. Rounds, 10 shots at each distance. Prize, a large bronze "Soldier of Marathon," presented by the commander-in-chief, on behalf of the State of New York, to be shot for annually at Creedmoor, and to be held during the year by the Adjutant General of the State whose team may win it. Value, $350. Also, a medal to each member of the winning team. Won in 1875 by New York; 1876, Connecticut; 1877, California; 1878 and 1879, New York; 1880, New Jersey; 1881, New York; 1882, Pennsylvania; 1883, Michigan; 1884 and 1885, Pennsylvania. This match was closely contested and was won by the Massachusetts State Team, with a score of 1,024 points out of a possible 1,200, beating the New York Team 12 points, their aggregate score being 1,012 points. Below is given the full scores of the two leading teams and the aggregate scores of the others:

Prize, the Mid-Range Championship of America for one year, and cash $25, to be awarded to the competitor making the highest aggregate score in both stages. M. W. Bull was the winner of this stage, his score being 3554454554—44.

MINOR MATCHES.

DIRECTORS' MATCH.

200 yards—open only to Directors of the N. R. A. Rounds, five, standing. Any military rifles, including specials. Prize—Gold badge, shot for annually, and held by the winner during the year.

Mr. Jas. Duane was the winner of this match. His score was: 5 5 5 4 4—23. There were nine other competitors.

SHORT RANGE TEAM MATCH.

Open to teams of four, from any regularly organized rifle club or association or military organization, but no competitor can shoot in two teams. Ten shots at 200 yards, standing. Rifle, any within the rules. Target, American standard. Teams using the Remington rifle, State model, will be allowed 20 points, and 16 points will be allowed to teams using other military or special military rifles. Four prizes, viz: $50, $40, $30 and $20. Winners in order of merit:

Zetler Rifle Club, Team No. 1	305
Zetler Rifle Club, Team No. 2	304
2d Massachusetts Regiment	300
Massachusetts Rifle Association, Team No. 2	300

INTER-STATE LONG RANGE MATCH.

Open to teams of four from all rifle associations or clubs in any State or Territory of the United States. Distances, 800, 900 and 1,000 yards; 15 shots at each distance. Weapon, any rifle within the rules. Prize—A trophy, to be held for the year by the successful team, which shall be deposited in some central place in the State whose team may win it. Also a medal to each member of the winning team. Won in 1877 by Amateur Rifle Club, N. Y.; in 1878 by Massachusetts Rifle Association; in 1879 by New Jersey State Rifle Association; in 1880 by Empire Rifle Club, N. Y.; in 1881 by Ilion Rifle Club; in 1882 by Ilion Rifle Club; in 1883 by Ilion Rifle Club; in 1884 by Amateur Rifle Club, N. Y.

This match was not shot, there being no entries.

REVOLVER MATCH.

Any revolver or ammunition. Distance, 25 yards, standing. The aggregate of the best three scores to count for the first four prizes. At American standard target. Winners in order of merit:

Lieut. C. E. Gillette	143
C. A. Tayntor	140
Phil. Brower	134
G. Doyle	130
I. Hale	44
Lieut. Anderson	44
Rabbeth	44
Farrow	43

WIMBLEDON CUP MATCH.

Open to all citizens and residents of the United States. Distance, 1,000 yards. 30 shots. Any rifle within the rules, cleaning allowed. Position, any without artificial rest. First Prize—The Wimbledon Cup, presented by the N. R. A. of Great Britain to the N. R. A. of America, to be held by the winner till the next fall meeting, when it will be shot for on the same conditions. Value, $500. Won in 1875 by Major Fulton; in 1876 by I. L. Allen; in 1877 by Dudley Selph; in 1878 by Frank Hyde; in 1879 by C. H. Laird; in 1880 by W. M. Farrow; in 1881 by F. J. Rabbeth; in 1882 by W. Budworth; in 1883 by H. T. Rockwell; in 1884 and 1885 by J. W. Todd.

Mr. J. W. Todd was the winner of this match, his score being 115 out of a possible 150.

STEWARD MATCH.

Open to all comers. 200 yards; Creedmoor targets. Five shots. Position—Sitting, kneeling or standing. Weapon—Any military or special military rifle; an allowance of two points will be given to competitors who use the Remington rifle, State model, the allowance to be added to the aggregate of the three scores. All prizes to be won on the aggregate of three scores. Prizes for this match were announced at Creedmoor by bulletin, and were partly in cash and partly in kind, including two silver-plated cups presented by Mr. J. H. Steward, of London, and $25 presented by Col. James H. Jones, 12th Regt., N. G. S. N. Y. The prize winners in their order of merit were:

F. J. Rabbeth	75	J. Cavanagh	70
J. F. Klein	*74	B. R. Spelman	*70
Geo. Joiner	*73	J. K. Green	*70
G. W. Lotz	*73	H. T. Farrell	*70
W. M. Farrow	71	W. Hinman	69
L. A. Van Tassell	71	J. S. Shepherd	69
D. H. Ogden	71	C. H. Gans	*69
J. Corrie	70	F. Stuart	66

*Includes two points allowance for using Remington military, 50 cal.

GOVERNOR'S MATCH.

7 shots at 500 yards; position, any. Rifle, any military, including specials. Open to all comers. The aggregate of three scores to count for first five prizes. Aggregate of two scores to count for the others. Two points allowed on the aggregate of the three scores in first five prizes to State model rifles of 50 calibre. One point allowed on aggregate of the two scores. $200, divided into 18 prizes, viz.: $40, $30, $25, $20, $15, $10, and twelve of $5 each. In this match Mr. J. F. Klein and F. J. Rabbeth tied for first place, both gentlemen each making three full scores. The following are the prize winners in their order of merit; the highest possible score of the first five was 105 points:

	Agg.		Agg.
J. F. Klein	105	*C. F. Young	100
F. J. Rabbeth	105	J. S. Shepherd	101
J. Cavanagh	103		

Prize winners, whose highest possible score was 70 points:

	Agg.		Agg.
W. M. Farrow	68	R. Macmillan	66
C. C. Foster	68	A. Krebs	66
C. H. Gans	68	L. Grant	66
G. B. Thompson	67	W. W. Merrill	66
P. Finigan	67	C. F. Robbins	66
J. McNevin	67	E. De Forest	64
†S. C. Pirie	66	B. R. Spelman	62
S. S. Bumsted	67		

*Allowed 2 points for using Remington, cal. 50.
†Allowed 1 point for using Remington, cal. 50.

CONTINUOUS MATCH.

All-comers. 200 yards, standing. Seven shots on the American Standard Target. Any rifle within the rules. Military rifles as permitted in President's Match were allowed four points, and other military or special military rifles three points on each score. The aggregate of three scores to count for each of the first five prizes. Aggregate of two scores to count for the others. $360 divided into 33 prizes, viz.: $50, $40, $30, $25, $20, three of $15, five of $10, and twenty of $5 each. The highest possible score in this match for the first five winners is 210 points. The highest possible score for the remaining competitions was 140 points. The rings on the target are numbered from 1 to 10, inclusive, the percentage of each shot being accordingly. The winners and their aggregate scores were:

	Agg.		Agg.
G. F. Ellsworth	185	C. W. Hinman	110
W. M. Farrow	179	N. O'Donnell	109
M. Dorler	178	G. B. Thompson	109
E. Munson	178	R. B. Edes	108
C. E. Tayntor	178	D. Miller	108
F. G. Rabbeth	120	G. E. Betts	108
G. Zimmerman	118	G. W. Lotz	108
T. J. Dolan	118	E. E. Lewis	107
A. C. White	117	O. Langsdorf	107
A. Loher	116	J. Duane	106
H. W. Haines	116	J. S. Shepherd	106
A. L. Brackett	116	B. Walther	105
W. H. Beardsley	115	J. Corrie	105
C. B. Pratt	115	T. G. Austin	105
B. R. Spelman	113	A. Krebs	104
E. J. Cram	111	F. A. Wells	101
Geo. Joiner	111	G. L. Scott	91
E. De Forest	111		

ALL-COMERS' AND MARKSMAN'S BADGE MATCH.

Open to everybody. Distance, 200 and 500 yards. Standing at 200, prone at 500. Five shots each distance. Rifle, Remington, 50 cal., State model. 34

prizes, $275, viz.: $25, $20, two of $15, ten of $10, and twenty of $5 each. The following are the prize winners in this match in their order of merit:

	200 yds.	500 yds.	Agg.
J. F. Klein, 17th Sep. Co	24	24	48
E. De Forest, 23d N. Y	22	25	47
E. F. Young, 7th Regt	21	25	46
L. J. Elliott, 23d Regt	22	24	46
J. S. Shepherd, 23d Regt	23	23	46
J. K. Green, 7th Regt	23	23	46
W. J. Underwood, 7th Regt	20	25	45
Capt. F. L. Holmer, 23d Regt	20	25	45
D. H. Ogden, 20th Sep. Co	21	24	45
O. C. Dudley, 7th Regt	20	24	44
R. McLean, 7th Regt	21	23	44
P. Farrelly, 69th Regt	21	23	44
J. McNevin, 13th Regt	22	22	44
J. Kerr, 69th Regt	22	22	44
B. R. Spelman, 10th Batt	23	21	44
C. H. Gans, 10th Batt	24	20	44
J. Cavanagh, U. S. Engrs	20	23	43
C. A. Jones, 7th Regt	21	22	43
R. Oliver, 23d Regt	21	22	43
W. A. Stokes, 23d Regt	21	22	43
F. Stuart, 69th Regt	22	21	43
C. F. Robbins, G. I. R. P	18	24	42
S. C. Pirie	18	24	42
N. B. Thurston, 22d N. Y	19	23	42
C. H. Hoyt, 7th Regt	19	23	42
E. Duffy, 69th Regt	19	23	42
J. Macauley, 12th Regt	20	22	42
W. P. Pickett, 23d N. Y	20	22	42
G. F. Merchant, 7th N. Y	20	22	42
G. Breming, 14th N. Y	20	22	42
W. G. Owen, 7th N. Y	20	22	42
G. S. Scott, 23d Regt	21	21	42
G. W. Munson, 7th Regt	21	21	42
C. W. Thom, 7th Regt	22	20	42

EXTRA PRIZES.

Messrs. Richard Oliver and Bloomfield, of No. 23 John Street, having kindly offered prizes to the value of $50 for members of the National Guard, S. N. Y., using the Remington rifle, State model, two additional prizes, value $5 each, were given in the Judd, President, Continuous, All-comers, and Steward Matches, awarded to the competitors, as above, making the highest scores, but failing otherwise to be prize winners in the above-mentioned matches.

THE STATE TROOPS.

MUTINY OR DISCIPLINE.

In any organization but a military one antics like those of the malcontents of the 13th regiment might properly be treated with ridicule as the actions of a lot of violent but harmless cranks, or, if thought worthy of a more serious sentiment, they might rouse the spectator's pity because those engaged "know not what they are doing." In a regiment of would-be soldiers, however, there is no other light in which to view the matter than that of discipline, and in this light the participants in the unbecoming demonstrations which have degraded the 13th regiment in the eyes of the military of the entire country, are no more nor less than mutineers in the plainest sense of the word. They should one and all be dealt with according to the strictest application of the law. It is hardly possible that these men have ever been properly instructed as to the responsibilities they assumed when taking the enlistment oath, and that the regiment has been managed on false principles is beyond doubt. Yet if ordinary intelligence did not teach the men that they were committing a serious offence, those who knew better and thought well of the regiment have told them; without avail, however. They have taken their own course and the result is on their own heads. There is and has been no excuse whatever for any improper demonstrations. The Colonel elect had enough stamina to forbid the use of the armory or any of its rooms for any "indignation meeting," but he could not prevent such a gathering in a private locality, and accordingly a meeting was held on Friday evening, Sept. 17. While there was neither method nor sense in the gathering, those present showed beyond doubt that they are thoroughly saturated with the spirit of insubordination, and that a not inconsiderable portion of the regiment is nothing but a mob, entitled to no consideration or concessions whatever. In view of these facts it seems strange that a former Colonel of the regiment in an otherwise evidently well meant communication advises the crowd to be "generous." In what manner and according to what principles can soldiers in open mutiny show their "generosity" to those in lawful authority over them, and against whose authority they are rebelling? Advice of this kind is calculated to strengthen the men in their dangerous course, and is not the present outbreak the result of such false doctrines? Generosity in this case, if it is to be practiced at all, can only emanate from those who hold proper authority, and as matters look there are numerous cases where it would be decidedly misplaced. If the 13th is to come out of this crisis sound, and if it desires to regain the confidence of the public, it must convince those who understand military matters that it is a disciplined body of men and not a headless debating clique. In its present condition it is not only useless for practical military purposes, but it stands as an evil example to the National Guard at large. Only firm, rigid justice, without the slightest concession to the mutineers, can again bring the regiment on an efficient military footing.

It is, however, not merely the damage which the regiment inflicts on itself which calls for attention and action. The affair has a wider scope, inasmuch as it throws disgrace on the citizen soldiery of the entire State. For the credit of all it is to be hoped, and we believe this to be a fact, that there is no other organization in New York where such a state of affairs could be brought about. But the general public does not know this, and the numerous enemies of the National Guard will not recognize it. When the next annual appropriation is asked for the opponents of the Guard in the Legislature will find in the mutiny of the 13th a handy weapon to combat those who ask support for the soldiers. The call for money upon the State increases annually, and although New York is more liberal than any other State, yet the friends of the militia claim that the supply of money is insufficient. Of this doctrine the ARMY AND NAVY JOURNAL has been a steady and staunch supporter. When, however, handsome armories, good uniforms, a liberal supply of arms and ammunition, luxurious subsistence at the camp, fair pay when called on for duty, efforts in every direction to provide improved instruction, bring forth no other result than mutiny, then what other conclusion can be drawn but that the National Guard system is completely wrong from beginning to end? Is it worthy of liberal support?

The State authorities here find a question which their own credit and that of the troops they represent compel them to answer in the affirmative. They cannot afford to let this 13th affair to go by unnoticed. In view of what has happened it is hardly necessary to hold the usual inspection of that regiment, for no matter how bright the muskets, how regular the step and how precise the manual, the present disgrace cannot be wiped out thereby, nor can any precision on drill in the future be accepted as proof of the discipline of an organization. In place of the inspection let there be a thorough investigation of the affairs of the regiment on behalf of the State authorities; let there be no whitewashing, but compel the regiment to prove that its condition as to discipline entitles it to a place among the organizations of the Empire State.

To allow the offenders to drop quietly into line and cover their offence with the mantle of forgiveness, as proposed by some, is not the correct course. If the 13th is allowed to thus rebel with impunity, other organizations may at any time follow a similar course. The common good requires a thorough investigation and exemplary punishment of the offenders.

INSPECTION OF THE 2D N. Y. BATTERY.

THE Second Battery, Capt. F. P. Earle, paraded at the armory Wednesday, Sept. 22, for inspection and muster assembly at 8 o'clock, the battery appearing in full State service uniform and heavy marching order. Through the courtesy of Col. Jones the battery occupied the 12th Regiment Armory. The review was received by Col. T. H. McGrath, A. I. G. The battery never appeared or mustered in a larger force than upon this occasion. The men were well set up with equipments well adjusted. The steadiness was excellent. The muster showed a present of 76, absent 6; total 82, showing a gain over last year of 23 in the present, and 11 in the aggregate.

After the ceremonies, incidental to review, inspection and muster, a platoon Gatling gun drill was given under command of Lieut. Wilson. The drill embraced the entire school of the platoon, including the mechanical manœuvres and loading and firing blank cartridges. This drill was superior to any heretofore given, and was enthusiastically witnessed by 600 spectators who were completely bewildered at the rapidity of fire.

Brig. Gen. Emil Schafer, who was present "incog," and a large force of National Guard officers also expressed their surprise at the snappish movements. The officers of the battery are to be congratulated upon the efficiency and general appearance of the command.

The regular drills will be resumed in October.

NATIONAL GUARD ITEMS.

Adjt.-Gen. Porter states that Gov. Hill has decided to review the 1st and 2d Brigades on October 6 and 7, respectively. Of course the Brooklyn parade will take place at Prospect Park. The New Yorkers, who have no parade ground, will try to get Central Park, with what success is doubtful. In view of the inspections which come in about that time, it won't make much difference if the project falls through. "Field days" of that kind are of no use and the less of them the better.

Lieut.-Col. Edward Fackner, of the 13th, passed an excellent examination for Colonel on Tuesday, Sept. 21.

Brig.-Gen. Louis Fitzgerald made the following appointments on his staff: Stephen A. Olin, Judge-Advocate; Robt. V. McKim, Surgeon; W. H. Goodwin, Quartermaster; August P. Montauk, Inspector; Paul Dana, Ordnance Officer; Lawrence C. Perkins, Commissary.

The 1st N. Y. Battery, Capt. Louis Wendel, inspected a total of four officers and 82 enlisted men Wednesday, Sept. 22. Nine enlisted men were absent.

Alfred H. Murphy has been elected 2d Lieutenant of Co. G, 22d Regiment.

The 11th N. Y. have asked to have their inspection changed to the morning of October 6 (the day of the review), so that the men will lose only one day by the operation. Thus "Field Days" interfere with the regular duties of the troops.

With regard to the subject of the new armories, nothing definite has as yet been reached, but matters are progressing slowly and steadily, and a definite favorable settlement of the entire question is expected at an early date.

The 71st N. Y. goes to Creedmoor for second general practice Oct. 5, 6.30 A. M.

A preliminary inspection will be held in the 22d Regiment Sept. 27, at 8 P. M., by the regimental commander. Major George A. Miller, who has returned from Europe, has been appointed a delinquency court, to meet Oct. 18.

Orders for the inspection of the 9th N. Y. on Oct. 5 have been issued. Company drills will be resumed October 1 and kept up until April next. Each company will execute the ceremony of guard mounting at least twice during the drill season under direction of the Adjutant. Lieut.-Col. Rand and Major Bartlett will superintend these drills alternately and render reports. 112 men have become entitled to the badge furnished by ex-Captain Joseph P. Carberry for a perfect attendance during the last drill season.

Brig.-Gen. A. B. Parker, of the 3d Brigade, has appointed the following staff: Asst. Adjt.-General, Colonel John S. McEwan; Engineer, Major James MacWaughton; Judge-Advocate, Albert Hoysradt; Surgeon, Major Herman Bendell; I. R. P., Major Charles H. Gans; Ordnance Officer, Maj. Patrick H. Bulger; Q. M., Charles H. Stott, Jr.; C. S., Major Elwood O. Roselle; Aides, Captains Charles J. Peabody and H. Warren Thompson.

The 4th New Jersey has resumed company drills and established a gun detachment, consisting of a lieutenant, a sergeant and 12 privates. Lieut. R. G. Smith, of Co. E, commands the squad.

Every member of the National Guard who knows Adjutant W. H. Hubbell, of the 47th N. Y., sympathizes with him in his recent bereavement.

On account of the "Field day" the drill of the 23d regiment at Prospect Park, Sept. 25, is "off."

As a curiosity we publish the following which was recently found by Col. Jos. G. Story among some old family papers:

SIXTH REGIMENT, NEW YORK STATE MILITIA.

Printed at the Military Argus Office, 79 Chatham-st.

COMPANY A, G. G. COMPANY ORDER.

NEW YORK, November 11th, 1849.

Pursuant to Division and Regimental Orders, this Company will Parade on Thursday, 15th inst., in full Uniform, blue pants without knapsack—You will assemble at the armory at 8 o'clock, A. M., precisely. You are requested to be prompt to the hour, and with the usual badge of Mourning.

By order of

WM. FRANCIS, Captain.

J. W. THORNE, Orderly Sergt.

Warning Officer.

N. B.—Fine for non-attendance, $6.00.

☞ Members who have not got their Tickets for the Annual Ball, which is to take place on Friday Evening, Dec. the 21st, are requested to call on the Secretary, 39 Bowery, and procure them.

C. W. Francis, *Sec'y.*

MASSACHUSETTS.

THE members of the Massachusetts militia team, who captured the interstate and national trophies at Creedmoor, are the lions of their city and State. To commemorate their skill in marksmanship, the following order was promulgated by direction of Governor Robinson:

COMMONWEALTH OF MASSACHUSETTS,
ADJUTANT-GENERAL'S OFFICE,

GENERAL ORDERS NO. 13.

THE Commander-in-Chief directs that, as a suitable recognition of the achievements of the Massachusetts militia rifle team at Creedmoor during the past week, a commemorative medal be given to each member of the team. The winning of the several trophies in competition with the trained and tried troops of other States and of the Regular Army, is an event in which the entire militia may take pride, as it marks conspicuously the rapid advance which they have made during the past three years in that most important part of militia instruction, the effective use of the rifle.

Colonel H. T. Rockwell, captain of the team, will notify the Adjutant-General of the receipt of the trophies won, in order that they may be turned over with due formality.

By order of the Commander-in-Chief.

SAMUEL DALTON, Adjutant-General.

(Special to the Times-Democrat.)

THE COMING NATIONAL DRILL.

WASHINGTON, Sept. 16.

A COMMITTEE appointed to-day by District Commissioner Wheatley to arrange for the coming national drill is composed of the best material that Washington can produce. The members are prominent bankers and merchants, and are a guarantee of success. Although they have only set aside $20,000 for prizes, they determined to-night to raise $50,000 for other expenses. They also decided to memoralize Congress to order one of the mints to strike off handsome medals, which will be given in addition to money prizes, and to petition the President to make the presentations. In fact nothing will be left undone to make the affair national in every feature. The drills will probably take place on what is known as the White House lot.

(Correspondence of the Army and Navy Journal.)

CHICAGO NATIONAL GUARD.

CHICAGO, Sept. 20, 1886.

WHILE the 1st Brigade, I. N. G., were in camp at Springfield last July, the first steps were taken toward securing a rifle range for the use of the Chicago troops. The trouble was to secure suitable ground for the range. After considerable negotiation permission was secured from the Commercial Club and the Commercial National Bank of Chicago to use part of the "Highwood Tract," now under offer to the U. S. Government for a military post, under an agreement with Adjt.-Gen. Vance, that it should be a temporary range for use this fall only. Authority was granted Capt. H. T. Lockwood to build the necessary butts, buildings, etc. On Saturday last, Sept. 18, the range was ready for use, and a small detail went up for practice. The outfit consists of two "Laidley" revolving targets in a trench, 4 ft. deep and 32 ft. long, with the dirt banked on both sides 4 ft. high, giving a total depth of 8 ft. Between the two targets a house has been built, 12 ft. long by about 8 ft. high and made for storing targets, making discs, etc. The firing is due East, and the ground in front of the targets is level, with a slight rise toward the 500 yard firing points, which is the longest range obtainable. Back of the targets is a thick patch of woods, for 200 to 250 yards, and then comes the shore of the lake. Fortunately there are so many sand bars in the lake at this point, that vessels do not come within about a mile of the shore.

Now, that the troops of Chicago have an opportunity to perfect themselves in rifle practice, it is hoped that they will take advantage of it and reap the benefits of range.

H. T. L.

IN THE FROZEN NORTH.

WE find in the N. Y. *Herald* a letter from Civil Engineer R. E. Peary, U. S. Navy, from which we condense this account of the start on another journey in the Arctic regions:

GODHAVN, Greenland, June 14, 1886.

Just at sunset two weeks ago Thursday the whaler *Eagle*, Captain Jackman, steamed out of Sidney Harbor, C. B., full of coal below and between decks, and with 60 tons on deck, headed northward for Davis' Strait. Early Sunday morning Belle Isle itself was passed on the port side, the northern channel between it and Labrador being full of ice, and we again steamed north, the snow mottled Labrador coast showing faintly in the distance. A little later and a dense fog shut out everything. At 4 A. M. Monday, the western edge of the ice stream from Davis Strait was met and during the next twenty hours the *Eagle* was forcing her way eastward across it.

Once free of the pack we steamed along its eastern

edge during three days of fog and rain and high winds, with deck as level and steady as a floor.

Next Monday morning the brown, snow capped, snow streaked cliffs of Disco lay dead ahead, and about 2 P. M. the ice anchors were out and the *Eagle* made fast to the edge of the ice, which filled the inner harbor of Godhavn or Lienely of the whalers.

Men and boys and dogs dotted the ice and gathered at the ship's side, the former bringing ducks, fish, toy kayaks, etc., for sale; the latter engaging in a general fight. After dinner a four-dog sledge came out to the ship, and in a few moments we were dashing over the ice to pay our respects to the Governor and Inspector.

After tea the arrangements for the summer's work were completed, a room in the Governor's house was placed at my disposal, men and sledges were sent to the ship to bring the baggage and supplies ashore, and at 2 A. M., everything being finished, I said goodby to the big fisted, good hearted, devil-may-care captain of the *Eagle* and turned in. An hour later the vessel's whistle woke the echoes of the cliffs, and looking from my window I saw her disappearing behind the rocks bound for Melville Bay.

The *Eagle* is the last of the whaling fleet this year. June 11 the ice left the harbor, and yesterday the long desired east wind came, bringing out the ice from Disco Bay. Last night a southwest breeze brought enough of it back to block the harbor again, but the land breeze to-night will probably drive it to sea. A small sailboat has been placed at my disposal, the natives are engaged to go with me to Ritenbenk, in the *Waigat*, where I expect to obtain an oomiak, or large native skin boat, for the remainder of the voyage to the mainland, and expect to start to-morrow morning. Hans Frederick, one of the Esquimaux who accompanied the English expedition under Captain Nares, is my interpreter and head man.

Looking from the window of the Governor's house across the harbor and through a break in the cliff opposite, a spur can be seen jutting out into a deep ravine, and on its summit several cairns, one built by the officers from the *Proteus*, another by the present Governor, are just visible as black clots above the snow, while beyond and above them rises the interior ice or snow cap of the island of Disco. Throwing a gun and a pair of snowshoes over my shoulder and taking a long double ender alpenstock in my hand, I started one afternoon for this point. The climb over the rough rock up the steep valley in the bright sun was warm work, but the summit once reached the cool breeze made mittens very comfortable and ears very uncomfortable. Having reached the cairns at an elevation of 2,600 feet above the level of the sea, the snowshoes were strapped on and I stepped out upon the unbroken expanse of glittering snow. A half-hour's walk brought me to rounded summit one and one-half miles inland from the cairns and 3,200 feet above the sea. This summit commanded the southern portion of the island, and from it the snow cap stretched away to the north and northeast in undulating lines till lost in the fog. Its surface was the perfection of snowshoeing, in places even firm enough to support one without snowshoes, and upon it a man in training could easily travel four or five miles per hour. If at any season of the year the interior of Greenland is in a similar state, and there seems to be no reason why it should not be, a party with snowshoes and Hudson Bay sledges could travel twenty or twenty-five miles per day, day after day. Without snowshoes ten miles per day would be hard work. The descent from the cairns was even harder work than the ascent, but the house and the tea table were reached at last.

CAPTAINS OF BRITISH SEALERS SENTENCED.

DESPATCHES have been received at the Navy Department from Lieut.-Comdr. Nichols, commanding the *Pinta*, from Sitka, Alaska, relating to the seizure of the British sealers. He says: "Two of the cases have been disposed of as follows: The captain and mate of the British schooner *Thornton* were tried by jury, found guilty, and sentenced each to imprisonment for 30 days and fined, the captain $500 and the mate $300. The captain and mate of the American schooner *San Diego* waived a jury, and were tried before the Court; both were found guilty and sentenced, the captain to two months and the mate to one month's imprisonment. The cases of the two other British schooners will come up in a day or two. The captain of one of them has disappeared, and it is supposed has committed suicide."

NEW PUBLICATIONS.

Among the eminent writers who will contribute to the October *Magazine of American History* are Rev. Chas. W. Baird, D. D., Hon. Charles K. Tuckerman, former Minister to Greece, Hon. Luther R. March, Gen. John Watts De Peyster, Gen. Alfred E. Lee, Mr. John Dimitry, and William A. Mowry, the editor of *Education*.

THE MESS.

First Little King—What's the matter in Bulgaria?

Second Little King—Prince Alexandria has been deposed.

"Was he given any warning?"

"No."

"Not even a week's notice?"

"No, just kicked out."

"Well, I think it's time us kings had a trades union."

—

Military Item.—Corporal to soldier: Why is the blade of the sabre curved instead of straight? Soldier: It is curved in order to give more force to the blow. Corporal: Humbug! The sabre is curved so it will fit the scabbard. If it was straight, how would it get into the crooked scabbard, blockhead? —*From the German.*

—

Officer to soldier about to go out and qualify a marksman: "Now, Murphy, I want square marking and scoring. I want everything straight." Murphy: "Then, sor, I understand you to mane, sor, that no sharpshooters must be made to-day." —*Kansas City Times.*

—

A Washington correspondent of the Pittsburg *Despatch* says: "A good story is told at the expense of a naval officer religiously inclined. The offender, says a Sunday paper, is a brother officer and something of a rake, and is said to have been connected with the Winston Opera Company in some capacity during the recent summer season. The religious officer, while in New York last spring, was jokingly presented with a box ticket to Koster and Bial's Concert Gardens. He retained the ticket, but soon after his return to Washington he missed it. His first intimation of its whereabouts was a paragraph in a New York paper which gave an account of an alleged escapade of his at Koster and Bial's with two women. It was afterwards learned that the rakish officer had stolen the box ticket, and while in an intoxicated condition visited Koster and Bial's with two females, where his conduct was such that the policemen had to eject the party. The name of the religious officer being on the ticket, he naturally figured in the newspapers as the drunken disturber of the peace. He is now on the war path and intends to make it hot for the man who has tarnished his hitherto spotless reputation and caused his family to regard him with distrust."

THE HUDSON'S BAY ROUTE.

CAPTAIN A. MARKHAM, British Navy, has returned to Montreal from an official inspection of Hudson's Bay, with a view to ascertaining facts in relation to the navigability of the bay in connection with the proposed new route to England. Capt. Markham left Halifax several months ago on the *Alert*, and entered the bay at the north. He travelled over the proposed new route and became satisfied that the bay is navigable for at least four months in the year. The bay, he says, is free of icebergs and large floes, the ice which he found there being what is known as "pack" ice. This will not obstruct steam vessels. In case the route is adopted a railroad line will be built from Winnipeg to some point on the bay, where communication will be made with ocean steamers. It is claimed that there will be a gain of about 700 miles distance between the Northwestern Territory and the old country.

(Correspondence of the London Times.)

FRENCH ARMY MANŒUVRES.

PARIS, TUESDAY EVENING.

THE army manœuvres have begun at different points of France. Yesterday Gen. Boulanger visited the camp at Châlons-sur-Marne, where operations on a very large scale were carried out with thorough success. The 2d and 6th Divisions of Cavalry went through various evolutions to the entire approval of the Minister of War; among the proceedings being the preliminary phases of a battle, an attack on several batteries of artillery and a grand charge, in which all the squadrons took part. At the conclusion of these manœuvres Gen. Boulanger expressed his satisfaction in glowing terms, and dwelt on the important *role* which this arm of the service is still called upon to play. The two divisions and the brigade of Cuirassiers quartered at Châlons then galloped past the Minister of War, but the excessive heat and the clouds of dust rather marred the enjoyment and the brilliancy of this fine spectacle. After luncheon General Boulanger repaired to the School of Musketry, and once more expressed his pleasure at the results achieved by the small rifle. In the evening he gave a dinner of 64 covers to the superior officers. The whole place was illuminated, and when he drove away loud cries of "Vive la République!" "Vive l'Armée!" resounded on all sides. The General returned to Paris this morning.

Sad accounts come, however, from other quarters where the manœuvres have also commenced. Thus, during the operations on Sunday and yesterday of the 1st Army Corps, whose headquarters are at Lille, numerous cases of sunstroke occurred, owing

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

For sale by JOHN ROCKWELL, 20 Nassau St., New York.

to the tropical heat now prevailing. At Cappelle about 140 men, two of whom have since died, were taking ill, and at Landrecies and Cambrai several reserve men belonging to the 1st and 84th Regiments of Infantry were also affected. Similar mishaps are reported as having befallen the 14th Army Corps in the Drôme, two reserve men having died on the march at Pollignon, where the thermometer actually registered 102 deg. Fahrenheit. Gen. Boulanger has taken the matter warmly up, and has telegraphed to the commanders of all the Army Corps repeating the instructions already sent to them. He has also directed that a strict investigation shall be immediately held, with a view to ascertaining who is responsible for these disasters. I should add that, so far as can be gathered, the majority of the sufferers from sunstroke were reserve men who were more or less out of training.

FOREIGN ITEMS.

A BERLIN correspondent says: It is plain at least that the situation in the East has grown much more simple and less alarming, and that, above all things, Germany must now be accused of being an obsequious and unconditional supporter of Russia, which her unexplained action at first led the people to believe she had become.

THE institution of one-year volunteers in the French Army will shortly cease to exist, and the consequences are already beginning to be felt, but in a direction which is of the greatest value for that army. As many young men of better family, or such as have received a higher grade of education, do not care to spend three years in barracks amongst the men, they prefer to visit the military school of Saint-Cyr for, two years, enter the army as lieutenants, serve for one year, and then retire. The effect of this tendency is making itself felt at Saint-Cyr, for, whilst in 1885 only 1,400 young men applied for admission, this year the number of applicants is 1,700. Although the French active army will lose their services again after a year, they will form in time a valuable reserve of officers for the territorial forces.

THE Austrian Army Estimates of 1886-7 have been framed for a total effective of 16,000 officers and 450,000 men. They include a sum of nearly $1,010,000 for increasing the pay of second captains, lieutenants, and subalterns; staff charges; and allowances $300 each to newly promoted majors, for the purchase of a charger and saddlery.

ONE of General Boulanger's latest bids for popularity is a useful innovation. It is that regarding the system adopted in the plans of the great military manœuvres. For the past in France, as elsewhere, every officer, from the commander-in-chief to the sub-lieutenants, received in due time his precise instructions with regard to the operations. All was foreseen, arranged, and settled beforehand. No initiative whatever was left to the generals in command, or to the other superior officers who were left without any possibility of evincing their military talents and showing their capacity. All this has now been done away with, and for the first time two divisions, or two army corps, started from different parts, not knowing where and when they might come across each other.

IN reference to the recent experiments made at Portsmouth to test the efficiency of indiarubber and abestos in closing the holes of a ship's side when penetrated below the waterline by shot or shell, the inventor of the last named material publishes a letter in which he claims that it completely answered its purpose. The undertaking made to the Admiralty was that a lining of the asbetos composition one or two feet in thickness, placed inside the thinnest armor plates of a man of war would render harmless the perforation of a ship's hull by any projectile below the waterline, as the composition would automatically close the breach and prevent the admission of water. As was stated in the report of the Portsmouth trials, the asbestos immediately closed up again, and by so doing, this correspondent asserts, it completely accomplished the object in view.

THE British War Office has sanctioned the blessing of the colors of a British regiment by a priest of the Church of Rome. The new colors of the 1st Battalion of the Royal Irish Regiment, presented at Devonport, were sprinkled with holy water and blessed in the Latin tongue according to the formula of the Romish Church by the Rev. Father O'Flaherty. Lord G. Hamilton said in Parliament recently in reply to a question: "The embarkation on troopships of Roman Catholic chaplains on each voyage, is contingent on the number of Catholic soldiers taking passage, but, as matter of fact, a Roman Catholic chaplain was embarked on each voyage of the Indian troopships last season."

THE correspondent of the *Soleil*, who is attending the manœuvres in the Gironde, threw the boulevards into a state of great excitement by misunderstanding or pretending to misunderstand General Boulanger's speech at a banquet of the officers there. He really congratulated the army on having substituted aggressive for defensive tactics in the strategy of the Autumn manœuvres, but the reporter made him say France would henceforth take the offensive cue in European politics. Everybody, hence, thought General Boulanger had declared war against Germany and leaped to the conclusion that an alliance with Russia had been achieved, and everybody, correspondingly, was excited. Critical folks complain that Gen. Boulanger probably arranged the mistake with the journalists with the object of firing the French heart and identifying himself still more with the idea of *revanche*, while escaping diplomatic responsibility by an explanation.

RUSSIA has signified her intention to demand of the Corean Government possession of the harbor of Kankjek for use as a naval station.

GENERAL BOULANGER has ordered that the French Army shall adopt as the National air the tune "Mourir pour la Patrie," a stirring lyric.

IN the Philosophical and Surgical Convention this week at Berlin Professor Virchow paid a great tribute to America. He said the presence of a large American delegation in the Convention was a source of unbounded joy to their German colleagues. The natural philosophers and doctors of Germany and America had for a long period worked shoulder to shoulder, and he hoped the good feeling would continue.

THE details of the recruiting of the English Army in 1884 show that the number of recruits inspected was 66,882, of whom 38,994 were passed, and 27,888 were rejected. Of 65,298, exclusive of boys under 17, 22,172 were under 5 ft. 5 in.; of these 8,732 were under 5 ft. 4 in., and 1,137 under 5 ft. 3 in. Of the same total, 34,522 were less than 34 in. in chest circumference, 14,632 under 33 in., 4,776 under 32 in., and 1,664 under 31 in. As to weight, or rather lightness, 39,361 were under 130 lb., 17,804 under 120 lb., 3,672 under 110 lb., and 1,379 were actually under 100 lb.!

AN English officer has invented a new description of service tent, called the "Tortoise." It is a combination military wagon and tent, having the additional advantages of being fitted with a movable cooking apparatus. In this contrivance the wagon itself takes the place of the uprights and ridge poles of a marquee. Guides and guide-rope pegs, too, are not wanted. The canvas is spread over the hoops forming the roof of the wagon, from which it stretches out about 10 feet all around, giving the amplitude of the marquee in a tent area of about 30 by 25 feet. To pitch the "Tortoise," it is only necessary that the sides and ends of the tent (strapped against the outside of the wagon) should be unrolled and pegged out as usual, while in packing up the operation is merely reversed. The "Tortoise," as a tent, is capable of accommodating thirty men with comfort, while at a pinch about sixty men could be placed under its cover; as a wagon, its whole capacity is left for transport.

THE winning bird in the great pigeon race between Vienna and Cologne covered the distance of 784 kilometres in 22¾ hours.

A SCHOOL of submarine warfare will be opened at Toulon on Sept. 1 next, directed by the commandant of submarine defence at Toulon.

A RECENT despatch from London says: Army people believe we are on the eve of large and damaging disclosures regarding the system of letting contracts by the War Department. If it were not for the aristocratic bond of mutual defence running through the whole English Government doubtless the gigantic scandal would be brought to light by the commission which the Ministry has been badgered into consenting to appoint. As it is, while everybody believes there have been gross frauds, nobody expects an exposure.

THE fibrous material for defensive and leak-stopping purposes, known as Cellulose, has recently been the subject of experiments by means of a packed cofferdam on board H. M. S. *Excellent*. This substance, which is supplied by M. Torrhilon, of Paris, has undergone extensive and interesting trials by the French naval authorities, the results of which we reported some time back. The trials at Portsmouth have not been altogether satisfactory, and orders have now been given for the repair of the cofferdam, that further careful experiments may be carried out.

"HAVING tested the virtue of Phenol Sodique in our own family, we can unhesitatingly recommend its use. It relieves pain almost instantly, and rapidly heals the wound. It is an article which should be kept on hand where accidents are liable to occur."—*Jeffersonian*, West Chester, Pa.

R. W. TANSILL & Co., Chicago, are now making especially for the Officers of the Army and Navy a new and very fine Havana hand-made cigar, known as "TANSILL'S REINA." They are put up in beautiful packages of 25 cigars, each cigar banded. They come in three sizes, 4¼, 4½, and 4¾, inches, while their moderate cost, viz. $65, $70, and $75 per thousand brings them within the reach of the entire Service.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

Silver mounted Pipes & Bowles in Newest Designs

NOTICE TO NAVAL ARCHITECTS AND OTHERS,
Concerning designs of steel armored vessels for the United States Navy.

The United States Navy Department, having in view the construction, in pursuance of the authority conferred by Act of Congress approved August 3, 1886, of two armored vessels of different types, of about 6,000 tons displacement each, invites the submission of designs from naval or marine architects, from engineers or mechanics of established reputation, all reputable manufacturers of vessels, steam engines, boilers and ordnance; and especially from all naval constructors, steam engineers, and ordnance officers of the Navy having experience in such work.

One of the proposed vessels is to be an armored cruiser, and the other as powerful an armored battle-ship as can be obtained on the above displacement.

The requirements of the Department are laid down in a circular which will be furnished to those interested, on application to the Department, or to Commander F. E. Chadwick, U. S. N., Naval Attaché U. S. Legation, London, England, or to Lieutenant B. H. Buckingham, U. S. N., Naval Attaché U. S. Legation, Paris, France.

The designs submitted will be carefully examined, and one of each type will be selected for purchase, provided it can be obtained at the price mentioned in the Circular and otherwise conforms to its terms.

After purchase, the Department will be at liberty to make such modifications in the design as it may desire. It will then order working drawings. These must embody the modifications, and must conform in price and otherwise to the terms of the Circular.

Designers are at liberty to offer any design deemed by them most desirable, whether conforming to the data prepared by the Department or not. The designs must, however, conform to the conditions named in the Act of Congress above referred to, or they will not be considered. These are as follows:

"Two sea-going double-bottomed, armored vessels of about 6,000 tons displacement, designed for a speed of at least sixteen knots an hour, with engines having all necessary appliances for working under forced draught, to have a complete torpedo outfit, and be armed in the most effective manner."

Designs not accepted will be returned, and no copies taken or retained by the Department. WILLIAM C. WHITNEY,
Secretary of the Navy.

NAVY DEPARTMENT,
WASHINGTON, D. C., August 21, 1886.

UNITED STATES ENGINEER OFFICE,
P. O. BOX 5346, ROOM 124, POST OFFICE BUILDING, BOSTON, Mass., Sept. 2, 1886.

SEALED PROPOSALS, in triplicate, will be received at this office until 12 o'clock noon, Wednesday, October 13, 1886, for the dredging of 30,000 cubic yards of material and the removal of "Harbor Rocks," by blasting, from the harbor at Scituate, Mass.

For specifications, blank forms, and all information, apply to the undersigned.

G. L. GILLESPIE,
Major of Engineers, Bvt. Lt. Col., U. S. A.

AN EXTRAORDINARY RAZOR.
HAS BEEN INVENTED BY THE QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied; sent by mail 10c. extra or C. O. D.

NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON, Mass.
Assets, ------ $17,846,546.65
Liabilities, --- 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office, *POST OFFICE SQUARE.*

ARMY NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 10.
WHOLE NUMBER 1206.

NEW YORK, SATURDAY, OCTOBER 2, 1886.

SIX DOLLARS PER YEAR.
SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE troops lately on duty in the field in Arizona are now converging to their permanent stations, and we hope they may be permitted to enjoy a well-earned rest.

THE periodical changes heretofore ordered in subalterns of Light Batteries took place on Friday of this week and caused the severance of many pleasant associations. The changes in captains are next in order.

ALL the West Point graduates of 1886 were due with their respective companies on Friday of this week, Oct. 1, and doubtless will prove welcome additions, for 2d lieutenants, present for duty, have been somewhat scarce during the past few months.

THE fine stone dry dock now nearing completion at the Mare Island Navy-yard, Cal., will reflect much credit upon that station, and will be a subject of congratulation to Civil Engineer C. C. WOLCOTT, U. S. N., who has so steadily pursued this labor since reporting for duty in this Yard early in 1882.

SECRETARY ENDICOTT did not return to Washington until Thursday last, so we are unable to announce the new Chief of Engineers and Surgeon-General this week. The President stated to Adjutant-General DRUM the early part of the week that he would not make the appointments until he had consulted with the Secretary.

THE proceedings of the court-martial in the case of the West Point cadets, who were engaged in the "rush," have been referred by the Acting Secretary of War to the Acting Judge Advocate General for report preparatory to transmission to the President. The papers will reach the Executive within a day or two—a strong presumptive proof that the sentence is dismissal.

LONDON *Fairplay* is after Messrs. BARNABY and WHITE with a "sharp stick," for their supposed connection with the sale of plans to our Navy Department. Mr. BARNABY was formerly Director of Naval Construction. Mr. WHITE is at present the head of the Construction Department. The name of FRANCIS ELGAR, Director of H. M. Dockyards, is formally mentioned as Mr. WHITE'S successor, should he decide to return to the firm of ARMSTRONG and Company.

PRESIDENT CLEVELAND has delegated Major-General J. M. SCHOFIELD, U. S. A., to represent him on the occasion of the inauguration of the statue of "Liberty Enlightening the World" at Bedloe's Island. The inauguration ceremonies will take place towards the end of October, likely the 28th, and are expected to be quite imposing. The Army and Navy in the vicinity will assist. The programme is already under consideration, but will not be made public until thoroughly completed.

THE recent order of Commodore HARMONY, Acting Secretary of the Navy, directing the Chief of the Bureau of Construction and Repair, Ordnance, Steam Engineering and Equipment and Recruiting to co-operate together as frequently as may be necessary, in the preparation of the plans for the new ships authorized by the Act of Aug. 1, is designed to prevent a conflict of authority in the different bureaus. Each Chief of Bureau will be held responsible to the Secretary for his work, as he should be.

THE Ordnance Department have decided to extend the hooping of the new 8-in. Army gun to the muzzle, so as to increase the powder charge and obtain still better results with it. Advertisements inviting proposals for doing this work were issued from the Department this week. Advertisements have also been issued asking proposals for six steel hoops of American manufacture for the 8-in. gun of all American steel, the material for which was ordered from the Midvale works, and the 10-in. steel rifle building at the West Point Foundry.

THE *United Service Gazette* views the Anglo American yacht race, in which the American *Mayflower* beat the English *Galatea*, somewhat in the spirit of the boy who said if he could not thrash another lad, he could make faces at his sister. The *Gazette* says: "If we cannot design a yacht which will equal in speed an American constructed craft, it is satisfactory to know that we are unsurpassed in the construction of ironclads, swift cruisers, and torpedo-boats. Notwithstanding the many carping critics who delight in denouncing all our naval efforts as failures, and our armaments as effete, those who are in power know better; and we, who have as keen an interest as any in maintaining Britain's supremacy, do not hesitate to assure our readers that, as ever, England is Ready, aye Ready!"

THE Court-martial for the trial of Captain J. L. Johnston, U. S. A., retired, on charges of duplicating pay accounts, commenced at the Washington Barracks on Thursday, Sept. 30. The following members compose the court: Colonel Horatio G. Gibson, 3d Artillery, President; Major Jas. Biddle, 6th Cavalry; Major E. C. Bainbridge, Captains Edward R. Warner, George F. Barstow, Lewis Smith, and J. B. Burbank, 3d Artillery; Captain John G. Bourke, 3d Cavalry; Lieutenant Edward Davis, 3d Artillery, and Lieutenant W. E. Birkhimer, 3d Artillery, J.-A. This detail is somewhat different from that published under the head of "Late Army Orders" last week, changes having been decided upon just before the order convening the court was issued. We regret to say that our investigations have increased the list of retired officers previously tried by Court martial from one, the number given, to five.

THE Lieutenant General is not altogether satisfied with the nominations made by Regimental Commanders, of Captains of Light Batteries for the three years beginning January 1 next, and the probabilities are that the detail when made, will include names not recommended. Several of the recommendations were not in accordance with the regulation which requires that the senior captain who has not had Light Battery service, shall be next in order for detail. In the 3d Artillery, for instance, Captains TURNBULL and BARSTOW should have the next turn, but in place of Captain BARSTOW Captain KOBBÉ, the junior Captain of the Regiment, who only a little over a year ago served as 1st Lieutenant with a Light Battery, has been named by Colonel GIBSON. The explanation given in this, and in other cases where the rule has been departed from, is that a younger officer was preferred. Captain BARSTOW was fifty-eight on April 2 last.

WE are credibly informed that Secretary WHITNEY during his summer vacation has been planning a reorganization of several of the bureaus of the Navy Department, and upon his return to Washington will take the necessary steps towards carrying out his ideas in regard to at least one of the bureaus. The Bureau of Provision and Clothing he proposes shall be empowered not only to make the payment of salaries and purchase of provision and clothing, but to purchase the supplies of all descriptions for the entire Service, thus relieving the other bureaus from practical responsibility and leave them free to devote themselves wholly to the executive work properly belonging to them. It is hinted also that he has matured some scheme for a concentration of the work in the Bureau of Construction and Repair and Steam Engineering, but no one pretends to know just what his plans are in this regard.

THE English special commission which approved the proposed new Enfield-Martini rifle is to be reconstituted, in order to consider the reports as to the 1,000 weapons which were issued early this year to Infantry regiments for trial experimentally. The trial at Wimbledon is objected to as little better than a farce, having been limited to twenty rounds at 1,000 yards, and the new rifle is sharply criticised by the veteran shot, Mr. C. F. LOWE; Sir SAMUEL BAKER and others. Owing to the lightness of its bullet, it requires an abnormally large wind allowance; its stock is too straight to be brought readily to the shoulder, and "this fault accounts for the extraordinary failure of the English Infantry fire in face of the enemy." The Martini breech action is "a mere trap for dust and rain" and has the further objection of not being adapted to the application of the magazine, to which all foreign armies are now tending. Roumania and Bavaria are the only countries that keep England company in the use of the "falling hinge block." The Vetterli, adopted by Italy and Switzerland, the Berdan used in Russia, the Japanese Murata, the French Gras, the German Mauser are all bolt guns; the Austrian Werndl has the revolving block, the Remington the segmental block, and our Springfield the turnover block.

IT is stated that the English School of Musketry at Hythe and the School of Gunnery at Shoeburyness will be removed to Lydd, where the vast reaches of shingle constitute one of the best land ranges to be found in the United Kingdom. Some interesting experiments have been conducted this year at Lydd, including the observation from balloons of the effect of artillery practice. These balloons are constructed of a material said to be similar in substance to that known as gold beaters' skin, but of such thickness and toughness that it is claimed for it that it will not be penetrated by a Martini-Henry rifle bullet fired at a distance of 1,000 yards. One of these balloons was sent up 2,000 feet and fired at from a 12-pounder with shrapnel shell, fitted with sensitive delay action fuses, without any apparent effect. At the conclusion of the firing an attempt was made to haul down the balloon for closer inspection, but having regard to its apprehended destruction, the net covering was of inferior quality, and, bursting freely, the balloon travelled rapidly away in a southwesterly direction, and was then seen to collapse. An electric light apparatus was fired at by night by ten marksmen with Martini-Henry rifles, but the glare of the light effectually blinded any one attempting to take aim, and the attempt of the riflemen signally failed.

PERSONAL ITEMS.

MAJOR H. A. THEAKER, 15th U. S. Infantry, has joined at Fort Randall, D. T.

GENERAL W. B. HAZEN, U. S. A., is expected to return to Washington about October 15.

CAPTAIN J. S. TOMPKINS, U. S. Army, and Mrs. Tompkins have returned to Laurel, Md.

LIEUTENANT F. E. HOBBS, Ordnance Department, U. S. A., has been visiting in Washington.

MAJOR J. W. SCULLY, U. S. A., returned to New Orleans early in the week from a trip to Atlanta.

CAPTAIN S. M. MILLS, 5th U. S. Artillery, rejoined at Fort Monroe, Va., early in the week, from a short leave.

GENERAL W. H. PENROSE, U. S. A., returned to Fort Niagara, N. Y., early in the week, from a short leave.

SURGEON DALLAS BACHE, U. S. A., left Ft. Adams, R. I., this week, to be absent until the latter part of October.

LIEUTENANT A. R. PAXTON, 15th U. S. Infantry, lately at Fort Snelling, has rejoined at Fort Randall, D. T.

COLONEL CHAS. PAGE, Medical Department, U. S. A., returned to Fort Leavenworth this week from a short trip East.

CAPTAIN J. H. DORST, 4th U. S. Cavalry, left St. Augustine this week for Whipple Barracks, to report to General Miles.

LIEUTENANT H. DE H. WAITE, 5th U. S. Cavalry, rejoined at Fort Monroe, Va., early in the week, from a short leave of absence.

LIEUTENANT GEO. A. THURSTON, 3d U. S. Artillery, joined at Newport Barracks, Ky., this week, and entered upon duty at that post.

LIEUTENANT W. C. MUHLENBERG, 2d U. S. Infantry, will leave Omaha, this week, to spend the winter on leave, for the benefit of his health.

MRS. ROBERT ANDERSON, widow of General Robert Anderson, U. S. A., and Miss Anderson, have returned to the Ebbitt House, Washington, D. C.

LIEUTENANT J. K. CREE, 3d U. S. Artillery, who has been on leave at Meadville, Pa., for some time past, returned to Fort McHenry, Md., this week.

LIEUTENANT W. H. ALLAIRE, 23d U. S. Infantry, who has been on duty for some time past at Fort Mackinac, returned this week to Fort Wayne, Mich.

LIEUTENANT S. D. FREEMAN, 10th U. S. Cavalry, at present residing at 422 Lanvale street, Baltimore, Md., has received an extension of leave for two months.

CAPTAIN SAMUEL MUNSON, 9th U. S. Infantry, who relinquished recruiting duty in New York this week, will remain East until the latter part of January, 1887.

CAPTAIN C. T. WITHERELL, 19th U. S. Infantry, on leave from Fort Clark, Texas, was expected at Jasper, Ga., this week to look after some business matters there.

MAJOR W. R. LIVERMORE, Corps of Engineers, U. S. A., stationed at Kansas City, has been an interested spectator of the Army competitions at Fort Leavenworth.

LIEUTENANTS B. A. POORE, G. J. Godfrey, D. J. Baker, Jr., and W. H. Gordon, 12th U. S. Infantry, joined at Madison Barracks, N. Y., this week, from graduating leave.

CAPTAIN C. C. DE RUDIO, 7th U. S. Cavalry, who relinquished recruiting duty at Philadelphia, Oct. 1, will join his Troop at Fort Meade towards the end of the month.

LIEUTENANT COLONEL A. L. HOUGH, 16th Infantry, relieved Colonel G. L. Andrews, 25th Infantry, of the superintendency of the Recruiting Service, on Friday of this week.

CAPTAIN W. B. BECK, 5th U. S. Artillery, took his battery to Fort Hamilton on Monday last to engage in heavy artillery practice. Captain Morris took his battery on Wednesday.

MAJOR WILLIAM ARTHUR, Paymaster, U. S. A., left New York for San Antonio early this week. His many friends in the East wish him *bon voyage* and a good time at San Antonio.

LIEUTENANT R. P. P. WAINWRIGHT, recently appointed Adjutant of the 1st Cavalry, by Colonel Dudley, is an experienced and valuable officer of over eleven years' active service.

LIEUTENANT HUNTER, U. S. A., has arrived at Cincinnati for duty as recruiting officer. Mrs. Hunter is a Cincinnatian, and is congratulated on this very pleasant assignment.—*Commercial Gazette.*

COLONEL G. V. HENRY, U. S. A., says the Kansas City *Times*, thinks the Bellevue range the finest in the Missouri, and the probabilities are the Division contests will be held there next year. Col. Henry has returned to Omaha from Fort Leavenworth.

GENERAL W. T. SHERMAN, U. S. A., who has finally reached the Fifth Avenue Hotel, N. Y., visited his daughter, Mrs. Fitch, in Pittsburg, Pa., this week. To the "inevitable interviewer" he said: "After a couple of days in Pittsburg, in the society of my daughter, I will go to New York and remain there all winter, though I cannot say yet as to whether I will locate there permanently. I am now 66 years of age, and am really out of politics. I am a private individual, consequently I really have nothing to say about politics. I never voted in my life, I never expect to vote, and I never expect to be voted for." When asked for his opinion as to the best method of solving the Indian question he replied: "The question is a matter that belongs to the Interior Department, and it is not for myself or others to be quoted as to how it should be settled."

CAPTAIN L. A. MATILE, 11th U. S. Infantry, has joined on promotion at Fort A. Lincoln, D. T.

CAPTAIN S. H. LINCOLN, 10th U. S. Infantry, was at Fort Lyon, Col., this week to be absent for two months.

CAPTAIN G. W. H. STOUCH, 3d U. S. Infantry, lately East on leave, has rejoined at Fort Shaw, Montana.

LIEUTENANT H. C. HODGES, 22d Infantry, will leave Fort Lewis, Col., in a few days for duty at West Point.

LIEUTENANT CONSTANTINE CHASE, 3d U. S. Artillery, returned to Washington Barracks early in the week from leave.

LIEUTENANT FRANK MCINTYRE, 19th U. S. Inf., was in New Orleans last week, on his way to Fort McIntosh, Texas.

CAPTAIN E. R. WARNER, 3d U. S. Artillery, rejoined at Washington Barracks early in the week from a short leave.

LIEUTENANT J. A. IRONS, 20th U. S. Infantry, on leave, from Fort Assiniboine, was visiting in Washington a few days ago.

ASSISTANT SURGEON W. C. SHANNON, U. S. A., rejoined at Fort Warren, Mass., on Wednesday, from a short leave of absence.

MAJOR THEO. SCHWAN, Assistant Adjutant-General, U. S. A., has taken permanent quarters at No. 1512 P St., Washington, D. C.

MAJOR W. H. GARDNER, Medical Department, U. S. A., left Fort Davis, Tex., Sept. 25, for his home, 1321 G St., Washington, D. C.

AMONG recent guests at the Leland House, Chicago, are: Lieuts. G. S. Young, 17th Inf.; A. R. Paxton, 15th Inf., and D. E. Holley, 1st Inf.

QUARTERMASTER W. W. WOTHERSPOON, 12th U. S. Infantry, rejoined at Madison Barracks, Sackett's Harbor, on Thursday from a week's leave.

LIEUTENANT S. L'H. SLOCUM, 8th Cavalry, who relinquishes duty as A. D. C. to Gen. Stanley, is coming North to remain until January next.

LIEUTENANT O. M. LISSAK, 4th Artillery, after a few weeks' tour of duty at West Point goes to Fort Adams, R. I., for duty with Morris's Battery G.

SURGEON P. J. A. CLEARY, U. S. A., who came to St. Augustine with troops guarding Indian prisoners, left there Sept. 25, for Fort Union, N. M.

LIEUTENANT E. BURR, Corps of Engineers, U. S. Army, and bride have been visiting in St. Louis, and are expected at Vancouver Barracks some time in October.

MR. JOHN TWEEDALE, chief clerk of the War Department, and Mrs. Tweedale were recent visitors at Fort Snelling, Minn. They returned to Washington this week.

LIEUTENANT JAMES REGAN, 9th U. S. Infantry, who has been selected for a two years' recruiting tour, visited friends in Washington this week and afterwards came on to New York.

COLONEL HUGH D. GALLAGHER, who was appointed last week Indian Agent at Pine Ridge, Dak., comes from Greensburg, Ind., was a soldier, and is said to be a first-class man. He takes the place of Capt. J. M. Bell, 7th U. S. Cavalry.

THE San Francisco *News Letter* in its society gossip says: "Miss Helen Lake's engagement to Lieut. Hunter is one of the most recent made known, and the wedding, which will probably take place within a couple of weeks, will be a quiet one. The Bella Vista promises to be well supplied with beauties during the winter season, the latest addition being pretty Mrs. Whitney, of the Army, who, as Miss Hattie Myrick, was such a society belle but a few seasons ago."

PACTAH BILLY, a Klamath Indian, recently tried in San Francisco for murder, has been acquitted on the grounds of want of jurisdiction. Sheriff Brown, of Humbert County, is quoted as saying in reply to the question as to whether further proceedings would be taken: "None at all. We never think of trying an Indian for a crime committed on an Indian. It would bankrupt the county if we tried to settle their quarrels. All that we require of them is that they shall leave the whites alone. They have their own laws and customs, and if we tried to settle a difficulty for them they would have to go through it again after we got through, and settle it in their own way."

THE Omaha *Excelsior* of Sept. 25 says:

Adjt.-Gen. Breck has gone to New England to visit his old home....Mr. Robert Williams, of the B. and M. headquarters, is entertaining his brother, Cadet Philip Williams, U. S. Navy ...Miss May Stavens, of Chicago, is visiting her cousin, Captain Cook, at Fort Omaha....Lieut. Townsley, at Fort Omaha, has his mother, from near Milwaukee, Wis., visiting him. She will remain all winter....Lieut. Pickering, 2d Inf., of Fort Omaha, goes east with his family October 1, on four months' leave. They will visit relatives in Indiana....Mr. Harry Terrell, son of Major Terrell, U. S. A., was in Omaha Thursday on a visit to his father and old friends. Mr. Terrell is now in the cattle business and has a large ranch near San Antonio, where live his wife and family....Mrs. Lieut. S. E. Clark, accompanied by Dr. Haskins, U. S. A., will leave Fort Omaha for New York next week, where she goes for medical treatment. Her numerous friends of the 2d Infantry wish her a safe and successful journey, and will long to have her back again....Colonel W. F. Reynolds, of Detroit, an officer of the Regular Army, now enjoying a well-earned rest on the retired list, has been visiting his relations in Omaha, among whom are Senator Manderson and Cashier Wallace, of the Omaha National Bank....Lieut. W. R. Abercrombie, 2d Infantry, at Fort Omaha, goes on a month's leave Oct. 1. He will bring a bride on his return—his marriage to Miss Kimball, daughter of Major Kimball, U. S. A., having been announced to take place in the autumn....Miss Crawford, of Kansas City, has been visiting her sister, Mrs. Dr. Brown, U. S. A., at Fort Omaha, for some weeks. Several ladies of the garrison availed themselves of Miss Crawford's presence to add to their knowledge in painting, Miss Crawford being a very fine artist and an experienced teacher. ....General Terry says that unless some unforeseen thing happens, the Division and the Select Marksmen's matches will be shot on the Bellevue Range, south of Omaha, next year....Colonel Henry returned yesterday from Fort Leavenworth, where he attended the rifle contests ... A farewell party was given at Fort Omaha Wednesday evening to Mrs. Dr. Benham, U. S. A., who left on Thursday to join her husband at Fort Du Chesne, Utah.

155,777 florins has thus far been subscribed in Vienna for a monument to Radetsky.

GENERAL W. T. SHERMAN, U. S. A., returned to the Fifth Avenue Hotel, New York, on Tuesday.

MAJOR CHARLES MCCLURE, Paymaster, U. S. A., has entered upon duty at Newport Barracks, Ky.

MR. ANDERSON, of Savannah, Ga., is visiting his son, Lieut. R. H. Anderson, 9th Inf., at Fort Leavenworth, Kansas.

GENERAL SAMUEL BRECK, U. S. A., and family, are visiting in New England and will return to Omaha towards the end of October.

MRS. LIEBER, widow of Captain Hamilton Lieber, U. S. A., and family, sailed for Germany on Wednesday, to be absent for two years.

LIEUTENANT LOUIS OSTHEIM, 3d U. S. Artillery, of Washington Barracks, is spending a portion of his leave with friends in Philadelphia.

LIEUTENANT T. S. MUMFORD, 13th U. S. Infantry, visited friends in Chicago last week on his way to New York to report for recruiting service.

LIEUTENANT H. P. KINGSBURY, 6th U. S. Cavalry, was at Lockhart's Ranch, near Deming, N. M., Sept. 22, 1886, about to leave for Fort Wingate, N. M.

SECRETARY OF WAR ENDICOTT, says an exchange, has been eating pears from an ancestral pear tree, 253 years old, at Endicott farm, near Danvers, Mass.

CAPTAIN P. H. ELLIS, 13th Infantry, who relinquishes recruiting duty this week at St. Louis will remain East a few weeks before joining his regiment.

PAYMASTER C. C. SNIFFEN, U. S. A., of New York, was in Washington on Friday as a witness before the court which is trying Captain J. L. Johnston, U. S. A., retired.

MAJOR JAMES GILLISS, Chief Quartermaster of the Missouri, has rejoined at Fort Leavenworth, from a visit to Cheyenne. The Cheyenne *Leader* says: "The Major is no stranger here, having formerly been one of the most popular and efficient officers of our military post. Since leaving here he has received his majority, and many old friends yesterday were giving his hand the clasp of congratulation and welcome."

THE United Service Club, 1,431 Chestnut, Philadelphia, announces the following papers to be read: October 6: "Reminiscences of the Peninsular Campaign," by Capt. Jos. U. Crawford; Nov. 3: "Hatteras—Winter of 1861-2." by Lieut.-Col. O. C. Bosbyshell; Nov. 17: "Experiences of the 12th U. S. Infantry at Fort Hamilton and throughout the Campaign of the Army of the Potomac," by Col. Francis Winter; Dec. 1: "Gettysburg—the pinch of the fight," and Dec 15, "The Heathen Chinee," by Captain R. S. Collum, U. S. Marine Corps.

THE Amusement Hall at Fort Sidney was wrapped in a mantle of gaiety Friday evening, the occasion being a dancing party given by the "Four Little Boys From School," comprising Will Morrow, Will Boyle, Henry Morrow and George Downey, or "Willie 1," "Willie 2," "Henrie" and "Georgie," as the programme card stated it. The hall was handsomely and tastefully decorated with flags and corps badges, which blended splendidly with the exquisite costumes worn by the ladies, the whole presenting a scene of brilliancy, which will long remain fresh in the minds of the participants.—*Sidney Telegraph.*

THE President will be called upon shortly to confer a second lieutenant's commission upon a most deserving young Southerner named George Martin, who comes from Alabama. For a full term this young man served as a private in the Army, but he spent his leisure moments in study and preparing himself for a severe examination, hoping to become a commissioned officer. Last July his term expired and he immediately re-enlisted at the recruiting office in this city. Then for the first time he made known his ambition to Captain Scott, in charge of the rendezvous of recruits, this city, and that officer encouraged him in every way possible. After the physical examination was satisfactorily passed, then came the investigation as to his mental capacity, and out of all the applicants the young private led when the examination papers were made out. Another and a more searching examination was made at Fort Monroe to test his practical knowledge of the Service, and here, too, he came out with flying colors, and is now awaiting action by the President. —*Critic.*

THE Kansas City *Times* of Sept. 23 has the following garrison gossip:

A few days ago Lieut. Whitall, 16th Infantry, caned Capt. H. C. Ward, of his regiment, while in a public place at Laredo, Tex. The cause of the trouble is garrison gossip. As far as could be ascertained the facts are as follows: "Whitall being told of scandalous reports being circulated by Capt. Ward touching a member of his family left his residence that night about 7 o'clock, coming down town in search of Ward, whom he found in the Commercial saloon drinking lemonade, and after asking Ward for an explanation and being told that that was no place for it, Ward retreating toward the door, he struck him over the head with his cane." Capt. Ward makes the following statement regarding the affair: "A few days since my wife, having cause to believe that Mrs. Whitall had discussed her private affairs, went to her and asked her if she had. Mrs. Whitall replied no, she had never discussed her, but she had made two or three remarks, which she repeated to my wife, whereupon my wife replied by telling her of something which had been said of her, and asked Mrs. Whitall if it were not the truth. Mrs. Whitall said it was, but she saw no harm in it. A day or so later Mr. Whitall called upon my wife in my absence and demanded of her that she retract or apologize to Mrs. Whitall. My wife replied that she could not, as there was nothing to apologize for, as what she had said was in the presence of Mrs. Whitall, and that she had admitted that it was so. With this Mr. Whitall informed her that he was going to interview me. My wife informed me of this fact and I gave Mr. Whitall every opportunity to speak to me on this subject, both by joining in conversation with him and placing myself in his presence. Mr. Whitall never mentioned the subject, nor did he allude to it, and I naturally inferred that he did not consider the matter of enough importance to warrant his speaking to me or taking any further action in the matter. This is all I know about this matter, and is the truth in as few words as possible. The assault Mr. Whitall made upon me I consider as unprovoked as it was unexpected. I will further state that up to last Tuesday evening my wife and Mrs. Whitall have been on the most intimate of terms, and that previous to last night, when the assault occurred, Mr. Whitall and I have had no difficulty of any kind."

GENERAL S. W. CRAWFORD, U. S. A., is spending a few weeks at Newport, R. I.

GENERAL JAMES OAKES, U. S. A., was in New York this week, locating at the Murray Hill Hotel.

LIEUTENANT C. P. PARKER, 2d U. S. Artillery, of Camp Hancock, Atlanta, Ga., is visiting relatives at Tuscaloosa, Ala.

MAJOR CHAS. T. GREENE, U. S. A., has accepted a position in the Barber Asphalt Paving Co.'s works in New York City.

THE wife of Gen. Pickett, of Gettysburg fame, now occupies an inferior position in one of the departments at Washington.

COLONEL GUY V. HENRY, U. S. A., has returned to Omaha from his visit to Fort Leavenworth to attend the Division rifle contest.

SECRETARY OF WAR ENDICOTT, Mrs. Endicott and Miss Endicott passed through New York on Wednesday en route to Washington.

"COLONEL E. S. BLUNT, U. S. A.," says the Kansas City *Times*, "beat the record yesterday. He is the first man to make a possible at 500 yards on the Army range.

CARDS are out for the marriage of Mrs. Bacon, widow of the late Lieut. George E. Bacon, 16th Inf., and Lieut. Walter K. Wright, a graduate of the Military Academy, Class of 1883.

MAJOR J. W. MCMURRAY, 1st Artillery, takes his battery to the Presidio of San Francisco instead of to Fort Winfield Scott. Maj. Tully McCrea also takes his battery to the Presido.

THE Rev. J. A. Crawford, D. D., brother of Gen. Crawford, who has been pastor of the Falling Spring Presbyterian Church, Chambersburg, Pa., for 20 years, has resigned on account of ill health.

SECRETARY ENDICOTT has detailed Lieut. R. G. Hill, 20th Infantry, acting Judge-Advocate, Department of the Missouri, temporarily, Judge-Advocate Asa Bird Gardiner being prevented by illness from joining at Fort Leavenworth.

GENERAL MILES reached Whipple Barracks Sept. 22 and visited his department headquarters for the first time since assuming command last April. His visit was a welcome one to all his staff, clerks, and the people of Prescott. A grand reception was tendered him at Albuquerque Sept. 27.

LIEUTENANT JOHN J. BRERETON, 24th U. S. Inf., was married Sept. 22, at Macedon, N. Y., to Miss Nettie E. Bullis, of that city. The groom and bride were in New York this week with apartments at the Gilsey House. They will leave early in October for Fort Supply, I. T., Lieut. Brereton's station.

UNDER orders of this week Lieut.-Col. E. C. Mason, 4th Inf., relinquishes duty as Inspector-General, Dept. of Dakota, to report to Gen. Miles for similar duty in Arizona, while Major W. F. Drum, 14th Infantry, at present on leave, vacates the Inspector-Generalship of Arizona to take up that of Dakota.

THE interesting and valuable collection of medals, swords, decorations, etc., belonging to General Grant and presented by his family to the Government, are to be deposited in the National Museum, and it is anticipated that all the articles will be in proper place and ready for exhibition before the time of the next meeting of Congress.

THE Secretary of the Interior has reversed the decision of Commissioner Black on the claim of Lila May Pavy, widow of Dr. Octave Pavy, late acting assistant surgeon, U. S. A., under contract with the Greely Expedition, who died at Cape Sabine about June 6, 1884, and has ordered that Mrs. Pavy's name be placed on the pension roll at $17 per month.

LIEUTENANT TREVINO, of the Mexican cavalry, and Sub-Lieutenant Refugio Pas, of the artillery, had a dispute a few days ago over a question of authority, and the latter slapped the former's face. Trevino procured a pistol, and, approaching Pas from behind, shot him in the back, inflicting a mortal wound. Trevino surrendered to the military authorities and is to be court-martialled.

GENERAL FREMONT, in his memoirs, refers to Mrs. Fremont, when she was Jessie Benton, as follows: "I went with the oldest of the sisters to a school concert in Georgetown, where I saw her. She was then just in the bloom of her girlish beauty, and perfect health effervesced in bright talk which the pleasure of seeing her sister drew out. Naturally I was attracted. She made the effect that a rose of rare color or beautiful picture would have done."

WHAT a sight that must have been at Strasburg on Sept. 11, the "Krieger Kaiser"—90 years of age—reviewing his troops on the Polygon, where for more than 200 years the ground echoed to the tread of French battalions! "Tired, however, as he must have been, he would not leave the ground till he had driven down the line of the Krieger Verein Nor did the tough old soldier consider himself entitled to a rest in the afternoon, for at 5 P. M. he entertained the foreign officers, the chief staff and general officers, and the commanders of regiments at a 'parade dinner.'"

"THE Duc Decazes," says the Paris correspondent of the London *Times*, "was one of the best types of the well-bred French aristocrat. At the elections in 1876, when he was a candidate for the eighth arrondissement of Paris, he had accepted for the very day of the poll an invitation to a dinner, where the guests were to include Lord Lytton, on his way to be Viceroy of India, Prince Hohenlohe, Sir Robert Morier, and the Marquis Molinos. The dinner was fixed for 7.45 P. M. The Duc Decazes arrived to the minute, beaming with smiles and wearing a flower in his buttonhole. Even for the sake of learning the result of his own election he would not be unpunctual, and only after the entertainment had made some progress did he know the result, which was in his favor. 'What makes me like the Foreign Office,' he then used to say, 'is that I have to deal with gentlemen and that conflicts are conducted with courtesy.' With him disappears a model of the type formerly so common in France, which has given this country a reputation for polish and affability, a type now becoming so rare that his tomb will seem a relic of bygone traditions."

LIEUTENANT E. H. CATLIN, 2d U. S. Artillery, has left Fort Leavenworth to join Battery I of his regiment at Jackson Barracks, La.

IT is Lieut. R. B. Bradford, not Lieut. C. A. Bradbury, who is to revise the U. S. Naval Regulations, with the assistance of Lieut. Veeder.

CAPTAIN JOSEPH U. CRAWFORD will, at the request of the Board of Managers, relate at the United Service Club, Philadelphia, on Wednesday, Oct. 6, 1886, at 8 P. M., "Reminiscences of the Peninsula Campaign."

DR. L. H. MUNN, the only son of Capt. C. E. Munn, Medical Department, U. S. A., was married at Topeka, Kan., Sept. 15, to Miss Lillie Gordon. Dr. Munn is one of the leading physicians of Topeka and served as an A. A. Surgeon, U. S. Army, on the Uncompahgre Expedition under Gen. Mackenzie.

THE following Army officers registered at the office of the Adjutant-General this week: 1st Lieut. F. E. Hobbs, Ord.; 2d Lieut. Jas. A. Irons, 20th Inf.; 2d Lieut. H. De H. Waite, 5th Cav.; 1st Lieut. James Regan, 9th Inf.; 1st Lieut. T. S. Mumford, 13th Inf.; Capt. J. S. Tomkins, retired; 1st Lieut. Chas. A. L. Totten, 4th Art.; 1st Lieut. Fred V. Abbot, Engrs.; Col. R. B. Ayres, 2d Art.; 1st Lieut. John R. Williams, 3d Art.; 1st Lieut. Philip G. Wales, Medical Dept.; Capt. Geo. B. McGown, retired; Capt. Geo. Mitchell, 2d Art.

THE Brackett *News*, Fort Clark, thus refers to recent visitors to its sanctum:

Lieut. Guard completely won the hearts of the entire force a few days ago, and has handed his name down to posterity in the *News* office.... Senor Cortez, the gentlemanly clerk of the commissary department, spent a few moments in the office transacting some business.... Lieut. King and Mrs. King stepped inside the door of his sanctum for a few moments.

THE Presidio *News* of Sept. 24 has the following Fort Davis items:

Capt. D. M. Appel, assistant surgeon, arrived Thursday to relieve Maj. Gardner as post surgeon, who leaves Saturday for Washington, D. C., on four months' leave. Our best wishes go with him.....A private letter from Lieut. Geo. K. Hunter, 3d Cavalry, states that he has been assigned to duty at Cincinnati. His address is 219 West 4th street, and his residence on Walnut Hills, the finest residence portion of the city.

THE Vancouver *Independent* of Sept. 23 says:

Capt. Evan Miles, 21st Infantry, is in New York City..... Capt. C. J. Von Hermann, U. S. A., is at home in Spirit Lake, Ia.....Mrs. Stanton and daughter, of Omaha, who have been visiting at Capt. C. B. Western's, have returned home. .....Capt. W. I. Sanborn, 25th Infantry, arrived in Vancouver on Saturday to remain a time on business for his wife's mother. .....Col. Thos. M. Anderson, the new commander of the 14th Infantry, will report soon at Vancouver Barracks.....Maj. J. B. Keefer, paymaster, while en route to Fort Walla Walla, visited his daughter, the wife of Lieut. J. W. Duncan, 21st Infantry, at Sidney Barracks.

LIEUTENANT HUGO OSTERHAUS, U. S. N., was at Weathersford, Conn., this week, from Norfolk, Va., on public service.

PAYMASTER JOSEPH FOSTER, U. S. N., and family, lately at Philadelphia will spend the winter at Portsmouth, N. H.

ASSISTANT ENGINEER E. R. FREEMAN, U. S. N., lately returned from a cruise, is visiting his mother at Holly Springs, Miss.

THE family of Rear Admiral Stephen B. Luce, in command of the North Atlantic Squadron, will spend the winter in Newport.

MR. CHAS. H. HOWLAND, late Cadet Engineer, U. S. N., Class of 182, was married at Providence, R. I., Sept. 29, to Miss Susie A. Balcom.

LIEUTENANT CHAS. E. COLAHAN, U. S. N., was married Sept. 23, 1886, at Frankfort, Ky., to Miss Belle Hensley. The affair was a brilliant one.

COMDR. J. D. GRAHAM, U. S. N., has resumed his residence in Washington. He has been passing the hot weather with his family at Hyattsville, near the Capital.

PROF. EDGAR FRISBY, U. S. N., of the Naval Observatory, has begun the erection of a fine house on Thirty first or Congress street, near Q, Georgetown, D. C.

COMMANDER C. S. COTTON, U. S. N., Inspector of Ordnance at the Norfolk Navy-yard, makes occasional trips to Fortress Monroe, where his genial manners make him a prime favorite.

REAR-ADMIRAL J. H. UPSHUR, U. S. N., registered at the Clarendon Hotel, New York, on Thursday, Pay Director J. H. Watmough, U. S. N., at the Grand Hotel, and Paymaster A. W. Bacon, U. S. N., at the Brevoort House.

P. A. ENGINEER I. S. K. REEVES, U. S. N., attached to the U. S. Fish Commission, is at present stationed at Wood's Holl, Mass., where the scientists of the commission are busily at work peering into the secret processes of nature as shown in the cod fish and lobster.

PAY DIRECTOR G. F. CUTTER, U. S. N., late Paymaster General, spent a short time at Fortress Monroe last week, and appeared to enjoy the once familiar sight of the ocean. The Commodore was retired on Aug. 30, 1881, but carries his 67 years with much vigor and aplomb.

CADET ENGINEER OLIVER BLACKBURN SHALLENBERGER, U. S. N., has tendered his resignation, to take effect at once, and it has been accepted by the Secretary of the Navy. He stood number two in the list of Cadet Engineers, having graduated June 10, 1881, number three in his class.

LIEUTENANT COMMANDER ASA WALKER, U. S. N., has returned to his alma mater from a cruise in China on the *Trenton*. This will be Mr. Walker's second tour of duty at the Naval Academy as instructor, and in his specialty, mathematics, his ability is too well known to require comment.

LIEUTENANT W. S. COWLES, P. A. Engr. Richard Inch, Lieut. T. E. D. W. Veeder, Asst. Paymr. S. L. Heap, Lieut. W. H. Schuetze, Ensign R. C. Smith, Lieut. J. W. Danenhower, Professor Henry D. Todd, Lieut. E. D. Taussig and Asst. Engr. T. W. Kinkaid registered at the Navy Department during the week.

CAPTAIN A. H. BARTLETT, U. S. Marine Corps, has left Norfolk, Va., on a two months' leave.

COMMANDER C. L. HUNTINGTON, U. S. N., was a guest last woek at the Palmer House, Chicago.

COMMANDER W. BAINBRIDGE HOFF, U. S. N., was a guest at the St. James Hotel, New York, this week.

LIEUTENANT S. A. STAUNTON, U. S. N., was married, September 23, at Irvine, Pa., to Miss Emily Biddle.

COMMANDER C. J. BARCLAY, U. S. N., late of the *Alert*, is expected next week at his home in New Bedford, Mass.

CHIEF ENGINEER W. D. SMITH, U. S. N., lately in Europe for the benefit of his health, is said to be little improved.

REAR ADMIRAL W. G. TEMPLE, U. S. N., and Mrs. Temple, and Lieut. T. E. D. W. Vedder, U. S. N., were guests at the Everett House, New York, early in the week.

LIEUTENANT C. L. COLLINS, 24th U. S. Infantry, and Lieut. F. M. Barber, U. S. N., Commander Bonaparte Wyse, French Navy, and Gen. de Charette, of the French Army, sailed for Havre on Saturday last.

THE marriage of Lieut. Frank Lee Denny, U. S. Marine Corps, to Miss Julia Graham Palmer, daughter of Gen. Innis N. Palmer, U. S. A., will take place next Wednesday evening at St. John's Church, Washington.

REAR-ADMIRAL J. J. ALMY, U. S. N. (retired), has returned to Washington much refreshed by his sojourn at the North. His family, at present visiting at Greenfield, Mass., will not return to the District until October chill makes itself felt in that northern resort.

COMMODORE BANCROFT GHERARDI, U. S. N., relieved Commodore Chandler of the command of the New York Navy-yard on Friday of this week, all the customary formalities being observed on the occasion. Commodore Chandler will shortly sail for the Asiatic Station to relieve Rear Admiral J. L. Davis.

MRS. ADMIRAL DAHLGREN, says a Philadelphia paper, will reside here during the coming winter. Mrs. Dahlgren lives in great state at her summer-house, and whenever she travels out, a retinue of liveried servants attend her. She is much loved by her tenants. Her charities are wide-embracing and numerous. She does a good deal of literary work and is now engaged on a new novel.

VICE-ADMIRAL SHESTAKOFF, the Russian Minister of Marine, and wife; Lieut. Eberhard, aide of the Admiral; Prince Povotinsky-Galitszine, Governor-General of Siberia, and Capt. Rosen, his aide, arrived at the Clarendon Hotel, New York, on Monday, and were met on arrival by Lieut. Cowles, U. S. N., who has been charged with the duty of receiving the visitors and extending to them the official courtesies of the Government. They visited the New York Navy-yard on Wednesday.

LIEUTENANT GRAYDON, formerly of the U. S. Navy, says the San Francisco *News Letter*, "having satisfied the authorities at the Presidio that he has made a discovery that will prove important in the art of war, had no further use for San Francisco, and did well to leave the extremity of civilization and proceed to the centres of it. His invention had no value here. He felt that he had wasted too much time in this latitude, and that the sooner he cut loose from one or two men who were unworthy of him the better. In breaking loose from these he did the right thing. He will be heard from ere long, and in no dishonorable sense. He has been an officer and is a gentleman; though like most geniuses he is somewhat eccentric. He, his fiancee and his relatives are to be congratulated upon his escape from wiles that might have engulfed him."

LIEUTENANT WM. H. SCHUETZE, of the Navy, who was sent to Siberia about a year ago to distribute presents from the Government to the natives in the vicinity of the Lena Delta for their kindness to the survivors of the Jeannette expedition, returned to Washington Sept. 25, and on the following day reported his return to the Secretary of State. In conversation with a reporter Lieut. Schuetze said that his trip was successful in every way. He spent nearly the entire winter in Siberia, and travelled all around the Lena Delta. The cold was intense, the thermometer at times registering as low as 85 degrees below zero. When he reached the vicinity of the Lena Delta he found the natives almost starving, and many of them were eating wood. The reindeer were very scarce. The natives received him very hospitably, and were delighted with the presents sent them by the Government. They were greatly surprised and celebrated the event by a continuous firing of their guns all through the delta. They were very proud of the presents, and many were worn outside their fur coats in the most conspicuous places. Lieut. Scheutze, will at once prepare his official report, and will submit it to the Secretary of State.

THE New York *Tribune* in an article on yachts says: "No American yacht and few English yachts have done as much cruising as the schooner yacht *Intrepid*. Few yachtsmen are better known than her owner and commander, Lloyd Phœnix. He inherited from his father a comfortable fortune, and through his mother he was one of the heirs of the immense estate of Stephen Whitney. Educated at the Naval Academy, Lloyd Phœnix was for a time one of the most promising officers of the Navy. When the old *Niagara* was the crack ship of the American Navy he was a lieutenant and her navigating officer. Then he resigned in 1865. He is now a quiet, retiring man, of about forty. His yacht is put in commission early and goes out of commission late. Mr. Phœnix spends most of his time on board of her in company with his lifelong friend, Mr. Crocker. Sometimes a man of bronzed face and rugged frame may be seen at the Union Club or the New York Yacht Club chatting in a low tone with a friend, and club members greet Lloyd Phœnix cordially. The next morning the blue-shirted sailors of the *Intrepid* are riding down the halyards, while the stalwart form of the commander stands on the quarter-deck directing the getting under way of the yacht.

The engagement is announced of Asst. Eng. Emil Theiss to Miss Katherine Klink, of Vallejo, Cal. Mr. Theiss is a graduate of the Naval Academy of 1884. Miss Klink is well known in Vallejo, and Mr. Theiss is to be congratulated upon having succeeded so well so early in life. He is at present attached to the *Ranger*.

The wife and family of Chief Engr. F. G. McKean, U. S. N., have just returned to the United States after a prolonged sojourn in England, Mr. McKean's native country. Most of the time was passed in London. Mr. McKean is on board the *Marion*, China Station, and will hardly return home before early in 1888. His previous cruise was the celebrated one around the world with Rear-Admiral R. W. Shufeldt on the *Ticonderoga*.

Lieutenant Robt. Platt, U. S. N., for many years connected with the U. S. Coast Survey, is now and has been since May, 1885, on duty at the Washington Navy-yard. From long familiarity with the coast the services of Lieut. Platt were of the greatest value to our blockading fleets during the War of the Rebellion. Lieut. Platt is not available for sea service, it is supposed, but whether the changes at the yard will affect him is not known.

The retirement of Rear-Admiral Walter W. Queen on Oct. 6 will cause the following promotions to date from the day following: Commodore Ralph Chandler to be rear-admiral, Capt. A. W. Weaver to be commodore, Comdr. C. M. Schoonmaker to be captain, Lieut. Comdr. Geo. W. Pigman to be commander, Lieut. H. N. Manney to be lieutenant commander, Lieut. (junior grade) T. E. D. W. Veeder to be lieutenant, and Ensign Wm. F. Fullam to be lieutenant (junior grade).

Lieut. Comdr. W. H. Webb, U. S. N., is lying dangerously ill with malarial fever at Mount Pleasant, N. Y. He has been for several months at home, having returned from the Asiatic Station in 1885, where he was attached to the *Alert*. His first service in the Navy dates from June 19, 1862, as acting master's mate, and his transfer to the Regular Service from March 12, 1868. Mr. Webb married, a few years ago, a daughter of Chief Engr. George Sewell, U. S. N., retired, and he is also a brother-in-law of Chief Engr. W. W. Heaton, U. S. N.

RECENT DEATHS.

Colonel John F. Hammond, U. S. A., retired, died at Poughkeepsie, N. Y., Sept. 29, 1886, in his 66th year. Col. Hammond was born in South Carolina Dec. 7, 1820, and was appointed assistant surgeon in the Army Feb. 16, 1847, promoted major in 1861, lieutenant colonel in 1876, and colonel Dec. 14, 1882. He was retired for age Dec. 7, 1884, and after a trip to Europe settled at Poughkeepsie. For his faithful and meritorious services during the war he received the brevet of lieutenant colonel March 13, 1865. We made Col. Hammond's acquaintance while he was on duty in New York City a few years ago, as attending surgeon. He was eccentric but of kindly disposition, devoted to his profession, and a keen observer of current events.

—

Brevet Major Richard H. Pond, formerly Captain, 12th Infantry, whose death at San Rafael, Cal., Sept. 16, we briefly recorded in our last issue, has a record of service in the field of unusual length. He enlisted in the 12th Infantry, Nov. 11, 1861, and was appointed sergeant from that date. In March, 1862, he went into the field with the 1st Battalion, commanded by Major Henry B. Clitz, and on May 25, 1862, was promoted to be 2d lieutenant. On Feb. 7, 1863, he was promoted 1st lieutenant, and in April, 1866, received his captaincy. With the exception of six months passed in Libby Prison, Major Pond was on active duty in the Army of the Potomac from the evacuation of Manassas in March, 1862, to the surrender of Lee's army in April, 1865. During this time he took part with the 12th Infantry in the following engagements: Yorktown, Mechanicsville (No. 1), Gaines's Mills, Malvern Hill, Bull Run, South Mountain, Antietam, Fredericksburg, Chancellorsville, Gettysburg, Manassas Gap, Mechanicsville (No. 2), and Bethesda Church, and as ordnance officer and commissary of musters on the staff of Gen. R. B. Ayres, commanding the Regular Infantry in the Army of the Potomac during the siege of Petersburg. Subsequently he was present as an aide at the Mine Explosion, Peeble's Farm, Chappell House, Gravelly Run, White Oak Road, Five Forks, and Appomattox Court house. He received two brevets, one for "gallant service at the battle of Bethesda Church," the other for the same at Five Forks. Major Pond was a man of gallantry and coolness on the field of battle, and faithful and exact in his duties as a staff officer, while his kind heart and amiable disposition made him a general favorite among his comrades. He resigned on the Pacific Coast, and was at one time part owner and manager of the Santa Margarita Ranch, near Monterey, Cal. Subsequently he resided in San Francisco, where his ready wit and acquaintance with the ancient and modern classics will be long remembered. He was a member of the San Francisco Commandery of the Loyal Legion.

Mr. David McComb, for many years commandant's clerk at the Washington Navy-yard, died last week, aged 82. On Nov. 15, 1825, he enlisted in the U. S. Navy as a seaman, was promoted to purser's steward, and sailed on the sloop-of-war *Porpoise*, Lieut.-Comdr. Benj. Cooper, for the Mediterranean. Here this vessel and others were engaged for several years in suppressing the pirates in the Grecian Archipelago. Mr. McComb subsequently made other voyages on various vessels, and in 1834, when in the *Brandywine*, under Commodore Wadsworth, was severely injured by a fall, breaking three of his ribs. From this injury he never fully recovered. He returned to Washington in 1836 and became attached to the Washington Navy-yard, and for 30 years filled the position of commandant's clerk.

John Esten Cooke, the well-known Virginia author, died Sept. 27, in his 56th year, at his home, "The Briars" near Boyce, Clarke County, Va. At the breaking out of the Civil War Mr. Cooke entered the Confederate ranks and during the four years was present at most of the battles of Virginia campaigns. At Appomattox he took part in Lee's surrender, his position then being Inspector-General of Horse Artillery. From the autumn of 1861 to the spring of 1864 he was on the staff of General J. E. B. Stuart, and the stirring acts he witnessed he afterward wove into vivid and faithful scenes, both in stories like "Envoy" and in biographies of Lee, Jackson and others.

Major Richald H. Pond, formerly Captain, 12th U. S. Inf., whose death we announced last week, was buried at the National Cemetery, at the Presidio of San Francisco, Sept. 19. The interment was private, only a few relatives and personal friends and comrades being present. Previous to his death Major Pond had for a number of years been Secretary of the San Francisco Copper Mining Company and chief clerk to Messrs. Doyle and Wilson. He was a comrade of Geo. H. Thomas Post, No. 2, G. A. R., and a companion of the Loyal Legion.

Henry L. Reed, a veteran of the War of 1812, died at Chambersburg, Pa., a few days ago, aged 96. In 1814 he rode from Boston to Richmond, Va., on horseback, and served in the army in the war against the British. He was present and participated on Nov. 21, 1820, in the bi-centennial of the landing of the Pilgrims, and at the reception given to Gen. Lafayette, Aug. 16, 1824, at the residence of S. V. S. Wilder, near Boston, and at the trial of Aaron Burr, in Richmond.

Mrs. Hawley, who died at Madison, Wis., Sept. 17, was the widow of Lieut. William Hawley, 20th U. S. Infantry, and mother of the wife of Capt. J. S. McNaught, of that regiment. The remains were taken to Flint, Mich., for interment, and were accompanied by Capt. McNaught, Mrs. McNaught, and Miss Emma Hawley.

General James Bowen, who served with distinction during the war, and has held several important civil positions in New York City, died Sept. 29, at his residence at Hastings on the Hudson.

Clement D. Taylor, who served for several years in the 6th U. S. Infantry, committed suicide a few days ago in a New York police station. He resided at 551 Warren street, Brooklyn.

Captain Philip Newman, of the California National Guard, who died in San Francisco recently, served during the war, in Battery L, 4th U. S. Artillery.

Mr. Lewis Franklin Bowyer, father of Lieut. J. M. Bowyer, U. S. N. of the *Michigan*, died, Sept. 21, at Chicago, aged 61

Mr. W. F. Holbrook, father of Lieut. W. A. Holbrook, 1st U. S. Cav., died at Arkansaw, Wis., September 17.

(Correspondence of the Army and Navy Journal.)

FT. LEAVENWORTH DIVISION COMPETITION.

Yesterday, Wednesday, Gen. Terry arrived. The work on the range consisted of team shooting at fixed distances and as skirmishers. Dakota, owing to the successful coaching of Capt. Boutelle, led, thus indicating it was the strongest team, which, in fact, is not the case, as they fail to have any representative on the Army team, and one less than their quota on the Division team. Missouri came second, then Platte and Texas. Between the last three teams there was only a difference of about five points. In the afternoon came the Department Team Skirmish Match, resulting as follows: Missouri, Platte, Texas, and Dakota. The following quota of 1½ is assigned from each Department for the Army team, which was represented as follows: Platte, 3; Missouri, 2; Texas, 1, and Dakota, 0. Department of the Columbia furnishes the four out of the three Departments, the East two, thus making the twelve. Of the Division quota, that from each Department was three, and represented as follows: Missouri, 4; Dakota, 3; Platte, 3; Texas, 2. Platte gets three gold and two silver medals. The presence of Gen. Terry added much to the occasion. He is a courtly gentleman and as approachable by the 2d lieutenant as by the General. The success of the Platte might be attributed to him, as he encouraged us by the transfer of the 17th to the Department. To him must be attributed the great interest in target practice, and he still holds the same views as to its being the most necessary part of a soldier's education. The individuality of the soldier and a change in our tactics must follow from this rapid advance in the handling of the rifle. To charge on an enemy's work, 1,000 yards, in time of battle, would be criminal. The article of Capt. Chester's on this subject in the last *Army Magazine* is to the point and true. It seems strange that there are still some who are down on target practice.

You hear them say troops are shooting for a high figure of merit, indicating that this does not show efficiency, but false scoring. This same high figure is obtained at competitions, and thus it is absolutely correct. I doubt if there is an officer in the Service who will allow any false scoring, or sign the required certificate, with any doubts on the subject. This same class say it is ruining discipline; in a fight I should want just this class of undisciplined (?) men, and should be glad to lay alongside the worst of them, who was a sharpshooter. These gentlemen, post commanders, inspectors, or captains, have the majority against them, with all our general officers, and they had better join the procession, or be relegated to "old smooth bore, buck and ball crowd," a relic of barbarism and the past.

Wednesday evening Gen. Porter gave a beautiful reception in honor of Gen. Terry, at which all the fair and the brave did honor to the occasion. Some beautiful costumes were observed, and many charming and handsome women. To name them all would be but referring to the female roster of the garrison, and of those not on the roster may be mentioned the Misses Blair, Randolph, and Rucker.

At 2 P. M. Thursday a review and presentation of medals took place—the infantry in line, and perpendicular to the flanks the artillery and cavalry. The teams under the captains formed opposite the flanks, the division team being marched, under Lieut. Torrey, to the front and centre. Gen. Terry had as his staff Col. Blunt, inspector of rifle practice of the Army; Lieut. Read, division inspector, and Col. Henry, Lieut. Smith, Lieut. Bates, and Lieut. Dodge the four department inspectors. In rear of these were all other officer competitors and range officers, under Capt. Wallace, 7th Cavalry. Gen. Terry, with his happy faculty, made some remarks; the medals were then presented, when the Division of the Missouri contest was closed, and all not on the Army team or detained for other duties started for home, sweet home, determined next year to show, if possible, still better results.

Before closing, it must be added that Sergt. Garlinghouse was the wit and artist of the camp. A series of sketches made by him of each day's work were posted in a conspicuous place. The first day shows the "owls," "short horns," and "Uncle Sandy," respectively Dakota, Missouri, and the Platte, in a box, with long horns or Texas on top. The next day short horns has broken out; the next, short horns and owls are in a swing over the water, and suddenly they are dropped out, with the remark, "Kerr-flumuxed," and Uncle Sandy, or Platte, sits on top of box laughing; and so it goes from day to day in a most ludicrous, descriptive manner.

Smooth Bore.

CRUISE OF THE LANCASTER.

The Lancaster *Print* of Sept. 1 reports that the *Lancaster* sailed 27,898 miles from the time she left Lisbon, Portugal, July 23, 1884, until her arrival at Rio Janeiro on Aug. 12, 1886. The *Print* says: "The passage from St. Helena was made in 16 days and 19 hours, and was throughout remarkably pleasant. The passage the year before occupied something over 21 days On the afternoon of the 10th we went to general quarters for the usual target practice. The best shooting was done by No. 2, port. On the morning of the 12th swung ship to determine the local deviation of the compass. Now, just at this interesting period of our cruise, the one grand subject is, when are we going home? No matter how interesting a subject of conversation you may introduce it will invariably drift towards the time when we shall leave 'these gay and festive scenes.' Well, is it strange that we should long for Uncle Sam to give the poor old faithful ship a rest, or at least to introduce us to climates which are not extremes? Lieut. Paul received his detachment and took passage for home in Messrs. Lamport and Holt's steamship *Biela*, leaving on Sunday afternoon, Aug. 22. As the *Biela* passed the *Lancaster* our band played 'Home Sweet Home' and 'Auld Lang Syne;' Lieut. Paul stood on the poop of the *Biela* waving his hat, bidding the old ship and his shipmates adieu. There seems to be a great void in our hearts now he has left us, more especially in the hearts of those who belonged to the Minstrel Troupe. He was our great helper in any undertaking where the amusement of the ship's company was concerned."

(From the New York Herald, Sept. 28.)

MILITARY SERVICE REFORM.

To auditors "behind the scenes" there seems to be quite as much clashing between the War Department and the headquarters of the ranking general of the Army in the time of Cleveland and Endicott and Sheridan as there was in the time of Grant and Belknap and Sherman, though less of it as yet is audible to the public. Clearly the civil service is not the only branch of the Government in the methods of whose administration reform is desirable. Will not Mr. Cleveland signalize his Presidency by settling this chronic controversy justly and finally? There never will be a better chance to do so. Lieut.-Gen. Sheridan and Secretary Endicott both are reasonable men as individuals. But as public officers it is notorious in Army circles that they are not getting along harmoniously. When Mr. Endicott returns to Washington from his long vacation the President should take the difficulty in hand at once and smooth it out before scandal arises. We do not want another emigration of the ranking general of the Army from Washington like that of Gen. Sherman to St. Louis.

LATE ARMY ORDERS.

Surg. Wm. H. Gardner is relieved from duty in the Department of Texas and ordered to the Department of the East. (S. O., H. Q. A., Sept. 30.)

1st Lieut. F. W. Sibley, 2d Cav., is granted one month's leave. (S. O., H. Q. A., Sept. 30.)

The leave of 2d Lieut. Frank F. Eastman, 14th Infantry, is extended two months. (S. O., H. Q. A., Sept. 30)

2d Lieut. D. DuB. Gaillard, Engrs., is granted one month and 15 day's leave. (S. O., H. Q. A.)

Major John R. Gibson, Surgeon, is granted two months' leave. (S. O., H. Q. A.)

REVENUE MARINE.

2d Lieutenant W. C. DeHart, ordered to the *Ewing* at Baltimore.

1st Lieut. R. M. Clarke, ordered to the *Fessenden*.

The resignation of Cadet John P. Grace has been accepted.

The *Army and Navy Gazette* says: "Mr. Nordenfeldt is advertising his guns by means of articles in the leading journal. How fair these articles are may be judged by the following comparison between the Nordenfeldt and Hotchkiss guns. The correspondent of the *Times* says: 'The common shell of the Hotchkiss weighs only 1.491 lb., while the common shell of the Nordenfeldt weighs 6 lb., with a bursting charge of 2¾ oz. Therefore the destructive power of the Nordenfeldt common shell is much greater than that of the Hotchkiss common shell.' The conclusion so dogmatically drawn is utterly false, and written to mislead. There is also a 6-pdr. Hotchkiss shell. It is with the gun throwing that shell that the writer in the *Times* should compare the Nordenfeldt 6-pdr., *not with an inferior gun*, as he has done. Comparisons so made are valueless. To be of use, they should be made between guns of the same weight, calibre, and dimensions generally, *and whose ammunition is interchangeable*. Then, the Navy says, 'Give us the Hotchkiss gun.' We took great pains to ascertain the true feeling of the Service on this question when recently at Portsmouth."

THE ARMY.

G. O. 67, H. Q. A., Sept. 28, 1886.

By direction of the acting Secretary of War, par. 2762 of the Regulations is amended to read as follows:

2762. The helmet cords are attached to the left side of the helmet, and come down to the left shoulder, where they are held together by a slide; one cord then passes to the front and the other to the rear of the neck, crossing upon the right shoulder, under the shoulder strap, and passing separately around to the front and rear of the right arm, where they are again united and held together by a slide under the arm; the united cords then cross the breast and are looped up to the button of the shoulder strap on the left side.

By command of Lieutenant General Sheridan:
J. C. KELTON, Act. Adjt.-Gen.

WAR DEPARTMENT, A. G. O., Sept. 25, 1886.

The following proclamation of the President of the United States is published for the information and guidance of all concerned:

Directs that certain military reservations in the State of Louisiana no longer needed for military purposes be placed under the control of the Secretary of the Interior for disposition, as provided for in the act of July 5, 1884, viz.:

1. Near the eastern mouth of Bayou La Fourche.
2. At the western mouth of Bayou La Fourche.
3. On Bay Plat.
4. Near the western entrance to Caminala Bay.
5. Near the Pass at the eastern end of Grande Terre Island.
6. Near the mouth of Quatre Bayou Pass.
7-10. At and near Bastian Bay.

G. O. 14, DIV. OF THE ATLANTIC, Sept. 25, 1886.

Captain James H. Lord, Asst. Q. M., U. S. A., Governor's Island, N. Y. H., will, until further orders, attend to the duty of adjusting and settling telegraph accounts in the Division of the Atlantic.

All such accounts which may so accrue will be sent to Captain Lord, who will, as the regulation directs, "prepare and pay them, or forward them for payment, as the case may require."

By command of Major General Schofield:
WILLIAM D. WHIPPLE, Asst. Adjt.-Gen.

G. O. 25, DEPT. OF ARIZONA, Sept. 16, 1886.

The following assignments on the Dept. Staff and special service are announced:

Capt. H. W. Lawton, 4th Cavalry, will take charge of the office of the Inspector, in the absence on sick leave of the acting Inspector General.

Capt. J. H. Dorst, 4th Cavalry, will take charge of the office of the Judge Advocate.

1st Lieut. T. J. Clay, 10th Infantry, will take charge of the office of the Inspector of Rifle Practice.

Asst. Surg. Leonard Wood, 1st Lieut., will report to the Dept. Comdr. for duty.

By command of Brig. Gen. Miles:
M. BARBER, A. Adjt.-Gen.

G. O. 20, DIV. OF THE MISSOURI, Sept. 21, 1886.

Troop M, 5th Cavalry and Troop L, 9th Cavalry, will proceed, by marching and by rail, without delay to Fort Leavenworth, Kansas, so as to arrive there not later than Oct. 12, 1886, to replace Troop B, 3d, and Troop L, 4th Cavalry.

Troops B, 3d Cavalry, and L, 4th Cavalry, on being relieved by Troops M, 5th Cavalry, and L, 9th Cavalry, will proceed by rail to take station as follows:

Troop B, 3d Cavalry, at Camp Pena Colorado, Texas.
Troop L, 4th Cavalry, at Fort Union, N. M.

On arrival of Troop B, 3d Cavalry, at Camp Pena Colorado, Troop L, 3d Cavalry, will proceed to Fort Davis, and take station.

By command of Major-General Terry:
ROBERT WILLIAMS, Asst. Adjt.-Gen.

The following refer to the Court-martial case of Lieutenant J. F. McBlain, 9th Cavalry, in which General Crook *disapproved* the sentence of dismissal:

G. C. M. O. 83, DEPT. OF THE PLATTE, Sept. 23, 1886.

By direction of the Acting Secretary of War, G. C. M. O. 79, c. s., from these Headquarters, are hereby revoked.

By command of Brig. Gen. Crook:
L. W. V. KENNON, Aide-de-Camp.

G. C. M. O. 84, DEPT. OF THE PLATTE, Sept. 24, 1886.

The Acting Secretary of War having recalled his instructions contained in telegram dated Washington, D. C., Sept. 22, directing the revocation of G. C. M. O. 79, c. s., from these Headquarters, General Court-Martial Orders 83, c. s., are hereby revoked.

By command of Brig. Gen. Crook:
L. W. V. KENNON, Aide-de-Camp.

General Crook's action, therefore, on the proceedings stands.

G. O. 21, DIV. OF THE MISSOURI, Sept. 27, 1886.

Major James G. C. Lee, Q. M., is assigned to the duty of adjusting and settling telegraph accounts, at these headquarters.

By command of Major General Terry:
ROBERT WILLIAMS, Asst. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Brig. Gen. John Gibbon, accompanied by 1st Lieut. Edward J. McClernand, A. D. C., will proceed to Sprague and thence to Ellensburg, Wash. T., on public business (S. O. 166, Sep. 17, D. Columbia).

Major General Alfred H. Terry, accompanied by 1st Lieut. Alfred B. Johnson, A. D. C., will proceed to Fort Leavenworth, on public service (S. O. 144, Sept. 21, Div. Mo.)

Adjutant and Inspector Generals.

Leave for one month is granted Major Samuel Breck, A. A. G., H. Q., Dept. of the Platte (S. O. 120, Sept. 18, D. Platte).

Lieut. Col. Robert P. Hughes, Inspr. Gen., will proceed to and inspect the post of Fort McDermit, Nev. (S. O. 86, Sept. 17, D. C.)

Quartermasters and Substistence Departments.

Col. Charles H. Tompkins, A. Q. M. G., will proceed to Fort McHenry, Md., on public business (S. O. 149, Oct. 1, Div. Atlantic).

Capt. A. E. Miltimore, A. Q. M., will proceed from Bowie Station to Willcox and Tucson, A. T., and return (F. O. 91, Sept. 11, D. A.)

Col. Alexander J. Perry, A. Q. M. G., Chief Q. M. of the Dept. of Cal., will proceed to San Diego Barracks, Cal., in compliance with the instructions he has received from the Dept. Comdr., on the completion of which duty he will return to these H. Q. (S. O. 87, Sept. 21, D. C.)

Subject to the approval of the War Dept., Post Q. M. Sergt. Charles Yeager will be relieved from duty at Fort Winfield Scott, Cal., and will proceed to San Diego Barracks, Cal., for duty (S. O. 87, Sept 21, D. C.)

Major James W. Scully, Q. M., New Orleans, will proceed to Fort Massachusetts, Ship Island, Miss., and inspect the ordnance sergeant's quarters at that post, with a view to ascertain the extent of damage done by a recent storm, and what repairs are necessary in consequence (S. O. 147, Sept. 29, Div. Atl.)

Capt. Wm. S. Patten, A. Q. M., will proceed to Portland, Ore., on public business (S. O. 165, Sept. 16, D. Columbia).

General A. J. Perry has appointed Mr. J. J. Bliss chief clerk in his office at the Presidio of San Francisco.

Capt. W. A. Elderkin, C. S., will report to the C. O., Newport Barracks, Ky., for temporary G. C. M. duty (S. O. 146, Sept. 28, Div. Atlantic.)

Pay Department.

Major John B. Keefer, Paymr., will take station at Walla Walla, W. T., and will pay the troops at Forts Walla Walla, Spokane, and Cœur d'Alene, on muster rolls of Aug. 31 (S. O. 166, Sept. 17, D. Columbia).

Major DeWitt C. Poole, Paymr., will proceed to Portland, Ore., on public business (S. O. 160, Sept. 10, D. Columbia).

Major Culver C. Sniffen, Paymr., will proceed to Washington Barracks, D. C., and report to Col. Horatio G. Gibson, 3d Artillery, as a witness before G. C. M. (S. O. 147, Sept. 29, Div. Atlantic.)

Major Charles McClure, Pay Dept., will report to the C. O., Newport Barracks, Ky., for temporary garrison court martial duty (S. O. 146, Sept. 28, Div. Atlantic).

Col. Daniel McClure, A. P. M. G., will proceed to West Point, N. Y., on public business (S. O. 149, Oct. 1, Div. Atlantic).

Medical Department.

1st Lieut. Walter W. R. Fisher, Asst. Surg., is relieved from duty in the Dept. of Arizona, and will report in person at these H. Q. for assignment to duty (S. O. 78, Sept. 15, Div. P.)

The leave granted 1st Lieut. Philip G. Wales, Asst. Surg., is extended to include Nov. 5 (S. O., Sept. 29, H. Q. A.)

Capt. W. C. Gorgas, Asst. Surg., has qualified as a sharpshooter.

A. A. Surg. R. P. Finlay will proceed to Fort Mojave, and report for duty (S. O. 90, Sept. 20, D. Arizona).

F. O. 88 is so amended as to grant permission to Asst. Surg. W. W. R. Fisher to apply to the Adjt. Gen. of the Army, instead of to H. Q., Div. of the Pacific, for an extension of one month (S. O. 90, Sept. 20, D. Arizona).

Asst. Surg. C. F. Mason will proceed to Fort Verde, and report for temporary duty (S. O. 90, Sept. 20, D. Arizona).

Leave for one month, with permission to apply for an extension of one month, is granted A. A. Surg. H. S. Haskin, Fort Omaha, Neb. (S. O. 121, Sept. 21, D. Platte.)

Capt. Daniel M. Appel, Asst. Surg., is assigned to duty at Fort Davis, Tex. (S. O. 133, Sept. 22, D. Texas.)

Asst. Surg. Leonard Wood will report to Brig. Gen. Miles for duty (G. O. 25, Sept. 16, D. Ariz.)

Leave for ten days is granted Lieut. Col. Charles Page, Surg., Medical Director (S. O. 106, Sept. 20, Dept. Mo.)

Surg. Basil Norris, medical director, will proceed to Fort Canby on public business (S. O. 165, Sept. 16, D. Columbia).

There will be no more quarterly station lists of medical officers of the Army, as the last appropriation bill knocked out the provision for the Surgeon General's office private printing office.—*Critic.*

1st Lieut. Charles M. Gandy, Asst. Surg., is assigned to duty at Fort Concho, Tex. (S. O. 131, Sept. 18, D. Texas.)

A furlough for four months is granted Hospital Steward Edward W. Hambrock, Fort Bowie, Ariz. (S. O., Sept. 23, H. Q. A.)

Hospl. Steward George Price will proceed to Fort Elliott, Tex., and report for duty (S. O. 105, Sept. 17, Dept. Mo.)

Hospl. Steward A. J. McAllister will proceed to Fort Lewis, Colo., and report for duty (S. O. 89, Sept. 18, D. Ariz.)

Engineers and Ordnance Departments.

A Board of Officers of the Corps of Engineers, to consist of Lieut. Cols. Cyrus B. Comstock, Henry M. Robert and Walter McFarland, will assemble at Atlantic City, N. J., to make an examination and survey of the harbor at Atlantic City, N. J., with a view to making a harbor of refuge at that point. Capt. Daniel W. Lockwood will proceed to the harbor at Michigan City, Ind. Capt. Carl F. Palfrey will proceed to Great Sodus Bay, N. Y. (S. O. 141, Sept. 25, C. E.)

Lieut. Col. Walter McFarland will proceed to Albany, N. Y. (S. O. 142, Sept. 27, C. of E.)

Lieut. Col. John W. Barlow will proceed via Charleston, Tenn., to Matthew's Shoals of the Hiawassee River, on duty connected with works under his charge (S. O. 140, Sept. 23, C. of E.)

Ordnance Sergt. Wm. J. Russell, Fort Clark, Tex., will proceed to Fort Montgomery, N. Y., to relieve Ord. Sergt. Patrick Gallagher, who will proceed to Madison Barracks, N. Y., and await further orders (S. O., Sept. 24, H. Q. A.)

Ord. Sergt. Leodegar Schnyder, Fort Laramie, Wyo., will proceed to Fort at Clark's Point, Mass., to relieve Ord. Sergt. George S. P. Bradford, who will then be granted a furlough for six months (S. O., Sept. 24, H. Q. A.)

Capt. John Pitman, Chief Ord. officer, will proceed from the Fort A. Lincoln Ord. Depot, to Dept. H. Q., on official business (S. O. 98, Sept. 16, D. Dak.)

The C. O., Washington Barracks, D. C., will send a reliable sergeant to Fort Mifflin, Pa., for duty as acting ordnance sergeant, during the absence on furlough of Ord. Sergt. Thomas Gardner (S. O. 147, Sept. 29, Div. Atlantic.)

Ord. Sergt. Moses Williams, recently appointed from 1st Sergt., Troop I, 9th Cav., will proceed to Fort Buford, Dak., for duty (S. O., Sept. 28, H. Q. A.)

Chaplains.

Leave for three months is granted Chaplain J. W. Jackson (S. O., Sept. 27, H. Q. A.)

Signal Corps.

The telephone orders of 1st Lieut. Thomas M. Woodruff, A. S. O., directing 2d Class Priv. Charles G. Raymond to proceed from Nantucket to Edgartown, Mass., and report to Lieut. Woodruff for special duty, are confirmed (S. O. 97, Sept. 18, Sig. O.)

THE LINE.

Changes of Stations of Troops Ordered.

As reported to the Adjutant-General's Office during the week ending September 25, 1886:

Troop D, 10th Cav., to Fort Thomas, Ariz.

* Light battery.

2d Lieut. O. M. Lissak is relieved from duty at the Military Academy, West Point, N. Y., and will join his battery (S. O., Sept. 24, H. Q. A.)

The C. O. Fort Warren will issue a furlough for three months, with permission to go beyond sea, to Sergt. Wilber Ford, Bat. K (S. O. 145, Sept. 27, Div. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, L, and M, Ft. Hamilton, N. Y.; A, C, and H, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Omaha, Neb.; E and K, Ft. Schuyler, N. Y.
* Light battery.

Leave for ten days is granted Capt. Charles Morris, Fort Columbus, N. Y. H. (S. O. 146, Sept. 28, Div. A.)

Leave for one month, to commence Oct. 1, with permission to apply for an extension of one month, is granted 1st Lieut. David D. Johnson, Fort Columbus, N. Y. H. (S. O. 147, Sept. 29, Div. A.)

The C. O. Fort Columbus will send a detachment to Fort Hamilton, N. Y. H., Sept. 27 and 29, to take part in heavy artillery practice (S. O. 144, Sept. 25, Div. A.)

The journey from Fort Niagara to Governor's Island, N. Y., performed by 2d Lieut. Albert C. Blunt, under Orders 76, Fort Niagara, N. Y., is approved for mileage (S. O. 148, Sept. 30, Div. A.)

2d Lieut. Albert C. Blunt will proceed to Fort Hamilton, N. Y. H., and report for duty with Light Bat. F (S. O. 148, Sept. 30, Div. A.)

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, and H, Ft. Omaha, Neb.; G and K, Ft. Niobrara, Neb.; I, Ft. Robinson, Neb.

CAMP U. S. TROOPS, NEAR GRAND ISLAND, NEB., Sept. 4, 1886.

Major Edmond Butler, Commanding Battalion, 2d Infantry:

MAJOR: I cannot permit you to return to Omaha with your command without expressing to you and the officers and men of your battalion my high appreciation of the cheerful, efficient, and soldierly support afforded by them in presenting to the vast crowds which have assembled here from day to day military parades and displays.

Your own cheerful and active support has been very gratifying to me and has materially lightened my labor, while the splendid appearance and conduct of your officers and men have won encomiums from thousands.

It will afford me pleasure in my official report to the Headquarters of the Department to speak in proper terms of the drill, discipline, and excellent conduct generally of your battalion. I am, Major, your obedient servant,

HENRY A. MORROW, Col. 21st Inf., Comdg. Camp.

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

HEADQUARTERS FOURTEENTH INFANTRY, VANCOUVER BARRACKS, W. T., Sept. 7, 1886.

Orders No. 81.

It becomes my sad duty to announce to the regiment the death of its Colonel, Brevet Brigadier-General Lewis Cass Hunt, which occurred at Fort Union, N. M., Sept. 6.

General Hunt graduated from the Military Academy in 1847, and soon entered upon active service in the war with Mexico as a 2d Lieutenant of the 4th Infantry. It was during this war that he contracted a disease from which he has since been a sufferer, and which finally terminated fatally.

He participated in the War of the Rebellion, being appointed Colonel of the 92d New York Volunteers in May, 1862; engaged in the siege of Yorktown, the Peninsula Campaign, and, at the battle of Fair Oaks, was severely wounded. He was appointed a Brigadier-General of Volunteers in 1862; took part in the operations about Suffolk, the several expeditions to the Blackwater, N. C., and participated in the battle of Kinston, N. C., and for gallant and meritorious services in these various engagements, he received brevets up to the grade of Brigadier-General in the Regular Army.

General Hunt was promoted Colonel of the 14th Infantry in 1881, and during the comparatively short time he has been identified with it, he has, by his kindly manner and amiable qualities, endeared himself to the regiment.

On the day succeeding the receipt of this order the flag will be displayed at half-staff, the colors draped, and the officers of the regiment will wear the usual badge of mourning for thirty days.

I. D. DE RUSSY, Lieutenant-Colonel, Commanding.

15th Infantry, Colonel Joseph N. G. Whistler.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

Major Hugh A. Theaker is assigned to Fort Randall, D. T., for station (S. O. 98, Sept. 16, D. Dak.)

1st Lieut. Alexis R. Paxton is relieved from further duty in connection with the Dept. Rifle Competition, and will return to Fort Randall, D. T. (S. O. 99, Sept. 20, D. Dak.)

Lieut. W. F. Blauvelt, Sergt. J. Bryhan, Lieut. A. R. Paxton, Lieut. W. N. Blow, Sergt. M. Buonther, Corpl. C. F. Mayo, Pvt. W. T. Scully, Pvt. J. Sharkey, Pvt. G. Woodburn, Corpl. J. Larm, Pvt. J. Carter, Pvt. A. O'Donnell, Pvt. J. F. Griffin, Sergt. J. J. McBride, Corpl. P. O'Brien, Sergt. S. Oehler, and Pvts. R. Wilson and J. Burns have qualified as sharpshooters.

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., A, B, C, F, and H, Ft. Concho, Tex.; D and E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; G and K, San Antonio, Tex.

Sergt. John Sullivan, Co. B, is detailed for duty in the recruiting office at San Antonio, Tex. (S. O. 132, Sept. 20, D. Tex.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; B, Camp Medicine Butte, Wyo.; H, Ft. Bridger, Wyo.

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

2d Lieut. C. B. Hardin is relieved as R. O. at Fort Hays, and 1st Lieut. G. L. Turner, Adjt., is appointed in his stead (S. O. 106, Sept. 20, Dept. M.)

The extension of leave on account of sickness granted Capt. Birney B. Keeler is still further extended six months on account of sickness (S. O., Sept. 28, H. Q. A.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assinniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

The leave granted 2d Lieut. James A. Irons is extended two months (S. O., Sept. 28, H. Q. A.)

2d Lieut. Rowland G. Hill is detailed temporarily as Acting Judge-Advocate, Dept. of Missouri (S. O., Sept. 28, H. Q. A.)

Sergt. A. Wood, Lieut. J. A. Irons, Pvt. J. Klaiber, Sergt. L. Davis, Pvt. G. A. Higgins, Sergt. G. N. King, Corpl. P. Boyle, Sergt. S. P. Crow, Sergt. B. Otten, Sergt. W. R. Lantz, 1st Sergt. W. B. Greenwood, and Sergt. S. R. Moore have qualified as sharpshooters.

The following letter explains itself:

FORT ASSINNIBOINE, M. T., Sept. 13.

Capt. F. A. Boutelle, 1st Cav., in charge Dept. of Dakota Rifle Team, Fort Leavenworth:

DEAR SIR: I take the liberty of inclosing to you, postal order, in your favor $40, requesting that you will please divide it as follows among the enlisted men of the 20th Infantry, on Dept. of Dakota's team: Sergt. Crow, Co. C, $15; Corpl. Boyle, Co. 1, $15; Sergt. Wood, Co. K (alternate), $5; Pvt. Lubecki, Co. A (alternate), $5. The contributors to fund are: Col. J. C. Bates, 20th Inf., $20; Capt. J. H. Patterson, 20th Inf., $$5; Capt. A. A. Harbach, 20th Inf., $5, and myself, $10.

The money is contributed as a reward to the men for their efforts. Trusting that I have not encroached upon your time and attention and wishing success to your team, I am truly yours, PAUL HARWOOD, Captain 20th Inf.

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

2d Lieut. Henry C. Hodges, Jr., will report to the Superintendent Military Academy, West Point, for duty (S. O., Sept. 24, H. Q. A.)

Major C. J. Dickey and his Co. E left St. Augustine, Sept. 25, for Fort Marcy, N. M.

Henry Heintz, at one time sergeant-major, 22d Inf., and latterly a General Service clerk at San Antonio, committed suicide recently.

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

Lieut.-Col. Henry M. Lazelle, A. I. G., will proceed to Fort Canby and inspect that post (S. O. 162, Sept. 13, D. Columbia.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

Leave for three months is granted 2d Lieut. Harry A. Leonhaeuser (S. O., Sept. 27, H. Q. A.)

Sergt. George Williams, Co. A, is relieved from further duty in connection with the Dept. Rifle Competition and will proceed to Fort Meade, D. T. (S. O. 98, Sept. 16, D. Dak.)

Capt. G. Lawson and Lieut. O. J. Sweet have qualified as sharpshooters.

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, September 25, 1886.

PROMOTIONS.

Lieutenant-Colonel George H. Mendell, Corps of Engineers, to be Colonel, September 16, 1886, vice Stewart, retired from active service.

Major Peter C. Hains, Corps of Engineers, to be Lieutenant-Colonel, September 16, 1886, vice Mendell, promoted.

1st Lieutenant Butler D. Price, Adjutant 4th Infantry, to be Captain, September 17, 1886, vice Von Herrmann, retired from active service.

2d Lieutenant Benjamin F. Handforth, 11th Infantry, to be 1st Lieutenant, September 5, 1886, vice Irvine, appointed Regimental Adjutant.

Military Academy.

The resignation of Cadet John B. Olinger, 4th Class, is accepted (S. O., Sept. 28, H. Q. A.)

Courts-martial.

The following courts have been ordered:

At Fort Bowie, A. T., Sept. 22. Detail: Major E. B. Beaumont, Capts. O. W. Budd and A. E. Wood, and 1st Lieut. W. E. Wilder, 4th Cav.; 1st Lieut. P. R. Egan, Asst. Surg.; 1st Lieut. James Lockett, 4th Cav.; 1st Lieut. R. F. Ames, 8th Inf.; 2d Lieuts. J. M. Neall and R. A. Brown, 4th Cav., and Capt. F. A. Whitney, 8th Inf., J.-A. (S. O. 89, Sept. 18, D. Ariz.)

At Fort Schuyler, N. Y. H., Oct. 1. Detail: Major Abram C. Wildrick, Capts. Henry F. Brewerton and David H. Kinzie, 5th Art.; 1st Lieut. William O. Owen, Jr., Asst. Surg.; 2d Lieuts. Robert G. Procter and Gustave W. S. Stevens, 5th Art., and 1st Lieut. C. B. Satterlee, 3d Art., J.-A. (S. O. 145, Sept. 27, Div. A.)

At Fort Hamilton, N. Y. H., Oct. 1. Detail: Major Marcus P. Miller and Capt. John R. Brinckle, 5th Art.; Capt. Rudolph G. Ebert, Asst. Surg.; Capt. Selden A. Day, 1st Lieuts. Benjamin K. Roberts, Granger Adams, and William W. Galbraith, 5th Art., and 2d Lieut. John W. Ruckman, 5th Art., J.-A. (S. O. 147, Sept. 29, Div. A.)

At Fort Columbus, N. Y. H., Oct. 4. Detail: Capts. William B. Beck and Joshua A. Fessenden, 5th Art.; Capt. Henry P. Birmingham, Asst. Surg.; 1st Lieut. William B. McCallum, 2d Lieuts. Harvey C. Carbaugh and Avery D. Andrews, 5th Art., and 1st Lieut. Anthony W. Vogdes, 5th Art., J.-A. (S. O. 147, Sept. 29, Div. A.)

At Alcatraz Island, Cal., Sept. 20. Detail: Major Alanson M. Randol, 1st Art.; Capt. Robert J. Gibson, Asst. Surg.; 1st Lieuts. Henry L. Harris, Henry M. Andrews, and Adam Slaker, 1st Art., and 2d Lieut. Samuel D. Sturgis, Jr., 1st Art., J.-A. (S. O. 85, Sept. 15, D. Cal.)

At the Presidio of San Francisco, Cal., Sept. 20. Detail: Capt. William L. Haskin, 1st Art.; Capt. William N. Tisdall, 1st Inf.; Capt. John W. Dillenback and 1st Lieut. Clermont L. Best, Jr., R. Q. M., 1st Art.; 2d Lieut. Thomas Connolly, 1st Inf.; 2d Lieut. George W. Van Deusen, 1st Art., and 1st Lieut. John Pope, Jr., 1st Art., J.-A. (S. O. 85, Sept. 15, D. Cal.)

At Angel Island, Cal., Sept. 20. Detail: 1st Lieuts. Frank H. Edmunds, Adjt., and Thomas H. Barry, R. Q. M., 1st Inf.; 1st Lieut. William E. Hopkins, Asst. Surg.; 1st Lieuts. Frank de L. Carrington and Louis P. Brant and 2d Lieut. Charles B. Vogdes, 1st Inf., and 2d Lieut. Robert H. Noble, 1st Inf., J.-A. (S. O. 185, Sept. 15, D. Cal.)

———o———

Army Boards.

A Board of Officers, to consist of Capts. Gilbert S. Carpenter and George W. Davis and 2d Lieut. Frederic S. Calhoun, 14th Inf., will assemble at Vancouver Barracks, W. T., Sept. 13, for the purpose of examining and testing the rifle sight, as modified by the Ord. Dept., and the one modified by Capt. Andrew H. Russell. The Board will thoroughly test both sights, and report in full the qualities of each, especially in regard to the overcoming the tendency to "jump" of the hausse slide, when the rifle is fired (S. O. 161, Sept. 11, D. Columbia.)

———o———

Artillery School.—The exercises for the month of October, 1886, will be as follows: Artillery—Service of the piece, siege and sea coast guns and mortars. Instructions in the use of mechanical appliances for moving heavy artillery. Signaling—Officers who are not at either of the foregoing exercises will receive instructions in signaling under the Post Signal Officer during the usual drill hours. (G. O. No. 32, Art. School, Sept. 30).

———o———

Indian Scouts.—Cos. A, B and C as Navajo Indian Scouts, will proceed to Fort Wingate, and the company of Mescalero Indian Scouts to Fort Stanton, N. M. (S. O. 68, D. N. M., Sept. 15.)

———o———

DEPARTMENT NEWS.

Division of the Pacific—Maj.-Gen. O. O. Howard.

The San Francisco *Report* says: "The idea of having our 40,000 school children plant trees on Nov. 27 at the Presidio is good, provided the weather be good, also, so that the little ones catch no colds on the bleak hills of the Presidio. How 40,000 children with 40,000 trees are to be taken out to the Presidio and brought back again—the children, that is—on one short November day, we do not quite understand, but presume that Joaquin Miller will arrange all such little details."

Dept. of the Platte—Brig. Gen. George Crook.

A despatch of Sept. 26 says: "Numerous destructive forest fires are raging in the Yellowstone National Park. The Black Tail Mountains, near Mammoth Hot Springs, are one mass of smoking ruins. This tremendous conflagration was started by lightning, and is beyond all human control."

Dept. of Texas.—Brig. Gen. D. S. Stanley.

General Service Clerk Henry Heintz, San Antonio, shot himself through the head on the evening of Sept. 19, and died instantly. He was of a peculiar temperament.

Dept. of Dakota.—Brig. Gen. T. H. Ruger,

A St. Paul despatch says: Strong evidence comes from Fort Shaw that Crows, Grosventres, Bloods and Piegans are prepared for stealing raids and for war, both against the whites and among themselves. A report from the C. O. Fort Shaw shows the probable beginning of widespread troubles. Three parties of soldiers are out from Assinniboine, cavalry from Fort Shaw and three parties from Maginnis.

A despatch of Sept. 28 from Fort Shaw says: "Troops have been ordered out in the direction of the Judith Gap to intercept the movements of some Indians from the south suspected to be Crows. There is great excitement in the north country over the raids, and the troopers are hurrying over the plains between them and their reservations in the hope of apprehending them on their return from their raid. The Crows certainly have had provocation enough to raid the Piegans, who for years have been raiding their ranges at will and escaping without punishment. They are hereditary enemies."

A Winnipeg despatch of Sept. 29 says: "No massacre by the Indians has occurred in the Northwest as reported in despatches from Ottawa, Ontario. Everything is quiet there, the Bloods being on their reserve. The rumor probably originated from the killing of a few Bloods in Montana some time ago."

Dept. of the Missouri.—Brig. Gen. J. H. Potter.

An El Paso despatch of Sept. 26 says: "The recent embroglio with Mexico in the Cutting matter has called particular attention to the importance of Fort Bliss as a centre of military forces in the Southwest. As one of the first results, the force at Fort Bliss has already been largely augmented. Col. Douglass, who is at present in command, will make it regimental headquarters. The regimental band is on the way to Fort Bliss, and will soon be on the spot to add to the life and enjoyment at the post."

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

During the Cutting controversy the Mexican Minister interrupted the progress of plans for a legation building in Washington to cost $50,000, not knowing what might be the result of Mr. Bayard's demand. Since then confidence has been restored and the architect has completed his work. The design has been sent to Mexico for the approval of Mr. Mariscal. The site selected for the building is on the north side of I Street, between Fourteenth and Fifteenth Streets, and will occupy the ground now covered by five frame dwellings. Mr. Foster, ex-Minister to Mexico, lives on the east and Chief Justice Waite on the west side of the lot. The British and German Legations are the only ones at present occupying buildings owned by their Governments.

RIFLE COMPETITIONS, 1886.

Army Contest.—The contest for the Army prizes commenced on Wednesday, Sept. 29, under the superintendency of Col. S. E. Blunt. Lieut.-Gen. Sheridan and other distinguished officers were present, and great interest was manifested. The competitors are as follows: 1st Lieut. Zerah W. Torrey, 6th Inf., Div. Mo.; 2d Lieut. James T. Kerr, 17th Inf., Div. Mo.; 2d Lieut. Cassius E. Gillette, Corps of Eng., Div. Atlantic; 1st Sergt. Ludwig Roper, Co. F, 4th Inf., Div. Pac.; Sergt. Joseph F. Crawford, Co. A, 19th Inf., Div. Mo.; Sergt. James W. Weeks, Co. E, 6th Inf., distinguished marksman, Div. Mo.; Sergt. James B. Denney, Co. D, 14th Inf., Div. Pac.; Sergt. Morrow C. Gustin, Troop B, 2d Cav., Div. Pac.; Sergt. Wm. D. Huddleson, Co. K,, 4th Art. Div. Atlantic; Corpl. Geo. E. Miller, Troop H, 2d Cav., Div. Pac.; Corpl. Christian Michel, Troop L, 4th Cav., Div. Mo.; Pvt. Hatsell Garrard, Co. K, 10th Inf., Div. Mo. The alternates are 1st Lieut. Wallis O. Clark, 12th Inf., Div. Atlantic; Sergt. Benj. Otten, Co. B, 20th Inf., distinguished marksman, Div. Mo.; Sergt. John C. Pendergrass, Troop A, 10th Cav., Div. Pac.

The organization of the rifle camp is as follows: Officer in Charge—Lieut.-Col. Stanhope E. Blunt, aide-de-camp, inspector of rifle practice, hdqrs. of the Army. Capt. George D. Wallace, 7th Cav., commanding rifle camp; 2d Lieut. Charles B. Hardin, 18th Inf., adjt.; 2d Lieut. Jonas A. Emery, 11th Inf., commissary, quartermaster and ord. officer. Statistical and Financial Officer—2d Lieut. Edward B. Ives, 19th Inf. Executive Range Officer—2d Lieut. Philip Reade, 3d Inf., inspector of rifle practice Div. Mo. Range Officers—Capt. George D. Wallace, 7th Cav.; 1st Lieuts. Harry Reade, 25th Inf.; Thomas C. Woodbury, 16th Inf., and Fred. W. Foster, 5th Cav.; 2d Lieuts. Augustus C. Macomb, 5th Cav.; John F. Morrison, 20th Inf.; Wm. H. Sage, 5th Inf.; Elmore F. Taggart, 6th Inf.; Wendell L. Simpson, 3d Cav., and David C. Shanks, 18th Inf.

At the close of Wednesday's firing the result was: Torrey, Missouri, 172; Huddleson, Atlantic, 169; Weeks, Missouri, 168; Michel, Missouri, 166; Kerr, Missouri, 166; Miller, Pacific, 162; Denney, Pacific, 162; Gillette, Atlantic, 161; Gustin, Pacific, 161; Crawford, Missouri, 156; Garrard, Missouri, 148; Roper, Pacific, 147.

Division of the Missouri.—The Division competition closed Sept. 20, Lieut. Kerr, 17th Inf., winning first place on the team, and the gold and skirmish silver medals. The team is as follows:

1. 2d Lieut. J. T. Kerr, 17th Inf., Platte.....530
2. Sgt. J. F. Crawford, 19th Inf., Texas.....489
3. Corp. Christian Michel, 4th Cav., Missouri.....486
4. 1st Lieut. Z. W. Torrey, 6th Inf., Platte.....486
5. Pvt. Hatsell Garrard, 10th Inf., Missouri.....484
6. 2d Lieut. A. C. Macomb, 5th Cav., Missouri...480
7. Sgt. E. H. Stevens, 7th Inf., Platte.....479
8. Sgt. S. M. Green, 8th Cav., Texas.....478
9. Corp. C. E. Mayo, 15th Inf., Dakota.....475
10. Pvt. C. Palmer, 3d Inf., Dakota.....473
11. Sgt. G. Zobel, 3d Inf., Dakota.....471
12. Pvt. John Peterson, 5th Cav., Missouri.....467

Lieut. Kerr is also the winner of three special prizes, a fine badge offered by Donald and Ashmun, a gold medal offered by W. A. Kirkham, and a special prize by M. P. Cranston.

On Sept. 22 the team match for the Kansas City *Times* medal took place amid great enthusiasm. Sgt. S. P. Crow, Co. C, 20th U. S. Infantry, being the winner by a score of 172 points out of a possible 200, lacking only six points of the highest score made during the division contest. The medal, one of the, if not the, handsomest ever offered as a prize to military marksmen, caused quite a rivalry between the different teams.

The special prize, a gold medal, offered by Mr. John Joerger, was shot for Sept. 23 in a special skirmish match, the Missouri team carrying off the honors, and Lieut. Macomb, 5th Cav., then won the medal in the individual match.

In the afternoon the troops were paraded and reviewed by Major General Terry. After the review General Terry presented the Army prizes and gave much commendation to all concerned. In presenting Sergeant Crow with the Kansas City *Times* medal General Terry said; "Sergeant Crow: I take great pleasure in presenting to you this beautiful and valuable medal. This journal has for a number of years interested itself in Army matters and done much by its enterprise and liberality in the offering of means to increase the efficiency of our troops in the use of that American weapon—the rifle. It gives me great pleasure, indeed, to be its representative on this occasion in presenting you this handsome gift, which I hope you will wear with honor to yourself and the Service."

Soon afterwards the ceremonies ended and all, except those to remain to take part in the Army contests, left for their respective stations. The Division contest this year was declared by all to be most successful and the interest never flagged.

Division of the Missouri Rifle Practice Quota.

Quota from each Department for the Division team:

Dakota	4	Gained	3
Platte	3	"	3
Missouri	3	"	4
Texas	2	"	2

For the Army Team:

Dakota	2	Gained	0
Platte	2	"	3
Missouri	1	"	2
Texas	1	"	1

Lieut. Kerr, of the Platte, No. 1, is 31 points ahead of the next highest.

The enlisted men now at Fort Leavenworth, Kas., belonging to the rifle teams from the Department of Texas, Department of Dakota, Department of Platte, and Department of Missouri, will return to their respective stations. (S. O. 108, Sept. 23, D. M.)

The following-named officers will return to their respective stations from Fort Leavenworth, Kas., as specified:

2d Lieut. W. A. Mercer, to his station in the Division of the Pacific; 2d Lieut. B. B. Buck, 16th Inf., Fort McIntosh, Tex.; Capt. F. A. Boutelle, 1st Cav., and 2d Lieut. Frederick Perkins, 5th Inf., to their respective stations in the Department of Dakota. (S. O. Sept. 24, D. M.)

Sergeants H. Lloyd, Co. E, and E. W. Bonton, Co. F, 2d Inf., "distinguished marksmen" Department of the Platte, will return to their proper station, Fort Omaha, Neb. (S. O. 109, Sept, 24, D. M.)

The following-named officers are relieved from duty in connection with the Division rifle competition and will report to their respective commanding officers at Fort Leavenworth, Kas.: Captain T. J. Wint, 4th Cav.; 1st Lieut. L. S. McCormick, 7th Cav.; 1st Lieut. Charles Dodge, Jr., 24th Inf.; 2d Lieut. W. T. Wood, 18th Inf.; 2d Lieut. W. N. Hughes, 13th Inf., and 2d Lieut. J. Y. M. Blunt, 10th Inf. (S. O. 109, Sept. 24, D. M.)

2d Lieut. V. J. Brumback, having completed his duty in connection with the Division of the Missouri rifle competition at Fort Leavenworth will return to his proper station, Fort Omaha, Nebraska. (S. O. 109, Sept. 24, D. M.)

(Correspondence of the Army and Navy Journal.)

THE MILITARY ACADEMY.

WEST POINT, N. Y., Sept. 29, 1886.

THE season's infantry drills will end to-morrow. This week has been devoted to battalion skirmish drill.

The cadets are all anxiously waiting for the verdict in the Court-martial cases.

Highland Falls has had a number of severe accidents within the past ten days. One man, named Speller, was run over and killed by the cars; another, Wm. Florence, while at work in the tunnel under West Point, fell from a scaffold and had a leg badly broken; Mr. Mandago, an old man of seventy-five, was knocked down by a team drawing a wagon load of ice; the wheels passed over his chest, injuring Mr. Mandago internally, so that he is not expected to live.

Yesterday morning the little son of Capt. Williams, seven years of age, went up an apple tree in Execution Hollow; he fell and had an arm badly broken.

The infant son of Prof. Larned has been quite sick for some time, but is now much better.

Mr. Russell Thayer, who graduated in 1874, but now chief engineer of Fairmount Park, Philadelphia, spent several days here this week. Mr. Thayer is quite enthusiastic on the subject of balloons.

Major and Mrs. Lydecker have been here several weeks, visiting Professor and Mrs. Mercur.

Prof. Kendrick dropped in last week to see his friends. The genial Professor always meets with a warm welcome when he comes. He is looking remarkably well and bids fair to become "the oldest graduate."

Lieut. Lissak will be relieved in the mathematical department by Lieut. Hodges, 22d Infantry. Lieut. Lissak unfortunately injured his left foot a short time before he came here, so that he is compelled to use crutches, and in going around the post he uses a tricycle.

Lieut. and Mrs. Simpson have invited their friends to an evening's entertainment at Schofield Hall on Wednesday, Oct. 6.

Mrs. Vogdes is visiting her sister, Miss Berard, and Mrs. Duvall has been Mrs. Bass's guest for several days.

Prof. John W. Forsyth, formerly chaplain at the Military Academy, who is now living at Newburg, is dangerously ill with typhoid fever.

Lieut. Gibson won the first prize at the tennis tournament. His competitor in the final game was Lieut. Stewart.

The cemetery has been cleared of the cedar trees that used to stand among the graves. All of the mounds are to be levelled, and the whole surface will be smooth and lawn-like. This will be a very laborious work, for many of the monuments will have to be raised or lowered. In order to mark the graves of those who have no monument or stone, little head and footboards will be placed on each grave. The change will undoubtedly add to the beauty of the cemetery.

While at Highland Falls a few days ago we met Mr. Cornelius Nelson, who is about eighty years of age. Mr. Nelson said that his ancestors came from the old country in 1696, just two hundred years ago this month. They settled on the east bank of the Hudson, opposite Gee's Point, and were the first settlers in this part of the country. In speaking of the other side of the river they always called it the "point over on the west side," from which came the name of West Point.

The drum-major, Rupp, of our band, has applied to be placed on the retired list. The order retiring him is expected in a few days; he is now on furlough and will live in Newburg after his retirement. Sergt. Rupp will probably be the youngest man on the retired list for enlisted men. He is about 44 years old and has served over 21 years. Two other members of the band, both first-class musicians, will retire this fall. It is not yet known who will be the new drum-major. Corpl. McAllister is now acting in his place.

Paragraph 70 of the Academic Regulations is amended so that in forming the general merit roll of the first class, the value given to the subjects of Civil and Military Engineering and Science of War shall be represented by the following numbers: Civil Engineering, 150; Military Engineering and Science of War, 150; total, 300.

Admiral and Mrs. Rodgers arrived this afternoon to visit their son, Lieut. Rodgers.

The following candidates have been designated for examination for admission to the Military Academy; Saml. Reed Broadbent, Philadelphia, Pa.; Richard W. Roelofs, (alt.,) Philadelphia, Pa.; George H. McMaster, Columbia, S. C.; W. M. Smith, (alt.,) Glenn Springs, S. C.

(Correspondence of the Army and Navy Journal.)

FORT APACHE, A. T.

SEPTEMBER 17, 1886.

FORT APACHE has been quite an important centre in Arizona for some time past, and I am told through private correspondence that Gen. Miles esteems Col. Wade's "round up" of the Chiricahua Apache Indians at this post as important as the capture of Geronimo's band of marauders. Be that as it may, it was suggested but a few weeks ago by an officer as being the proper thing to do, and he was immediately informed that it was not *practicable*, and that the mere suspicion of such a thing would cause an immediate stampede of Chiricahuas. But Gen. Miles believed it to be the thing to do, and during his visit to Apache last July he had an opportunity of judging as to the best disposition to make of them. The result has caused universal rejoicing all over Arizona.

The order to surround these Indians and disarm and take them prisoners was given to Col. Wade, and with three troops of the 10th Cavalry, Troop C, Capt. C. D. Viele, Troop H, Capt. C. L. Cooper, and Troop A, Lieut. Wm. H. Beck in command, with two companies of the 9th Infantry, Capts. Morton and Bowman in command, the Colonel marched out to where the Indians had gathered for their "regular court." A desperate resistance was fully expected, but the absence of their war chiefs (who had been sent to Washington), proved a strategic movement, and no doubt was the cause of the complete capture of this entire band of Indians. Col. Wade sent his adjutant, Lieut. W. E. Shipp, of the 10th Cavalry, with a detachment of cavalrymen over to the camp to capture all of the arms and ammunition and bring in any stray bucks. The prisoners were stored away in a quartermaster building for that night, and a heavy guard placed over them. On the 5th Col. Wade took the entire tribe, with their ponies, booroes, horses, squaws, and pappooses, over to Holbrook. From there he has gone with them to Fort Marion, Fla. Four troops of the 10th Cavalry formed the escort from here to Holbrook—C, H, B, and A. The three former will return to Apache to-morrow. Troop A, Lieut. Beck in command, with Lieut. Shipp, goes to Wingate, N. M., to take the Indian stock from that post. Lieut. Beck expects to return via the Mountain Path to Apache.

Col. Wade has always been the pride of the 10th Cavalry ever since he first joined it, and we feel that his success is nothing more than his friends have expected of him. And Gen. Miles is no less dear to his Army friends and admirers than he seems to be to the greatful citizens of Arizona. A nation should be proud of and thankful to so successful a general.

Troop C, of the 8th Cavalry, Capt. Williams in command, and Lieut. Cabell, is at Apache temporarily. Dr. Ives is also with the troop.

Capt. P. L. Lee with his troop is also here from Fort Thomas, A. T., and Lieut. Hughes in command of Troop B, 10th Cavalry, from San Carlos Agency, was ordered up here from duty and formed a part of the escort for the Chiricahuas to Holbrook. After this we may expect to enjoy a little rest and quiet. It has been a year and four months since Geronimo left the reservation and it is estimated that his band has killed 400 people in Arizona. To his vicious raids we owe the loss of two noble officers, Capt. Crawford and Dr. Maddox. But twenty-two weeks since Gen. Miles assumed command of the Department, and the Chiricahuas are gone from our midst forever. The White Mountain Indians on this reservation are as delighted over the departure of their enemies as are we and there is every prospect of future peace with the remaining tribes in Arizona. Last month Lieut. J. B. McDonald and Dr. Davis, of San Carlos Agency, paid a visit to their friends in Apache and were guests of Lieut. Beck and Mrs. Beck. Both gentlemen are great favorites and their visit was much enjoyed.

Dr. Clury, from Fort Union, N. M., was in Apache for a few days, whence he was to accompany the Chiricahua Indians to New Mexico.

Dr. Fisher, of Fort Apache has gone to New York to be married. We will expect him and his bride back in two months. The Doctor is a most worthy young officer, and has the best wishes of a host of friends for himself and bride.

The friends of Capt. John T. Morrison's family regret very much to hear of the serious illness of their eldest son, John, at Berkeley, Cal.

(Correspondence of the Army and Navy Journal.)

LAWTON AND DORST.

Tucson, A. T., Sept. 20, 1886.

General Miles, commanding the Department of Arizona, has appointed to his staff two of the most worthy officers of the Army. Captain Henry W. Lawton, 4th Cav., appointed Inspector, is the hero whose gallant deeds of valor, zeal, and endurance are now so favorably before the world. He has proved his ability to cope with the ablest chief of the Chiricahuas and the terror to civilization. Geronimo, the common enemy of mankind, has been vanquished by the gallant Lawton. Peace and prosperity to the Territories of Arizona and New Mexico and the entire Mexican frontier are now assured to its citizens. Future generations will spring up to bless the name of one whose faithful, unflinching discharge of duty has been productive of these results, and now the trusty Lieutenant has been rewarded by his chief to the extent of that chief's limited power. Captain Lawton is not only a soldier of the bravest war record, but a gentleman of attainments, with an able judiciary turn of mind. The nation owes him everything, the Government advanced rank on the staff of its military establishment, which he would grace with dignity and ability becoming alike to himself and the Service he honors and exalts.

Captain J. H. Dorst, 4th Cav., probably one of the youngest captains in the Service, is a pupil of the famous Mackenzie, has distinguished himself in the field, and has in the last few years rendered valuable service on the staff of the District Commander at Santa Fe, proving himself the ablest Adjutant-General the District ever had. He is well qualified to fill the important duties of Judge-Advocate recently assigned him by General Miles. O.

(Correspondence of the Army and Navy Journal.)

THE ALDEN DRAMATIC ASSOCIATION.

At a meeting held at Mare Island, Aug. 18, a reorganization was effected of "The Alden Dramatic Company," and the following officers were elected: Manager, Dr. G. W. Woods; Assistant Manager, Mrs. G. E. Belknap; Stage Manager, Civil Engineer C. C. Wolcott; Property Manager, Commander Rodgers; Secretary and Treasurer, Lieut. E. F. Qualtrough; Prompter, Paymaster C. M. Ray. The first performance took place Sept. 18, the plays of "Sweethearts" and "Dr. Mondshein" being presented. There was a large audience and everything went off satisfactorily. "Home" is in rehearsal. Junk.

COURT-MARTIAL CASES.

In the case of a soldier recently tried at Fort Riley, the reviewing authority, Brigadier-General Potter says: "The proceedings were not at first accompanied by the record of previous trials and convictions on which the severity of the sentence depended, nor did they show what record the court acted upon. Upon being returned for correction by the court, the judge advocate, who had in the meantime been relieved, removed two sheets of the proceedings of the court and substituted others in their place. The court subsequently met and attempted to declare that the proceedings as thus changed, is a correct report of the trial. This would be an unwarranted proceeding were it regular in form, but these revised proceedings are signed by an officer who acted as judge advocate after he had been relieved, and had ceased to be such officer of the court. For these reasons the proceedings, findings and sentence are disapproved. (G. C. M. O. 36, Dept. Mo., 1886.)

In the case of 1st Sergeant Geo. Bush, Light Battery E, 1st Artillery, recently tried at Vancouver Barracks, General Gibbon says: "It appears by the testimony in this case that 1st Sergt. Bush, whilst on duty, in charge of the men of his battery in ranks, permitted two of them to engage in a wrangle in which opprobrious epithets were used. Such conduct is highly unmilitary, and is never permitted in any well disciplined organization. Sergeant Bush will be released from arrest and returned to duty.

A claim for money lost by U. S. troops out west was decided last week by Secretary Muldrow, of the Interior Department. In 1867 a band of Cheyenne Indians on the war path made a descent upon the 5th Regiment, of U. S. Infantry, and captured several wagons, one of which contained the regimental fund amounting to $1,337. It would appear that the troops felt some delicacy about putting in their claim, as its presentation was delayed until recently. The finding is that only $960 of the lost money has been shown by proof to have been in the wagon, but as the claim was not presented within the time prescribed by law it cannot be allowed.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

Galena, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

Swatara, 3d rate, 8 guns, Comdr. E. T. Woodward. At Portsmouth, N. H., undergoing repairs.

Tennessee, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At Newport, R. I.

Yantic, 3d rate, 4 guns, Comdr. Francis M. Green. At Portsmouth, N. H., undergoing repairs.

S. Atlantic Station—Captain E. E. Potter (in command temporarily).

Acting Rear Admiral D. L. Braine will shortly command this station.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

Alliance, 3d rate, 6 guns, Comdr. Charles McGregor. At the New York Navy-yard. Ordered to join the South Atlantic Station, and will sail in a few days for that station.

The *Alliance* will have another trial of the forced draught system in her boilers, on the North River, on Saturday, and will sail as soon afterwards as possible, probably Monday or Tuesday of next week, for the South Atlantic Station, via Madagascar.

Lancaster, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. At Rio de Janeiro Aug. 12. Will probably remain until October.

Tallapoosa, 4th rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro Aug. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

Pensacola, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. At Genoa, Italy, Aug 10.

Kearsarge, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. To sail from Leghorn to meet *Brooklyn* at Gibraltar about Sept. 10. Has been ordered to return to the U. S., and is expected to arrive the latter part of October.

Quinnebaug, 3d rate, 8 guns, Comd. Geo. W. Coffin. To meet *Brooklyn* at Gibraltar Sept. 10.

Pacific Station—Rear-Adm. E. Y. McCauley.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

Adams, 3d rate, 6 guns, Comdr. Louis Kempff. Was at Iquique, July 31.

Hartford, 2d rate, 16 guns (f. s. p. s.), Capt. J. H. Gillis. Was at Callao July 31. Will shortly be ordered to San Francisco, Cal., where she will undergo repairs.

Juniata, 3d rate, 8 guns, Comdr. G. T. Davis. Sailed from New York, Aug. 16, for Pacific Station.

Iroquois, 3d rate, 7 guns, Comdr. J. Crittenden Watson (ordered.) Was at Payta, Peru, Sept. 13.

Monongahela, 2d rate, 9 guns, Lieut. Comdr George B. Livingston in command. Used as a store ship at Coquimbo, Chili. Comdr. S. H. Baker was ordered to command, per steamer Sept. 11 from New York.

Mohican, 3d rate, 8 guns, Commander Benjamin F. Day. Advices from Auckland, N. Z., of Aug. 16, say that the *Mohican* arrived from Fiji on Aug. 16, and would remain three weeks.

Pinta, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. Address care of Navy Pay Agent, San Francisco, Cal. Lt. Comdr. J. S. Newell has been ordered to command.

Lieutenant Commander H. E. Nichols, in a report to the Secretary of the Navy, dated Sitka, Sept. 10, says the *Pinta* returned Sept. 9 from a trip to Yakutat after the Schwatka exploring expedition. The party was found at Yakutat, and all its members were well. They were able to ascend Mount St. Elias only 7,200 feet, and the most experienced of the party consider it impossible to reach the top.

Shenandoah, 2d rate, 9 guns, Captain Byron Wilson. At San Jose de Guatemala Sept. 4. Expected at San Francisco Oct. 15, where she will undergo repairs.

Vandalia, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station.

Asiatic Station—Rear-Admiral J. L. Davis.

Commodore Ralph Chandler has been ordered to command this station, and will leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail. to care U. S. Consul, Yokohama, Japan.

Brooklyn, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Port Said, Sept. 28, 1886, as reported by cable.

A correspondent writing from Lisbon, Portugal, announces that the *Brooklyn* arrived at that port Sept. 2, 1886, after a pleasant passage of five days from Fayal. The usual salutes were fired, and on the morning of Sept. 8 the ship was dressed in honor of the Queen's birthday. The vessel sailed from Lisbon on the afternoon of Sept. 8 for Gibraltar (where she arrived Sept. 10, as previously reported).

Essex, † 3d rate, 6 guns, Comdr. T. F. Jewell. Sailed from New York for the Asiatic Station Sept. 2, 1886.

Marion,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. Was at Shanghai, Aug. 24.

Monocacy,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Canton Aug. 24, to be relieved by the *Palos*, and then proceed to Hong Kong for repairs.

Omaha,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Arrived at Valdivostok, Aug. 21. Will return to Shanghai Oct. 1.

Ossipee,† 3d rate, 8 guns, Comdr. John F. McGlensey. Left Nagasaki, July 10, for Chemulpo, Corea. Has been ordered to return to New York by the middle of February, 1887.

Palos,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. Sailed from Shanghai for Canton Aug. 24, to relieve the *Monocacy*.

Apprentice Training Squadron.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

Minnesota, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

New Hampshire, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

Portsmouth, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. Sailed from Madeira for Newport, R. I., Sept. 11. Expected to arrive about Oct. 10.

Saratoga, 3d rate, 12 guns, Comdr. C. H. Davis. Sailed from Madeira for Newport, R. I. Sept. 11. Expected to arrive about Oct. 10.

On Special Service.

Despatch, 4th rate, Lieut. Wm. H. Emory, Jr Arrived at New York, Thursday morning, Sep. 30, from Boston.

Dolphin, despatch boat. Lieut. Chas. O. Allibone in command. At Norfolk, Va., undergoing repairs.

Jamestown, 3d rate, sails, 12 guns. Comdr Chas. J. Train. At Norfolk, Va., for repairs.

Michigan, 4th rate, 8 guns, Comdr. John J. Read.

The *Michigan* was inspected at Detroit, Mich., September 25, 1886, by the Board of Naval Inspectors, consisting of Rear Adml. Jas. E. Jouett, Capt. R. F. Bradford, Comdr. H. C. Taylor, Chief Engineer P. Inch, and Naval Constructor P. Hichborn. The inspection was very thorough, and found the vessel in a highly satisfactory condition. The inspection of the men next followed, with the usual gun, fire, boat and sail, drills, etc., and also a drill ashore, all of which were executed with great precision, and showed that the crew were in a high state of proficiency. The *Michigan* was last inspected some three years ago, and since that time she has been almost entirely rebuilt. Her officers are: Commander J. J. Read, Lt. Comdr. J. J. Hunker, Lieut. C. P. Rees, Lieut. J. M. Bowyer, Lieut. H. M. Hodges, Ensign Geo. R. Clark, P. A. Engineer A. F. Dixon, P. A. Paymaster T. D. Hoxey, Jr., Surgeon C. U. Gravatt. After the drill, an informal reception was held on board.

Ranger, 3d rate, 4 guns, Comdr. Chas. E. Clark. At San Francisco. Comdr. F. A. Cook has been ordered to command.

St. Mary's, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. Schoolship. Cruising in Long Island Sound.

Atlanta, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. Returned to New York from trial trip in Long Island Sound on Sept. 26, for alterations in thrust bearing.

Receiving Ships, Iron-Clads, Etc.

Franklin, 1st rate, 20 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

Independence, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

Rescue, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

Fortune, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

St. Louis, 3d rate, sails. Commander H. B. Seely ordered Oct. 10. Receiving ship. League Island, Pa.

Wabash, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

Vermont, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

Dale, 8 guns. Commander Silas Casey. Receiving Ship. At Washington, D. C.

Philox, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

Mayflower. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax. Catskill. Lehigh, Mahopac, Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

VARIOUS NAVAL ITEMS.

The *Hoche*, a 1st class armorclad, one of the largest vessels in the French Navy, is to be launched at Lorient on Aug. 29.

General Count Faigo and seven officers of the Japanese Navy lately arrived at Liverpool from New York, on a tour of inspection of dockyards, and for the purpose of obtaining information on naval subjects.

The trial of the suit of D. W. Bouldin against the commandant at Mare Island, to recover possession of the island, which is valued at $5,000,000, was resumed last week at San Francisco, and is expected to close this week.

The class of seamen gunners on the flagship *Tennessee* were given some practical work in torpedo warfare at Newport, Sept. 29. They placed a 100-pound torpedo under the wreck of a coal schooner ashore in the south end of Rose Island and blew it up.

The greatest activity, says the *Militar-Zeitung* (Vienna), now reigns at Terni, where in future the Italian vessels of war are to be built. The *materiel* of the yards has been obtained to a great extent from Belgium. The engines are not driven by steam, but by water power and compressed air.

The French Minister of Marine, says the *Avenir Militaire* (Paris), is about to form a Flying Squadron for navigating distant waters. The vessels of which the squadron is to be composed are to assemble shortly at Brest, and be put under the command of Rear Admiral Layrle. They will consist of an armorclad and several cruisers of the 1st and 2d class.

The present available force of the United States puts us at the foot of the list of naval powers. When the vessels already authorized, contracted for or commenced, are completed, say four years hence, the United States will, in naval power, outrank Brazil, Chili, Argentine, China, Japan, Greece, Norway, Portugal and Sweden; be on a par with Turkey, Spain, Holland and Denmark, and be surpassed by England, France, Germany, Austria, Italy and Russia.

IT is Mr. E. H. Hart, of No. 1,162 Broadway, New York, who publishes the views on the *Tennessee*, referred to last week, not E. H. Kent.

THE Sub-Committee of the U. S. Senate, designated to investigate the fishery trouble in accordance with a vote passed last session, met at the Tremont House, Boston, Sept. 28. Senator Edmunds, the chairman, and Senators Frye, of Maine, and Morgan, of Alabama, were present.

WE see it stated that the *Monongahela* will be prepared for a cruise as soon as possible after Comdr. Samuel H. Baker relieves Lieut. Comdr. George B. Livingston, in command, and the vessel will then come around to Hampton Roads, by way of Cape Horn. She will be overhauled and refitted for the apprentice training squadron. The passage will be made under sail.

PAYMASTER WRIGHT, who has recently become disbursing officer at the Navy-yard in Washington, has inaugurated a new system of paying the employees, by which the time consumed in counting the money, identification, receipting, etc., is saved. The semi-monthly pay day has heretofore necessitated several hours' work in paying the men, but on Saturday all were paid in 35 minutes.

THE new steel cruiser *Boston*, which suffered some damage two or three weeks ago from the falling of one of her tops, has been repaired, and it is expected that she will be finished and ready to go into commission within two weeks. Constructor Steele reports from Chester that the *Chicago*, the last and largest of the four steel cruisers authorized by Congress in 1883, will probably be finished by Feb. 1.

A TEST of the Cunningham life line rocket for throwing lines to vessels in distress was made Sept. 24 at the Washington Barracks rifle range. No. 7 line, which is the largest used in the service, was carried with precision to a distance of 650 yards, and a lighter, No. 4 line, to a distance of 1,050 yards. The greatest distance to which No. 4 line has ever been thrown by the Lyle gun now in use in the service is said to be 694 yards.

REAR ADMIRAL S. B. LUCE, U. S. N., has addressed a letter to Mr. Neils Olsen, of the New York Yacht Club, inquiring what would be the best method to pursue in the matter of gathering statistics regarding the personnel of the U. S. yacht fleet. The Navy Department wish for their own information to know how many persons, seamen and others are employed by the different yachts that sail in U. S. waters. The Bureau of Statistics at Washington has no data concerning this matter, which the Admiral says would be highly important in the event of a war and of particular service to the U. S. Navy Department.

THE Minister of Public Works of the Canadian Dominion proposes, in view of the trade which it is hoped will spring up between Canada and the East, to enlarge the new graving dock recently completed on the Pacific Coast, at Esquimault, Vancouver's Island, British Columbia. The dock at present is 90 ft. wide at the top and 41 ft. wide at the bottom, with an entrance of 65 ft. in width. At ordinary spring tides there is 26 ft. 6 in. of water on the sills. The length of the dock is at present 380 ft., but it is proposed to extend this to 430 ft. When this is done it will be capable of accommodating any vessel of the British North Pacific Squadron, or the large Trans-Pacific steamships.

IT seems to be well understood that Naval Constructor Wilson will soon be appointed to the office of Chief Naval Constructor. Since the expiration of Mr. Wilson's term he has been performing all the duties of the office without the pay. Although there are those who seem to think that there will be a general reorganization of the Bureau, there are others who believe that no changes will be made except, perhaps, the transfer of all purchases to the Paymaster General of the Navy. The work of the Board of Chiefs of Bureaus, of which Captain Walker was President, settled the fact that satisfactory work can be done by Bureau Chiefs when ordered to work in conjunction with each other.

SIR THOMAS BRASSEY has published in the London *Times* a letter giving his impressions of the relative merits of the yachts *Mayflower* and *Galatea*. He attributes the defeat of the *Galatea*, not to any inferiority in the seamanship with which she was handled, but to the form of her hull. On the important points of seaworthiness and stability at considerable angles with the keel, he thinks that a serious trial at sea would probably show that the Americans have something to learn from the English yachtsmen. The English builders, he says, have done the best they could under the conditions imposed upon them. It is for the yacht clubs and societies to consider whether these conditions are calculated to secure the the utmost perfection of form in yachts.

GENERAL BEAUREGARD contributes an interesting "note" to the "North American Review" for October, in which he insists, with documents and details, as against Rear Admiral Taylor, that the United States blockading squadron was driven out of Charleston harbor on Jan. 31, 1863, and that the blockade was temporarily raised. Gen. Beauregard says: Contradictory statements and denials of this nature, concerning the events of the late war, are not of unfrequent occurrence. What one side positively avers is often no less positively dissented to by the other. Thus, even to this hour, officers who had occupied high rank in the Union Army—Gen. Sherman among them—deny that the Confederates took the Federals by surprise on the first day of the battle of Shiloh. So also does Gen. Sherman continue even now, as I am informed, to deny that Columbia, the capital of South Carolina, was burned by his own troops. The conclusion forced upon us is, not that Gen. Sherman and Rear Admiral Taylor, and others who speak and write as they do, are correct in their assertions, but that, unfortunately, evidence, however authentic be its source, loses its weight and is disregarded, when coming from those who were enemies at the time of the occurrence under dispute. It follows none the less, however, that a clear comprehension and just appreciation of such contested points are, sooner or later, reached; and thus is the level of all historical facts eventually settled. In my article referred to by Rear Admiral Taylor I never even intimated that because the Federal blockading fleet was dispersed, North and South, on Jan. 31, 1863, by the Confederate rams *Palmetto State* and *Chicora*, the Charleston blockade was permanently broken, and remained so to the end. I said that "for the time being" it was raised; and I maintain that my assertion was absolutely correct, notwithstanding the denial of Rear Admiral Taylor and of others, that the Federal blockading fleet was rendered so uneasy and inefficient by the result of the attack made upon it on Jan. 31, 1863, that, for days and weeks afterwards, it was matter of no difficulty for blockade runners to enter or leave the port with almost entire freedom.

NAVY GAZETTE.

Ordered.

SEPT. 24.—Commander Henry B. Seely, to command receiving ship St. Louis in addition to his present duties.

SEPT. 25.—Captain Edward P. Lull, to command the Navy-yard Pensacola, Fla.

P. A. Surgeon D. M. Guiteras, to temporary duty on board receiving ship Franklin.

SEPT. 27.—Lieutenant Wm. T. Swinburne, to the Naval Academy, October 1.

Lieutenant Chas. G. Calkins, to duty in the Office of Naval Intelligence, October 15.

Assistant Surgeon Horace B. Scott, to the Navy-yard New York, October 1.

SEPT. 28.—Ensign Albert N. Wood, to the Yantic.

SEPT. 29.—Lieutenant Henry W. Schaefer, to the Naval Academy, October 4.

Lieutenant York Noel, to the receiving-ship Vermont, October 15.

Commodore Ralph Chandler and Captain A. W. Weaver, to examination for promotion.

OCT. 1.—P. A. Surgeon Clement Biddle, to the Naval Academy.

Detached.

SEPT. 24.—Lieutenant-Commander John S. Newell, from duty at Torpedo Station and ordered to command the Pinta, per November steamer from San Francisco.

Lieutenant Commander Henry E. Nichols, from command of Pinta on reporting of his relief, and ordered to return home and await orders.

Lieutenant-Commander T. A. Lyons, from Galena and ordered to Tennessee.

P. A. Surgeon Henry T. Percy, from Galena and placed on waiting orders.

P. A. Surgeon George Arthur, from Navy-yard New York, October 1, and ordered to duty at the Museum of Hygiene, Washington, D. C.

P. A. Surgeon T. A. Berryhill, from duty at Museum of Hygiene, October 4, and ordered to receiving ship Minnesota.

Assistant Surgeon A. R. Wentworth, from Navy-yard League Island, October 1, and ordered to Galena.

Assistant Surgeon Joseph Shafer, from Minnesota and ordered to Swatara, October 1.

SEPT. 28.—Lieutenant Commander C. A. Schetky, from the receiving-ship Lt. Louis, October 10, and granted three months' leave.

Passed Assistant Surgeon R. Ashbridge, from the Swatara and granted six months leave.

OCT. 1.—P. A. Surgeon John W. Steele, from the Naval Academy and granted six months' leave.

Ensign Louis W. Piepmeyer, from the Fish Hawk and granted sick leave.

Ensign B. E. Thurston, from the Ranger and ordered home.

Revoked.

The orders of P. A. Paymaster Reah Frazer to the New Hampshire and placed on waiting orders.

The orders of Ensign A. Gleaves to the Naval Academy.

MARINE CORPS.

SEPT. 25.—2d Lieutenant Charles A. Doyen, detached October 2, from the Marine Barracks, League Island, Pa., and granted leave of absence for two weeks upon the expiration of which he will report for duty at the Marine Barracks, Brooklyn, N. Y.

1st Lieutenant Wm. P. Biddle, detached from the Marine Barracks, Brooklyn, N. Y., October 16 when 2d Lieutenant C. A. Doyen has reported, and ordered to report for duty at the Marine Barracks, League Island, Pa.

SEPT. 29.—1st Lieutenant F. L. Denny, granted leave of absence for fifteen days from October 1.

CASUALTIES.

List of deaths in the U. S. Navy for the week ending Sept. 30, 1886:

John Flanigan, seaman, U. S. S. Omaha, died July 22, at Shanghai, China.

William H. Brown, beneficiary, died September 23, at the Naval Asylum, Philadelphia.

NAVY DEPARTMENT,
WASHINGTRN, September 26, 1886.

G. C. M. O. No. 38:

I. Before a General Court-Martial, which convened at the Navy-yard, New York, August 27, 1886, and of which Capt. Charles S. Norton, U. S. N., was President, was arraigned and tried 1st Lieut. Otway C. Berryman, U. S. Marine Corps.

Charge—"Drunkenness on duty." Specification—"In this, that the said Otway C. Berryman, a first lieutenant in the United States Marine Corps, attached to and serving as such at the Marine Barracks, Navy-yard, Brooklyn, New York, was, while on duty as officer of the day of said barracks, on or about the fourth day of August, 1886, so much under the influence of intoxicating liquor as to be unable properly to perform his duty." To which charge and specification the accused, 1st Lieut. Otway C. Berryman, U. S. Marine Corps, pleaded "Not guilty."

Finding—The court, having maturely considered the evidence adduced, found as follows: The Specification of the charge, "Proved in part; proved except the words 'while on duty as officer of the day,' and the word 'his,' which words are not proved." And that the accused, 1st Lieut. Otway C. Berryman, U. S. Marine Corps, is, of the charge, "Guilty in a less degree than charged, guilty of drunkenness."

Sentence—The court thereupon sentenced the said 1st Lieut. Otway C. Berryman, U. S. Marine Corps, "to be suspended from duty and confined to the limits of the Marine Barracks, Brooklyn, New York, for three months, on half pay, and to be publicly reprimanded by the Honorable Secretary of the Navy."

II. The proceedings, finding and sentence of the General Court-martial in the foregoing case of 1st Lieut. Otway C. Berryman, U. S. Marine Corps, are approved, and he is accordingly suspended from duty for three months from this date, on half pay, and will, during that period, be confined to the limits of the Marine Barracks, Brooklyn, New York.

Lieutenant Berryman was charged with being so much under the influence of intoxicating liquor, while on duty as officer of the day, as to be unable properly to perform his duty.

The evidence in the case shows that, about an hour before Lieutenant Berryman's tour of duty expired, on the date referred to, he was, at his own request, relieved from duty, and that, within about half an hour after being so relieved, he was found so much under the influence of intoxicating liquor as to be unfit for the performance of any duty. His defence is that his use of alcoholic stimulants, on the occasion in question, was superinduced by an accidental fall. It would appear that the court gave the accused the benefit of the doubt as to the exact time when he reached the condition in which he was thus found, and therefore acquitted him of the graver offence of drunkenness on duty, and convicted him of the lesser one, drunkenness only.

The narrow escape of Lieutenant Berryman from a conviction of the offence charged against him will, it is believed, serve as a warning to him to avoid, in the future, a repetition of his offence, which might subject him to a sentence of much greater severity than the one imposed by the court in the present case.

DAVID B. HARMONY,
Acting Secretary of the Navy.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Sept. 20, 1886.

The Court-martial which has been in session at Naval Academy two weeks investigating charges of alleged hazing among cadets has been concluded so far as the cases against Cadets Fife and Clinton are concerned, and the record of proceedings forwarded to Washington for the approval of the Secretary of the Navy. Dismissal from the academy is the punishment for hazing. The testimony against Fife and Clinton also implicated Cadet C. M. Bunker, of the third class, who, it is said, will be tried by Court-martial when he returns from leave.

Eleven candidates reported at the Naval Academy Sept. 27 for admission as naval cadets. The re-examination of cadets who were deficient at the June examination began Sept. 28.

Mr. Arthur N. Brown, of Boston, Mass., has been appointed assistant professor of English studies, to do duty as librarian at the Naval Academy, in place of the late Prof. Thos. Karney, and Mr. Charles R. Sanger has been appointed professor of chemistry, vice Prof. Chas. E. Munroe, resigned.

Wm. Chappell, an enlisted man at the Naval Academy, who pleaded guilty before a Court martial to the charge of assaulting Joseph Rogers, a mate in the Navy, was taken to Brooklyn, N. Y., to-day in charge of Sergts. Hart and Brean, of the Marine Corps, and delivered to the authorities at the Brooklyn Navy-yard. The court recommended two years' imprisonment.

John V. Chase, of Louisiana, and George S. W. Williams, of South Carolina, have passed a successful examination for admission as naval cadets.

The Academy reopens on Friday. John V. Chase, of Louisiana, and George S. W. Williams, of South Carolina, have passed a successful examination for admission as naval cadets.

(Correspondence of the Army and Navy Journal.)

TWO YEARS' CRUISES.

U. S. S. IROQUOIS, 3D RATE,
GUAYAQUIL, ECUADOR.

I FIND in the JOURNAL, of August 7, the announcement, that it is believed to be the intention of the Department to follow out the German system of two years' cruising. This would, I think, meet with very general approval throughout the Navy, both from officers and men. The custom of keeping ships on one station for three years or more is unfair. Remaining on the same coast for such a length of time (especially when the same class of scenery continually presents itself), becomes monotonous in the extreme.

For example, take the Pacific Station. There are very few ports where liberty can be given, and fewer still where an all night one is allowed. The principal liberty ports are Payta, Callao, Coquimbo, and Valparaiso. Of these places, perhaps, Payta is the most healthy, but there being little accommodation, all night ashore is not allowed. Every person who knows anything of South America, knows what there is for a man-of-wars-man to do, and what class of recreation he must expect when ashore there. There's absolutely nothing for him to occupy his mind with, unless it is to walk or ride out knee deep in sand to the cemetery (pardon me for calling the place by such a name), and visit the last resting place of some shipmate, and return on board by sundown, covered from head to foot with sand, and having been bitten to death with fleas.

Callao is more lively, and a better place altogether, as from there he can proceed to Lima by rail; his eyes become relieved with the sight of surrounding green fields and trees, of which Payta is entirely destitute. At night he could remain in Lima, and visit one of the theatres, for a while imagining he was back in civilization again, drinking in the strains of "Boccaccio" or "Carmen." But, unfortunately, it happens there's always a yellow fever or a small-pox scare, and an all night on shore is not generally allowed, though to my mind I fail to see why a man should not be just as liable to contract disease in the daytime as at night. You proceed down the coast (which, by-the-bye, is the most desolate and barren in the world), and arrive at Iquique. Here you may get an all night if fortunate, but there is very little to occupy the mind, and no scenery to revel in. From thence to Coquimbo, a healthy port, provisions plentiful and cheap, climate fine and exhilirating. Here, where the all night liberties are given, there is again nothing to occupy the mind. Unfortunately, like most sailor towns, there are plenty of human vampires, in the shape of unprincipled saloon keepers, who infest the place, who are willing to, and constantly do rob Jack of his hard earned money, and afterwards kick him into the street. This is Coquimbo, a place where the greatest amount of liberty is given. Valparaiso and Talcahuana are a trifle better, but only a trifle, and it is not frequently one gets as far south as these ports.

Compare a station as described above, with either the European or Asiatic, and the fairness of the proposed system of cruising is patent to every one. Take this ship in particular. She is as good as any of her class in the Navy, clean and dry, and one that always makes a good record, both with steam and sails. (See last run from Payta harbor to mouth of Guayaquil river, where she averaged 9.7 knots with four boilers and very little wind; greatest run per hour 11.0 knots, lowest 8.1 knots.) She has as smart a crowd of officers and men as ever put foot on a deck, as official inspection records prove, being kept on a coast like the above for upwards of five years. True, a number of time-expired men have been sent home, but still a number of men ship over, simply because they become attached to a ship in precisely the same manner as a family become attached to a house they have resided in for a length of time, preferring it not so much for the locality as for its convenience and association. If the two years' cruise system comes in vogue, this ship would probably be one of the first ordered from this desolate coast, and such an order would be hailed with the greatest delight by all hands.

"NEPTUNE."

BLACK STARR & FROST

SUCCESSORS TO

BALL BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

DIAMONDS AMERICAN AND FOREIGN, WATCHES, JEWELRY, STERLING SILVER AND PLATED WARE, FRENCH CLOCKS, BRONZES AND FANCY GOODS.

BLACK, STARR & FROST have models of the West Point Class Rings for many years, and can supply duplicates (in case of loss) at short notice.

CHOICE OLD WHISKIES,

MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Old Reserve Whiskey, - - - - $18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

☞ If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi river; and by freight to any part of the U. S. (prepaid.)

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guarantee to give PERFECT SATISFACTION; otherwise to be returned at our expense.

SUNDAY IN THE ARMY.

WE are in receipt of several letters expressing most cordial approval of our article of September 18 on "Sunday in the Army and Navy." One officer says: "I believe you express the best and majority sentiment of the Army in what you say respecting Sunday observance. The weight and influence of the JOURNAL will command respect and attention, and the final outcome of the agitation and discussion I firmly believe will result in the establishment of your position. I hold that freedom from all work and duty, except necessary guard and police, on Sunday will be in the interest of good order and military discipline. I never saw the order of President LINCOLN before on this subject, and I am very glad you incorporated it in your article for the benefit of all who have entered the Army since its publication."

Another Army officer of long service and large experience, whose position gives him exceptional opportunities for learning the actual condition of the Service, says: "One trouble about helping on 'the poor honest soldier' seems to be that the things that benefit or demoralize him seem apt to be treated by authority as too insignificant or uninteresting for discussion or action. Regular, steady improvement, or, if some prefer to thing of it so, occasional improvement, satisfies my appetite. So I find some content in our musketry; and in the greatly improved 'C. C. and G. E.' now issued; and in forbidding the sale of ardent spirits at posts; in the improvement in hospitals and barracks, even to bathing facilities; the wise and considerate retirement of enlisted men; and, of course, in our established faithfulness, efficiency, and merits. Any discontent with scribbled over check books, pay day sprees, infrequent pay, guard-house vermin, Sunday morning inspections, no buttered potatoes, ignorance of heavy marching kit or weapons of 'cold steel,' poor bodily or mental training enforced, unequal fare, excessive desertion, insufficient quarters, no headstones, undistributed extra duty pay, civilian appointments, sluggish promotions, promoting deficients, light artillery material, improper infantry organization, wasting our tactical colleges, widows' pensions, etc., must find something like an universal howl if words are to bring improvement. I have put in a word on the lot, and was glad to see in your last a blow straight from the shoulder anent Sunday work; and I hope you will give them the necessary iteration, especially now, when the official mind seeks themes, and again when Congress tries its sea legs on our military ways."

A third correspondent writes:

The many lovers of a quiet Sabbath, in the Army, who may chance to read your editorial, "Sunday in the Army and Navy," will, one and all, thank you for it, and hope that it may be productive of a much needed reform in the matter of Sabbath desecration. The fact cannot be gainsaid, that while there are posts in the Army in which the day is properly observed, there are also others where it is totally ignored, or if any difference is made, it is by crowding into its hours as many of the forms and ceremonies of military life as they can well contain. At some posts it is the only day when all the ceremonies that can add to a guard mounting are included in it. At others it is the only day on which a dress parade is held. In many, it is the day chosen by the commanding officer for a general inspection of all the departments, including stables and corrals, and all the officers of the garrison are required to attend him on his rounds. In some garrisons courts and and boards are expected to hold sessions as on other days, and, instead of being a day of rest, it is a day devoid of that boon.

Unless it be for the bi-monthly muster, or in a preparation for an urgent campaign, it may be safely stated that there are no occasions where any ceremonial observances, or any unusual labor, is necessary on that day. Many of us think that the fourth commandment is not obsolete, and while we desire "to meddle (as Cromwell had it) with no man's conscience," we ask for ourselves a similar freedom, and that we be not obliged, by the order of one who "cares for none of these things," to do violence to our own. The proclamation of President Lincoln, which you reprint, was issued at a time when all the Christian people of the land felt the great need of Divine aid, and had a corresponding desire to not provoke wrath and condemnation. We should not be more Godless now. You say: "We are not advocates of a puritanical observance of the Sabbath." With that sentiment many of your readers will agree, as they do with the others of the same paragraph. Why cannot we have a reissue of President Lincoln's proclamation, embodied in an order from Headquarters of the Army, forbidding labor, parades, etc., on that day, unless in cases of *imperative necessity*. Such necessity would be apparent to every one, and those who conscientiously endeavor to hallow the day would not feel a twinge of soul in obeying the orders of a commander, obliged by force of circumstances to order labor performed in such instance.

If the officer or soldier desires to ride, drive, hunt or fish, for his own pleasure, on that day, that is for him to decide for himself. Only let us who desire to enjoy its hours in quiet have that privilege.

ENGINEER-IN CHIEF LORING returned to the Navy Department on Wednesday from New York, where he arrived on board the *Atlanta* on Monday last. To a JOURNAL correspondent he gave the following account of the recent trial trip of that vessel: She left Newport after having her compasses adjusted on Sept. 22, and from that date until the 25th was run up and down Long Island Sound, frequent stops being made to cool off heated bearings. This in all cases was quickly done with a free use of olive oil, until the run on Saturday, when the thrust bearing became heated to such a degree that it was found impossible to accomplish the six hours' consecutive test of speed, and it was accordingly decided to run into New York to make certain alterations in the connections of the thrust bearing. The difficulty is regarded as of no particular consequence. It is due entirely to an imperfect manner of lubricating, and the trouble once ascertained can soon be remedied. The longest continuous run was for three hours when the average speed made was 14 knots. The maximum speed reached was 14.7 knots with a collective horse power of 2,800. The speed thus overreached the requirements of the contract, while the horse power fell below by 700, the specifications calling for 3,500. Since, however, the results obtained were accomplished under natural draft no fears are entertained about the vessel not coming up to her contract in this direction when the machinery is once perfected, so as to admit of the engines being worked under forced draft. As soon as the change in the thrust bearing has been made it is presumed that the vessel will start on another trial trip in Long Island Sound. Whether she will go to sea in search of a "storm" is a question yet to be determined by the Secretary. Mr. LORING is thoroughly convinced that with a few slight changes in the arrangements of the machinery, which suggested themselves during the trial, and with a corps of firemen who understand

their business, the vessel can be made to develop a speed considerably in excess of, and a horse power up to, the requirements of the original contract. He considers her in all respects a perfect vessel of her kind. Officials of the Naval Ordnance Bureau are very much pleased with the performance of the *Atlanta's* 8-inch gun and carriage, which were tried at Annapolis last week, and anticipate still better results with the gun when DUPONT has been able to furnish the powder which his firm is making specially for this purpose. The results we published last week were produced with the German cocoa powder. Several of the rounds were fired with DUPONT'S powder, which was made for the 6-inch guns, and gave results nearly equal to those by the German powder. There was very little recoil, and the strain upon the gun was slight, even when the heaviest charges were used. The carriage functioned splendidly.

THE "Century" for October has a very interesting account of STONEWALL JACKSON'S last battle and the circumstances attending his death from the fire of his own men. It is written by Captain JAMES POWER SMITH, who was with him at the time. This is followed by personal reminiscences of JACKSON, by MARGARET J. PRESTON. The "Memoranda of the Civil War" contain a "Rumor from Shiloh", and a reminiscence of JOHN L. COLLINS of the time when "STONEWALL JACKSON turned our right." GENERAL W. S. ROSECRANS furnishes an account of the battle of Corinth, which is prefaced by an admirable portrait of "Old Rosy" himself. It has portraits also of the Confederate General EARL VAN DORN and STERLING PRICE, of Col. W. P. ROGERS, C. S. A., and an excellent likeness of General DAVID S. STANLEY, U. S. A. We have also received this week a sketch of General STANLEY'S life and military service, prepared by Captain J. G. BALLANCE, of his staff, for a volume of biography. From this it appears that General STANLEY commenced life as a medical student, having attended a partial course of medical lectures previous to his appointment to the Military Academy in 1848 by the Hon. SAMUEL LAHM. It is stated that General STANLEY was the first to encounter the Indians formed in regular line of battle at Solomon's Fork in 1857, and that he also had the fortune to locate two of the Pacific Railroads. His war history is too well known to require recapitulation. As illustrating his qualities as a soldier, Captain BALLANCE says: "A characteristic incident, that occurred later in the war, is related of him by the colonel of a certain Ohio regiment, which illustrates his coolness under fire. The colonel was in advance on the skirmish line with his regiment, and as the bullets were flying very thick, the colonel and his command were behind trees and such other objects as would afford them protection. STANLEY, who was in the front line near him, asked him for a drink from his canteen, which was handed him, and in plain view of the enemy. As he started to raise it to his lips, a bullet struck the canteen and tore off part of it. STANLEY deliberately turned it up and drank from the opening thus made, and handed it back to the owner as unconcernedly as if he were taking a drink in his own dining-room."

A. ARTZICHEVSKI in "some reflections upon the organization and the actual state of the Russian cavalry," which appear in the *Vorenzi Sbornik*, incidentally discusses the role of cavalry in modern warfare, and the fundamental conditions which are essential to its success. At the outset he combats the idea which, as he says, has been adopted by many, that this powerful arm will not in contemporary wars play an independent part of any value, because of the increase in range, rapidity and precision of the fire of the weapons of the other two arms of the service, the infantry and artillery. Recent campaigns have shown that good cavalry may in our day render service as great, if not greater, than ever before. At the same time it follows from the study of these campaigns that, outside of the service of reconnoissance, cavalry will prove nearly useless, unless it satisfies the new exigencies of war, and is commanded by leaders who understand its proper employment. If a good chief is important to other arms, he is absolutely indispensable to the cavalry. Leaders full of initiative, ingenious, decided and energetic, are needed, not only because of the essential nature of cavalry but also because of the situation in which a chief of cavalry finds himself in time of war. An apathetic officer, however well-instructed, is use less as chief of a troop. In the hands of such a commander the best troop becomes immediately in capacitated. A good cavalry leader, besides being well-instructed, needs to be full of life, energy and love of his profession, and never oblivious of the fact that the manner in which he performs his duty will have the greatest influence upon the troop. It is often said of a cavalry commander that "he is capable and energetic, that he rises early, is active, and may, perhaps, be good in time of war, but he is unbearable in time of peace; he rasps the nerves of his subordinates." "Personally,' says ARTZICHEVSKI, "I hold to the opinion that a commander who is lazy, apathetic, and sluggish is no less harmful in time of peace than in time of war, and if the only choice is between the two, it is better to select the chief who may, during peace, disturb the nerves of his subordinates but does not disorganize his troop and unfit it for war service. The importance of the role of cavalry has been," he adds, "shown when it has been directed by competent chiefs—'by bold cavaliers like MURAT, SEYDLITZ, DOROKOW, DAVIDOW, FRIGNER, etc., and in our day, STUART, SHERIDAN and others.'"

THE *Army and Navy Gazette* finds encouragement for those who believe in a National Ordnance Factory in the recommendations of our Gun Foundry Board and Secretary WHITNEY'S action in carrying out its suggestions, by appropriating the Washington Navy-yard for on ordnance factory and arsenal. It also thinks that Admiral SIMPSON'S paper on Dockyards and Navy-yards and Mr. HICHBORN'S report, will attract attention to our pressing need for an extension of Government docking facilities. The *Gazette* says:

> The efforts which the citizens of the United States are making to extend and increase their effective measures of defence by sea cannot but find a responsive echo on this side of the Atlantic. We are not among those who consider these efforts to be inimical to the interests of this country, for we feel that the stronger the united naval forces of the Anglo-Saxon races are made the better and surer in the future, as in the past, is the insurance for the advance of civilization and peace. Secretary Whitney undoubtedly deserves great credit for the reforms he has initiated and carried out in the Navy Department; but it is more than probable that his period of administration will be best remembered as the birthtime of a reconstructed navy, of a national ordnance factory, and of a comprehensive attempt to organize defensive measures for the United States coast-line. To a nation on the look-out for naval allies, the United States at the present moment offers but a poor prospect. She has not a man-of-war, either in commission or ordinary, which could be classed otherwise than obsolete when compared with the warships of European and many of the lesser Asiatic and South American powers. After having during her great struggle given us in the *Monitor*, *Alabama* and various primitive essays at torpedo manufacture the germ of the ironclads, the cruisers, and the torpedo-boats of the present day, she has failed to improve upon the ideas which her inventors germinated, and has been content to exist in a state of naval stagnation which no other maritime country could have contemplated without apprehension and dismay. The determination to protect native industries prevented also the purchase of such missles as the Whitehead, at the same time that American inventors appear to have failed to build a torpedo to equal it; so that at this date, with the exception of a few second-class monitors of no speed and inconsiderable armament, she hardly possesses a vessel which could hope to cope with anything afloat superior to a second class corvette. However, this is about to be entirely changed, and if the patriotic aspirations of the Americans are realized, 1890 should see the States with a naval force, small in numbers, perhaps, but second to none in the excellence of its types and the arrangements for its speedy development and increase. Moreover, not only will the armament of her fleet, but the steel plates with which her vessels are built and protected, and possibly the machinery for their propulsion, be produced by native ingenuity and labor.

SOME asinine writers for the daily press are exerting themselves to show that the ARMY AND NAVY JOURNAL is antagonistic to General MILES. Precisely what their motive is, or what they are seeking to accomplish, we do not understand. They have not been able to quote a single line of editorial reflection upon General MILES, and they studiously refrain from quoting our cordial approval of his vigorous action in Arizona, and our earnest commendation of the zeal and ability displayed by the officers and men under his command. They confine themselves to citing passages transferred occasionally from other columns, in accordance with our uniform custom of informing our readers of what is being said of the Army by the secular press. It is well for the Army to see what is said about them outside, but if we were to stop to correct every misapprehension and misstatement which appears in the writings of those enterprising and imaginative youths known as "reporters," we should absorb the time which we now devote to more profitable occupations. Not that any occupation in itself would be more useful than that of educating some of our contemporaries to a proper appreciation of the dignity and responsibilities of their profession, but we fear that the attempt would be a failure and the time devoted to it wasted.

WHEN the "youngsters" of the Army, who suffer from the consciousness of budding genius repressed, find themselves too heavily sat upon by superiors who "fit into the war," they may console themselves by recalling what RUCHEL said in 1805 to MASSENBACH: "I was myself a major general and a chevalier of the red eagle when BONAPARTE was only a lieutenant of artillery." This is the General RUCHEL who declared, it will be remembered, that "if NAPOLEON should take service in Prussia they might make a passable corporal of him."

GENERAL MILES has made no special report on the recent campaign in Arizona, resulting in the surrender of GERONIMO. What he has to say on that subject is included in his annual report just received by the War Department. In it he states that the surrender of the Apaches was made subject to the stipulation that they should not be turned over to the civil authorities for trial and execution, and that they should be saved from this by hurrying them out of the territory. The greater portion of the report is devoted to an account of the pursuit of the Indians since General MILES relieved General CROOK, and in it is set forth a statement of the difference between his campaign and the one that preceded. In the one case Indian scouts were relied upon; in the other the troops were employed, a few Indians being used as trailers. But we can speak more definitely as to this when we see the report. It was on Thursday submitted to the President by the Acting Secretary of War, General DRUM, and will probably be considered in Cabinet meeting before being made public. The dailies of Friday contain despatches from Washington stating that the conditions attached to GERONIMO'S surrender are proving a source of embarrassment; that he was hastened out of the jurisdiction of the civil authorities of Arizona so rapidly, in violation of the orders of the Department to convey him, if captured, to the nearest military post. It is added:

> It is admitted in Army circles that General Crook long ago could have secured Geronimo upon exactly the same terms upon which he has surrendered to General Miles, and have saved the life of Captain Crawford and the expense of the last campaign. The question before the Cabinet now is what to do with Geronimo and what to do with General Miles. The latter seems not to have obeyed orders.

FOR some months the rumors of a large Turkish contract for small arms have been current. A few weeks ago the cable reported the appointment of a commission by the Porte to purchase 400,000 magazine rifles in the United States. The *Broad Arrow* reports that an agent of the Ottoman Government has visited Birmingham with the view of arranging for the supply of 40,000 Remington rifles for the Turkish Army. This reported purchase assumes the existence of a special plant in that city for that model. We know that thousands of Remington systems have been in years past shipped from this country for assembling, and that slight changes of chamber, necessitated by the use of a particular cartridge, have been made in one lot by Birmingham shops, but we doubt the present capacity of any armory in England for the production of a Remington rifle complete. Orders for small arms, of whatever model, will naturally come to the United States. In our great private armories we have perfect plants for the production of at least four of the best systems, and but small addition in the way of special tools would be needed to turn out rapidly any particular style of conversion of the bolt-gun used by European nations. The armory at Ilion, so long controlled by the Remingtons, has a larger possible capacity to-day than any other, private or public, in the world, and an out-put could be reached, if emergency demanded it, in a few months, only surpassed by that of the three German armories together. The great product of the Ilion armory when at work is the Lee magazine rifle, an output of 400 to 800 stand a day being soon attainable. The failure of E. Remington and Sons in the early part of this year has, during this interval, embarrassed the operations of the armory, limiting them in fact to the completion of unfinished product. It is very much to be regretted that at a time when orders in large quantities are more likely than at any period since 1877-8 to come to this country, the energies of this great industry are crippled. No enterprise has better mechanical resources or a more extended reputation, and none that we know of, liberally organized and managed

upon business principles, possesses greater certainty of a permanent and profitable future. On August 18 a meeting of the creditors, convened at Ilion, received the report of a committee previously appointed for the purpose of formulating a plan for reorganization. We are reliably informed that a majority of those interested are disposed to co-operate with the gentlemen who have the matter in hand, and that there is reasonable ground for confidence that under new and wise control the great workshops may soon again resound with the hum of remunerative labor. It is very important that this consummation be properly reached there being strong likelihood of large demands upon the military capacity of the armory within the ensuing twelvemonth.

JEFFERSON DAVIS publishes a reply to General Sherman's report to the War Department, stating that during the War he discovered documentary evidence that the Rebellion was the result of a conspiracy on the part of Davis and others. The reply, which is too long for publication here, is full of venom. Sherman is charged with disturbing the public harmony more than twenty years after the War had closed by "making a gratuitous and gross assault upon a private individual, living in absolute retirement, and who could only have attracted notice because he had been the representative of the Southern States which, organized into a Confederacy, had been a party to the War." Mr. Davis repeats the statement, made in his reply of November 6, 1886, saying:

> The allegation of my ever having written such a letter as is described is unqualifiedly false, and the assertion that I had any purpose or wish to destroy the liberty and equal rights of any State, either North or South, is a reckless, shameless falsehood, especially because it was generally known that for many years before, as well as during the war between the States, I was an earnest advocate of the strict construction 'State rights' theory of Mr. Jefferson. What motive other than personal malignity can be conceived for so gross a libel? If Gen. Sherman has access to any letters purporting to have been written by me which will sustain his accusation, let him produce them or wear the brand of a base slanderer.
>
> The conclusive proof which had come to light by denials from Senators of having received from me any such letter, and by their denying that they had ever heard any such opinions expressed by me, placed Sherman in a dilemma from which to advance involved further falsehood, and from which retreat was only possible with humiliation and disgrace. He selected the easier course, and went forward with falsehood attending every step. In his letter to the War Department of Jan. 6, 1885, he says he found my letter at Raleigh, N. C.
>
> But in all its travels no other person but Sherman saw it; not a single officer at any headquarters has been produced who read it, and it passes belief that in the excitement of the closing days of the war, and during my imprisonment, when every letter of mine was carefully examined to find evidence upon which to convict and destroy me, not an officer at all those headquarters should have read that letter. Every fair-minded man must, therefore, conclude that Gen. Sherman stated at the Grand Army Post a wilful and deliberate falsehood, and that his motive had its inspiration in that mean malice which has characterized his acts and writings in other respects toward the Southern people.
>
> I know nothing of any 'conspiracy' or of any "conspirators." There was no secrecy about any of the political affairs which led to the secession of the States in 1860-1. There was no possibility of any concealment. The people were advised by the press, they acted knowingly, and the results, through all their various phases, were necessarily known to the people, by whom they were ratified and confirmed. To talk now of conspiracy and conspirators is shallow nonsense.

The controversy with General Fry, as to the expression concerning General Grant, which appeared in a letter to Colonel Scott, of the War Records office, is cited by Mr. Davis against General Sherman. His letter is interesting as showing that our whilom Lieutenant of Dragoons, and Secretary of War, is still visiting the "glimpses of the moon," and is not wholly shut out from human sympathy and interest. We were in danger of forgetting that he had any relation whatever to the present era. So far as concerns General Sherman it is evident that, in the case of Davis, it is not altogether an "era of good feeling."

WE continue to receive reports of enthusiastic acknowledgments of the services of General Miles. The latest is in a despatch from Albuquerque, N. M., Sept. 29, saying: "The finest demonstration ever attempted in the Southwest was successfully carried out here yesterday in honor of General Miles and staff, including the famous Captain Lawton. In the afternoon there was an impressive street parade, in which the General and staff participated. The reception, ball, and dinner in the evening brought out a great number of the General's admirers. In his speech General Miles said: 'I have little patience with those who a short time ago said the hostile Apaches could not be subjugated, and since it has been accomplished they belittle the efforts of the gallant men by claiming that it was not performed in a proper manner, or that it was an easy task. Anyway, such unjust insinuations, if they have any weight, would rob worthy men of their hard-earned victory, and tarnish the laurels on the graves of the dead.'"

A CAUSTIC correspondent writes: "It would be little trouble to the big guns in Washington—and a great favor to the small fry out in the West—to give them some kind of notice (of change of station), as they do in the Medical Department; but they don't—the first thing a fellow sees is a telegram in the newspaper and he's fired, and away he goes."

THE *Army and Navy Gazette* says: "The account of the bursting of the Genoa gun this week was very comforting to 'the ring' who fondly believed at first that it was an 'Elswicker.' But we are glad to say the gun was neither made at Woolwich nor at Newcastle-on-Tyne, and that the peg which such a lucky accident would have afforded the panic-mongers cannot be driven into the press this time. The gun was of cast-iron, and it was strengthened with Krupp steel hoops, on the system so much in favor some time ago in France, and with the naval service of Italy. It was firing a charge of 187 lb. of powder, and a projectile of 760 lb. It blew its breech out, with the result given. The calibre of the gun was about 12·7 in. It appears that 'hooping' cast-iron guns, even with the best steel, is hazardous, and it is probable the days of all cast or wrought-iron guns, whether steel-tubed or hooped, are numbered, in consequence of the abnormal strains of new powders. The chase-hooping of the *Collingwood* guns must be watched and tested very carefully, as no doubt it will be."

ACTIVE preparations are going on at the Washington Yard for vacating the various departments mentioned in the Secretary's order of Aug. 14, 1886, and by the date named in that order the transformation into an "Ordnance Yard" will have been completed. However, the character and amount of work going on will not be perceptibly changed, for since the beginning of the construction of batteries for the new cruisers at this yard, nearly all of the machinery of every department has been engaged on ordnance work. The order will result in the discharge of about two hundred men, some of whom will be re-employed by the Bureau of Ordnance, after the shops have been altered to accommodate ordnance work, which will require some months. Some may also be provided for at other yards, and nearly all the clerks and laborers will be retained until the material on hand is packed and shipped to other yards. The order has not been modified further than that the Yards and Docks Department will not be molested, and Civil Engineer Menocal, who is in charge of that Department, will retain his residence and continue on duty. Some necessary unfinished work in the Steam Engineering Department will be completed.

LIEUTENANT W. R. HAMILTON, 5th U. S. Artillery, is contributing to the Chicago *Current* a series of interesting articles on "The Army and the People." Referring to "the natural prejudice of the people to the Army," Lieutenant Hamilton well says: "It can be changed. The Army, as the promoter of peace, of national security, should be an educator for the entire country, and as devotion to a single profession or study is narrowing, it should be an education of the broadest foundation that it gives to the country. Culture of the intellect, love of country, devotion to order, fidelity to duty, obedience to law, a continual striving for improvement—in this way and in no other can the influence of professional soldiers become so predominating that the people will recognize and yield to it."

IN answer to an inquiry in the British Parliament as to how many 100-ton guns had been purchased by the War Department for the army, and when; the position of those guns; the place of their manufacture, and at what cost they were supplied, Mr. Northcote said four 100-ton guns manufactured at Elswick were purchased in 1878 by the War Department for the army, at a cost of £16,500 each. Of heavy guns actually in use in the army and navy during the last five years, five had burst and two had become unserviceable for the time being by the cracking of the tubes.

$7,676,399,054 was invested at the beginning of this year in the 128,969 miles of railroad in the United States, producing an annual revenue of $772,568,833, or a net revenue of $269,493,931, or 3½ per cent. on the investment with working expenses for 1885 amounting to $503,074,902. There were added to this during the first eight months of this year 3,500 miles of main line besides probably as much more of side track and extensions not reported.

LIEUTENANT W. G. ROSS will contribute to the November "Harper" an illustrated article on our Revenue Service, entitled "Our Coast Guard." With the growth of the United States in population and commercial wealth the Revenue Service is rapidly increasing in importance, and in many ways worthily supplements the Naval Branch of the Government.

THE Lighthouse Board at its meeting last week agreed upon the limit of the two new districts authorized by Congress at the last session. Lake Michigan and Green Bay will be taken from the old 11th District, and will hereafter be known as the 9th, and the new 16th District will comprise the territory between Cairo and the mouth of the Mississippi.

WE have before us a copy of the *New England Weekly Journal*, "Number LV.," published one hundred and forty-eight years ago, on Monday, April 8, 1728, in which we find the following announcements:

> Mr. Nath. Pigott intends to open a School on Monday next, for the Instruction of Negro's, in Reading, Catechizing, and Writing if required. If any are so well inclined as to send their Servants to said School near Mr. Checkley's Meeting-House, care will be taken for their Instruction as aforesaid.

> The Nature and Necessity of Repentance, with the Means and Motives to it. A Discourse occasioned by the Earthquake. By the Rev. Mr. John Rogers, Pastor of the Church in Boxford. Sold by S. Gerrish in Cornhil Boston.

The last advertisement shows that earthquakes are no novelty in this country. The paper also contains the following news item:

> The most violent Storm in Naples that ever was known, has Destroyed Houses, Bridges, Men, Women and Children in great numbers, out of 500 Inhabitants in one village only six Escaped.

A PARIS despatch of Sept. 29 says: "Gen. Boulanger desiring to secure from the Government an appropriation of $25,000,000 for new explosive bombs recently invited the Budget Committee to witness the experiments he was carrying on in private. The experiments were made with a monster mortar designed as a type for the destruction of fortifications. The missile thrown explodes with exceedingly destructive effect. It is charged with a new explosive, of whose composition Gen. Boulanger and his associates alone possess the secret. The compound, however, is admitted to have all the powers of gun cotton, with none of its defects, and is said in addition to be easily transportable, and to be free from liability to spontaneous ignition. It is stated that the Budget Committee were not only highly satisfied and pleased with the results of the experiments, but promised to fully support Gen. Boulanger's demand for the large special appropriation."

THE lecture before the Naval War College on Staff Duties, from which we quoted last week, was by Lieutenant Charles C. Rogers, (junior grade). The lecture by Lieutenant Meigs on the subject of "Naval Gunnery," was well attended, and is described as among the most instructive and valuable of any that have been given during the present course. During the afternoons, the lectures have been supplemented by practical exercises with the three-inch breech-loading rifle, illustrating methods of determining the point of impact of projectiles fired at different degrees of elevation and the use of the plane table in connection therewith. The present course will continue until about Nov. 15 or 20.

THE regular annual practice with heavy guns at the forts in New York harbor, was opened on Monday by Day's battery, M, 5th Art., followed by Van Reed's, B, at Fort Wadsworth, and Beck's, A, and Morris's, C, at Fort Columbus. The practice will be continued during the season on all favorable days, taking the different batteries in turn, all practicing at Fort Hamilton, which has all suitable facilities. The practice at Fort Hamilton is superintended by Col. John Hamilton, and that at Fort Wadsworth by Lieut.-Col. H. W. Closson. The practice on Wednesday by Morris's battery was effective and interesting, and a good specimen of the artillerists' skill

A CORRESPONDENT of *Engineering* furnishes a statement of the defects of Atlantic passenger steamers for use as armed cruisers; first, the vulnerability of their steering gear, engines and boilers, auxiliary steam pipes, etc.; next, the position of the water-tight bulkheads. Also their chronic state of "list," caused by burning so much coal, combined with their height of free-board and comparatively narrow beam. Their ramming power he considers as zero.

ACTING SECOND COMPTROLLER MCMAHON decided in the case of Captain Ames H. Bradford, 19th Infantry, that a foot officer cannot draw pay of mounted officer when assigned to duty requiring him to be mounted, unless mounted at his own expense.

THE Russian Government has decided to introduce obligatory military service into the Caucasus, limiting it first to the Christian population and making it optional with the Mohammedans to serve in a special corps or to pay a commutation tax.

THE New York *Sun* reports that the *Despatch* on Thursday, while coming through the Hell Gate Channel, New York, with a strong tide, collided with a coal barge and damaged her "shapely stern" above the water line.

GRADUATES OF THE MILITARY ACADEMY.

Since the organization of the U. S. Military Academy 3,095 officers have been graduated from there; of these 1,091 are now in the Service, 126 of them being on the retired list. The first graduate was Joseph G. Swift, of the class of 1802, that being the first class. It was composed of two members only, Simon M. Levy was the other member graduated that year. The former attained the rank of colonel and Chief of Engineers, the latter 2d Lieutenant of Engineers.

Of the class of 1823 Colonels Hannibal Day and E. B. Alexander, both retired, only, remain in the Service. There are no members in the Service of the class of 1824. Col. Washington Seawell, retired, is the only living representative of the 1825 class, in the Service.

Of the classes of 1826 to 1841, inclusive, covering a period of 16 years, there are 48 officers, all retired. These are:

General Sherman; Major-General Ricketts, Brigadier Generals Brice, Cook, Emory, Townsend, Marcy, Meigs, Wright; Colonels Cady, Clary, Dawson, Shepherd, Reeve, Granger, Cullom, Wallen, Bomford, Whiteley, Brooks, Roberts, Vogdes, Schriver, Van Vliet, Woods, Hagner, Flint, Brannan, Macomb, Howe, Tower, Thom, Hunt, Getty; Lieutenant-Colonels Chapman, Whiting, Sitgreaves, Gibson, Wessells, Montgomery, Wyse, Nelson, Prince. Majors Judd, Austine, Caldwell, Lynde, and Eaton.

Gen. Newton, late Chief of Engineers, until his recent retirement, enjoyed the distinction of being the oldest graduate in active service. He was second in the 1842 class. Major-Gen. Pope, his senior in years, was No 17 of the same class. Gens. Rosecrans, Registrar of the Treasury, was No. 5 in this class; Rains, D. H. Hill, Van Dorn, and Longstreet were also of this class. Of the class of '43 Brig.-General Joseph H. Potter is the only officer on the active list. Of those on the retired list we have:

Brig.-Gens. Rufus Ingalls and C. C. Augur. Cols. Wm. F. Reynolds, Jos. J. Reynolds, Henry F. Clarke, and Fred. T. Dent.

Major Whittlesey, retired, is the only living member in the Service of the '44 Class. Of the '45 Class we have left on the Retired List—Brig.-Gen. Thomas J. Wood, Cols. Geo. P. Andrews. Henry B. Clitz, John P. Hatch, William H. Wood and Thomas G. Pitcher.

Four officers on the active list and eight on the retired list remain of the '46 Class. Of the '47 Class 14 remain, one Brigadier General (Gibbon), 9 colonels active and two retired. Cols. Duane, Tidball and Dodge, on the active list, and Major Clark, retired, remain of the '48 Class. There are four brigadier-generals, four colonels, two lieutenant-colonels, two majors and one chaplain left of the '49 Class. The three latter are on the retired list. Eight officers are still in the Service, of the '50 Class, one brigadier-general (Macfeely), three colonels and one lieutenant colonel on the active list, and three on the retired list.

Ten remain of the '51 Class, all being on the active list. Of the '52 Class nine are on the active list and five retired. The senior West Point major in active service is of this class, Major J. P. Hawkins, Sub. Dept. Of the 53 members of the 1853 Class 13 remain in the Service, but one being retired. The gallant McPherson stood No. 1 in this class, Maj.-Gen. Schofield 7, and Lieut.-Gen. Sheridan 34. Confederate Gen. John B. Hood was No. 44 in this class. An even dozen remain in active service of the '54 Class, and a baker's dozen if you add Lieut. Col. Brotherton, retired. G. W. Custis Lee headed this class, Abbot, of the Engrs., was second, Gen. Thos. H. Ruger third, and Gen. O. O. Howard, fourth. John F. Greble, who was killed at Big Bethel, June 10, '61, was of this class; also Jeb Stuart. Of the '55 Class we have eleven in service, including two on the retired list. Sixteen remain of the '56 Class, six being retired. Eight, all of them on the active list, remain of the '57 Class. Of the '58 Class but five remain, Lieut.-Col. Van Horne, and Majors Bell, Carey, Frank and Miller. The 1859 Class was the smallest since that of 1817, consisting of only 22 members. Seven of them remain, one being retired. Thirteen are left of the '60 Class, one retired. Twenty-four remain of the '61 Class, four retired; 17 of the '62 Class, 2 being retired; 12 of the '63 Class, one retired. 14 remain of the '64 Class. All the members of this class have been promoted above the rank of 1st lieut. with one exception, Wm. Ennis, 4th Art. The Class of 1865 consisted of 68 members, being the largest graduated up to that time. Of that number 32 remain in service, 10 have the rank of major, and 22 the rank of captain. Three of the captains are on the retired list. Twenty-two remain of the '66 Class, two captains being retired. Of the '67 Class 33 remain, all on the active list: 12 have reached the rank of captain and 21 are still 1st lieutenants. Twenty-six members remain of the 54 graduates in 1868, and 21 of the 39 graduated in 1869. The members of the 1870 Class range from a colonel (professor at West Point) to a corporal in the Cavalry arm of the Service. All graduates down to and including 1875 (with a single exception, 2d Lieut. Gustin, 14th Inf.,) have risen above the rank of 2d lieutenant. One of its members, Major George R. Smith, Pay Dept., has attained the grade of major, thereby ranking all graduates of the previous ten years, excepting four professors at the Military Academy. The graduating class of 1877 had 76 members, the largest number in the history of the Military Academy.

CAVALRY HORSES.

A *Mail and Express* reporter has been interviewing a cavalry recruiting sergeant, who informs him that "most of our cavalry horses are lost on the plains in the West. No one here East can conceive the rigor of our Western military duties or the hardships they entail for the soldiers and their beasts. We suppose that the great West is teeming with verdure and forage, whereas the fact is that in very many tracts of country scouting parties are compelled to ride for a week or more, at the rate of perhaps fifty miles a day, with no grain for their horses and very little grass by the way. A general scrutiny of the condemned Army horses would show that their retirement from the service is due more to starvation than anything else. Very often the trooper's horse drops in the ranks from sheer exhaustion, and others are so badly used up that they never recover from the privation and fatigue, and are finally condemned for use in the field and shipped to recruiting stations, where they answer much better even than green horses for drilling recruits."

DEFENCE OF SEA COASTS.

The last number of the "Journal of the Royal United Service Institution" contains a paper by Rear-Admiral W. Arthur, C. B., on the "Defence of the Coasts of England, Ireland, and Scotland," in the course of which he says:

Much, however, has already been done and is being done for the defence of first class commercial ports.

As regards the number of guns mounted on shore, two might be considered sufficient if they covered the whole of the torpedo ground. If it were not for the expense, forts built in the water near the main channel would be in the best situation for defending submarine mines and utilizing electrically steered and locomotive torpedoes.

There are good specimens of these in the circular forts at Spithead, and in the more elaborate and expensive structure being erected for defending the narrow approach to the town of Baltimore, U. S. A. In both of these cases the forts are protected by iron plates, and may be made practically impregnable against horizontal fire, as there is no limit to the thickness of iron such a fort can be made to carry—I say "made to carry" advisedly, as they have not hitherto invariably succeeded in carrying their armor; one of the Spithead forts having been abandoned from the foundation giving way, and about 40 yards of the fort at Baltimore having to be reconstructed for the same reason. This, however, is merely a question of construction, and I would suggest smaller forts, with a concrete base twice as large as the foundation of the fort.

Any fort, however, built in the water must be expensive, and where a projecting point of land is available, a two-gun earthwork of sufficient strength to resist the fire of the guns of any vessel likely to be used for the purpose of attacking such a position would be cheaper and nearly as effective: remarking that in some of the American earthworks designed for this purpose, a thickness of parapet of not less than 60 feet is deemed necessary, and the guns are mounted on disappearing platforms, a form of fire coming rapidly into favor in England.

I would now try to impress on my hearers the advisibility of constructing torpedo-boats capable of almost total submersion, having a cupola of only four or five feet in diameter exposed to the fire of the enemy when at deep draft, the cupola having sufficient thickness of metal to neglect the fire of machine-guns; the light draft speed should not be less than 20 knots, the deep draft speed would probably be about 14 knots, at which rate, with her small exposed surface, she might risk the fire of the heavy guns of the enemy. Such a boat would be armed with a Whitehead torpedo discharged through the point of the bow, or else with an Ericsson torpedo of small diameter, discharged from the same position, and capable of penetrating a torpedo-net. This boat might discharge its projectile at a distance of not less than 20 yards from the enemy, without being involved in the effects of the explosion. This I may add would not be the case if she were a submarine boat, immersed even five feet below the surface. For some purposes, however, the power of total submersion, as with the Nordenfeldt boat, would have its advantages, such, for instance, as her capability of firing under the net, a power she would have to exercise with considerable caution and at no slight distance off, otherwise she would be included in the area of explosion, as has hitherto been the case when submarine boats have succeeded in the destruction of their opponents.

Another drawback to submarine boats is the impossibility of seeing the enemy when under water, and the difficulty, under similar circumstances, of steering a compass course with sufficient accuracy to ensure finding her, if the object should be to attach a delayed action torpedo and retire. I have no doubt whatever that our gallant torpedoists will think nothing of these objections, and may shortly succeed in developing on the lines mentioned, or in some other form, the usefulness of this plan of attack.

As regards the guard-boats for the defence of submarine mines, it would be very desirable if life-boats could be constructed to carry machine-guns, in order that they might be utilized for this purpose. Of course this would necessitate propulsion by steam; and that steam life-boats have not already been generally adopted seems to many a mistake. For instance, where tugs are available they are used to assist the life-boat in getting to windward of the wreck she is required to assist. An objection might be raised as to delay in getting up steam, but with coil boilers such as the Herreschoff 48-feet steam pinnaces, which I sent from America five years since, steam could be raised in five minutes.

AN UNFORTUNATE FEATURE.

The Rock Island *Argus* of Friday, Sept 17, says: An extremely unfortunate feature at the Harper House last evening marred the proceedings of the Society of the Army of the Tennessee reunion, and to-day it has been the one topic of conversation everywhere in the city. From eye-witnesses to the affair, the facts obtained are these: As General Sherman was coming from the dining hall after the banquet, J. M. Beardsley, of this city, accosted him in an ungentlemanly and unbecoming manner, and in ferocious terms informed the General that he had insulted him in the banquet hall, and he proposed to resent it. The Major was not at all choice in his language and he heaped abuse upon the shoulders of the General that was horrifying to those within hearing, at the same time gesticulating in a threatening manner with his clenched fists. Major Connelly and others attempted to intercede, and finally after considerable effort succeeded in taking the Major to a room where he might calm his anger. Anxious to obtain the actual facts in the sensational affair, an *Argus* reporter called upon Major Beardsley this morning; he seemed willing to give his side of the story and related it as follows: "The programme which had been prepared for the banquet last night was to be followed by volunteer sentiments and responses. I was to have responded to a toast, which had previously been assigned to Gen. Sec. of Missouri, but prior to the banquet I had substituted ex-Gov. Fletcher, as he came from the same State as Gen. Sec." The Major then said that at the close of the toasts he had communicated a desire to prepare a sentiment, but was declared out of order by Gen. Sherman, and the General adjourned the banquet. The Major continued: "I met General Sherman in the hall, and said to him: 'General Sherman, you have insulted me; I am as good as you are, and I never was discharged for incompetency as a soldier. You have given me an insult, and I never allow one to be given me without its being resented, be it from God, man or devil. I was as brave as you in war—I fought as bravely for my country and I don't propose to be insulted by you.' That is the substance of what I said when I was pulled away by several citizens.'

Major Beardsley's conduct has been severely criticized upon the street to-day, and the general sentiment appears to be that he has allowed passion to overcome dignity and should openly apologize. The occurrence is keenly felt by all our citizens, who earnestly trust that this or any other misdoings will reflect only upon those deserving of it.

A LESSON OF OUR CIVIL WAR.

To the Editor of the Army and Navy Journal:

A lesson of our Civil War that would appear to be worthy of earnest consideration is the necessity for the perfection of a system of recruitment and organization of a large army in case of sudden emergency, and the most effective employment of our small regular force in leavening the whole mass and bringing it in the most expeditious manner into efficient shape. The deficiencies of our Regular Army in this respect led General Grant, while at Cairo in 1861, as stated in his memoirs, to give expression to the idea that "the Government ought to disband the Regular Army, with the exception of the staff corps, and notify the disbanded officers that they would receive no compensation while the war lasted except as volunteers." Such a radical measure would hardly be seriously considered, and among the objections to its adoption would be the deprivation of model organizations, whose influence and usefulness would be scarcely less valuable than the services of experienced and educated Regular officers, deprived of these their accustomed and perfected tools.

What, then, is the best manner of employing our Regular Army in the event of war so as to give its influence the widest scope and to derive the greatest amount of benefit from the military education and experience of its officers and the example and administration of its organizations, in every detail?

It is proposed to make the Army the framework for a force of considerable proportions and to organize a system that would be followed by the States, should a still larger force be required. It will be necessary only to set the example, for the Regular Army is always taken as a model and a guide in the organization of State troops, whether of volunteers or militia. No system of reserves as a recognized part of the military establishment in time of peace is contemplated in these suggestions, further than will be found in the National Guard organizations and the diffusion of military knowledge in colleges and schools, or by other means not distasteful to our people.

The efficacy of volunteers called into the ranks at a moment's notice to meet any emergency of war to which we may be subjected, appears to be an abiding faith against which it seems useless to contend and to which we must endeavor to conform as a condition of the problem to be solved, and we must concede that our great armies in the future will be made up in largest part of volunteers taken at short notice from the pursuits of civil life.

It was a notable experience of the war that regiments going into active service were rapidly depleted and seldom restored to sufficient strength for the most efficient service, but when new troops were called out new regiments were organized to go through the same process of dwindling away. The evils of this defective method were many and vexatious.

In the great military nations of Europe the fact that military organizations in war must have continually renewed vitality is recognized by giving each one, as it were, a root in a fixed locality. In fact, in the establishment of the depot system now generally recognized.

The permanent localization of regiments in our country will probably not be undertaken, nor is it certain that such a course would be desirable. It would, however, seem that the advantages of the depot system could be secured by assigning for the occasion, say, a regiment to a given locality and there establishing a depot battalion by detail from the regiment (which is supposed to have a three battalion organization), then fill up the regiment to the complement of a brigade by making each of its three battalions the nucleus of a regiment. Retain the organization of these battalions except as to promotions hereinafter provided and add two other battalions to each by enlistment. Thus a brigade of 3,600 men would be formed. The field brigade once filled the depot battalion would likewise be organized into a regiment from the ranks of which the field brigade would be replenished as occasion required, and its own ranks be kept full by enlistment.

The officers would retain their ordinary rank and promotion in the regular service; the colonel, however, would become provisional brigadier general and the four remaining field officers provisional colonels of the field and depot regiments. Four provisional lieutenant-colonels and 12 majors would be supplied from the captains and lieutenants, leaving 22 lieutenancies to take that many captaincies. The remaining commissions could then be filled by volunteer appointments. All enlistments for war purposes should be credited to the quota of the State in which made.

The brigade being formed promotions should take place according to seniority, except, perhaps, that the brigadier general should be appointed by selection: a newly appointed regular officer to take his place according to date as 2d lieutenant and remain in the line of promotion to provisional rank. The first battalion, however, should be officered only with regular officers and each retain its distinctive character as the regular battalion of the regiment.

Thus we would have got each regiment grafted in a given centre of population, a depot regiment stationed at the given locality, and a field brigade of three regiments, each regiment composed of three battalions of four companies each.

The Regular Army designation would be preserved by giving to the brigade the regimental number. Say, for instance, the 4th U. S. Inf. is thus mobilized, if you please, it would be known as the 4th U. S. Infantry Brigade, and regiments and battalions would be designated thus: 4th brigade, 1st regiment, 1st battalion; 4th, 1st, 2d; 4th, 2d, 3d, etc. The regular companies would retain their designating letters and first battalions would be composed.

The most powerful engine in the world is in the zinc mines at Friedensville, Pennsylvania. It is fed by sixteen boilers and it is of 5,000 horse-power, while by doubling the number of boilers double that force can be obtained. Each revolution of its wheels throws up enough water to fill a good-sized pond, and it raises 17,500 gallons of water. For seven years it remained idle; but in March last it was again set in motion, and has since been going day and night. It consumes 28 tons of coal a day, and its ordinary speed is seven revolutions per minute, though that number can be doubled. The flywheels are 37 ft. in diameter and weigh 40 tons each.

JACKANAPES.

The style of goody-good story book, once distributed by tract societies and other organizations for moral and religious improvement, is no longer in vogue, and the child of the period has such a mortal antipathy to stories that he suspects of having a didactic purpose that it is hard to inculcate right principles in the old way. There is a new and a better way, and that is by enticing the young with such charmingly drawn pictures of the normal and healthy manifestation of high principle in noble action that the most unreasoning have their thoughts turned in the right direction. Two such stories we have in mind, and we are sure that we are doing a favor to those not already familiar with them by calling attention to them here. One of these, Mrs. Francis Hodgson Burnett's "Lord Fauntleroy," has been made known to so many by its publication in the pages of the "St. Nicholas Magazine" that it hardly needs mention here. The other, perhaps less widely known, is the story of Jackanapes, by Juliana Horatio Ewing, reprinted by Roberts Brothers, Boston, from the English edition, with illustrations by Randolph Caldecott. The date of Mrs. Ewing's story is the early part of the century, when Napoleon was in his glory. The characters who first appear are the village sexton, "who would be ninety-nine come Martinmas, and whose father remembered a man who had carried arrows, as a boy, for the battle of Flodden Field;" big Miss Jessamine, and her niece, the little Miss Jessamine with the "conspicuous" hair.

Everybody lived in fear of Bony in these days, especially the naughty children, who were kept in order during the day by threats of "Bony shall have you," and who had nightmares about him in the dark.

Next appeared the Black Captain who carried off Little Miss Jessamine, in spite of the objections of his father and Big Miss Jessamine.

The big Miss Jessamine's objection to him was that he was a soldier; and this prejudice was shared by all the Green. "A soldier," as the speaker from the town had observed, "is a bloodthirsty, unsettled sort of a rascal, that the peaceable, home-loving, bread-winning citizen can never conscientiously look on as a brother till he has beaten his sword into a ploughshare and his spear into a pruning hook."

Next the Captain is ordered away from his young wife and later on the Postmaster, an old soldier, brings a paper in which appears the headings "Glorious Victory—Two Hundred pieces of Artillery—Immense Quantity of Ammunition—List of Killed and Wounded." The list is called for and while Big Miss Jessamine reads:

The old soldier stood bareheaded to hear that first Roll of the Dead at Waterloo, which began with the Duke of Brunswick and ended with Ensign Brown. Five-and-thirty British Captains fell asleep that day on the Bed of Honor, and the Black Captain slept among them.

. . . . . .

There are killed and wounded by war, of whom no returns reach Downing Street.

Three days later, the Captain's wife had joined him, and Miss Jessamine was kneeling by the cradle of their orphan son, a purple-red morsel of humanity, with conspicuously golden hair.

"Will he live, Doctor?"

"Live? God bless my soul, ma'am! Look at him! The young Jackanapes!"

And so, Master Jackanapes appears—the son and grandson of a soldier. To him befall the usual haps and mishaps of adventurous youth, until the advent of his grandfather, the General, is heralded by the repetition of the well-worn admonitions from Miss Jessamine as to his personal behavior in the presence of that magnate.

"Mons'ous pretty place this," he said, looking out of the lattice on to the Green, where the grass was vivid with sunset and the shadows were long and peaceful.

"You should see it in Fair-week, sir," said Jackanapes, shaking his yellow mop, and leaning back in his one of the two Chippendale arm-chairs in which they sat.

"A fine time that, eh?" said the General, with a twinkle in his left eye (the other was glass).

Jackanapes shook his hair once more. "I enjoyed this last one the best of all," he said. "I'd so much money."

"By George, it's not a common complaint in these bad times. How much had ye?"

"I'd two shillings. A new shilling aunty gave me, and elevenpence I had saved up, and a penny from the Postman—*sir!*" added Jackanapes with a jerk, having forgotten it.

. . . . . .

"I suppose you've not got a penny in your pocket?"

"Yes, I have," said Jackanapes. "Two pennies. They are saving up." And Jackanapes jingled them with his hand.

"You don't want money except at Fair-times, I suppose?" said the General.

Jackanapes shook his mop.

"If I could have as much as I want, I should know what to buy," said he.

"And how much do you want, if you could get it?"

"Wait a minute, sir, till I think what twopence from fifteen pounds leaves. Two from nothing you can't, but borrow twelve. Two from twelve, ten, and carry one. Please remember ten, sir, when I ask you. One from nothing you can't, borrow twenty. One from twenty nineteen, and carry one. One from fifteen, fourteen. Fourteen pounds nineteen and—what did I tell you to remember?"

"Ten," said the General.

"Fourteen pounds nineteen shillings and tenpence, then, is what I want," said Jackanapes.

"God bless my soul! what for?"

"To buy Lollo with. Lollo means red, sir. The Gypsy's red-haired pony, sir. Oh, he *is* beautiful! You should see his coat in the sunshine! You should see his mane! You should see his tail! Such little feet, sir, and they go like lightning! Such a dear face, too, and eyes like a mouse! But he's a racer, and the Gypsy wants fifteen pounds for him."

"If he's a racer you couldn't ride him. Could you?"

"No—o, sir, but I can stick to him. I did the other day."

"The dooce you did! Well, I'm fond of riding myself; and if the beast is as good as you say, he might suit me."

"You're too tall for Lollo, I think," said Jackanapes, measuring his grandfather with his eye.

"I can double up my legs, I suppose. We'll have a look at him to-morrow."

"Don't you weigh a good deal?" asked Jackanapes.

"Chiefly waistcoats," said the General, slapping the breast of his military frock-coat. "We'll have the little racer on the Green the first thing in the morning. Glad you mentioned it, grandson; glad you mentioned it."

So Lollo is bought and the General finds, as was to be expected, that he hardly stands high enough for him, and Master Jackanapes is to have him on the one condition, that he is to ride him to the other end of the Green. Then follows a conversation between the grandfather and grandson:

"You must love your aunt very much, Jackanapes?"

"I do, sir," said Jackanapes, warmly.

"And whom do you love next best to your aunt?"

The ties of blood were pressing very strongly on the General himself, and perhaps he thought of Lollo. But love is not bought in a day, even with fourteen pounds nineteen shillings and tenpence. Jackanapes answered quite readily, "The Postman."

"Why the Postman?"

"He knew my father," said Jackanapes, "and he tells me about him and about his black mare. My father was a soldier, a brave soldier. He died at Waterloo. When I grow up I want to be a soldier too."

"So you shall, my boy; so you shall."

"Thank you, grandfather. Aunty doesn't want me to be a soldier, for fear of being killed."

"Bless my life! Would she have you get into a feather-bed and stay there? Why, you might be killed by a thunderbolt if you were a butter-merchant!"

. . . . . .

"Grandson! love me a little too. I can tell you more about your father than the Postman can."

"I do love you," said Jackanapes. "Before you came I was frightened. I'd no notion you were so nice."

"Love me always, boy, whatever I do or leave undone. And—God help me!—whatever you do or leave undone, I'll love you. There shall never be a cloud between us for a day; no, sir, not for an hour. We're imperfect enough all of us—we need'nt be so bitter; and life is uncertain enough at its safest—we need'nt waste its opportunities. God bless my soul! Here sit I, after a dozen battles and some of the worst climates in the world, and by yonder lych gate lies your mother, who did'nt move five miles, I suppose, from your aunt's apron strings—dead in her teens; my golden-haired daughter, whom I never saw!"

Jackanapes was terribly troubled.

"Don't cry, grandfather," he pleaded, his own blue eyes round with tears. "I will love you very much, and I will try to be very good. But I should like to be a soldier."

"You shall, my boy; you shall. You've more claims for a commission than you know of. Cavalry, I suppose; eh, ye young Jackanapes? Well, well; if you live to be an honor to your country, this old heart shall grow young again with pride for you; and if you die in the service of your country—egad, sir, it can but break for ye!"

And beating the region which he said was all waistcoats, as if they stifled him, the old man got up and strode out on to the Green.

We next hear of Jackanapes and his horse—this time a successor to Lollo—when the cavalry regiment, in which he has been given a commission by the Iron Duke, goes into battle and "the boy trumpeter" sounds retire, and as he looks upon the enemy's line some 200 yards away sees "Mister Jackanapes galloping alone at the top of Lollo's speed, their faces to the enemy, his golden head at Lollo's ear." Jackanapes' comrade and friend from boyhood, Tony Johnson, is down with one of his legs so crushed and broken that no feat of which he is master would get him into the saddle:

And on one side of him rolled the dust and smoke-cloud of his advancing foes, and on the other, that which covered his retreating friends.

He turned one piteous gaze after them, with a bitter twinge, not of reproach, but of loneliness; and then, dragging himself up by the side of his horse, he turned the other way and drew out his pistol, and waited for the end. Whether he waited seconds or minutes he never knew, before some one gripped him by the arm.

"*Jackanapes! God bless you!* It's my left leg. If you *could* get me on—"

It was like Tony's luck that his pistol went off at his horse's tail, and made it plunge; but Jackanapes threw him across the saddle.

"Hold on anyhow, and stick your spur in. I'll lead him. Keep your head down; they're firing high."

And Jackanapes laid his head down—to Lollo's ear.

It was when they were fairly off, that a sudden upspringing of the enemy in all directions had made it necessary to change the gradual retirement of our force into as rapid a retreat as possible. And when Jackanapes became aware of this, and felt the lagging and swerving of Tony's horse, he began to wish he had thrown his friend across his own saddle and left their lives to Lollo.

When Tony became aware of it, several things came into his head: 1. That the dangers of their ride for life were now more than doubled; 2. That if Jackanapes and Lollo were not burdened with him they would undoubtedly escape; 3. That Jackanapes' life was infinitely valuable, and his—Tony's—was not; 4. That this, if he could seize it, was the supremest of all the moments in which he had tried to assume the virtues which Jackanapes had by nature; and that if he could be courageous and unselfish now—

He caught at his own reins and spoke very loud—

"Jackanapes! It won't do. You and Lollo must go on. Tell the fellows I gave you back to them with all my heart. Jackanapes, if you love me, leave me!"

There was a daffodil light over the evening sky in front of them, and it shone strangely on Jackanapes' hair and face. He turned with an odd look in his eyes that a vainer man than Tony Johnson might have taken for brotherly pride. Then he shook his mop, and laughed at him.

"*Leave you?* To save my skin? No, Tony, not to save my soul!"

. . . . . .

"Can I do anything else for you?"

"Nothing, thank you. Except— Major! I wish I could get you to appreciate Johnson."

"This is not an easy moment, Jackanapes."

"Let me tell you, sir—*he* never will—that if he could have driven me from him, he would be lying yonder at this moment, and I should be safe and sound."

The Major laid his hand over his mouth, as if to keep back a wish he would have been ashamed to utter.

"I've known old Tony from a child. He's a fool on impulse, a good man and a gentleman in principle. And he acts on principle, which it's not every— Some water, please! Thank you, sir. It's very hot, and yet one's feet get uncommonly cold. Oh, thank you, thank you. He's no fire-eater, but he has a trained conscience and a tender heart, and he'll do his duty when a braver and more selfish man might fail you. But he wants encouragement; and when I'm gone—"

"He shall have encouragement. You have my word for it. Can I do nothing else?"

"Yes, Major. A favor."

"Thank you, Jackanapes."

"Be Lollo's master, and love him as well as you can. He's used to it."

"Wouldn't you rather Johnson had him?"

The blue eyes twinkled in spite of mortal pain.

"Tony *rides* on principle, Major. His legs are bolsters, and will be to the end of the chapter. I couldn't insult dear Lollo; but if you don't care—"

"While I live—which will be longer than I desire or deserve—Lollo shall want nothing but—you. I have too little tenderness for— My dear boy, you're faint. Can you spare me for a moment?"

"No, stay— Major!"

"What? What?"

"My head drifts so—if you wouldn't mind."

"Yes! Yes!"

"Say a prayer by me. Out loud, please; I am getting deaf."

"My dearest Jackanapes—my dear boy—"

"One of the Church Prayers—Parade Service, you know—"

"I see. But the fact is—God forgive me, Jackanapes!—I'm a very different sort of fellow to some of you youngsters. Look here, let me fetch—"

But Jackanapes's hand was in his, and it would not let go.

There was a brief and bitter silence.

"'Pon my soul, I can only remember the little one at the end."

"Please," whispered Jackanapes.

Pressed by the conviction that what little he could do it was his duty to do, the Major, kneeling, bared his head, and spoke loudly, clearly, and very reverently—

"The grace of our Lord Jesus Christ—"

Jackanapes moved his left hand to his right one, which still held the Major's—

"The love of God—"

And with that—Jackanapes died.

Mrs. Ewing is the author of other stories of similar character—"A Short Life" and "Daddy Darwin's Dovecote." It is to be regretted that her death last year has ended the literary career of so charming a writer.

THE STATE TROOPS.

REGIMENTAL CHEERS.

Under all conditions in life where the success of an undertaking depends upon the strict observance of certain rules, and the subjection of a multitude to the dictation of one superior, the tendency of the multitude is always in the direction of a relaxation or disregard of the rules. Firm and uniform management, constant vigilance on the part of the directing mind, and a well prepared system are invariably necessary to keep the establishment, no matter of what nature, in regular running order. In a military establishment especially the maintenance of discipline is *the* fundamental principle upon which the entire concern depends. Even in Regular bodies constant watchfulness only upholds the rules with difficulty. With a force constituted like our State troops the difficulty reaches its most serious proportions. The service being voluntary, the means of instruction incomplete, time devoted to military matters very brief, the tendency towards a free and easy bearing, and a steady desire to escape from the restrictions imposed by the rules of the Service become only natural results of the system. To keep an organization on a proper military footing is therefore by no means an easy task. Unsoldierly habits and customs derived from the ancient militia, such as regimental catchwords, civil organizations, meeting for censuring or endorsing the action of officers, and especially the custom of applauding and cheering officers while under arms, render the task of maintaining a decent military standard still more difficult. Civil organizations and the habit of men of expressing their opinions on matters which do not concern them can hardly be expected to be abolished under present conditions, but there is no reason why men when under arms should not be compelled to refrain from improper demonstrations. Cheering such as is permitted in quite a number of armories should be stopped.

With reference to what has recently taken place in a New York regiment we think this the proper time to call attention to this very matter. It may tickle the vanity of some officers to have their men on the slightest provocation break out with violent yells, stamping of muskets, and other unseemly demonstrations, but they should remember that by conceding to the men the right to approve they tacitly give them also permission to disapprove. Had the first outbreaks of noise after the recent elections in the 13th been put down firmly it is hardly possible that the matter would have gone any further. The idea that recruiting would suffer if men were deprived of these old time prerogatives is a fallacy, to prove which it is only necessary to point to the success of regiments like the 22d where all such practices have been discontinued for years. Among the bad habits regimental cries and cheering are the worst, and this seems to be a good time to take up the subject, banish the habit forever from the ranks of the National Guard and introduce sound practices with a view of acquiring something like a proper standard of discipline.

In this connection a correspondent writes us as follows:

To the Editor of the Army and Navy Journal:

In reading the account in your Journal of last Saturday, of the disorderly conduct of certain members of a well-known regiment of the National Guard of this State and their unsoldierly expressions and demonstrations of dissatisfaction at the result of an election for colonel, it must have occurred to many of those who are interested in the real welfare and advancement of the National Guard, and particularly to those who have closely watched the progress of the Guard during the past three or four years, that this exhibition of insubordination is the natural consequence of the management given by this regiment to associations of its discharged members under the name of veterans or uniformed veterans, to interfere in its affairs.

It will be remembered that the regiment which has, by this display, shown its absolute lack of military discipline, is the only regimental organization of New York and Brooklyn unrepresented on the circular of February, 1884, protesting against uniformed veteran organizations. And this regiment is the only one of those mentioned which has, since the issuance of that protest, appeared on parade with its discharged members in a uniform not recognized by any authority, under its escort, endeavoring thereby apparently to show its regard for uniformed veterans in contradistinction to the neglect shown for those worthy gentlemen by other regiments.

This subservience to the opinions and wishes of its discharged members masquerading under the title of veterans and the ostentatious recognition of their "claims," appears to have had the effect of destroying the military spirit and of promoting in its stead, the worst phase of ward politics.

The continual wail which has gone up from the uniformed veterans and their friends that Colonel A and Captain B in signing protests and in refusing to recognize "claims" or satisfy demands, were not representing the rank and file, his at last found a response, and the rank and file of the uniformed veterans' pet organization, have asserted their right to be represented, and in this case believing their wishes have not been properly respected by the officers of the regiment, their representatives, the rank and file as the constituents of their representatives, are now engaged in the usual political sequence of "going for their scalps."

X. X.

RIOT DRILL IN THE DARK.

It has heretofore been invariably the custom to exercise in riot tactics in the dark in our most crowded streets, the drill being followed by large crowds of spectators who interfere with the movements, drown the commands with their noise and act as obstructionists in every possible way. Neither officers nor men derive much benefit on such occasions. The officers do not get a clear idea of the drill because they can hardly see what is going on in their immediate front, and the men are entirely in the dark. All the effect of the exercises is lost. Riot drill should be illustrated in daylight and as the downtown streets are too crowded to admit of any drill during the day troops should be taken uptown, where there is no traffic. Suitable localities can be found on the East as well as on the West side of the city, and they are easily accessible by elevated roads, or, for that matter, by marching.

(From the N. Y. Graphic.)

OUR LOCAL MILITIA.

At the close of the late Creedmoor competitions Lieut. Zalinski, who had served as executive officer of the range during the meeting, deplored the falling off in interest and attendance. Military rifle practice, he said, is no mere pastime, and the regiments of the National Guard should have a range somewhere near the city. Possibly Staten Island could furnish the most desirable location for it. The refusal of the Park Commissioners to permit the holding of a parade and inspection in Central Park leaves the 1st Brigade without any ground except the public streets for a general muster. Undoubtedly public sentiment approves the action of the Park Commissioners, yet popular sentiment at the same time favors the acquisition of some tract suitable for extensive military evolutions and the construction of a commodious rifle range.

It is almost superfluous to say that our New York regiments, in order to acquire a proper degree of efficiency, ought to have a parade ground large enough to manœuvre a brigade in. The annual encampment at Peekskill produces excellent results in familiarizing men with the details of tent life, but the State Camp of Instruction accommodates no more than two battalions at a time, and only once a year at that. A soldier who knows how to handle his rifle coolly and to fire straight at a mark is worth three who if called into action would blaze away at random Proficiency with the weapon cannot be attained by a mere armory practice where the conditions of light and atmosphere are totally different from those encountered in actual engagement.

Creedmoor might have become as famous and as useful as Wimbledon but for the miserable accommodations furnished by the Long Island Railroad. The greed and meanness of that corporation disgusted riflemen and condemned the range to failure. New York must now seek elsewhere a site for a parade ground and rifle range to be used in promoting the efficiency of her citizen soldiery. There is no use in searching Long Island for such a spot as long as the railroad facilities are so wretched and so expensive.

NATIONAL GUARD ITEMS.

The National Drill Committee have adopted an elaborate programme and added Mr. J. G. Pangborn, of the Baltimore and Ohio Railroad, to the committee. The prize drills are to begin May 22 next.

The inspection of the 3d Battery of Brooklyn, so far as its evolutions in Prospect Park are concerned, has been abandoned, and the affair will take place in the Armory. This in consequence of the field day ordered for Oct. 7 next.

For the Governor's review the organizations of the 1st Brigade will form in line as follows: 7th, 69th, 8th, 9th, 12th, 71st, 11th and 22d Regiments, and 1st and 2d Batteries.

Brig. Gen. Louis Fitzgerald in orders publishes the following appointments on his staff: Lieut. Col. W. J. Harding, 22d Regt., as A. A. Adjt. Gen. and Chief of Staff; Lieut. Col. Benj. S. Church, Engineer; Stephen H. Olin, Judge Advocate; Robert V. McKim, Surgeon; Paul Dana, Ordnance Officer; Auguste P. Montant, Inspector; Wendel Goodwin, Quartermaster; C. Lawrence Perkins, Commissary.

The 23d Regiment is under orders for second rifle practice Oct. 18, 1886.

Col. Emmons Clark orders resumption of company drill in the 7th Oct. 1, the course to include the schools of the soldier and company, skirmishing, guard and sentry duties, and rifle practice, military courtesies and instruction of non-commissioned officers, and says: "The 7th Regiment Rifle Team, in charge of Capt. Palmer, I. R. P., secured the first prize in the State Match at the Fall meeting at Creedmoor for 1886, and deserves the thanks of the regiment for the time, labor and skill necessary to that result, which are hereby tendered to the members of the team, viz.: Capt. W. H. Palmer, I. R. P.; Lieut. E. F. Young, Sergts. H. B Thomson, J. K. Green, E. W. Price, R. McLean, Corp. W. J. Underwood, Pvts. R. M. Kalloch, W. G. Owen, C. A. Jones, B. D. Darke, G. F. Merchant. Reserve—Sergt. A. McDougall, Pvts. C. W. Thorne, J. B. Elmendorf.

Wallace A. Downs, formerly Major of the 16th Battalion, has been appointed Adjutant of the 71st Regiment. Col. E. A. McAlpin, who has resumed command in regimental orders, directs company drills to be resumed at once.

The 12th Regiment is under orders to resume company drills Oct. 1 as follows: Cos. A and K, Mondays; G and H, Tuesdays; C and D, Wednesdays; F and I, Thursdays, and B and E, Fridays.

The 11th has a preliminary inspection Oct. 4, 1886.

The assembly of the 22d Regiment, was simply a rehearsal for the inspection Oct. 7, which, on account of the Field Day, has to take place in the armory, because the men cannot turn out two days in succession.

The following officers have sent in their resignations; Lieuts. G. C. Baldwin and Horace L. Washington, of the 8th Regiment; 1st Lieuts. R. B. Moss and Wm. Henderson, 2d Battery, and 1st Lieut. G. P. Herrchaft, 11th Regiment.

The troubles in the 13th New York have by no means subsided, although the spirit of insubordination is confined to members of only three or four companies. The present disturbances originated immediately in measures similar to those which took place a few days ago, when a meeting of enlisted men was held for the purpose of influencing their company officers to vote for Major J. F. Ackerman as Lieutenant-Colonel. There are no objections to the elevation of Major Ackerman to the position he seeks, but, as a good soldier, he should discountenance any unsoldierly demonstration like that just referred to, whether in his favor or against him. The officers, and not the enlisted men, under law and regulations, settle questions as to fitness of officers for promotion in such cases as are now under consideration. Major Ackerman will only damage his cause if he caters to the spirit of mutiny which has lately taken possession of the 13th Regiment, and the best thing for him to do is to instruct the men as to their proper position in the case and leave the decision of his own fate to those who hold the proper rights and prerogatives in the case.

Col. Edward Fackner, of the 13th New York, has been duly commissioned. Possessed of plenty of energy and backbone he is now engaged in ferreting out the true inwardness of the rebellion in his organization. His trouble lies in the difficulty of fixing offences on individuals in such a manner as to insure their conviction before a Court-martial. We are, however, reliably informed that any non-commissioned officer whose presence at the "Indignation Meeting," to which we referred in our last week's issue, can be established, will be reduced to the ranks, and the orders to that effect will certainly be out about the time when we go to press. On account of the same difficulty of establishing facts, Col Fackner will apply to General Headquarters for a Court of Inquiry into the whole difficulty. It is presumed that certain officers have encouraged the men in their unbecoming conduct, and with a view of bringing them to justice the Court will be applied for. The charges against Lieut. Smith have been forwarded to Albany, because under the regulations it requires a Major-General to order a Court for the trial of an officer. The charges against Lieut. Smith are substantially that he openly fraternized with the men and incited them to mutiny, that on being informed that his regimental commander desired to see him, he publicly stated that said commander "be damned;" that he called another officer, before enlisted men, a "sucker," because he voted for Fackner; that he stated to his regimental commander that his company commander "must go," because he worked against the wishes of his command, etc.

The 12th Regiment began their artillery drills on Saturday, Sept. 25, when Captain Harry Aspinwall took a detachment to Fort Wadsworth for the purpose. These drills, apparently, are not as popular this fall as they were in former years on account of the expense for transportation and subsistence, which falls entirely on the visiting organizations or their captains. We can readily understand that under such circumstances interest in the matter must decrease. If troops voluntarily undertake the acquirement of a drill for which the State makes no provision, the least that could be done would be to pay the necessary expenses connected with the enterprise from public funds. To familiarize the National Guard with the handling of artillery is a matter of great importance. The State alone reaps the benefit of any undertaking in that direction, and it can therefore well afford to provide the small amount necessary for a continuance of the practice.

The city authorities, as was expected, have refused permission for the use of Central Park for the purpose of holding a review in honor of the Governor on Wednesday, Oct. 6. As there is no other convenient spot in New York City, the matter has resolved itself into the usual street parade. The 1st Brigade will form on 5th Avenue, right resting on 34th Street, on the day in question, and the line of March will be through Madison Avenue to 23d Street, down 5th Avenue to Washington Square, where the column will pass in review. A review in line also forms part of the ceremony. The 2d Brigade will parade in Prospect Park, Brooklyn, on the following day, Oct. 7, and as the parade ground there is large enough to admit of quite extensive manœuvres, the Brooklyn affair offers superior interest in a military respect.

To attend the recent meeting of enlisted men of the 13th for the purpose of nominating Major Ackerman for Lieutenant-Colonel, several companies formed in the armory in their rooms and marched out in a body under the eyes of their captains. To allow such a proceeding shows want of discipline and understanding of their duties on the part of the officers concerned.

The 22d Regiment, on account of the turnout on Oct. 7, were compelled to give up their inspection on Governor's Island, and the regiment, like the rest, will be mustered in the armory in the evening.

Adjutant W. B. Smith, of the 22d, has passed an excellent examination.

The 47th's armory will be opened formally for inspection after the conclusion of the field day on Oct. 7. There will be music, but no dancing. Col. Gaylor intends to make it very pleasant for those who attend.

S. O. No. 72, State of Rhode Island, A. G. O., directs that "in accordance with Section 126, Chapter 258, Militia Law, and upon the request of the Captain of Co. A. 5th Batt. Infantry, R. I. M., approved by Brigade and Battalion Commanders, Private James H. Sullivan, Co. A, 5th Batt. Infantry, R. I. M., is dishonorably discharged from the militia service, for appropriating and wearing without permission at Camp U. S. Grant on the night of Sept. 10, 1886, the uniform of a 2d Lieutenant, and while wearing the same interfering with sentinels while on duty."

The following are the figures at recent inspections:

NEW HAMPSHIRE.

BRIG. ELBERT WHEELER, Insp.-General, has made his report on the encampment of the New Hampshire National Guard of 1886. The document is entirely different from the regulation, "goody-goody" style of report, which can see no faults but only "improvement" in every particular, and which generally cites some foreign officer as expressing his astonishment at the manner in which such military successes as are presented to him are brought about, with the limited means and in the limited time at the disposal of the American State soldier. The report touches on many points which have an application to organizations outside of New Hampshire, and for this reason we quote as follows:

The ceremonies of guard-mounting were more or less faulty on the part of the guard, officers and men. Details were apparently made with the purpose of giving these inexperienced and untaught men this duty, leaving those who had been longer in the service for drills, the inevitable result of which was to make this ceremony and the performance of guard duty appear to bad advantage. Some officers of the guard, who could not plead a recent commission as an excuse, showed such ignorance of the details of the ceremony, as to demonstrate clearly their poverty of interest and effort towards qualifying as officers. It is a wonder to me that anyone with an average amount of common sense will allow himself to be disgraced by remaining in an office the duties of which he so manifestly does not fulfil. So clearly is it true that the National Guard is handicapped to a considerable extent by officers who are a constant discouragement to those under as well as over them, that I am impelled to advise again the establishment of an examining board to pass upon the qualifications of all officers before promotion, and who if found to be not meeting the reasonable requirements of his office, shall be discharged. This will make it possible to rid the service speedily of those who hold office for the so-called honor of it without exerting themselves to maintain or increase it, and will have a most salutary effect upon the occasional do-nothing, who is unmoved by general reports from this office which mention him in every way except by name,

Guard duty was more intelligently performed than ever before, and would have been very generally satisfactory if so many recruits had not been detailed. When we consider the burden thus put upon instructors and others which should be borne by company officers, and when we see sentinels, and soldiers in other departments of work as well, displaying such ignorance as a recruit necessarily must, thus impairing the usefulness of the force and creating in all minds an unfavorable impression, I am very decidedly of the opinion that means should be put in operation to prevent the enlistment of men within thirty, or better, sixty days prior to encampment. If this were well understood, men contemplating enlistment would do so in season to learn something before going to camp. Or it might be well to authorize captains to require would-be soldiers to drill for a stated time with the company before enlisting. This is the custom in some cases already, and is apparently a good one.

Brigade dress parades were had every evening, and were remarkable for excellence in nearly every particular. The steadiness of the men was noticeable, scarcely any errors were made, and little could have been done in any way for improvement.

Of matters of administration I can only say praise. This was expected, and could hardly be otherwise in a staff where the prime consideration in making appointments was fitness for the particular duties incumbent upon the office.

Military courtesy was an improvement over last year, failure to observe it being exceptional, and confined mainly to new men. The general purpose was evident, however, to do their whole duty as far as they understood it. Some cases were noted where men seated or lying down, failed to rise and salute officers passing. Officers were also noted who did not respond to courtesies rendered by enlisted men. This neglect goes far to encourage men from their duty in this direction, therefore officers should be exceedingly scrupulous about it. This whole matter of military courtesy should be looked after by regimental and company commanders, in the armory and in every relation of military life, so that it shall be as familiar and natural a thing to do as to say "Good morning" to a friend. It is simply the military greeting of one military gentleman to another.

The labor necessary to make presentable a soldier's uniform, arms, and equipments, is very slight if well understood. Captains should instruct their men fully as to the standard required, and teach them how to do what is necessary to attain it. There is no excuse for red rust on a musket, for waist-belt plates and other brasses tarnished, for dusty clothing or equipments, soiled gloves and collars, faces not shaved where it is customary, shoes not blacked, etc. To plead lack of time, or late relief from guard duty, is idle. Many find it practicable to attend to all these details; good soldiers always do, and others can. I would again call attention on these points to what was said in my last report as to credits to be hereafter given for care of uniforms, equipments, etc.

The inspection of the battery was even more satisfactory than ever. The pieces were models of brightness, and everything was in perfect order, barring a few contraband articles in two caisson limber-chests.

The cavalry company made a very creditable appearance.

Drills by the infantry were most faithfully attended to whenever they could find opportunity for them. It is a general cause of regret in the National Guard that so much precious time intended for drill and camp work is given so lavishly to ceremonies of no practical value. So little time was available that I was unable to carry out in full my plan of calling on every field officer to drill his command by card, though nearly every one did so. Most of them handled their regiments intelligently, in the main, and if company commanders and guides had performed their several duties in a like manner, there would have been little to criticise. It is very evident that more time should be set apart by captains in the routine work of the year for instruction of officers and guides as to their duties in battalion drill. It is high time that reasonable intelligence as to the whole range of duties, immediate and prospective, of both officers and non-commissioned officers was made apparent, and those who accept these positions must understand that more is expected of them than formerly.

Brigade drill was attempted once with fair success.

Signaling was performed in a most excellent manner under direction of Capt. Scammon, A. D. C., and Lieut. Albert N. Dow, of Co. D, 1st Regiment (Exeter), with a detachment from that company.

The review by his Excellency Governor Currier was made on the afternoon of Friday. It was a success, except that during the passage in review the presence of so many new men and the limited opportunities for drill caused a somewhat uneven appearance.

It might not be a bad idea, says the San Francisco *Report*, to have a photographer attached to each militia command. Then, instead of having to make out in duplicate or triplicate a troublesome table of figures about the strength of the muster, etc., it will only be necessary to send a photograph to headquarters, with the Adjutant's compliments. There would be comfort, reliability and style in such a way of proceeding.

Military Order of the Loyal Legion.

A meeting of the New York Commandery will be held at Delmonico's on Tuesday evening, Oct. 5, at 7.30 P. M., when the officers elected May 5 will be duly invested. The following applicants will be balloted for: Col. J. W. Brett, U. S. V.; Col. R. C. Shannon, U. S. V.; Capt. J. B. Pond, U. S. V.; Capt. W. T. Lusk, U. S. V.; Dr. Edgar Holden, formerly Asst. Surgeon, U. S. N., and A. A. Surgeon, U. S. A.; E. A. Bracklow, M. D.; Lieut. H. J. Slocum, U. S. A., and Lieut. E. N. Norton, U. S. V. At this meeting Gen. Horace Porter will read an interesting paper of personal reminiscences.

At a meeting of the California Commandery, held at San Francisco, Sept. 29, a large number of candidates for membership were elected, including Colonel A. K. Smith, Medical Department, U. S. A., at present on duty at West Point. Major General Howard has been transferred to this Commandery from Nebraska.

The Commandery-in-Chief will hold a meeting in Philadelphia at 10 A.M., October 28.

At a meeting of the Michigan Commandery held at Merrill Hall, Detroit, Sept. 1, the following were elected: Lieut. George E. Gilman, Lieut.-Comdr. Francis O. Davenport, Major Franklin B. Galbraith and Lieut. John S. Conant, Princeton, N. J. A meeting will be held Oct. 6, when Gen. L. S. Trowbridge will read a paper entitled, "The operations of the Cavalry in the Gettysburg Campaign."

The second annual meeting of the Commandery-in-Chief of the Order will be held at the hall of the Historical Society of Pennsylvania, 13th and Locust streets, Philadelphia, Wednesday, Oct. 20, 1886, at 10 A. M.

NAVY AND REVENUE MARINE.

To the Editor of the Army and Navy Journal:

IN your issue of September 18, under the head of "What a Washington Gossip Says," you quote from the New York *Evening Telegram* as follows:

"Thus it will be seen that there is very little love lost between them. Nothing so delights the Revenue Marine officers as to get even with the Navy."

The writer of the above sentences is evidently unaware of the cordial and friendly relations now existing between the Revenue Marine and the Navy, else he would hardly care to give the impression that the two services are opposed to and jealous of each other. At no time during the past eight years has this brotherly feeling been so apparent as at present, and a contradiction to a "Washington Gossip" is but justice to the officers of both services who endeavor to maintain official and social intercourse on a friendly footing Had the Washington correspondent of the New York *Evening Telegram* so altered the construction of the latter sentence, which is herein quoted, as to make it read: "Nothing would so delight the majority of Revenue Marine officers as to see their corps placed in its proper position under the Navy Department," he would have approached nearer the truth and expressed an opinion now largely entertained in the Revenue Marine.

The recommendation of the Board of Visitors to the Naval Academy that the vacancies in the line and staff of the Revenue Marine be filled by the surplus graduates of that institution meets with almost

universal approval in every direction, and it is sincerely hoped that the necessary action will be taken at the coming session of Congress.

REVENUE MARINE.

THE Second Comptroller allowed the following Mexican War claims during the week: Zachary Taylor, late Major-General, U. S. A.; (to grandchild), $50; Robert C. Wood, Surgeon, $135; F. J. Kirby, private in Texas Infantry, $21; Daniel T. Van Buren, 2d Lieutenant, 2d Art., $100; C. C. Ridgely, Captain, 4th Art., $60.

ANSWERS TO CORRESPONDENTS.

J. A. M.—Your name is not on Hospital Steward list.

H. J. M.—Write to the Commanding Officer, National Armory, Springfield, Mass.

Cavalry.—When cavalry skirmishes dismounted they perform this movement exactly as laid down in Infantry Tactics.

J. O.—The transfer to your former regiment could be made, provided the proper military authorities give their consent.

F. N. B.—The 1st U. S. Infantry is a white regiment. The colored regiments are 9th and 10th Cavalry and 24th and 25th Infantry.

Eureka.—Privates are not eligible for examination for commissions. See and read carefully Article 6, Army Regulations, 1881, paragraphs 26 to 35 inclusive.

Ajax.—The 13th New York Cavalry belonged to the Department of Washington or 22d Army Corps, Generals S. P. Heintzelman and C. C. Augur, commanding.

W. O'D. asks: Is the command company left or right about, march, executed on a fixed or movable pivot? ANS.—On a fixed pivot, just as fours left or right about is executed on a fixed pivot.

W. S. asks: If an enlisted man's eyesight becomes so defective in the line of duty that glasses are absolutely necessary, could they be furnished him at the expense of the Government? ANS.—No.

H. T. H.—A vacancy for West Point occurs in the 1st District, Michigan, in 1889; 2d District, Michigan, in 1890. The next Presidential appointment will be made in July, 1877, for admission to the Academy in June, 1888.

W. A. asks: 1. Do the 1st sergeants on dress parade stand at parade rest with the battalion? ANS.—Yes.

2. Should bayonets always be fixed in rendering honors, in present arms? ANS.—Yes.

H. G. H. asks: 1. Were all the graduates from West Point this year given commissions? ANS.—Yes.

2. In time of peace is a cadet forced into the Army at the expiration of his course at West Point? ANS.—No.

R. N. A.—The regulations as to examination of non-commissioned officers for promotion are plain (see Article 6, Army Regulations, 1881) and we see nothing in them to disbar the colored regiments from presenting candidates. Your second question is not understood.

Kohinoor asks: Was Dr. Jas. P. Kimball, the present Director of the Mint in Washington, formerly of the U. S. Army, and at one time stationed at Fort Buford, Dak.? ANS.—No. Major J. P. Kimball, Surgeon, U. S. A., is still in the Army, and at present stationed at West Point.

A correspondent asks if every company or every regiment in New York has its own paymaster? ANS.—There is no such a rank as paymaster in the N. G. S. N. Y. The payments are made by the Paymaster-General and his assistants. In New Jersey, divisions, brigades, regiments and battalions have each their own paymaster.

Ajax asks: A., a lieutenant, is detailed by the colonel of his regiment as acting quartermaster of the regiment for services in camp, and is ordered by the colonel to appear mounted. When the pay rolls are sent in the claim of A. for pay for horse is disallowed on the ground that he is not the regular regimental quartermaster. Would not Par. 2386, page 273, and Sec. 1270, page 308, U. S. Army Regulations, govern in such cases, and entitle A. to pay for horse—the State having adopted U. S. Army Regulations to govern the N. G. of the State? ANS.—The U. S. allows to officers required to be mounted an addition of pay, but the officer provides his own horses. If you claim mounted pay on this basis we think your claim is just, but do not believe you are entitled to the full amount required to hire a horse.

NEW PUBLICATIONS.

The October number of the "Magazine of American History" contains fresh information on the subject of "President Lincoln and Colonization," together with an estimate of the losses sustained by the experiment at Hayti, shortly before Lincoln's death. Gen. J. W. de Peyster writes of "Andrew Atkinson Humphreys," one of the prominent generals of the civil war period, introducing much historical criticism. The second paper of General Alfred E. Lee, "From Cedar Mountain to Chantilly" appears to be a most trustworthy discussion of that campaign.

The U. S. Veteran Signal Corps Association has recently issued a "Revised Roster of the Signal Corps, U. S. Army, during the War of the Rebellion, with Personal Records of Service in the Corps." The list includes 150 officers commissioned in the corps, headed by the late Gen. A. J. Myer, U. S. A., nearly 300 acting signal officers and some 1,900 enlisted men. It is a valuable contribution to our war statistics.

Messrs. J. P. Putnam's Sons have just issued a "Pocket Atlas of the World," which will be a valuable addition to the outfit of every traveller. It is a very small (32mo) and handy volume, prettily bound and containing a "comprehensive and popular series of maps illustrating physical and political geography," by John Bartholomew, F. R. G. S.

"The Popular Science Monthly" for October contains a sketch, with portrait, of General John Newton, New York's Commissioner of Public Works, and a number of other interesting papers.

THE MESS.

Captain Pecksec (to one of his sergeants)—"You were out drinking yesterday with a couple of privates." Sergeant—"Captain, it was to prevent them from getting drunk." Captain—"What do you mean?" Sergeant—"They had two bottles of whiskey between them. That was too much for two men. I restored the balance."

—

In the barrack room—Officer of instruction—"When you are on sentry duty and you see a general coming, what do you do?" Recruit—"Present arms." Officer—"And if a group of drunken persons walk past, what do you do then?" Recruit—"Present arms." Officer—"What! Why so?"—Recruit—"There might be a general among them."—*Husvennen.*

—

The Smith family was largely represented in the Army of the Union, and at one time there were upward of 600 in the Army of the Potomac. On one of the regimental rolls in the Teutonic division, which gives names and birthplaces, were entered, "Giovanni Smithi, Italy; Juan Smithas, Spain; Hans Schmidt, Holland; Ivan Schmithiweski, Poland; Jean Smeets, France; Ion Skimmitton, Greece," and 12 John Smiths born in this country, besides one whose native land was sweet Erin, of whom it was recorded, "named Patrick, but says that he is called John for short."

—

To the Editor of the Sun—SIR: As a result of the most careful observation of the aspect of the fixed stars during the past two months, as affected by the remarkable changes now going on in the great nebula in G Cassiopeia, I am able to state with absolute certainty that by far the most awful disaster that has ever befallen the globe since its creation will occur on Oct. 3 at 9.42 in the evening. The agent will be a meteoric stone—a meteoric world, indeed, since its mass will be one-eighth as great as that of our own sphere. It will first come in sight about half way between the constellation of the Great Bear and the north star, and will make the circle of the southern skies, and then sweep northward with immeasurable rapidity, turning the night of this whole continent into a red glare of the most blinding intensity. As it approaches Canada it will make a majestic downward swoop in the direction of Ottawa, affording a spectacle resembling a million inverted rainbows woven together, and will take the prophet Wiggins right in the seat of his inspiration and lift him straight up into the back yard of the planet Mars, and leave him permanently there in an inconceivably mashed and unpleasant condition. This can be depended on. MARK TWAIN.

HARTFORD, Monday.

THE RUSSIAN ARMY.

GENERAL P. M. YOUNG, U. S. Consul-General at St. Petersburg, who is at home on leave, being interviewed as to the condition of the Russian Army, is reported as saying: "The Russian Army is as complete a military organization to-day as the world has ever seen. All branches of the service have the most modern arms and are thoroughly drilled in their actual use. As a rule the Russians are a contented people and love their emperor. Nihilism has been stamped out. The impression that the Czar is afraid of his life and goes about surrounded by a cordon of guards, and is, in fact, a prisoner, is all moonshine. He goes around St. Petersburg just as it pleases him. He is, in fact, seen much more frequently on the streets than is the President of the United States. Often he lives for a couple of weeks with the Empress in a little house near the troops and is no more attended than the colonel of any regiment. He is a magnificent man, physically, six feet three inches in height, and does not fear man or devil. His soldiers adore him. The Romanoffs are a splendid people, as a rule, and he is a particularly splendid man."

NEW ARMY INVENTIONS.

ON the occasion of the recent Army manœuvres in Russia several mechanical inventions were employed for the first time. The electric search lights presented several new features. The new illuminating rockets were pronounced a great success, as they lit up very well a large portion of the ground in front of the works, without forming a mark to attract the fire of the enemy, as was the case with the other lights. Each force had inflated a military

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

(Successors to Kinney Bros.)
NEW YORK

captive balloon, although only the defenders made use of it. Portable telegraph wires were laid between the important points of the line of defence. Night signalling lamps and heliographs were also used.

Another novelty brought forward on this occasion was a portable watch tower. This could be erected on any desirable spot in a short time, and afforded a good view of the country round, being high enough to overtop any ordinary trees.

The Russians are provided with whistles which they blow simply to attract attention, and then the men listen to hear the word of command. Another good idea is that of company flags, a sergeant or "marker" carrying a small flag fixed on his bayonet, so that after the troops have become mixed up during skirmishing, etc., every man can at once see where his company is to form up.

Russian troops always keep their bayonets fixed except under certain circumstances. In order to avoid their glittering in the sun and denoting the position of the troops from a distance, they are blackened.

Some of the troops have been served out with a new kind of valise, this consisting of two canvas bags hung over each shoulder.

TORPEDO BOATS.

A new Italian sea-going torpedo boat, the *Folgore*, will be launched, says the *Esercito Italiano* (Rome), early next month.

A very extensive series of experiments in torpedo mines, booms, etc., have been carried out by the British Fleet on the China Station, at Port Hamilton, under the direction of Vice Admiral Hamilton, C. B.

The Russian correspondent of the *Soleil* says that the great success of the day is the model torpedo boat, the *Abo*, which has just arrived from the building yard at Elbing, where nine other craft of the same sort are being constructed. The *Abo* is described as being 128ft. long, and drawing only 4ft. at the stern, which enables it to manœuvre in shallow water. It can carry sufficient coal to accomplish 1,200 miles, at the speed of 22 knots per hour. It is defended by two Hotchkiss guns, and furnished with two machines for discharging torpedoes. Six such craft have been already despatched to the ports in the Black Sea, where a fleet such as Russia has not seen for 32 years past is about to assemble.

The second of the four torpedo boats built by Schichau, at Elbing, for the Italian Government, lately made its trial trip, says the *Deutsche Heeres-Zeitung* (Berlin), between Pillau, Neufahrwasser, and Hela. The trip lasted eleven hours continuously, of which nine were spent on the open sea, and at forced draught. The mean speed was 22.27, the maximum speed 23.077 knots. The boat was completely fitted for service; twenty-three men were on board, and coal was carried sufficient for 1,200 nautical miles. The engines, built on the Schichau three-cylinder model, worked with perfect regularity.

PIGEONS IN WAR.

Referring to the use of trained pigeons in war, a London paper says: "At the beginning of the present year the Royal United Service Institution devoted an afternoon sitting to the subject of 'The use of pigeons as messengers in war, and the military pigeon systems of Europe.' The subject was thoroughly considered, and there was a general consensus of opinion amongst those who took part in the discussion that it was desirable that opportunities should be afforded to officers of acquiring some knowledge of the matter. The principal reasons for this conclusion were, firstly, that, considering our relative naval strength, and the many uncertain elements in modern naval warfare, an invasion of England could not be regarded as impossible, and that a means of communicating with our strong places in case they were invested should be established. Secondly, that pigeon communication with the Continent—similar to that employed half a century ago—might be useful in case of our submarine cables having been cut by an enemy; and, thirdly, that in some of our far distant wars these birds might have filled, and in the future may be able to fill, serious gaps in the continuity of our communication. England's responsibilities, moral, naval, and military, being immense, it was further considered that the duties attaching to the many and widely scattered elements which go to make up our expensive fighting machinery, are so varied and multifarious that we ought not to neglect any factor which may conduce to the successful working of any part of it under any conditions."

FOREIGN ITEMS.

The *Neue Militärische Blätter* (Berlin) publishes a short account of the Spezia armor experiments on June 22 last, written by Herr Julius Schütz, who represented Grüson both in these trials and in those of Bucharest.

The St. Gothard tunnel is to be prolonged on the Airolo side in order to be fortified at its mouth, and to ensure its closure in case of necessity. Similar works are being executed at the northern extremity of the tunnel. There will be a heavily armored portcullis at each end.

NEW ENGLAND MUTUAL Life Insurance Company, OF BOSTON, Mass.

Assets, ------ $17,846,546.65
Liabilities, --- 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office, *POST OFFICE SQUARE.*

THE EBBITT:

WASHINGTON, D. C.

ARMY AND NAVY HEADQUARTERS.

Four Iron Fire Escapes.

~~RATES $3.00 and $4.00 Per Day~~

Eight bicyclists have received the permission of the French Minister of War to take part in the grand manœuvre of the 18th Corps. Two are to be posted to each brigade.

The *Korcatz*, a gunboat built in Stockholm for the Russian Government, was launched a few days since. The new vessel, says the *Deutsche Heeres-Zeitung* (Berlin), is intended for the Asiatic Fleet.

An electrically propelled boat, the *Volta*, with a comparatively very small store of electricity, has accomplished, at good speed, the trip from Dover to Calais and back, and so softly and noiselessly did she move through the water, that one of the crew was able to catch a seagull asleep on the waves.

During the years 1877-81 Russia imported nearly 5,000,000 roubles worth of gunpowder in addition to that obtained from the three imperial powder factories at Ochter, Goster and Kusan and the private manufactories of the Schlusselburg Company. (yarly production 30,000 poods); of Col. Winner, at Sablino (yearly production 10,000 to 15,000 poods); of Nedurof, at Rostov on the Don (5,000 poods); and of Sazanof (4,000 poods).

The *Army and Navy Gazette* says: "The *Pylades* forms no exception to the rule that every British man-of-war—new or old—on commission, shall break down at least once when trying her machinery. It is no less than extraordinary that while merchant steamers over and over again can and do leave their respective ports, steam hundreds or thousands of miles, and return into harbor without so much as a hot bearing, much less a day's detention from mishaps to their machinery, no British man-of-war, except by chance, was ever known to put to sea without one or more accidents, while for one of them to run any long distance under steam without something going wrong is a thing entirely unknown in her Majesty's Navy. Some day—let us hope that it may not occur too late—we shall perhaps know why this is the case; at present, like the object in giving each ship a paper speed of from one and a half to two knots more than she can actually steam, the reason is shrouded in mystery. The speed of men-of war does not certainly improve after dockyard repairs. The *Tourmaline*, refitted at a cost of £40,000 can now, it appears, only attain 11 knots, her original speed having been over 13."

King Leopold, of Belgium, on the occasion of a recent visit to the Emperor of Germany, is reported to have said: "I have nothing to gain from republican France. If she defeated Germany the Belgian monarchy would be overthrown, whereas the triumph of Germany would make my throne secure."

It has already been reported by telegraph from Toulon, that a charge of 100 lb. of *fulmi-coton* fired under the *Belliqueuse* had shattered her stern post to pieces. The *Aventr Militaire* gives the following particulars of another experiment on the same vessel with the same explosive substance, the object being to test the amount, or limit, of protection afforded by nets against torpedoes. A steam-launch, armed for the purpose, attacked the *Belliqueuse*, discharging at her five torpedoes loaded with 55 kilos. of *fulmi-coton*. The first explosion took place at about 12 and the second at about 5 yards from the corvette. Each explosion sent up a column of water about 30 yards high, and seven in diameter. "These columns," says the writer, "which were seen from the quay, where a large crowd had assembled, had a most imposing effect. The disturbance created by explosion was so strong that the *Belliqueuse* appeared to be engulfed in the waves, and yet after each explosion it was found that the corvette had suffered no damage from the first four torpedoes. The fifth, exploded at less than five yards, produced a small leak, which did not endanger the safety of the ship, which was, however, forced to go in dock to be repaired. A number of naval officers were present."

The Asbuelot Can Co., of Winchester, N. H., are making a wooden oil holder, coated with a composition undissolvable by oil, which is highly recommended to the Army and Navy and post traders as the best article for kerosene oil. It is intended to entirely supersede the metal cans now used.

R. W. Tansill & Co., Chicago, are now making especially for the Officers of the Army and Navy a new and very fine Havana hand-made cigar, known as "Tansill's Reina." They are put up in beautiful packages of 25 cigars, each cigar banded. They come in three sizes, 4¼, 4½, and 4¾ inches, while their moderate cost, viz. $65, $70, and $75 per thousand brings them within the reach of the entire Service.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

MARRIED.

JAS. E. WALKER, 20 Jacob St., N. Y.

NOTICE TO NAVAL ARCHITECTS AND OTHERS,

Concerning designs of steel armored vessels for the United States Navy.

The United States Navy Department, having in view the construction, in pursuance of the authority conferred by Act of Congress approved August 3, 1886, of two armored vessels of different types, of about 6,000 tons displacement each, invites the submission of designs from naval or marine architects, from engineers or mechanics of established reputation, all reputable manufacturers of vessels, steam engines, boilers and ordnance; and especially from all naval constructors, steam engineers, and ordnance officers of the Navy having experience in such work.

One of the proposed vessels is to be an armored cruiser, and the other as powerful an armored battle-ship as can be obtained on the above displacement.

The requirements of the Department are laid down in a circular which will be furnished to those interested, on application to the Department, or to Commander F. E. Chadwick, U. S. N., Naval Attaché U. S. Legation, London, England, or to Lieutenant B. H. Buckingham, U. S. N., Naval Attaché U. S. Legation, Paris, France.

The designs submitted will be carefully examined, and one of each type will be selected for purchase, provided it can be obtained at the price mentioned in the Circular and otherwise conforms to its terms.

After purchase, the Department will be at liberty to make such modifications in the design as it may desire. It will then order working drawings. These must embody the modifications, and must conform in price and otherwise to the terms of the Circular.

Designers are at liberty to offer any design deemed by them most desirable, whether conforming to the data prepared by the Department or not. The designs must, however, conform to the conditions named in the Act of Congress above referred to, or they will not be considered. These are as follows:

"Two sea-going double-bottomed, armored vessels of about 6,000 tons displacement, designed for a speed of at least sixteen knots an hour, with engines having all necessary appliances for working under forced draught, to have a complete torpedo outfit, and be armed in the most effective manner."

Designs not accepted will be returned, and no copies taken or retained by the Department.

WILLIAM C. WHITNEY, Secretary of the Navy.

NAVY DEPARTMENT, WASHINGTON, D. C., August 21, 1886.

UNITED STATES ENGINEER OFFICE, P. O. Box 5346, Room 124, Post Office Building, Boston, Mass., Sept. 2, 1886.

SEALED PROPOSALS, in triplicate, will be received at this office until 12 o'clock noon, Wednesday, October 13, 1886, for the dredging of 30,000 cubic yards of material and the removal of "Harbor Rocks," by blasting, from the harbor at Scituate, Mass.

For specifications, blank forms, and all information, apply to the undersigned.

G. L. GILLESPIE, Major of Engineers, Bvt. Lt. Col., U. S. A.

UNITED STATES ENGINEER OFFICE, P. O. Box 5346, Room 124, P. O. Building, Boston, Mass., September 16, 1886.

SEALED PROPOSALS, in triplicate, will be received at this office until 12 o'clock noon of October 19, 1886, for the removal of about 900 cubic yards of shingle and gravel, and about 100 cubic yards of ledge from the harbor at Hingham, Mass.

For specifications, blank forms, and all information, apply to the undersigned.

G. L. GILLESPIE, Major of Engineers, Bvt. Lt. Col., U. S. A.

Detachable Magazine, charged.

Remington-Lee Musket with Magazine attached.

The Remington-Lee Detachable Magazine Rifle.

Recommended by the U. S. Magazine Arms Board,

First in Order of Merit for Trial in the Field,

AS A SERVICE ARM FOR THE U. S. ARMY.

A single Breech Loader, that can be instantaneously changed into a perfectly safe Magazine Arm, giving an unequalled rapidity of fire. Smaller number of component parts than any other Arm ever made. Every part simple and strong. Magazine may be attached or detached in one second, and the Breech System dismounted or assembled in ten seconds.

The Rifle weighs 8¼ lbs. without bayonet, and can be used as a Sporting Arm.

The possibility of a premature discharge through the bullet of one cartridge coming in contact with the primer of another, from the shock of continuous firing, the simple performance of ordering arms, or the effects of a long march—incidents of danger inseparable from Repeating Arms that carry their cartridges in Tubular Magazines under the barrel or in the butt-stock—is absolutely prevented; the position of the cartridges in the Lee detachable magazine not only assuring safety against explosion by impingement but against the deformation of the projectile by "upsetting."

RELATIVE RECORDS of the three arms recommended in order of merit by the late U. S. Magazine Arms Board:

	Remington-Lee Magazine Rifle.	*Chaffee-Reece.*	*Hotchkiss.*
Two minutes' firing as repeater with accuracy	68 shots, 41 hits.	38 shots, 25 hits.	31 shots, 14 hits.
Two minutes' firing as single loader	46 shots, 31 hits.	41 shots, 15 hits.	45 shots, 21 hits.

THE LEE MAGAZINE RIFLE is the only Military Repeating Arm which has demonstrated its superiority in RAPIDITY with ACCURACY as a REPEATER over its execution as a SINGLE LOADER.

Descriptive pamphlets in English, Spanish, and French sent on application.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 11. WHOLE NUMBER 1207. | NEW YORK, SATURDAY, OCTOBER 9, 1886. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

SEVERAL interesting reports from the Judge Advocates of the Army were received this week at the Office of the Acting Judge Advocate General.

ON the division team of twelve at Fort Leavenworth five of its members were cavalry men—something unusual, and much to the credit of the cavalry arm, whose proportion is six regiments in the Division of the Missouri, against seventeen regiments of infantry.

MAJOR JAMES BIDDLE, 6th Cav.; Major FARNSWORTH, Inspector-General, and Captain EDWARD HUNTER, 1st Cavalry, were detailed on Monday as a board, under section 2 of the Act of Congress approved Aug. 4, 1886, to assist the Secretary of War in examining and reporting upon claims of States and Territories against the United States.

THE nine non-commissioned officers who were examined for promotion have not yet been commissioned, and it is not definitely decided that they will be. At present there are eleven vacancies in the grade of 2d lieutenant, but the President is not disposed to fill them all just now and leave West Point graduates out in the cold. The graduating class will number sixty-five. It may be decided at an early date, however, to commission those who have successfully passed their examination.

THE retirements of Brigadier-General POTTER, Oct. 12; Colonel G. N. WHISTLER, 15th Infantry, Oct. 19, and of Colonel L. P. BRADLEY, Dec. 8, will materially increase the flow of promotion, but until a successor to General POTTER has been designated by the President it is impossible to give an accurate list of the resulting promotions. Were it assured that an infantry colonel would receive the star then the list could be prepared, but it *may* fall to an artillery or a cavalry colonel, although many seem to doubt it.

BY act of Congress, approved March 27, 1794, the following rates of pay for commissioned and warrant officers were established: Captain, $75 per month, and six rations per day; Lieutenant, $40 per month, and three rations; Lieutenant of Marines, $26 per month, and two rations; Chaplain, $40 per month, and two rations; Surgeon, $50 per month, and two rations; Purser, $40 per month, and two rations; Boatswain, Gunner, Sailmaker, and Carpenter, each $14 per month, and two rations a day. Rather a contrast to the pay table of A. D. 1886.

SO FAR as we can learn, officers of other armies, unlike our own, are not interfered with between their hours of duty, and they go wherever they wish. They are not hunted at all hours of the day and night by orderlies with messages, orders, etc., that could as well be delivered at a fixed office hour daily. How can we expect our young officers to become self-respecting, self-reliant, manly, courteous men, if we treat them as small boys; place no reliance or responsibility on them, allow them no discretion, and subject them to discourteous treatment from their seniors? Is not a reform in this respect needed in our Service, or in some parts of it at least?

ALTHOUGH the Secretary of War has been on duty for some time the appointments to the head of the Medical and of the Engineer Departments of the Army have not yet been finally decided upon. It is the impression at the War Department that they will not be made until after the retirement of Brigadier General POTTER, which occurs on October 14. It is taken for granted that Colonel DUANE will be appointed Chief of Engineers. Our information now is that Colonel ORLANDO B. WILLCOX, Twelfth U. S. Infantry, will be appointed Brigadier General, the special reasons for passing him over for the benefit of General POTTER, which existed until the latter was promoted, no longer prevailing.

THE Brooklyn *Union* has a fearful tale to tell of the way two soldiers, CUNNINGHAM and MCHUGH, of Fort Hamilton, were treated while in camp at Creedmoor, and subsequently while awaiting trial by General Court-martial for various offences. An eye-witness of the occurrence, according to the *Union*, admits there is very little sympathy among the soldiers for the two offenders, but still thinks there was injustice done. It seems enough to say MCHUGH got dishonorable discharge and five years' imprisonment for an offence which in any other service but our own would have incurred a much more severe punishment, perhaps death. CUNNINGHAM'S offence was mainly drunkenness, and his punishment was light.

ACCORDING to an official report on the French Naval Estimates, it appears that the value of the French Fleet afloat was $40,000,000 in 1872, and that next year it will be $60,000,000, or close upon $80,000,000 counting the ships in course of construction. The report says that between 1872 and 1886 a sum of over $90,000,000 has been spent in new ships. Among the questions dealt with at great length in the report is the speed of the French ships of war. Regret is expressed that none of the French ironclads, not even those now being built, can steam more than sixteen knots, whereas several foreign ironclads steam eighteen knots. The report owns that with respect to the speed of her war-vessels France is in a decidedly inferior position. As for the fleet of torpedo-boats possessed by France, it now consists of nine seagoing torpedo-boats, eighteen first-class torpedo boats, forty-one of the second class, and nine torpedo vidette boats. Five other torpedo-boats are to be completed next year, and another torpedo-boat of an entirely new description has just been ordered. It is to steam twenty-five knots, and to be called the *Ouragan*. Eight more aviso torpedo-boats will also be finished and delivered to the government by the end of the year.

IT was recently announced from Washington that the first of the 8-inch naval steel guns built at the Washington yard had burst on the thirteenth round during its trial at the Annapolis proving ground. It is now stated that this report had its origin in the jealousies aroused by the recent changes in the Washington yard. In answer to inquiries from the Ordnance Bureau of the Navy Department a telegram has been received from Ensign LLOYD, the officer in charge of the proving grounds, stating that no accident whatever had happened to the 8-inch steel rifle, and that it was last fired Sept. 23. It is further stated that the gun has thus far proved satisfactory in every respect, and it is claimed that it will prove the best gun of its kind in the world. It has not yet been through the statutory tests, however, required by law, and is now awaiting the action of the board of naval officers appointed by the Secretary of the Navy, who will endeavor to test it as thoroughly as if in genuine battle. The gun has simply been fired for the purpose of developing the powder. Four rounds of the Westphalian powder had been ordered for the *Atlanta* before Messrs. DUPONT had developed their cocoa powder, and the gun was fired with both kinds, showing the DUPONT powder but a little less satisfactory than the Westphalian. With a charge of 123 lbs. the gun gave a velocity of 2,013 feet per second, and with 122 lbs. it gave 1,999 feet. As the velocity desired was 2,000 feet, it was considered that the preliminary tests were highly satisfactory, particularly as the pressures developed were well within the limit of safety.

WE do not intend, as we have said elsewhere, to pass judgment upon General MILES'S report of his operations in Arizona until we have the report before us. The probabilities now are that it will not be made public until the Secretary of War has completed his own report. That General MILES'S report does not give satisfaction to all the authorities at Washington is obvious, and it was among the subjects under discussion at the Cabinet meeting of Thursday. No decision with reference to it was reached, and action on it will probably be delayed for some days, as there are important and difficult questions to be settled. There is a prospect that General MILES may be summoned to Washington for explanation, and this would seem to be the fairest course to take. A word of explanation sometimes makes clear what reams of correspondence cannot elucidate. General MILES is considered to have departed from the letter of his instructions, but it does not follow that he has exceeded the reasonable discretion allowed him. When he assumed command of the Dept. of Arizona the Lieutenant General directed him to establish his headquarters near the Southern Pacific, and that "the operations looking to the *destruction* or *capture* of the hostile Indians be ceaselessly carried on." The Lieutenant General refrained from embarrassing General MILES with specific instructions concerning his military operations, further than to direct the use of United States troops in the pursuit of Indians. The Department criticism now is that a surrender is not a capture in any sense of the word, and that General MILES should not have made any terms in view of the precedent in General CROOK'S case, who could have secured the prisoners last spring had he been allowed to accept conditions. But it should not be forgotten that the general public are not at all concerned with the question of a division of credit between General MILES and General CROOK. They ask only whether the Apaches are where they can do no further mischief, and if this question is answered to their satisfaction, and it is further shown that General MILES was hampered with instructions which would have prevented him from accomplishing the desired result if they had been strictly followed, the popular criticism will be upon the instructions and not upon General MILES. What the country wants is peace in Arizona; not an opportunity to brandish a few Indian scalps. The important question then is whether our warfare with the Indians in Arizona and New Mexico is at an end.

PERSONAL ITEMS.

MAJOR J. M. BACON, 7th Cavalry, leaves Fort Totten, Dakota, on a month's leave.

COLONEL A. P. BLUNT, U. S. A., rejoined at Fort Leavenworth this week from a visit to the East.

COLONEL R. I. DODGE, 11th Infantry, has arrived in the East from Fort Sully on a six months' leave.

DR. L. H. MUNN and Mrs. Munn, whose marriage we announced last week, are visiting in Boston, Mass.

CAPTAIN W. A. KOBBE, 3d U. S. Artillery, returned to Fort Monroe, Va., on Tuesday from a short leave.

ASSISTANT SURGEON C. F. MASON, who recently left Plattsburg Barracks, N. Y., has arrived at Fort Verde, Ariz.

PAYMASTER C. C. SNIFFEN, U. S. A., returned to New York City early in the week from a visit to Washington.

PROFESSOR SIMON NEWCOMB'S "Plain Man's Talk on the Labor Question" is now in the press of Harper and Brothers.

GENERAL H. G. THOMAS, Pay Department, U. S. Army, who has been on sick leave since March, 1884, is at Saccarappa, Me.

COLONEL C. H. TOMPKINS, U. S. A., returned to Governor's Island on Wednesday from an official visit to Fort McHenry, Md.

LIEUTENANT F. A. EDWARDS, 1st U. S. Cavalry, returned to Jefferson Barracks, Mo., early in the week from a trip to Fort Leavenworth.

GENERAL A. G. BRACKETT, U. S. A., on leave from Texas, and recently at Des Moines, Iowa, has been visiting friends at Rock Island, Ill.

DR. WALTER WHITNEY, of Fort Reno, is visiting his brother, Mr. J. N. Whitney, Chief Clerk of the Bureau of Statistics at Washington, D. C.

CAPTAIN H. DE H. HAIG, Royal Engineers, British Army, was in New York this week, located at the Hoffman House. He is stationed at Bermuda.

COLONEL E. GRAS, Capt. F. Ply, and Capt. P. Veyrines, of the French Army, arrived in New York this week and registered at the Victoria Hotel.

LIEUTENANT J. C. SCANTLING, 2d U. S. Artillery, who has been visiting east for some time past, was due at Mount Vernon Barracks, Ala., this week.

CAPTAIN J. P. STORY and Lieut. W. F. Stewart, 4th Artillery, of Fort Warren, Mass., were visitors this week at Fort Preble, Me., on Court-martial service.

LIEUTENANT F. W. SIBLEY, 2d Cavalry, who has relinquished recruiting duty at Jefferson Barracks, Mo., will join his troop at Fort Walla Walla early in November.

GENERAL G. W. CULLUM, U. S. A., retired, left Newport, R. I., Oct. 4, where he has been spending the summer, for his winter residence, 261 Fifth ave., New York City.

SURGEON W. H. GARDNER, U. S. A., lately North on leave from Texas, reported on Thursday to Maj.-General Schofield for duty at a post in the Division of the Atlantic.

LIEUTENANT D. DUB. GAILLARD, Corps of Engineers, U. S. A., leaves Willet's Point on Saturday of this week, to be absent on leave till towards the end of November.

MAJOR W. L. KELLOGG, 19th U. S. Infantry, assumed command of Columbus Barracks, Ohio, this week, and Major S. S. Sumner, 8th Cavalry, of Jefferson Barracks, Mo.

LIEUTENANT J. W. HANNAY, 3d U. S. Infantry, who relinquished recruiting duty at Cleveland, O., this week, will remain east on leave until the latter part of next January.

MAJOR G. F. BARSTOW, U. S. A., will take his battery from Fort McHenry, Md., to Washington Barracks, D. C., early next week for a short tour of rifle practice at the longer ranges.

GENERAL J. C. TIDBALL, U. S. A., has returned from a short visit to Ohio and relieved Major R. T. Frank, 1st Artillery, of the temporary command of the Artillery School, Fort Monroe.

GENERAL R. C. DRUM, now that Secretary of War Endicott has returned, has resumed charge of the A. G. O., relieving Gen. J. C. Kelton from his temporary detail as acting Adjutant-General.

MRS. MITCHAM, wife of Lieut. O. B. Mitcham Ordnance Department, stationed at West Point, has been enjoying the sea breeze, in company with Miss Baldwin, at Bridgehampton, Long Island.

MAJORS H. B. REESE and J. P. Willard, of the Pay Department, U. S. A., have been awaiting orders at their own request for over a year, the former at Lancaster, O., and the latter at New York City.

LIEUTENANT E. L. ZALINSKI, 5th U. S. Artillery, completed his tour with the Light Battery at Fort Hamilton, Oct. 1, but remains at that post for the present attached to Crabb's battery, I, to continue his torpedo experiments.

LIEUTENANT GEO. S. YOUNG, 7th Infantry, was married to Miss Edythe, daughter of Mr. and Mrs. Moses W. Field, Wednesday, October 6, at Detroit, Michigan, the ceremony occurring at St. Paul's Church, at 8 o'clock P. M.

THE promotion of 1st Lieut. B. D. Price, 4th Infantry, to a captaincy Sept. 17, vice Captain Von Herrmann, retired, removes from the adjutancy of the regiment one of the most courteous and energetic staff officers in any portion of the Service.

MRS. SELLERS, widow of the late Major E. E. Sellers, 10th Infantry, was married Thursday, September 30, at St. Mark's Church, Chicago, to Capt. W. T. Duggan, 10th Infantry, an intimate friend and associate of Major Sellers. After a month's leave of absence, Captain Duggan will take his bride to Fort Union, New Mexico.

CAPTAIN H. J. HAYNSWORTH, U. S. A., was a guest at the Continental Hotel, Philadelphia, this week.

CAPTAIN JESSE C. CHANCE, 13th U. S. Infantry, under recent orders, goes from Fort Selden to Fort Wingate, N. M.

MAJOR W. F. RANDOLPH, U. S. A., returned to Fort Hamilton, N. Y. H., on Thursday from a short visit to Newport, R. I.

GENERAL B. W. BRICE, U. S. A., retired, who was a resident so long of Baltimore, is now at the Hotel Arno, Washington, D. C.

GENERAL P. R. DE TROBRIAND, U. S. A., retired, visited friends in Washington last week on his way from New York to New Orleans.

1ST LIEUTENANT A. M. WETHERILL, 6th Infantry, is acting as quartermaster 6th Infantry, Fort Leavenworth, during the absence of Lieut. Carland.

CAPTAIN J. F. MOUNT, 3d U. S. Artillery, and family have rejoined at Washington Barracks, D. C., from a pleasant sojourn at Rockville, Md.

LIEUTENANT-COLONEL E. D. JUDD, U. S. A., retired, is on a visit to New York City this week from Hartford, Conn. He is staying at the New York Hotel.

LIEUTENANT C. P. TERRETT, 8th Infantry, lately at St. Augustine, Fla., with Indian prisoners, will spend a few weeks in the East before returning to Arizona.

LIEUTENANT W. R. ABERCROMBIE left Fort Omaha this week for the East, to be married to Miss Kimball, daughter of Col. A. S. Kimball, Quartermaster, U. S. Army.

LIEUTENANT W. W. GALBRAITH, 5th U. S. Artillery, of Fort Hamilton, left New York on Wednesday in charge of a squad of prisoners for the Leavenworth Military Prison.

CAPTAIN F. C. GRUGAN, 2d U. S. Artillery, of Camp Hancock, Atlanta, Ga., arrived in Philadelphia early in the week and will remain until towards the end of October.

CAPTAIN F. A. BOUTELLE, the Dakota team captain, has, says the *Press*, returned to Fort Snelling with his men, and will remain in St. Paul a few days before going to Fort Custer.

LIEUTENANT SEDGWICK RICE, 7th U. S. Cavalry, has been visiting friends at Fort Leavenworth on his return to Fort Meade from Wichita, Kansas, where he was in attendance as a witness in a case before the civil courts.

GUSTAVUS REMAK, who died recently in Philadelphia, died intestate, leaving an estate valued at $100,000, which goes to his two sons, Stanislaus and Gustavus. Stanislaus was formerly a lieutenant of the 5th U. S. Artillery and resigned Sept. 1, 1871.

THE New Orleans *Times-Democrat* says: "General Kirby Smith and his accomplished wife celebrated their silver wedding at Sewanee, Tenn., Saturday last. General and Mrs. Kirby Smith, with their eleven sons and daughters, received the guests."

LIEUTENANT R. K. EVANS, 12th U. S. Infantry, who for several months past has been on duty at Fort Ontario, N. Y., returned this week to Madison Barracks, Sackett's Harbor, N. Y., being replaced at Fort Ontario by Lieutenant W. O. Clark, 12th Infantry.

COLONEL THOMAS M. ANDERSON, promoted to colonelcy 14th Infantry, vice Hunt, deceased, is at 613 North 43d street, Philadelphia, for a short time, preparatory to leaving for Vancouver Barracks, to take command of his regiment. He visited in New York on Thursday.

CAPTAIN A. L. VARNEY, Ordnance Department, has returned to Rock Island Arsenal, from a trip to Fort Leavenworth, Cheyenne and Omaha. While in Nebraska he waged deadly warfare against the Aborigines, capturing a number of prairie chickens as the result of his hunt.

GENERAL R. B. AYRES, U. S. A., has returned to St. Augustine, Fla., and resumed command of St. Francis Barracks and Fort Marion, relieving Lieut.-Col. L. L. Langdon. The latter will go to Atlanta and after remaining there a short time may come North to visit his family.

WE are informed that Gen. Miles expects to return to Fort Leavenworth and take command of the Department of the Missouri on the retirement of Gen. Potter this month. All of his household goods were stored at Fort Leavenworth last spring to remain until his return this autumn.

LIEUTENANT F. W. ELLIS, Signal Corps, U. S. A., on duty at Washington, was married at Foundry Church Oct. 6 to Miss Fannie Anderson. The officers of the Signal Corps and ladies and many friends were present, and several handsome presents were given, including a handsome clock from the groom's brother officers.

MAJOR GILLISS, Chief Quartermaster, Department of the Missouri, has returned to Fort Leavenworth from a two weeks' trip to Conejos, Colorado, Cheyenne and Omaha. While in the mountains of Colorado, he made a fishing record, in company with Lieut. Townsend, 6th Inf., of nearly 500 speckled trout within a week.

LIEUTENANT JOHN M. CARSON, Jr., 5th Cavalry, son of Major Carson of the Philadelphia *Ledger*, is a musician as well as a promising young soldier. He is adjutant of Fort Reno and has joined hands with Chaplain John S. Seibold in organizing a post choir from the enlisted men, and plays the organ himself. He has also started a post band.—*Critic.*

THE New York *Tribune*, in its "Sights of an October Saturday," says: "About Madison Square, the Fifth Avenue Hotel, and the Hoffman House I find that the well-known people are thick. General Sherman is coming out of the Fifth Avenue in a dusty sack coat of brown material, pulling away at the stub of a cigar which he holds between his teeth in much the same way as General Grant used to do. The General is extremely gray, and his stubby beard is kept so closely trimmed that it looks like the growth of only a day or two."

GENERAL THOMAS M. VINCENT, U. S. A., of Gen Ruger's staff, was expected East this week, to remain for about a month.

PRINCE LOUIS NAPOLEON, nephew of the King of Italy, was to arrive in San Francisco this week to make a tour of the United States.

LIEUT. CURTIS, 2d Artillery, has arrived at Mount Vernon, Iowa, and is actively engaged in matters pertaining to his new duties at Mount Vernon College.

LIEUTENANT E. L. ZALINSKI, 5th U. S. Artillery of the National Rifle Association, is to go to Boston to formally present the Hilton Trophy to the Massachusetts team.

LIEUTENANT J. W. BENÉT, 5th Artillery, relinquished duty with Light Battery F at Fort Hamilton early in the week and has joined Battery L at the same post.

GENERAL S. V. BENÉT, U. S. A., was expected to arrive this week from France with his son, who has been attending the School of Gunnery and Engineering in Paris.

COLONEL S. E. BLUNT and Guy V. Henry, and Lieut. Philip Reade, U. S. A., Inspectors of Rifle Practice, were to visit the Bellevue Rifle Range, near Omaha, Oct. 2.

COLONEL C. A. WOODRUFF, 2d U. S. Artillery, on a short leave from Fort Leavenworth, has joined Mrs. Woodruff at Raleigh, N. C., where she has been visiting for some time past.

CAPTAIN GEO. MITCHELL, 2d U. S. Artillery, at present visiting at 1910 Sunderland place, Washington, will return to St. Francis Barracks, Fla., towards the end of October.

MRS. BARRY, wife of Lieut. Barry, R. Q. M., 1st Infantry, and Miss Greble, sister of Lieut. Greble, A. D. C. to General Howard, will leave Washington, this week, for San Francisco.

COLONELS O. M. POE, C. B. Comstock, and Major J. C. Post, Corps of Engineers, U. S. A., were in Chicago early in the week, the two former at the Tremont and the latter at the Grand Pacific.

COLONEL HENRY DOUGLASS, 10th U. S. Infantry, arrived at Fort Bliss, Texas, early in the week with his headquarters, and Captain Gregory Barrett, 10th Infantry, has left there with his company for Fort Selden.

LIEUTENANT B. B. BUCK, 16th U. S. Infantry, will be married at Fort McIntosh, Texas, Oct. 20, to Miss Katie May Bernard, daughter of Col. R. F. Bernard, U. S. Army. The wedding will take place in the evening and will be an event at the far off post of Fort McIntosh, all the parties interested being exceedingly popular.

MRS. ALMY, wife of Lieutenant W. E. Almy, 5th Cav., and daughter-in-law of Rear-Admiral Almy, is visiting at her old home in Philadelphia, accompanied by her sister, Miss Sellers. Her husband, on the arrival at Fort Reno of Lieutenant Schuyler, will come East and divide the winter between Washington and Philadelphia.

LIEUTENANT C. H. MURRAY, 4th Cavalry, has been relieved from duty as secretary of the Infantry and Cavalry School, and Lieut. W. T. Wood, 18th Infantry, detailed in his stead. Lieut. Murray has filled that position since 1881, which alone is proof of the satisfactory manner in which he has conducted the duties of that office under the different commandants.—*Kansas City Times.*

THE Sidney *Telegraph* says: Henry and Will Morrow, the two promising sons of Gen. Morrow, returned to Ann Arbor Tuesday to continue their studies at the University....Lieut. McCaskey, one of the new officers of the 21st Infantry, was a passenger last evening, en route to Fort DuChesne.... Mrs. Ross, of Winchester, Va., wife of Lieut. Ross, formerly an officer in the 21st Infantry, is visiting Mrs. Lieut. Bonesteel at Fort Sidney....Lieut. Palmer is back at Sidney after floating around several months at western posts as an extra.

THE Omaha *Bee* says: "A tall, straight and soldierly-looking old gentleman, with hair and whiskers as white as snow, stood Tuesday morning talking to General Dandy in the corridor of the Army Headquarters. He was recognized as General Randolph B. Marcy, U. S. A., retired, one of the most gallant and popular of that long line of officers who are now affectionately referred to by the younger generation as members of the 'old Army.' General Marcy is the father of Mrs. Gen. George B. McClellan. He is accompanied by Dr. Seward, of Orange, N. J., with whom he has been out on a pleasant hunting trip in the Wind River Mountains, in company with Col. Edward Hatch, 9th Cavalry. Gen. Marcy, who is 75 years of age, has all the vigor and life of a man of 50. He says he as thoroughly enjoyed his hunting trip as he used to years ago when this whole Western country was a wilderness, and he a young lieutenant in the 5th Cavalry. He left yesterday for Colorado."

THE Valentine *Blade* says of Fort Niobrara:

One troop of cavalry is expected to leave in a few days for Leavenworth. That makes us all feel very sorry, as it will take from our midst our gentlemanly and efficient quartermaster, Lieut. Bingham ...Quite a serious runaway accident happened this week to Lieut. Hutcheson while driving out in his buggy. When first picked up he was thought to be seriously hurt, but with the exception of a lame knee he is all right.

THE Omaha *Excelsior* of Oct. 2 says:

Lieut. C. B. Baker, 7th Infantry, paid Lieut. Townsley a flying visit Tuesday on his way to join his regiment at Laramie.....Lieut. and Mrs. Pickering and family started Friday on a visit to relatives in Indiana. They make a four months' stay and will be missed at Fort Omaha, as they leave a large circle of friends..... Lieut. and Mrs. Dwight Holley were at the Millard, Saturday, on their way to Fort Halleck, Nev. Lieut. Holley graduated last June, and his bride was Miss Howard, one of the belles of Syracuse, N. Y.....On Tuesday Lieut. John S. Mallory, 2d Infantry, and his charming bride, stopped at Fort Omaha to see their many friends, and were the guests of Gen. and Mrs. Wheaton. Lieut. Mallory will join at Fort Robinson the latter part of October..... Lieut. William R. Abercrombie, 2d Infantry, starts this week for a bride, Miss Kimball, daughter of Major Amos Kimball, U. S. A. The wedding will take place in Grace Church, New York City, about October 15. "Happy Jack" is to be congratulated upon the excellence of his choice, since everyone speaks of the intended bride in the highest terms.

MAJOR A. S. KIMBALL, quartermaster, U. S. A., arrived in New York City this week.

COLONEL C. L. BEST, 4th U. S. Artillery, left Fort Adams, R. I., on Monday, on a short leave.

LIEUTENANT E. H. BROOKE, 21st U. S. Infantry, has rejoined at Fort Sidney, Neb., from Omaha.

LIEUT. S. F. MASSEY, 5th Artillery, visited his relatives in Sandusky, Ohio, on his way West to Fort Douglas.

LIEUTENANT S. W. FOUNTAIN, 8th Cavalry, will shortly go to Jefferson Barracks, Mo., for a tour of recruiting duty.

CHAPLAIN G. G. MULLINS, U. S. A., who has settled in St. Louis, has been placed on leave until further orders to await retirement.

MRS. HALL, wife of Col. R. H. Hall, Inspector General, Dept. Platte, returned to Omaha, last week, from her summering in Michigan.

CAPTAIN J. G. RAMSAY, 2d U. S. Artillery, who will soon return to Jackson Barracks, New Orleans, visited friends in New York this week.

MAJOR W. F. RANDOLPH, U. S. A., attended the wedding at Newport, R. I., October 5, of Mr. H. W. Hare Powel to Miss Marian Clifford Howard.

LIEUTENANT WALTER K. WRIGHT, 16th U. S. Inf., was married Oct. 7 at Frankfort, Ky., to Mrs. Bacon, widow of Lieut. Geo. E. Bacon, 16th Infantry.

LIEUTENANT F. W. FOSTER, 5th U. S. Cavalry, and Mrs. Foster, who have been visiting at Fort Leavenworth, were to leave this week for Fort Reno.

MRS. MATILE, wife of Capt. L. A. Matile, 11th Inf., with her little daughters, has arrived in Washington, where she will pass the winter. Mrs. Matile has taken rooms at the Clarendon.

CAPTAIN D. M. TAYLOR, U. S. A., of the Ordnance Department, is again on duty in the office of the Secretary of War, returning to Washington about the same time the Secretary did.

CAPTAIN SAMUEL MCKEEVER, 2d Infantry, late in charge of the recruiting rendezvous at Albany, takes charge of the rendezvous at Boston, vacated by Captain E. P. Ewers, 5th U. S. Infantry, whose tour has expired.

MRS. FRED GRANT, like Mrs. Grover Cleveland, believes in a woman keeping her family name as a middle name after her marriage, and while Mrs. Cleveland signs herself Frances Folsom Cleveland, Mrs. Fred Grant's signature reads Ida Honore Grant.

DR. GATLING, the inventor of the Gatling gun, lives in an unpretentious but comfortable house near Hartford, and goes but little into society, being absorbed by his own ideas and work. His daughter Ida is the wife of the Rev. Hugh Pentecost, of Brooklyn.

MAJOR-GENERAL J. M. SCHOFIELD, U. S. A., attended the dinner of the Seventh Regiment Veterans at Delmonico's on Wednesday evening, and responded for "The Army and Navy." The occasion was an enjoyable one and several noted citizens and soldiers were present.

LIEUTENANT S. W. GROESBECK, 6th Infantry, has been selected for duty as Acting Judge-Advocate, Department of Dakota, vice Col. Thos. F. Barr, transferred to Chicago. If we recollect aright Lieut. Groesbeck was on duty a few years ago as Judge-Advocate of the Department of the Missouri, and displayed much ability while holding the position.

MRS. COLT, the widow of the famous inventor of the Colt revolver, is described as a quiet, dignified lady of middle age, gentle and cultivated in manner and decidedly aristocratic in appearance. She usually dresses in black silk, very stylishly made, and her white hands are ornamented by a number of diamond rings of great brilliancy and value. Her gray hair is arranged in massive coils. Mrs. Colt's brother, Mr. Jarvis, and her sister's husband, Mr. Nicholas Beach, carry on the business of her late husband.

THE *Gazette Anecdotique* has collected a list of the various places where Napoleon lodged between the times of his arrival in Paris in 1784 and the year of his fall in 1815. The gradations are: (1.) Part of a garret in the École Militaire. (2.) A cubicle under the roof of the Quai Conti. (3.) An attic in the Hôtel de Metz, Rue du Mail. (4.) A room in the Hôtel des Droits de l'Homme, Rue des Fosses Monmartes. (5.) A small apartment, 19 Rue de la Michodière. (6.) A room in the Hôtel Mirabeau. (7.) A mansion in the Rue Neuve des Capucines. (8.) A mansion in the present Rue de la Victoire. (9.) The Palace of the Luxembourg. (10.) The Palace of the Tuileries. The paper omits to mention Napoleon's quarters in St. Helena.

THE Brackett *News*, of Oct. 2, has the following Fort Clark items:

Capt. Vance is expected to arrive in a short time....Lieut. and Mrs. J. H. King have gone to Marathon, Presidio County ...Lieut. Guard is pleased with the prospect of soon having his family, on their way from St. Paul, with him, after their long absence ...Lieut. Wallcott, a recent graduate, arrived Thursday for duty with Troop K, 8th Cav....Miss Boyd, who has been visiting at Fort Clark, returned to New York Wednesday.

THE Omaha *Excelsior*, referring to the "travel ration" system, says:

It is certainly a small amount to allow a man $1.50 a day to buy food, when a citizen can not get his three meals for less than $2.25. The spectacle of a soldier travelling on our cars with three loaves of bread on his back, a can of baked beans under one arm, and of corn beef, under the other, with 21 cents in his pocket to buy his coffee, is such as to bring ridicule upon the Service, and make a capital caricature fit for the pencil of Nast, the artist.

THE Vancouver *Independent* of Sept. 30 says:

Captain W. I. Sanborn, 25th Inf., on Saturday left Vancouver, to rejoin at Fort Sisseton....Captain F. E. Trotter, 14th Inf., was in Wyoming a few days since, bringing a detachment of recruits....Colonel Wm. H. Jordan and family, who have been summering at Astoria, sailed for San Francisco, en route to the East ...Captain McGregor's command, 2d Cav., will remain in camp near Ellensburg until the middle of October, when they will return to Fort Walla Walla. ....Major D. W. Burke, Lieutenants Cabel and Calhoun, 14th Inf., returned the first of the week from their trip to the Mt. St. Helens region, having had a fine outing among the trout and game.

COLONEL H. C. HODGES, U. S. A., of New York, took a trip to Erie, Pa., this week.

CAPTAIN G. K. SANDERSON, 11th U. S. Infantry, will spend the winter at Springfield, O.

CAPTAIN JOHN SIMPSON, U. S. A., and family, have returned to San Antonio from a visit North.

CAPTAIN H. G. CAVENAUGH, 13th Infantry, on leave from Fort Bayard, N. M., will rejoin early in November.

COLONEL H. C. MERRIAM, 7th U. S. Infantry, was to leave Fort Laramie, Wyo., this week on a month's leave.

LIEUTENANT J. CARLAND, R. Q. M., 6th U. S. Infantry, has rejoined at Fort Leavenworth from a month's leave.

QUARTERMASTER D. H. BRUSH, 17th U. S. Infantry left Fort Laramie, Wyo., on Sunday last, to be absent a fortnight.

LIEUTENANT-GENERAL SHERIDAN is expected to reach Washington Sunday night or Monday morning from Denver.

LIEUTENANT E. H. CATLIN, 2d U. S. Artillery, lately at Fort Leavenworth, has joined at Jackson Barracks, New Orleans.

GENERAL T. M. VINCENT, U. S. A., left St. Paul, Oct. 1, for the East and will return to Fort Snelling about the end of the month.

LIEUTENANT MICHAEL MANGAN, U. S. A., retired, of Fond du Lac, Wis., was a recent guest at the Grand Pacific Hotel, Chicago.

LIEUTENANT W. P. DUVALL, 5th Artillery, left Fort Leavenworth, Oct. 2, for the West, and will shortly return to Washington.

SURGEON DALLAS BACHE, U. S. A., on leave from Fort Adams, R. I., visited in New York this week, registering at the Grand Hotel.

LIEUTENANT G. F. BARNEY, 2d U. S. Artillery, lately at Fort Monroe, Va., has joined Woodruff's Light Battery at Fort Leavenworth.

LIEUTENANT-GENERAL SHERIDAN and Mrs. Sheridan and Gen. Rucker and Miss Rucker were while at Fort Leavenworth the guests of Col. W. A. Rucker, chief paymaster.

THE foundation of the new location of the statue of Gen. Rawlins at Ninth street and Pennsylvania avenue, Washington, has been completed, and the removal and resetting of the pedestal and statue will be completed by Oct. 18.

CAPTAINS ILSLEY AND DE RUDIO, 7th Cavalry, are to take their troops from Fort Meade to Fort Yates; Captains McDougall and Godfrey, from Yates to Meade; Captain Edgerly, from Keogh to Meade, and Captain Moylan, from Meade to Keogh.

LIEUTENANT C. H. COCHRANE, 7th U. S. Infantry, was married September 22 at Zanesville, O., to Miss Anna Granger, a niece of Colonel R. S. Granger, U. S. Army, retired. After a few weeks wedding tour Lieutenant Cochrane and bride will join at Fort Laramie.

GENERAL GRANT, says Badeau in one of his papers, always had an idea that the man who sought a place was unfit for it; that the place should seek the man; a notion that in his case might have been correct, for he lacked ordinary ambition and yet possessed great faculties.

CAPTAIN F. D. GARRETTY, 17th Infantry, left New York this week for Chicago, where he will take charge of the recruiting rendezvous. We congratulate the captain on his assignment, for Chicago, we believe, ranks next to New York as a desirable recruiting station.

MAJOR-GENERAL JOHN POPE, U. S. A., has recently taken a house at No. 3223 Lucas Ave., St. Louis, Mo., where he intends remaining for the next two years, or until his son, a recent graduate of Harvard College, establishes himself in the practice of law. His younger son is at the Polytechnic School, St. Louis, preparing himself for the profession of civil engineer.

LIEUTENANT CHARLES HUNTER, 1st U. S. Artillery, was married at San Francisco Sept. 22 to Miss Helen Lake, daughter of the Hon. Delos Lake, at the bride's home, 1020 Jackson street. About thirty guests were present. The bride was attended by her sister and Capt. J. W. Dillenback, 1st U. S. Artillery, was "best man." After the ceremony the married couple went to Napa Soda Springs, and after a short tour go to Vancouver Barracks.

AN old log house at City Point owned by Dr. Richard Epps, known as General Grant's headquarters, was purchased October 4 by Captain Thomas E. Halleck, of New York. This is the house where General Grant issued his last order declaring peace and the term of General Lee's surrender, etc. The house is to be removed to New York by Capt. Halleck, who will transfer it by sale or gift to the Grant Monument Association, to be re-erected in Riverside Park near General Grant's tomb.

THE vignette of General Grant, selected for the new five dollar silver certificate, will be a side face, the only one of the General ever taken. It is remarkable in that the face and the lower jaw form a perfect right angle, excepting, of course, the projection of the nose. It is said by those familiar with the outlines of the faces of prominent men to be the only one known to them having this characteristic. It explains what was often said of the General—that his grip was like that of the bulldog, whose square head is its peculiarity.

THE following officers have been admitted to membership in the Army Mutual Aid Association: Captains L. E. Campbell, Q. M. D., and J. E. Greer, Ord. Dept.; Rev. T. W. Barry, Post Chaplain; Lieutenants C. W. Mason, 4th Inf.; W. H. Sage, 5th Inf.; D. E. McCarthy, 12th Inf.; W. S. Scott, 1st Cav.; E. S. Robins, 3d Cav.; E. B. Weeks, 5th Inf.; D. H. Boughton, 4d Cav.; W. M. Dickinson, 4th Cav.; R. B. Paddock, 6th Cav.; P. E. Trippe, 10th Cav.; W. J. Pardee, 18th Inf.; W. L. Mason, 3d Cav.; C. B. Hardin, 18th Inf.; J. Y. M. Blunt, 10th Inf.; R. M. Blatchford, 11th Inf.; Charles Dodge, Jr., 24th Inf.; T. C. Woodbury, 16th Inf.; W. O. Clark, 12th Inf.

COLONEL A. V. KAUTZ, 8th U. S. Infantry, says the *Alta California*, is favorably known and well remembered by many of the prominent citizens of San Francisco, and his promotion to the full rank of Brigadier General in the Army would be hailed with pleasure in this community.

ASSISTANT SURGEON WALTER R. FISHER, U. S. A., was married Oct. 7 at Oswego, N. Y., to Miss Eliot M. Churchill, daughter of the Hon. J. C. Churchill, Justice of the Supreme Court. The ceremony took place at Grace Church in the presence of a large and fashionable assemblage. After the wedding reception the married couple left on their bridal tour, after which they will go to the Pacific coast, where the Doctor is stationed.

THE family of Rear Admiral S. B. Luce, U. S. N., will spend the winter at Newport, R. I.

LIEUTENANT S. A. STAUNTON, U. S. N., and bride visited in Washington and Philadelphia this week.

ADMIRAL SHOSTAKOFF, the Russian Minister of Marine, and staff, sailed for Europe on Saturday last.

MEDICAL DIRECTOR A. L. GIHON, U. S. N., arrived in San Francisco, this week, for duty at Mare Island.

COMMODORE W. K. MAYO, U. S. N., was in New York this week, registering at the Murray Hill Hotel.

NAVAL CADET T. A. W. SHOCK, U. S. N., registered early this week at the Hotel Continental, Paris, France.

DR. THOMAS OWENS, U. S. N., well remembered in Washington, is now at the Naval Station, New London, Conn.

ENSIGN M. K. EYRE, U. S. N., and bride, have been visiting relatives in Philadelphia, and have since joined at Annapolis, Md.

PAY DIRECTOR R. H. CLARK, U. S. N., retired, of Milford, Del., was at the Washington Hotel, Philadelphia, early in the week.

ADMIRAL C. R. P. RODGERS, U. S. N., has returned to his home, 1721 I St., Washington, D. C., from Far Rockaway, Long Island, N. Y.

IT is rumored, says an exchange, that the handsome Dr. M. L. Ruth, U. S. Navy, will soon lead to the altar Miss Harris of New York City.

MR. JOHN NELSON, of the U. S. Coast Survey, was married at Washington Sept. 28 to Miss Lillian Harrison, daughter of the late Capt. Napoleon B. Harrison, U. S. N.

LIEUTENANT NILES and family has returned from a summer in Pennsylvania and West Virginia, and for the present they are located at 2,020 G street, Washington, D. C.

CHIEF ENGINEER PHILIP INCH, U. S. N., has resumed his duties as a member of the Board of Inspection and Survey. Mr. Inch and family reside at 114 C street, S. E., Washington, D. C.

MRS. W. W. W. WOOD, the widow of the late Chief Engineer Wood, U. S. N., has returned to Washington and has taken quarters at the Ebbitt House for the winter. Mrs. Wood is much improved in health.

ASSISTANT SURGEON PHILIP G. WALES, U. S. A., who has resigned his commission, to take effect Nov. 5, is visiting his father, Medical Director Philip S. Wales, U. S. N., at No. 813 Vermont avenue, Washington, D. C.

LIEUTENANT LAZARUS L. REAMEY, U. S. Navy, who has so long been an ornament in the social circles of Washington, is to be married in New York on Nov. 10 to Miss Brewster. Lieuts. Bradbury, Cowles, Lemly, and Hunker will be groomsmen.

PASSED ASSISTANT PAYMASTER FRAZER, U. S. N., whose recent orders to the *New Hampshire* broke the monotony of "waiting orders," will once more resume his accustomed place in Lancaster, for the orders to the *New Hampshire* have been revoked.

P. A. ENGINEER RICHARD INCH, U. S. N., was in Washington a part of last week on a flying visit to his wife and family. As Mr. Inch, who is attached to the U. S. S. *Yantic*, was ordered to that vessel in March, 1884, his cruise will expire early in the coming year.

ASSISTANT PAYMASTER THOMAS J. COWIE, U. S. N., who has been connected with the *New Hampshire* at Newport, R. I., as paymaster and commissary for nearly four years, was last week placed on waiting orders, and before leaving gave the apprentice boys a parting dinner.

LIEUTENANT W. SWIFT, Lieut. W. W. Kimball, Surg. Wm. J. Simon, Naval Constructor F. L. Fernald, Commo. R. Chandler, Comdr. B. J. Cromwell, Lieut. J. G. Moore, Lieut. Asa Walker, Asst. Paymr. Livingston Hunt, registered at the Navy Department during the week.

LIEUTENANT C. P. REES, U. S. N., is announced to have fallen a victim to the well-known charms of the girls of Erie. His engagement to Miss Merrill, of that place, is said to have become an accomplished fact. Lieut. Rees has been attached to the *Michigan* since May, 1885.

PASSED ASSISTANT SURGEON GEORGE ARTHUR, U. S. N., who has recently been on duty at the dispensary of the New York Navy-yard, has been ordered to duty in the Museum of Hygiene, corner of 18th and G streets, Washington. Dr. Arthur completed his last cruise on the *Iroquois*.

1ST LIEUTENANT T. N. WOOD, U. S. M. C., son of the late Engineer-in-Chief of the Navy, is en route for home on the *Shenandoah*. He is well-known in Washington and should good luck and the commandant of the Marine Corps bring him to the Capital he will find many friends to welcome him.

IN honor of Commodore Ralph Chandler's promotion to the rank of Rear Admiral 13 guns were fired at the Brooklyn Navy-yard on Oct. 7, and the Admiral was the recipient of many congratulations during the day from the heads of departments. The Admiral will start for China this month. Before their departure Mrs. Chandler will give several receptions.

COMMANDER B. J. CROMWELL, U. S. N., is visiting in Washington from Montrose, Pa.

ENSIGN W. R. RUSH, U. S. N., reported at Vallejo, Cal., a few days ago, for duty on the *Ranger*.

PAY DIRECTOR J. S. CUNNINGHAM, U. S. N., registered at the Victoria Hotel, New York, on Tuesday.

COMMANDER P. H. COOPER, U. S. N., returned to Norfolk, Va., early in the week from a month's leave.

CAPTAIN SICARD, U. S. N., Chief of the Bureau of Ordnance, returned to Washington on Tuesday from his vacation trip.

P. A. SURGEON PAUL FITZSIMONS and Mrs. Fitzsimons left Norfolk, Va., early in the week on a month's visit to the North.

REAR ADMIRAL J. H. RUSSELL, U. S. N., and Mrs. Russell have returned from Richfield Springs to Washington for the winter.

CAPTAIN J. G. WALKER, U. S. N., who has been visiting in Germany, and more recently in Scotland, was to sail for home this week.

PASSED ASSISTANT SURGEON D. M. GUITERAS, U. S. N., arrived at Norfolk, Va., early in the week and reported for duty on the *Franklin*.

THE HON. GEORGE BANCROFT reached his 86th birthday on Sunday last, Oct. 3, and received hearty congratulations from a legion of friends.

CAPTAIN E. W. WHITTEMORE, 15th U. S. Infantry, who has been sojourning at Vineyard Haven, Mass., during the summer, is due at Fort Buford, D. T., towards the end of October.

P. A. SURGEON J. C. BOYD, U. S. N., at present on duty at the Navy Department, Washington, is to be married next February to Miss Willard, only daughter of Mr. C. C. Willard.

LIEUTENANT CARROLL MERCER, U. S. Marine Corps, grandson of the late Wm. T. Carroll, of Washington, for many years clerk of the U. S. Supreme Court, will be married Oct. 19 to Miss Minnie Harper, stepdaughter of the late Judge Paschal, of Washington.

THE suit of Benjamin W. Hopper against Colonel Thomas Y. Field, of the U. S. Marine Corps, to recover damages for alleged false imprisonment while sergeant in the Marine Corps at League Island, was concluded before Judge Butler, in the United States Circuit Court, October 5. The verdict was in favor of the defendant.

ASSISTANT ENGINEER J. R. WILMER, U. S. N., was married, Sept. 29, to Miss Belle Hoehling, daughter of Medical Inspector A. A. Hoehling, U. S. N., the ceremony taking place at the residence of the bride's parents in Washington. Surgeon Hoehling, who is on the *Pensacola*, was unable to be present, but a goodly number of relatives and friends attended the wedding. The married couple are now on their wedding tour.

THE orders of Capt. E. P. Lull, U. S. N., to command the Pensacola Navy-yard indicates that the health of this officer, about which such grave fears were expressed some weeks since, must be greatly improved. Capt. Lull will be remembered in connection with the Tehuantepec Canal surveys, and the clear and valuable report placing his work on record for the benefit of future surveyors. From 1875 to 1878 the Captain was detailed as Hydrographic Inspector of the Coast and Geodetic Survey.

IN last week's JOURNAL, under the appropriate heading, the marriage of Charles H. Howland to Miss Susie A. Balcom, was announced. Mr. Howland entered the Naval Academy as a Cadet Engineer on October 1, 1878. During the years 1882-83-84 he was attached to the *Iroquois*, South Pacific Station, and June 30, 1884, in common with many others he was honorably discharged under the misconstruction of the Act of Congress, approved August 5, 1882. On his restoration to the Navy by the famous G. O. No. 344, of March 10, 1886, Mr. Howland promptly resigned, and having been quite successful in business has now become a permanent voter and taxpayer, instead of a plougher of the raging main.

ADMIRAL D. D. PORTER, U. S. N., was reported seriously ill at the Hodges' Cottage, R. I., early in the week, and grave fears were entertained that he might not rally. The disease was pronounced neuralgia of the stomach. Mrs. Porter and her daughter, Mrs. Logan, wife of Lieut. Logan, U. S. N., were in attendance, and the best medical skill was called in. The latest accounts are more favorable, and there seems to be now a probability that, if nothing unforeseen occurs, the Admiral may be out again in a few weeks. A despatch of October 3 says: "He passed a comfortable night, sleeping until three o'clock this morning. During the day he complained less than he had done since Thursday night. Dr. S. Weir Mitchell, of Philadelphia, who is one of his physicians, is obliged to leave town to-morrow, and it is likely that the Admiral's family physician in Washington will be summoned to act with Dr. Rankin, at present in charge of the patient. Dr. Bache, U. S. A., a nephew of the Admiral, is also in attendance."

THE New York *Herald's* Washington correspondent says: "The fashionable marriage season was inaugurated October 6 by a wedding in the aristocratic Church of St. John. 1st Lieutenant Frank L. Denny, of the United States Marine Corps, led to the altar the beautiful daughter of General Innis N. Palmer, United States Army retired list. Lieutenant Lemly was the best man, with a corps of naval officers for ushers numerous enough to command all the new naval vessels." Lieut. S. C. Lemly, U. S. N., was best man, and the ushers were Lieutenants Bradbury, Cowles; Irwin and Surgeon Deane. The bride wore a low-necked white moire robe, with trimmings of crystal lace. Her tulle veil was held by a wreath of orange blossoms. After the ceremony a reception was held at the Palmer residence on Sixteenth Street. Among those present at the church were General Baird, Mrs. Audenreid, Mrs. and Miss Sherrill, Mrs. Padelford, Mrs. Ray, Mrs. and Miss Emory, General and Mrs. Graham, the Misses Jenkins, Lieutenant and Mrs. Weyrick, Miss de Krafft, Miss Kilbourn and Dr. and Mrs. Hagner, Captain and Mrs. Rodgers, the Misses Wood, Mrs. Paschal, Miss Minnie Harper, Mrs. Munson, Mr. Bestor, Mrs. Doyle, Courtess Esterbazy, Miss Thorn, Dr. Ruth, Miss Florence Audenreid, Mr. and Mrs. Handy, Commander and Mrs. McCauley, Mr. and Mrs. Addison, Mr. McCartney, U. S. N., Lieutenant Reamey and Lieutenant Mulligan.

RECENT DEATHS.

THE Philadelphia *North American*, referring to the death, Sept. 7, of William H. Frailey, son of the late Commodore J. Madison Frailey, U. S. N., says: "He was one of the most gentle-mannered, well-bred and socially brilliant of the generation just entering middle age. With a natural tendency to delicate health, the strength of Mr. Frailey had become greatly impaired by his close and earnest devotion to his exacting duties in the financial department of the Pennsylvania Railroad Company. Mr. Frailey leaves a widow, the daughter of John Brown Parker, Esq., of Carlisle, and his married life has been a singularly lovely and attractive one. He served as captain's clerk aboard the steamer *Quaker City*, commanded by his father, off Charleston, S. C., during the blockade of that port, and participated in an action with the Confederate 'Rams.' At fifteen years of age he entered the Naval Academy, and graduated with honor in 1867. He served under Admiral Farragut during his famous cruise in European waters. In 1870 he resigned from the Navy to enter commercial life, where his distinguished abilities enabled him to take a commanding position. The funeral took place, Sept. 20, from St. Stephen's Church, Philadelphia, and was largely attended. Among those present were Rear Admiral Mullany, U. S. N., and General Lewis Merrill, U. S. A. The Board of Directors of the Pennsylvania R. R. Co., in a 'minute' on the death of Mr. Frailey, say: 'His marked ability in the performance of his duties, his strict and methodical business habits, his manliness, integrity and unvarying courtesy, made him a most valuable and efficient officer, and won for him the esteem and respect of all with whom he came in contact. By his death this company is deprived of a faithful officer whose abilities promised a wider sphere of usefulness, and the community loses an upright and worthy citizen.'"

REAR ADMIRAL BEDFORD C. T. PIM, British Navy, who died in London, Oct. 4, aged sixty, was the son of Capt. Edward Bedford Pim, a distinguished naval officer, and made a voyage around the world in H. M. S. *Herald* in 1845-51, and was engaged from first to last in the search for Sir John Franklin, both through Behring's Straits and Baffin's Bay. He was the officer who reached the *Investigator* and saved the crew of that ship, besides being the first man who made his way from a ship on the eastern to a ship on the western side of the Northwest Passage. He was retired in 1870, having been advanced to the rank of captain in April, 1868. He then prepared himself for a new profession, and in 1873, at the age of forty-seven, was called to the bar. He has since been interested in promoting a railway across Nicaragua and in writing works on geographical subjects. Two years ago he visited the U. S., and, after spending some time in Nicaragua, went to Washington in the hopes of interesting our Government in the Nicaragua Canal scheme. He was in Philadelphia during the session of the Scientific Congress, and read a paper before that body. He had many friends in the United States, where he was most highly appreciated, both on account of his scientific attainments and his genial social characteristics.

A VETERAN soldier, of long and faithful service, Ordnance Sergeant Geo. S. P. Bradford, U. S. A., died at Clark's Point, New Bedford, Mass., Sept. 30. The immediate cause of his death was from the effects of lifting heavy shot and shell the day previous, for the old soldier was "on duty" to the last. Bradford was born in Quebec in 1822, enlisted in 1846, served through the Mexican War at Vera Cruz, Cerro Gordo, Contreras, Churubusco and the City of Mexico as Corporal, Sergeant and 1st Sergeant of Battery B, 1st U. S. Artillery. On January 1, 1862, he was appointed Q. M. Sergeant of the 1st Artillery, and a few days afterwards was appointed Ordnance Sergeant. During the War he rendered valuable service as a drill master and he was in all respects a model non-commissioned officer and soldier. His comrade Ordnance Sergeants are indebted to him more than they are, perhaps, aware, for the increase of pay given them some years ago, for it was Bradford's energy and Bradford's influence with his former commanders which contributed largely to the desired result.

MRS. JULIA RICKETTS LAWRENCE, who died in Washington this week, was the mother of the wife of Gen. Jas. B. Ricketts, U. S. Army. Mrs. Lawrence was the widow of the late John Thorp Lawrence, of the Island of Jamaica, who acted as flag midshipman to Lord Collingwood at the battle of Trafalgar. She leaves two sons, John Lawrence, of Ohio, and James Ricketts Lawrence, of New York, and one daughter, Mrs. Ricketts. The funeral services took place in Washington and the remains were taken to Elizabeth, N. J., where they were interred Oct. 7.

MR. HENRY R. PENNINGTON, a member of the Delaware Bar and clerk of the municipal Court of Wilmington, Del., died in Dover Oct. 6, of consumption. When a youth he entered the Naval Academy at Annapolis, was graduated June 7, 1870, and resigned June 15, 1873. His family is prominent in Delaware and the deceased gentleman had a large circle of friends.

GENERAL J. M. HEDRICK, who served with distinction during the war as colonel of the 15th Iowa Infantry, was wounded several times and a prisoner of war in 1862, died October 4 at Ottumwa, Iowa. He received the brevet of Brigadier-General for his faithful and meritorious services.

LIEUTENANT JOHN BIGELOW, JR., 10th U. S. Cavalry, and Mrs. Bigelow have the sympathy of all in their recent bereavement, their third and only child John having died at Santa Monica, Cal., September 29, at the age of two years.

D. DANIEL LEASURE, who served with distinction during the War as Colonel of the 100th Pennsylvania Infantry Volunteers, died at St. Paul, Oct. 4, in which city he was one of the most prominent physicians.

CARPENTER JOSEPH L. THATCHER, U. S. N., who died at Wilmington, Del., Sept. 23, was appointed February 20, 1872. He returned from sea in 1881 and since February 21, 1882, has been at Wilmington, Del.

CAPTAIN EDWIN M. NEVILLE, who served with great credit during the war in the 1st Connecticut Cavalry, and received a medal of honor from Congress, died October 4 at Waterbury, Conn.

MR. WILLIAM DIXON, father of Surgeon W. S. Dixon, U. S. Navy, died Sept. 26, near Washington, D. C.

GEN. SHERMAN AND THE CORRESPONDENTS.

THE last volume of the "Official Records of the Rebellion" contains the story of Gen. Sherman's controversy in 1863, with Mr. Thomas W. Knox, at that time a correspondent of the New York *Herald* and now a literary gentleman, well-known in New York as Col. Knox. The correspondence opens with a letter from Sherman to Admiral Porter, dated Feb. 4, 1863, in which he says:

The spirit of anarchy seems deep at work at the North, more alarming than the batteries that shell at us from the opposite shore. I am going to have the correspondent of the New York *Herald* tried by a court-martial as a spy, not that I want the fellow shot, but because I want to establish the principle that such people cannot attend our armies, in violation of orders, and defy us, publishing their garbled statements and defaming officers who are doing their best.

Next appears G. O. No. 13, Hdqrs. Dept. Tennessee, Feb. 19, 1863, giving the record of the Court-martial before which Mr. Knox was tried, and of which Brig.-Gen. J. M. Thayer, U. S. A., was president and whose conclusions were sharply criticized by Gen. Sherman in a letter to A. A. G. Rawlins, in which he says:

The findings of the third charge, first specification, are, "the facts proven as stated but attaches no criminality thereto," viz.: that the accused knowingly and wilfully disobeyed the lawful command of the proper authority by accompanying the expedition down the Mississippi below Helena. The inference is that the commanding officer had no right to prohibit citizens from accompanying a military expedition, or, if he does, such citizens incur no criminality by disregarding such command. The finding of the first specification, first charge, "Guilty, except the words, 'thereby conveying to the enemy an approximate estimate of its strength, in direct violation of the 57th Article of War,'" involves the principle that publication of Army organization and strength in a paper having the circulation South and North of the New York *Herald* does not amount to an indirect conveyance of intelligence to the enemy. . . . . .

If to prove the conveyance of indirect information to the enemy it be necessary to follow that information from its source to the very armies arrayed against us, whose country thus far our hundreds of thousands of men have been unable to invade, and yet whose newspapers are made up of extracts from these very Northern papers, then it is fruitless to attempt to conceal from them all the data they could need to make successful resistance to our plans, and to attack our detached parties and lines of communication. To this cause may well be attributed the past reverses to our armies and the failure of almost every plan devised by our Generals. I believe this cause has lost us millions of money, thousands of lives, and will continue to defeat us to the end of time, unless some remedy be devised.

Next appears a letter from Mr. Knox, dated April 6, 1863, enclosing a copy of an order from the President, authorizing him to return to the Department and remain with Gen. Grant's approval. Following are these letters from Gens. Grant and Sherman:

BEFORE VICKSBURG, April 6, 1863.

Thomas W. Knox, Correspondent New York Herald:

The letter of the President of the United States authorizing you to return to these headquarters and to remain with my consent, or leave if such consent is withheld, has been shown me.

You came here first in positive violation of an order from Gen. Sherman. Because you were not pleased with his treatment of army followers, who had violated his order, you attempted to break down his influence with his command and to blast his reputation with the public. You made insinuations against his sanity, and said many things which were untrue, and, so far as your letter had influence, calculated to affect the public service unfavorably.

Gen. Sherman is one of the ablest soldiers and purest men in the country. You have attacked him and been sentenced to expulsion from this Department for the offence. Whilst I would conform to the slightest wish of the President where it is formed upon a fair representation of both sides of any question, my respect for Gen. Sherman is such that in this case I must decline, unless Gen. Sherman first gives his consent to your remaining.

U. S. GRANT, Major-General.

HEADQUARTERS FIFTEENTH ARMY CORPS,
CAMP NEAR VICKSBURG, April 8, 1863.

Major-General Grant:

DEAR SIR: I received last night the copy of your answer to Mr. Knox's application to return and reside near your headquarters. I thank you for the manner and substance of that reply. Many regard Knox as unworthy the notice he has received. This is true; but I send you his letter to me and my answer. Observe in his letter to me, sent long before I could have heard the result of his application to you, he makes the assertion that you had no objection, but rather wanted him back, and only as a matter of form required my assent. He regretted a difference between a "portion of the Army and the press." The insolence of these fellows is insupportable. I know they are encouraged, but I know human nature well enough, and that they will be the first to turn against their patrons. Mr. Lincoln, of course, fears to incur the enmity of the *Herald*, but he must rule the *Herald* or the *Herald* will rule him; he can take his choice.

I have been foolish and unskilful in drawing on me the shafts of the press. By opposing mob law in California, I once before drew down the press, but after the smoke cleared off, and the people saw where they were drifting to, they admitted I was right. If the press be allowed to run riot and write up and write down at their pleasure, there is an end to a constitutional government in America and anarchy must result. Even now the real people of our country begin to fear and tremble at it, and look to our armies as the anchor of safety, of order, submission to authority, bound together by a real Government, and not by the clamor of a demoralized press and crowd of demagogues.

As ever, your friend, W. T. SHERMAN.

There is also a letter from General Sherman denying Knox's request, and one from him to Murat Halstead in which he says:

Knox, a citizen, entitled to all the rights of a citizen of any and every kind, a strong, stalwart, man, capable of handling a musket, comes into the camp of a Major General whom he never saw in person, conversed with, or knew anything about, in open and known violation of his orders, and dating his matter from the headquarters of a part of this very command, publishes a string of falsehoods, abusive of every servant of the Government, except a small knot of "cunning and knowing ones bred in the same litter." These were heroes; all else were knaves, fools, cowards, everything, and the Major-General in command, with commissions from a cadet all the way up to Major-General, tested by twenty years' service in every part of this continent, who has managed all manner of business without a stain heretofore, is declared by this youngster and stranger as a mere ass, yea, insane. When called on in person to explain his motive—"Of course, General Sherman, I had no feeling against you personally, but you are regarded the enemy of our set, and we must in self-defence write you down."

THE ARMY.

G. O. 69, H. Q. A., Oct. 4, 1886.

By direction of the Secretary of War, the "revolver pistol" provided for in G. O. 56, s. of 1882, from this office, as part of the equipment of company sergeants, will not hereafter be considered a part of the foot sergeants' equipment, but will be kept on hand by company commanders for use when necessary on special occasions.

By command of Lieut. Gen. Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 70, H. Q. A., Oct. 5, 1886.

By direction of the Secretary of War, the following decision is published for the information of all concerned:

Congress having failed to appropriate any money for payment of extra duty pay to enlisted men detailed as cooks and nurses in hospitals, the services of such enlisted men as are needed to perform the duty indicated must be rendered and accepted only with the express understanding that payment for the same depends upon the action of Congress in making an appropriation for that purpose and, until such an appropriation is made, the rendition of the service does not create any claim against the United States.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 27, DEPT. OF TEXAS, Sept. 30, 1886.

The period for which 2d Lieut. S. L'H. Slocum, 8th Cav., was appointed Aide-de-Camp, and for which he accepted that position, on the staff of the Brigadier General Commanding, having expired, he is, at his own request, relieved from further duty in that capacity. He will remain on special service to perform the duties of the Inspector of Rifle Practice of the Department, during the absence of that officer on leave, and on his return will join his troop.

By command of Brig. Gen. Stanley:
GEO. D. RUGGLES, Asst. Adjt.-Gen.

G. O. 28, DEPT. OF TEXAS, Oct. 1, 1886.

2d Lieut. D. J. Rumbough, 3d Artillery, is announced as A. D. C. to Brig. Gen. commanding.

By command of Brig. Gen. Stanley:
GEO. D. RUGGLES, Asst. Adjt.-Gen.

G. O. 16, DEPT. OF THE MISSOURI, Sept. 28, 1886.

Captain L. E. Campbell, A. Q. M., Fort Leavenworth, Kansas, is assigned to the duty of adjusting and settling the telegraph accounts in the Dept. Missouri.

G. O. 26, DEPT. OF TEXAS, Sept. 28, 1886.

The assistant to the Chief Quartermaster at San Antonio Depot, is assigned to the duty of adjusting and settling telegraph accounts.

G. O. 13, DIV. OF THE ATLANTIC, Sept. 13, 1886.

Publishes the results of the rifle contests of the Department of the East and Division of the Atlantic of this year, conducted at Fort Niagara, N. Y., and at Creedmoor.

(The order gives the scores made by the Division team at Fort Niagara, by the Regulars in the Hilton Trophy Match, and the General Sheridan's Skirmish Match and other valuable statistics, most of which have already been given in detail in the JOURNAL.)

STAFF CORPS AND DEPARTMENTS.

Judge Advocate General's Department.

Capt. J. G. Ballance, A. J. A., will proceed to Fort McIntosh, Texas, on public business (S. O. 136, Sept. 29, D. Texas).

Adjutant and Inspector Generals.

Leave of absence for one month is granted Lieut. Col. Thomas M. Vincent, A. A. G., Adjutant General Dept. of Dakota (S. O. 103, Oct. 1, D. Dak.)

Major Merritt Barber, A. A. G., will report in person at H. Q., Div. Pacific, on official business connected with the Dept. of Arizona (S. O. 82, Sept. 27, Div. Pacific).

A furlough for four months, with permission to leave the U. S., is granted Mr. Frank Buss, Chief Clerk, Dept. of the Missouri (S. O. 149, Oct. 6, D. Missouri).

Quartermasters and Subsistence Departments.

Major Almon F. Rockwell, Depot Q. M., St. Paul, Minn., is assigned to the duty of adjusting and settling telegraph accounts pertaining to the Dept. of Dakota. All such accounts will be presented to Major Rockwell, who will prepare and pay them, or forward them for payment as the case may require, under A. R. 696 (G. O. 16, Oct. 4, D. Dak.)

Lieut. Col. Henry C. Hodges, Deputy Q. M. Gen., will proceed to Erie, Pa., on public business (S. O., Oct. 4, H. Q. A.)

Capt. Addison Barrett, M. S. K., will inspect C., C., and G. E., at Indianapolis Arsenal, for which Capt. Wm. H. Rexford, Ord. Storekeeper, is responsible (S. O., Oct. 2, H. Q. A.)

Capt. A. E. Miltimore will take station at Tucson, A. T. (S. O. 91, Sept. 23, D. Ariz.)

Major A. S. Kimball, Chief Q. M., will proceed to Albuquerque, N. M., thence to department field headquarters at Willcox and to Nogales, A. T., on public business (S. O. 91, Sept. 23, D. Ariz.)

Capt. Charles A. Woodruff, Chief C. S., will proceed to Portland, Ore., on public business (S. O. 167, Sept. 20, D. Columbia.)

Capt. J. F. Weston, Chief C. of S., will proceed to Santa Fe, N. M., on public business (S. O. 93, Sept. 29, D. Ariz.)

Pay Department.

Subject to the approval of the War Department, Major Asa B. Carey, Paymr., will take station at the Presidio of San Francisco (S. O. 89, Sept. 25, D. Cal.)

A Roster of Officers of the Pay Department for October, received this week, contains much useful information.

Leave for three days, to commence on or about Oct. 10, is granted Major Charles McClure, Paymr., Newport Barracks, Ky. (S. O. 152, Oct. 5, Div. Atlantic.)

Major Wm. Arthur, P. D., is assigned to station in San Antonio (S. O. 137, Sept. 30, D. Texas).

Medical Department.

A. A. Surg. M. M. Walker is relieved from duty at the Presidio of San Francisco, Cal., and will proceed to Fort McDermit, Nevada, for temporary duty (S. O., Sept. 23, D. Cal.)

Leave of absence for one month is granted 1st Lieut. Wm. P. Kendall, Asst. Surg. (S. O. 81, Sept. 24, Div. Pacific.)

Asst. Surg. Washington Matthews is granted leave for one month and twelve days, with permission to go beyond sea (S. O., Oct. 7, H. Q. A.)

The leave granted 1st Lieut. Walter W. R. Fisher, Asst. Surg., is extended one month (S. O., Oct. 4, H. Q. A.)

The journey performed by A. A. Surg. George M. Terrill, from Benson to Bowie Station, A. T., Aug. 28, is confirmed (F. O. 93, Sept. 17, D. Ariz.)

At his own request, the contract of A. Asst. Surg. Emil Muhl, Fort Bliss, is annulled, to take effect Oct. 1 (S. O. 92, Sept. 25, D. Ariz.)

Hospl. Steward Charles Parker is relieved from duty in the Dept. Dakota (S. O. 100, Sept. 27, D. Dakota).

Hospl. Steward Thomas J. Burke, having reported at these H. Q., in compliance with par. 1, S. O. 178, c. s., H. Q. A., will proceed to Fort Gaston, Cal., for duty (S. O. 88, Sept. 23, D. Cal.)

Engineers and Ordnance Departments.

Capt. Wm. L. Marshall, C. E., will proceed to Madison, Wis., on duty connected with the Board of Officers of the C. E. (S. O. 144, Oct. 2, C. E.)

Lieut. Wm. M. Black, C. E., will proceed to New Brandford on the Suwanee River, Cedar Keys, and the mouth of the Suwanee River, Fla., on duty connected with works under his charge (S. O. 144, Oct. 2, C. E.)

Lieut. Wm. M. Black, C. E., will proceed to Withlacoochee River, Fla., on duty connected with works under his charge (S. O. 144, Oct. 2, C. E.)

Lieut. Wm. M. Black, C. E., will proceed to Tampa and Palma Sola, Fla., on duty connected with works under his charge (S. O. 144, Oct. 2, C. E.)

The Chief Engineer officer of the department will proceed from Fort Custer, M. T., to Dept. of Dakota H. Q., on public business, returning to Fort Custer on completion of the duty (S. O. 103, Oct. 1, D. Dak.)

Capt. Wm. T. Rossell, C. E., will proceed to Wilson's Point, La., and Vicksburg, Miss., on duty connected with works under his charge (S. O. 143, Oct. 1, C. E.)

Lieut. Col. John W. Barlow, C. E., will proceed to the principal obstructions of the South Fork of the Cumberland River, Ky., between the Devil's Jumps and the mouth of the river, on duty connected with works under his charge (S. O. 146, Oct. 6, C. E.)

1st Lieut. Wm. M. Black, C. E., will proceed to St. Augustine, Fla., on duty in connection with inspection of the sea-wall at that place (S. O., Oct. 4, H. Q. A.)

To carry out the provisions of so much of the act approved Aug. 5, 1886, as provides for the transfer to the U. S. by the State of Ohio of the Muskingum River improvement, between Zanesville and the mouth of the river, and the locks, dams, canals, franchises, property, unexpended moneys, etc., appertaining thereto, Lieut. Col. Wm. E. Merrill, C. E., is appointed to confer, on behalf of the Secretary of War, with the State authorities with the view of making the necessary arrangements. 1st Lieutenant Lansing H. Beach, C. E., is authorized to act for Col. Merrill, and in his stead, in carrying out the foregoing instructions until he shall return to duty. Lieut. Col. Merrill and Lieut. Beach are authorized to proceed to Columbus, O., and to such other points as may be necessary in the execution of the foregoing instructions (S. O., Sept. 30, H. Q. A.)

The leave granted Captain Richard L. Hoxie, C. E., is extended one month (S. O., Sept. 30, H. Q. A.)

The C. O., Fort Warren, Mass., will send a reliable sergeant to Fort at Clark's Point, Mass., for duty as acting ordnance sergeant, until the arrival of Ord. Sergt. Leodegar Schnyder from Fort Laramie, Wyo. (S. O. 151, Oct. 4, Div. Atlantic.)

A Columbus, O., despatch says: Ord. Sergt. A. Dagenfield has been retired, having been in the service of his country for forty years. He served his country in three wars, his first experience being in the Mexican war, at the battle of Monterey. In 1873 he received his warrant as an Ord. Sergt. In 1879 he came to Columbus Barracks, where he has been on duty to the entire satisfaction of both the officers and the men at the depot, where they all join in wishing "Dad," as he is familiarly known, a long life and health to enjoy his well-earned rest. The Sergeant has decided to remain and become a citizen of Columbus.

So much of S. O. 223, as directs Ord. Sergt. Patrick Gallagher, upon being relieved, to proceed to Madison Barracks, is amended so as to direct him to proceed to Plattsburg Barracks (S. O., Oct. 5, H. Q. A.)

Ord. Sergt. Henry B. Dardingkiller will proceed to Fort Columbus, N. Y. H., for duty (S. O., Oct. 4, H. Q. A.)

Chaplains.

Chaplain Winfield Scott is relieved from duty at the Presidio of Cal., and will return to his proper station, Angel Island, Cal. (S. O. 88, Sept. 23, D. Cal.)

Leave of absence for one month, on surgeon's certificate of disability, with permission to apply for an extension of one month, is granted Post Chaplain J. A. M. La Tourrette, Fort Union, N. M. (S. O. 93, Sept. 29, D. Arizona.)

THE LINE.

Changes of Stations of Troops Ordered.

As reported to the Adjutant-General's Office during the week ending October 2, 1886:

Troops A and K, 2d Cav., to San Diego Bks., Cal.
Troop B, 3d Cav., to Camp Pena Colorado, Tex.
Troop L, 3d Cav., to Fort Davis, Tex.
Troop L, 4th Cav., to Fort Union, N. M.
Troop M, 5th Cav., to Fort Leavenworth, Kas.
Troop I, 6th Cav., to Fort Wingate, N. M.
Troops E and H, 7th Cav., to Fort Yates, Dak.
Troops B, D, and G, 7th Cav., to Fort Meade, Dak.
Troop A, 7th Cav., to Fort Keogh, Mont.
Troop L, 9th Cav., to Fort Leavenworth, Kas.
Co. I, 1st Inf., to Angel Island, Cal.
Co. D, 10th Inf., to Fort Selden, N. M.
Co. G, 13th Inf., to Fort Wingate, N. M.
Co. A, 16th Inf., to San Antonio, Tex.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., **B, D, E, G,** and **K,** Ft. Custer, Mont.; **A** and **C,** Ft. Maginnis, Mont.; **I,** Ft. Leavenworth, Kas.; **F, H,** and **L,** Ft. Assiniboine, Mont.; **M,** Camp Sheridan, Wyo.

Troop E, Fort Custer, is authorized to extend its regular target practice to include from Oct. 1 to 15 (S. O. 100, Sept. 27, D. Dak.)

Capt. Frazier A. Boutelle is relieved from further duty in connection with the Dept. Rifle Competition, and will return to Fort Custer, M. T. (S. O. 102, Sept. 29, D. Dak.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

Capt. Edward Field and 1st Lieut. R. P. Strong will report in person to Major-Gen. Schofield for duty, in New York City, in connection with the ceremonies to take place on the occasion of the inauguration of the statue of "Liberty Enlightening the World," at Bedloe's Island, N. Y. H., Oct. 28, 1886 (S. O. 153, Oct. 7, Div. A.)

Leave for twenty days is granted Lieut. Col. John Mendenhall, Fort Trumbull, Conn. (S. O. 153, Oct. 7, Div. A.)

A furlough for one month is granted Sergt. Francis A. Twiss, Light Bat. F (S. O. 102, Sept. 29, D. Dak.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, L, and M, Ft. Hamilton, N. Y.; A, C, and H, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Omaha, Neb.; E and K, Ft. Schuyler, N. Y.
* Light battery.

The C. O. Fort Schuyler will send a detachment to Fort Hamilton, N. Y. H., Oct. 5, to take part in heavy artillery practice (S. O. 150, Oct. 2, Div. A.)

1st Lieut. William W. Galbraith will report to the C. O. Fort Columbus, N. Y. H., Oct. 5, for special duty (S. O. 150, Oct. 2, Div. A.)

Leave for one month is granted Capt. William B. Beck, Fort Columbus, N. Y. H. (S. O. 151, Oct. 4, Div. A.)

1st Lieut. William W. Galbraith will proceed, Oct. 2, to Fort Columbus, N. Y. H., and report on public business (S. O. 151, Oct. 4, Div. A.)

The leave granted 1st Lieut. David D. Johnson is extended one month (S. O., Oct. 4, H. Q. A.)

1st Lieut. E. T. Brown will report in person to Major-Gen. Schofield for duty, in New York City, in connection with the ceremonies to take place on the occasion of the inauguration of the statue of "Liberty Enlightening the World," at Bedloe's Island, N. Y. H., Oct. 28, 1886 (S. O. 153, Oct. 7, Div. A.)

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, and I, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal.; B, Ft. Gaston, Cal.; K, Ft. McDermit, Nev.; H, Ft. Halleck, Nev.

Co. I, 1st Inf., is relieved from duty at San Diego Barracks, Cal., to take effect on the arrival of either Troop A or Troop K, 2d Cav., and will then proceed, by water, to Angel Island, Cal., and there take station (S. O. 80, Sept. 22, Div. P.)

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, and H, Ft. Omaha, Neb.; G and K, Ft. Niobrara, Neb.; I, Ft. Robinson, Neb.

Capt. Charles Keller, 1st Lieut. William J. Turner, and 2d Lieut. William Moffatt are detailed additional members of the G. C.-M. at Fort Niobrara, Neb. (S. O. 122, Sept. 25, D. Platte.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

Cos. C and E, Fort Custer, are authorized to extend their regular target practice to include from Oct. 1 to 15 (S. O. 100, Sept. 27, D. Dak.)

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

Col. William P. Carlin will inspect one horse and nine mules at Fort Cœur d'Alene, for which 1st Lieut. Henry E. Robinson, R. Q. M., is accountable (S. O. 167, Sept. 20, D. Columbia.)

Lieut.-Col. E. C. Mason, A. I. G., will proceed, on inspection service, to Forts Sisseton, Sully, Bennett, Randall, and Meade, D. T. (S. O. 101, Sept. 28, D. Dak.)

Capts. William H. Bisbee and Gerhard L. Luhn, 1st Lieut. Lewis Merriam, and 2d Lieut. Edward H. Browne are relieved as members of the G. C.-M. at Fort Niobrara, Neb. (S. O. 122, Sept. 25, D. Platte.)

Leave for two months, to take effect Nov. 9, is granted 2d Lieut. Charles McQuiston (S. O. 80, Sept. 22, Div. P.)

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, E, F, and G, Ft. Douglas, Utah; D, Camp on Montezuma Creek, San Juan County, Utah; K, Salt Lake City, Utah.

1st Lieut. Stephen W. Groesbeck is detailed as Acting Judge-Advocate of the Dept. of Dakota (S. O., Oct. 5, H. Q. A.)

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, C, D, F, H, and K, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.

Leave for one month is granted Col. H. C. Merriam, Fort Laramie, Wyo. (S. O. 122, Sept. 25, D. Platte.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; F and H, Ft. Bliss, Tex.; G and K, Uncompahgre, Colo.; D, Ft. Selden, N. M.

Co. D will proceed from Fort Bliss to Fort Selden, N. M., and take station (S. O. 69, Sept. 23, D. N. M.)

2d Lieut. W. C. Wren, on muster out of Indian scouts, will rejoin at Fort Bliss, Tex. (S. O. 69, Sept. 23, D. N. M.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

Cos. C and H, Fort Yates, D. T., are authorized to extend their regular target practice to Oct. 15 (S. O. 100, Sept. 27, D. Dak.)

Co. G, Fort Abraham Lincoln, D. T., is authorized to extend its regular target practice to Oct. 31, 1886 (S. O. 100, Sept. 27, D. Dak.)

1st Lieut. Albert L. Myer, A. C. S. at Fort Bennett, D. T., is authorized to send, by express, to the nearest depository, all subsistence funds he may have on hand (S. O. 102, Sept. 29, D. Dak.)

The extension of leave granted Capt. George K. Sanderson is still further extended six months on account of sickness (S. O., Oct. 2, H. Q. A.)

A furlough for three months is granted Sergt. Harry C. Gray, Co. D (S. O. 101, Sept. 28, D. Dak.)

12th Infantry, Colonel Orlando B. Willcox.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

1st Lieut. W. O. Clark, having completed his duty in connection with the Army Rifle Competition, will return to Madison Barracks, N. Y. (S. O. 111, Sept. 30, Dept. M.)

Capt. H. G. Brown and 1st Lieut. M. F. Waltz will report in person to Major-Gen. Schofield for duty, in New York City, in connection with the ceremonies to take place on the occasion of the inauguration of the statue of "Liberty Enlightening the World," at Bedloe's Island, N. Y. H., Oct. 28, 1886 (S. O. 153, Oct. 7, Div. A.)

13th Infantry, Colonel Luther P. Bradley.

Hdqrs., Santa Fe, N. M.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.; D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth Kas.

Co. G, on being relieved at Fort Selden, will take station at Fort Wingate, N. M. (S. O. 69, Sept. 23, D. N. M.)

Capt. B. H. Rogers and 2d Lieut. C. S. Hall, on muster out of the Indian scouts, will return to their proper stations, Forts Stanton and Bayard, N. M. (S. O. 69, Sept. 23, D. N. M.)

The leave granted Capt. Harry G. Cavenaugh is extended fifteen days (S. O., Oct. 2, H. Q. A.)

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, I, and K, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T.

Pvt. John Watson, Co. C, will proceed to Fort Klamath, Ore., for duty as 2d class hospital steward (S. O. 169, Sept. 24, D. Columbia.)

The extension of leave granted Col. Thomas M. Anderson is further extended twenty days (S. O., Oct. 4, H. Q. A.)

15th Infantry, Colonel Joseph N. G. Whistler.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

1st Lieut. George K. McGunnegle, Adjt., is relieved from duty on G. R. S. at Camp Poplar River, M. T. (S. O. 101, Sept. 28, D. Dak.)

The extension of leave granted Capt. Edward W. Whittemore is further extended seven days (S. O., Oct. 5, H. Q. A.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, C, F, and H, Ft. Concho, Tex.; D and E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.

Lieut.-Col. A. L. Hough assumes the duties of Superintendent of the Recruiting Service (G. O. 2, Oct. 1, Hdqrs. R. S.)

Leave for one month is granted Capt. C. H. Noble, San Antonio (S. O. 137, Sept. 30, D. Tex.)

A furlough for four months is granted Sergt. John Oertel, Co. A (S. O. 148, Sept. 29, Div. M.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; B, Camp Medicine Butte, Wyo.; H, Ft. Bridger, Wyo.

Leave for seventeen days, to take effect Oct. 3, is granted 1st Lieut. Daniel H. Brush, R. Q. M., Fort D. A. Russell, Wyo. (S. O. 125, Sept. 30, D. Platte.)

The bread ration for Cos. E, G, and K, Fort D. A. Russell, Wyo., is reduced from 20 to 18 ounces (S. O. 123, Sept. 27, D. Platte.)

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D and I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

Leave for one month, with permission to apply for an extension of one month, is granted Capt. P. H. Remington, Fort Clark (S. O. 134, Sept. 24, D. Tex.)

Capt. C. T. Witherell, having completed duty in connection with the Div. Rifle Competition, will return to Fort Clark, Tex. (S. O. 111, Sept. 30, Dept. M.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

1st Lieut. John C. Dent is detailed on G. R. S. at Camp Poplar River, M. T. (S. O. 101, Sept. 28, D. Dak.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

2d Lieut. Edward H. Brooke is relieved from further duty in connection with Dept. Rifle Competition, and will proceed to Fort Sidney, Neb. (S. O. 124, Sept. 28, D. Platte.)

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

Leave for one month is granted 1st Lieut. W. H. W. James (S. O. 111, Sept. 30, Dept. M.)

A Fort Elliott correspondent says: "Sergt. Alex. Richardson, Co. B, has gone on a four months' furlough, and Sergt. Chas. Grayson has just returned from a four months' furlough."

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

Chaplain George G. Mullins, having been found by an Army Retiring Board incapacitated for active service, is granted leave for six months on account of disability (S. O., Oct. 5, H. Q. A.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, October 2, 1886.

CASUALTY.

Colonel John F. Hammond (retired), died September 29, 1886, at Poughkeepsie, New York.

Courts-martial.

The following courts have been ordered:

At Fort Sill, I. T., Oct. 5. Detail: Capts. Lewis Johnson, B. M. Custer, and J. L. Bullis, 24th Inf.; 1st Lieut. G. A. Dodd, 3d Cav.; 1st Lieuts. A. A. Augur and A. M. Palmer, 24th Inf.; 2d Lieut. T. R. Rivers, 3d Cav.; 2d Lieuts. Carl Reichmann and G. S. Cartwright, 24th Inf., and 1st Lieut. C. J. Crane, 24th Inf., J.-A. (S. O. 110, Sept. 27, Dept. M.)

At Fort Preble, Me., Oct 6. Detail: Major William M. Graham and Capt. John P. Story, 4th Art.; Capt. George E. Bushnell, Asst. Surg.; 1st Lieuts. William F. Stewart and Montgomery M. Macomb and 2d Lieut. Lucien G. Berry, 4th Art., and 1st Lieut. John T. French, Jr., 4th Art., J.-A. (S. O. 150, Oct. 2, Div. A.)

At Plattsburg Barracks, N. Y., Oct. 12. Detail: Lieut.-Col. Robert S. La Motte, Capts. John L. Viven and John M. Norvell, 1st Lieuts. Augustus G. Tassin and Robert K. Evans, 12th Inf., and 2d Lieut. D. F. Anglum, 12th Inf., J.-A. (S. O. 153, Oct. 7, Div. A.)

At Benicia Barracks, Cal., Oct. 4. Detail: Capt. Robert G. Heiner, 1st Inf.; Capt. Charles K. Winne, Asst. Surg.; 1st Lieuts. Frank de L. Carrington and Louis P. Brant and 2d Lieut. Robert H. Noble, 1st Inf., and 1st Lieut. Charles G. Starr, 1st Inf., J.-A. (S. O. 90, Sept. 27, D. Cal.)

Army Boards.

"It appearing that, notwithstanding the provisions of par. 222, Reg., Boards of Survey often fail to *fix the responsibility* for loss of public property by deserters, and that officers, in rendering their returns, frequently omit to furnish evidence that charges for such losses have been made against the deserters on muster rolls, the Acting Secretary of War directs attention to this neglect, and compliance with said paragraph, so as to lessen the voluminous correspondence on the subject now necessary to protect the interests of the Government" (Letter A. G. O., Sept. 21, 1886).

A Board of Survey will meet at Fort Grant, A. T., Sept. 20, to fix the responsibility for loss of sub. and ord. stores, for which 1st Lieut. John Bigelow, Jr., 10th Cav., is accountable. Detail: Capts. Charles Porter and Egbert B. Savage, 8th Inf., and 1st Lieut. Levi P. Hunt, 10th Cav. (F. O. 93, Sept. 17, D. Ariz.)

Col. B. H. Grierson, 10th Cav.; Major H. E. Noyes, 4th Cav., and Capt. S. T. Norvell, 10th Cav., will constitute a Board to assemble at Phœnix, A. T., Oct. 11, for the purpose of inspecting and purchasing cavalry horses. 1st Lieut. M. M. Maxon, R. Q. M., 10th Cav., is appointed A. A. Q. M., for the transaction of all business pertaining to the Q. M. Dept. under these orders, and will act as recorder of the Board (S. O. 92, Sept. 25, D. Ariz.)

A Board of Survey will convene, Sept. 27, to examine into delays in delivery of public stores at Fort Cœur d'Alene, Idaho, in the fiscal year 1878-9. Detail: Capts. William Mills and James Ulio and 1st Lieut. Luther S. Ames, 2d Inf. (S. O. 122, Sept. 25, D. Platte.)

A Board of Survey, to consist of Major J. P. Martin, A. A. G.; 1st Lieut. Charles Dodge, Jr., 24th Inf., A. D. C., and 2d Lieut. R. G. Hill, 20th Inf., A. D. C., will meet at the Subsistence Depot, Leavenworth, Kas., Oct. 4, to fix responsibility for damaged condition of a quantity of subsistence stores for which Major Thomas Wilson, C. S., is accountable (S. O. 111, Sept. 30, Dept. M.)

Under the provisions of sec. 2 of an act of Congress approved Aug. 4, 1886, entitled "An act for the benefit of the States of Texas, Colorado, Oregon, Nebraska, California, Kansas, and Nevada, and the Territories of Washington and Idaho, and Nevada when a Territory," the following-named officers are, by direction of the Secretary of War, detailed to assist him in examining and reporting upon the claims of the States and Territory named in the acts of June 27, 1882: Major James Biddle, 6th Cav.; Major Henry J. Farnsworth, Insp.-Gen., and Capt. Edward Hunter, 1st Cav. The officers named will report to the Secretary of War at as early a date as practicable (S. O., Oct. 6, H. Q. A.)

Indian Scouts.—Cos. A, B, and C, Navajo Indian Scouts, and the company of Mescalero Indian Scouts will be mustered out of service. (S. O. 69, D. M. N., Sept. 23.)

DEPARTMENT NEWS.

Dept. of the Missouri.—Brig. Gen. J. H. Potter.

El Paso is in the seventh heaven over the increase of garrison at Fort Bliss and the establishment there by Col. Douglass of the Headquarters of the 10th Infantry. To make room Captain Gregory Barrett, of the 10th, will take his Company D to Fort Selden. The El Paso *Times* jubilantly says: A lively time may be looked for at the Fort hereafter. That old wish—a ten company post—is now in the not very distant future. By the change a magnificent brass band will be located at the Fort, and will prove a great source of attraction.

Dept. of Texas.—Brig. Gen. D. S. Stanley.

A Laredo despatch says: Parties who have visited El Coyote's last battlefield in Mexico report finding several bodies of whites, confirming all other reports in regard to the killing of El Coyote and his men. Since that trouble there have been no indications of revolutionary movements in Mexico.

Gen. Vela, with 600 men of the 5th and 26th Infantry, Mexican Army, arrived in Matamoras October 3, and took command of the Department of the Rio Bravo. The rest of his troops will shortly arrive and the 4th Infantry will go to San Luis Potosi, while the cavalry regiments will be formed in one corps under Col. Motius Hinojosa.

A Brownsville despatch of October 1, referring to the escape of two murderers—Samuel Reed and Samuel Williams—from the jail in Matamoras, says "At 4 P. M. the Mexican sergeant of the guard reported their escape, but it was too late. Half an hour later Reed hoisted himself into the quarters of Captain J. H. Bradford, 19th U. S. Infantry, in Fort Brown, from whose company he is a deserter, and asked assistance to continue his flight. The officer replied "I will have you arrested," when Reed fled

and evaded capture. The escape excites much unfavorable comment, as it is alleged that large sums of money must have been spent to secure their escape. Captain Bradford is much chagrined at their escape. The crime for which these men were sentenced to death was committed in January last."

Dept. of the Platte—Brig. Gen. George Crook.

The troops at Rock Springs, Wyoming, have gotten fixed there very comfortably, the Union Pacific Coal Co., having allowed them the use of six buildings from the Old No. 6 Mining Settlement, now abandoned, and such a feeling of uneasiness still exists among the Chinese miners that they would not remain at the place were not the troops there to protect them.

Dept. of Dakota.—Brig. Gen. T. H. Ruger,

Col. Otis, commanding at Fort Assinniboine, telegraphed Oct. 1, that Lieut. George Backus, 1st Cavalry, had returned, having been out about a week. On Sept. 17 the picket on Black Coulee, five miles from Marias, found 13 Indians with 20 ponies and gave chase. The Indians fired on the party, who returned the fire, and continued the pursuit, in which they were joined by the entire detachment. The trail was followed 40 miles, but was then lost. When last seen they were going in the direction of the Piegan Agency. Col. Dudley, commander at Fort Custer, reports that on Sept. 26 he was informed that a war party of Crows had that day killed two Assinniboine squaws and wounded another not far from Fort Peck. He at once despatched Troop K—Boutelle's—1st Cavalry, to intercept the party on its return. On the night of Sept. 24, 200 horses were stolen from the Piegans, probably by a part of the same band of Crows that was seen near Fort Peck. Two troops of the cavalry have been ordered from Fort Custer to Yellowstone.

Division of the Pacific—Maj.-Gen. O. O. Howard.

The San Francisco *Post* says: "Next month the officers and ladies of the military posts will inaugurate their series of winter receptions. At Angel Island Saturday afternoons will be devoted to friends and visitors, and many pleasant hops are anticipated. Tuesday evening will be held sacred to the demands of hospitality at the Presidio. The ladies of the latter post have arranged for promenade concerts to alternate with evenings devoted to dancing."

Division of the Atlantic.—Maj.-Gen. Schofield.

Riverside Park has resumed again something of the tranquillity that prevailed a little more than a year ago, before it became known to the world as the final resting-place of General Grant. Little more will be done about the grounds until the monument is ready to rise up above the Hudson and look down over the city to the Bartholdi Statue of Liberty in the bay ten miles below. Since the troops were removed last July a detail of Park Police has been stationed night and day at the vault. Every morning the officer in charge of the detail directs the opening of the inner doors of the vault. In the evening they are closed again, the key remaining under the care of the officer in command of the detail. An American flag is raised on the flag-staff beside the tomb each day. The most frequent visitors are the members of General Grant's family. Every week a florist under the direction of Colonel Grant, brings a special floral tribute to place within on the coffin.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

The Tucson *Daily Star* says: "Geronimo and his band are prisoners and Arizona has not only peace, but the almost certain prospect of continuous peace and safety. With the capture and banishment of the hostiles nature has given bountiful rains, such as Arizona has not rejoiced under for years. Every valley is verdant with bountiful vegetation and every hillside affords ample pasturage. The agriculturist sees before him the prospect of remunerative crops. The mining camps, from which the miner was driven by fear of Indians, are again becoming the scene of thrifty industry. The future of Arizona is secured."

The statement in Gen. Miles's official report of the Apache campaign that Geronimo was not captured, but surrendered conditionally, is flatly contradicted by Capt. Lawton, who in a private telegram to Lieut. Albee, of the Winchester Armory, dated Albuquerque, N. M., Oct. 1, explicitly denies that the surrender of Geronimo was coupled with any conditions whatsoever. Lieut. Albee, who served many years with Capt. Lawton, states that the latter's record as an Indian fighter during the last fifteen years precludes the probability of his making terms with Geronimo when he had cornered him after an all summer's chase.

A despatch from Albuquerque, N. M., Oct. 6, says:

Gen. Miles was asked yesterday by a reporter what he thought of the published statements or bulletins assumed to have been written upon official information furnished at the War Department as to his capture of Geronimo. "Those reports," replied the General, "emanate from the brains of an unscrupulous and envious person, whose object appears to be to distort the truth, with the intention of injuring me. The pretence that the surrender of Geronimo and other hostiles was other than the result of the gallant and arduous operations of the troops in the field is simply childish. Surely no intelligent man would believe that the Apaches, who have been roaming over this mountainous region for generations, masters of the situation, would have thrown down their arms, sacrificed their property, surrendered their liberty, accepted perpetual banishment from their native country, placed themselves and their families at the mercy of the Government unless they had been subjugated by the military forces. The mildest punishment evidently in store for them far exceeds in severity that ever before inflicted upon any body of Indians in this country. I am quite willing that every official act of mine in this enterprise should be known to the public. I would much prefer that my official report should be published than that extracts and distorted statements should be thrown out. I was given absolute discretionary authority to conduct the campaign. Even Gen. Sheridan, who commands the Army and knows more about Indian matters and the topography of this country than all the Army officers in Washington together, declined to give me any specific instructions. The removal of these Apaches has stricken terror into those living in the adjacent country. Even the powerful Navajos, of 20,000 souls, are now afraid they may do something for which they will be liable to be sent away from the native country. I already regard it more effective than if forty executions had taken place."

RIFLE COMPETITIONS, 1886.

ALL that remains to complete the account for this year is the result of the Army contest, which closed Oct. 1 amid great enthusiasm, added to by the presence of Lieut.-Gen. Sheridan, Major-Gen. Terry, and other distinguished officers. The team, with scores in detail, is as follows:

	Known Dist. Agg. for 2 days.	2 Days Skirmish. Agg.	G'd Tot. 4 days. Agg.
1. Corpl. Christian Michel, Troop L, 4th Cav.	334	144	478
2. Sergt. Wm. D. Huddleson, Co. K, 4th Art.	339	139	478
3. 1st Lieut. Zerah W. Torrey, 6th Inf.	345	126	471
4. Sergt. Joseph F. Crawford, Co. A, 19th Inf.	325	134	459
5. 2d Lieut. Cassius E. Gillette. Corps of Engineers	327	115	442
6. 1st Sergt. Ludwig Roper, Co. F, 4th Inf.	302	138	440
7. Corpl. Geo. E. Miller, Troop H, 2d Cav.	317	121	438
8. Sergt. James W. Weeks, Co. E, 6th Inf., dist'd marksman.	330	108	438
9. 2d Lieut. Jas. T. Kerr, 17th Inf.	326	107	433
10. Sergt. James B. Denney, Co. D, 14th Inf.	314	113	427
11. Sergt. Morrow C. Gustin, Troop B, 2d Cav.	313	112	425
12. Pvt. Hatsell Garrard, Co. K, 10th Inf.	306	87	393

Corpl. Michel, Troop L, 4th Cavalry, is the winner of both long distance and skirmish medals. Corpl. Michel has won five out of a possible six medals—department gold and silver medals, the division gold medal, known distance and skirmish gold medals. Lieut.-Gen. Sheridan, in the presence of an imposing assemblage, military and civic, made the presentation, and congratulated all concerned on the remarkable proficiency exhibited and the zeal with which the rifle competitions this year had been carried on. In this connection the ARMY AND NAVY JOURNAL has to return thanks to the inspectors of rifle practice, statistical officers, etc., who have so kindly furnished information during the progress of the several contests. Our aim has been this year to present each week a condensed but lucid statement of progress in each Division and Department, with results to hand, leaving out all extraneous matter.

(Correspondence of the Army and Navy Journal.)

THE MILITARY ACADEMY.

WEST POINT, N. Y., Oct. 6, 1886.

WE have had several distinguished visitors this week. Major-General Packenham, of England, arrived on Monday, to remain several days. On Tuesday Governor Hill, of New York, was here during the afternoon.

General and Mrs. Hardin, U. S. A., retired, were at the post for a few hours yesterday afternoon.

General Alfred Cumming, of Georgia, was here last week. He graduated in 1849 and was a captain in the 10th Infantry when the war broke out.

Captain and Mrs. Ramsay spent Sunday here, the guests of Lieut. and Mrs. Simpson.

Lieuts. Millis, Poore and Patrick made brief visits to the Point the past week.

The following extract from an order issued last Saturday explains itself: "With a view to a more complete instruction of cadets in the lower sections in mathematics and the assistance of those who need it in mastering the difficulties of the course, one or more instructors to be assigned by the Professor of Mathematics, will, every evening during the advance lessons (Saturday and Sunday excepted), be present in rooms Nos. 9 and 12, Academic Building, at tattoo, to explain to cadets the lesson in mathematics for the following day. The time to be devoted to this instruction shall not exceed one hour each evening."

Lieut. W. C. Brown's mother and two sisters have arrived, and the Lieutenant is "keeping house" in the cottage next to the Post Office.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

THE Gibson's Social Club gave a very handsome dancing party on Oct. 1, Battery I (McHenry) being among the guests. Refreshments were served while the orchestra, under the direction of Professor Shuenfeldt, played bewitching strains from the "Mikado." There was dancing until 11 o'clock, when the ever-new old tune broke upon our ears and we went home, everybody being delighted with the evening's entertainment.

Mrs. Belva Lockwood addressed the Soldiers' Temperance Union on the evening of Sept. 29.

Battalion drill commenced on Oct. 4 and will be continued every Monday, Wednesday and Friday until further orders.

The Court-martial for the trial of Capt. J. L. Johnson, U. S. A., of which Gen. Horatio G. Gibson is President and Lieut. W. E. Birkhimer Judge Advocate, is still in session.

A theatrical entertainment will be given on Friday evening, Oct. 8, for the benefit of the "Charleston relief fund," by the officers and ladies of the post, the enjoyable comedietta, "Too Much for Good Nature," or "Laugh and Grow Fat," being selected for the occasion. This entertainment no doubt will be at their best, and the scenery will be both handsome and appropriate. The orchestra will be furnished by the excellent regimental band of the 3d Artillery. To the officers and their ladies is due the recent construction at the post of a well-appointed stage, affording facilities of amusement to the present and we hope to many succeeding garrisons.

Battery I leaves here for Fort McHenry to-morrow morning, having completed their tour of target practice at long ranges.

FORT LARAMIE, WYO.

A CORRESPONDENT of the *Leader* writes:

Colonel Merriam, commanding, has decided to give the companies a little exercise in the way of marching, etc. He has detailed two companies for ten days march to Laramie Peak, heavy marching order. On the return of the first two companies the others will take up the same route until all have had a turn. This practicing in marching is a splendid idea, for in the event of any unpleasantness with Mexico, everything will be in ship shape for a heel and toe contest from here to the Rio Grande. The family of General John Gibbon arrived here the other evening on a visit to Lieut. J. E. McCoy and wife. They were given a serenade by the 7th's band on the evening of their arrival. It was remarked by one of the visitors that they had heard nothing to compare with the music of the 7th Infantry band since they left here last year.

COURT-MARTIAL CASES.

In the case of Sergeant Geo. Cumming, Troop G, 8th Cav., recently tried at Fort Bayard, N. M., for selling and unlawfully disposing of Government forage and acquitted, the reviewing authority, General N. A. Miles, disapproves the action of the Court, and says: "It appears that the prisoner sold four sacks of grain to one Ornbaum, a butcher, for which he received eight or ten dollars in money, and about a week after this transaction he purchased fresh beef for the detachment from one Ross, for which he paid eight dollars, the detachment being in need of fresh beef at the time. Upon these facts the court finds the sale of the corn by the prisoner to be justified and acquits him. In this the Department Commander cannot concur. The emergency did not justify the unlawful sale. If fresh meat was a necessity it could have been obtained in the usual legitimate way. Nearly one week elapsed between the sale of the corn and the purchase of the meat, showing it was not the intention to apply the proceeds of the sale of the corn to that purpose at the time." (G. C. M. O. 52, D. Ariz., 1886.)

(Correspondence of the Army and Navy Journal.)

THE ALDINE DRAMATIC ASSOCIATION.

THE dramatic season at Mare Island opened Sept. 18 in a blaze of glory. Two pieces were presented, the first being Gilbert's "Sweethearts," with this cast:

Harry Spreadbrow ..... H. Phelps.
Wilcox, a gardener ..... C. F. Williams.
Miss Jennie Northcutt ..... Mrs. F. Eldridge.
Ruth, her maid ..... Miss M. Bradley.

Act I, 1844—Spring: act II, 1874—Autumn.

It was well and judiciously performed and the players were liberally applauded. The *piece de resistance* was the sparkling comedy entitled "Doctor Mondshein." Cast:

Dr. Mondshein ..... C. W. Jungen.
Mr. Backby ..... J. G. Eaton.
Mrs. Backby ..... Miss M. Lockwood.
Aunt Post ..... Mrs. C. F. Williams.

To mention the officers and ladies who assisted in making the opening a success would take up too much of your space. Commodore Belknap and Mrs. Belknap are naturally in the lead, and as to the lady naturally falls the main responsibility, it is a matter of congratulation that this particular lady knows just how to conduct such affairs. JUNK.

SKIRMISH FIRING.

A SAN FRANCISCO correspondent writes: The Pacific Division team was an excellent one as you will see by comparing the record of that which went to Creedmoor about 1880 (200, 500 and 600 yds. then) with that of this year.

You will see that large scores were made at the skirmish firing. There were two who made fair showing at the fixed ranges, but being prone shots were nowhere at skirmishing, as in rapidity and accuracy the back positions have great advantages. It occurs to me that the JOURNAL could do a good thing by making general inquiry and publishing the results as to the policy of encouraging back positions. For *scoring points* on the skirmish range there is no question as to their advantages, but would they *ever be used in real work?* I think not. The skirmisher will seek cover—a knoll, stump, stone or hole, he will wish an arc of vision in front; lying on his back there is out of the question. Q.

[We shall be happy to receive suggestions on the point suggested by our correspondent.—ED. JOURNAL.]

(From the Prescott, A. T., Courier of Sept. 24.)

THE RECEPTION.

THE reception of General Miles by the citizens of Prescott took place yesterday at the Court House. At 3 o'clock the General, with his staff, drove up to the entrance to the Court House yard, where they were met by a committee of citizens composed of Messrs. Levi Bashford, T. P. Otis, Judge Rush, and Hugo Richards, who escorted the distinguished soldier and his staff, composed of Maj. Barber, A. A. G.; Colonel Glenn, Chief Paymaster; Major Kimball, Chief Quartermaster; Captain Pullman, A. Q. M.; Captain Weston, Chief Commissary; Lieut. E. J. Spencer, Chief of Engineers, and Lieut. R. B. Watkins, Chief Signal Officer, the Prescott Grays forming a squad of honor. The Court House was crowded with the citizens of our metropolis, all eager to do honor to the man who received the surrender of Geronimo and shipped the last of the hostile tribes from the soil of Arizona. After music by the 9th Infantry band, Mayor Kelly introduced Judge Sumner Howard, who made the address of welcome.

Gen. Miles, who, by the way, is a splendid specimen of the man physically, replied in suitable terms complimenting the brave soldiers of his command who followed the trail of these Indians through mountain ranges and rocky cañons, in the heat of summer, until their capture was effected. The General said that when he saw the last train of these Indians on their way East, it occurred to him that they would make as good citizens a thousand or twelve hundred miles from Arizona as they had been here. Now, he said, you will receive in their stead train load after train load of hardy, industrious pioneers, who will assist in developing the many resources of your Territory. He concluded by saying that many soldiers would come among us and that he hoped nothing would ever occur to mar the cordial feeling of reciprocal respect and esteem which now exist between the military and the citizens of Arizona. After a general handshaking, the General and staff paid their respects to Acting Governor Bayard, at the City Hall.

The General left last evening for Albuquerque, from whence he soon goes East, carrying with him the respect and esteem of every citizen of Prescott.

PRESENT CONDITION OF THE SIOUX.

THE *Herald of Health* publishes a letter from the Sioux chief, Red Cloud, in which he assures us that he is the white man's friend and gives the following particulars as to the condition of his tribe:

As to the Indian chiefs. Many of the older ones are dead and gone to the land in which their fathers live. Chief Sitting Bull is living at Standing Rock Agency, and Chief Spotted Tail is dead. I myself am getting old, and the fires of youth begin to burn low in the eyes that were once quick to discover the approach of an enemy or the presence of game.

You inquire after the health and working habits of my people. As to the health of the Indians on this reservation, it compares now favorably with that enjoyed by them before being placed on reservations. An almost entire change in their manner of living when first adopting the habits of their white brethren caused much disease among them. The Indians were not accustomed to the meat of domestic animals; they lived upon the flesh of the buffalo, antelope, deer, bear, etc., and lived and slept in the open air of the wild prairie, and were a hardy race, standing an immense amount of exposure, which was to them then no exposure. When the clothing of the white man, his diet, and living in houses was adopted, it was an entire revolution in the habits of Indian life, and such a revolution necessarily induced an accompanying enervation of the Indian constitution. But these causes are now passing away, and the former Indian hardihood is again becoming apparent. Our population is not on the increase, as the last census of my people at this place shows a material falling off, not induced only by death, however, as many of them have seen proper to change their location to other agencies.

As to the working habits of my people. When it is taken into consideration that only a few years ago the Indians of the Northwest knew nothing of work as understood by the white man, I am gratified to bear testimony that their advance in this line of civilization has been satisfactory beyond

the expectations of many. In agriculture and manual labor the Indian is on the advance, though in many ways he labors at a great disadvantage. The opinion among Government contractors that anything is good enough for an Indian, has not become wholly obsolete. Many of them are hauling freight for the Government, for merchants and for other parties, and many of them are tilling the ground under the instruction of white farmers, and are advancing in the modes and manners of civilization.

There are many things the Indians yet need, and which have been promised by their white brethren, and I hope and believe their advancement in the near future will be much more rapid, satisfactory and permanent.

(Correspondence of the Army and Navy Journal.)

FORT DOUGLAS ITEMS.

LIEUT. SHATTUCK, 6th Inf., of the June graduating class has joined for duty with his company at Fort Douglas.

Lieuts. Hamilton and Newcome, 5th Art., having been relieved from duty with Light Battery D at Fort Douglas, are en route to their new station, Governor's Island.

Co. D, 6th Inf., on detached duty near the Blue Mountains, S. E. Utah, since June last, have been ordered to return to their station at Fort Douglas. Captain Murdock, commanding the company, lost his life by drowning while conducting the company to its present field of duty. Lieut. Stevens is in command.

Cos. B and G, Major Bush commanding battalion, have left Fort Douglas for Price's Station, on the D. R. and G. R. R. D. and R. G. R. R., and are hard at work repairing and rebuilding the road and bridges thence to the new post on the Ute reservation, Fort Du Chesne. They hope to return before snow flies, but their comrades at the new post will probably have an uncomfortable winter, even with the large supplies which are being hastened in to them.

Lieut. R. W. Young, 5th Art., has joined for duty with Light Battery D at Fort Douglas.

THE APACHE WAR.

THE *Alta California* has been interviewing some of the soldiers who were engaged in the pursuit of Geronimo and who have arrived in San Francisco on furlough. They have filled it full of the information it has no doubt been seeking, for it says: "None of them attempted to detract from the glory that has fallen on Gen. Miles, but they adhere to the claim that Gen. Miles found his plan a failure, and only after falling back on the idea of Gen. Crook in employing Indian scouts did he achieve success. The soldiers laugh at the idea of the Apache war being ended, and assert that in reality it has just begun. There is one chief still at large that thoroughly-posted residents dread more than they ever have Geronimo—old Mangus, whose face has never yet been seen by the troops. A dozen braves, the flower of the Apache fighting men, remained with him when Geronimo, his weak hearted and crippled braves and squaws came into camp and surrendered, and seven more escaped the night before the troops reached Fort Bowie with the captives. Those seven, like all that are with Mangus, are young fellows, aged from 20 to 30 years. And there is no doubt, the soldiers say, but that they immediately joined Mangus in his camp amid the fastnesses of the Sierra Madres. By recruiting a dozen or more bucks who have escaped capture by solitary seclusion, the old man will have a force of 25 or 30 red devils, who will care for and spare no weaker body that comes in their way. In the opinion of the soldiers, the policy of sending Geronimo to Florida is to disarm Mangus and coax him into camp." Soldiers generally know more about the proper conduct of a campaign than the officers who command them, and these soldiers seem to be no exception to the rule.

THE Cleveland *News and Herald* of Oct. 6 states that the remains of Wallace J. Meyer, who was found dead in his room in the St. James Hotel in St. Louis, Saturday morning, arrived in that city over the Cleveland, Columbus, Cincinnati and Indianapolis Railway Tuesday afternoon at 1 o'clock. A number of friends of the family of the deceased received the remains at the depot and conveyed them to the residence of his father, Col. Edward S. Meyer, Captain, U. S. Army, retired. The *News and Herald* says: "The particulars surrounding the death reveal the fact that the deceased had for some time been suffering from a disordered brain, (the result of an injury to the head received in his youth.) The physician at the Jefferson Barracks observed his condition when leave of absence was granted him and also for some time previous. He frequently labored under strange illusions. After taking a room in the St. James Hotel, he visited a number of drug stores seeking employment as a clerk. Failing in this, he returned to the hotel and had his room exchanged for a larger one on the floor below, saying that he expected to have a great many callers. From the finding of his text books open upon a table, with his notebook and pencil by their side, it is supposed that he had been studying shortly before the fatal act. He took the poison in a glass of wine. The day prior to his death, he dined, by invitation, at the house of a friend, and his actions aroused no suspicions. His aberrations appear to have been transitory, and in one of these spells he took his life." Rev. Mr. Ladd, who conducted the funeral services, gave expression to the high esteem in which the young man was held and the universal sympathy felt for his father owing to the sad circumstances attending his son's death. Mr. Ladd said: "There never was a spot upon his character. His attainments in his chosen profession were remarkable. Always studious, applying himself with unremitting fidelity, he was an accomplished chemist at the age of twenty. As his pastor, I might speak of his Christian profession and his godly character and bearing. This certainly should be said, in justice to his memory, that he never yielded, as so many young men do, to the temptations that assail them. Never did the slightest suspicion of dissipation or vice in any form attach itself to his name."

COLONEL LORENZO SITGREAVES, U. S. A., retired, registered at the Gilsey House, New York, on Thursday.

COLONEL JAMES FORNEY, U. S. Marine Corps, visited in Washington this week on his way to the League Island Navy-yard for duty.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

SWATARA, 3d rate, 8 guns, Comdr. E. T. Woodward. At Portsmouth, N. H., undergoing repairs.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At Newport, R. I. To be at New York the latter part of October, to participate in the ceremonies attending the unveiling of the Bartholdi Statue.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. At Portsmouth, N. H., undergoing repairs.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. At the New York Navy-yard. Ordered to join the South Atlantic Station, and will sail in a few days.

The Navy Department has received a report from Comdr. Chas. McGregor, dated New York Navy-yard, Oct. 6, stating that he proceeded with the *Alliance* up the Hudson River, in order to make speed trial at various revolutions. Near Riverdale he found a straight stretch of railroad track, and measured a mile with a surveyor's chain. He ran the ship over this distance at various revolutions, commencing at 35 and increasing by five turns each run, until 65 revolutions were reached. The boilers then began to foam, and the speed trial was discontinued. The highest speed reached was 10.8 knots.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. At Rio de Janeiro Oct. 6, 1886.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro Aug. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. At Genoa, Italy, Aug 10.

KEARSARGE, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. To sail from Leghorn to meet *Brooklyn* at Gibraltar about Sept. 10. Has been ordered to return to the U. S., and is expected to arrive the latter part of October.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. To meet *Brooklyn* at Gibraltar Sept. 10.

Pacific Station—Rear-Adm. E. Y. McCauley.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Was at Iquique, July 31.

HARTFORD, 2d rate, 16 guns (f. s. p. s.), Capt. J. H. Gillis. Was at Callao July 31. Will shortly be ordered to San Francisco, Cal. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Sailed from New York, Aug. 16, for Pacific Station.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson (ordered.) Was at Payta, Peru, Sept. 13.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr George B. Livingston in command. Used as a storeship at Coquimbo, Chili. Comdr. S. H. Baker was ordered to command, per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Advices from Auckland, N. Z., of Aug. 16, say that the *Mohican* arrived from Fiji on Aug. 16, and would remain three weeks.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. At Sitka, Alaska. Address care of Navy Pay Agent, San Francisco, Cal. Lieut. Comdr. J. S. Newell has been ordered to command.

SHENANDOAH, 2d rate, 9 guns, Captain Byron Wilson. At Pichilinque Bay, Lower California, Sept. 18, 5 days from Acapulco. Arrived at San Francisco, Cal., Oct. 7, 1886.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station.

Asiatic Station—Rear-Admiral J. L. Davis.

Rear Admiral Ralph Chandler has been ordered to command this station, and will leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail, to care U. S. Consul, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Port Said, Sept. 28, 1886, as reported by cable.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Sailed from New York for the Asiatic Station Sept. 2, 1886. Reported by cable to have arrived at Gibraltar, Spain, Oct. 4, 1886.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. Left Shanghai, Aug. 25. Arrived off Nagasaki Aug. 28, and anchored off Chemulpo Aug. 31. Was there Sept. 3. Would return to Chefoo Sept. 6.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Rear Admiral Davis reports, under date of Sept. 3, that the *Monocacy* had been relieved at Canton, China, by the *Palos*, and had gone to Hong Kong, China, for repairs.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Arrived at Valdivostok, Aug. 21. Would return to Shanghai Oct. 1.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Arrived at Chemulpo, Corea, Aug. 24, from Chefoo. Has been ordered to return to New York by the middle of February, 1887.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. Advices of Sept. 3, 1886, announce that the *Palos* had arrivod at Canton, China, where she relieved the *Monocacy*.

Apprentice Training Squadron.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. Sailed from Madeira for Newport, R. I., Sept. 11. Expected to arrive about Oct. 10.

SARATOGA, 3d rate, 12 guns, Comdr. C. H. Davis. Sailed from Madeira for Newport, R. I. Sept. 11. Expected to arrive about Oct. 10.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr At New York.

DOLPHIN, despatch boat. Lieut. Chas. O. Allibone in command. At Norfolk, Va., undergoing repairs. She is now receiving her battery, and will soon be ready for sea service, but who will command her, and what her destination will be, are not yet known.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. At Norfolk, Va., for repairs.

It is said that the *Jamestown* will receive only temporary repairs at the Norfolk Navy-yard, and peremptory orders have been given to have her ready to proceed to Newport by October 20. The estimates for thorough repairs exceed the twenty per cent. limit, and the winter cruise to the West Indies will probably be her last one. The estimates were based on stripping her to the garboard strake and rebuilding all above.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. Arrived at Erie, Pa., Oct. 2.

RANGER, 3d rate, 4 guns, Comdr. Chas. E. Clark. At San Francisco. Comdr. F. A. Cook has been ordered to command.

Advices from San Francisco state that the *Ranger* was to leave the Mare Island Navy-yard early in October, to resume the survey of the Pacific coast of Mexico and Central America, which will not be completed for several years yet.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. Schoolship. Cruising in Long Island Sound. Expected to lay alongside of dock, foot of East 31st Street, New York City, next week.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

VARIOUS NAVAL ITEMS.

THE French frigate *Minerve*, Admiral Xigne, arrived at Portland, Me., Oct. 3, from Halifax, and goes thence to New York. She carries 15 guns and 345 men.

REAR ADMIRAL J. L. DAVIS, U. S. N., commanding the Asiatic Station, reported, under date of Sept. 3, 1886, that everything on the station was quiet and the health of the officers and men of the squadron was good.

THE Baltimore *Sun* says: "Mr. Chas. A. Reeder, of Baltimore, called on Chief Engineer Loring a few days ago, and was given permission to look over the plans and specifications for the machinery of the new cruisers. Mr. Reeder contemplates submitting a proposal to construct the machinery of the two gunboats."

A DESPATCH states: "The Navy-yard, Washington, D. C., has a deserted appearance at present, rather than a busy one as expected. Crowds of discharged workmen who live in East Washington, and have nothing else to do, congregate on the corners and around the gates and discuss the situation. The contractors and builders are having many applications for jobs, of which they have few or none."

STEAMBOAT INSPECTORS FAIRCHILD and Marsland on October 4 received from Captain M. N. Goldrick, of the tug *R. A. Packer*, his account of the collision with the United States steamer *Despatch* on Sept. 30. He says: "I had four barges in tow when I saw the *Despatch* coming down Hallett's Cove. I blew two whistles, which she answered promptly. The *Despatch*, in rounding Hallett's Cove, took a rank sheer to starboard, crossing my hawser, cutting the starboard one off and striking the middle barge."

A NUMBER of letters have been received at the hydrographic office during the month of September from the commanders of various sailing and steam vessels, narrating their experience in using oil at sea during a storm for the purpose of smoothing the water. They all agree in stating that as soon as the oil touched the water it spread over the surface and changed the angry waves to long and heavy but harmless swells. They describe a variety of plans for applying the oil. Several of them attribute the rescue of their ships and crews from destruction to the oil. Of the hundreds of similar letters received in the past no instance of failure has been narrated when the oil was vegetable or fish oil. Kerosine and the lighter oils have sometimes failed to produce the effect desired. The material in hand upon this subject will be published in pamphlet form for the benefit of mariners.

IN reply to the question whether the naval constructors of the country are taking any interest in the plans of the new naval vessels, Constructor Wilson said he thought when the time came for opening the bids every firm equal to the work would submit bids. Among those who have already taken the greatest interest in the work are William Cramp and Brothers, Neafie and Levy and J. P. Morris's works at Port Richardson, Philadelphia; the Union Pacific Iron Works, of San Francisco; Nathaniel McKay, of New York; Atlantic Iron Works, of East Boston; Harlan and Hollingsworth Works; Pusey and Jones, of Wilmington; and the Columbian Iron Works, of Baltimore. The Delamater Works, Thomas Rowland, of New York, and the Delaware Iron Shipbuilding Company, of Chester, have yet to be heard from; also the St. Louis firms, which are equally capable with the Eastern yards to bid for the construction of the two iron gunboats. There is no fear whatever but what capable and responsible firms, in large number, will compete for the building of the vessels.

THE Navy Department is informed that Commodore Braine assumed command of the *Lancaster* and of the South Atlantic Station, October 6, at Rio de Janeiro.

COMMANDER CHARLES V. GRIDLEY, U. S. N., commanding the training squadron, in a report dated Funchal, Madeira, September 11, announces the arrival of the training squadron at that place Sept. 6, six days from Lisbon. The squadron was to sail for Newport on the day the report was written.

THERE has been some comment in scientific circles about a statement made by Lieut. Scheutze, U. S. N., who recently returned from Siberia. He says that he recorded at one time cold as low as 85 degrees below zero Fahrenheit. This has been questioned by the Signal Bureau. Reference by Lieut. Scheutze to the official record of observations made in Siberia last year, of which he obtained a copy, showed several times 86½ degrees below zero Fahrenheit.

PROBABLY the lightest draught vessel of any considerable size in the world has within a few days commenced running on the Allegheny River, Pennsylvania, doing a passenger and freight business between Pittsburgh and the up-country towns. The vessel is the new steamer *Nellie Hudson*, which came down the river from Kittaning, 45 miles above Pittsburgh, on her first trip Sept. 25. She is 143 feet long, 25 feet beam, 3 feet depth of hold, *and draws* 10 *inches of water loaded*. She inaugurated a navigation given up since 1869.

THE vessels of the North Atlantic Squadron and those at the New York Navy-yard will participate in the Bartholdi Statue celebration on October 28. Both Rear Admiral Luce and Commodore Chandler have been directed to confer with General Schofield regarding the matter. The *Tennessee* is now at Newport and will proceed to New York towards the latter part of the month, but it is doubtful if the other vessels of the North Atlantic Squadron, which are at the Portsmouth Navy-yard, will take part. The vessels of the training squadron will join the other naval vessels on this occasion if possible. The *Jamestown* is at Norfolk, and the *Portsmouth* and *Saratoga* are expected to reach Newport by October 10, from Madeira. The only vessels at present at the New York Navy-yard are the *Atlanta*, *Despatch* and *Alliance*. The *Atlanta* is undergoing some repairs preparatory to a trial trip at sea. If the changes in the thrust bearings, in order that the shaft may be oiled more freely, are the only ones needed she ought not be detained very long, but the difficulty in getting work done promptly on account of the monthly appropriation system at the yards may delay her until the end of the month. The *Alliance* has been daily expected to sail for the South Atlantic station for so long, that the officials at the Navy Department think that she too may participate in the celebration.

THE *Lancaster Print*, of Aug. 10, says: "After dinner on the afternoon of July 26, the chain was brought to and the spar and gun deck capstans rigged for heaving in by hand—a novelty on board where a steam capstan is used. The intention was to go out under sail, and it was 'man the bars' and 'heave 'round.' It was surprising to see how the first 30 fathoms of that chain came in before the order 'avast heaving' was given. We had no idea that our ship could get over so much ground in so short a time, and that so much chain could be stowed in so few minutes. A little before 3 o'clock 'up anchor,' and 10 fathoms more came in with the same speed. When the strain was brought on the 8,000 lbs. bower anchor (we were anchored in about 20 fathoms) the capstan then slowed. This was what the old ones were waiting to see and the smiles on their faces told of the secret enjoyment of heavy heaving as they began to get breath. Our good natured fifer had tried hard to keep up with the capstan, but the strain was so great and it required so much wind for the fast music necessary, that he had to be relieved at spells by the bugler. Now was his time for revenge and he struck up 'Finnegan's Wake.' It was not a wake, but a wail; all expected to see Tim Finnegan's ghost appear to protest against such a slow wake. Some one suggested to run that fife down, and they did, and in a very few minutes the anchor was catted and fished, plain sail made, and the *Lancaster* standing out from St. Helena. Time of entire work, 22 minutes.—WELL DONE BOYS. Took departure at 3 o'clock July 26; gentle to very light breeze from S. to S. S. E. until Aug. 1, when moderate to stiff until evening of Aug. 6, after which calm and very light breeze from W'd. Started fires that night and furled sail. Aug. 7 passed the uninhabited Island of Trinidad. The *Lancaster* will have sailed 15,831 miles since leaving Rio. The *Brooklyn*, same cruise, Montevideo to Montevideo, sailed 16,244 miles."

NAVY GAZETTE.

Ordered.

OCT. 6.—Lieutenant Commander Louis Kingsley, to temporary duty on board the receiving-ship New Hampshire.

Lieutenant Richard H. Townley, to the training-ship Jamestown.

Assistant Engineer George S. Willits, to examination for promotion.

OCT. 7.—Lieutenant Albert G. Berry, to Ordnance duty at the Washington Navy-yard, November 1.

Ensign Charles N. Atwater, to the Naval Academy, October 20.

Detached.

OCT. 5.—Ensign Frederick R. Brainard, from the Coast Survey steamer Blake and ordered to the Yantic.

Ensign Francis R. Wall, from the Hydrographic Office, Washington, October 16, and ordered to take charge of the branch Hydrographic Office at New Orleans, La.

Ensign Franklin Swift, from the Yantic and ordered to the Swatara.

Lieutenant Henry McCrea, detached from the Shenandoah and ordered to Naval Academy.

Lieutenant Lucien Young, from the Shenandoah and ordered home to wait orders.

Ensign Richard Henderson, from the Shenandoah and ordered home.

Leave.

Ensign Harry Kimmell, granted six months' leave.

Professor Henry D. Todd, granted three months' leave from October 8.

Promotions.

Commodore Ralph Chandler, to be a Rear Admiral.

Captain A. W. Weaver, to be a Commodore.

Lieutenant Asa Walker, to be a Lieutenant-Commander.

Lieutenant (junior grade) T. DeW. Vedder, to be a Lieutenant.

Ordered to Examination for Promotion.

Lieutenants (junior grade) C. B. T. Moore and F. H. Tyler.

Commander C. M. Schoonmaker, Lieutenant-Commander G. W. Pigman, Lieutenants (junior grade) F. A. Wilner and Ensign C. A. Gove.

Retired.

OCT. 4.—Rear Admiral Walter W. Queen, retired from October 6.

MARINE CORPS.

OCT. 1.—Colonel Thomas Y. Field, detached November 15, 1886, from the command of the Marine Barracks, League Island, Pa., and ordered to the command of the Marine Barracks, Norfolk, Va.

Major James Forney, detached November 15, 1886, from the command of the Marine Barracks, Norfolk, Va., and ordered to command the Marine Barracks, League Island, Pa.

OCT. 5.—1st Lieutenant A. C. Kelton, ordered to rejoin the U. S. S. Alliance at New York.

OCT. 7.—1st Lieutenant William C. Turner, having been restored to duty on October 6, ordered to report for duty at the Marine Barracks, Mare Island, California.

CASUALTIES.

List of deaths in the U. S. Navy for the week ending Oct. 7, 1886:

Charles Mason, sergeant, Marine Corps, September 29, at Naval Hospital, Washington.

Hans J. Follerson, ordinary seaman, attached to Pensacola, September 15, at Civil Hospital, Leghorn, Italy.

James Neill, beneficiary, October 3, at Naval Hospital, Philadelphia.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Oct. 7, 1886.

The examination of candidates for naval cadetships closed, Oct. 3, at the Naval Academy for the year. Out of thirteen candidates that reported five were successful, as follows: John Valentine Chase, Louisiana; George W. Williams, South Carolina; Lawrence H. Moses, New York; Julian L. S. Latimer, West Virginia, and W. W. Leonard, Texas. Four out of the sixteen cadets that were required to undergo a re-examination at the Naval Academy failed for the second time in their studies and will be dropped. Naval Cadet Joseph J. Welsh, of Ohio, member of the 1st Class, declined to enter the test and has resigned. The resignation has been accepted. Two of those recommended to be dropped are members of next year's graduating class.

The Academy annals do not record a younger set of instructors than those constituting the present Academic Board. Superintendent Sampson is the first of the rank of commander that has held the position of superintendent since Commander Louis M. Goldsborough assumed command of the Academy in 1853.

The reorganized Academic Board at the Naval Academy is as follows: Commander Charles L. Huntington, Commandant of Cadets; Commander Purnell F. Harrington, seamanship; Commander John Schouler, English studies, etc.; Professor W. W. Hendrickson, mathematics; Professor J. M. Rice, mechanics and applied mathematics; Chief Engineer Edward Farmer, steam engineering; Lieutenant-Commander Asa Walker, astronomy, navigation, and surveying; Lieutenant Benjamin F. Tilley, mechanical drawing; Lieutenant Fred. M. Wise, modern languages; Lieutenant Royal R. Ingersoll, ordnance and gunnery, and Professor N. M. Terry, physics and chemistry. Lieutenant Charles Belknap is the secretary of the Board. Lieutenants Chapman C. Todd, Theodoric Porter, Edward H. Gheen, and John W. Danenhower have been designated as assistants to the commandant of midshipmen. Ensign F. J. Haeseler is assigned to command of the infantry battalion and Ensign John H. Glennon to command the howitzer battalion.

The new term began October 1. The cadets returned from leave on the 30th, reported to the Commandant of Cadets, shifted from their beloved civilian's dress into the more modest uniform, and were ready to begin work at once. There is never very much time lost in commencing a term's work at the Academy, and the first night found them all hard at work—from the dignified First Class man who wears "stripes," down to the insignificant "plebe" who struggles with his first lesson in punctuation. In one point, however, they all agreed, they were dreadfully homesick. It can't be helped though. The first cadet who stops to be homesick bilges on the dreaded "semi-an.," which comes in January.

The corps now consists of 240 cadets, of which there are 44 in the First Class; 50 in the Second; 58 in the Third; and 88 in the Fourth. During the past year the present First Class lost 28 of its members.

Detachments of the infantry and artillery battalions have been seen daily on the grounds, commanded by Ensigns Haeseler and Glennon, respectively.

Lieutenant Ingersoll has charge of great-gun exercises in the bay, aboard the *Standish*.

Workmen are busily engaged just now in getting the Superintendent's new house ready for occupation before the cold weather approaches. Work is also being pushed rapidly forward on the improvements within and without the old recitation hall.

The hops will not begin until November 1.

THE Washington *Critic* reports that Miss Harper's marriage to Lieutenant Carroll Mercer, U. S. M. C., has been indefinitely postponed.

A NORFOLK correspondent writes: "Everything here is quiet. The necessary repairs to the *Jamestown* and *Trenton* have made it necessary to call quite a number of men into the yard. The *Dolphin* has about completed getting her battery on board and fitted. Capt. Bunce, the commandant, is much liked both by the officers and the people of Portsmouth and Norfolk. Commodore Truxtun is living in his pleasant house on Freemason St. It is to be hoped that a special bill for his relief can be passed this winter, as recommended by President Cleveland."

Subscriber—"Why is my paper so damp every issue?" Editor—"Because there is so much due on it."

REVENUE MARINE.

THE President on Tuesday appointed Jas. H. Brown, Wm. W. Culver and Cyrus B. Fengar, to be 3d Lieutenants in the Revenue Marine Service.

The Vallejo *Chronicle* says: "The U. S. surveying steamer *McArthur*, Capt. J. M. Helm, arrived in San Francisco Sunday. The steamer left Mare Island last February, and in company with the *Patterson*, another coast survey steamer, has been engaged on the Alaskan coast. In April the work began in Sumner Straits and was proceeded with in Wrangel Narrows. Actual survey was made from Red Bay up to Port McArthur, about 100 miles below Sitka, covering a distance of 1,500 miles. The *McArthur* sailed from Sitka two weeks ago, stopping on the way at Port Simpson, Port Wrangel, Port Townsend, and Victoria. To-morrow she will go to Oakland Creek, and thence to Mare Island. The *Patterson* will arrive to-day.

SUNDAY IN THE NAVY.

To the Editor of the Army and Navy Journal:

YOUR editorial on "Sunday in the Army and Navy" seems to have drawn several replies from the Army; but whether we of the Navy are more irreligious or farther removed from participation in the discussion of this important subject, no one apparently has thought fit to present a view of the question as from the water.

One of our curses is "Customs of the Service." One of these curses is to make Sunday a show day and to concentrate all the "pomp and panoply of war" into this so-called day of rest. The day begins with a grand scrubbing and cleaning—clearing up for inspection, it is called—which lasts till everybody dresses up in his best; then the commanding officer inspects all parts of the ship, while officers and men are at quarters. On the first Sunday of every month the Articles of War are read, followed by a general muster, usually the *third* that day; all this takes time, preventing those religiously inclined from attending service ashore.

From the practically unlimited power possessed by commanding officers, it follows that they that have more dread of the Navy Department in their hearts than fear of God frequently order much unnecessary and irksome work on Sunday "to save time." The writer knows of one man who got underway Sundays when possible, as harbors were less crowded that day, thereby confessing a want of self-reliance not much to the credit of a naval officer.

Naval men with strong religious feelings are placed between two fires, for a Court-martial invariably would condemn the man that, on a plea of conscience, objected to perform any duty his commanding officer ordered him to do.

The Navy as well as the Army needs a Presidential Order limiting Sunday work to that required by *urgent necessity*. What is more, so-called "Sunday functions" all ought to be abolished. If these senseless parades are to be held at all, let them be held on one of the days of the week. Sailors as well as soldiers, Naval officers as well as Army officers, unite in praise of what you have written, and the majority of us will pray that success may crown your efforts.

NAVY.

THE AUSTRIAN REPEATING RIFLE.

THE Austrian War Office has decided to adopt the repeating rifle for the army, and the pattern approved is the new Mannlicher. An order has been given for the manufacture of one million of rifles as speedily as possible. As the cost of these will amount to 15,000,000 florins, it may be concluded that the present Werndl rifle will be retained in the Austrian Service, and that its breech action only will be changed. The new weapon has been submitted to very effective tests, and is declared by specialists to be the very best hitherto invented, far surpassing the Kropotsheck repeating rifle in the French Marine. The new Mannlicher, it is stated, can be fired at the rate of from thirty-five to forty shots per minute. From the above it appears that European armies are universally adopting the repeating rifle. The Italian and Swiss armies have it already, and it has been issued to a portion of the troops engaged in the German and French autumn manœuvres. Russia at present is the only great military nation without it, but it cannot be doubted that she will keep pace with the times, and not figure at a disadvantage with her powerful neighbors.

COLONEL R. I. DODGE, 11th Inf., in orders of Sept. 30, "thanks the troops at Fort Sully for their gallant and successful fight against the terrible prairie fire of Sept. 29. But for their activity, persistence and skill Fort Sully would now be in ashes."

BLACK STARR & FROST

SUCCESSORS TO

BALL, BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

CHOICE OLD WHISKIES,

MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Old Reserve Whiskey, - - - - $18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

☞ If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi river; and by freight to any part of the U. S. (prepaid.)

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guarantee to give PERFECT SATISFACTION; otherwise to be returned at our expense.

PROMOTION BY SELECTION.

THERE are officers of the Navy who think that we might well follow the example of some of the European powers and make the Naval War College the road to speedy promotion. While this may be looking a little too far ahead, still the question of bringing forward our young officers is becoming each day a more serious question, and one which should be considered in a just and liberal spirit. Here is one of many examples: On board of a certain third-rate the senior watch officer is in his fortieth year. He keeps a watch and has a small division. Twelve years ago he was doing the same duty on board a *first-rate* and had a much larger division. Surely this is, as Paddy says, advancing by a retrograde movement, and yet the case is by no means uncommon. On this subject the Providence *Journal* says:

"It is plain that the highest efficiency of the Service must sooner or later demand a radical departure from the established system of promotion in both Army and Navy. The evils of the present method are not merely theoretical; they have long been felt and recognized; and in England, we believe, have even been the subject of discussion in Parliament; at least the need for reform has been given occasional utterance there in the public prints. For, in fact, the law of promotion by seniority is but the law of primogeniture, without the compensations of the latter in the perpetuity of family traditions and influence. It is a law which says that the man who entered the Army yesterday must of necessity be better than he who enters to-day. It is a check upon endeavor, an incitement to indolence. Be the young officer never so ambitious or industrious; let him perform what service he will; let him even become known throughout the Army or the country for his ability and attainments, he must always dance attendance behind the indolent or incapable man who acquires just enough to undergo formal examination when the time for promotion comes around. In a word, merit in Army and Navy must ever wait for its reward till it can step into a dead man's shoes. In this country the evils of the system are, perhaps, more keenly felt than in England, for the reason that the officer here cannot have before his eye the inspiration of a special decoration of honor, that would go far to recompense for the failure to secure rank. We have in this country absolutely no means of rewarding heroic or distinguished service, save that about which the Army is now complaining, or by the special voting of thanks in Congress. And that is an honor which for obvious reasons can be granted but rarely and under extremely exceptional circumstances. It is no wonder, then, that officers of Army and Navy cling tenaciously to the little reward granted them when their active life is over. This ought indeed to be given them ungrudgingly. But more important still is it that the man still capable of labors and eager to perform them should receive a recognition from the nation that shall be both reward and inspiration."

As to the truth of this there can be no question; the difficulty lies in proposing a remedy. So far as experience goes, promotion by selection means, in too large a number of cases, promotion by family or political influence, or by personal favor of some kind. It would be a happy day for our Army and Navy if every officer could be made to feel that his position, or at least his promotion, depended upon his devotion to the duties of his profession. But even then service, as well as ability, should be considered, as it is everywhere else. No well ordered civil establishment fails to take into account in its selection of subordinates the experience which gives a special familiarity with given duties that is in a measure a substitute for original ability of a higher order. What we want is a system which will prevent the promotion of officers who are not fitted to discharge the duties of the office to which they aspire. We have a system of examination for promotion in the Navy, and perhaps some of our naval officers can tell us why it fails to accomplish the intended purpose. Each officer of the Navy is confronted by an examination every time he makes a step in advance, from the day he appears at the Naval Academy on the nomination of his Congressman or the President. If these safeguards, set up all along the road, fail to prevent the advancement of incompetent officers, as naval officers assure us they do, what additional security is to be obtained by leaving promotion subject to the will of some gentleman selected from civil life without the slightest regard to his familiarity with the Navy or his capacity to test the ability of naval officers?

As to the selection of Flag Officers for the Navy, an officer, who thinks that nothing can be worse than the present plan, suggests the following: "Let a Board of senior officers nominate, say three captains, for promotion, the President to select one of these for the vacancy, then you would have none but good Admirals. After the system is established the law should provide that no Captain should be eligible for promotion unless he had served, say from eighteen months to two years in command of a seagoing ship. Then all your fine ships would be sought after by the most energetic and ambitious officers as soon as they become Captains; there would be an incentive for sea service; ships, squadrons, the whole Service, would feel the benefit of the active heads, and we would begin to advance. At present no one *wishes* to go to sea; he gains nothing, and may lose much comfort. Hard work is but little recognized and still less rewarded, and the Navy in this respect differs from every other profession, and in time of war, for which the Navy is supposed to be prepared, this customary habit is thrown aside and officers are selected for command and rank. I think much has been gained by the

Army system. There has been no general that I know of who has not been a distinguished soldier, and in consequence the name of general is not common or insignificant. You cannot say that of the name of Admiral. It signifies nothing, except that the man has reached the age of 62 and that there occurred a vacancy for him before his 62d birthday. He may be a fool—or he may be utterly incompetent—these do not signify."

THE SURRENDER OF GERONIMO.

CAPTIVITY does not lessen GERONIMO'S capacity for making things lively to Army officers. Just at present the subject of his surrender, its terms, General MILES'S report and the Government's intentions form the burden of despatches from Washington every day. The great question seems to be, "Ought we to hang him?" and the public appears to be dissatisfied with the surrender upon the principle that made SAM WELLER doubt whether he had done his duty when no one had been kicked.

Another phase of the subject is a controversy as to General MILES'S conduct. Did he do his duty, or disobey orders? This is a theme on which the daily press is giving sagacious opinions. We have no intention of joining in this important discussion, for the reason that we do not know what his duty was, *i. e.*, the wishes of the War Department as communicated to the General have not been fully and authoritatively published; and we do not know whether he has done his duty, for the equally simple reason that we don't know precisely what he has done. His report is in the hands of his superiors, but they have not published it, and diligent effort on our part has failed to obtain any knowledge of its exact contents. We regret to separate ourselves from the great body of our contemporaries on this important question, but we have decided to hold our opinion in reserve until we can learn the facts.

One thing seems to be evident, and that is that Arizona threatens to be the graveyard of military reputations. General CROOK is the liberator of that country. His services early in the seventies made it possible for white men to live there in peace, and it had not been possible before. When the Indians became troublesome again he was sent for as the one man whose ability to subdue them was confided in. He labored with great skill and faithfulness, and now at least one-half of the people in Arizona believe that CROOK was a captive in Mexico and that he was completely outgeneralled by the Apaches in the campaign of last year. General MILES takes CROOK'S place and finishes his work, receiving the actual surrender of GERONIMO and removing that savage with many of his braves from the Territory. Now the newspapers think that a call for the arrest and trial of MILES for doing this, in the way he did it, is likely to be an interesting and popular topic, and they are discussing it on all sides! All signs fail in a dry time, and neither success nor failure seem to protect the soldier in desert Arizona.

We have shared in the indignation and sorrow with which the public have observed the bloody career of this Indian brute, and have felt them with an intensity that some other editors probably have not known. Having our attention directed for years past to the actual facts of Indian raids in the Territories and the disastrous results that spring from the rush of even a small party through the country, we have often been impelled to compare the short and calm reports of these outrages with the sensation that is made when two or three ruffians get to fighting in a city, or some wretched woman is shot by a man as debased. If the Indians were to raid New York and kill half a dozen people what a noise would be made and what calls on the Government to provide troops! And yet the condition of terror that succeeds a raid in the Territories and the long-continued interruption to business; in short all those things which form the more lasting effects of Indian war, would be wanting in the city. The murders would form the whole story in the East while in the West the individual disasters would be of only an indication of distress and pecuniary loss which would be widespread.

Certainly in this view the capture of such chiefs as GERONIMO and NACHES, the removal of so large a number of turbulent young braves from the Territory cannot but have the happiest effect upon the welfare of Arizona and New Mexico on our side of the border and of Sonora in Mexico. Perhaps we should have done more and captured our prey in good hanging condition, but a judgment upon the possibility of doing so, and a judgment upon the further question of advisability of doing so, is not to be formed without a better knowledge of the facts than we and other editors now have.

We believe that the difficulty of capturing the Chiricahua chiefs was intensified by the insufficient supply of troops, and that the whole incident is another and powerful argument for a moderate increase of our military force; but were the question studied from the actual facts as to means available, the enemy to be met and the country he was to be encountered in, we believe the decision would result in most flattering encomiums both upon the general who began and the general who finished the campaign.

WEST POINT GRADUATES CLASSIFIED.

THE Post Adjutant at West Point has made a diagram showing the occupations of the parents of cadets who have been admitted since 1842. As it is very interesting we give it in full:

Farmers and Planters	827	Dentists	7
Merchants	495	Nurserymen	5
Lawyers or Judges	455	Enlisted men	4
Physicians	271	Undertakers	4
Mechanics	263	Surgeons	4
Army officers	246	Cooks	1
No occupation	179	Butchers	1
Clergymen	102	Brewers	1
Manufacturers	93	Supts. of Schools	4
U. S. Civil officers	66	Publishers	4
County officers	61	President of College	4
Clerks	58	Millers	4
Navy officers	52	Lumbermen	4
Agents	47	Bakers	4
Bankers and Bank officers	45	Stock dealers	3
Hotel-keepers	42	Photographers	3
School teachers	39	Journalists	3
Editors	39	Gardeners	3
Unknown	35	Barbers	3
Engineers	34	Architects	3
Railroad officers	28	Printers	2
Brokers	27	Politicians	2
Contractors	24	Policemen	2
Members of Congress	23	Overseers	2
State officers	22	Musicians	2
Volunteer officers	19	Builders	2
Laborers	18	U. S. Mint	1
Miscellaneous	18	Supt. of Prison	1
Livery-keepers	12	Saloon-keepers	1
Insurance business	12	Chief of Police	1
Real estate	11	Inspector of Police	1
Mining	11	Distillers	1
Presidents and Supts. of Corporations	10	Detectives	1
Speculators	10	Artists	1
Secretaries	5	Authors	1

Classifying the several professions of the 3,557 parents of cadets, whose occupation is given, 41 per cent. were professional men; 27 per cent. merchants and traders; 23 per cent. farmers, and 9 per cent. farmers and planters. Army and Navy officers together secured but little over eight per cent. of the appointments in spite of the popular impression that the Military Academy is a close corporation, organized for the express purpose of educating their sons. The volunteer officers are, it appears, represented by only 19 appointments in all.

We observe that a correspondent of the New York *Sun* reports a gray-haired Army officer as saying, that the Northern Congressmen's selection of candidates for cadetships in West Point through competitive examination has resulted in an inferior class of officers, and that the brains of the young army, the courage, enterprise, ambition, sense of honor, and all the soldierly instincts are in the officers from the South. The Congressmen from the States latest in rebellion invariably send their best blood to West Point. In looking for a boy to make a soldier of they never think of selecting one smart in arithmetic, and who can repeat "Rollin's Ancient History." They invariably get their boy just as they get their racing colts. They look for blood. This correspondent adds: "Under the different systems North and South of supplying West Point with cadets, it is easy to tell where the control of the United States Army will be in ten years from now. There would be some sense in a competitive examination for school teachers. There is insensate folly in it for selecting officers for the Army." He declares too, that the "North got out of West Point up to 1861 only three first-rate soldiers—Grant, Sheridan and Sherman. It could not have got one of these if their appointment as cadets had depended on a competitive examination."

Undoubtedly, the tests which prevail in scholastic examinations are not such as to determine a youth's capacity for military service. It is the qualities which do not respond to the touchstone of the blue stockings and the gradgrinds that make the soldierly character. The young "Jackanapes," whose story we told last week, represents the youthful qualities from which develops the martial hero—high spirited and daring, generous and self-forgetting when the occasion demands, and at the same time so full of mental and physical vitality that the bounds of prudence and convention are overstepped, and the pharisees shocked by departures from the beaten paths of propriety. It is not every Jackanapes who makes a soldier, by any means, but it is the Jackanapes who not infrequently develop the soldierly qualities which are not to be discovered by oral or written examinations as to soldierly attainments.

ON the 5th day of September, 1813, occurred one of the naval battles celebrated in song and story, the fight between the *Enterprise* and *Boxer*. The contest, which lasted but forty-five minutes, resulted in the capture of the English vessel, the *Boxer*, and in the death of both commanders. In the cemetery at Portland, Maine, side by side rest the two brave young captains who fought so well on that September day. The inscriptions on their tombstones are as follows:

Beneath this stone moulders the body of William Burrows, late Commander of the United States brig *Enterprise;* who was mortally wounded on the 5th of September, 1813, in an action which continued to increase the fame of American valor, by capturing his Britannic Majesty's brig *Boxer*, after a severe contest of forty-five minutes. Æt. 28.

A passing stranger has erected this monument of respect to the manes of a patriot, who, in the hour of peril obeyed the loud summons of an injured country, and who gallantly met, fought, and conquered the foeman.

In memory of Captain Samuel Blyth, late Commander of his Britannic Majesty's brig *Boxer*.

He nobly fell on the 5th day of September, 1813, in action with the U. S. brig *Enterprise*.

In life, honorable. In death, glorious. His country will long deplore one of her truest sons. His friends long lament one of the best of men. Æt. 29.

Two heroes, less than thirty years old. Beside the grave of Commander Burrows is the last resting place of another hero and victim of the battle:

Beneath this marble, by the side of his gallant commander, rest the remains of Lieutenant Kerven Waters, a native of Georgetown, District of Columbia, who received a mortal wound Sept 5, 1813, while a midshipman on board the U. S. brig *Enterprise*, in an action with his B. M. brig *Boxer*, which terminated in the capture of the latter. He languished in severe pain, which he endured with fortitude until Sept. 25, 1815, when he died with christian calmness and resignation, aged 18. The young men erect this stone as a testimony of respect for valor and virtues.

AN Ottawa despatch of October 3 says: "The Dominion Government are interesting themselves in behalf of GEORGE HATHEWAY, a British subject who in 1882 was arrested at Big Horn City, Wy. T., as a deserter from the U. S. Army. All remonstrances and pleas of innocence were useless, and he remained in confinement until the commanding officer began to realize his mistake and allowed him to depart, only to find, however, that his business was ruined and he himself a pauper. The attention of the U. S. authorities has repeatedly been called to the alleged facts, in an informal way, without any reparation being made. The matter will now assume the character of an international question between the British and United States Governments." Our information is that the case was one of mistaken identity, that no claim has been received at Washington from the Dominion Government, and the allegations of harsh treatment are denied. The man arrested was promptly released when the mistake was discovered.

A GENERAL ORDER has been issued directing the change of the headquarters of the Division of the Pacific from the Presidio of California to San Francisco and the headquarters of the Department of Dakota from Fort Snelling, Minn., to St. Paul, Minn., to take effect November 1, and also prohibiting an increase in the number of staff officers authorized by Paragraph 45 of the Regulations. Time has demonstrated with most of the Division and Department headquarters that they were better off for the effective transaction of public business with their headquarters in cities than at the military posts to which they were compelled to remove under Sec. 6 of the Act of June 18, 1878. As an economical arrangement, the section in question has been a failure.

THE President on Thursday commissioned RALPH CHANDLER to be Rear Admiral in the Navy and A. W. WEAVER to be Commodore from September 7. On September 27 the Admiral celebrated the forty-first anniversaay of his entrance into the Navy as a midshipman. We can hardly expect him to round out another four score, but we may, at least, hope that he may "live long and prosper."

THERE are, at least, three military organizations in the service of civilized governments which retain that ancient weapon, the bow. One of these is the Scottish Archers, another the Ancient Foresters and the third, the Kirghese Irregulars, in the service of the Czar. The Scottish Archers were, it appears, recently honored by the command from the Queen to turn out during her visit to her Scottish palace and capital. How unfamiliar they have become with the traditions of the ancient service they represent, is illustrated by an amusing anecdote told by the London *Army and Navy Gazette:* There is a piece of leather called a "brace," worn as a guard against the bowstring on the left arm by the members of the corps, which, however useful, is not ornamental. In the order for the parade of the Royal Archers before the Queen, it was directed that the men were to appear "without their braces." As the Archers of to-day are neither measured round the chest, like recruits, nor lower down, there is no limit to the circumference of the members of the corps. Among them happened to be one whose physical conformation and natural modesty combined were deeply affected by the command, and after reflection and possible trial, he came to the conclusion that it would be impossible to expose his person to ridicule, and insult his sovereign, by the consequences of strict compliance with the order. He wrote a letter to the adjutant accordingly, to say that, owing to his physical conformation, he could not keep up his clothes properly "without his braces," and he therefore begged he might be excused from being present at the parade.

REAR ADMIRAL W. W. QUEEN, U. S. N., reached the age of 62 on Wednesday of this week, October 6, and was duly placed on the retired list. He joined the Navy in 1841, served during the Mexican War, and resigned in 1847. In 1854 he again joined the Navy, and from that time forward steadily rose, until on August 27 last he was commissioned Rear-Admiral. During the war he commanded the second division (seven schooners) of the Mortar Flotilla, under Porter, during the bombardment of Forts Jackson and St. Philip, and during the attack on Vicksburg, when Farragut passed the batteries with his fleet. He commanded the *Wyalusing* in the engagement with the *Albemarle* and her consorts, the *Bombshell* and *Cotton Plant*, in May, 1864, when the ram to prevent capture sought refuge in the Roanoke River.

LIEUTENANT W. R. HAMILTON, 5th U. S. Artillery, continues in the *Current* of October 2, his excellent articles on "The Army and the People." In discussing the question, as to whether in case of war, we should rely on the militia system, or on the system of volunteering, Lieut. Hamilton says: "A history of the American Militia is anything but satisfactory to the military-loving American. A summary of results achieved in the Revolution will show that, if left entirely to the Militia, we never would have obtained our independence. It was the Regular troops—Continentals—in almost every victory, that deserved the credit. In the War of 1812, although our forces in Canada outnumbered those of the enemy, our defeats outnumbered our victories. In the Mexican War, we had, besides the small, Regular Army, thirty volunteer regiments, and no Militia. All know that the Rebellion was a war of volunteers."

THE Second Comptroller allowed the following Mexican War Claims during the week: Joseph Plympton, Bvt. Colonel, 7th Inf., $225; Benj. F. Graham, Captain and A. Q. M., $150; Peter W. L. Plympton, 2d Lieut., 7th Inf., $75; Chas. R. Ferris, private (permanent recruiting party), $21. In settling the Mexican War claim of Joseph Plympton, who was brevetted Colonel 7th Infantry, to rank from April 18, 1847, but who relinquished command March 6, 1848, and left Mexico the middle of that month on sick leave, not to return, the Second Comptroller has decided that he is entitled to three months' pay as colonel, amounting to $225, holding that his engagement ended March 6, 1848, when he relinquished command. The Second Auditor prepared a settlement for $180, as a lieutenant-colonel, apparently on the ground that the officer's engagement did not terminate until he left Mexican territory.

THE Pensacola Navy-yard has escaped its expected visitation of yellow fever this year, although the reports of the disease at Ship Island and Biloxi render it quite probable that the safety of the Navy-yard from the anticipated attack was more from "good hit than any good wit." Fort Barrancas, which has been about deserted during the summer, will soon resume its wonted air of activity and drills.

INQUIRY fails to elicit the name of "the distinguished Army officer," who, according to the Washington *Post*, is "about to resign and enter upon the operatic stage." Will the *Post* relieve our anxiety?

GENERAL CHARLES P. STONE, who was the engineer in charge of the Bartholdi statue at Bedloe's Island, recommended a system of electric lighting and his recommendation has been approved. The apparatus to provide the light consists of 1 dynamo complete, 13 duplex arc lamps, and 14 50-candle power incandescent lamps. The torch will contain five lamps of 30,000-candle power, the light from which is to be thrown upward. It is predicted that the lights will so illuminate passing clouds that they will be visible 100 miles or more. Four lights of 6,000-candle power each go at the foot of the statue for its illumination. Incandescent lamps fixed in the diadem on the figure's head will lend the appearance of jewels. Major-General Schofield is pushing forward the preparations for the inauguration ceremonies on October 28, and an interesting occasion is anticipated. Senator Lafayette and Gen. Grévy, the President's brother, will represent the French Senate at the ceremonies.

A DESPATCH from Vienna, date of September 17, announces the demand of the Minister of War of a credit of 15,000,000 florins (about $7,500,000), for the purchase of repeating arms, the appropriation for 1887 out of this being 2,500,000 florins. It is reported by the Italian press that the Minister of War has closed a contract with a foreign manufacturer of small arms for the transformation of the Vetterli, model of 1870, to a repeater. News by cable indicates that the Minister of Finance opposes the appropriation asked for by his colleagues, so that the measure is still in doubt. The government is considering the organization of a new armory of small arms at Torre Annunziata.

MRS. CLEVELAND, having gone on a short visit to Buffalo, a facetious corsespondent writes: "The lonely President drowns his sorrow deep in official cares. He sent for Secretary Endicott this afternoon to bring over everything he had about Geronimo, the wild savage of Arizona; the burden of a hundred claimants for the place of Surgeon-General, and the list of engineer officers who want to have General Newton's place. He wanted to look over a lot of State Department theses; the plans for the new cruisers and the angry cry of political interference from a score of disappointed nominees. His trip in the woods made him ravenous for work."

WATTERSON writes from abroad to the Louisville *Courier-Journal:* "There is a good deal of war talk; but I fancy there will be no war. Everybody is trying to get an unfair advantage of everybody else, and he will come out best who does the expertest lying and most of it, which, when all is over, will be described as the Balance of Power and labeled Diplomacy. Really, it almost reminds one of the late Cutting affair."

A DESPATCH to the St. Louis *Globe-Democrat* says: 'General Stanley, commanding the Department of Texas, was interviewed this evening regarding the disposition of his Indian captives—Geronimo and his band. He had a long talk with Geronimo and Naches. He said they had retailed the story of their capture and the terms offered to and accepted by them. Their statement was a substantial corroboration of the report to the War Department made by General Miles. They had not had their lives guaranteed. They had been told simply that they would be protected against the citizens of Arizona, or against trial in the civil court of that State. No one had told them that they might not be executed after trial by the military."

"THERE is," said Sir F. Bramwell, in his lecture at Birmingham, "an old saying: 'That bachelors' wives and old maids' children are perfect.' Perfect, likewise, are the guns of the critics, and for the same reason—they have no existence. Therefore they have never been fired, and therefore they have never failed."

THE subject of garrisoning Fort Myer has not yet been taken into consideration.

COLONEL THOS. F. BARR, U. S. A., of Gen. Terry's staff, looked up old friends in New York this week

GENERAL JOHN M. CORSE, the hero of the "Hold the Fort" episode during General Sherman's Atlanta campaign, has been appointed postmaster at Boston.

THE General Court-martial at Washington Barracks has concluded the trial of Captain W. S. Johnson, U. S. A., for duplication of pay accounts, and the proceedings have been sent to the Lieutenant-General.

THE St. Paul, Minn., *Globe* has a long account of "a notable wedding," the marriage at Christ Church, in that city, October 4 of Miss Otis to W. Frank Newell, "one of the brightest of St. Paul's young professional men." Passed Assistant Paymaster John N. Speel, U. S. N., was one of the ushers, and preceding the bridal party came Mrs. Otis, the mother of the bride, accompanied by her two sons-in-law and daughters, Captain and Mrs. Wallace and Lieutenant and Mrs. Dickinson.

LATE ARMY ORDERS.

The leave of A. A. Surg. W. Whitney is extended one month. (S. O. Oct. 8, H. Q. A.)

1st Lieut. Butler D. Price, 4th Inf., having been promoted to Captain, will be relieved as Adjutant on the arrival of 1st Lieut. George O. Webster. The Colonel cannot allow the occasion to pass without expressing officially a high sense of his obligation to Captain Price for the industry, fidelity and discretion with which he has at all times performed the duties of adjutant of the regiment and post, and his regret caused by the severence of their official relations. 1st Lieut. George O. Webster is appointed Adjutant to date from October 1. (Orders 47, 4th Inf., Sept. 29.)

At Fort Wayne, Mich., Oct. 12. Detail: Major Henry McElderry, Surgeon; Captains Charles Wheaton and Richard I. Eskridge, 1st Lieuts. Frederick L. Dodge, Orlando L. Wieting and Stephen O'Connor, and 2d Lieuts. Edwin P. Pendleton, Daniel B. Devore and George D. De Shon, 23d Inf., and 2d Lieut. W. H. Allaire, 23d Inf., J. A. (S. O. 154, Div. Atl., Oct. 8.)

Leave for one month is granted 1st Lieut. John H. Gifford, 2d Art. (Little Rock Barracks, Ark.) (S. O. 154, Div. Atl., Oct. 8.)

INFANTRY AND CAVALRY SCHOOL.

GENERAL A. McD. McCOOK in his annual report, after citing the workings of the school, invites attention to the fact that beside the field officers on duty at the school the instructors are necessarily selected from the officers on duty with the companies composing the garrison, and on account of insufficient quarters for other officers the commandant of the school is limited to those officers, some of whom, by physical disability and want of proper knowledge, are not competent to teach any subject. Hence he does not deem it proper to ask for the intelligent, bright and progressive officers to be placed on duty as his assistants, there not being sufficient quarters at the post to make them and their families comfortable.

He submits the following recommendations for the approval of the Lieutenant-General:

That the candidates for the next year's class, and ever hereafter, be selected by the colonels of regiments one year in advance of the date of entering the school. That each candidate shall have an alternate, nominated at the same time and by the same authority, to take the place of the candidate should accidents of service prevent his reporting at the school, or in case of his failure to enter.

No candidate or alternate selected shall be over 35 years of age, unless he be a most zealous officer and ambitious to master the course of the school. All candidates and alternates to have served two years with their regiments; also to possess physical health sufficient to perform active field service.

Candidates presenting diplomas from West Point, or any institution of merit, to be admitted without examination. Candidates reporting and not possessing such diploma will be examined by the school staff to ascertain if they possess sufficient knowledge of the following subjects to insure their progress at the school, namely: General history and history of the United States, geography, arithmetic and algebra, to include theory of logarithms and geometry.

The latter candidates, having had a year's notice for preparation, and failing to pass the examination for admission, will be without excuse, and should be at once returned to their regiments and the alternates substituted for them.

That student officers be not attached to companies for any duty but roll call, and that they perform only such military duties as may from time to time be directed by the commandant of the school.

That the companies stationed at the post of Fort Leavenworth be models in their respective arms in administration, drill and discipline, and that they be complete organizations, all officers belonging thereto should be present, performing all the duties of the post prescribed by regulations and the commandant of the school.

Student officers should not be called upon to perform any duties liable to deflect their minds from the regular studies or from the subject for which this school was established.

The student-officers should compose one class, study the same theoretical and practical course, thereby permitting each individual officer to strive for the highest standard of excellence attainable at the school.

That the present manner of indicating class study be changed.

That the class be divided into groups, composed of six members.

That the six most meritorious members of the class compose the first group, but are not to be classified in the group.

That the next six most meritorious students compose the second group, but not classified, and so on to the end. The advantages of this system to the Army admits of easy explanation. Upon graduation names of the members composing the first group to be forwarded to the Adjutant-General of the Army, the staff and commandant recommending them for preferment, foreign details, etc.

That, if during any period of the course a student officer becomes neglectful of his studies, failing to pass the stated examination, he should upon the recommendation of the staff and commandant of the school be returned to his regiment with a proper reprimand from the Lieut.-General, to be published to the Army in General Orders.

Gen. McCook earnestly recommends that quarters be erected at Leavenworth to accommodate the officers and men of one company of engineer troops.

He thinks modern military engineering, in all the details pertaining to it, should be thoroughly taught at this school. There should be model field works erected upon different points of this military reservation. There should be a few pontoon boats, enough chess boards and balks with lashings to build a few bays of a bridge. There is still water near at hand for this exercise. There should also be scaled models of modern military fronts, laid in brick and cement, for practical study by the officers of the school. In addition there should be models of all temporary wooden bridges used in war. We do not lack engineering ability in the line of the Army, but with the engineering company comes the skilled labor not to be found in the average company of infantry and cavalry. The officers of this company devoting themselves especially to engineering will prove competent instructors in theory and practical work in the field.

He deems the coming of this company of prime necessity, for the reason that there is no other point in our country where it could render such valuable service.

He recommends that sufficient money be allotted to erect sufficient quarters to accommodate the officers sent to the school as instructors and students, as well as the officers on duty at the post of Fort Leavenworth. Each student-officer should have two rooms assigned him. The quarters now occupied by most of them are badly lighted, too dark in the daytime for comfort and study, and in addition are badly arranged and generally uncomfortable.

PROMOTION OF GENERAL OFFICERS.

To the Editor of the Army and Navy Journal

A STYLE of promotion that depends almost entirely upon the strength of the political influence a Brigadier General and his friends, or a Colonel and his friends can control, can hardly be the best for the Army.

It is supposed that every officer in those grades honestly believes himself entitled to promotion. As only two could be promoted forty odd are disappointed. The latter are not as valuable military servants of the nation as they were before. They have no promotion to look forward to that would gratify their pride and ambition. They cannot hereafter perform their duties as cheerfully and with as honest a belief in the justice of their superiors. They are soured and irritated. Any one familiar with our military posts knows that the happiness or unhappiness of the entire garrison varies with the good or bad humor of its commanding officer, his whims and caprices; so all are personally interested in his gratifications and disappointments.

That an officer gave valuable service to the country 25 years ago, it does not follow that he could give equally valuable field service to-day. So the question of competency or incompetency for promotion is a mere difference of opinion between the friends of the several candidates. Our system of promoting Colonels (and Brigadiers) forces them to becomes personal rivals, encourages them to be jealous of, and unjust to, each other, it mortifies and injures the competency of a large number of officers and gives a doubtful benefit to a very few.

A Colonel who is not competent to be a Brigadier in our Army in time of peace is not competent to be a Colonel in peace or war, and should be retired, instead of being mortified and his usefulness injured by being denied promotion. All the Brigadiers and Colonels gave excellent and valuable service during and since the war. It should be the desire to reward by promotion as many of them as possible before the time for their retirement from active service.

Cannot the Army (except those officers who expect more rapid promotion through the strength of their political influence) approve of and urge upon Congress that some one of the three following systems of promotion be made the law; (at least during peace):

1. That the oldest Brigadier in age be promoted to fill any vacancy among the Major-Generals. The Brigadier vacancy to be filled by the oldest Colonel of the line.

2. That the Brigadier who has the longest military service (counting all service, as soldier and officer, volunteer and regular,) be promoted, and his vacancy filled by the line Colonel who has the longest military service.

3. That vacancies be filled by promotion of the Brigadiers and Colonels who are the seniors by date of commission in their grades; that is, by seniority promotion.

4. With either system the President should have the power, with the approval of his cabinet, to retire any officer above the rank of Colonel at his option.

These plans remove military promotion from politics. They would diminish jealousies, and officers not promoted would have no occasion for mortification. The first system would be preferable, as it would make more rapid promotion and justly reward a greater number of old officers.

OBSERVER.

Military Order of the Loyal Legion.

THE New York Commandery of the Military Order held their meeting out of the order on Tuesday of this week, Wednesday being the usual day. Ex-President Hayes and Gens. Sherman and Schofield were among those attending. Obituary resolutions were passed in memory of Paymaster Gilbert A. Robertson, U. S. N., and Captain Nathan W. Horton, U. S. V. The death was announced of Captain Henry C. Ellis, U. S. V., Rear Admiral Reed Werden, Gen. James H. Van Alen, Albert M. Barney, Lieutenant William G. Wise, Col. Lloyd Aspinwall, and Captain Edwin M. Neville. Seven new members were elected and the officers invested for the ensuing year.

General Horatio C. King led the choir in singing "Rally Around the Flag." He was followed by Gen. Horace Porter, who discoursed upon war reminiscences. He had learned that he was expected to read a military paper, but he had no paper and so would try and do without. Perhaps it was as well, for when ex-President Hayes learned that he was to present no paper he had left even the great State of Ohio, and as for Gen. Sherman, he had made New York his permanent home on the understanding that he was never to hear a paper from him (Gen. Porter).

The entire company sang "Marching Through Georgia" and waved handkerchiefs at Gen. Sherman. He arose amid great applause and spoke:

I am certainly gratified to see such marks of kindly approval. I may be one of you for some time, but can't tell how long. Life is uncertain. I have found good grass and water and a good camp down at the Fifth Avenue Hotel, and as long as it continues I shall remain. I am pleased to see my friends of New York. I am pleased to see my friends of New York. I am an old New Yorker myself—older than most of you, I imagine, because I settled here fifty years ago.

He continued:

I marched through Georgia, as you sang, but I rode over the same ground as a lieutenant in 1843 and knew it well in 1861. Wherever I go it don't seem to make any difference—they will hammer that old song at me. When I was stopping at a hotel in Dublin, opposite Green Park, one day I sat down to write, when suddenly I heard music. As it approached I recognized the same old tune. I rigged out in uniform and went down to receive them. They had passed on. When I asked the hotel proprietor who they were and what tune they were playing he replied, "Some of the boys playing one of the old Irish tunes." Anything else—"Yankee Doodle" or whatever you may wish—but don't give me that, please, gentlemen.

A meeting of the Wisconsin Commandery was held at Milwaukee, Oct. 6, at which several new members were elected, after which an interesting military paper was read. This Commandery has issued an useful register of its members, alphabetically arranged, with dates of election, addresses, etc.

The movement for the creation of the Loyal Legion's war museum and library at Philadelphia is going on very satisfactorily. It is intended to have a museum of war implements of all kinds, from the earliest times down to the present, personal relics, and a war library classified according to our wars and those of other countries.

At a meeting of the Minnesota Commandery, held at St. Paul, Oct. 6, the following were balloted for: Lieutenant R. Tully, 25th U. S. Infantry; Capt. J. M. Paine, U. S. V.; Lieut. R. D. Pike, U. S. V.; Captain T. F. Forbes, 5th U. S. Infantry; Lieut. O. J. Sweet, 25th U. S. Infantry; Major C. H. Whipple, Paymaster, U. S. A.; Lieut. I. Seymour, U. S. V.; Surgeon D. P. Bigger, U. S. V. After the business meeting an interesting paper, "From Atlanta to Raleigh," was read by Colonel Chas. D. Kerr. This commandery is flourishing, the present membership being 105.

The Board of Officers of the Commandery-in-Chief will assemble at Headquarters, 723 Walnut St., Philadelphia, on Thursday evening, Oct. 19, for the transaction of business.

GRANT'S HORSE.

(Ben: Perley Poore in the Boston Budget.)

GENERAL GRANT was particularly proud and fond of his stud of horses. His war charger was an especial favorite. He took great delight in exhibiting his horses to his friends with whom he was intimate. Once at his stables with a friend he said: "Perhaps you would like to see the horse I rode during all the campaigns I commanded?" The animal was ordered to be brought out. The gentleman was surprised to find the horse no larger than a lady's palfrey—small, slender, agile-limbed, black as a coal, intelligent, mild, an eye like a hawk, and a lick on the mane for all the world like a boy's cow-lick. It was such an animal as women and children would make into a family pet. The gentleman pronounced the animal a beauty, but expressed a doubt as to its endurance. "Endurance!" said the General; "this animal exceeds in endurance any horseflesh I ever saw. I have taken him out at daylight and kept in the saddle till dark, and he came in as fresh when I dismounted as when we started in the morning. There isn't gold in America to buy him. He is an imported horse of fine breed and was once on Jeff Davis's plantation." This was just before Davis was caught, and the visitor said: "I presume you would exchange the horse for Jeff Davis?" "You have said it," exclaimed Grant; "I would exchange him for his old master, but for nothing else in the world."

ON THE FIELD OF GETTYSBURG.

THE Board of Commissioners appointed by the act of Legislature of the State of New York May 26, 1886, for the purpose of determining the position and movements at the battle of Gettysburg of the several military organizations of this State that took part in that conflict, met at noon, Oct. 4, at the residence of Major-General Daniel E. Sickles, No. 23 5th avenue. All the Commissioners were present. Their names are Major-General Daniel E. Sickles, chairman; Major-General Henry W. Slocum, Major-General Joseph B. Carr, Major Charles S. Richardson, and General Josiah Porter, Adjutant-General of the State. Major George W. Cooney, the secretary, and General Charles K. Graham, the engineer, were elected at the last meeting.

A large number of representatives of the New York State regiments who had participated in the battle came in during the session and pointed out the positions occupied by their respective commands in the battle. Among them were General Henry A. Barnum, colonel of the 149th N. Y.; General Denis A. Burke, Captain John Nugent (the Coroner), and William Moran, of the Irish Brigade; Colonel W. L. Markell, 8th N. Y. Cav.; Colonel D. B. Smith, 150th N. Y. Vols.; Major George Vanderbilt, 10th N. Y. Cav.; Major Brecks, 1st Light Battery L; Captain Joseph Murphy, 40th N. Y.; Captain Glenny, 64th N. Y.; General Shaler represented the 65th, 67th, and 127th regiments of his brigade; Colonel Thomas Rafferty, Colonel H. L. Potter, and Colonel John Coyne, of the Excelsior Brigade; Lieutenant William Wicker, 82d N. Y.; General Fowler, 84th N. Y.; Colonel Stegman, 102d N. Y.; Major Johnston, of Palatine Bridge, in same regiment; Major Starr, 104th N. Y.; Colonel O. B. Tracey, 122d N. Y., and Captain R. H. Moses; S. C. Cary, adjutant; H. C. Moorhouse, captain, and Captain L. H. Carrington, 123d N. Y.; Major Richardson, 126th N. Y.; Captain A. P. Case, 146th N. Y., and Colonel D. B. Allen, 154th N. Y.

ANSWERS TO CORRESPONDENTS.

C. H. G.—You stand No. 1 on Commissary Sergeant list.

Old Dominion.—You stand No. 2 on Commissary Sergeant list. Your service gave you second place.

Company Clerk.—The price of cartridge belt (Mill's, woven) is $1.50, and of belt plate, 50 cents. The price of front sight is 3 cents

L. E. M. asks when vacancies occur in the 11th and adjoining districts in New York? ANS.—The 10th, 11th, and 12th Districts will be vacant in June, 1890.

G. M. W.—Apply to the Superintendeut, General Recruiting Service, Army Building, New York City. State your qualifications as a musician and your desire.

W. H.—For full information concerning appointment of Ordnance Sergeants see Article 27 of the Regulations, pars. 258 to 278. Only Sergeants are eligible for appointments.

R.—A "palindrome" is a sentence that reads the same forward and backward. One of the best we have ever seen is that which the Lowell *Courier* claims to have originated: "No, it is opposition."

H. J. H.—Vacancies for West Point will occur in the first and second Michigan districts in 1889 and 1890 respectively. The President will have one appointment to make in July, 1887, for admission to the Military Academy in June, 1888.

Lex.—The act approved July 5, 1884, gives officers detailed to serve as acting Judge-Advocates, by the Secretary of War, "the rank, pay, and allowances of Captains of Cavalry." A 2d lieutenant so detailed, of course, while on the duty, has the rank, pay, etc., provided by the act.

Adjutant asks: At dress parade of infantry and cavalry, armed with the *carbine* and serving as infantry, would the cavalry execute order arms and parade rest similar to the infantry, or from a carry as prescribed in the Cavalry Tactics? ANS.—The cavalry would execute the manual as prescribed for the carbine.

O. S. M. asks us to describe the guidons of the right and left general guides and the markers, as used by the N. G., S. N. Y., giving size, color, etc. He believes they differ from those used by the Army. ANS.—Guidons are not used by foot troops. Those used by the N. Y. artillery are similar to the Army guidon. The marker flags as issued by the State of New York are small American flags.

Polaris.—The Court of Claims rendered judgment in the longevity case in favor of Captain M. F. Watson in the sum of $126.22. Appeal of defendant filed July 17 and allowed. Record on appeal delivered to the Attorney-General, Sept. 20. In the usual course it will come up in two or three years. If the judgment of the Court of Claims is sustained by the Supreme Court the money will be paid in the usual way through the Court of Claims.

Snook.—1. The latest decision says that the McKeever cartridge boxes opened as follows: Steady the pieces with the left hand, opening the box with the right. Drop the right hand to the side without regrasping the piece, but still steadying it with the left hand. Close the box with the right hand. Regrasp the piece with the right hand, dropping the left hand by the side.

2. Deposits are forfeited by desertion. See G. O. 51, A. G. O., 1872.

P.—1. The "Regular Brigade" of the Army of the Potomac was the 1st Brigade, 2d Division, 5th Corps, composed of the 10th, 11th, 12th, 14th, and 17th U. S. Infantry. 2. Chas. P. Stone was Col. 14th Inf. to Sept. 18, 1864: Gabriel R. Paul to Feb. 16, 1865, and Chas. S. Lovell to Dec. 15, 1870. C. Seth Cushman was Regtl. Adjt. Oct. 15, 1863, to Dec. 6, 1864; George M. Downey, Dec. 11, 1864, to Oct. 5, 1865; Thos. F. Tobey, Jan. 16, 1866, to Sept. 30, 1867, and Philo Schultze, Oct. 1, 1867, to April 30, 1869. 3. Hdqrs. 14th Inf. was at Tucson, Ariz., to April 6, 1867, and at Fort Yuma, Cal., to Dec. 31, 1867.

Constant Reader asks: 1. What position should the adjutant take at the inspection of a battalion, when the command "Field and staff to the front" is given? ANS.—The adjutant is already at the front with the color guard. At field and staff to the front he takes his position on the line of the field and staff officers.

2. At the "review and inspection" of a single company, what does the Adjutant do at the commands "Company, right wheel, march!" "Rear open order, march!" and "Field and staff to the front, march!" and is the last command a proper one under the circumstances? ANS.—There is no adjutant at the inspection of a single company. See Tactics.

THE MESS.

The Surgeon (on his daily round)—Well, how are we getting along, No. 3?

Cavalryman (eagerly)—Ah, Surgeon, I have an appetite like a horse.

The Surgeon—An appetite like a horse! Very good (turning to the Hospital Steward); see that No. 3 has half a bundle of hay.

—

The Major (apropos of the recent shindy in the Sixteenth)—"Well, by Jove! Because the women raise Cain in the garrison, it's no reason why the men should."

—

"ONE TOUCH OF NATURE."

"I was riding along the levee road in one of the northern parishes of Louisiana," said the Captain. "The day was hot and dry, the scenery monotonous, and I was rather tired. It would have been a pleasure to stop somewhere and rest and cool off in the shade, but I had to reach a river town and catch the first down boat, and being a total stranger in the neighborhood I did not like to venture in at any of the plantation gates I passed.

"Suddenly, on turning a bend in the road, I came in sight of a fellow traveller, going in the same direction, going mounted, too, and yet making slow work of it. It needed but a moment's glance to tell me that the man was very drunk. He was lurching and reeling all over his horse—a wiry Louisiana pony—and only with the utmost difficulty keeping his seat. The pony was tacking from side to side, apparently fully conscious of his rider's condition, and doing his best to keep under and bear him safely home.

"For some minutes I rode in the rear, fearful that an attempt to pass them would startle the pony out of his amble and his toppling rider out of his seat; but time pressed, and taking advantage of a widening piece in the road, I cantered by and only came down to a walk again after passing them some hundred yards. Looking back I saw that all was safe, but that, with the singular fatality which impels a drunken man to seek society and make a spectacle of himself, the gentleman of the Creole State was urging his steed to overtake me. The pony came up at a lumbering gallop, and all went well until his rider attempted to rein in beside me. The sudden check was too much for his unsettled equilibrium; with a wild clutch at the mane and a lurch that carried him clear of entangling rein or hoof, the Louisianian plunged headforemost into the dust, and there he lay with his pony looking pitifully down upon him.

"I sprang from my horse, threw the reins over a fence post, raised the uninjured gentleman to his feet, brushed off the dust and dirt with one hand while steadying him with the other, and finally boosted him once more into the saddle. All this time he had spoken no word, but at every opportunity was surveying me with drunken gravity and absorbed interest. He was well dressed, apparently well to do, and that he considered himself entirely the peer of all mankind was apparent from the first remark that fell slowly and impressively from his lips:

"Pleashed t' have met you, shir; 'stremely pleashed. Alwayst a plizzhur t' meet 'man that knowst a zhen'l'm'n when 'sees him."

I expressed correspondent gratification, trusted that he was unhurt, and could get along the rest of his way all right. He imperilled his seat by a gesture eloquent of confidence in its first sweep and wildly fearful of disaster in the next—another clutch at the mane. Then a second time he braced up, and recognizing in me a man, a brother, and beyond question of doubt a sympathizer, he resumed:

"You've been 'stremely (hic) polite, sir; 'stremely so. I—" and here his dignity was superb. "I'll do s'hame for you—nexsh time."

The mess laughed long and loud. Then came silence, and then, from the lower end of the table, from among the "subs," in fact, came in tones expressive of mild mystification these words:

"But—a—Captain; I thought you said you were a total stranger?"

—

HODE TO LIEUTENANT 'N.

Leftenant 'N, O Leftenant 'N!
'Ave the bloomin' Hamericans scooped us again?
And 'ow

Did they manage to do it? By 'ook or by crook,
Or by making some blawsted Hamerican fluke,
Or row?

It cawnt be supposed as they'd know what to do
In a yacht, 'aving only their native canoe;
But w'y

Don't er Majesty's government take this thing hup,
And call out the fleet to recover that cup?
It's 'igh

Time the Yankees should known it's 'er Majesty's hown,
Which to give away hanything never was known,
Much less

A harticle worth sev'ral pound at the mint—
In their hown beastly dialect, "this is an 'int,
I guess."

THE STATE TROOPS.

RIFLE FIRING AS PRACTICED.

IS THE system of rifle practice as at present carried out by the N. G. S. N. Y., what it should be—and do the National Guardsmen, as a body, derive any really practical experience in rifle shooting, or is this confined to a few crack shots? These are questions less easy to answer than might be supposed by the casual observer, who remembers only that the National Guard is abundantly supplied with officials of high rank, to look after their various needs, including a special Dept. of Rifle Practice, issuing and calling for voluminous reports. Does not the valorous militiaman, who makes 25 points or over out of a possible 50, secure a bronze bar yearly, and do not the inspectors of rifle practice personally attend the shooting and help the men as much as possible? Is not good ammunition plentifully supplied, and does not each man carefully shoot and make the required percentage or over before he is qualified as a marksman?

True as all this is, it is nevertheless the fact that the Guard, as a whole, are very imperfectly instructed in the most important of a soldier's art, that of rifle shooting, and the present system of rifle firing, while it makes an excellent showing on paper, is of little or no value when individual knowledge is considered. Not fifty per cent. of the Guard—who qualify as so-called "marksmen" yearly—know the powers of their own rifle, or could, without the help of experts and left to themselves, make the qualifying score of 25 points with the rifle they drill with. A regiment assembles at Creedmoor for rifle firing; naturally it wants to qualify all its members possible and gain a high place in the Figure of Merit in the report of the I. R. P. The different companies are assigned to targets and arms are stacked. A few crack shots, usually about twelve, comprising "team men" who have had years of experience and who bring with them their own special guns, generally equipped with wind gauge military sights, and whose shooting powers they well know, are brought out. To these are added three or four other "specials" from the company, whose gun barrels are kept a rusty brown for the occasion. Thus each company has on an average six special rifles, which are used by all members of the company at all the ranges, with the usual exception of 100 yards, the men ignoring their own rifles entirely. There are exceptions here and there, but this is the rule, and there is not a company in the National Guard shooting at Creedmoor that absolutely qualifies all its members as "marksmen" with their ordinary rifles. This is the result of the "system," and is not the fault of the regimental officers and men.

Again, after the "special" rifles have been put in shooting order by the "experts," who have obtained elevations, etc., the men are called in turn to shoot. Private Jones is given a special rifle and coached by a couple of experts. He is told to aim to the left a little under the bull about 7 o'clock (or elsewhere). Not infrequently even the very cartridges are handed to him—for fear he may exert himself too much. Private Jones, if he is fortunate, finally, after a protracted struggle of from seven to ten minutes, makes 16 or 17 points, but it is just as often he doesn't make enough to qualify on his first trial, and later takes a second trial, and perhaps just manages to make his total of 25 points, and feels happy, for he is now a "marksman," according to the rule. Is he one practically? What has Private Jones learned about the shooting powers of the rifle he would use in actual service? What has he learned about sighting his own piece and the elevations needed at the various distances? The sight on the special rifle he has qualified with is in the majority of cases totally different from the regulation sights on the gun as issued by the State, and he has simply aimed where he was told to, and fired away without knowing why or even how he did it.

At the higher ranges it is very common to see men who have been in the service several years take ten minutes and over to shoot five shots, and even fail to qualify after a second trial, or to see a man lying down at 500 yards, with a special gun, dilly-dallying for nearly 15 minutes shooting a paltry five shots, several experts around him, altering his sight and watching through a spy glass whether his shot is "mud-to-the-right"—or, perhaps, by dumb luck and ignorance—a "bull's eye," or an "outer." Of what service would such a marksman be where rapid shooting was wanted, and he had to handle a gun with which he was not familiar?

THE ARMY AND NAVY JOURNAL was the pioneer of rifle shooting in the United States, and it was mainly through its endeavors that the militia secured any system of rifle practice; and, while it is, of course, admitted that the present "system" is better than none at all, still it is far from what it should be or can be—it is not in keeping with the age of improvement. What we need is a system that will give us marksmen in fact, and not merely on paper, as at present. This can be accomplished without a dollar's increase in expenditure. There is more than enough ammunition issued by the State per year *for the use of the troops* to give each man from three to five sighting shots at each range (hardly necessary at 100 yards) before his qualifying score commences. This is a most important necessity, as a man cannot be expected to experiment and make the necessary per cent. with an allowance of only five shots at each range, using his own rifle to qualify. The allowance of sighting shots would put an end to the practice of using a few special rifles per regiment to qualify the men with, leaving the elevation, etc., to be obtained by a few "experts." Naturally one regiment or company is not going to qualify each man with his own rifle while other regiments are using a few special rifles. The motto is "They all do it," and so must we. By giving each man sighting shots and making it an absolute rule that every man use his own gun, he could keep a record of the necessary elevations, etc., needed at various distances and learn individually to sight his own piece.

To avoid any infringement of this rule there should be a space on the score card to note the number of each man's gun as he shoots. This would prevent the possibility of the same gun being used by more than one individual. It should also be an imperative rule in the militia for a private on joining a regiment to have a gun assigned to him which he should use on all occasions, and no other. This would train him to take proper care of his piece and prevent the unpardonably rough play with rifles, which we have occasionally seen, in spite of the efforts of the officers to check it. The rule of issuing a man a regular gun is in practice in some companies, but there is no positive and universal rule, and the sooner one is made the better. It is really no very hard task for any man of average steadiness, and with a knowledge of his rifle and sights, to make 25 points out of a possible 50, and qualify, but there are a large number of men who cannot make the required score. There should also be a proper time limit in shooting and a man who fails to make his score within the prescribed time should not be qualified as a marksman.

Another chance for improvement is in the present "regulation rear sight" on the rifles. This should certainly be looked after, as that now in use is antiquated and incorrect in numerous cases. As an example, it was only recently that in shooting at 100 yds. with a Rem. Mil. cal. 50, we saw the rear sight adjusted to 250 yds., to get on the target properly. These deviations are very common. There are several new military sights in the market which are known to be good and could easily be substituted for that now in use. The advantage of skilful marksmanship in time of danger cannot be overestimated, and it behooves the proper authorities to move promptly in the matter—revise the system—extend the range to six or seven hundred yds., allow sighting shots to each man, adopt a time limit, make him use his own rifle and see that the number of it is properly entered after his name. Thus one command will have no advantage over the other and worthless guns will be found out and can be changed or their defects remedied. When these reforms are introduced we shall have a body of *real* marksmen and not such a large percentage of imaginary ones, as we have at present.

MAJOR ACKERMAN AND THE THIRTEENTH.

MAJOR J. FRED. ACKERMAN, 13th Regiment, writes us as follows:

No one deplores more than I do the recent disturbances that have seriously interrupted the harmony and progress of my regiment, and I have read with bitter disappointment the articles recently published on the subject in your valuable journal, because I honestly believe that they are distorted as to facts, false as to theory, and unjust in their conclusions, and I am sure that if you had investigated the matter as fully in all its bearings as you usually seem to do the regiment would have been spared a large part of the merciless criticism which you have seen fit to bestow upon it. I have refused to be interviewed on the subject, and I only make an exception in your case, because you have seen fit to bring my name into the controversy, and because you stand as the representative journal of the National Guard.

Permit me to say that I do not seek the position of lieutenant-colonel as you state, that the meeting of the enlisted men referred to was not for the purpose of nominating me for that position, that the mention of my name was without my knowledge, and that I regard the use of my name as simply an expression of their friendship and esteem, which I believe I have honestly earned by 16 years of unselfish devotion to the interest of the regiment, and those feelings, combined with the respect of the officers of the regiment, which I feel I enjoy, I am more than proud of.

Any personal differences that existed between Col. Fackner and myself were mutually settled the night after the election, and I have no ambition nor any wish other than to see the harmony and good feeling which has prevailed not only among the officers but among the enlisted men and ex-members to such a marked degree, fully restored, but I am free to say that such a consummation does not seem probable at present. Col. Fackner was legally elected, and is entitled to all the respect due his position, but I am so at variance with the ways and means that were used to secure his election, that I shall tender my resignation after the next inspection. Permit me to take this opportunity of expressing my appreciation of the valuable aid your journal has been to me, and the uniform courtesy that it has extended to me upon all occasions and which I am sure will not be withheld in the present instance. Yours truly,

J. FRED. ACKERMAN, Major 13th Regt., N. G. S. N. G.

REVIEW OF THE FIRST N. Y. BRIGADE

BY GOVERNOR HILL.

ON October 6 Governor Hill reviewed the 1st Brigade N. G. S. N. Y. at Washington Square. It was the first public turnout of the New York City troops since the recent reorganization into one brigade. The whole affair was not much different from previous similar occasions, except that the line of march, on account of the disturbed state of the 5th avenue pavement, had to be somewhat changed. The Governor with his staff in carriages reviewed the line as formed on 5th avenue with right resting on 34th street before the march was started. The parade certainly was not as brilliant as was customary in former years, because instead of a major general and two brigadier generals, each with a gorgeous staff, only one brigadier general with his staff headed the procession. Besides the attenuated ranks of at least four regiments proved that general interest in the National Guard is not as active as the importance of having a trained reliable body of soldiers in a city like New York demands. The music generally was inferior, and as a spectacle to impress the public with the formidability of its defenders against foreign as well as internecine foes, it hardly served its purpose. The troops themselves seemed to feel this. Distances between companies in many cases were too large, salutes by officers ill-timed and awkwardly executed, and the marching generally was not up to what people have been accustomed to see. Many officers handled their swords like crowbars, others did not time their salutes properly, and some, instead of saluting the Governor, presented to the brigadier general in command of the parade. Some regiments were so small that the parade looked actually "skimpish." For gala occasions like this the State uniform is not suitable, because it is too plain, and where it is worn it is difficult to distinguish one organization from the other. The 7th and the 42d Regiments were the only ones to be recognized at a glance.

The State should have one uniform to be worn on actual duty by all organizations alike, but for occasions of ceremony each regiment should have a distinctive dress. A blue overcoat, dark blue blouse, a fatigue cap common to every organization and substantial trousers of light material should be furnished by the State to all, while each regiment should be at liberty to select its own dress uniform. This would increase the *esprit de corps*. Cap ornaments to show company and regiment, such as are used in the U. S. Army, should be provided for each individual. These matters probably have nothing to do with the parade immediately, but we mention them here because they furnished the universal topic of comment among military spectators. Refraining from making individual comment, we especially desire to call attention to the necessity of instructing officers in the use of their swords. We do not advocate a standard of "military dudeism," but anybody who holds the position of an officer in the National Guard should be competent to handle his weapon, the sword, with ease and grace, just the same as he handles his pen or any tool he may need for success in his daily civilian avocation.

THE PARADE IN DETAIL.

The march was begun about 3.30 P. M., and shortly after the Governor, accompanied by Adjutant-General Josiah Porter; Chief of Artillery, General D. D. Wylie; Inspector of Rifle Practice, Charles W. Robbins; Brig.-Gen. J. M. Varian, and others of his staff, arrived at the stand, and the sound of the drums soon announced the approach of the procession. Brig.-Gen. Louis Fitzgerald and staff did not present the usual dashing appearance. Their horsemanship seemed inferior, and they took their position on the right of the reviewing stand, to draw it mildly, in a very laborious manner; nor was any conspicuous equestrianism displayed by them at the end of the parade.

The 7th Regiment, 20 commands of 18 files, marched well, but not by any means as well as is their custom. There were also blanks in the rear ranks and notably so in the last company or platoon, which is unusual in this regiment. Distances were generally too large between companies. Salutes in many cases were inferior. Under the supposition that the 7th are always the pink of propriety, so far as the condition of their dress and accoutrements is concerned, we did not take the trouble to look at the guard at the review stand particularly, but we are informed by good authority that the brasses, belts, etc., of this guard, which was furnished by the 7th, were not as they should have been. Col. Clark in taking position on the right of the brigadier general, after passing in review, made, in our opinion, an error. (See decision from A. G. O. of Aug. 28, 1885, published in "Official Memoranda of Decisions," A. G. O., of Nov. 9, 1885.)

The 69th, with 10 commands of 16 files, followed, marching well, but breaking step in the rear companies in a bad manner. This was due to the confusion caused by two bands playing, one in front and one in rear of an organization. Civilians should not be allowed in the column.

The 8th had six companies of 14 files, and what there was of it looked well. The turnout, however, suggests a speedy settlement of its armory question.

The 9th only had eight commands of 12 files, which shows a terrible falling off. The small command did as well as it could, but the show in comparison with the wonted size of the regiment looked discouraging. The turnout was even smaller than that shown in our report of the inspection of the regiment on the evening previous, which is printed in this week's JOURNAL.

The 12th Regiment showed its vitality by a turnout of 11 commands of 16 files, evidently well commanded, and certainly marching handsomely. The salutes by the officers were much above the average. The regiment received a full share of favorable comment from those who are competent to judge.

Col. McAlpine, of the 71st, undoubtedly rendered the snappish best salute in the parade. The regiment, nine commands of 16 files, looked remarkably well, and its share of favorable commendation was well deserved.

The 11th, although it had only 8 commands of 12 files, looked so much improved that there seems no doubt that the regiment has taken a new departure for the better under the management of Colonel Stewart.

The 22d Regiment, 12 commands of 16 files, made the best appearance in the parade. It outdid the 7th. The men in their white coats made a solid, square appearance, and the alignments were the best in the parade. Some salutes of officers somewhat marred the effect of the whole. Nevertheless it is generally conceded that the regiment "took the cake."

It gives us particular pleasure to report the fine appearance of the two batteries (2d and 1st), which brought up the rear of the parade. Captain F. P. Earle and 2d Lieut. D. E. Wilson, of the 2d, especially rendered handsome salutes and manœuvred their command in a very competent manner.

Looking at the turnout as a whole, the parade appeared very much attenuated, the 7th, 12th, 22d and 69th Regiments, being the only ones which showed signs of life. With the providing of new armories we hope to be able to report a better condition of affairs a year hence.

INSPECTION OF THE NINTH NEW YORK.

THE inspection of the 9th, which had been announced to take place in the armory of the 22d, was after all held in the rattletrap concern in 26th street, known as the quarters of the regiment. Those who went to 14th street to see the parade of the regiment were disappointed because they were not there. Running Governor's review, rifle practice, inspections, and a prospective parade at the inauguration of the Bartholdi Statue of Liberty, all within the same month and within a few days of each other, looks like pushing the Guard too hard. The tendency therefore is to "cut things short" and get through with the least loss of time. Col. T. H. McGrath, assisted by Col. McLewee, of the Inspector-General's Department, and Major Montant, recently appointed inspector on the staff of Brig.-Gen. Fitzgerald, made the inspection. The regiment formed in fair shape and made a good appearance in line, but the military effect would have been better if fewer men had raised their hands to scratch their faces or adjust their accoutrements. There was no passage in review. The command at once formed column of companies for inspection. Lieut.-Col. T. B. Rand commanded the regiment during the formation and presentation to the inspector, who is junior to Col Seward, the commander of the 9th.

The omission of a passage in review was appreciated by all because it cannot be properly performed in this room even with a small turnout like the present one. Had it been attempted nothing but the usual crowded and cramped performance would have been the result and the entire ceremony would have suffered. The inspection was marred only by

the large list of absentees, as will be seen from the appended table. Otherwise the regiment appeared better set-up, steadier and generally more soldierly than has been noticed at any previous occasion. The muskets were clean and the dress, accourrements, etc., well adjusted, at least much better than has been the custom in the Ninth, and the whole ceremony was evidently better understood by officers and men alike. The attendance would doubtless have been much better if the inspection had not been held just at the time of registration for election, which kept away a large number of men. The affair was brief and we can, therefore, not make a long story of it, but it is only fair to say that what there was of it was done well and creditably to the organization. After the inspection line was formed and Col. McGrath, with a few neat remarks, presented to Cos. F, B and K, each a prize offered by the Board of Officers to the best three companies for attendance at drill and general excellence. The prizes were won by the companies in the order named. Thus, the affair, although there was no review, ended in a neat, pleasant manner, and the whole would have been impressive but for the rickety surroundings.

The only real drawback to the whole rested with the first brigade inspector, who evidently has had no experience in his new position. He handled the pieces awkwardly, took hold of them in a wrong way, often handed them back with the barrel to the front and in one instance began his inspection on the left of a rank. This seems the more surprising in the face of the recent announcement of General Fitzgerald that he would have none but thoroughly competent officers on his staff.

The strength of the regiment was as follows:

	Present. Offi-cers.	En'l men.	Tot.	Absent. Offi-cers.	En'l men.	Tot.	Agg.
F. and S.	7	—	7	2	—	2	9
N. C. S.	—	11	11	—	—	—	11
A.	2	37	39	—	12	12	51
B.	1	26	27	1	19	20	47
C.	2	36	38	1	20	21	59
D.	2	43	45	—	10	10	55
E.	1	30	31	1	25	26	57
F.	3	51	54	—	7	7	61
G.	3	41	44	—	9	9	53
H.	3	43	46	—	8	8	54
I.	2	27	29	—	25	25	54
K.	3	39	42	—	11	11	53
	29	384	413	5	146	157	564

CREEDMOOR MATCHES.

THE tenth Qualification and Champion Marksman's Class Matches were shot at Creedmoor on Saturday, Oct. 2. The weather was very pleasant, but a strong wind from 9 o'clock was very troublesome to the competitors in the morning. The gold medal was won for the second time by Lieut. Edw. F. Young, of Co. C, 7th Regiment, he being the first man to win it twice. The following are the best scores, those marked * being the winners in this match:

	Co.	Regt.	200 Yds.	500 Yds.	T'l.
Lieut. Edw. F. Young*	C	7th	21	25	46
Lieut. J. S. Shepherd	D	23d	21	24	25
Sergt. S. W. Merritt	H	7th	20	24	44
Lieut. Wm. P. Pickett*	B	23d	20	24	44
Pvt. S. C. Pirie	I	23d	20	23	43
Pvt. G. W. Lotz	G	13th	20	23	43
Sergt. T. Mahoney	E	12th	21	22	43
Pvt. G. S. Scott, Jr.	A	23d	21	21	42
Capt. F. L. Holmes*	I	23d	22	20	42
Sergt. D. E. Watson*	A	71st	20	21	41
Corpl. H. Graff*	B	23d	20	21	41
Capt. W. H. Greenland	Staff	23d	22	19	41
Sergt. E. Lockley*	E	12th	20	20	40
Lieut. N. B. Thurston*	E	22d	20	20	40
Pvt. C. G. Schultz*	C	13th	20	20	40
Sergt. W. A. Robinson	A	23d	20	20	40

The next matches are Oct. 16 and 23 and Nov. 2 (election day).

NATIONAL GUARD ITEMS.

October 1 the 7th Regiment showed the following strength: Field, staff and non-com. staff, 21; Co. A, 102; B, 103; C, 94; D, 102; E, 90; F, 103; G, 98; H, 103; I, 103; K, 103. Total, 1,022. July 1 the strength was 1,021, a change of one in a period of three months. The strong attachment of its members to the regimental standard, and consequently an almost unvarying personnel, form the main reasons for the success and strength of the organization. While it apparently lacks still 29 members of the full standard, this lack is only nominal, because the large companies are all drilling squads of men of various sizes who are waiting for vacancies to formally enter their ranks, but who may be looked upon as *bona fide* members. It is to be regretted that this influx cannot be directed to the smaller organizations. We do not know whether the 7th favor the 12 company organization, but if it were established there is no doubt the additional two companies could be organized here without any delay whatever.

The officers of the National Rifle Association are at last bestirring themselves to find somewhere a range less inaccessible than Creedmoor. At a meeting Tuesday Gen. C. F. Robbins reported adversely on Staten Island and Van Cortlandt Park, while Lieut. Zalinski thought it possible to find a suitable site on Staten Island. Their proper location is along the line of the New York City and N. R. R., which is a prolongation of the Manhattan system of elevated railroads and opens up the beautiful land lying between the Harlem and the Hudson. Messrs. Cyrus Field, Jay Gould, James Gordon Bennett and other wealthy New Yorkers are large holders of property there and ought to find it to their interest in helping the N. R. A. to secure a new range.

(Correspondence of the Army and Navy Journal.)

THE KANSAS ENCAMPMENT.

THE four regiments of infantry, the battery of artillery and the general and staff officers assembled upon the military reservation of Fort Riley promptly on the 20th of September. The regiments encamped in column of companies; two regiments in the first and two in the second line, with the battery on the right. The general and staff officers had their tents in rear of all. The camp thus formed lay in a square extending from the bank of the Republican river to the bluffs on which Fort Riley stands, with as pretty a drill ground as any soldier could wish for to the left, with capacity for the manœuvres of a brigade. The Regular Army officers had had the grass mown smoothly. The hot and dusty weather was the only drawback to speak of.

The quickness, order, and neatness with which the camp was formed and maintained is creditable alike to both officers and enlisted men. The officers and men of the garrison at Fort Riley came into camp, mingling with the guardsmen sociably and pleasantly, and from the beginning to the end the most pleasant relations between the Regulars and the Guard were kept up. This rather contradicts the general belief that there is something peculiarly haughty and undesirable about the average Regular officer in his contact with the volunteer or militia soldier. If Cutting, fish bait with Canada, or Mexico should get us into trouble with those neighbors, the Kansas Guard would not object to serving under commanders such as Compton, Miller, Hamilton, Paul, McLaughlin, et. al., at Riley would make. There was nothing that either their thoughtfulness, or our—well, say "gall"—could suggest or ask for, that those gentlemen did not at once respond to our wants. We certainly must have taxed their patience, but our importunities arose from our desire to learn, and this they doubtless understood, for they praised the soldierly bearing of the Guards without stint; going so far as to say that some of our officers did not require any instruction at their hands. In this connection we may be permitted to say, in the language of Capt. McLaughlin, "a little soft soap in praising the Guard is pardonable now and then."

We had daily guard mounting, and once, that I saw, a rather poor Grand, or Brigade, guard mount. The duties of officers and field officers of the day and those of the sentinels were fairly well done. The guard was entirely too numerous or the hours on post too long. There was considerable oversight in regularly relieving sentinels. Grand rounds were unfortunately omitted.

Company and battalion drills were quite good in all the regiments, everything considered. While they fell far short of tactical perfection, they showed great progress over last year's encampment. The troops were put to a most severe test, as each day they were on their feet fully eight hours on some kind of duty. Prizes were offered for winning companies and regiments. Drill cards were distributed containing exercises for companies, from open ranks to wheeling column of platoons into line and halt, each card containing 25 out of the 54 movements in the school of the company. The first prize went to Co. A, of the 3d, and the second to Co. A, of the 1st Regiment. Only the 1st and 2d Regiments contended for first prize in the regimental contest, where all interest centred. The 1st, Colonel Patrick, came upon the field with every field officer and all companies present. Their marching was fine. The movements were firing by company, rank and file, breaking into column of fours from right to march to the left, form column of fours on right into line, to form double column of fours from the halt, form double column of fours on right into line, to break into column of companies from line to the right, form column of companies at full distance front into line, to ploy into column in rear of first division, change direction by the right flank, deploy on rear division, marching in line, form double column, deploy double column, form close column from column of fours, break from this into column of fours to the front and to form line from column of fours. The 1st Regiment performed all these with credit, except that the alignments in marching in line were bad and that in the deployment on rear division several bad breaks occurred. Other mistakes were of very trifling nature. This left to the 2d Regiment but little chance, because it not only had to do well everything the 1st did well, but could not afford to make more than one break, and it lost the contest.

Those who understood the difference in the efficiency of the field officers of the regiments knew that the best regiment in the Guard had only the task left of drilling in the face of certain defeat. The 2d did not nearly do as well as on daily drills. The 1st had had opportunities in the spring to work together during the labor troubles, and the 2d mourns the loss of a number of its best line officers since last year's camp. At regimental inspection and dress parade, as well as guard mount, the 2d, through the efficiency of its adjutant, line officers and men, is still ahead so far as the tactics require; its colonel, however, introduced religious exercises on dress parade with heads uncovered, the chaplain delivering prayer in its front in full uniform. It is a beautiful camp meeting exercise interpolated into Upton's Tactics by the gallant and original colonel of the 2d. Then on review, he introduced the drill of the Flambeaux Club by opening files and extending around from column of fours, closing, as he passed the general, to column of fours again; being just preceded by two regiments in column of companies at full distance.

The brigade was closely inspected, regiment after regiment, in one day, personally by Lieut.-Col. Compton, 5th U. S. Cavalry. Besides handling 1,600 rifles he inspected closely the tents, camp and garrison equipage of each company. This was probably a task never excelled by any inspecting officer in our service, when it is noted that he handled each and every piece carefully.

On the 24th three regiments, 1st, 2d and 3d, and the battery of artillery marched four miles to Junction City, through a blinding cloud of dust, passed in review through the city and again in review in the fair grounds. After a rest of an hour, about 4 P. M., a sham battle was fought in the presence of thousands of citizens, who declared the effect very striking.

In conclusion, the effect of our contact with the Regular Army was very instructive. Every one of the Guards whom I heard speak declared that they had learned a great deal. I would suggest that a field officer of the Regular Army, with a staff of line officers, should be placed in full command of these militia camps, in order to teach the officers how to establish order, police the camp, enforce discipline, make out the administration papers, and perform all of the duties called for in actual service. In this way they could instruct the militia; and the presence and practice of large bodies of militia under their control would accustom them to a familiarity with the manners and customs of that large body of citizen soldiery which must ever compose our armies. That mythical chasm which is supposed to separate West Point and the Army from the rest of our people would then naturally be obliterated.

The Guards presented our Adjutant General, Col. A. B. Campbell, with a fine gold watch on the camp grounds for his sterling qualities as an officer and organizer. The present efficiency of the National Guard of Kansas is largely due to his ability and zeal.

In speaking more extensively of the 1st and 2d Regiments not the least slight is intended the 3d and 4th or the battery. They are fine bodies of men. The 3d and 4th are making fine progress, and are but little behind the other two; on all points probably not any. The battery is well drilled and officered.

The medical department was well handled, but there was little sickness. The commissary stores were furnished by contract, and pronounced fair, with exception of the beef. Some of the men complained of insufficiency of food.

W. E. H.

ILLINOIS.

JACKSONVILLE COMPETITIVE DRILL.

JACKSONVILLE, ILLINOIS, September 10, 1886.

The Executive Committee, Inter-State Military Tournament, Jacksonville, Illinois:

GENTLEMEN: Having witnessed the competitive drills held at this place under your auspices, we beg to present the following report of the standing of the respective entries for the different drills:

Illinois State Contest.

Taylorville Guards—Illinois, 5th Regt., Co. B; Inspection, 57.; Manual, 91.; School of the Company, 90.; In platoons, 89.; Average, 81.75.

Morgan Cadets—Illinois, 5th Regt., Co. I; Inspection, 40.; Manual, 66.; School of the Company, 51.; In platoons, 54.; Average, 52.75.

Individual Contest.

Corpl. John J. Cochran, Busch Zouaves; Corpl. Weber, Branch Guard.

Second Class Contest.

Muscatine Rifles—Iowa, 2d Regt., Co. C; Inspection, 74.; Manual, 91.; School of Soldier, 93., School of Company, 89.; In platoons, 88.; Average, 87.

Taylorville Guard—Illinois, 5th Regt.; Co. B; Inspection, 60.; Manual, 90.; School of Soldier, 84.; School of Company, 87.; In platoons, 86.; Average, 81.40.

Busch Zouaves—Missouri, 1st Regt., Co. M; Inspection, 75.; Manual, 86.; School of Soldier, 85.; School of Company, 94.; In platoons, 60.; Average, 80.

First Class Contest.

Branch Guard—Missouri, 1st Regt., Co. G; Inspection, 89.; Manual, 97.; School of Company, 94. In platoons, 97.; average, 94.25.

Busch Zouaves—Missouri, 1st Regt., Co. M; Inspection, 72.33; Manual, 96.08; School of Company, 89.21; In platoons, 94.90; Average, 88.13.

Muscatine Rifles—Iowa, 2d Regt., Co. C; Inspection, 78.; Manual, 92.98; School of Company, 83.64; In platoons, 92.24; Average, 87.96.

Taylorville Guard—Illinois, 5th Regt., Co. B: Inspection, 54.; Manual, 82.; School of Company, 88.; In platoons, 85.; Average, 77.25.

Zouave Contest.

Busch Zouaves. Only competitor.

Artillery Contest.

Danville Battery. Only entry. Average, 98.5.

During the manual of arms in the First Class Infantry Drill, the 1st sergeant of the Busch Zouaves was overcome by the heat and had to leave the ranks.

(Signed) W. A. NICHOLS, 1st Lieut. 23d U. S. Inf.
(Signed) D. E. MCCARTHY, 2d Lieut. 12th U. S. Inf.
(Signed) W. N. JOHNSTON, JR, 2d Lieut. 16th U. S. Inf.

THE *World* says: "Secretary of War Endicott is tired of his position and wants to resign, but the President urges him to serve the full term, being ambitious to do as President Pierce did—keep his Cabinet intact during his entire term of office."

FRENCH ENGINES OF WAR.

A FRENCH correspondent writes: "Boulanger and the members of the commission have been out to Chavignon, a provincial town of Alsace, to study experiments with the new Fere gun, of which great stories are told. It is very light, admits of a perfect, undeviating aim, and throws 12 balls. But the French pinned their faith once on the mitrailleuse and were rudely undeceived. Hence they are disposed to be skeptical now of the merits of any weapon which calls for short range, which they never could get in the German war. All the fireworks of enthusiasm are reserved for the new bombshells, for which a monster mortar is specially made with a new explosive of hitherto unheard-of power. The shell is a metre long, and bursts by a secret chemical combination. The explosive is harmless in itself, and can be transported with perfect safety. Most tremendous things were done at the trial at Malmaison, great stone walls being demolished and thick plates of steel penetrated and shivered to atoms. The noise of the explosion was terrific and the execution appalling. In the time of the Commune one house, at No. 92 Avenue des Yernes, received 85 bombshells, yet it was only slightly damaged in two places. One of the new shells can alone destroy a whole block of stone buildings. Boulanger is going to ask the Deputies a fortnight hence for a credit of 125,000,000f. to begin the immediate manufacture of a number of these shells and for remodelling the French forts for the use of the new mortars, but the Germans boast of having much the same kind of weapon, and 175,000 of them on hand; so some of our newspapers conclude that war between the two countries is made impossible by such perfection in the possibilities of slaughter and devastation."

THE STORY OF THE MEEFOO.

THE story of the Chinese transport *Meefoo*, as told by the *United Service Gazette*, of London, is as exciting as one of Maryatt's tales.

The *Meefoo* left Foochow for Chinchu, near Amoy, on May 13, having taken on board at the former place about 200 passengers, who were booked for various Yangtsze river ports. These men were thought to be disbanded soldiers, as each of them came on board furnished with a passage ticket granted by the native authorities. They all, however, wore civilian clothes. The *Meefoo* arrived at Chinchu on the 14th, and having embarked 2,200 disbanded troops, left there for Hankow on the 21st, arriving en route at Shanghai on the 22d, and leaving there on the following day, and thence to Chinkiang. A nephew of the Viceroy of Foochow was a passenger by the steamer for Hankow, and shortly before her arrival at Chinkiang it was discovered that a lot of his luggage, containing a good deal of money, besides his mandarin clothing and other valuables, had been stolen. Numerous complaints were made to the General in charge of the disbanded soldiers, by some of the latter, that a great deal of money had been stolen. Each of these 2,000 "braves" is said to have had between ten and twenty mexicans in his possession, the amount with which they were paid off. Inquiries were made which led to the discovery of some of the thieves, and part of the Viceroy's luggage was found in the forehold, where the passengers who were taken on board in Foochow were berthed. It also leaked out that a conspiracy was being hatched amongst these men to kill all the foreigners on board and take charge of the vessel, and for this purpose they had come on board, being aware at the same time that the disbanded troops would take their backpay with them. The General in charge thought it the safest to defer chastisement of the pirates till after arrival in Nanking, where he would confer with the Viceroy and ask him what measures to adopt. The *Meefoo* arrived at Nanking on May 25. The General went on shore to get the necessary instructions from the Viceroy, after a few hours' absence returning on board, when the anchor was raised, and the *Meefoo* proceeded on her voyage to Hankow.

The General's orders were to decapitate the whole gang of pirates on the way up. But the pirates were mixed up with the disbanded soldiers, and how were they to be recognized, as many of the disbanded troops also wore civilian clothes? The General, in this dilemma, gave secret orders to each of the soldiers to have a red ribbon wove in his tail; those who had none were to be considered pirates. On each hatchway leading from the forehold where the pirates were stowed away were placed several of the General's body-guard, with drawn swords, who had orders to cut everybody's head off who came on deck without the red ribbon in his *queue*. The General himself, with drawn sword, was posted alongside the hatchway, just abaft the foremast. Soon a head was seen popping out of the hatchway; the red ribbon was absent, and with three slashes, given by the General himself, the head was severed and rolled along the ship's deck. This done, the General went on the bridge to watch the further decapitations. Soon four others of the pirates came up the hatchway on the starboard side, but hardly had they reached the deck when about a dozen of the General's body-guard rushed upon them with their swords and literally hacked them to pieces, the headless, armless, and legless trunks rolling about the deck in front of the chief officer's room, whilst

all around was smeared with blood. The still-convulsed limbs were then thrown overboard. A few minutes afterwards two more pirates showed themselves on deck; seeing the drawn swords flash around them they tried to escape, but were caught on the quarter deck and also cut to pieces. Three more of the desperadoes, also unconscious of the fate awaiting them, appeared next. Again the swords flashed around their heads and in trying to escape by jumping overboard one of them had his back slashed in two, whilst another was run through with a sword while standing on the rails; the third succeeded in reaching the water with his shoulder-blade split open. The three bleeding bodies are said to have dyed the water for a considerable distance.

The *Meefoo* presented by this time anything but an agreeable spectacle, the decks being smeared with blood fore and aft. Orders were now given to suspend each one of the pirates by his tail to beam and then decapitate him. Again two persons were seen coming up the deck, none of them having the red ribbon in his *queue*. They were at once captured by the body-guard and tied up to one of the awning rafters; already the executioner was getting ready to strike the fatal blow, when some of the discharged soldiers recognized in the intended victims two of their comrades, who had omitted to put the ribbon in their tails. Another soldier barely escaped being hacked to pieces through a similar neglect on his part; he received two severe gashes across the shoulder, which were afterwards sewn up by the chief officer. The horrible scene was further intensified by all the body-guard dipping their swords in the pools of blood which were running into the vessel's waterways in the belief that this would act as a charm to the wearer. News of the fearful slaughter which was going on on deck must by this time have reached the pirates, who were stowed away in the forehold, on the top of some coals, for no more of them ventured to come up on deck.

The *Meefoo* arrived at Wuhu on the 26th, and, it being evening, cast anchor. The General, tired, perhaps, of the sickening spectacle—though he had authority to kill all the gang of pirates—is said to have given the desperadoes to understand that if any were found on board in the morning they would be decapitated, and so had better make good their escape. The guards, in consequence, seem not to have been very alert, for in the morning it was found that the remaining pirates had all made their escape by jumping through the ports and swimming ashore, though probably many were drowned in the attempt. At any rate, the *Meefoo* arrived at Hankow on the 27th without any further disturbance. Before she left that port, however, it became known on board that a gang of the pirates, numbering 25, had taken passage in one of the China Merchants' steamers in Wuhu and had arrived in Hankow, where they were all captured by the Taoutai's runners in a boarding-house. They were tried and sent to Wu-chang, where all were decapitated, with the exception of the chief, who said he was a blue-button mandarin, and had lost all his luggage on the way up. He is said to have well-to-do friends in Hankow, and they are trying to save his neck. As he claimed to have lost all his papers, etc., the capital sentence was deferred pending inquiries. The bodies of three soldiers, horribly mutilated, were found in the *Meefoo's* forehold; the unfortunate men were most likely killed by the pirates, who took revenge on them for their slain colleagues. The foreign officers on board the transport gave much credit to the General, who is a Cantonese, for the energetic manner in which he acted. Cruel and horrible as the spectacle was, to his prompt action they consider they owe their lives, as there can be no doubt that the men came on board for the sole purpose of seizing the vessel, should a favorable opportunity offer. The officers also speak in the highest terms of the good behavior of the disbanded soldiers who did all in their power to keep the desperadoes under control.

THE GERMAN ARMY.

THE military correspondent of the *République Francaise* has been having a look at the German Army in the field. His opinion, judged from intrinsic evidence, appears to be fairly impartial for a French critic. The German cavalry he thinks simply splendid. He says: "I have the greatest admiration for the German cavalry. By my side was a *Captaine Instructeur* of a French frontier regiment, who remarked, 'I would give the best horses of the whole of my regiment, officers' chargers included, for a single one of those squadrons.' I hope that was a mere sally. But these Uhlan horses, admirably groomed, rather high on their legs, who have been working hard for a month past on an absurd ration of five kilogrammes of oats, 1,500 grammes of hay, and 1,750 grammes of straw a day, and are yet in the same condition as when they started, are simply splendid. At the first sight the rider does not look so impressive as his steed. The stirrup leathers are somewhat long. He turns out his toes, and generally rides with his right hand on his hip, just as you see in Détaille's pictures. But a little attention enables you to see how thoroughly at home the man is in his saddle, the perfect understanding between man and beast. It is also evident that the rider is most carefully trained for field and orderly duty. When called on to transmit an order he clearly and correctly repeats it, and sets about finding the officer to whom he has to deliver it in a calm, businesslike way, without any fuss or worry. As to the cavalry tactics, they denote great boldness. The manœuvres in Alsace show that in the next campaign the Germans do not intend allowing their cavalry to remain idle. The rush of Illommenheim, when twelve regiments—that is to say, sixty squadrons—charged the enemy's rear, settles that point beyond question." The correspondent expresses a high opinion of the Commander-in Chief of the 2d Military Division, General von Haseler.

As to the infantry, he is less enthusiastic. He condemns their equipment. The *pickelhaube*, which looks martial, is most unpopular, as hot, heavy, and badly poised. He also condemns the practice of wearing the cloak brought up across the chest and over one shoulder. The boots he also finds fault with, owing to the strong smell of the leather. He says that there was nothing like forced marching, but, nevertheless, that a great many of the men fell out. As to the infantry tactics, the writer says: "They surprised all those who saw them. The open order was the outcome of the very circumstances of the war. It may be said to have been due to the immolation of the Royal Guards at St. Privat. I should not have supposed that the German Army would so speedily forget that terrible lesson. It is not even the half-open order (*l'ordre semi-dispersé*) which we have adopted in France that the German infantry have taken to, but the old massive columns of former days. First a body of sharpshooters is thrown out and engages the action under cover of the artillery: then, at the point of attack, the supports are hurled forward in three ranks, just as under Frederick the Great; and finally, the reserves are marched up in columns of attack. This formation, in these days of repeating and long-range rifles, will give a great advantage to the infantry, if it will not allow itself to be intimidated and fire straight." In short, the French critic thinks that the German cavalry is admirable, but as to the infantry and artillery, and the tactical skill with which they are handled, he thinks the Germans are not ahead of France.

ITALIAN TORPEDO-BOATS.

THE London *Times* gives particulars of the first of four torpedo cruisers for the Italian Navy, which has just been launched at Castellamare, near Naples. The vessel received the name of *Tripoli*, and is of the following dimensions: Length, 230 ft.; breadth of beam, 26 ft.; depth of hold, 16¾ ft.; draught of water, 9½ ft.; displacement, 740 tons. Several novel features have been introduced in the construction and mode of propulsion of the *Tripoli*. Although she is of comparatively small tonnage, she has an armor of 15½ in. and steel bulkheads, steel being exclusively used in her construction. Compared with her size, she has also been supplied with an enormous propelling power, three independent engines with two boilers each, and each working a separate screw (consequently three screws, which is an entirely new system), producing an aggregate power of 3,600 horses, and driving the vessel at a speed of 18 miles an hour. The engines have been supplied by Messrs. R. and W. Hawthorn and Co., Newcastle-on-Tyne. The *Tripoli* has five launching apparatus for torpedoes—two at the bow, one at the stern, and one on each side, the three latter being of a revolving type. She will also be supplied with eight quick-firing guns, four of a calibre of 57 millimetres, four of 37 millimetres (2¼ in. and 1.443 in. respectively), and three revolving guns, of a calibre of 37 millimetres. The other three torpedo cruisers, sister ships to the *Tripoli*, are still building, but are expected to be ready for launching shortly.

FRENCH CAVALRY OFFICERS.

La Revue de la Cavalerie states that during the month of July nine cavalry officers sent in their papers—three lieutenants and six sub-lieutenants. The cause of these resignations lies, it is said, in the new system of fixed garrisons, which is very handy for mobilization, but which is an intolerable nuisance for officers whose lines are cast in unpleasant places. As the French cavalry officer cannot live on his pay, he has a certain fortune of his own, and likes fighting or amusement. "Nothing can make up for him," says a French writer, Mr. Jules Richard, "those palmy days when 22 regiments out of 64 were garrisoned in Paris or in Algeria, for there is no middle for cavalry officers who have the blood of Lasalle, Pujol, etc., in their veins; they must have Paris or war. To have a brilliant body of cavalry officers can be obtained only on this double condition—a large cavalry force in Paris, a large cavalry force in Algeria. But to-day everything is sacrificed to the necessities of mobilization. This is evidently as it should be, but it would be a stroke of genius to appropriate the mobilization to our customs and our character. Up to the present our military in-

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER Co., 106 Wall st., New York.

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.
For sale by JOHN ROCKWELL,
20 Nassau St., New York.

NATURE'S CURE FOR CONSTIPATION,

Sick-Headache, AND DYSPEPSIA.
What Is It Good For
TARRANT'S
Effervescent Seltzer Aperient,
Cures Constipation, Sick Headache & Biliousness. It promotes the Appetite, and invigorates the stomach, to which it imparts tone and vigor, and enables the digestive organs to perform their functions with ease and expedition. It is pleasant to the taste, portable in form, and gives immediate relief in all ordinary ailments arising from a disordered stomach or constipated habit. Take no substitute, but demand the genuine TARRANT'S EFFERVESCENT SELTZER APERIENT, which can be found in every well-regulated drug store.

AN EXTRAORDINARY RAZOR.
HAS BEEN INVENTED BY THE QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied; sent by mail 10c. extra or C. O. D.

NEW YORK

ventors have done nothing but copy, or rather ape, Germany in what is least good." Mr. Jules Richard is also of opinion that a great many officers are disgusted with a War Minister who seems to be always in search of popularity. He then turns to General Boulanger's scheme for army reform, and accuses him of wishing to sabre the cavalry on the ground that that branch of the service has too many field-officers and too many officers per squadron. General Boulanger therefore proposes to suppress with a stroke of his pen, 28 colonels, 28 lieutenant-colonels, 56 majors, and 474 captains—that is to say, half the colonels and lieutenant-colonels, a quarter of the majors, and about three-fifths of the captains. Should this reform be adopted, officers who have joined within the last ten years in the hope of attaining the rank of colonel will not be certain of attaining that of captain.

SPEED OF WARSHIPS.

THE following, from an Italian source, is an interesting classification of the great ironclad warships of England, France and Italy, as to their speed: The fastest is the Italia, with a sea speed of 18 miles, while the Lepanto, Umberto, Sicilia, Sardegna, also Italian vessels, are credited with 17½ miles an hour. The Imperieuse, French, and Ruggioro de Lauria, Morosini and Andrea Doria, Italian, are 17 mile ships. The Nile, Trafalgar, Renown, Sansspariel, Anson, Camperdown, Benbow, Rodney, Howe, Collingwood, Colossus and Edinburgh, English, are 16 mile vessels. It should be remembered, however, that the Nile and Trafalgar are yet far from completion, and that one or two of the others have as yet had nothing more than a dock trial. The Duilio and Dandolo, Italian, are severally 15½ and 15 1 5 mile vessels; the Devastation, French, 15 1-6 mile, and the Alexandra, English, 15 mile; the Fondroyant, Admiral Baudin, Formidable, Neptune, Hoche, Marceaux and Magenta, French, having the latter speed. The Hercules, Dreadnaught, Inflexible, Neptune and Sultan, English; the Vauban, Admiral Duperre, Indomptable, Redoutable, Temeraire, Terrible, Caiman, Requin, French, and the Affondatore, Italian, are below the 15 mile standard.

FOREIGN ITEMS.

THE *Moniteur de l'Armée* (Paris) states that the cruiser *La Clocheterie*, which was about to return to France, has been retained on the China Station. This measure is attributed to the great increase in piracy that has lately taken place in that quarter, rendering a most prompt and vigorous repression absolutely indispensable for the interests of trade.

ON Sept. 29 was to be launched at Lorient a new ironclad, one of the most formidable constructed in that dock. The *Hoche* measures in length 100 metres, 40 between the perpendiculars, and 105 metres from one extremity to the other; its breadth is 19 66 metres; nominal force of engine, 2,500 horse-power; speed, 17 to 18 knots; armor, 45 centimetres thick at the water-line; the turrets, one with two guns of 34 centimetres; the other, two 27 centimetres.

A REPORT has been published on the losses of the Russian Army of the Danube in 1877-8. The result given are as follows: 6.465 men killed from wounds received; 44,459 men lost through sickness. The effective of the army in July 1878 was 592,085 men; thus showing the smallest proportionate loss sustained by an army in the field since the beginning of the century. This, says our contemporary, confirms the opinions of Lieut.-Colonel von der Goltz and Colonel Derrécagaix, that the more perfect the equipment of armies becomes, the less will be their loss.

GENERAL BOULANGER has ordered from eminent artists a number of pictures illustrating episodes in the history of France, for distribution to the various regiments.

FROM a private letter received in Brisbane from Honolulu, in the Sandwich Islands, it appears that Mauna Loa, a large volcano in that group, has subsided into the sea. Mauna Loa subsided on the same day on which Etna broke out into activity.

AT the end of this month Marquis Benzoni, an Italian cavalry officer, will start on an expedition to Africa, accompanied by Count Savincoax, of the 7th Cavalry, Major Piano, and a Modenese engineer, Salmitaire. They will attempt to penetrate Harrar by way of Assab.

THE application of electricity in the shoeing of refractory, skittish or restive horses, introduced by Capt. Pla, Professor of Applied Sciences at the French Cavalry School at Saumur, and carried out in the 12th Regiment of Cuirassiers at Angers, has turned out a pronounced success. Capt. Pla uses a dry battery, attached to the headgear of the horse having a needle of induction.

THE *Journal des Débats*, referring to Lord Randolph Churchill's Dartford speech, says: "Russia will little heed Austrian dissatisfaction or English theoretical protests so long as she can rely on Germany's assent or indifference to her policy in the Balkans." *La France* says: "Gen. Kaulbars, not content with rendering Russia odious in Bulgaria, makes her also ridiculous. He is *commis voyageur en révolution.*"

ACCORDING to the *Progrès Militaire* (Paris), the month of August was marked by a decided improvement in the condition of Annam and Tonquin. In Annam the revolt is certainly not put down, but the activity of the enemy is much less great. The journey of the King was a very fortunate idea, and has had extremely good results. The column of Thuyet has disappeared, leaving no traces. In Tonquin a tendency towards amelioration is also the predominant note.

THE *Popolo Romano* (Rome) states that despite unfavorable weather 869,000 cubic metres of soil were lifted from the bed of the Panama Canal during the month of July. The work done in August represented, according to a telegram from the director of the works, 900,000 cubic metres, and it is supposed that that of September will amount to over 1,000,000. It is hoped, therefore, that the year 1886 will show the expected average of 1,000,000 cubic metres per month.

THE experiments with the *Resistance*, which were resumed on Tuesday, have not added to the general stock of knowledge. In consequence of the mode in which the india-rubber was fastened to the ship, no other result could have been expected; and of the value of the asbestos packing there could have been little doubt. It is well, however, to have such matters demonstrated beyond question. A certain amount of precaution has been taken also to insure secrecy on this occasion, but the results may be summed up as follows: Sixty two pounds of compressed gun cotton exploded 30 feet from the ship and 10 feet under water, damaged the net defence, but left the vessel unharmed. A Whitehead, carrying 70 lb. of gun cotton, discharged at less than 300 yards, exploded on striking the net, burst a large hole in it, and smashed the spar and chains by which it was suspended; but two similar charges of gun cotton, one placed a few feet from the side of the vessel, did little more than shake her, the second in contact knocked a hole in her side, but the coal stowed inside assisted in localizing the damage and in minimizing the leakage. Further trials took place yesterday, but up to going to press we had not received a report of them.—*Army and Navy Gazette.*

THE French Minister of War has determined to mobilize an army corps next spring, to see how a system, perfect in theory, works in practice.

THE French War Minister has issued orders that each of the frontier forts of the first line must contain at least one non-commissioned officer and one private thoroughly acquainted with the language of the neighboring country.

MR. ROOS, representing the Nordenfeldt Company, and Mr. Véry, the representative of the Hotchkiss firm, have recently made some comparative experiments at the Ochtenskoi Polygon, near St. Petersburg, with 57-millimetre (2½-in.) quick-firing guns of both systems.

"GREAT animation," says a Paris contemporary, "reigns in the French naval arsenals. At Brest, most of the cruisers which took part in the Chinese and Madagascar campaigns are being repaired. This may be due to the fact of reinforcements being required for Tonquin and Madagascar.

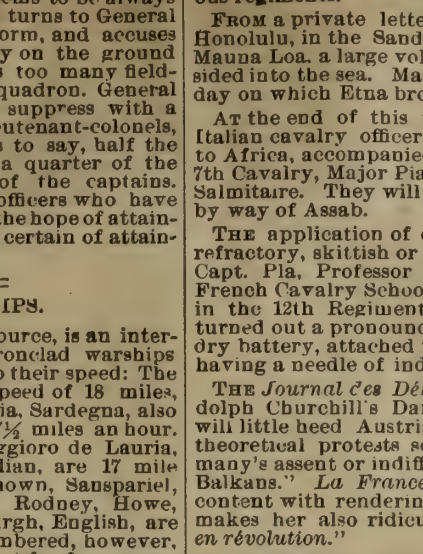
THE New Hebrides question is still agitating the Paris Press. The *République Française*, especially, insists upon the maintenance of the occupation. The *Figaro* asks: "Does England forget that 500,000 men and 300 torpedo-boats, collected at Boulogne, could make very short work of her arrogance?"

THE strength of the British Army during the first six months of the present year has increased from 200,785 of all ranks of the Regular Forces, on Jan. 1, 1886, to 202,923 of all ranks on July 1, 1886. This number is the largest total that has ever been attained since the year 1866, when the grand total of all ranks reached 205,356.

THE equipment for extemporized cruisers for the English Navy is to be divided into three classes, containing each an equal number of ships—the first-class to carry 12 guns, the second 10, and the third 8. Fourteen armaments will be kept at Portsmouth, nine at Devonport, and seven at Chatham. The guns include 112 5-in. breech-loaders, 64 7-in. muzzle-loaders, 76 40-pounder Armstrongs, and 48 64-pounder muzzle loaders.

SUCH favorable reports have been made of the trials of the new Gras magazine rifle by several corps of the French Army, during the past manœuvres, that its speedy adoption for the infantry is shortly looked for. Only one objection has been raised against its use, in the excessive weight of the weapon with the bayonet fixed. This drawback is to be remedied before the improved rifle can be issued to the troops.

FRIDAY, Sept. 24, the column erected at Vienna in honor of Admiral Tegethoff, the hero of Lissa, was unveiled in the presence of the Emperor of Austria and all the notabilities in the capital. The monument is modelled after Nelson's column in Trafalgar Square, and is more than 80 ft. high, the base being of polished granite and the column of marble, the statue and two side groups, which take the place of Landseer's lions, being of cannon bronze. These two allegoric groups represent battle and victory respectively.



THE two courts-martial at Madrid, composed of 17 Generals and 4 Colonels, commenced October 2 the trial of General Villacampa and the other officers implicated in the recent rebellion. Gen. Villacampa's daughter met the members of the courts-martial at the door of the prison and weepingly implored them to show mercy to her father. She was removed in a fainting condition. The wife of another of the accused subsequently made a similar appeal. The courts condemned to death the 14 prisoners, including Villacampa, 3 officers, 5 sergeants, 3 corporals, and 2 civilians. It is believed that only 7 of the convicted men will be shot. Fears are expressed that demonstrations will be held in favor of the Government pardoning the prisoners.

THE EBBITT:
WASHINGTON, D. C.
ARMY AND NAVY HEADQUARTERS.
Four Iron Fire Escapes.
RATES $2.00 and $4.00 Per Day

A SERIOUS fire occurred in the work-shops of the Schneider Company at Creuzot, Sept. 20, destroying 1,000,000 francs of property, maiming many workmen and throwing 300 out of employment.

GENERAL BOULANGER, in addition to his proposals to abolish the traditional red trousers of the army, is changing the shape of the kepi—that invariable mark of the Frenchman in official or government employ. He has also devised a plan for strengthening French defence on the Alpine frontier. In future the small frontier strongholds are to be placed under the command of retired captains, who will be then immediately promoted to a higher rank. Those then will be chosen as far as possible who are natives of the country, well acquainted with the features of the district which they are to defend, and familiar with the manners and customs of its inhabitants.

MESSRS. C. V. HAYDEN AND LOUIS H. W. ISENBECK, of 140a Tremont street, Boston, Mass., have succeeded to the business of Mr. Winslow L. Hayden, the eminent guitarist and teacher, who was drowned by the capsizing of his yacht in Boston Harbor, on August 12 last.

TO THE brands of Key West and domestic cigars placed upon the market by the well-known firm of E. C. Hazard and Co., should be added the "Flor de Adelina Patti," named after the great prima donna by her express permission. Among the numerous brands imported and manufactured by the firm the most fastidious smoker can make selections exactly suited to his taste, while the prices are so moderate that a really first-class cigar is brought within the reach of all.

"IF I Rest I Rust," is a German proverb. "If I trust I bust," is the American version. The latter proverb does not refer to Phenol Sodique, the great healing remedy, in which, if you put your trust, you will find it has not been misplaced.

"The most beneficial results follow the use of Phenol Sodique as an external application for that annoying eruption of the skin known as vegetable poison, caused by contact with the poison ivy."—*Presbyterian Journal.*

UPON requisition any Commissary in the U. S. will furnish you with Vallette and Mitchell's

"ECHO,"

"A five cent cigar fit for a gentleman to smoke."

R. W. TANSILL & CO., Chicago, are now making especially for the Officers of the Army and Navy a new and very fine Havana hand-made cigar, known as "TANSILL'S REINA." They are put up in beautiful packages of 25 cigars, each cigar banded. They come in three sizes, 4¼, 4½, and 4¾ inches, while their moderate cost, viz. $65, $70, and $75 per thousand brings them within the reach of the entire Service.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

BIRTHS.

COOPER.—At the Continental, Philadelphia, Pa., October 5, 1886, to the wife of Admiral Mason S. Cooper, U. N., a son.

EICHWURZEL.—At Baton Rouge, La., to the wife of Superintendent of National Cemetery Charles F. Eichwurzel, a daughter.

347½ BROOME ST., NEW YORK.

NOTICE TO NAVAL ARCHITECTS AND OTHERS,

Concerning designs of steel armored vessels for the United States Navy.

The United States Navy Department, having in view the construction, in pursuance of the authority conferred by Act of Congress approved August 3, 1886, of two armored vessels of different types, of about 6,000 tons displacement each, invites the submission of designs from naval or marine architects, from engineers or mechanics of established reputation, all reputable manufacturers of vessels, steam engines, boilers and ordnance; and especially from all naval constructors, steam engineers, and ordnance officers of the Navy having experience in such work.

One of the proposed vessels is to be an armored cruiser, and the other as powerful an armored battle-ship as can be obtained on the above displacement.

The requirements of the Department are laid down in a circular which will be furnished to those interested, on application to the Department, or to Commander F. E. Chadwick, U. S. N., Naval Attaché U. S. Legation, London, England, or to Lieutenant B. H. Buckingham, U. S. N., Naval Attaché U. S. Legation, Paris, France.

The designs submitted will be carefully examined, and one of each type will be selected for purchase, provided it can be obtained at the price mentioned in the Circular and otherwise conforms to its terms.

After purchase, the Department will be at liberty to make such modifications in the design as it may desire. It will then order working drawings. These must embody the modifications, and must conform in price and otherwise to the terms of the Circular.

Designers are at liberty to offer any design deemed by them most desirable, whether conforming to the data prepared by the Department or not. The designs must, however, conform to the conditions named in the Act of Congress above referred to, or they will not be considered. These are as follows:

"Two sea-going double-bottomed, armored vessels of about 6,000 tons displacement, designed for a speed of at least sixteen knots an hour, with engines having all necessary appliances for working under forced draught, to have a complete torpedo outfit, and be armed in the most effective manner."

Designs not accepted will be returned, and no copies taken or retained by the Department. WILLIAM C. WHITNEY,
Secretary of the Navy.

NAVY DEPARTMENT,
WASHINGTON, D. C., August 21, 1886.

UNITED STATES ENGINEER OFFICE,
P. O. BOX 5346, ROOM 124, POST OFFICE BUILDING, BOSTON, MASS., Sept. 2, 1886.

SEALED PROPOSALS, in triplicate, will be received at this office until 12 o'clock noon, Wednesday, October 13, 1886, for the dredging of 30,000 cubic yards of material and the removal of "Harbor Rocks," by blasting, from the harbor at Scituate, Mass.

For specifications, blank forms, and all information, apply to the undersigned.

G. L. GILLESPIE,
Major of Engineers, Bvt. Lt. Col., U. S. A.

THE NICARAGUA CANAL.

(From a lecture by Commander Henry C. Taylor, U. S. Navy, before the American Geographical Society.)

It may be well to say in advance that I am a firm believer in a canal by way of Lake Nicaragua. I will add, however, that I have been brought to that belief by no interest in one route over another, but by unprejudiced study of all the routes for many years, and by some personal observations and experience.

Although the boiling down process of precise instrumental surveys has reduced the possible routes of transit to three, Panama, Nicaragua and Tehuantepec, and although the further boiling-down process of actual digging and building will, it is believed, soon rule out Panama and Tehuantepec, leaving only Nicaragua, yet many other routes, methods and plans have been examined, and no portion of the isthmuses can be said to have been neglected.

As to the progress of the Panama Canal, the expenditures are represented by something over $150,000,000; while M. DE LESSEPS claims from 12 to 14 per cent. of the excavation completed, and unprejudiced engineers claim only 6 to 8 per cent. completed. He holds that the time already occupied, five years, has been so well spent in preparation, that three years more will complete the work. Neutral parties of intelligence announce that it wil be impossible to complete it before the year 1900, even under most favorable circumstances. But the circumstances cannot be favorable. The charges of interest upon money already spent will be an unceasing drain upon money yet to be received. Torrential rains must continue to fall during the rainy seasons. The problem of the unruly Chagres remains yet unsolved.

We cannot doubt the brilliancy of DE LESSEPS's vigorous intellect. His long career vouches for it. But NAPOLEON was brilliant, and yet committed the foolishness of invading Russia. He was great, but be had his Waterloo. DE LESSEPS is great, but he has his Panama.

Let us now pass to the North and West, to a locality where nature seems to have made, if not a perfect site, at least a disposition of land and water more favorable than at any other point, for a water transit between the oceans. Here the backbone of the continents and isthmus, running parallel and close to the Pacific shore, sinks to its lowest point, while its eastern slope ends at that great sheet of inland sea known as Lake Nicaragua. At this low point the divide is less than fifty feet above the level of the lake, and about one hundred and fifty feet above the mean level of the Pacific. Though the western shore of the lake is but fifteen miles from the beach of the Pacific, the lake drains through the river San Juan, into the Caribbean Sea. The lake is deep and unobstructed, and the river, already navigable for light-draught steamers throughout most of its length, requires but a little labor to deepen it.

Here, with such a vast water supply at the summit, with the lake itself as a summit level, nature herself seems indeed to have offered assistance in connecting the oceans. No great engineering difficulties in utilizing the lake are claimed even by opponents of this route. There are no startling propositions connected with the plan. A large dam is to be built in the river San Juan, to back the water in the river up to the lake, but it is a simple matter of known engineering methods. A lock of exceptional lift is to drop the canal at the west end of the summit level a distance of fifty-two feet. The dimensions and strengths of the parts of this great construction must, therefore, be specially arranged to withstand great strains, but if objection is made to its size it is quite a simple matter to distribute this descent among two or three locks instead of one large one.

It is not to be expected that estimates can be very exact in a great scheme of proposed work, but about these plans there is nothing new or strange. We have here a minimum of unknown quantities. The estimate is about $50,000,000, and $75,000,000 is proposed for capital, but if it cost $200,000,000, we have a tonnage in the beginning that will pay six per cent. upon the investment, and the tonnage will increase largely. There can be no doubt that besides the ships now needing the canal, a great additional commerce will be created by the existence of such transit.

In the act of constructing the canal we are, at the same time, harnessing and making subservient to our needs a water power of enormous capacity; supply continuous and inexhaustible, with a head of 110 feet of elevation. And at a point where the products of the world, the raw materials and the manufactured, meet in their passages between Alaska, California, China, Australia, Peru, and Chili on the one hand, and Europe, Africa, and the United States on the other. At a point, too, where the salubrity of the climate, and the fertility of the surrounding country, will give favorable chances to great undertakings.

Passing on still farther to the north and west, we come to the last of the isthmuses, that of Tehuantepec. This route demands at my hands something more than a passing notice, for in our present Congress vigorous efforts are being made by Capt. Eads to obtain Government assistance for a project to carry ships from ocean to ocean across Tehuantepec, upon a railway. He proposes, as a canal here is impossible, to take sea-going ships, loaded with heavy cargoes, out of the water, lift them upon a cradle, and carry them by rail across 650 feet of elevation, through swamps and across streams, and finally to lower them into the water on the other side of the isthmus.

The mass of engineering opinion regards the building of embankments, the management of grades and turnings, to be, under this heavy load, difficult and dangerous—perhaps impossible. The mass of nautical opinion considers the lifting and carrying of heavy ships, loaded with railroad iron or other heavy weights, to be dangerous in the highest degree to the integrity and safety of the ships' hulls. This gentleman, though, is able, and possesses an ingenious mind. Perhaps he can, a enormous expense, carry out his plan. But why does he wish to do it? Simply to avoid the breaking of bulk—the discharging cargo and loading cars, the discharging cars and stowing cargo—the two handlings of freight, in fine.

There is more than one way of avoiding this breaking of bulk than that he proposes. Ships for this isthmus trade can be easily fitted with interior decks on which rails are laid for cars of the lightest and snuggest construction, stowing closely together, and losing but little stowage room by their interstitial spaces. Cargo may be stowed in them, and these cars, of a size to fit a narrow-gauge road across the isthmus, can be hauled out through the bow or stern ports, in a dock arranged to float the ship higher or lower, as needed, in order to bring its decks in succession at the level of the shore tracks. These cars would be run across a cheaply-constructed narrow-gauge railway, and run into the hold of a ship on the other side of the isthmus, fitted in the same way to receive them. Some little stowage space would, of course, be lost, but this less would be slight compared with the enormous tolls each vessel would have to pay to allow dividends on the expensive railway needed to carry bodily a large vessel and her cargo. I do not claim that this is a specially good project; but only that it is one of many plans which are more feasible, economical, and sensible than Capt. Eads's present scheme. For all other traffic of this country and other maritime nations, the more southern routes would be preferable, and between the two, Panama and Nicaragua, Panama would be avoided by a large proportion of the traffic, namely, the sailing ships, owing to the continuous calms which prevail for hundreds of miles to seaward from that port. The estimate of the amount of tonnage passing through the canal when

first opened, was about four millions of tons per year. This estimate, the mean of several reliable calculations by eminent experts, was based upon the figures of the world's shipping trade in 1870. It may now, with justice, be raised to five millions of tons. Upon this tonnage, at a rate of $2.50 per ton, which is about the rate of toll through the Suez Canal, $.2,500,000 would be the gross annual revenue. In the estimates for a Nicaragua Canal, $500,000 has been allowed for the working expenses annually, and this would leave a net revenue of $12,000,000 with which to pay the interest upon the cost of construction. What that cost will be is known quite closely in the case of Nicaragua. Work would not be started here in the ignorance which marked De Lesseps's beginning at Panama. Careful instrumental surveys have been made, borings have been sunk, both by land and water, to learn the quantity of the cube to be excavated, and where obstacles have prevented exact knowledge, the cubes have been estimated for as solid rock. The estimate for a canal at Nicaragua, larger than that at Suez, is about $50,000,000, and to this 50 per cent. has been added for all contingencies, making $75,000,000.

Though many able engineers believe that it can be built for much less, I believe that sum will represent very closely its total cost. What Capt. Eads's project of a ship railway will cost, no one seems to know. His idea is so problematic that no reliable estimate can be formed. But if it costs only as much as the Nicaragua Canal, it is to be remembered that the working expense of railroads is over fifty per cent. of their gross revenues, and of such an abnormal railroad as this is they would probably be much greater. If these twelve and a half millions represented the total revenues, from four to five millions is as much as could be expected for net revenues from a ship railway.

Of the final cost of de Lesseps's sea level canal at Panama, if there could be anything final about it save utter failure, nothing can be known, except that it will be a fabulous amount. A fresh debt of one hundred and twenty millions of dollars has lately been incurred. This loan was offered to subscribers at forty-five per cent. (450 francs for a 1,000-franc bond), but the cost of placing this loan will, it is believed, reduce the amount to thirty-nine per cent.: or to about forty-seven millions for the 120 millions. It is believed, with good reason, though the debts of the company are difficult to ascertain, that about one-third of this amount is already owing to contractors and others for work already done. So that without considering interest on its enormous obligations, the company will have but a small portion of this new loan to apply to work upon the canal. These obligations now amount to a sum little short of 300 millions of dollars, and with this huge debt staring them in the face, I can say without exaggeration, that the great difficulties and expenses of excavation are all still before them, and the knotty, perhaps impossible, problem of the Chagres River is still unsolved.

ITS MILITARY AND NAVAL IMPORTANCE.

To those, then, who, like myself, are assured of a Nicaragua Canal in the future, it may be of interest to consider it with reference to the United States. We have spoken of its importance to our commerce. Let us now glance at its value from a military and naval standpoint.

From a point of view, strategic and political, it may be said that if this canal were the southern boundary of the United States, our need to hold it would be overwhelming and unquestioned. To permit a feeble race of people with an uncertain government, such as occupy almost all the western hemisphere south of this country, to control a boundary canal, would soon result in the swallowing up of that feeble nation and of the canal control by some European power, strong and aggressive. Such joint possession as happens with a part of the St. Lawrence River, where another great nation owns the other bank, would not be practicable, if it were Nicaragua or Costa Rica confronting us there. Were the Rio Grande a great channel of navigation, connecting our Eastern and Western States, instead of the unimportant stream it really is, we could not permit even our neighbor Mexico to have a part in its control. And what is true in this supposed case is the more so when, in reality, between us and the proposed canal there lie intervening countries, all of them feeble and liable to be easily dominated by an outside power. There is, in fact, no locality favorable to an interoceanic canal which could be anything but a passage, a narrow thoroughfare, connecting two of our great divisions, our Atlantic and Pacific States.

Further, we are pledged by our traditions to protect the States of Mexico and Central America from European aggression. It is plain that we must abandon those traditions if we are not to control a great artificial channel penetrating the very heart of Central America, and passing from sea to sea.

These reasons for our holding the canal would apply in the case of a canal along any practicable route, but much more in the case of a Nicaragua Canal, for if that route be followed the construction of the canal at once establishes in the lake, in addition to the water transit between the oceans, a grand interior fresh-water harbor within a few hours of either ocean. As a base from which to dominate and control both coasts and the West Indies, the strategic value of such a harbor is beyond estimate.

It seems idle to argue as to whether it be wise or expedient to obtain this domination. Whether right or not, great nations always do control affairs of the feeble and unprotected in their vicinity. Whether we seek it or not, this domination will be forced upon us in the South in those regions and seas which lie near us.

A careful inspection of the map of the western hemisphere forces the conclusion upon us that a nation occupying the present position of the United States must, if it lay claims to greatness, be dominant in the Caribbean, the Gulf of Mexico, and the neighboring islands and shores. These are the passage ways, if not, some day, the ultimate destinations, of the richest products of our industry, floated southward from our great central region, and passing through Mobile, New Orleans and Galveston to the sea. Duty and interest then seem to demand that we prepare for this control in the future. It is more than a consequent of greatness, it is greatness itself; it is part of the definition—we cannot be a nation of the first rank while lacking the control of the seas and coasts immediately south of us.

From a naval and military point of view, therefore, the direct advantage of holding such a great base of operations as Lake Nicaragua is immense—is, perhaps, when we consider all the circumstances, without parallel in history. If we consider the unhealthiness of the harbors, coasts and navigable rivers of the Caribbean region, and, on the other hand, the comparative immunity from disease to be enjoyed by a fleet occupying the elevated waters of this fresh-water lake, with hill slopes on its islands reaching far above the yellow-fever line; if we note the rapid destruction of iron ships' hulls in sea water, the alarming fouling of barnacles and grass, and consequent serious decrease of speed, frequently reducing a 14 knot steamer to eight knots; and if we then reflect upon the quick remedy which fresh water always affords in this difficulty; if we consider the admirable strategic position of the lake, and regard its size and depth—so great as to permit the largest fleet to drill itself to the highest evolutionary efficiency; these and numerous minor details, if well considered, will not fail to convince us of the value of this great possible depot and station.

A well-appointed dockyard would be established on the shores of the lake, or on its lofty island of Ometepec. Hospital sites and camping grounds for the crews of vessels would be selected close to the fleet's anchorage, but well above the fever line on the mountain slope, in a bracing and healthy air. Storehouses and hulks; coal piles and elevators, would give facilities for the rapid coaling and provisioning of the fleet. Stone drydocks along shore, and floating docks sent from the United States in sections to be put together on the lake, would offer opportunities for the quick repairs of damages sustained in battle. Telegraph cables would connect the station with Washington, and railways through Mexico, always available in peace, would be easily made so in any war against European powers. It is well to note here, as an important item, that this Government establishment, always kept ready for a war, would not, during the long intervals of peace, be expensive. The nautical needs of the merchant marine are so nearly those of men-of-war, that a dockyard of the first class, with all its repair shops and provisioning facilities, could be kept fully employed and in a high state of efficiency during a peace, however long; and this at no expense, no running expense, to the Government, but, on the contrary, at a handsome annual profit.

How long would be the arm, how effective the power of a swift and well-conditioned fleet, ready to act on either coast, and drawing constant strength and nourishment from this admirable lake base. With a strong naval force in Hampton Roads, another in California, ready to move effectively at a moment's notice, then a similar fleet in Lake Nicaragua would complete what may be called the naval strategic defence of our nation. There would be many additional details in any complete scheme of defence. Key West must be held, and the mouths of the Mississippi protected; a strong force, auxiliary to the Hampton Roads fleet, must hold the sounds and channels of Long Island and Nantucket; Puget Sound must be held, and the Gulf of California dominated.

It would be possible for the Lake Nicaragua force to join the Hampton Roads fleet and engage an enemy's off Havana, and thence, allowing two days for coals and provisions in the lake, it could join the California fleet off Cape St. Lucas, and fight an enemy in the Gulf of California, and this within twelve days of the first battle. These possible movements and combinations need not be dwelt upon; one such example as the above is sufficient to indicate the value of such a naval base as Lake Nicaragua and its many strategic combinations.

I may now be permitted to assert that the route for a canal by way of Lake Nicaragua and the river San Juan, when viewed commercially, is far superior to any other means of connecting the two oceans at present known, but that added to its advantages, financial and engineering, it has, when viewed in a naval and military aspect, an eminent fitness which is at once apparent.

What is it we are doing, my friends, in rejecting this control? Are we blind to the strides the Germans are making toward commercial supremacy in Mexico and Central America? Is there no significance in the loans which English capitalists are freely offering to Nicaragua to improve the navigation of her river and lake? These things tend but one way. The English merchant, the German chancellor, the French engineer—they know what these things mean, they know what their nations need for their development. It is only we that do not know. It means *Empire*, ladies and gentlemen—the control or possession of this canal means *Empire*. It means to our wealth, our development, our nobility as a nation among nations, what India, and more than India, meant to English merchants, and to the English crown and nation. It means the guiding of the great Pacific's wealth into New York rather than Liverpool, into New Orleans instead of Marseilles. And we—we also will learn this some day, when alas! some other nation has seized the golden key as it drops from our listless hand and with it unlocked for itself the door to wealth, fame, and power; when another nation has built and holds the canal; then will we learn and know, and *then*, the hand that dropped the key must grasp the sword in its place and so win back the key—and again will precious blood and treasure be wasted in long wars to regain that which with slightest effort and to our great profit we might now peacefully retain.

ESTIMATES OF COST.

Tehuantepec Ship Railway (proposed).—Length, 134 miles; probable cost of construction, $100,000,000, probable receipts (gross), $12,500,000; (net), $6,000,000.

Nicaragua Canal (proposed).—Length (canal), 40 miles; (river and lake), 130 miles; locks, 7; floor of canal, 80-120 feet wide; surface of canal, 80-300 feet wide; depth, 28 feet; probable cost of construction, $100,000,000; probable receipts (gross), $12,500,000; (net), $12,000,000.

Suez Canal (completed). — Length, 99.9 statute miles; no locks—à niveau; floor of canal, 72 feet wide; surface, 190-328 feet wide; depth, 25 feet; tonnage using the canal in 1883, 5,775,861 tons; receipts from tolls during 1883, $18,702,413; cost of construction, $93,000,000.

Panama Canal (constructing).—Length, 46 miles (statute); no locks—à niveau: floor of canal, 72 feet wide; surface, 100-164 feet wide; depth, 28 feet; probable tonnage, if canal is completed, 5,000,000 tons; probable receipts. $12,500,000; probable cost of construction, $500,000,000.

PERSONAL ITEMS.

GENERAL C. C. AUGUR, U. S. A., registered at the Grand Hotel, New York, on Wednesday.

GENERAL T. W. SWEENY, U. S. A., retired, left Katonah, N. Y., Oct. 13, for Astoria, N. Y.

LIEUTENANT J. A. IRONS, 20th U. S. Infantry, is visiting Dr. Birmingham at Governor's Island.

CAPTAIN J. B. GIRARD, Assistant Surgeon, U. S. A., at present abroad, is expected home in a few days.

CAPTAIN S. M. MILLS, 5th U. S. Artillery, returned to Fort Monroe, Va., on Tuesday, from a short leave.

COLONEL H. W. CLOSSON, U. S. A., left Fort Wadsworth, Staten Island, on Thursday, on a short leave of absence.

LIEUT. COL. W. H. JORDAN, 19th Infantry, under his recent promotion, has entered upon duty at Fort Clark, Tex.

MR. AND MRS. W. McC. RANSOM returned this week from a three months' wedding tour in England and the Continent of Europe.

MAJOR S. M. WHITSIDE, 7th Cavalry, has relinquished duty at Fort Meade, D. T., for a short period for the benefit of his health.

GENERAL H. G. GIBSON, U. S. A., returned to Washington Barracks on Friday from a trip to New York to attend the Aztec dinner.

A CORRESPONDENT writes us that General A. McD. McCook may be called to the superintendency of the Military Academy at West Point.

MAJOR W. H. GARDNER, surgeon U. S. A., lately arrived from Texas, is located at 20 Waverly Place, New York City, awaiting assignment to a post in the East.

LIEUTENANT H. J. SLOCUM, 7th Cavalry, who has been detained by quartermaster matters at Fort Yates, Dakota, will leave there next week with his family for Fort Meade, D. T.

COLONEL FRED GRANT says Dr. Douglas's bill for attending Gen. Grant was enormous—$7,000—but it was promptly paid, he adding the balance to the $5,000 legacy in the will of the General for the purpose.

THE Comte de Paris has rented for a year the residence of Lady Louisa Menx at East Sheen, near Richmond, in Surrey County, England. Lady Menx, who is a daughter of the Marquis of Ailesbury, generally resides in Paris,

GENERAL R. B. MARCY, U. S. A., has returned from his annual hunt in Wyoming. All the old hunters in the Territory claim that wherever they go they find the game has been already "cleaned out" by the hardy, active, old veteran.

MRS. WARD B. BURNETT, of New York, has received a graceful letter of thanks from Mrs. Cleveland for an autograph letter of President Jackson (date of 1842), also for a handsomely mounted sphere, made of wood from the old ship *Constitution*.

GENERAL CROOK, who is equally at home hunting big game or Indians, is in the mountains beyond Fort Washakie, accompanied by a party of friends, enjoying rare sport. The party includes Mr. John S. Collins, of Omaha; Mr. Webb Hayes, son of ex-President Hayes; Col. Stanton, the well-known temperance advocate of the Pay Department, etc.

THE *Alta California* says: "A Washington belle, who was betrothed to a young Army officer, celebrated the breaking of her engagement with him by giving a luncheon to a few of her most intimate friends, which showed that all sentiment was not extinct in the coquette of the Capital. She paid tribute to the dismissed lover by ornamenting the table with a mass of blossoms, in the midst of which, heavily draped with crape, rested the young officer's photograph."

MRS. MARY C. BAYLOR, wife of Robert W. Baylor, an employee of the Ordnance Department, at Governor's Island, has made a charge of abandonment against her husband and alleges cruelty, etc. The New York *World*, with its usual inaccuracy in military matters, gives a highly sensational account of the affair and refers to Baylor as "a clerk to the late Gen. Hancock and a former chief clerk to Maj. Gen. Schofield." It seems sufficient to say that Baylor never held any position either at Gen. Hancock's or at Gen. Schofield's headquarters.

"LIEUTENANT J. W. HANNAY, 3d Infantry," says the Cleveland *Plain Dealer*, "has relinquished recruiting duty in our city and goes on a four months' leave. His promotion to captain is not far off, and none wish him more success as a company commander than the many friends he made during his tour of duty in this city. Always cheerful, courteous and gentle, Lieut. Hannay has done much to correct the erroneous impression so prevalent as to officers of the Army. His knowledge of military science has resulted in material benefit to the Brooks' military academy, where his loss will be keenly felt. In the many military contests in which he acted as judge, Mr. Hannay's fairness has won for him the respect of all concerned. His name is not unknown in literature, and at the reunions of the local commandery of the Military Order of the Loyal Legion his contributions, in prose and poetry, were always a feature. In his new field, the military men of this city, one and all, bid him a hearty Godspeed."

LIEUTENANT J. H. GIFFORD, 2d U. S. Artillery, left Little Rock Barracks this week on a month's leave.

ASSISTANT SURGEON WASHINGTON MATTHEWS, U. S. A., goes abroad for a few weeks on private business.

LIEUTENANT GEORGE H. CAMERON, 7th Cavalry, has rejoined at Fort Meade, D. T., from Fort Snelling, Minn.

MAJOR F. T. BENNETT, 2d U. S. Cavalry, lately of Fort Klamath, Ore., takes command of San Diego Barracks, Cal.

CHAPLAIN OSGOOD E. HERRICK, U. S. A., has rejoined at Fort Monroe, Va., from leave, much improved in health.

CHAPLAIN WINFIELD SCOTT, U. S. A., has left the Presidio of San Francisco and resumed duty at Angel Island, Cal.

LIEUTENANT E. S. CHAPIN, 15th U. S. Infantry, was to leave Fort Pembina, D. T., this week on a month's visit East.

LIEUTENANT L. A. CHAMBERLIN, 1st U. S. Artillery, has taken charge of the rifle range at the Presidio of San Francisco.

CAPTAIN E. C. WOODRUFF, 12th U. S. Infantry, commandant of Fort Ontario, paid a short visit this week to friends at Rye, N. Y.

LIEUTENANT W. H. W. JAMES, 24th U. S. Infantry, was in New York, this week, visiting preparatory to starting to return to Fort Reno.

THE engagement is announced of Miss Agnes Royall, daughter of Col. Royall, 4th Cavalry, to Mr. Arthur Jeffrey Parsons, of Boston.

MAJOR MERRITT BARBER, Assistant Adjutant General, has been called to San Francisco, to report to Major General Howard, on official business.

CAPTAIN G. A. GOODALE, 23d U. S. Infantry, and bride, are expected to join at Fort Mackinac, Mich., next week. A hearty welcome awaits them.

A TOBOGGAN club has been organized at Fort Snelling, with Col. J. M. Moore, U. S. A., president; Miss Alice Alden, vice president, and Lieut. R. F. Bates, secretary and treasurer.

COLONEL JOHN MENDENHALL, U. S. A., left Fort Trumbull, Conn., early in the week to be absent until the end of the month. He called upon old friends in New York on Wednesday.

COLONEL, MRS. AND MISS ROYALL have arrived in Washington after a charming summer at Bar Harbor, stopping in New York on their return. They will spend the winter at the Richmond.

CAPTAIN J. M. NORVELL and Lieutenants A. G. Tassin and R. K. Evans, 12th U. S. Infantry, of Madison Barracks, were visitors at Plattsburg Barracks, this week, on Court-martial service.

THE Supreme Court of California has granted Henry B. McDowell, son of the late Major-General Irvin McDowell, U. S. A., a new trial. He was sued by Andrew J. Clunie for libel and was convicted.

MRS. NORWOOD, an old lady of Georgia, has a claim against the U. S. Government for a mule owned by her grandfather and impressed into service in the War of 1812. *Moral.*—It is never too late to present a claim against the Government.

LIEUTENANT J. A. COLE, 6th Cavalry, of Fort Bayard, N. M., has left for the East to spend his wedding tour. He was married at Fort Bayard October 5th to Miss Mary Tupper, eldest daughter of Capt. T. C. Tupper, 6th U. S. Cavalry.

LIEUTENANT JOHN R. WILLIAMS, 3d U. S. Artillery, of Fort McHenry, Md., was married, Oct. 15, at St. Louis, Mo., to Miss Marie Hewitt, of that city. The married couple will go to Europe on their wedding tour and will remain abroad several months.

LIEUTENANT J. E. SAWYER, 5th U. S. Artillery, has returned to Fort Columbus, N. Y. H., with his family from a few weeks' sojourn at Richfield Springs, and has reported to Major General J. M. Schofield for temporary duty as Aide-de-Camp.

GENERAL T. M. VINCENT, U. S. A., is spending a portion of his leave visiting old friends in Washington. He will return to Fort Snelling in time to superintend the removal of the A. G. O., Headquarters Dept. of Dakota, from Fort Snelling to St. Paul early in November.

CAPTAINS EDWARD FIELD and H. G. Brown and Lieutenants R. P. Strong, E. T. Brown, and M. F. Waltz, U. S. A., arrived in New York early in the week and reported to Major-General Schofield for special duty in connection with the inauguration of the Statue of Liberty, Oct. 28.

THE Rev. Charles Smith-Cook was married, Sept. 24, at Cambridge, N. Y., to Miss Jessie E. Wills. The groom is a son of Lieutenant Caleb Smith, 2d U. S. Infantry, who resigned in 1861 and was afterwards killed, we believe. The married couple have left for their future home, Pine Ridge Agency, Dakota.

COLONEL V. D. MAJENDIE, C. B., Chief Inspector of Explosives in England, has come to America to observe the condition of the petroleum industry. He is located for the present at the Windsor Hotel, New York. We met Colonel Majendie (their Lieutenant) in Woolwich in 1861, he being then attached to the Depot Brigade, R. A.

THE Florida *Times-Union*, referring to the departure of Lieutenant-Colonel L. L. Langdon, 2d U. S. Artillery, from St. Augustine, says: "Colonel Langdon has made many friends while in command at St. Francis Barracks, and his gentlemanly accomplishments have made a lasting impression upon many friends in the old city, who all wish that he may soon wear the gold eagles."

THE Rev. David Wills, Jr., pastor of the Spring Garden Presbyterian Church, Philadelphia, and son of Chaplain David Wills, was married, Oct. 6, in Somerville, N. J., to Miss Eloise Baker, daughter of Samuel Baker, Esq. The officiating clergymen were the bridegroom's father and the Rev. W. W. McNair, uncle of the bride. The married couple were in Washington this week on their wedding tour.

GENERAL CROOK has returned to Omaha from a visit to Fort Washakie.

COLONEL W. B. LANE, says the El Paso *Times*, has been appointed post trader at Fort Bliss, Tex.

ASSISTANT SURGEON W. C. BORDEN, U. S. A., has rejoined at Fort Douglas, Utah, from Fort Bridger.

CAPTAIN L. H. RUCKER, 9th Cavalry, rejoined at Fort Washakie, Wyo., this week, from a fortnight's leave.

GENERAL JOHN GIBBON, U. S. A., has returned to Vancouver Barracks from a visit to Fort Walla Walla.

CAPTAIN H. B. FREEMAN, 7th Infantry, was expected to rejoin at Fort Laramie, Wyo., this week, from a week's leave.

CAPTAINS J. B. QUINN and C. B. Sears, Corps of Engineers, U. S. A., were in St. Paul a few days ago quartering at the Ryan.

LIEUTENANT CHAS. L. PHILLIPS, 4th U. S. Artillery, on college duty at Orono, was a recent guest at the Windsor House, Bangor, Me.

LIEUTENANT LEWIS MERRIAM, 4th U. S. Infantry, of Fort Spokane, is being congratulated upon the arrival to him, Sept. 21, of a son.

GENERAL S. V. BENÉT, U. S. A., and Mrs. Benét, arrived in New York, from France, on Sunday last, and afterwards went on to Washington.

LIEUTENANT G. O. WEBSTER, 4th U. S. Infantry, recently appointed regimental adjutant, has joined headquarters at Fort Cœur d'Alene, Idaho.

LIEUTENANT WARREN P. NEWCOMB, 5th U. S. Artillery, lately in from Fort Douglas, left Fort Columbus early in the week on a short leave.

MAJOR JAMES M. BELL, 7th Cavalry, arrived in Omaha a few days ago, having turned over to his successor the charge of the Pine Ridge Indian Agency.

COL. L. L. LANGDON, U. S. A., was expected in New York, this week, to spend a couple of months with his family, after which he will go to Fort Barrancas, Fla.

CAPTAIN E. R. WARNER, 3d U. S. Artillery, left Washington Barracks this week on a short leave, preparatory to changing station to Fort McHenry, Maryland.

LIEUTENANT JOHN CONLINE, 9th U. S. Cavalry, has rejoined at Fort Niobrara, Neb., from his special duty at Fort Leavenworth, in connection with rifle competitions.

MAJOR F. W. HESS, U. S. A., and family, who have been sojourning for sometime past at McConnelburg, Pa., will return to Washington Barracks, D. C., next week.

CAPTAIN G. F. BARSTOW, 3d U. S. Artillery, arrived at Washington Barracks, D. C., early in the week, from Fort McHenry, for a short season of target practice.

THE marriage of Lieutenant W. L. Simpson, 3d U. S. Cavalry, to Miss Marion Wood is announced to take place Oct. 19, at the residence of the bride's parents at Piqua, Ohio.

LIEUTENANT-COLONEL H. L. CHIPMAN, 7th U. S. Infantry, and family, were expected to arrive this week in Detroit, Mich., which will be their future home. He is on leave until the 1st of February next, on which date he will be retired for age.

CAPTAIN W. T. DUGGAN, 10th U. S. Infantry, and bride (marriage announced last week), expect to join at Fort Union, N. M., about Oct. 20. Mrs. Duggan's oldest son, Edwin F. Sellers, is attending Trinity School at Trinity on the Hudson, where are also the two sons of Colonel R. H. Hall, U. S. A.

SURGEON G. M. STERNBERG, U. S. A., has been elected president of the American Public Health Association, which closed its sessions a few days ago at Toronto, Canada. Among the executive committee appointed are Surgeon J. S. Billings, U. S. A., and Medical Director A. L. Gihon, U. S. N. The next convention will be at Memphis, Tenn.

LIEUTENANT E. C. BULLOCK, 7th U. S. Cavalry, was married, Oct. 6, at Carbondale, Ills., to Miss Annie Augusta Rapp, daughter of Mr. Isaac Rapp, of that city. The ceremony took place at the residence of Mr. Rapp, which was beautifully decorated for the occasion. Among those present were Lieutenants Brush, Kerr, and Bell. After a short tour the married couple will join at Fort Meade, Dakota.

LIEUTENANT-GENERAL SHERIDAN and party passed through Omaha a few days ago on their return to Washington, which occasions the *Herald* of that city to say: "General Sheridan is growing old and stout, but he has not lost any of his vivacity or his disposition to make an occasional dry joke at the expense of acquaintances or the aspiring young officers who at military outposts flock around the old war horse like moths at a burning oil wick."

LAST week we briefly referred to the marriage at Detroit, Oct. 6, of Lieut. George S. Young, 7th U. S. Inf., to Miss Edythe Field, daughter of Mr. Moses W. Field. A correspondent adds to our account as follows: "The ceremony took place at St. Paul's Episcopal Church and the church was packed. When it was known that the wedding party was nearing the surpliced choir marched in and up the centre isle to the altar chanting an anthem. Presently the organist began the wedding march, and all eyes were intent upon the main door. The bride, escorted by her father, was the first to arrive, and five minutes later the procession was formed and marched slowly to the altar, where the marriage service was performed by the rector, Rev. Rufus W. Clarke. The bride was given away by her father. The groom was in full uniform. The bridesmaids were Miss Mary Field, Miss Margaret Forsyth and Miss Minnie Lacy. The best man was Lieut. Lockwood, 17th Inf. The ushers were Messrs. George L. Smith, J. S. Mizner, W. Q. Hunt, V. J. Field, Egbert Field, Dr. Wyeth, U. S. A., and Lieut. Allaire. After the ceremony the bridal party returned to the home of Mr. and Mrs. Field, where a few intimate friends were received previous to the departure of Lieut. and Mrs. Young for the East.

CAPTAIN H. J. NOWLAN, 7th U. S. Cavalry, has returned to Fort Totten, Dakota, from his European tour.

CAPTAIN J. R. MYRICK, A.-D.-C. to Major-General Terry, was at Fort Leavenworth this week on official business.

MAJOR W. C. MANNING, U. S. A., returned to Fort Mackinac, Mich., early in the week, from a short hunting expedition.

MAJOR W. F. DRUM, U. S. A., the new Inspector General, Department of Dakota, was in St. Paul and at Fort Snelling this week.

THE marriage of Miss Elizabeth S. Hancock, a niece of the late Maj. Gen. Hancock, to Mr. E. I. Frost, is to take place at St. Paul's Church, St. Paul, Oct. 21.

GENERAL P. V. HAGNER, U. S. A., registered at the Fifth Avenue Hotel, New York City, on Tuesday; Gen. Nelson H. Davis, U. S. A., at the New York Hotel, and Gen. I. N. Palmer, U. S. A., at the Grand Hotel.

LIEUTENANT PHILIP READE, U. S. A., Major-General Terry's Inspector of Rifle Practice, is a recent guest at the Ryan, St. Paul, awaiting the arrival of Mrs. Reade, who has been visiting friends in Washington Territory.

MRS. GRANT this week received from Charles L. Webster and Co., the publishers of Gen. Grant's memoirs, a check for $150,000, being the second payment on account of the profits of the work. The former payment was $200,000.

THE Home *Bulletin*, Fort Munroe, furnishes us with this startling information:

A number of the young ladies at the Hygeia Hotel art exercised over the question as to whether one of the young officers wears corsets!—Opinions seem to be about equally divided, and one of them has offered to *treat* the party if some one will tickle him in the ribs and settle the question.

IT is claimed by the friends of Lieut. J. N. Glass, 6th Cavalry, that the remission, by the President, of his sentence was the result of the opinion held by the Bureau of Military Justice, at Washington, that the evidence adduced was not sufficient to convict him of the charges and specifications upon which he was tried.

LIEUTENANT S. W. GROESBECK, 6th Infantry, says the *Pioneer Press*, comes to St. Paul Nov. 1 for duty as Judge Advocate on Gen. Ruger's staff. Lieut. Groesbeck had considerable experience, both as an executive officer and as judge advocate of courts-martial, and his friends predict for him a successful career in his new position.

"THE only wedding of the week," says the San Francisco *News-Letter*, "has been Miss Helen Lake's with Lieut. Hunter, 1st U. S. Artillery, which took place at Mrs. Lake's residence, Sept. 22. The bride will, for the present, be lost to her friends in 'Frisco, as her husband—who is, I hear, scientific and clever—is stationed at Vancouver, whither the newly-wedded pair have already departed."

THE Valentine *Blade* has Fort Niobrara news as follows: On Friday, the 24th, the first ball of the season of the Fort Niobrara Social Club was given at the fort hall.....On Saturday night Lieut. Moffatt was taken dangerously sick, and for a while his life was despaired of, but under the skilful treatment of Dr. Lippincott, post surgeon, is recovering.....A letter was received from Lieut. Merriam, 4th Inf., who was stationed at Fort Niobrara for some time, stating that a son was born to him on Oct. 1. Mother and baby doing well.

THE following telegram was received at the Navy Department, Oct. 9:

UNITED STATES STEAMER BEAR,
OUNALASKA, Sept. 20, via San Francisco, Oct. 8.

Hon. W. C. Whitney, Secretary of the Navy:

I have the honor to report the arrival in this port on the 15th inst. of the United States Revenue steamer *Bear*, Capt. M. A. Healy, commanding, with Northern Alaska exploring expedition on board. All well. Succeeded in exploring arctic Alaska to Arctic Ocean. Reached the ocean 60 miles to the eastward of Point Barrow. Have forwarded synopsis of work done. Lieut. GEORGE M. STONEY,
Commanding expedition.

SINCE Major-Gen. Sickles, U. S. A., had his famous quarrel with a gas company over a bill for gas charged for while his house was closed and he was away in Europe, says the New York *Sun*, the General has kept his eye on his meter, and now one of the most conspicuous ornaments in his handsomely furnished house on Fifth Avenue is a gilded and showy gas meter, which stands in an alcove in his front hall. It is an unusually elaborate and intricate and presumably vigilant bit of mechanism, which combines with its functions of a measure also the qualities of a Hawksbaw, to detect and prevent the surreptitious entrance into General Sickles's house of any uninvited and unnecessary supply of the insidious and costly fluid.

IN "Some Glances Backward," Ben. C. Truman in the New York *Times*, says: "Speaking of men who were handy with firearms, I once met Lieut. Andrew Campbell, of the 19th U. S. Infantry, who, while stationed at Madison, Ark, went out one evening in 1868 on a lark and fetched up in a barroom where there were a lot of jolly ex-Confederates submerging their distresses in a medley of flowing bowls, among whom was one who exclaimed as Campbell entered: 'I'll bet $20 I can throw down any Yankee in Arkansas in a wrestle.' Campbell was just Hibernian enough to realize that the particular coat tails to be tread upon were being shook in his face, and he advanced toward the speaker, clutched at him quickly, and threw him like a bag of grain into a corner. In an instant the ex-Confederate arose, and drew a derringer, which Campbell rushed upon, and which, after some fighting for, he obtained, and turned it and its contents against his antagonist, taking almost the entire top of his head off. Campbell was declared to be in the right, however, notwithstanding a general lack of affection felt for him generally by ex-Confederates for two reasons: First, because he had been a deserter from the rebel ranks, and, second, because he, as a soldier in Co. G, of the 13th Tennessee (Federal) Infantry, had shot and killed Gen. John H. Morgan, one of the famous cavalry commanders of the Confederate Army." (Lieut. Campbell resigned May 14, 1868.)

COLONEL J. F. HEAD, U. S. A., retired, visited New York this week, registering at the Murray Hill Hotel.

LIEUTENANT J. C. FREMONT, Jr., and Ensign W. W. Buchanan were admitted to membership in the Navy Mutual Association on Oct. 9. The membership now numbers 778, and the association pays a benefit of $3,659.10.

LIEUT. J. M. CALIFF, 3d Artillery, has arrived at Iowa City, and is busy at work getting acquainted with his new duties as pedagogue at the State University. For a man of vigor and warm temperament he finds the place unusually dry, prohibition reigning supreme.

GENERAL O. B. WILLCOX, U. S. A., started for Fort Leavenworth Oct. 15 to take command of the Department of the Missouri. A farewell reception was given him at Madison Barracks on the evening of Oct. 14, and many regrets at his departure were mingled with congratulations on his promotion.

THE proceedings of the Court-martial in the case of Captain Wm. S. Johnson, retired, are before the Lieutenant-General, who, in this case, is the final reviewing officer (unless the sentence should be dismissal) he having convened the court. There is a strong belief that the case will not go beyond Gen. Sheridan, thus indicating that the sentence is not so severe as at first anticipated.

FREDERICK SCHWATKA, late of the Army, whose discovery of "Jones River," in Alaska, furnishes the New York dailies with such an inexhaustible subject of controversy, reports from Nanaimo, B. C., that the *Times* Alaska Expedition reached that place Oct. 8. This is over two weeks late, the steamer *Ancon*, on which the expedition was to have arrived in September, having been wrecked in Glacier Bay on the night of Sept. 13. Mr. Schwatka reports that the Yukon River mines have paid as high as $1,000 per man, and an influx of miners is expected there next year.

A CORRESPONDENT informs us that the marriage of Miss Lillian H. Kimball, daughter of Major Kimball, U. S. Army, and Lieut. W. R. Abercrombie, 2d U. S. Inf., was consummated at Grace Church, New York City, on Wednesday evening, Oct. 13, at 8 o'clock. The ceremony was impressively performed by Rev. Dr. Flagg in the presence of a large and fashionable audience, the responses of the bride and groom being noticeably clear and distinct. The bride looked lovely, attired in a white satin gown with long train, garnitured with point duchesse lace and orange blossoms, the only jewelry worn being a pearl pendant. The groom and his attendants were in full uniform and presented a fine appearance. Lieut. Benham, 2d Inf., officiated as best man; Lieuts. Wisser and Pitcher, of the Army, and Mr. Elliman, of New York City, as ushers. After the ceremony the relatives of the bride and groom accompanied the bridal party to the 5th Avenue Hotel, where congratulations were exchanged and a collation served. The happy couple left for Philadelphia Friday, to be present at a reception tendered them by Major and Mrs. Goodman, of that city, and to visit other relatives of the groom. After leaving Philadelphia they will spend a few days in Chicago before going to their new home at Ft. Omaha, Neb.

THE Omaha *Excelsior* of Oct. 9 says:

Capts. Dempsey and Haines, the jolly bachelor captains, and Lieut. C. W. Rowell, the urbane and gentlemanly adjutant, all of the 2d Foot, start this week on a hunting tour.... Lieut. and Mrs. Williams have returned to Fort Sidney from their Eastern trip....Mrs. Lieut. Duncan, of Fort Sidney, is entertaining Mrs. Major Keefer and daughter....Lieut. F. T. Van Liew, 2d Infantry, made a trip to Leavenworth this week, escorting a number of military convicts....Mrs. Clark, wife of Capt. S. E. Clark, 2d Infantry, is visiting friends on Lexington avenue, New York City..Lieut.-Col. Offley, 17th Infantry, passed through Thursday on his way to Fort Russell to join his regiment....Dr. H. S. Haskins is spending a month's leave in the East. Before his return he will visit his sister, Mrs. Miller, wife of Col. Marcus P. Miller, 5th Art., stationed at Fort Hamilton.

THE Vancouver *Independent* of Oct. 7 says:

Lieut. J. S. Mallory, 1st Cav., and bride, are now visiting in Portland, Ore....Col. Anderson, 14th Inf., is expected to arrive about October 21....The wife and children of Lieut. Wm. A. Kimball, 14th Inf., arrived from Spokane Falls Monday....Lieut. Albert Todd, 1st Art., reported Oct. 1 for duty with the light battery at Vancouver Barracks... Lieutenant Hunter, 1st Art., and bride, arrived at Vancouver Barracks October 1....Lieut. J. V. White, 1st Art., sailed for San Francisco Monday. While at Vancouver Barracks he made many friends, who regret his removal....Lieut. F. W. Sibley, 2d Cav., will report at Walla Walla about Nov. 1....General John Gibbon returned last week from a tour of inspection along the line of the N. P. R. R. in the Yakima country....Last Thursday Lieut. H. C. Cabell, 14th Inf., departed for San Francisco, with 16 military prisoners, sentenced to Fort Alcatraz.

THE society event in St. Louis last week was the marriage, October 6, of Miss Delphine Turner, daughter of the late Major Henry S. Turner, 1st Dragoons, and Colonel Edward M. Heyl, Inspector-General U. S. Army, which took place at noon at the "Shelter," the beautiful country home of Mrs. Julia Turner, mother of the bride, near Normandy. Only the immediate members and relatives of both families were present and the invitations numbered about a hundred. The apartments of the spacious dwelling were tastefully decorated. Punctually at the appointed hour, the bridal party entered the parlor. First came Miss Lucy Turner, niece of the bride, with Captain Joseph H. Willard, Corps of Engineers, Miss Etta Powell with Captain Philip H. Ellis, 13th Infantry, Miss Mary Heyl with Mr. Wilson P. H. Turner, brother of the bride, Col. Heyl with his brother, Lieut. C. H. Heyl, 23d Int., and Miss Turner with her sister, Miss Susie Turner. After the ceremony a reception was held, the happy couple receiving the warmest congratulations. A sumptuous wedding breakfast was then served and soon after Colonel and Mrs. Heyl left, amidst showers of rice and good wishes, for San Antonio, Texas, where the Colonel is stationed, and where they will meet a most cordial reception from their very many Army friends. The bride were a simple toilet of white soie de France, made with a long train and with garniture of rare point lace. The bridesmaids all wore gowns of white silk covered with white silk mull and carried bouquets of different colored roses. The house wore a gala garb of flowers and all the appointments of an elegant morning wedding were carried out in the tasteful details of the occasion.

LIEUTENANT H. DE H. WAITE, 5th Cavalry, left Fort Monroe on Tuesday to be absent for a few days.

A DESPATCH from Boston, Oct. 9, says: "By invitation of the Massachusetts Rifle Assistant Captain Ira Paine, the noted marksman, will establish a regulation Army revolver record at 50 yards upon the standard American target by firing 100 shots at the Walnut Hill range on Oct. 15."

THE Brackett *News* of Oct. 9, has the following Fort Clark items:

The body of Captain Boyd, who died in New Mexico, has been transferred to San Antonio for interment.... .Captain Remington and son, the latter having had an operation performed on his eye some time ago at Kansas City, has gone to that city for further treatment.....Col. Jordan, who was promoted to the position filled by Col. Bliss, and family are here. We are glad that such a popular officer has been assigned here for duty.....Major S. C. Vedder, the absent Q. M. is looked for this month. Although the gallant Major does not often leave his post, yet now he is off duty, he is enjoying his leave .....The family of Lieut. Guard reached here Sunday. Mrs. Guard has been absent from the post for a long time. She received a hearty welcome from her many friends here.

SECRETARY OF THE NAVY WHITNEY returned to Washington on Tuesday.

CAPTAIN H. ERBEN, U. S. N., is at present residing at his own house, 130 E. 44th street, N. Y. City.

CAPT. R. L. PHYTHIAN, U. S. N., and a party of friends from Old Point Comfort, visited Norfolk, Va., this week.

THE Chief of the Bureau of Equipment and Recruiting visited Norfolk, Va., Oct. 12, and inspected the *Jamestown*.

COMMANDER W. M. FOLGER, U. S. N., lately at Fitchburg, Mass., visited in New York this week, registering at the Hoffman House.

CHIEF ENGINEER G. W. MAGEE, U. S. N., arrived in New York City from Europe per S. S. *City of Rome* on Oct. 9. He is now located at 187 Marcy av., Brooklyn, N. Y.

LIEUTENANT RIDGELY HUNT, U. S. N., will be married shortly to Miss Nina Kearny, daughter of the late Gen. Phil Kearny, and step daughter of Rear-Admiral Upshur.

CIVIL ENGINEER A. G. MENOCAL, U. S. N., is one of the fortunate heads of department in the Ordnance Yard who will be able to retain "a local habitation and a name" within the limits of the Yard, the Secretary's order having been modified to that extent in Señor Menocal's favor.

MEDICAL DIRECTOR T. J. TURNER, U. S. N., is engaged in forming and perfecting a "Catalogue of Books, Pamphlets," etc., belonging to the Museum of Hygiene. The Doctor assumed duty at the museum as the relief of Medical Director J. M. Browne early in July of the present year.

CAPTAIN JOHN G. WALKER, U. S. N., Chief of Bureau of Navigation, after a brief visit to his family in Germany, is reported to have paid a flying visit to Glasgow, and at last accounts was en route for the United States via London. He will be in Washington about November 1.

COMMANDER YATES STIRLING, U. S. N., will soon be with his family in Baltimore, as it is quite probable that his relief, Commander J. C. Watson, has reported for duty on the *Iroquois* ere this. Commander Stirling has been considerably over two years at sea, he having relieved Commander Sands in June of 1884.

THE farewell reception of Rear Admiral Chandler, who will take command of the Asiatic Squadron, was held on Thursday evening at the Brooklyn Navy-yard. The reception was attended by all the officers of the post and their families. Admiral Chandler turned over the Navy to his successor, Commodore Gherardi, on Friday and was to start for San Francisco with his family on Saturday.

ASST. PAYMASTER J. S. CARPENTER, Lieut. C. G. Calkins, Lieut. A. G. Paul, Lieut. C. T. Hutchins, Ensign C. A. Gove, Lieut.-Comdr. Geo. W. Pigman, Lieut. Jno. W. Danenhower, Asst. Paymr. L. C. Kerr, Comdr. C. M. Schoonmaker, Comdr. W. M. Folger, Lieut. L. C. Logan, P. A. Paymr. Arthur Peterson, Lieut. F. A. Wilder, Lieut. F. H. Tyler, and Lieut. H. Morrell registered at the Navy Department during the week.

THE Vallejo *Chronicle*, referring to the departure of Capt. F. V. McNair, U. S. N., from Mare Island for Philadelphia, says: "While on duty here he was ever obliging and courteous in the discharge of his official duties. He commanded much respect from his brother officers and was highly esteemed by the Navy-yard workmen, with whom he was a general favorite. His many friends though regretting his departure hope the change of climate will prove beneficial to his health."

LIEUT.-COMMANDER SAMUEL L. WILSON, U. S. N., whose remains arrived at San Francisco, Cal., on the U. S. S. *Alert* recently, was born in Ohio and appointed to the Naval Academy Sept. 20, 1861, from which he graduated in November, 1864. Passing through the intermediate grades with the rapidity bred of war's necessity, he was promoted to lieutenant-commander on Dec. 31, 1869, and died in Yokohama, Japan, Aug. 1, 1879. His remains have been forwarded to their final resting place from San Francisco.

THE monument erected to the memory of the late Commander Gorringe was unveiled at Rockland Cemetery, Sparkill, on the afternoon of Oct. 12. Among those present were Mrs. Mary A. Gorringe, the mother, and Mrs. Dr. Hiland, the sister of the dead commander. The Lotos and University Clubs, of which the dead commander was a member, were largely represented. Horace White, on behalf of the Construction Committee, presented the completed monument to Mrs. Gorringe, and then the American flag which draped the base of the monument was drawn aside, revealing the inscriptions. Elliott F. Shepard, an old associate of the commander's, told of his great achievements and paid a warm tribute to his personal qualities. The Rev. Dr. Bridgman accepted the monument for Mrs. Gorringe, and the benediction, given by the Rev. Dr. Flagg, closed the ceremonies.

P. A. ENGINEER H. S. ROSS, U. S. N., was at the Hotel des Deux-Mondes, Paris, France, a few days ago.

THE highest admiral in the Chinese Navy, a Mandarin of uncounted buttons, is said to be an Irishman named McCaslin.

LIEUTENANT RICHARDSON CLOVER, U. S. N., and Mrs. Clover, registered at the Grand Hotel, Paris, France, a few days ago.

MR. WILLIAM KING, who served in 1862 and 1863, as an acting Third Assistant Engineer, U. S. Navy, has been appointed Engineer at the White House.

PAY DIRECTOR A. W. RUSSELL, U. S. N., is visiting his daughter, Mrs. John G. Van Horne, whose husband is of the firm of Hazlett and Van Horne, Civil Engineers, 15 Cortlandt street, New York.

PASSED ASSISTANT ENGINEER ROBERT CRAWFORD, U. S. N., is still unfit for duty, and will probably be unable to report for sea service for some time. He is living with his family at Valley Forge, Pa.

THE family of Rear Admiral John H. Russell, U. S. Navy, having returned from a pleasant visit on the Pacific coast, have rejoined the Admiral in Washington. He has been sojourning at Richfield Springs.

LIEUTENANT J. S. ABBOTT, U. S. N., secretary to Rear-Admiral Luce, arrived in New York early in the week to confer with Major-General Schofield on matters connected with the river parade on the inauguration of the Statue of Liberty.

ENSIGN AND MRS. P. J. WERLICH are to be congratulated on the safe arrival of a son, and a boatswain's whistle will be quite an appropriate gift from the namesake of the little stranger. It is said that the full name of Werlich, junior, is to be William Whitney.

PROFESSOR EDGAR FRISBY, U. S. N., is busily engaged in the erection of a fine residence in Georgetown, D. C., near the corner of Congress and Stoddert streets. From the plans, so far as developed, the Professor is destined to possess one of the ornaments of the District.

REAR-ADMIRAL J. L. DAVIS, U. S. N., will soon be relieved of the command of the Asiatic Station by Rear-Admiral Chandler. Admiral Davis will have about completed a full three years' cruise by the time he again reaches Washington, his present orders bearing date of Dec. 19, 1883. Admiral Davis retires Sept. 3, 1887.

COMMODORE A. W. WEAVER, U. S. N., was congratulated by many friends last week on his promotion. The Commodore will probably remain on duty with the Examining and Retiring Boards at the Department, although another officer of the same rank, Commodore Greer, is also on the same Board. Commodore Weaver is residing in his own house at 2819 N street, Georgetown, D. C.

(Correspondence of the Army and Navy Journal.)

THE POTOMAC ARCHERS.

THE Potomac Archers, of Washington, D. C., held a two days' tournament at the arsenal grounds, Washington, Oct. 6 and 7. The archers (more than half of whom are ladies) were enthusiastic in their thanks to Col. Gibson and the officers of the garrison for their many courtesies. Two of the bowmen challenged the officers of the garrison to a contest with revolvers against bows and arrows, same target and same distance (any distance from 40 to 60 yards). Lieut. Sedgwick Pratt and Lieut. Bennett, the rifle champion, accepted the challenge, although neither officer claimed to be an expert with the pistol.

The archery target is round, 48 inches diameter, having a "gold" (bull's-eye) 8 3-5 inches diameter, surrounded by colored bands, each 4 4-5 inches broad. The score is reckoned 9 for "gold," 7 for red, 5 for blue, 3 for black, 1 for white. The scores made at 12 shots, 50 yards, were as follows:

Lieut. Bennett	7 9 7 9 7 9 5 5 7 7 7 9—88
W. A. Bartlett (archer)	9 1 5 7 3 7 3 3 5 7 9 7—66
Lieut. Pratt	0 7 9 9 5 7 1 5 7 5 1 5—61
L. W. Maxson (archer)	3 5 9 7 3 3 1 7 7 7 5 3—60

Lieut. Bennett received a Remington revolver as the prize to the winner. Mr. Bartlett, who is president of the National Archery Association, states that there are two or three archers in the country who occasionally pass Lieut. Bennett's score, but it is unusual. He thinks the best archers will not quite equal expert pistol shots at archery ranges (40 to 80 yards), but will "hurry up" the laggards.

REVENUE MARINE.

Capt. Alvin A. Fengar, on Oct. 7 lowered his flag from the United States revenue steamer *Louis McLane* and transferred it to the steamer *W. H. Crawford*, lying at Chase's wharf, Baltimore. The *McLane* goes out of commission and will remain in that port until it is decided to rebuild or sell her. With the transfer of his flag Capt. Fengar also transferred his officers, crew, armament and stores. His staff are: 1st Lieut. Thomas S. Smyth, executive officer; 2d Lieut. Salathiel M. Crosley, 3d Lieut. Percy W. Thompson, Chief Engr. George C. Dereamer, 2d Asst. Engrs. Daniel T. Cross and Harry L. Boyd, Pilot Petersen. The *Crawford* will sail for Key West next week to relieve the steamer *John A. Dix*, which will take the *McLane's* station at Galveston. The *Crawford's* headquarters will be at Key West, with a cruising ground as far as Cape Canaverel on the east coast of Florida and Cedar Keyes on the west, including Dry Tortugas and the full extent of the Florida reefs.

The British Minister, acting on instructions from his government, has applied to the Department of State for all information obtainable in regard to the recent seizure of the British Columbian schooners *Onward*, *Thornton* and *Carolina* by the revenue steamer *Corwin* for alleged violation of laws regulating the hunting of seals in American waters. The application was referred to the Acting Secretary of the Treasury, who transmitted to the Secretary of State copies of all the correspondence in the Treasury Department bearing upon the seizures in question.

LATE ARMY ORDERS.

Brig.-Gen. O. B. Willcox will proceed to Fort Leavenworth and assume command of the Dept. of the Missouri (S. O., H. Q. A., Oct. 14.)

Capt. C. H. Whipple, O. D., will proceed to East Lynne, Conn., on public business (S. O., H. Q. A., Oct. 14.)

Major W. H. Bell, C. S., will proceed to Easton, Col., on public business (S. O., H. Q. A., Oct. 14.)

The leave of Asst. Surg. M. P. Randall is extended 15 days (S. O., H. Q. A., Oct. 14.)

The sick leave of Capt. Thomas J. Gregg, 2d Cav., is further extended six months (S. O., H. Q. A., Oct. 13.)

THE ARMY.

G. O. 68, H. Q. A.

Announces certain changes in old blanks, and prescribes new blank forms for use in the Q. M. D.

G. O. 71, H. Q. A., Oct. 7, 1886.

The following order has been received from the War Department:

WAR DEPARTMENT, WASHINGTON, Oct. 6, 1886.

Agreeable with the provisions contained in Section 6 of an act of Congress approved June 18, 1878, making appropriations for the support of the Army for the fiscal year ending June 30, 1879, and for other purposes, the headquarters of the Division of the Pacific and the Department of California will be transferred to the city of San Francisco, and the headquarters Department of Dakota will be transferred from Fort Snelling, Minnesota, to St. Paul, Minnesota. The transfers above ordered will go into effect Nov. 1, 1886.

The attention of division and department commanders is called to par. 45 of the Regulations, whereby the staff of such commanders is limited to a certain number of officers, whose duties are therein designated, and which under no circumstances must be exceeded.

WM. C. ENDICOTT, Secretary of War.

By command of Lieut. Gen. Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 72, H. Q. A., Oct. 8, 1886.

By direction of the Secretary of War, par. 476 of the Regulations, as amended by G. O. 86, Aug. 4, 1884, is further amended to read as follows:

476. The tour of service of captains with light or mounted batteries of artillery shall be four years, and shall commence on the 1st of November. Regimental commanders will, as occasion requires, nominate to the Adjutant Gen. the captains to replace those whose tours of duty with the light batteries are about to expire. That the instruction in regiments may be as uniform as practicable, and up to the highest requirements of the most approved light battery efficiency, the regimental roster for the detail of captains will embrace only those under fifty years of age, and otherwise eligible by their recognized superior professional attainments and devotion to duty; by their standing as battery commanders; and by their physical qualifications. The whole list of such captains will be forwarded by the regimental commander, with his recommendations, to the Adjutant General of the Army. Those captains who have recently been in command of light batteries for four years or longer will not be regarded as eligible for detail until all the other captains on the roster of the regiment for details have had a tour of duty in command of light batteries. To insure that none but those possessing the more soldierly qualities and regimental *esprit* should be attached to so favorite and distinguished an arm of the service, an officer who has not served with his regiment continuously (including cumulative leaves) for at least the previous two years will not be considered eligible for detail to the light batteries. Exception will only be made where the circumstances attending the absence of an officer do not indicate a desire to avoid the performance of ordinary regimental and company duty.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 74, H. Q. A., Oct. 8, 1886.

By direction of the Secretary of War, the following is published for the information of all concerned:

Whenver it becomes necessary to issue metallic coat buttons to the enlisted men of the Army, to replace such as may have been previously supplied with the garments, they will be issued upon the clothing receipt roll and charged upon the soldier's clothing account at sixteen cents per dozen for the large and eight cents per dozen for the small sizes. These prices will remain in force until the publication of the next annual price list of clothing and equipage.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

CIRCULAR 9, H. Q. A., Oct. 8, 1886.

The following decisions, rulings, etc., have been made during the month of September, 1886, and are published to the Army for the information of all concerned:

ADDITIONAL SECOND LIEUTENANTS OF THE CORPS OF ENGINEERS NOT TO BE EXAMINED FOR APPOINTMENT TO VACANCIES OF SECOND LIEUTENANT.

The appointment of an additional 2d lieutenant to be a 2d lieutenant is not a promotion in the sense contemplated by the law which requires lieutenants of the Corps of Engineers to pass an examination prior to their promotions.—(Decision actg. Sec. War, letter Sept. 1, 1886.)

TRANSPORTATION FOR HORSES OF OFFICERS ORDERED ON RECRUITING SERVICE.

An officer ordered on recruiting service will not be allowed transportation to his new station for the horses owned by him, but forage for them will be furnished at the post where the officer's troop is stationed.—(Decision actg. Sec. War, letter Sept. 4, 1886.)

PAYMENT OF FEES FOR ADMINISTERING OATHS.

When affidavits are taken not for the interest of the individual but for the interest of the public service, the Quartermaster's Department will pay the notarial fees.—(Decision actg. Sec. War, letter Sept. 13, 1886.)

GENERAL SERVICE CLERKS.

The number of General Service clerks allotted to division and department headquarters is liberal, and as G. O. 43, c. s., Headquarters of the Army, requires that the medical director shall be furnished with clerical service from the number allotted, the Lieutenant General directs that it be done in all cases.

Hospital stewards.

By G. O. 43, and Cir. 8, of 1886, from this office, the medical director of division and department is supplied with clerical labor by the division and department commander from the General Service clerks at his headquarters. Hence, if the hospital steward is not enlisted in the General Service Detachment, the tact should be reported, so that he may be sent to a military post.—(Decision actg. Sec. War, letter Sept. 18, 1886.)

Certificate of merit.

The two dollars per month for certificate of merit cannot be paid a General Service clerk or messenger while in receipt of the pay provided in the act of July 29, 1886.—(Decision actg. Sec. War, letter Sept. 25, 1886.)

CLOTHING ALLOWANCE OF DESERTERS.

A deserter is entitled to the clothing allowance from the date he surrenders or is apprehended, and calculation of the amount due him should be made from tables in use during the period of actual service.—(Decision actg. Sec. War, letter Sept. 21, 1886.)

MEDICINES AND MEDICAL ATTENDANCE FOR INDIANS.

Indians held as prisoners of war, or who are enlisted as scouts and are under the complete control of the War Department, should receive medicines and medical attendance from Army supplies and Army surgeons. There is no authority of law permitting such supplies and attendance to Indians under the care and management of the Interior Department.—[Decision actg. Sec. War, letter Sept. 24, 1886.)

ORDERS OF POST COMMANDER PRESCRIBING ARTICLES OF UNIFORM TO BE WORN BY HIS COMMAND.

Such orders are perfectly proper; the commanding officer of the post is the only proper person to excuse individuals from complying with them, and he must decide on what occasion local causes may require a deviation from full dress uniform and to what extent.—(Decision Lieut. Gen., letter Sept. 29, 1886.)

TACTICS.

Paragraph 522. Change front on first or tenth company faced to the rear. The 2d sergeant of the old tenth, which becomes the new first company on completion of the change of front, will be on the right of his company. The first sergeants of all the companies will be on the left of their companies. The effect is the same as if the battalion in line is faced to the rear by an about of fours.—(General decision, letter Sept. 10, 1886.)

When a battalion wheels into line from column of companies and halts, the companies do not support arms. It is a simultaneous movement.

The posts of field officers of a battalion formed for parade are twelve yards in rear of the file closers and opposite the centre of the right and left wings.

A battalion having marched in review in column of companies and wheeled into line, the field officers pass between the companies as they are wheeling around the flanks of the battalion, as may be most convenient, and take their posts behind the centre of each wing.—(Decision Lieut. Gen., letter Sept. 18, 1886.)

Company in line at right shoulder. Command "Forward," "guide right," "march." The guide changes his piece to carry at the command "Guide right."

Marching in column of fours. The guide carries his piece the same as the men of his company. If the column of fours is wheeled into line and continues the march in line, the designated guide comes to a "carry" at the command "Guide right" (or left).

Paragraph 189, Infantry Tactics, prescribes the general rules for the execution of the manual by the guides. Explicit instructions for each particular case are not given.

In cocking the rifle the middle notch is the half-cock notch.—(Decision Lieut. Gen., letter Sept. 18, 1886.)

Paragraphs 104 to 110. Firings, direct, oblique, by file, by rank, kneeling. The command "Cease firing" can be given in each case. The instructor gives the command "Cease firing" when he wishes all the pieces to be loaded after the cessation of fire. If he does not want the pieces to be loaded he gives the command "Carry arms" after "Fire" (paragraph 99). The command "Cease firing" must be given to stop the fire by file. When kneeling, the command "Cease firing" should precede the command "Squad rise."

Paragraph 106. If the command "Cease firing" be given after the pieces are reloaded and at a ready, the men bring their pieces to the safety-notch and resume the carry without further command.

Paragraph 110. Oblique fire, kneeling. The men bring the pieces to a vertical position at the command "Left oblique;" they aim through the same intervals as when standing.

Paragraph 238. To form column of fours from column of files. All the files in rear of the first set of fours move to the front at the command "March." The three rear files of the second set of fours begin the oblique when the leading file of their set is three yards from the preceding set, and so on with the other sets in rear.—(Decision Lieut. Gen., letter Sept. 21, 1886.)

Paragraph 509. Deployment of double column. The companies that wheel into line should be dressed toward the centre of the battalion.—(Decision Lieut. Gen., letter Sept. 23, 1886.)

STOPPAGE OF PAY TO REIMBURSE A COMPANY FUND.

A Court-martial can forfeit or stop pay or impose a fine only in favor of the United States. A company fund has not been recognized by law as public money, and the pay of a soldier cannot be stopped to reimburse the same for losses.—(Opinion actg. Judge Adv. Gen., concurred in by actg. Sec. War, letter Sept. 17, 1886.)

CLOTHING.

The allowance of two dollars to each enlisted man of infantry for altering his uniform dress coat and trousers, authorized in Circular 1, Feb. 16, 1885, from this office, does not apply to enlisted men of the General Service.—(General decision, letter Sept. 30, 1886.)

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 29, DEPT. OF TEXAS, Oct. 4, 1886.

Under the requirements of A. R. 141, 2d Lieut. D. J. Rumbough, 3d Art., A. D. C., is detailed as Acting Engineer Officer of the Department.

G. O. 27, DEPT. OF ARIZONA, Oct. 2, 1886.

Captain J. W. Pullman, A. Q. M., is assigned to the duty of adjusting and settling the telegraph accounts that may occur in the Dept. Arizona.

G. O. 24, DEPT. OF THE COLUMBIA, Oct. 2, 1886.

Captain William S. Patten, A. Q. M., Vancouver Barracks, is assigned to the duty of adjusting and settling telegraph accounts in the Dept. Columbia.

G. O. 6, DEPT. OF CALIFORNIA, Oct. 6, 1886.

Captain Daniel D. Webster, Assistant Quartermaster, Presidio of San Francisco, Cal., is assigned to the duty of adjusting and settling all telegraph accounts in this Department, under the instructions of the Quartermaster General.

All such accounts will be presented to Captain Wheeler, who will prepare and pay them, or forward them for payment, as the case may require.

By command of Major General Howard:
CHAUNCEY MCKEEVER, Asst. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Brig.-Gen. N. A. Miles, commanding Dept. of Arizona, accompanied by 2d Lieut. J. A. Dapray, 23d Inf., A. D. C., now at Fort Bowie, will proceed to Albuquerque, N. M., via El Paso, Texas. (F. O. Sept. 8, D. A.)

The Dept. Comdr. Brig. Gen. John Gibbon, accompanied by 1st Lieut. Edward J. McClernand, A. D. C., will proceed from Ellensburg to Fort Walla Walla and thence to Vancouver Barracks, on public business (S. O. 170, Sept. 25, D. Columbia).

Brig. Gen. George Crook will proceed to Fort Washakie, Wyo., on public business (S. O. 127, Oct. 4, D. Platte).

The retirement from active service, Oct. 12, 1886, of Brig. Gen. Joseph H. Potter, is announced. Brig. Gen. Potter will repair to his home (S. O., Oct. 12, H. Q. A.)

Brig. Gen. N. A. Miles will proceed from Albuquerque, N. M., to Whipple Barracks, A. T., upon public business and return to Albuquerque, N. M. (F. O. 95, Sept. 21, D. Ariz.)

Adjutant and Inspector Generals.

In obedience to telegraphic instructions from the Dept. Comdr., dated Ash Fork, A. T., Sept. 21, Capt. Wm. A. Thompson, A. A. A. G., will proceed to Albuquerque, N. M. (F. O. 96, Sept. 24, D. Ariz.)

Quartermasters and Subsistence Departments.

Capt. Wm. S. Patten, A. Q. M., will proceed to Portland, Ore., on public business (S. O. 174, Oct. 2, D. Columbia).

Supdt. Frank Barrows is relieved in charge of the National Cemetery at Alexandria, La., and will proceed to Fort Scott, Kansas, and assume charge of the National Cemetery at that place, relieving Supdt. R. C. Taylor, who will proceed to Alexandria, La., and assume charge of the National Cemetery there (Q. M. G. O., Oct. 11).

Brig. Gen. Samuel B. Holabird, Q. M. G., will proceed to New York City on public business connected with the construction of the new Armory building (S. O., Oct. 9, H. Q. A.)

Major G. B. Dandy, Chief Q. M., will proceed to the Bellevue Rifle Range on public business (S. O. 127, Oct. 4, D. Platte).

Com. Sergt. Herman Mendel will proceed to Fort Townsend, Wash. Ty., to relieve Com. Sergt. James M. Don, who will proceed to Fort McDermit, Nev., to relieve Com. Sergt. Emile Laray, who will proceed to Fort Mojave, Ariz., for duty (S. O., Oct. 9, H. Q. A.)

Leave for twenty days is granted Capt. Wm. A. Elderkin, C. S., Newport Barracks, Ky. During the absence of Capt. Elderkin, 2d Lieut. Elisha S. Benton, 3d Art., will take charge of the former's office (S. O. 157, Oct. 12, Div. Atlantic.)

Pay Department.

Major DeWitt C. Poole, Paymr., will proceed to the vicinity of Ellensburg, W. T., and pay Troops G and I, 2d Cav. (S. O. 171, Sept. 27, D. Columbia.)

Medical Department.

A. A. Surg. George M. Terrill, now at Fort Bowie, Arizona, will proceed to Fort Huachuca, Arizona, for duty (F. O. 90, Sept. 8, D. Ariz.)

Asst. Surg. C. C. Barrows, now on duty at Calabasas, Ariz., will proceed to Whipple Barracks for duty (F. O. 90, Sept. 8, D. Ariz.)

A. A. Surg. Chas. Anderson will proceed from Fort Bowie, A. T., to Fort Union, N. M., for duty (F. O. 90, Sept. 8, D. Ariz.)

On the expiration of his leave of absence, 1st Lieut. Walter W. R. Fisher, Asst. Surg., will report to the C. O., Fort Bidwell, Cal., for duty as post surgeon, relieving A. A. Surg. George M. Kober, who, upon being thus relieved, will report by letter to the Medical Director at these H. Q. for annulment of contract (S. O. 93, Oct. 4, D. Cal.)

The contract with A. A. Surg. Wm. Craig, Fort Lowell, A. T., is annulled, to take effect Oct. 15, 1886 (S. O. 96, Oct. 6, D. Ariz.)

Asst. Surg. L. S. Tesson will accompany the Battalion 8th Cav., now en route from Dept. of Arizona to the Dept. of Texas, and will report to the Battalion Commander for duty (F. O. 96, Sept 24, D. Ariz.)

A. A. Surg. C. C. Goddard, Fort Riley, will proceed to Fort Leavenworth, and report for temporary duty (S. O. 114, Oct. 7, Dept. Mo.)

Leave for fifteen days, to take effect Oct. 10, is granted Major J. V. D. Middleton, Surg. (S. O. 114, Oct. 7, Dept. Mo.)

Asst. Surg. Wm. C. Borden is relieved from temporary duty at Fort Bridger, and will return to Fort Douglas (S. O. 126, Oct. 2, D. Platte).

A. A. Surg. J. M. Kollock will proceed to Fort Cœur d'Alene, and report for duty (S. O. 173, Oct. 1, D. Columbia).

Major William H. Gardner, Surgeon, is relieved from duty at Fort Davis and in the Dept. of Texas (S. O. 140, Oct. 5, D. Texas).

The contract of A. A. Surg. G. M. Terrill, Fort Huachuca, is annulled, to take effect Oct. 15 (S. O. 94, Oct. 1, D. Ariz.)

1st Lieut. Edward Everts, Asst. Surg., now at Tucson, A. T., will proceed to Fort Grant and take station (S. O. 94, Oct. 1, D. Ariz.)

Hospl. Steward Henry Winkelmann is assigned to duty in the dispensary at Dept. H. Q. (S. O. 113, Oct. 4, Dept. Mo.)

Hospl. Steward Charles H. Fearn was discharged at Fort Lowell, A. T., on surgeon's certificate, Aug. 30.

Hospl. Steward E. W. Hambrack, discharged by expiration of enlistment, at Fort Bowie, Sept. 30, and was not re-enlisted.

The furlough granted Hospl. Steward James Carroll, is extended five months, with permission to go beyond sea (S. O., Oct. 11, H. Q. A.)

Hospl. Steward Edward P. Harrison will proceed to Fort McDermit, Nev., for duty, relieving Hospl. Steward Kenzie P. C. Swepston (S. O. 93, Oct. 4, D. Cal.)

Engineers and Ordnance Departments.

1st Lieut. E. J. Spencer, Corps of Engrs., Engineer Officer of the Department, is relieved from duty at Willcox, Ariz., and with his topographical assistant will proceed to Albuquerque, N. M. (F. O. 90, Sept. 8, D. Ariz.)

Captain Wm. L. Marshall, C. E., will proceed to Oshkosh, Green Bay, and such other points as may be necessary on the Fox River, Wis., on duty connected with works under his charge (S. O. 149, Oct. 9, C. E.)

Capt. James C. Post, C. E., will proceed to Beattyville, Ky., on duty connected with works under his charge (S. O. 150, Oct. 11, C. E.)

Major Jared A. Smith, C. E., will proceed to Calais and the Big Rapids of the St. John's River, Me., on duty connected with works under his charge (S. O. 148, Oct. 8, C. E.)

Major L. Cooper Overman, C. E., will proceed to Ashtabula and Black River harbors, O., on duty connected with works under his charge (S. O. 148, Oct. 8, C. E.)

Lieut. Col. George H. Elliot, C. E., will proceed to Westport, Mass., on duty connected with works under his charge (S. O. 147, Oct. 7, C. E.)

Major Wm. H. Heure, C. E., will proceed to Bayou Manchac, La., on duty connected with works under his charge (S. O. 147, Oct. 7, C. E.)

Capt. Daniel W. Lockwood, C. E., will proceed to the harbor at Ludington, Mich., on duty connected with works under his charge (S. O. 147, Oct. 7, C. E.)

2d Lieut. C. E. Gillette, C. E., having completed duty at Fort Leavenworth, in connection with the Army Rifle competition, will return to his station (S. O. 112, Oct. 2, Dept. Mo.)

The journey of 1st Lieut. John Biddle, Chief Engineer Officer, from Fort Buford, D. T., to Fort Custer, M. T., under telegraphic instructions, is confirmed (S. O. 105 Oct. 5, D. Dakota).

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

The Q. M. Dept. will furnish transportation from Kansas City, Mo., to Fort Lyon, Colo., for 1st Sergt. Joseph N. Barrett, Co. F (S. O. 151, Oct. 6, Div. M.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

Lieut.-Col. Henry M. Lazelle, A. I. G., will make the annual inspection of Vancouver Barracks (S. O. 171, Sept. 27, D. Columbia.)

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

Lieut.-Col. E. P. Pearson will proceed to Fort Sill, I. T., and assume command of that post (S. O. 114, Oct. 7, Dept. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

1st Lieut. Harry Reade, having completed duty at Fort Leavenworth in connection with the Army Rifle Competition, will return to his station (S. O. 112, Oct. 2, Dept. M.)

The C. O. Fort Snelling, Minn., will forward, under charge of 2d Lieut. Charles C. Tear, recruits for the 20th Inf. to their destination (S. O. 104, Oct. 2, D. Dak.)

LIGHT ARTILLERY DETAILS.

The following transfers of captains are ordered, to take effect Nov. 1, 1886: 1st Art.—Capt. Tully McCrea, from Bat. C to Light Bat. E, vice Capt. Franck E. Taylor, from Light Bat. E to Bat. C. 3d Art.—Capt. John G. Turnbull, from Bat. D to Light Bat. C, vice Capt. Edward R. Warner, from Light Bat. C to Bat. D; Capt. James B. Burbank, from Bat. E to Light Bat. F, vice Capt. James M. Lancaster, from Light Bat. F to Bat. E. 5th Art.—Capt. David H. Kinzie, from Bat. E to Light Bat. D, vice Capt. Jacob B. Rawles, from Light Bat. D to Bat. E; Capt. John R. Brinckle, from Bat. L to Light Bat. F, vice Capt. Wallace F. Randolph, from Light Bat. F to Bat. L (S. O., Oct. 8, H. Q. A.)

Military Academy.

The resignation of Cadet Charles Albert Cooke, 4th Class, has been accepted by the Secretary of War, to take effect Oct. 23, 1886 (S. O., Oct. 9, H. Q. A.)

The resignations of the following named cadets of the 4th Class have been accepted by the Secretary of War, to take effect from the dates set opposite their respective names: Joseph A. Hart, Oct. 25, 1886; Robert L. Maddox, Oct. 30, 1886, and John H. Raine, Nov. 10, 1886 (S. O., Oct. 13, H. Q. A.)

Courts-martial.

The following courts have been ordered:

At Fort Abraham Lincoln, D. T., Oct. 11. Detail: Lieut.-Col. Edwin F. Townsend, 11th Inf.; Capt. Louis M. Maus, Med. Dept.; Capt. Theodore F. Forbes, 5th Inf.; Capt. Leon A. Matile and 2d Lieut. Robert L. Hirst, 11th Inf.; 2d Lieut. Richard C. Croxton, 5th Inf., and 1st Lieut. Francis W. Mansfield, 11th Inf., J.-A. (S. O. 105, Oct 5, D. Dak.)

At Fort Totten, D. T., Oct. 11. Detail: Capt. Henry J. Nowlan, 7th Cav.; Capt. Frank D. Baldwin, 5th Inf.; Capt. Augustus A. DeLoffre, Med. Dept.; Capt. Edmund Rice, 1st Lieuts. William H. C. Bowen and Hunter Liggett, 5th Inf.; 2d Lieuts. John C. Waterman, 7th Cav.; 2d Lieuts. James E. Wilson and William H. Sage, 5th Inf., and 1st Lieut. Albert J. Russell, 7th Cav., J.-A. (S. O. 105, Oct. 5, D. Dak.)

At Fort Bridger, Wyo., Oct. 11. Detail: Major John N Andrews, 21st Inf.; Capt. Henry S. Howe, 17th Inf.; Capt. William I. Reed, 7th Inf.; Capt. Thomas H. Bradley and 1st Lieut. Francis E. Eltonhead, 21st Inf.; 2d Lieut. William H. Camp, 17th Inf.; 2d Lieut. Charles G. Dwyer, 21st Inf., and Asst. Surg. Louis W. Crampton, J.-A. (S. O. 127, Oct. 4, D. Platte.)

At Fort Buford, D. T., Oct. 13. Detail: Major Daniel Madden, 7th Cav.; Capts. Henry H. Humphreys, Wilson T. Hartz, and David R. Burnham, and 1st Lieut. Dillard H. Clark, R. Q. M., 15th Inf.; 1st Lieut. John W. Wilkinson, 7th Cav.; 1st Lieut. James A. Maney and 2d Lieut. Blanton C. Welsh, 15th Inf.; 2d Lieut. Sedgwick Rice, 7th Cav., and 1st Lieut. George K. McGunnegle, Adjt., 15th Inf., J.-A. (S. O. 106, Oct. 8, D. Dak.)

Army Boards.

A Board of Survey, to consist of Capts. James M. Marshall and Henry J. Haynsworth, A. Q. M., and 1st Lieut. Hugh L. Scott, 7th Cav., will assemble at Philadelphia, Oct. 14, for the purpose of reporting upon obsolete property, for which Capt. John V. Furey, A. Q. M., is responsible (S. O., Oct. 11, H. Q. A.)

A Board of Officers, to consist of Major Samuel Ovenshine, Capt. Otis W. Pollock, and 1st Lieut. S. Allen Dyer, 23d Inf., will assemble at Fort Porter, Buffalo, N. Y., Oct. 18, to report upon the qualifications of Chauncey P. Rogers, late Col. 83d Penn. Vols., an applicant for appointment as superintendent of a National Cemetery (S. O. 159, Oct. 14, Div. A.)

The Board of Officers, C. E., consisting of Lieut.-Col. William P. Craighill, Majors Amos Stickney and Alexander Mackenzie, will reconvene at once at Cincinnati, O., to further consider the subject committed to its charge (S. O. 149, Oct. 9, C. E.)

A Board of Officers will meet at the Presidio of San Francisco, Cal., Oct. 4, or as soon thereafter as practicable, to consider the question of the assignment of the public quarters at the Presidio to the officers of the Division and Department Staff, and to the officers on duty at the post. Detail: Lieut. Col. Chauncey McKeever, A. A. G.; Lieut. Col. Alexander Piper, 1st Art.; Maj. George H. Weeks, Q. M. (S. O. 92, Oct. 2, D. Cal.)

Enlistment of Discharged Prisoners.—To prevent misunderstanding, hereafter, by recruiting officers in regard to the status of men discharged from the Leavenworth Military Prison, whose conduct while in confinement there has been such as to entitle them to favor, and to whom the commandant of the prison has, under authority from this office, given certificates permitting them to be again enlisted for any company whose commander may desire to have them; the permission for the enlistment of such men is not intended to authorize their enlistment at a recruiting station, unless with the consent of a company commander knowing all the facts and under special authority, in each case, from this office. (Letter A. G. O., Sept. 29, 1886.)

DEPARTMENT NEWS.

Dept. of Texas.—Brig. Gen. D. S. Stanley.

Rafael Pinale, a Mexican Army officer, who seven or eight years ago fired across the river at a deserter and killed him, the deserter being on the Texas side and Pinale on the Mexican shore, was arrested at Laredo, Oct. 7, and lodged in jail. It is said that Pinale will plead non-jurisdiction in the case, as he was in Mexico when the act was committed.

Dept. of Dakota.—Brig. Gen. T. H. Ruger,

The Blood Indians across the border seem to be giving trouble. A despatch of Oct. 12, from Helena says: The object is announced to be warfare upon the Gros Ventres, who have incurred their hatred by depredations upon stock and the occasional removal of a few scalps from heads across the line. These rumors are so well founded that the military authorities of both the U.S. and British America have taken steps toward quelling the tumult. Troop L, 1st Cavalry, Lieut. Backus; Troop H, Capt. Hunter, and two companies of infantry (Patterson's and Hartach's) have been ordered to Fort Belknap, where they are now encamped. The British Minister has called the attention of the authorities at Washington to the matter and suggested the adoption of measures calculated to prevent raiding across the line by hostile Blood and Piegan Indians.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

The C. O. Fort Huachuca, Ariz., was directed Sept. 8 to ship at once by express on bill of lading to Fort Marion, Fla., the personal baggage of Capt. H. W. Lawton and Lieut. A. L. Smith, 4th Cav.; 1st Lieut. T. J. Clay, 10th Inf., and Asst. Surg. M. W. Wood, U. S. A., and the best fatigue suits of the men of the detachment of B Troop, 4th Cav., whose names were sent to the C. O. Fort Huachuca.

Dept. of the Platte—Brig. Gen. George Crook.

Cos. B and G, 6th Inf., Maj. Bush, commanding, have returned to Fort Douglas from detached service, rebuilding road and bridges from Price's Station, Utah, to the new post, Fort Du Chesne. This will probably be the supply route, instead of Fort Bridger.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

OCTOBER 13, 1886.

THE first social event of the season, Mrs. Simpson's party last Wednesday evening in Schofield Hall, was a fine affair. Mrs. Simpson had as assistants in receiving her guests, her mother, Mrs. Lee, the Misses Buchanan, of New York; Mrs. Barrios and the latter's sister. Mrs. Barrios was resplendent with diamonds—a circlet around the hair, a gorgeous necklace, the side of the dress caught up with a beautiful arrow, crescent and star, and at the waist a large clasp.

The guests began to arrive about 9 o'clock and before 10 the roomy hall seemed completely filled. With a few exceptions all of the officers and ladies of the post were present, together with a number of young ladies visiting here and at Cranston's. Among the young ladies were the Misses Buchanan, Miss Smith, Miss Parkhurst, Miss Morgan of New York, Miss Wells, Miss Woodcock, Miss Macfeely, Miss Welsh, Miss Huntington, Misses Gill, Miss Mann, Miss Irwin, Miss Moss and several others whose names were not learned.

A delicious supper of raw oysters, oyster pattés, chicken salad, quail-on-toast, sandwiches, ice-cream and ices, cake, coffee and bon-bons was served about 11 o'clock. The party broke up about half past 12 and all went home after having spent a most delightful evening at what was probably the largest private party ever given in Schofield Hall. The guests, all told, numbered about 100.

The regular semi-annual meeting of the officers' mess was held on Monday evening. The report of the treasurer showed that the mess finances were in a very flattering condition. The receipts from all sources for the past six months were over $5,000, and the expenditures a little more than $4,000, leaving a net profit of nearly $1,000. Lieut. Kirby was re-elected treasurer, but positively declined to serve a second term. Lieut. David Price was then elected. This makes the fifth time that Lieut. Price has been chosen treasurer. He served four terms before Lieut. Kirby took the place. Captains Augur and Price were elected members of the Senior Council to succeed themselves.

Visitors to the Point the past week were: Colonel Lieber, Judge-Advocate; Lieut.-Col. G. Barker, Royal Engineers; Major George McLean, of the Old Guard of New York; Lieut. Irons, 20th Inf., and Lieut. John R. Williams, 3d Art.

Lieuts. Marsh and O. J. Brown left on Monday for St. Louis, where they have gone to attend the wedding of Lieut. J. R. Williams, which is to take place this week.

Lieut. Hodges, 22d Inf., has reported for duty and taken the sections in 4th Class mathematics that were assigned in September to Lieut. Lissak.

Wm. Morton Wood, of San Francisco, Cal., has been designated for examination for admission to the Military Academy.

The following Cadets of the Fourth Class have resigned: Jas. J. Hart, to take effect Oct. 25; Robt. L. Maddock, Oct. 30, and John H. Raine, Nov. 10.

WEST POINT OF THE OLDEN TIME.

THE correspondence which follows explains itself:

CRANSTON'S, WEST POINT. Oct. 4, 1886.

Gen. Wesley Merritt, U. S. A., Supt. U. S. M. Academy, West Point, N. Y.:

GENERAL: Having heard through Col. Irwin of the desire of the officers of the Military Academy to possess two old paintings owned by me, representing scenes of the early days of West Point, it affords me great pleasure to present them through you to the institution. I appreciate the fact that they should be there on account of their historical value, and at the same time it gives me the opportunity to manifest my esteem for the officers of the Army, many of whom are my personal friends. With sincere wishes for the continued prosperity of the Academy, believe me,

Very truly yours, H. CRANSTON.

OFFICE OF THE SUPT. U. S. MILITARY ACADEMY, WEST POINT, N. Y., Oct. 5, 1886.

Mr. H. Cranston, Cranston's, West Point, N. Y.:

MY DEAR SIR: I have the honor to acknowledge the receipt of the two paintings, and of your note of yesterday presenting them to the Academy. I cordially thank you for them in the name of the Academy. They will be deposited in the library and most carefully preserved. This generous gift will be appreciated by all West Point graduates. The pictures, as you suggest, have for us an historical value, representing as they do the site and buildings of the Academy at an epoch of which no other representations are known to exist.

Again thanking you in the name of the graduates of the Academy, and reciprocating for them and myself your expressions of esteem,

I am, very sincerely yours,
W. MERRITT, Colonel 5th Cavalry,
Bvt Major-Gen., U. S. A., Superintendent.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

OCTOBER 6, 1886.

"EVERYTHING quiet along the Rio Grande" at present, although newspaper sensations are not infrequent The genial Major Arthur, of the Pay Department, has arrived from your city and gone on duty. Everyone was glad to welcome him. His clerk, Mr. Otto Becker, will arrive in a few days. Geronimo and his brother Indians are still at the depot waiting for the orders of the powers that be. It is said they are *very anxious* as to their fate. If so they don't show it. Public curiosity has somewhat lessened with regard to them, but still they find many to look at them and not a few to admire them. Troops C and H, 8th Cavalry, for nearly a year and a half past on duty in the field, are expected next Saturday. We will then have a respectable garrison: 1 Light Battery, two troops of Cavalry, and 3 companies of Infantry. Col. Otis, 8th Cavalry, is expected back from sick leave in a few days. Lieut. D. J. Rumbough, 3d Art., Gen. Stanley's son-in-law, has, as you are doubtless aware, succeeded Lieut. Slocum as aide to the General. The latter goes North on four months leave as soon as Lieut. O. M. Smith, A. D. C., returns from the North.

Inspector-General Heyl and bride are expected back in a few weeks. They will be cordially welcomed by the military circle here and by other friends in San Antonio.

The damage done by the cyclone in August has nearly been made good, except that hundreds of our fine China trees will have to be replaced early next spring. Our light battery commander here, Capt. J. M. Lancaster, 3d Artillery, expects soon to be relieved and go to Washington Barracks. It is surmised that Capt. J. B. Burbank, 3d Art., will succeed to the command of the Light Battery. EQUES.

(Correspondence of the Army and Navy Journal.)

FORT ELLIOTT, TEXAS.

OCTOBER 8.

AN interesting game of ball was played here to-day (for $50 a side) between a nine of Co. B, 24th Inf., and a nine of Troop K, 3d Cav. The match was an exciting one and resulted in a tie (10 to 10.) The game was well played throughout. Major C. H. Carlton, 3d Cav., arrived a few days ago and has taken over the command of the post. Although sick lately he is looking well. He was received with due honors and much cordiality by the officers of the post. O.

COURT-MARTIAL CASES.

In the case of Corpl. Geo. Kammitter, Troop I, 1st Cav., recently tried at Fort Leavenworth for leaving his guard, allowing a member of the guard to leave it, etc., the reviewing authority, Brig.-Gen. Potter, says: "The findings show that Corpl. Kammitter, a non-commissioned officer in charge of a stable guard, committed the offence of leaving his guard for over an hour, and of allowing and encouraging a private of his guard to commit the same offence. The latter is now serving a severe sentence for a lesser degree of the same offence as the one found in this case. While each court is a judge of the severity of the sentence to be given in the case before it, such an inconsistency as this cannot but be prejudicial to the interests of discipline. This case was returned to the court to give it an opportunity to adjudge a sentence adequate to the offence, which it declined to do. In order that the offender may not escape entirely the punishment he merits for his flagrant violation of duty, the sentence (reduction and forfeiture of $20) is confirmed and will be duly executed." (G. C.-M. O. 37, Dept. Mo., 1886.)

In the case of a soldier tried at Fort Monroe for desertion, etc., Major-Gen. Schofield calls attention to certain irregularities as follows:

1. In refusing to summon, as *not material*, certain witnesses asked for by the prisoner, the court erred in the statement of its reasons. The testimony expected from them was highly material to the defence, as tending to show a permanent, and never abandoned, intention to return on the prisoner's part. The judge advocate might well have admitted that the witnesses would testify as represented. The refusal to summon was justifiable, if the court was, at the time, already convinced, beyond the need of additional evidence, in favor of the prisoner; not on the ground of *immateriality*. The acquittal of the prisoner under the charge, however, renders the error harmless.

2. Again, the record states that the prisoner testified in his own behalf, "guided at his own request by occasional questions from the judge advocate." These questions are in no instance, though all should have been, embodied in the record.

On a subsequent page it is recorded that during a discussion in closed session "the judge advocate, at the request of the court, stepped out of court and asked the prisoner whether he desired to produce certain clothing before the court. He replied, 'yes, sir,' which reply was reported to the court by the judge advocate." The irregularity of this proceeding cannot escape attention. The prisoner should, it is very clear, have been called in and interrogated by the court, or in its presence, as he was immediately afterwards upon another point. The testimony of the judge advocate of what he said to the prisoner and the latter's reply was given not under oath, and was therefore clearly inadmissible. It is fortunate, in the interest of justice, that the error indicated was not committed in a matter material to the issue (G. C. M. O. 41, Div. Atl., 1886).

LIST OF OFFICERS ON GENERAL RECRUITING SERVICE.

HEADQUARTERS:

Army Building, Houston Street, Corner of Greene, New York City.
Lieut.-Colonel A. L. Hough, 16th Infantry, Superintendent.
1st Lieut. R. H. Patterson, 1st Art., A. A. A. General.

Mizner, 8th Cav.; 2d Lt. F. M. M. Beall, Sig. Corps; 1st Lt. R. G. Carter, retired; Capt. D. A. Irwin, retired; 1st Lt. Frank A. Edwards, 1st Cav.; 1st Lt. W. O. Cory, 15th Inf.; Brig. Gen. J. C. Duane, Chief of Eng.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

SWATARA, 3d rate, 8 guns. At Portsmouth, N. H. Put out of commission Oct. 14, 1886.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At Newport, R. I. To be at New York the latter part of October, to participate in the ceremonies attending the unveiling of the Bartholdi Statue.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. At Portsmouth, N. H., undergoing repairs.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. At the New York Navy-yard. Ordered to join the South Atlantic Station. Expected to sail daily.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. At Rio de Janeiro Oct. 6, 1886. Before returning to the coast of South America last August, the *Lancaster*, since Dec. 17, 1885, visited the following ports, starting from Montivedeo: Cape Town, Port Elizabeth, Mozambique and Zanzibar, in Africa; St. Augustine Bay, Tullear Bay, St. Mary's and Tamatave, in Madagascar; Johanna, in the Comoro Islands; Hellville, in Island of Nossi Be, and the Island of St. Helena. The itinerancy of the cruise embraced the same ports as those made by the United States flagship *Brooklyn* in 1883-4.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro Aug. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. At Genoa, Italy.

A correspondent writing from Leghorn, Italy, under date of Sept. 29, 1886, gives the following information regarding the *Pensacola's* cruise. The vessel left Phalerum bay, Athens, July 21, for Leghorn, stopping at the Port of Zante en route. On July 27 the *Pensaccla* arrived at Leghorn, where a couple of months of needed and enjoyable rest were spent. The vessel was to sail for Genoa Sept 30.

KEARSARGE, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. At Gibraltar Oct 5, 1886, per cable despatch. Has been ordered to return to the U. S., and is expected to arrive the latter part of October.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Sailed from Leghorn for Genoa, Italy, Sept. 26, to undergo repairs, on completion of which she will proceed East for the winter.

Pacific Station—Rear-Adm. E. Y. McCauley.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Was at Iquique, July 31.

HARTFORD, 2d rate, 16 guns (f. s. p. s.), Capt. J. H. Gillis. Was at Callao July 31. Will shortly be ordered to San Francisco, Cal. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Sailed from New York, Aug. 16, for Pacific Station.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Was at Payta, Peru, Sept. 13.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr George B. Livingston in command. Used as a store ship at Coquimbo, Chili. Comdr. S. H. Baker was ordered to command, per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Advices from Auckland, N. Z., of Aug. 16, say that the *Mohican* arrived from Fiji on Aug. 16, and would remain three weeks.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. At Sitka, Alaska. Address care of Navy Pay Agent, San Francisco, Cal. Lieut. Comdr. J. S. Newell has been ordered to command.

SHENANDOAH, 2d rate, 9 guns. At San Francisco, Cal. Put out of commission Oct. 14, 1886.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station.

Asiatic Station—Rear-Admiral J. L. Davis.

Rear Admiral Ralph Chandler has been ordered to command this station, and will leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail. Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Port Said, Sept. 28, 1886, as reported by cable. Her previous movements were as follows: Arrived at Gibraltar, Spain, Sept. 10, 1886, from Lisbon. At Gibraltar the *Quinnebaug* was at anchor, and considerable freight was transferred to her, and the following named officers were ordered to duty on the European station, viz., Ensign W. Truxton, Naval Cadets F. N. Kress, P. Andrews, W. H. Caldwell and H. E. Rumsey. The *Brooklyn* sailed for Port Said, Sept. 15.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Reported by cable to have arrived at Malta, Oct. 15, 1886.

MARION, † 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. Anchored off Chemulpo Sept. 3. Would return to Chefoo Sept. 6.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. At Hong Kong, China, for repairs.

OMAHA, † 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding.

A correspondent of the JOURNAL writing from Hakodadi, Japan, Sept. 11, 1886, says: The cholera is now epidemic in almost every seaport of Japan and Corea. The deaths here are from five to twenty a day; Yokohama about the same. Tokio and Nagasaki almost a hundred a day. It is milder at Koli, but Kioto and Ioka is and has been for a year very severely smitten. Thus it can be seen that the station is in no way a pleasant one now. We sail for Chemulpo, Corea, in a few days.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Arrived at Chemulpo, Corea, Aug. 24, from Chefoo. Has been ordered to return to New York by the middle of February, 1887.

PALOS, † 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Canton, China, Sept. 3.

Apprentice Training Squadron.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor. Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. Arrived at Newport, R. I., Oct. 14.

SARATOGA, 3d rate, 12 guns, Comdr. C. H. Davis. Sailed from Madeira for Newport, R. I. Sept. 11. Expected to arrive about Oct. 10.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr At New York.

DOLPHIN, despatch boat. Lieut. Chas. O. Alliboue in command. At Norfolk, Va., undergoing repairs. Has been ordered to proceed to New York to take part in the Bartholdi celebration.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. At Norfolk, Va., for repairs. Has been ordered to proceed to New York to take part in the Bartholdi celebration.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. Arrived at Erie, Pa., Oct. 2.

RANGER, 3d rate, 4 guns, Comdr. Chas. E. Clark. At San Francisco. Comdr. F. A. Cook has been ordered to command.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

VARIOUS NAVAL ITEMS.

THE *Shenandoah* and *Swatara* were put out of commission Thursday, Oct. 14, 1886, the former at San Francisco and the latter at Portsmouth, N. H.

AN African line of steamers to ply between Baltimore and the Congo has been incorporated at Washington, with a proposed capital of $10,000,000. Mr. Henry Cox is the president.

THE coral reefs surrounding the islands of Cagegores, S. W. of Paraz, have been examined, and their positions fixed, an important matter, as they are in the track of vessels from Australia to Hong Kong.

A COMMITTEE has been ordered to assemble at Portsmouth, Eng., to consider the whole subject of voice, mechanical, and electrical communication between the decks and engine rooms of men-of-war.

THE Navy Department has completed the payment of all the Graham mileage claims provided for by the last Congress. There are still a few isolated cases to be reported to Congress by the Treasury Department.

SAMODA BROS., of London, last March, wrote to the Navy Department, offering to build an ironclad vessel on the general plan of the *Riachuelo*, with 12 inches of armor, and a guaranted speed of 18 knots an hour.

SPAIN, to judge by a bill recently submitted to the Cortes by the Minister of Marine, is once more becoming alive to a sense of her possibilities as a naval power. The bill proposes to spend $37,500,000 on new vessels, and increase the personnel 2,100.

THE *Alert* returned to Halifax Oct. 10 after an absence of nearly four months. This was her final trip to the Hudson's Bay region, all the observing stations being dismantled, and the observers, their instruments, and other property brought back to Halifax.

COMDR. W. S. SCHLEY, Chief of the Bureau of Equipment and Recruiting, has just issued a valuable little pamphlet, containing the laws and regulations at present in force governing enlistments, discharges, etc., in the naval service. Commander Train was the compiler.

PROFESSIONAL divers have been at work two weeks exploring the remains of the *Royal Savage*, a vessel sunk off Valcour Island, in Lake Champlain. Tradition says that the vessel was Arnold's flagship, containing treasure, and was burned to the water's edge and sunk to prevent capture. The divers are reticent about what they find.

COL. W. H. GILDER, in a letter dated "On Board Steamer *Princess*, Saskatchewan River, Sept. 16," says: "Next year I hope to have some stores sent by a Scotch whaler from St. Johns, N. F., to be landed at Cape Isabella or Sabine, where I will find them, and will make my winter station there next year. You will no doubt be glad to learn that I am at last under way, but still, while dependent upon others, as I still am, I cannot move as rapidly as I would like; and yet, I presume I am going much faster than I will later, when dependent upon dogs and sledges."

THE boy sailors on the schoolship *St. Mary's* had a good time Oct. 13—the 12th annual exhibition of the Nautical School patronized by New York's merchants. Since the school was formed, in 1874, its classes have included 1,200 lads, of whom over 400 graduated after pursuing the entire course, and more than 275 are now following the sea as a regular occupation, many of the number holding important official places. When the school was first started the shipmasters were very much opposed to it, prophesying the graduation of a sort of "dude and pharisee" lot of sailors, but experience has shown the merits of the training that the school gives, and now St. Mary's graduates are continually sought for.

MAIL matter for vessels on the Asiatic Station *should not* be sent "in care of the U. S. Consul," as he has nothing to do with the mails for the vessels of war on that station, such mail being made up by the General Post-office at Yokohama for distribution to the different ships stationed in Japan, Corea, and China.

THE U. S. S. *Atlanta* is still at New York undergoing alterations in her machinery which were considered necessary after her recent trial. Certain changes in the valve motions have just been recommended by the Advisory Board and approved by the Navy Department. It is the intention to have her undergo the proposed sea trial as soon as her machinery is reported ready.

THE flagship *Tennessee* will leave Newport, R. I., on or about October 20 for New York to participate in the river parade at the unveiling of the Bartholdi statue. Admiral Luce will be in command of the river flotilla. Should the training ships *Saratoga* and *Portsmouth* arrive here from their cruise in season, they will also be ordered to New York to participate in the exercises. The *Dolphin* and *Jamestown* have also been ordered to New York to take part in the ceremonies.

SECRETARY WHITNEY in response to the appeals of the Knights of Labor and other organizations and from individuals, asking his interference to secure the reinstatement of discharged employees of the Washington Navy-yard, authorizes the reply to all such appeals that he will not himself, and will not permit other officials of the Navy Department, to interfere or exercise any influence in this matter. The responsibility for the removals, retentions and appointments of the Navy-yard must be left entirely to the officers of the yard who are directly responsible for the work. The foremen of the bureaus which are continued must be uninterfered with in their action in this matter, and will be held accountable for removals and appointments.

THE latest example of an electric boat prior to the *Volta*, whose performance as recently reported, is afforded by a steel launch built by Messrs. Yarrow and Co., during the present year for the torpedo service in the Italian Navy, is 36 feet long by 6 feet 4 inches beam, propelled by a screw driven by a duplex Reckenzaun motor. She made on the measured mile 8.43 mile per hour, and is now in regular service at Spezzia. The *Volta* is steel built, measures 37 feet long by 6 feet 10 inches beam, and is fitted with a battery of 61 cells, and a duplex Reckenzaun electric motor—that is, two motors carried on one driving shaft. By means of this motor the speed can be varied without affecting the accumulators, three speeds being obtained from it, namely, slow, medium, and fast.

THE annual inspection of the Navy-yard at League Island has just been concluded by a board composed of Capt. Richard W. Meade, Naval Constructor W. L. Mintonye, Pay Director Edw. May, and P. A. Paymr. J. N. Speel. A careful examination was made of the unfinished monitor *Puritan*, and it was found that a great deal of work would have to be done on its interior. They will recommend that work be resumed on this monitor as speedily as possible. Capt. Meade was of opinion that the Navy-yard could be used as a station for the manufacture of anchors and chain cables for the Government which would furnish employment for several hundred men. The report will be presented to the Secretary of the Navy.

THE New York *Herald* says:

Secretary Whitney is expected back next Monday, though it is not certain he will be here before the latter part of the week. Of the necessity for the thorough reorganization of the Navy Department he will have additional evidence upon his return. A month ago orders were issued to have several of the vessels of the North Atlantic squadron in seagoing order by the 1st of December. The conflicting orders of three or four chiefs of bureau are likely to prevent the Secretary's order being carried out. The commandant at Portsmouth has written to the department reciting the several orders he has recently received, and showing how impossible it is under such a condition of divided authority to know what he ought to do. When the *Thetis*, *Bear* and *Alert* were to be got ready to go in search of the Greely party, Secretary Chandler, admonished by his own experience, made up his mind that the vessels sail on the day fixed for their departure. Such a thing had never before happened within the memory of the oldest officer. He addressed a letter to each chief requiring a detailed report of what was necessary and how long it would take to do their part. He then fixed the day upon which each vessel should leave port and told the chiefs of the bureau that the order must be carried out. Never before had a Secretary of the Navy assumed to be the actual head of the Department. The order was methodically and satisfactorily obeyed. The vessels sailed almost to the minute determined upon weeks before, and the result was the rescue of Greely and the few surviving men. A delay of 24 hours would have found them dead.

NAVY GAZETTE.

Ordered.

OCT. 12.—Lieutenant Commanders Eugene B. Thomas, Isaac Hazlett, and Wm. Welch, ordered to appear before the Retiring Board.

Lieutenant (junior grade) Henry Morrell, to examination for promotion.

OCT. 13.—Cadet Engineer R. B. Higgins, to the Atlanta.

OCT. 15.—Lieutenant Willie Swift, to Ordnance duty at Washington Navy-yard.

Boatswain John H. Brown, to the Galena.

Gunner Thos. Flatbush, to the Vermont.

Gunner Geo. L. Albro, to the New Hampshire.

Gunner Jos. Swift, to the Naval Magazine, Mare Island, Cal.

Detached.

OCT. 9.—Lieutenant Commander Edwin Longnecker, Lieutenants Perry Garst and Edward M. Hughes, Surgeon Theoron Woolverton, Chief Engineer A. H. Able, and Assistant Engineer G. E. Burd, from the Shenandoah and placed on waiting orders.

Paymaster Geo. W. Beaman, from the Shenandoah and ordered to settle accounts and wait orders.

Ensign A. N. Wood, from the Yantic and ordered to the Naval Hospital, Chelsea, Mass., for treatment.

Naval Cadet E. W. Eberle, from the Shenandoah and ordered to the Ranger.

OCT. 11.—Commander Yates Stirling has reported his return home, having been detached from the Iroquois, 20th ult., and placed on waiting orders.

Surgeon W. J. Simon, from temporary duty at the Naval Academy and placed on waiting orders.

OCT. 12.—Lieutenant John F. Meigs, from the Bureau of Navigation and ordered to the Tennessee.

Ensign John S. Watters, from the Coast Survey, and resignation accepted to take effect June 30, 1887.

Passed Assistant Engineer A. C. Engard, from the Shenandoah and ordered to the Ranger.

Assistant Surgeon V. C. B. Means, from the Shenandoah and ordered to the Independence.

Assistant Engineer Benj. C. Bryan, from the Shenandoah and ordered to the Navy-yard, Mare Island.

Assistant Engineer Emil Theiss, from the Ranger and ordered to the Navy-yard, Mare Island.

OCT. 13.—Ensign Franklin Swift, from the Swatara and ordered to duty on the Coast Survey.

OCT. 15.—Commander E. T. Woodward, from the Swatara and placed on waiting orders.

Lieutenant-Commander O. W. Farenholt, from the Swatara and ordered to the Wabash.

Lieutenant-Commander Wm. A. Morgan, from the Wabash and placed on waiting orders.

Lieutenant F. S. Carter, from the Arago and ordered to the Jamestown.

Lieutenant Chas. C. Rogers, from the Swatara and ordered to the Yantic.

Lieutenants Wm. P. Elliott and R. H. McLean, Ensigns Baine C. Dent and Wm. S. Sims, Surg. J. B. Parker, Asst. Surgeon Joseph Shafer, Chief Engr Cipriano Andrade, P. A. Engineer Arthur Price, Assistant Engineer Thos. W. Kinkaid, Cadet Engr. F. B. Dowst, and Carpenter M. T. Quigley, from the Swatara and placed on waiting orders.

Lieutenant W. O. Sharrer, Ensign John J. Blandin, Naval Cadet B. M. Lombard, and Gunner Robert Sommers, from the Swatara and ordered to the Galena.

Paymaster Thos. S. Thompson, from the Swatara and ordered to settle accounts and wait orders.

Boatswain Wm. L. Hill, from the Swatara and granted six months' leave.

OCT. 15.—Lieutenant Harry Knox, from the Naval Academy and ordered to hold himself in readiness for sea service.

Gunner Wm. Halford, from Navy-yard, Mare Island, and placed on waiting orders.

Leave.

Granted to Commander Chas. J. Barclay for six months.

To Lieutenant John C. Irvine for three months,

To Lieutenant Martin E. Hall for one year.

Resigned.

Cadet Engineer Thos. J. Hogan.

MARINE CORPS.

OCT. 9.—1st Lieutenant Thos. N. Wood, detached from the Marine Barracks, Mare Island, Cal., when the U. S. S. Shenandoah's guard has been transferred to that post, and ordered to proceed by rail to Washington, D. C., and report in person to the commandant, U. S. M. C., for assignment to duty.

1st Lieutenant Samuel Mercer, granted leave of absence for one month from the 15th inst.

OCT. 12.—2d Lieutenant Lincoln Karmany, leave of absence dated 6th ult. extended one month from the 18th inst.

OCT. 14.—1st Lieutenant C. P. Porter, granted leave of absence for one month from the 15th inst.

FROM THE EUROPEAN STATION.

REAR-ADMIRAL S. R. FRANKLIN reports to the Navy Department the following movements of vessels of the European squadron, under date of Leghorn, Sept. 27:

The *Kearsarge* was at Leghorn, and after having made the necessary repairs and preparations for the homeward bound passage, would sail for Portsmouth, N. H., about Sept. 30. She was directed to communicate with the U. S. Consul at Tangier, as she passes through the Straits of Gibraltar. Four cadets of the senior class were retained for duty on the station.

Upon the arrival of the *Quinnebaug* at Leghorn, the officers and stores brought out for the squadron were turned over to it. She sailed for Genoa on Sept. 26, and after having undergone certain necessary repairs, her commanding officer thought she would last as a cruiser two years longer. Admiral Franklin states that from his experience with worn out ships he would be inclined to say one year would be the limit of her usefulness, and that after that period she will require additional repairs.

The *Pensacola* would sail about Sept. 30 from Leghorn for Genoa, where she would await provisions and stores from the United States.

As soon as the repairs to the *Quinnebaug* are completed she will be sent to the East for the winter. The health of the squadron was good.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Oct. 12, 1886.

EVERY one knows that Annapolis is always one whirl of excitement, and that the crowds of society people who gather there are actuated purely by a desire for enjoyment; but their previous exploits in search of pleasure were belittled by the wild excitement, the hilarious vibrations of intense glee with which the old walls of the Naval Academy resounded on Saturday last. The cause of all these paroxysms was foretold early in the week by a liberal distribution of handbills throughout the *whole* of Annapolis, notifying the public that on the aforesaid date, at 2 P. M., the officers' base ball club would play the cadets, and that there would be no fees or bribes taken by the officers, who played simply for fun.

One hour and a half after the appointed time, the officers' nine appeared on the field, in column of sixes, headed by their captain, Lieut. Fullam. The vast concourse rose *en masse*, and cheer after cheer "made the welkin resound," while hats, canes and umbrellas were thrown wildly about. The base ball club smiled, although, as Ensign Morgan hinted, it wasn't quite in accordance with Upton's Tactics to smile while in column of sixes. However, Ensign Haeseler said he really didn't see anything so very wrong in smiling at such virtuous glee, and so, at Mr. Schell's suggestion, they all smiled again.

Mr. Fullam then explained the delay by stating that the club had just been at luncheon, and that Dr. Biddle, who is the passed assistant medicine man of the club, had strictly enjoined upon each individual player to masticate his food with the utmost deliberation. "The exigencies of the case," said he, "demand that the muscular membraneous reservoir below the diaphragm, should be subservient to the desires of the players."

The case was referred to Commander Huntington, who, after careful deliberation, declared the excuse satisfactory, and the game proceeded amid the continued bursts of applause from the spectators. Some trouble was experienced in getting an umpire. Ensign Gibbons was asked, but he wouldn't. He said something about it's not being safe, which remark Dixey would probably have called "a walnut." Cadet Anderson's services were secured, however, upon the assurance of the entire nine that no harm should come to him.

The end of the first inning found the score slightly in favor of the cadets, which considerably surprised some of the ladies in the grand stand, who had expected to see the cadets "awfully beaten." Ensigns Knapp and Capehart were instantly detailed by Lieut. Fullam, to assure the ladies that the pitcher, Ensign Blish, had not yet regained his old form, but that they would soon see a wonderful improvement.

The band now left off playing the Dead March in Saul and struck up "Mother, May I Go Out to Swim?" These inspiriting strains seemed to fill all hands with new life, and at the end of the seventh inning, after the game had gone on for four hours and a half, the score stood 22 to 23 in favor of the cadets.

Mr. Blish was steadily improving; his very complex curves being correspondingly puzzling. When he didn't hit the batter, he hit the umpire, and when he didn't hit either he threw the ball out of sight behind the buildings. His delivery was, therefore, puzzling in the extreme.

At the above-mentioned time, however, the officers determined to pull up their score. Prof. Sanger, of the chemistry department, knocked a two-bagger. He and the ball reached second base together, whereupon the umpire yelled "Out!"

"No, you don't," said the Professor, "I'm not out!" Then a long discussion followed. Messrs. Morgan and Blish couldn't see how the Professor was "out," when the umpire didn't have his foot on second base.

The Professor stoutly maintained that he "would have stayed on first base had he known that he was to be put out at second." But the umpire was incorrigible, and as it was rapidly getting dark, he called the game.

The committee immediately informed the ladies that the officers would have beaten the cadets had the game been continued. Three cheers were then given for the officers by the cadets, and the enormous crowd withdrew. The names of the players, with the official score, is appended:

Officers—Capehart, catcher; Blish, pitcher; Fullam, 1st base; Sanger, 2d base; Schell, 3d base; Haeseler, short stop; Biddle, left; Knapp, centre; Morgan, right.

Cadets—Bryan, catcher; Churchill, pitcher; Snow, 1st base; Allen, 2d base; Wells, 3d base; Burrage, short stop; Stone, right; Stearns, left; Bertolette, centre.

	1	2	3	4	5	6	7	Tot.
Officers	0	2	0	7	5	0	8	—22
Cadets	2	4	0	8	0	6	3	—23

The thanks of the players are due to Asst. Engr. Gow and Lawyer Briscoe for their admirable suggestions during the game, and for their invaluable assistance in revising the proof sheets of the score card.

Owing to the prevalence of diptheria in Annapolis, the customary Saturday liberty was not granted cadets.

Ensign Charles N. Atwater was ordered to the Naval Academy on Friday, to report on the 20th inst.

The steamer *Phlox* makes her usual trips to Baltimore and return on Thursdays, carrying quite a large crowd of Naval Academy people and Annapolitans.

The monitor *Passaic* steamed out into the bay last Saturday, and the cadets of the First Class were exercised at target practice with her 15-inch guns.

Numerous candidates for foot ball honors are in training, and it is thought that a strong team will be chosen to uphold the reputation of the Academy in the Thanksgiving contests.

A serious accident occurred at the Naval Academy on Tuesday last, while a salute was being fired from the saluting battery, in honor of the visit of Surgeon-General Francis M. Gunnell. The breech block in one of the brass 20-pounders used in the battery, flew out and badly shattered the arm of Henry Lynde, a gunner's mate attached to the *Santee*. He was removed to the hospital, where his arm was amputated above the elbow by Surgeon Walton. His death followed on the same evening. He was much respected, and there was a large attendance at his funeral on Thursday. He was buried in the Government Cemetery.

The Class of '87, Naval Cadets, has elected A. T. Long, of North Carolina, Class President, and B. W. Stearns, of Iowa, Secretary, and has appointed the following Hop Committee: President—L. C. Bertolette, of Delaware; S. R. Hurlburt, Connecticut; F. Boughter, Pennsylvania; A. H. Davis, North Carolina; C. M. Stone, Indiana; B. W. Wells, Jr., Illinois; C. Churchill, Missouri; A. T. Long, North Carolina; G. H. Berrage, Massachusetts; E. Moale, Jr., Maryland. The dates of the hops have not been selected.

THE MARINE CORPS.

THE Washington *Sunday Gazette* gives an interesting history of the Marine Corps from 1775, when first organized, until the present time. Referring to the war service of the Corps, the account says:

A brilliant page in the brilliant record of the Marine Corps is devoted to Tripoli. In the contests of the United States with that nation of Corsairs, when the flag of the Western Republic was seen almost for the first time in the waters west of the Straits of Gibraltar, the marines vied with the sailors as to who should crown that flag with the greatest glory. In all those contests the marines were foremost at every point where bravery and discipline could win success or crown seeming failure with the elements of real triumph. On Aug. 3, 1804, the conspicuous bravery of the marines in the memorable attack on the Tripolitan gunboats was noted for its irresistible dash and courage. It was in 1805, however, that the Marine Corps outdid itself. In that famous march across the Libyan desert, from Alexandria to Derne, under the command of General Eaton, a march memorable from the fact that the Americans first took a hand in Old World affairs and took it so sternly that it isn't forgotten there yet, a little handful of marines accompanied the expedition. They made the march of 600 miles across the desert in 54 days, stormed the Bashaw's capital, and hoisted upon the citadel of the enemy in the heart of a large city the Stars and Stripes of the great Republic. The first time the American flag ever floated above an old world fortress. The gallant deeds of this handful of marines attracted universal attention.

In the official report of the battle between the Tripolitans and the Marine Corps occurs the following paragraph:

"In the remarkable march of General Eaton from Alexandria to Derne, nearly 600 miles through Northern Africa, where a small detachment of marines under the brave Lieutenant O'Bannon, mounted on the camels and asses in the caravan, leavened the lump of Arabs and Greeks in the service of the United States, and in the attack on Derne stormed the principal work, took possession of the battery, planted the American flag *for the first time on a fortress in the Old World*, and turned its guns upon the enemy."

"Thereafter, 'Tripoli' was engrossed on the banners of the Marine Corps."

The services of the Corps in the War of 1812, the Mexican and the Civil Wars are also recounted, and much other interesting matter.

THE many friends of Pay Inspector James Hoy, U. S. N., will learn with regret that he has determined to take his family to Europe for a term of years. They have made many close friendships while the paymaster has been on duty at the Washington Navy-yard, and while the desire to see the world and enable the younger members of the family to acquire that part of an education only to be secured across the Atlantic is most commendable, the vacancy caused by a prolonged stay away from the U. S. will be a considerable one.

BLACK STARR & FROST

Prompt attention given to mail orders.

IMPORTANT TO THE ARMY AND NAVY AND FAMILIES.
THE CHOICEST QUALITY OF
Wines, Liquors, Mineral Waters & Segars,
AT WHOLESALE RATES, furnished in packages without marks indicating contents. Send for particulars to
REUBEN MAY,
71 BROAD ST., NEW YORK.

Staten Island Fancy Dyeing Establishment.
BARRETT, NEPHEWS & CO.,
5 AND 7 JOHN ST., NEW YORK,
DYE, CLEAN AND REFINISH DRESS GOODS and Garments without ripping. Send for Circular and Price List.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, OCTOBER 16, 1886.

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

W. C. and F. P. CHURCH, Publishers,

RODMAN'S SYSTEM FOR STEEL GUNS.

"POWERFUL ordnance *cannot* be manufactured advantageously from malleable iron" (*i. e.* wrought iron.)

"The authorities of the Ordnance Department arrived at the conclusion that large masses of iron from long continued heating, have a tendency to crystallize and lose the properties peculiar to wrought iron. Acting on this hypothesis they put a stop to what were called 'Nasmyth's Experiments' at Patricroft, pronouncing the manufacture of a wrought iron gun of large size impossible."

"This failure (of one of Krupp's first steel tubes) seems conclusive as to the inefficiency of steel as a substitute for iron."

—

It is the fashion with essay writers to illuminate their subject by placing a little gem of quotation, usually from poetry, at the head of their articles, and Sir WALTER SCOTT is said to have written many of his extracts from the old masters out of hand, thereby saving a hunt through the books. We have followed the essayists in culling a few mottoes suited to a reopening of the subject of casting guns in steel, but not having the genius of Sir WALTER we have been obliged to make true quotations and from real masters. The gentlemen who have advanced the opinions we quote were among the foremost in experience and ability. Their fault was that they trusted too much to the ever-shifting ground of empirical experience and did not seek to build their opinions on the unchanging laws of physics. As a result they condemned unreservedly the only materials which are now in actual use for making first class guns.

There are a few men whose judgment on such matters we have never seen combated by rivals or humiliated by the disasters of experience, and those are the men who gave to their country the ordnance which has accomplished the most renowned performances in the history of sieges, and has been superseded only because their successors have timidly doubted the applicability of their methods to a material unknown in their day for such purposes. We refer to RODMAN, WADE, and the other earnest workers, who by the introduction of hollow, centre-cooled castings raised the performance of cast iron guns so high that the best work of their steel rivals hardly surpasses it. The only one of that intelligent band who remains is Mr. WILLIAM METCALF, whose letter advocating the use of this method of casting for steel ordnance we published April 10 last.

The reason why the opinions of these men have never been overthrown is that they are based on laws of nature and not on doubtful and changing results of practice. The law of contraction as they discussed it is always true; it is one of the constants of nature, and the mode of satisfying that law which they introduced seems to be merely the setting in action of another law of equal value.

In discussing BARLOW'S law that the strain produced on any material by the action of a central force diminishes as the square of the distance from the centre, RODMAN showed that in a gun one calibre thick, cast solid, the strength was only two-thirds of half the thickness, while in a gun cast hollow and so cooled that the outer parts shrink on the inner the whole thickness of the gun's wall is brought into resistance at once, and the strength of the piece is three times the strength of the solid casting. These theoretical calculations are completely confirmed by the results of practice, and, what is unusual, they are more than confirmed. The endurance of hollow cast guns is more than three times that of solid cast.

It is somewhat remarkable that the whole system of making built up-guns, whether in iron or in steel, is merely an effort to obtain by mechanical means that very state of graded compression toward the centre which RODMAN and WADE declared to be necessary, and which they obtained by submitting to and taking advantage of one of the constant laws of nature. KRUPP'S guns are made entirely of cast steel tubes, the thickness of which is kept within such bounds that the hammers he happens to own can exert their force through the entire thickness of a part when hammered separately and consolidate the steel through its whole thickness. The size of these parts is calculated from the known expansion of the metal so that when one is heated and slipped over another the inner one will be compressed by the contraction of the outer. A third tube compresses both of these and, perhaps, a fourth tube is put on to squeeze the others, always with a tension that is calculated to satisfy BARLOW'S law. This is simply an effort to imitate by imperfect mechanical means the operation of the perfect law which RODMAN strove to put in harness. We know he succeeded marvellously with iron and the only question is whether he would succeed as well with steel.

RODMAN'S own declaration on this subject is important. He considered the relative performance of "low" metals, like pig iron, containing a large amount of carbon, and "high" or soft metals, like steel and wrought iron, and said that the higher the metal the greater its contraction in cooling and the weaker will be the solid cast and the stronger the hollow cast gun made from it. The more rapidly the gun is cooled the weaker will be the solid cast; also the greater the diameter the greater the strain, and, therefore, the weaker will be any piece that is made in defiance of this law. Conversely all these conditions increase the strength of hollow cast pieces Experience has proved these *dicta* to be true. The attempts made years ago to melt wrought iron and cast it in intricate shapes like crank shafts, failed. It made worse shafts than cast iron, for the strong contraction left large shrinkage cracks in the centre. Steel shafting, cast hollow, has proved to be a success.

It is evident that RODMAN believed that his system of casting was suited not only to cast iron, but to every other metal or alloy known or unknown. Its efficiency does not depend upon the substance, but upon the fact that it is a mode of operation which allows the natural law to work for the gun instead of against it. It seems to be apparent, also, that while he could not calculate the exact force of contraction upon the centre in a hollow casting, he believed that it was such as to fully and exactly counteract BARLOW'S law. He says the thing to be sought for in making a gun is a mode of construction which will bring the whole thickness of the metal into simultaneous and equal resistance to the

central pressure, and there is no doubt that he believed he had found the right method.

Since his time a new family of alloys have come into use to meet new conditions of artillery practice, and we have UCHATIUS trying to get a central contraction in bronze guns by driving a steel mandril through them to upset the metal *cold;* and KRUPP and ARMSTRONG trying to do the same thing for iron and steel guns by contracting rings upon each other. We look forward to a day when these crude methods will be abandoned and the central compression will be obtained with these new materials by the use of RODMAN'S rational and exact system, by which one law of nature is made to work in harmony with and supplement another.

The very great constructive advantages which would spring from the successful introduction of this system make it by all odds the most important military question existing to nations which, like China and the United States, are suffering from arrested military development. We are not surprised that Congress did nothing about it, for a body of that kind frequently postpones important subjects of legislation for repeated consideration in order to have them well understood. We recommend those who have this industry at heart to bring it before Congress again and strive patiently to make its merits understood thoroughly by influential members. It is a cause that is certain to win.

BRIGADIER GENERAL WILLCOX.

WE have been aware for some time that when Colonel POTTER was appointed Brigadier General several months since, Colonel ORLANDO B. WILLCOX and his friends were assured by the President "that his promotion would follow a few months later." This promise has been fulfilled. General POTTER was retired on Tuesday and on the following day Colonel WILLCOX'S appointment as Brigadier General vice POTTER, was signed and mailed to him. This is the fourth promotion to the rank of general officer from the infantry since General MACKENZIE was chosen from the cavalry four years ago, and no colonel of artillery has been promoted since the War. Aside from the claims put forth on behalf of these arms, and especially the artillery, there can be no criticism upon the selection of Colonel WILLCOX. He was the senior colonel and is an officer of long and distinguished service, as well as a most agreeable and cultivated gentleman. Indeed, he in a certain sense represents the artillery, as his first appointment in 1847 was to the 4th Regular Artillery, serving in the Mexican War. In 1850 he was promoted to 1st lieutenant of artillery, and seven years later resigned from the Regular Army, studied law and began practice in Detroit. On the breaking out of the Rebellion he raised the first regiment of Michigan volunteer infantry and was commissioned its colonel. He was wounded at the battle of Bull Run, where he commanded a brigade; was taken prisoner and confined in the common jail of Charleston. In 1862 he was exchanged and at once appointed brigadier general of volunteers, subsequently commanding the 9th Army Corps. During June, 1863, he was appointed commander of the District of Indiana and Michigan. On August 1, 1864, he was brevetted major general, and in January, 1866, received an honorable muster out. In 1866 he again practiced law in Detroit and became Assessor of Internal Revenue. In July of the same year he was reappointed in the Regular Army as colonel of the 29th Infantry, and was subsequently brevetted brigadier general and major general for gallant and meritorious services at Spottsylvania C. H. and at Petersburg. He was transferred to the 12th Infantry in 1869.

While a prisoner in Charleston he was put into the condemned cell, with the pleasant information that he was to be hanged as soon as the Confederate authorities had received a report, which was hourly expected, of the hanging of certain Confederate privateers, condemned as pirates. He was given a pack of cards and a bible and left to amuse himself as he could. After a time he fell asleep and dreamed that he was wandering in a graveyard when he saw a headstone bearing this legend: ORLANDO B. WILLCOX, died ———. The date we do not recall; if not already passed we hope it is far in the future. At all events, it was many years in advance of the date set for his execution, and he awoke in the full assurance that he was not to be hanged, as he was not, for the news came that the sentence of the Confederates had been remitted.

General WILLCOX will have but a few months to serve on the active list under his new commission, his 64th year being reached April 16, 1887. Orders have been issued to him to proceed at once to Fort Leavenworth, Kas., to take command of the Department of Missouri. This action would seem to indicate that there are no immediate changes in department commands contemplated. In fact, it is said at the War Department that no changes are likely to follow now until spring, when the new brigadier general goes on the retired list.

"HOW TO feed the soldier" was the subject of an interesting discussion before the Military Service Institution of the U. S. at Governor's Island on Thursday. The soldier is too apt to think that the officers over him care very little what he eats or what he drinks so long as he is "present for duty" when required. This is a grave error, of which the discussion on Thursday gave ample proof. It was unanimously agreed by all present that the soldier ought to be well fed, although there was a difference of opinion as to how and with what, he should be fed. A paper on rations was read by Captain Spurgin, the commissariat officer at West Point. He claimed that the soldiers' rations were good in quality and sufficient in quantity, but that the system of cooking was bad. The subject was then debated. Lieutenant-Colonel A. A. Woodhull argued that to have a permanent cook of a post or company was a mistake, and that the knowledge of cookery should be diffused. Captain Morris thought the food was good and there was plenty of it; but there would be more satisfaction if the meat ration consisted of one pound, exclusive of bone, instead of one and a quarter pounds with bone. The soldier was supposed to receive twenty-two ounces of flour daily, but he only received eighteen ounces, the other four ounces being partly given to the baker and partly to the regimental musicians. In conclusion he said: "I believe it to be a fact that seven-eighths of those who enlist in the Army live better as soldiers than they ever did before." The debate was continued by Lieutenant H. J. Reilly, Colonel Hamilton, Captain Cook, Captain Fessenden and Lieutenant Colonel O'Beirne.

Such discussions, from their practical character, are of great benefit to the Service, and we should like to see more of them. One important element of the discussion was omitted, as the enlisted men on their part, with their usual modesty, refrained from taking part in it. They might have had something to say on the subject of post and company funds, and company gardens which it would be well to listen to. An officer, whose letter lies before us and who was unable to attend the Governor's Island conference, says: "Is not HEYL'S idea that they (the enlisted men) should have potatoes and onions sound, though the suggestion that they should be taught experimentally how to know which side of their bread is buttered may be extravagantly un-American? When the company gardens failed in the Northwest from this year's drought, and a soldier said he was hungry, should we believe him and blame the Government? Surely the full duty of the Government was done when it permitted this uncertain gardening to spoil some 300 soldiers, who cost about $312 per annum each, though the $93,000 so wasted in injuring the soldierly character and the interfering with the instruction of the Army would have bought nearly all the potatoes and onions needed for the entire Army."

THE present beneficiaries of the enlisted men's retirement law have determined to test the War Department's interpretation of the war "allowances" in an appeal to the Court of Claims. The test case will be made on the claim of Ordnance Sergeant Thomas G. DENNEN, retired, who has filed a petition for hearing during the December term, in which he represents that the War Department has refused to pay the sums to which, as he maintains, he is clearly entitled under the act creating the retired list, namely, three-fourths of his monthly allowance of $10 for commutation of quarters, $8 for fuel, and $5 for medicine and medical attendance, in addition to the pay and allowances (clothing and rations) heretofore paid him. There is now due him $276.75 for such allowances. We have always maintained that the War Department was wrong in its position with reference to the allowances for fuel and quarters. But, while we believe that the claim presented for these is a just one, we doubt if an allowance can legally be made for medical service, and it would be a very difficult matter to determine upon a fair equivalent for the service that a medical officer might render. 147 non-commissioned officers and men would be benefited at present by a favorable decision in the case referred to, as the retired list now consists of that number. These are classified as follows: Hospital stewards, 2; sergeant-majors, 1; ordnance sergeants, 48; commissary sergeants, 3; sergeants of ordnance, 9; sergeants of engineers, 2; saddler sergeants, 1; 1st sergeants, 5; sergeants, 32; corporals of ordnance, 3; corporals, 7; privates of ordnance, 2; privates, 27; musicians, 5.

LIEUTENANT GEORGE M. STONEY, U. S. N., is adding further laurels to those already gained by the United States Navy in Arctic seas. His expedition to Northern Alaska will, undoubtedly, be rich in geographical and scientific results, even though no more interesting data be collected than is indicated in the meagre telegrams received the past week by way of San Francisco. Lieutenant STONEY seems to have penetrated to the shores of the Arctic Ocean, and the report which will soon be received at the Navy Department will add another to the records of Arctic achievement which have of late put the American flag in the lead of progress toward the solution of the problem of the Pole. Lieutenant STONEY has associated with him an officer well fitted to incur the dangers and labors of those northern regions, Passed Assistant Engineer A. V. ZANE, U. S. N., whose experiences on the ill-fated *Rodgers* will not soon be forgotten. He is an officer full of resources and invention, and well adapted to fill the important position of scientist, engineer, and recorder of this latest voyage of discovery. The other officers of the expedition are P. A. Surgeon FRANCIS S. NASH, U. S. N., Ensigns MAURICE L. READ, U. S. N., and WILLIAM L. HOWARD, U. S. N.

COLONEL JAMES C. DUANE is to succeed General NEWTON as Chief of Engineers. He was informed of his appointment on Monday last and on the following day received his commission. He is expected to assume his new duties before the week closes, relieving Colonel PARKE, who has so efficiently administered the affairs of the office since the retirement of General NEWTON. It is hardly necessary for us to cite the reasons which led to his selection. Everybody knows that General DUANE is thoroughly qualified for his duties and in every way entitled to his promotion. As General DUANE does not retire for age until June 30, 1888, he will have charge for nearly two years of one of the most important branches of the Government service. A busy two years it will be, too, as the liberal appropriation for rivers and harbors last Congress calls for an unusually large amount of work during that period. He enters upon the work with the cordial good wishes of the officers of his corps, of every rank, as well as of all who know him.

WE publish elsewhere extracts of an address on the Nicaragua Canal delivered last week before the American Geographical Society at New York by Commander TAYLOR, of the Navy. He shows very clearly the difficulties in the way of the completion of the Panama Canal, the project of M. DE LESSEPS, and agrees with the best engineering opinion, so far as we have found it, that the scheme of Mr. EADS for a ship railway at Tehuantepec is clearly impracticable, ingenious as it may seem to those who do not understand the obstacles to its success, obstacles which seem to us wholly insurmountable. The Nicaragua scheme, however, is one which appeals to the judgment of engineers, however much they may differ as to certain details of its construction. Commander TAYLOR'S address will be of interest to all military men, and his remarks on the proposed canal, with reference to our national development, will, we hope, provoke a discussion that will affect the legislators at Washington.

THE promotion of Colonel O. B. Willcox, 12th Infantry, to brigadier general, and the retirement October 19 of Colonel J. N. G. Whistler, 15th U. S. Infantry, and December 8 of Colonel L. P. Bradley, 13th Infantry, will cause the following promotions in the infantry arm: Lieutenant Colonel E. F. Townsend, 11th, to colonel 12th; Lieutenant Colonel R. E. A. Crofton, 13th, to colonel 15th; Lieutenant Colonel R. S. La Motte, 12th, to colonel 13th; Major E. G. Bush to lieutenant colonel 11th; Major J. C. Bates, 20th, to lieutenant colonel 13th; Major W. F. Drum, 14th, to lieutenant colonel 12th; Captain W. J. Lyster, 19th, to major 6th; Captain D. D. Vanvalzah, 25th, to major 20th; Captain C. A. Wikoff, 11th, to major 14th; 1st Lieutenant J. G. Leefe, 19th, to captain; 2d Lieutenant W. P. Evans, 19th, to 1st lieutenant; 1st Lieutenant O. J. Sweet, 25th, to captain; 2d Lieutenant C. A. Devol, 25th, to 1st lieutenant; 1st lieutenant A. L. Myer, 11th, to captain; 2d Lieutenant J. A. Emery, 11th, to 1st lieutenant.

AS AN illustration of varied service and experience in the life of a "rounder," we refer to the case of a soldier recently tried for desertion at Fort Bayard, N. M., and sentenced to dishonorable discharge and ten years' imprisonment. He enlisted in 1876 as John Lamb in Troop B, 5th Cav.; deserted in 1877; enlisted as John L. Potter in Co. G, 15th Inf., in August, 1878; deserted in 1880; enlisted as Steven K. Fletcher, in Bat. H, 3d Art., in October, 1883; deserted in May, 1884; enlisted as John A. Lamb, in Troop K, 8th Cav., in August, 1884; deserted in April 10, 1886; was apprehended April 12, 1886; escaped May 2, 1886; was reapprehended May 4, 1886, and it is hoped will now remain under the paternal care of the Government for some years to come. The facility with which this sampler of regiments and companies got in and got out again leads to the suggestion as to whether after all there may not be something in the "brand." A good deep one in this case would have saved a good deal of trouble to all concerned.

THE Chicago *Times* thinks that where there are one there should be a dozen or more military academies distributed throughout the country. "From their yearly graduates," says the *Times*, "the standing army should be officered by some judicious system of selection, but no obligation for military service should be imposed upon the graduates except in the event of actual war, when they should be subject to the national call for purposes of organization and command supplementary to the officers of the active service."

THE daily papers still keep pegging away at the court martial cases of military prisoners CUNNINGHAM and MCHUGH, to which we referred last week, but so far as we can see nothing has been developed to cause a change in our opinion expressed last week that the punishment awarded by sentence of court-martial was fully deserved by both men. Outside sympathy is all very well, but when it is based upon incorrect and often untrue statements it is sadly misplaced.

THE sentence of dismissal of the Court-martial in the cases of the West Point cadets who engaged in the "rush" some weeks since, has been mitigated in each case by the President to a reduction in rank from cadet officer to that of private. The general order promulgating the proceedings of the court will be issued in a day or two. Much sympathy has been felt for these young gentlemen, for it is believed that they were held to too rigid a responsibility as disciplinary officers.

QUARTERMASTER-GENERAL S. B. HOLABIRD, U. S. Army, was in New York this week looking into matters connected with the construction of the new Army Building on Whitehall street. Now, that the foundation has been made secure, work is progressing rapidly and there is a good prospect that the building will be occupied for business by May 1 next.

WE publish this week a complete roster of the Recruiting Service as now constituted, with the names, stations, etc., of officers on recruiting duty, including those whose detail commenced October 1.

WE publish this week the new regulations (G. O. 72, of 1886) in regard to the tour of service of captains with light or mounted batteries of artillery. Certainly, under these regulations, if strictly adhered to, this important arm should develop a large measure of efficiency, for they provide that only captains shall be eligible who are recognized for their superior professional attainments and devotion to duty, who have a high standing as battery commanders and who possess the requisite physical qualifications. The age restriction is one which admits of discussion. We know of several captains of fifty or thereabouts who are physically and mentally qualified for any commaud mounted or on foot.

IN an article in the JOURNAL of April 3 last, we reviewed the distinguished career of General JOSEPH H. POTTER and congratulated him upon his promotion to the grade of Brigadier-General and his assignment to the important command of the Department of the Missouri. "Few in the Army," we said then, "will begrudge 'JOE.' POTTER the step which comes to him so close upon the day when his active career will terminate." That day has come and on Tuesday of this week, October 12, his sixty-fourth birthday, the veteran officer and faithful soldier passed to the retired list. That he may live for many years to enjoy the well earned comforts of retirement is, we doubt not, the wish of all.

ST. PAUL, which has labored earnestly for some years past, to have the Headquarters, Department of Dakota, returned there from Fort Snelling, is at last happy, and will cordially welcome General RUGER and his staff to its midst. The Army Building in St. Paul, used by the Quartermaster and Pay Departments, will, with some alterations, accommodate the Department Headquarters.

THE manuscript for the Army Register, to bear date of Jan. 1, 1887, has been compiled and in a few days will be sent to the Public Printer. The industrious compiler has found his work unusually tedious this year, in view of the large number of casualties which have occurred since the last issue. No changes in the "make up" is contemplated.

THE Secretary of the Navy, since his return to Washington October 12, has been engaged most of the time in interviews with ship builders, who have come to the Department to examine plans preparatory to making up their bids. The Secretary has kept well informed as to the operations of the Department and has done much work during his sojourn at Lenox, so that he comes back to take hold, not where he left off when he went away from Washington but where he stopped at Lenox. One of his early acts will be to formulate a contract with the Dynamite Gun Company for the dynamite vessel. It is expected that Cramp and Co. will build the vessel for this firm. The Secretary will also shortly advertise for bids for the completion of the monitors.

As to his proposed plan of reorganizing the bureaus of the Navy Department, Mr. Whitney said to a correspondent of the JOURNAL that he did not yet know what steps he could take in this direction under the existing law, but that he did desire to consolidate the bureaus to a certain extent, particularly with reference to the system of purchasing stores and supplies. A board of naval officers, of which Capt. Meade is chairman, is to take an inventory of the stores at the various Navy-yards and stations, and to see if it is possible to consolidate the work of supply in one bureau in future. This board is to devise and report upon a plan for dispensing with the present complicated machinery, to which it is proposed to give a trial before making any other changes.

In answer to an inquiry regarding the report that shipbuilders show no interest in the proposed new cruisers, the Secretary said the exact contrary is the fact; that twelve different shipbuilding concerns have made application for the necessary information upon which to base bids, and the plans are being sent to them as fast as they are being printed. Every shipbuilding concern of any consequence in the country has shown an active interest in the matter such as has never been displayed before. As to the reports about discoveries of defects in the cruisers which have been built, the Secretary said he knew nothing.

THE appointment of a post chaplain vice Brady retired, will be one of the next Army cases for the President's consideration. The papers of nearly a thousand applicants were recently sent to him from the War Department. Selections of this kind are said to be the most difficult the President has to make, there being so many denominations to claim recognition. Of the chaplains now on the active list of the Army seventeen are Episcopalians; fifteen Methodists; nine Baptists; seven Presbyterians; three "Christians"; two Congregationalists, and one a Roman Catholic.

A FRIEND of General Miles writes to the Boston *Advertiser* an interesting letter, in which he says: "Assuming that the statements published are substantially true, they constitute no basis for such charges as the papers have contained. General Miles has had a career of altogether unparalleled successes in Indian warfare, exceeding over 12 years in time, and including in their field of operation nearly all of the trans-Mississippi Territory north of Red River, and of our Southern boundary west of the sources of that stream. Within the period named no considerable Indian war has been carried on which he did not take part in and *invariably* conduct to a successful termination. General Miles's success in dealing with Indians at peace has been equally marked, and his views of the general Indian question, the views of a clear headed, just minded, and thoughtful man, have so approved themselves, that men of inferior foresight are now attempting to appropriate them. Such a man with such a record, having the fullest and most minute knowledge of the particular circumstances in Arizona, was certainly better fitted than any of his critics can be to determine what terms to make with Geronimo when, by his skill and persistence, he had him in his power, and, let it be repeated, even if it be assumed that there were instructions that have not been complied with, the fault is in the instructions and not in the non-compliance."

A LONDON correspondent writes: "The signs multiply that the next European war is going to be a horribly bloody affair. Neither the Geneva Convention nor the traditions of etiquette in international combat will hamper anybody. Both France and Germany are armed with the latest results of dynamic science, and are able now to destroy a regiment where formerly they killed a Corporal's guard. An American acquaintance of mine went to Vienna yesterday by request of the War Office to submit to the test a new explosive shell said to rival Boulanger's pet in deadliness of execution. The fact is, the standing armies of Europe have become such a tremendous burden that there is a tacit agreement between the powers that the sooner the whole diablerie of science is brought into play and warfare made impossible the better it will be for everybody concerned. So the next time dynamite will meet glycerine, and gun-cotton will explode the last relic of Friar Bacon's fame."

THE Salt Lake City *Daily Tribune*, of October 3, objects to our recent statement that the strictures of the "anti-Mormons" upon Lieutenant Richard W. Young, 5th Artillery, and his assignment to duty with the light battery at Fort Douglas, are worse than ridiculous, and by inference disputes our remark that Lieutenant Young is a thoroughly efficient officer and a high-toned gentleman. In dismissing the matter we take the occasion to reiterate our statements in regard to Lieutenant Young, and with reference to the *Tribune's* assertion that the Lieutenant's presence at Camp Douglas is a "wet blanket upon the garrison," to say that we have from excellent authority at that post, that it is, to quote our correspondent, "unmitigated rot." This officer further says: "In so far as it may reflect the blind rage of the 'Gentile politicians' it is quite correct."

NO DATE has yet been set by the Secretary of the Navy for submission by his bureau chiefs of their annual reports, but they are all in process of completion and will be handed in in due season. The annual reports of the bureau officials in the War Department were to have been handed in Oct. 12, but only two or three had reached the Secretary on that date. General Benét, who has just returned from abroad, is now at work on his, as is, also, the new Chief of Engineers. The report of the Surgeon-General is prepared, but is waiting for some one to sign it. The Adjutant-General will not commence his until he returns from Fort Leavenworth on Saturday next. The report of the Inspector-General was handed to the Lieut.-General on Wednesday. The reports of the Paymaster-General, Judge-Advocate General, Chief Signal Officer, Commissary General, and Quartermaster General are before the Secretary. The Lieut.-General has about completed his report and will transmit it with the reports of the Division and Department Commanders, and Adjutant-General and Inspector-General within the next ten days.

DURING the past week the Second Comptroller allowed the Mexican War claim of 2d Lieut. Edward D. Blake, 8th Inf., for $41.25, and of Private Anderson Howard, Co. D, Palmetto regiment, South Carolina Volunteers, for $21.

THE Aztec Club held its annual meeting and dinner at Pinard's, New York City, on Wednesday. Major-General J. M. Schofield, U. S. A., was an invited guest, and presided at the dinner. Among those present were General C. C. Augur, Captain Jacob A. Augur, Henry L. Kendrick, General Zealous B. Tower, General Stewart Van Vliet, Captain Robert C. Van Vliet, Lieutenant W. H. Emory, General James B. Fry, Colonel Delancy Floyd-Jones, General Innis N. Palmer, General Peter V. Hagner, General Charles P. Stone, Wm. Turnbull, Colonel Frederick D. Grant, Colonel George W. McKee, F. Marshal Robison, General Thos. G. Pitcher, General Graham, Colonel W. Preston, Wickliff Preston, General Ingalls, General H. G. Gibson, General Robert Patterson, Colonel Julian McAllister, W. W. H. Davis, General Fitz John Porter, General Egbert L. Viele, General James Oakes, General John C. Robinson, and General Oliver L. Shepherd. Many speeches were made which recalled the bygone days, and the occasion was in all respects a most enjoyable one.

Broad Arrow says: "This is the view of a high naval authority in the United States of what a modern unarmored cruiser should be. The work to be done by a ship of this class must, he says, be done from a distance when risking an engagement with an armored enemy. To make these ships effective they must be armed with guns capable of doing an extraordinary amount of work, and yet the size of the vessels will not allow of their carrying guns of immense weight. In order to get this amount of work out of a comparatively light gun, we must secure great initial velocity for the projectile. This can only be done by burning a large charge of powder, which involves a long bore to burn it. The Americans should come and look at our new cruisers."

THE German census shows a population of 46,840-600 in round figures, December 1, 1885. The last previous census, December, 1880, gave a total of 45,234.-000. This is an increase in five years of 1,606,600. The corresponding increase between 1875 and 1880 was 2,506,700 souls. The decrease in the ratio of growth is ascribed to emigration, 854,000 Germans having expatriated themselves from 1880-5, against 291,000 in 1875-80. Each German is computed to carry away with him a capital of $1,000, in five years an aggregate loss of capital of $854,000,000. The town population of Germany increased in the five years 1,600,-000, while the rural population remained virtually stationary. Prussia has 197 towns with a population of 10,000 and upwards, and the total town population is 11,000,000, to 17,500,000 in the rural districts. Berlin has gained 200,000 since the last census.

Engineering objects to the comparison of the guns of the critics with the wives of bachelors and the children of old maids, saying: "The guns of our critics—Germany, Russia, France, England, and even the United States—exist not only in theory and practice, but in the field and afloat, excelling ours in material and construction and energy; guns whose manufacturers are quite ready to indorse their criticisms by practical competition."

THERE is a drink called Moxie which has come into somewhat extensive use, in New York at least, for its supposed nerve strengthening properties. The American *Analyst* publishes an analysis of Moxie, showing that it contains sassafras, gentian, chokecherry, and quassia amora, and that the sole property to which the mixture can lay claim is that of a mild and entirely inoffensive tonic, forming an agreeable drink for quenching the thirst, and incapable of exercising the slightest action upon the brain or the nervous system.

GENERAL ALFRED PLEASONTON, in a two column letter to the Philadelphia *Press*, refers to his recent article in the *Century Magazine* on the battle of Chancellorsville, and adduces proof to show that Major Keenan, 8th Pennsylvania Cavalry, was the real hero of the day, and that it was the famous rush of that regiment upon Stonewall Jackson's entire army which saved the battle.

THE fourth annual convention of the Advocates of Indian Civilization was held at Lake Mohonk Mountain House this week. A number of distinguished advocates were present.

THE expectation now is that the President will shortly appoint eight of the nine non-commissioned officers who have passed the examination for second lieutenancies. The ninth one—Sergeant McMillan—will not get a commission, he having been recently discharged from the Service on account of some trouble with one of the officers at Fort Monroe. He is the son of Senator McMillan.

OUR naval readers will find some admirable suggestions in the paper on Naval Reorganization, read before the Naval Institute by Captain Cooke, our report of which appears elsewhere.

THERE is further delay in the selection of the Surg. General for the Army. We are reliably informed that at the Cabinet meeting Oct. 7 the President intimated that he would appoint Dr. Baxter, but as the nomination was not made with that of General Willcox, his friends fear that there is some hitch in the programme. The Secretary of War said on Thursday that he was doubtful himself as to who will be selected, but that he was expecting the appointment before the week closed. It is understood that the President has asked ex-Surgeon-General Murray for a recommendation, and that he has replied by comparing the records of several of the older colonels, with that of Colonel Baxter, thus indicating that the latter is not his choice.

"THERE has probably never been a period since the year 1815," says the London Daily *Telegraph*, "when that which in money market parlance may be termed 'Bonaparte Stock' was quoted at so low a rate as at the present day. The Imperial Eagle is not in demand; and violets, St. Helena medals, Béranger's songs apropos of the First Empire, Queen Hortense's 'Partant Pour la Syrie,' are all drugs in the market. For all this, and for all the apparent hopelessness of Bonapartism as a dynastic cause, as much curiosity as ever is evinced for the most trifling detail connected with the personality of the founder of the fortunes of a wonderful family."

THE statue of Joseph Brant was unveiled at Brantford, Canada, Oct. 13. The statue is a colossal figure, 9 feet in height, in Indian war dress, with tomahawk, moccasins, etc. There was a great gathering of Indians and prominent Canadians, and the ceremony of unveiling was performed by Lieutenant-Governor Robinson, of Ontario.

GENERAL MILES on October 9 issued an order formally announcing the close of the Indian campaign and congratulating the troops on the result. With the exception of one small thieving party, now in Chihuahua, Mexico, all hostile Indians have been removed to a place of safety. The order has not reached us yet.

RECENT DEATHS.

REAR-ADMIRAL EDWARD T. NICHOLS, U. S. Navy, retired, who had an apoplectic stroke on Saturday last, died at Pomfret, Conn., October 12. He was born in Georgia, March 1, 1823, and was appointed from that State in 1836. He served as passed midshipman from 1842 to 1850 in the Mediterranean, Brazil, home, and Pacific squadrons. He was commissioned as lieutenant March 13, 1850. On the breaking out of the war he was appointed to the command of the steamer *Winona*, West Gulf blockading squadron; assisted in the bombardment of Forts Jackson and St. Philip, and received the surrender of the latter fort on April 28, 1862. He was at the attack and passage of the Vicksburg batteries in the latter year, and on July 16 was commissioned as commander. As commander of the steamer *Mendota* he took part in the engagement with the rebel battery at Four Mile Creek, James River, on June 16, 1864. He was on special duty in New York from 1866 to 1868. He was promoted captain July 25, 1866, commodore May 24, 1872, and Rear-Admiral February 25, 1878, and served with great ability in several responsible positions, and his career reflects the highest credit upon our Navy. He was retired from active service March 1, 1885, and took up his residence in Washington, but had been spending a portion of the summer at Pomfret. His devoted daughter, Miss Nellie, was with him when he died. The funeral services took place at Pomfret October 15, after which the remains were taken to Providence, R. I., for interment.

GENERAL JOSEPH ALEXIS UHRICH, the defender of Strasbourg, during the Franco-Prussian War, is dead. After the battle of Worth he became commandant of Strasbourg and defended the fortress for seven weeks of bombardment, hampered by want of provisions and elicited the admiration even of his enemies. The report, in May, 1872, by the committee appointed to investigate the capitulations during this war severely censured General Uhrich.

DAVID LEVY YULEE, of Florida, ex-Senator and a conspicuous figure in American politics more than a quarter of a century ago, died at the Clarendon Hotel, New York, Oct. 10. He withdrew from the Senate in January, 1861, after making an argument in defence of Florida's right to leave the Union. At the close of the War Mr. Yulee was confined for a time as a prisoner of State in Fort Pulaski.

GENERAL MARK FLANIGAN, who, while Lieut.-Colonel, of the 24th Michigan Infantry Volunteers, lost a leg at Gettysburg, and was brevetted Brigadier General for his services in that battle, died at Detroit, Oct. 4. He received also the brevet of Colonel for gallantry at Fredericksburg. The 24th Michigan is the regiment of which Gen. Henry A. Morrow was Colonel.

COLONEL GEORGE B. ELY, who died in Brooklyn, October 12, from paralysis, served with distinction during the war, first in the 2d Wisconsin Infantry, and afterwards as a major and additional Paymaster. He was severely wounded at Antietam.

THE Surgeon-General of the Navy has been informed that Henry Linde, gunner's mate, of the U. S. S. *Santee*, died at the Naval Academy, Oct. 12, 1886.

CAPTAIN JOSEPH P. ARTHUR, a noted shipmaster many years ago, who hoisted the first American flag ever raised in California, died recently in Braintree, Mass.

INAUGURATION OF BARTHOLDI STATUE.

THE following general outline of a plan for the ceremonies attending the inauguration of the statue of "Liberty Enlightening the World," has been approved by Major-Gen. Schofield, representing the President, to take place Thursday, Oct. 28:

1st. A military, naval and civic parade in New York City. The march of the column to terminate at the Battery and at other piers in the lower part of the city, where steamers will be taken for Bedloe's Island.

2d. At a given signal, the steamers, preceded by such ships-of-war as may be present, will move in a prescribed order to Bedloe's Island and will occupy their designated positions. The limited area and wharfage of the island will only permit of the landing of a comparatively small proportion of those who may wish to take part in the ceremonies. Hence the leading steamers only will touch at the wharf, the others will be assigned positions from which the ceremonies may be seen.

3d. Appropriate ceremonies at the base of the statue to be concluded near the hour of sunset.

4th. A national salute from all the batteries in the harbor, ashore and afloat. During the salute the guests and others on the island will re-embark and the vessels of the fleet will return to their wharves.

5th. The ceremonies will be concluded by the illumination of the statue.

Gen. C. P. Stone, who has been appointed Grand Marshal, as indeed it was fitting he should be, has issued an invitation to all organizations desiring to take part in the parade to make application, at as early a date as possible, to the American Committee, at No. 38 Mercer street, New York City, or to him at the Washington Building, for space in the columns; stating distinctly the name and residence of the organization; its nature (whether National, State, municipal, military, civic, religious, educational, masonic, scientific, social, etc.); and also stating in each case, the numbers which the organization may expect to present in the parade.

Military and civic and other organizations of other nations, and especially of the Dominion of Canada, British Columbia, Mexico and the West Indies, our nearest neighbors, are cordially invited to take honorable place in the columns. The following appointments are announced, viz.: Maj. Gen. M. T. McMahon, U. S. V., assistant grand marshal; Capt. Hugh G. Brown, 12th U. S. Inf., aide-de-camp; 1st Lieut. Edward T. Brown, 5th U. S. Art., aide-de-camp.

Applications made to Gen. Schofield for places in the parade will be referred to the Grand Marshal or to the committee, according to their character. In all doubtful cases of applications made or referred to the Grand Marshal he will refer the application to the committee for approval or disapproval, before assigning places in the column. All applications received by or referred to the committee will be endorsed with their approval or disapproval and sent to the Grand Marshal. All applications not disapproved by the committee or by the Grand Marshal will be accepted without further reference. Any which may be disapproved by either the committee or the Grand Marshal will be referred to Gen. Schofield before final rejection. The order of march, including names of all bodies and their places in column, will be submitted to Gen. Schofield, who will confer with the committee in regard to it before its publication.

Gen. Whipple will prepare the programme for the U. S. troops in the ceremonies of Oct. 28, including the necessary guards, and will submit the necessary draft of orders for the occasion.

Gen. Whipple, of Gen. Schofield's staff, will have immediate direction, under the division commander, of all that is to be done on Bedloe's Island, and will accompany Gen. Schofield as chief of staff during the day.

Lieut. John Millis, Corps of Engineers, U. S. A., will have charge of the electrical apparatus and all pertaining thereto.

General Tompkins, with the assistance of Colonel Hodges, will arrange and direct everything pertaining to transportation.

Transportation will be furnished only to those who are to take part in the ceremonies at the statue, and those guests who are provided with tickets admitting them to seats upon the platform. All others who may wish to take passage upon the Bay will provide their own transportation.

The senior officer of the U. S. Navy who may be present is expected to act as admiral of the fleet, and direct the movements of all vessels taking part in the parade upon the Bay.

ARMY AND NAVY HOSPITALITY.

THE Army and Navy people, says the San Francisco *Report*, appreciate the meaning of the word hospitality right down to the ground. They invite you to visit them; they meet you; they take you to their home; they offer refreshment; they show you to your room; "the house is yours—make yourself at home; we dine at 6.30—we breakfast at 9." Then your hostess goes about her necessary business. When you are ready, you stroll through the house; perhaps you find a member of the family. If so you are welcome to remain with him or not, just as best suits you. You can chat, or work, or read, or doze. No one suggests, interferes, or arranges. The mere fact of you being an invited guest is proof that you are desirable and welcome. Of course, a lengthy visit means lunches, teas, receptions, etc., in your honor. But a stay of two or three days, either at a garrison or a yard, doesn't move the domestic running gear of an officer's family one iota. This is as it should be. I think the reason Army and Navy invitations are so welcome is on account of the mind-your-own-business flavor with which they are always sweetened. There are very few people who understand the true art of entertaining, but the land and sea service seem to get nearer to it than anyone else.

IT is feared that John Roach, the veteran ship builder, will end his days from the same malady that carried off General Grant—cancer in the mouth. For months it has been hoped that the disease could be checked, but no material change for the better has yet appeared.

NAVAL REORGANIZATION.

(Condensed Report of an Essay Read by Captain A. P. Cooke, U. S. Navy, at Annapolis, Md., Oct. 15, 1886.)

The unit of organization in the Navy may be considered the single ship, and here the distribution of authority and responsibility is complete. Next comes a combination of single ships, forming a squadron, under the command of a flag officer. Here, too, the responsibility and distribution of authority are complete.

Now we have gotten to the end of efficient organization in the American Navy. When we come to the management of squadrons and looking after the general interests of the whole fleet—its outfit ashore, and its efficiency afloat—the weakness of our system is glaringly apparent. We have no proper organization for carrying on efficiently the office of Admiral of the Fleet. This office is located in the Navy Department. Here there are many bureaus, which carefully and faithfully guard the interests of the various branches of the Service, but there is no office which effectually looks after the Navy as a whole. What we want is a commission to assist the Secretary of the Navy, and relieve the political head of the Department of the many technical details for which he has neither the time nor the aptitude, and which cannot be safely delegated either to clerks or to chiefs of bureaus, who have as much as they can do to attend to their own offices.

The occupants of the office of Naval Intelligence should constitute the staff of the commission appointed to execute the office of the Admiral of the Fleet, and would represent an establishment corresponding to the general staff of an army, which is now an essential part of all modern military organizations.

It may be said the present organization has worked successfully in the past. In the old days, before steam and telegraph, when sails and smooth-bores were our only resource, our organization was sufficient and ample for the times. During our late war, in which we had no prepared naval antagonist to encounter, the duties of Admiral of the Fleet were very ably performed by Captain Fox, a brilliant and talented officer of great and varied experience, and he felt very much the need of an Intelligence Office, and the store of ready information only there to be found.

Here comes the great advantage of the General Staff, which, I fear, has not been fully appreciated. Its importance cannot be overestimated, and its services should be utilized to the fullest extent. Its chief labors would be directed to one important end—the preparation for war—so that when the time arrived there might not be a moment's delay. In war the General Staff would be the mainstay and reliance of the Department and of the admirals afloat. It would keep itself in close and intimate relations with the outer world, to catch the first intimations of the enemy's movements and to inform the fleet of all his doings and intentions. Members of the General Staff would go with the fleet, and the store of accumulated information in their possession would be kept posted up to the last moment. The General Staff must necessarily be equipped with the most zealous and efficient officers, and aided by all the available talent of the Navy.

And now let us look again for a moment at the single ship. We are aware that at the present day the tendency is to indulge greatly in specialties, and much benefit comes from this division of labor. But on shipboard, where space is limited and all should know how to fight and manage the ship, this tendency must be kept within reasonable bounds by other greater considerations. For instance, the medical profession is divided into many specialties, and some of those would be exceedingly useful on board ship, but owing to the limited space afforded for quarters, we are obliged to content ourselves with one set of medical officers, who have to combine in themselves all the expertness which can be afforded. So, too, in the matter of torpedoes, electricity, gunnery and navigation. There is enough in each of these branches to occupy the special attention of different corps, but in the organization of the *personnel* of a man-of-war for effective service it is impossible to have men who devote themselves entirely to these specialties and are fit for nothing else. Officers of the modern fighting ship must be able to care for all her belongings without the aid of a special class of officers who do nothing but look after the engines and are available for no other service.

In the education of our naval cadets they are taught the same branches, irrespective of the special duties to which their corps selection may call them. And on shipboard, when the vessel is under steam, they have charge of the engines, and when the ship is under sail they are given charge of the deck. They are also exercised in the other important duties of their profession, which fits them to fight and manage a ship and care for her people. This same arrangement of service should be continued when the young gentlemen are promoted to ensigns, and so on through the different grades of watch officers. Then it would be unnecessary to make any further appointments in the Engineer Corps, and the Service would soon become more homogeneous and united.

The engine department of our modern ships will require a large portion of the crew, and this large detail must surely be taught something besides the management of engines.

Lately the marine officer has been made a sailor by choosing him from the graduates of Annapolis; but it would be better to have him only temporarily detailed for that service. There is no good reason why the paymaster should not be available as a sailor or a soldier, according to the emergency of the moment, and this could be readily accomplished by selecting him from the body of trained naval officers. Every officer should know how to manage and navigate a boat, and should be accustomed to the command of men, and the number of non-combatants should be reduced to a minimum.

As far as possible, every officer ought to serve in every department and branch of the Navy for a reasonable period of time, in order that he may be familiar with other duties than those specifically attached to his ordinary assignment. It is only in this way that he can gain the necessary experience and be sufficiently many-sided to be efficient in emergencies, or capable of performing those many valuable services which he may, in time of need, be required to render.

The introduction of apprentices into our Service was a most important step for its improvement, but it has been somewhat halting and incomplete. To make it more effective a larger number should be employed, and the Navy manned as far as possible by those who have been regularly trained for its service, so that all our "blue jackets" might come from the same source, own the same training, love the same country, and glory in the same traditions.

Only a small portion of the naval officers educated at the public expense are received into the Service. We could well afford to educate, in the same way, naval apprentices to be returned to the body of the people and find their occupation in civil pursuits. This would be a most profitable national investment and in the hour of their country's need they would be the men to leaven the whole lump of patriotic naval volunteers, and be the expert nucleus of our sea contingent, our reliable reserve. And to make this more popular I would have apprentices enlisted from every section of our country. None but Americans should be on our ships whereas a large percentage of our crews are aliens and people of ambiguous nationality, some of them speaking with difficulty our language.

Short service would give an opportunity for good men to try the Navy before they elected it as a career. For the first service of recruits I would permit them to enlist for one year, if they were born in the United States and came up to a fair educational standard, but these men would have to engage for three years on their next enlistment. The livery of the United States should be made a badge of character and worth, and the privilege of wearing it considered a great honor, so that young men of spirit and ambition, who are anxious to elevate themselves while serving their country, will be glad to enlist in the Navy.

It is certainly an anomaly that a young American seaman is cut off from all hope of receiving a commission in our Navy, whatever may be his services, his talents, or his abilities. If it were possible, it would be exceptional, but that is no reason why it should not be open for men of exceptional capacity and ambition; while such a reward would raise the tone of the men and be of inestimable value in stimulating the zeal of the whole Service.

There are thousands of respectable and patriotic young men in the country who would make excellent sailors, and who would gladly enlist in the Navy were it not almost considered disreputable to do so. The body of enlisted men of the Service should be composed of persons superior in station and education—men sober, moral, diligent, and accustomed to reflect. To such men alone should be committed the honor of our flag.

When we have a better class of men we can secure a higher order of petty officers; and in this particular we are weak. We need a class of superior leading men, standing between the crew and the officers, who are reliable, trustworthy, well-trained and efficient. Two classes of these men, after careful selection and due probation, should be warranted petty officers by the Navy Department, just as our non-commissioned officers of marines are now appointed. And these appointments should not be taken away from them except by sentence of Court-martial.

We must consistently and steadily work out the perfection of our own organization, and our reforms must come from within. Now that a faint, glimmering hope of having a new Navy dawns upon us, this seems a propitious moment for renewed activity on our part, and I hope we shall lose no time in putting ourselves in the position of "the strong man, armed, whose house is at peace." I believe whatever we shall agree together to ask touching the necessities for our Service will be willingly granted. But it seems so difficult for us to agree together.

OUR NEW CRUISERS.

The N. Y. *Herald* reports Mr. Cramp as saying of our new cruisers: "Fully two and a half years will be required to finish and arm them. Congress has not shown a disposition to appropriate money enough for a more rapid completion, or to make guns at home or to buy them abroad. And, besides, these vessels cannot possibly have a full armament when they are otherwise ready. The *Boston*, *Atlanta* and *Dolphin* are exactly in that condition today. The *Chicago* will be ready next spring, except her guns. I do not consider a war vessel done until her guns are mounted. Self-evident as this smile-provoking statement is, the average member of Congress has never grasped it solemnly. He goes ahead to a certain limited extent in the direction of new vessels, but the preparation of the armament is relegated to the future. Why, it takes as long to build a ship's guns as to create the craft itself.

"I have no doubt fifty steamers could be utilized for commerce destroyers, but the value of them would depend largely upon the commercial standing of our enemy. If we were at war with Spain or Chili, for example, their moral effect would not be great, because those nations do not rank as largely commercial. But, with a maritime nation like England, fifty armed cruisers suddenly put afloat would create a panic. It must do so, however incapable they were. If this nation ever gets into a war with her—which God forbid—her ships will be hunted from the ocean by descendants of men like John Paul Jones, who'd go to sea in a tub, never expecting to touch land again, but with one clearly defined purpose from which they'd never swerve.

"But we have more to fear from a war with a less powerful nation—one that has no commerce to lose and everything to gain. You remember Moreno's idea? It was great, and not so visionary as to be impossible of realization. When he became Prime Minister of the Sandwich Islands he proposed to the King to import a million of Chinamen to work on the sugar plantations, taxing each immigrant $7. With this $7,000,000 five first-class war vessels could be bought. He would equip them with the best Chinese sailors and teach them how to serve the guns. Then he'd take San Francisco and reduce the Pacific coast to subjection by transporting and landing his million Chinese. 'Colonel Sellers' would have to command the troops, to be sure; but Moreno said he'd 'get there, all the same.' Saying nothing about the final consequences, and leaving patriotism out of the question, I'd be willing to take a contract to burn San Francisco to-morrow. It can be done any day."

GENERAL MILES'S REPORT.

The following statement concerning the annual report of Gen. Miles has been given to the Associated Press this week:

Gen. Miles's annual report, as commander of the Military Department of Arizona and New Mexico, which has been received at the War Department, is a voluminous document, containing a full history of his operations against Geronimo and his band, together with a statement of his position in regard to the terms of surrender. It is learned that this part of his report sets forth minutely the official orders received by him; his own orders placing Capt. Lawton in immediate command; the system of signaling adopted, etc., and afterwards recites substantially the following details: A few days prior to the surrender a deserter from Geronimo's band came into Gen. Miles's camp with the information that the renegades were short of food, clothing, and ammunition, were footsore and nearly exhausted from long marches, and could not hold out much longer. Thereupon Gen. Miles ordered Lieut. Gatewood, who knew Geronimo and Naches well and spoke the Apache language, to take a guard of two men, obtain a parley if possible with Geronimo, and see if he would surrender. This mission Lieut. Gatewood accomplished successfully. He informed Geronimo, in answer to the chief's question, that he had no authority to offer him terms. Geronimo then asked to be taken to Capt. Lawton, who was in the neighborhood. This was done, and on repeating the question asked Lieut. Gatewood Capt. Lawton told him he could make no terms and that he must surrender. Geronimo then wanted to see Gen. Miles, and both parties, Capt. Lawton and command and Lieut. Gatewood and Geronimo, Nachez and their band, set out for the North, travelling for some days on parallel lines and within sight of each other. In the meantime a messenger had been sent ahead to inform Gen. Miles of their approach. On coming into Gen. Miles's camp Geronimo, as before, asked what terms would be given him if he surrendered. The General replied that he had no terms to offer: that if he and his band surrendered at all they must surrender as prisoners of war: that they must lay down their arms and trust to the President of the United States. Upon this Geronimo laid down his arms and signified his willingness to surrender, but Naches, who had in the meantime kept out of reach and refused to come in, sent word that he wanted to go to the White Mountains for a month, whereupon Geronimo went out after Naches and soon returned with him. Geronimo, in explanation and justification of his conduct, said that he left the reservation for the reason that there was a conspiracy afoot there, headed by Chatto, to murder him. Geronimo, Naches, and two others were placed in an ambulance, followed by the band in charge of Capt. Lawton, taken to Fort Bowie Station and shipped to Texas.

Gen. Miles, in his report, argues at some length the question of punishment, and calls attention to the fact that heretofore in such cases removal has been deemed sufficient. He cites several cases in which no greater punishment has been inflicted; speaks of the great good done in Arizona by their removal, and suggests that they be treated as other Indians have been treated under similar circumstances. He highly compliments Capt. Lawton, Lieut. Gatewood, and the officers and soldiers generally, for their meritorious services during the campaign.

From an Army friend of Lieut. Gatewood it is learned that he found Geronimo and his band encamped near the Mexican town of Fronteras, in Sonora, an old Mexican adobe hamlet, surrounded by an adobe wall. It was at one time a mission settlement founded by the Jesuits. When Lieut. Gatewood came upon the band he left his guards and alone walked into Geronimo's camp. On seeing the intruder the Indians seized their guns, but on the Lieutenant laying down his arms and beckoning Geronimo, whom he recognized, the Indian also laid down his gun and came forward. The two seated themselves on a pile of stones. Geronimo wanted to know what kind of a man Gen. Miles was, whether he had a bright eye or a dull one, whether he talked fast or slow, whether he was a large man, and what was his general appearance. He wanted to know all about him. Gatewood replied that Gen. Miles had a bright eye, did not talk much, but what he said could be relied on. The Indian was much pleased at this assurance, and together they walked away to find Capt. Lawton.

In regard to this a well-informed correspondent writes as follows: "I do not believe in the correctness of the last alleged synopsis of Miles's report, which represents that there were no conditions. General Drum was one of the first to read the report and he said, without hesitation, that there were conditions that would prevent the trial by civil courts of the renegades, and that would spare their lives. That much is assured. Now what is to become of Geronimo? My best information agrees with the reports in the evening papers that he, with his band, will spend the rest of his days at Fort Marion, Fla."

The Washington *Critic* says:

There were not any conditions allowed or promised the hostile renegades, but the band was outmarched and run down by the troops under Gen. Miles until they were glad to lay down their arms to get food and rest. The details of Lieut. Gatewood's heroic nerve in entering Geronimo's camp are given at length, and add much to the honor that young officer has earned. The patient endurance and tenacity of purpose exhibited by the gallant Capt. Lawton is also well shown, and Gen. Miles is not niggardly in praise for his work. The hostiles were point blank refused any "conditions" whatever, but were told that their only hope for mercy was with the President.

It may be that the fact of Gen. Miles not being a graduate of West Point operates somewhat against him; barely possible that his politics are too Democratic to be popular at the War Department, but the real influences at work to rob him of the prestige of the Apache campaign and involve him in unpleasant complications are of quite another sort, and not of the masculine gender.

Lieut.-Gen. Sheridan had a conference with the President on Wednesday on the Geronimo matter, and at its conclusion he said he was unable to tell how soon there would be any action on the subject. Everything that he had seen published about the Miles report he characterized as speculation of a rather wild description.

FORT LEAVENWORTH PRISON.

The annual report of Colonel Asa P. Blunt, commandant of the military prison at Fort Leavenworth, summarizes the improvements made in the way of constructing additional buildings to carry on the different manufacturing pursuits by the prisoners and additional quarters; gives an account of the prison with the Q. M. D., and reports the yield of the prison farm and garden. In closing Colonel Blunt expresses his appreciation of the different officers on duty at the prison, for the interest they have taken in the performance of their various duties, their exemplary conduct, and their hearty co-operation; also acknowledges his obligations to the prison commissioners.

Captain J. W. Pope, A. Q. M., who has charge of the manufactory department, shows that there were turned over to the depot quartermaster prisoners as laborers to the extent of 17,838 days' labor at 35 cents per day, or a total value of $6,243.30. Total amount of skilled labor employed during the year by the quartermaster's department was 67,184 days, valued at $33,592, or skilled and unskilled 85,022 days, valued at $39,835.30.

Surgeon B. A. Clements says the sanitary condition of the prison is excellent, and no case of the zymotic class of disease has occurred.

Chaplain J. B. McCleery, U. S. A., presents a most interesting report, one which does him credit as a Christian Minister. After discussing the causes which bring men to prison and other matters, he says: "This prison in its allotted work is not a failure, but no human good is so good that it cannot be better. The inequality of sentences for the same crime, under the same or similar circumstances, is a great barrier before us when we talk to these men about righteousness, justice and mercy. To permit the same offence in one man to go unpunished, while another is given the direst penalty of the law, is another thing very difficult to induce these men to forgive and promise not to try to remedy in their own good time and way; but such is the task presenting itself to a chaplain here. If a clear, plain statement of what a soldier is required to do was placed in the hands of every man applying to enlist, giving him time to study it in all its bearings, and then after examination by the recruiting officer he was found willing to take the oath, there doubtless would be few desertions from this class."

UNITED STATES NAVAL INSTITUTE.

COMMANDER WM. T. SAMPSON, Supt. U. S. N. A., presided October 13 at a large and interesting meeting during the reading of a paper on "Naval Reorganization," written by Captain A. P. Cooke, U. S. Navy, who, it is to be regretted, was unable to be present. A lively discussion followed, in which Passed Asst. Engr. W. F. Worthington, Commanders Allan D. Brown, P. F. Harrington, Wm. Bainbridge Hoff, Silas W. Terry, Lieut.-Comdr. C. H. Stockton, Captain A. R. Yates and N. H. Farquhar expressed their views. The debate closed at 9.40 P. M., and the chairman made some very interesting remarks. Commanders Brown and Hoff had come from Washington to attend the meeting.

The paper and the discussion will appear in Proceedings No. 39 in November. We give a synopsis of it elsewhere in this number of the JOURNAL. The meeting then went into business session and the following new associate members were elected, viz: Capt. J. M. Ingalls, 1st Art., U. S. A.; 2d Lieutenant E. W. V. Kennon, 6th U. S. Inf.; Capt. Shibayama, Imp. Japanese Navy; S. E. Dutton, San Francisco, Cal.; A. A. Hayes, Washington, D. C.

The secretary reported new life members, viz.: Comdr. Louis Kempff, U. S. N., and 2d Lieut. W. H. Stayton, U. S. M. C. Also the death of a distinguished associate member, Gen. Lloyd Aspinwall, of New York. The annual election then took place with the following result:

President—Edw. Simpson, Rear Admiral, U. S. N.; Vice-President—William T. Sampson, Commander, U. S. N.; Secretary and Treasurer—John W. Danenhower, Lieutenant, U. S. N. Board of Control—Comdr. P. F. Harrington, U. S. N.; Lieut. B. F. Tilley. Lieut. Chas. Belknap, Lieut. R. R. Ingersoll, Lieut. Chas. R. Miles, Prof. A. M. Terry, A. M. Ph. D.

HEAVY STEEL GUNS.

To the Editor of the Army and Navy Journal:

I HAVE watched with much interest the manufacture of heavy steel guns. Their recent failures here and in England have not surprised me, as, in my judgment, the gunmakers are now committing the same errors that civil engineers did when steel was first introduced as a structural material, *i. e.*, overloading it, or using steel of too high tensile strength. Nearly all failures in its use can be ascribed to this cause.

For several years past I have been obliged to examine professionally into the qualities of steel for structural purposes. This investigation obliged me to make several trips to Europe, as I was anxious to get the opinion and experience of all the principal steel workers of the world. This investigation convinced me that steel under 65,000 pounds tensile strength per square inch is very uniform and reliable, more so than any other cheap metal, but when the tensile strength is over 80,000 pounds per square inch it is unreliable and capricious, cracking and breaking without any apparent cause, and should never be used where its failure would cause serious damage.

I enclose you with this, copies of papers read by me before the American Society of Civil Engineers, on structural steel—giving the result of my examination.

No boiler-maker would think of using steel of over 65,000 pounds tensile strength per square inch—the pressure in the boiler is comparative steady and uniform; the gun-maker, however, uses steel of much greater tensile strength, consequently, very unreliable, notwithstanding the fact that the pressure in the gun is of the most dangerous character, being an instantaneous shock.

Is it strange that these guns fail, when the steel used in their construction is of a quality that no boiler-maker would use?

In my opinion it would be better to make the guns of steel of from 60 to 65,000 pounds tensile strength per square inch, increasing their weight proportionally, so as to get the necessary strength; this would give a gun *perfectly safe and reliable under all circumstances.* If steel of higher tensile strength is used, guns of greater theoretical strength are made, but practically weaker, failing when least expected, and without apparent cause or reason.

EDWARD BATES DORSEY, C. E., M. Am. Soc. C. E.
127 EAST 23D STREET, NEW YORK, Oct. 13, 1886.

Military Order of the Loyal Legion.

At the meeting, Oct. 6, of the Nebraska Commandery at the Millard Hotel, Omaha, a large number of the companions were present. At the conclusion of the business meeting Capt. W. H. C. Michaels read a highly interesting paper entitled "The Mississippi Flotilla." A banquet was then served, Col. Savage acting as toastmaster.

Circular 9, of Oct. 5, issued by the Commandery-in-Chief gives the roll of the several commanderies and is an useful document. The Pennsylvania Commandery will hold a meeting at Philadelphia October 20, when a large number of applicants for membership will be balloted for. The total strength of this Commandery, May 1, was 504. Capt. J. B. Johnson, Major C. R. Paul, Col. J. P. Martin, Gen. Thomas Wilson and Capt. T. J. Wint, all of the U. S. Army, have been transferred to the Kansas Commandery; Lieut. E. St. J. Greble, U. S. A., to the California Commandery.

THE STATE TROOPS.

INSPECTION OF THE TWENTY-SECOND N. Y.

THE inspection of the 22d on Thursday evening, Oct. 7, at the armory, was brief, rapid, and decisive. The majority of the members join us in regretting that it could not take place on Governor's Island, as contemplated. The better disciplined a National Guardsman is and the more efficient the organization to which he belongs, the greater his desire to show off in broad daylight in the field. The disappointment caused by the loss of the contemplated day on Governor's Island doubtless had as much to do with the rather large absentee list as the parade on the day before. Men who have taste for the military like to drill in the open air whenever there is an opportunity. We hope that on the next occasion of a similar character nothing will occur to mar the good work.

The regiment formed promptly under direction of Lieut. N. B. Thurston, acting adjutant. Full uniform, knapsacks, haversacks, and canteens, were worn, the officers having their overcoats slung in the usual manner. The command was steady and looked like a well-disciplined organization. Colonel Camp had command in person. There was no marching review. Colonel T. H. McGrath, accompanied by Colonel McLewee and Major Montant, made the inspection. The party walked briskly along the line, after which ranks were closed and the regiment at once wheeled into column of companies for inspection. The officers, as a rule, took their places promptly and properly, and gave their orders in the manner prescribed by the tactics, and the men threw up their pieces in a way which showed that they had been well-drilled in the performance. We mention these two particulars specially, because usually they give occasion for the display of much awkwardness. Accoutrements were adjusted in a soldierly manner, the men were properly dressed, collars hooked, uniforms well fitted, and pieces in good condition. The whole made the impression of an organization of real soldiers. The inspection was a credit to all concerned. This is all we can say, because there were no details on which to base a long story. Company B, Capt. W. V. King, deserves special mention for the reason that it paraded with a percentage of 100, or 90 members present out of 90 borne on the rolls. This is a phenomenon not often witnessed. The company's drill and bearing was in accordance with its strength. Its condition reflects credit on the energy and ability of its commander. This is the company which made the celebrated march from New York to Peekskill last summer.

Major Montant, in handling the pieces, displayed the same awkwardness referred to in our report of the inspection of the 9th in last week's issue.

REVIEW OF THE SECOND N. Y. BRIGADE.

THE 2d Brigade (Brooklyn) turned out for review by Gov. Hill, on Thursday, October 7, at the Parade Ground in Prospect Park. Compared with the New York turnout the day before, which was nothing but a march through about a mile of street, this affair had some merit in a military respect, and the labor and time of the troops was by no means entirely wasted. With delicious weather overhead and a level piece of turf large enough to admit of any manœuvre adapted to the size of the command, the troops made the most of the occasion and their performance reflects credit upon them and their officers. The 23d Regiment made a day of it, arriving on the field early in the forenoon and to their credit it must be said that they managed to get in a very satisfactory, though arduous piece of work. The regiment had responded to the call in large numbers and although it passed in review with 10 commands of 16 files, there were enough men present to admit of an equalization of 20 files, if the Colonel had been afforded an opportunity to call in his men, a number of whom were on guard and various duties at several points on the field. Without going into detail of its drill, fairness requires the statement that its manœuvres showed superior training, and the officers showed more thorough instruction than is usually the case. The white leggings, though not a part of the prescribed uniform, and not called for by the order announcing the parade, set off the appearance of the organization, and demonstrated their usefulness during the march over the dusty road leading to the park. Leggings are apparently regarded with favor by the troops and if they were made a part of the uniform officially, such a measure would be regarded by all with satisfaction. The third battery came on the field at an early hour and its handsome mounts, the intelligent appearance of the men and the well kept Gatlings made a very favorable impression. Men and horses worked hard in the subsequent manœuvres, which, although not always correct, were executed with a snap and promptness, rather astonishing, when the limited opportunities for mounted exercises enjoyed by National Guard Light Artillery are considered. "In the order in battery" Captain Rasquin had the horses of the different detachments posted between the pieces and limbers, which certainly does not agree with Par. 577 Upton's Artillery Tactics. This was wrong, because the Tactics have not been changed, and it was clearly a whim of the commandant.

The 47th came on the grounds in the forenoon and executed a number of battalion manœuvres in very creditable style. The regiment is not large, but it may be virtually called a new organization, Colonel Gaylor having now completed his weeding out of useless elements. He holds the regiment well in hand, and in a twelve-month hence it bids fair to be one of the best regiments in the State. The 13th, 14th and 32d Regiments arrived in the afternoon; the 14th about 30 minutes late, which delayed the formation of the brigade line, which had been ordered for 2 o'clock, until 2.30.

At 2.30 the call for formation of line was sounded and General McLeer began his brigade drill with an advance in double column of fours, and followed it up by a formation of column of battalions by fours right, left companies on left into line. He then executed a march by the flank by the command fours right, and wound up the movement by a formation of line to the front. The next was column of masses to the right on first battalion and a deployment on same battalion to form line of masses, followed by taking deploying intervals on first battalion to the left and a formation of line by deploying to the left on first division, first battalion. After an advance in brigade front, the line was halted and the command prepared for review by the Governor. The movements, which were easy, and, in effect, only such as would be required of each battalion acting as a unit, were fairly executed.

The troops at review behaved well, and the exhibition was impressive, and looked military. The Governor's party rode slowly around the line, which extended along three sides of the field, but the men stood steady as rocks. The step in the passage was, however, slow and mincing, and that free military swing which indicates that the troops feel easy and are master of the task in hand was absent. As in the New York parade on the previous day, the distances were defective. This seems not entirely due to misjudgment of distances, because it is asserted that many commanders take too much distance for the purpose of increasing the length of the column and the time of the passage. This is wrong. The faulty step noticed was largely the result of difference in the cadence as beaten by the several bands playing at the same time. If the bands had been massed, which is quite practical on a field, much trouble in this respect could be averted. The 32d had a small turnout, and the 17th Separate Company was almost invisible. The 14th had ten commands of 12 files, the 47th had only eight commands. It is questionable whether the 13th can still be called a military organization, but for the sake of those of its members who are good soldiers and know how to submit to discipline, we will state that the command passed creditably with an equalization of 10 commands of 16 files with blanks in the rear rank. When Col. Fackner, who looked military and unconscious of any trouble among those whom he commanded, approached the stand, he received a thundering ovation, being loudly called by name. As soon as he had passed the applause hushed, and the regiment passed by amid dead silence. Those on the stand were mostly military men of New York and Brooklyn, many of them of high rank, and all competent to appreciate the situation. Their spontaneous public endorsement of Col. Fackner is a most important verdict in his favor, as it reflects the opinion of the National Guard at large of the recent conduct of the 13th Regiment. When the regiment subsequently on its return home passed the 23d, company after company of the latter regiment broke out in loud cheers for Col. Fackner. As these cheers were entirely spontaneous and rendered by the enlisted men of the 23d, the matter is more significant than may appear at first glance. A majority of the men scarcely know Col. Fackner personally, and for this reason the applause must be regarded in the nature of an endorsement of good order and discipline on the part of the 23d and their abhorrence of the conduct of the 13th rather than a personal ovation. We congratulate the 23d on their appreciation of military propriety. The 3d Battery passed in good shape.

We have not the space to give the battalion movements executed in the forenoon in detail. The whole affair was begun and concluded in a satisfactory manner with credit to the force engaged. We noticed carelessness in dress and general bearing of the guard at the stand and elsewhere.

INSPECTION OF THE EIGHTH NEW YORK.

THE fact that the 8th Regiment chose to be inspected in the armory of the 22d Regiment instead of in its own dingy quarters, was generally favorably commented upon, because it gave the regiment an opportunity to show off to best advantage. The only argument to be made against the organization on the occasion is the slimness of the turnout, but as the condition of the regiment is well known it could hardly have been expected otherwise. The ceremony was well performed, and what there was of the regiment tried to do its best and succeeded fairly well. The men were steady and evidently bent upon doing their best, and under the circumstances they deserve much credit for the manner in which they acquitted themselves. The march of the regiment from 27th street to the 22d Regiment Armory was nicely done. The immense audience assembled at the latter place to view the performance showed that it holds a warm place in the hearts of the community, and that a deep interest is taken by the public in its fortunes. Lieut. Col. Schilling commanded, because Col. Scott was attending at a meeting of the colonels of the 1st Brigade about a proposed parade at the inauguration of the Bartholdi Statue. The Colonel, however, shortly after the arrival of his command, made his appearance and watched the performance with much interest. There was no performance beyond a standing review, and the inspection and the regiment acquitted itself well in both instances. Maj. Montant, Inspector 1st Brigade, showed great improvement in the performance of his functions.

INSPECTION OF THE 71ST NEW YORK.

TAKING the turnout of the 71st at their inspection on Tuesday evening, Oct. 12, in connection with their fine appearance on Governor's parade last week, the only conclusion to make is that Col. E. A. McAlpin's energy in managing his command is at last bearing fruit. In spite of the large ab-

sentee list the command is evidently improving. This is a very gratifying fact in view of military decay of every description in all directions. It is to be regretted that Col. McAlpin did not avail himself of the offer of Col. Camp, of the 2d Regiment Armory, for the inspection. While this armory is also but a poor concern, there is at least room there to form a small-sized regiment. The remarkable construction of the drill room of the 71st did not even admit a decent formation. Half of the command was in one room and the other half in another room. It was scarcely possible to tell where the line began and where it ended, and at no time could the line be viewed without losing sight of a part of it. There was consequently no military effect to the ceremony. However, the condition of the armory is well known, and no shortcoming resulting therefrom can reflect upon the regiment. The formation of the regiment was promptly on time, but it was rendered somewhat of a failure by the drum major who saluted the inspector, Col. McGrath, with three ruffles as prescribed for a major general. The colonel tried to nip this little gratis performance in the bud, but the drum major was too quick for him. The companies were then marched off again and another formation was had without ruffles. The adjutant in presenting the battalion never opened his mouth. That was all there was wrong about the formation. After opening ranks and a brisk walk along the line by the inspecting party the regiment wheeled into column of companies for inspection, which was concluded in a rapid manner. The men were fairly steady and acted soldierly during the whole performance, but their awkwardness in throwing up the pieces for inspection, and their ignorance with regard to stacking arms, indicates that the manual of arms is drilled more for the purpose of show than for practical service—the old story. In some companies while officers were in the act of instructing men in stacking arms, there appeared some inclination on the part of the latter to be argumentative. These are about the only strictures to put on the inspection, which, on the whole, was a very satisfactory affair everything considered. There were many military spectators, and all evidently recognized and seemed pleased at the apparently improved condition of affairs. It is to be wished that the 71st will keep up the progress.

INSPECTION OF THE SIXTY-NINTH.

The inspection of the 69th at the armory on Monday evening, Oct. 11, like all inspections which have taken place this year, so far, was characterized by a large percentage of absentees. Men do not take interest in inspections in the evening. When ever this regiment is for any prolonged period under the direct supervision of Col. Cavanagh, as, for instance, in camp, it always makes a creditable record, because the men can be handled easily if properly managed. Let, however, the Colonel's grip relax and the company officers resume their usual responsible ties of everyday National Guard life, discipline and instruction at once begin to retrograde. In other words, the general supervision of the regiment is efficient, but on points which come properly under the immediate charge of the company officers, it is weak. This becomes apparent on every occasion when the condition of the regiment is looked into closely.

The 69th is numerically strong and therefore in spite of the large absentee list it turned out in sufficient force to fill up the armory. When the large number of spectators present in the drill room is considered in this connection, it will be seen that there was but little space for manœuvring, and the Inspector did not order any drill. The command looked well, the men strong and ablebodied. The officers, however, did not keep them well in hand, and there was the usual delay peculiar to this regiment resulting from imperfectly prepared rolls, confusion in accounting for absentees, etc. The men were allowed to straggle and there was one company where over a dozen men who were reported as present on the rolls, were permitted to go out during the inspection and straggle back at their own pleasure. The Captain seemed to lack control completely. In many cases the adjustment of dress, the condition of belts, etc., showed lack of care and supervision. The inspection presented no special features. The 69th will always be a prominent organization on account of its well filled ranks, strong esprit, superior physique of the rank and file, and the ease with which they can be subjected to discipline if the proper means be used. An efficient corps of company officers of superior social standing to the enlisted men is, however, necessary for the purpose of raising the organization to the proper point of efficiency. This point has so far not been attained, but the rapid manner in which the men will acquire soldierly habits, as shown at Peekskill, warrants the assertion that the proper standard of soldiership could be acquired easily by the right management.

RIFLE PRACTICE IN THE GUARD.

To the Editor of the Army and Navy Journal:

The criticisms contained in the article in the last number of the Journal in relation to the rifle practice by the National Guard at Creedmoor are largely correct. At the same time I submit that they do not touch upon the real difficulty. Undoubtedly the object of military shooting should be to teach each man the use of the rifle he carries. If his instruction does not do this it is necessarily incomplete. But how is this to be done with the limited time and ammunition which is available to the National Guardsmen? Taking the rifles as they are carried by the National Guard of New York, out of 100 not more than 60 will correspond sufficiently in the way in which they are sighted, that a good shot can make respectable shooting with them at over 300 yards. The others are so imperfect from the sights being improperly adjusted, or from other defects, that the proper method of aiming them can only be ascertained by actually shooting them at every distance, not once but many times.

When a regiment goes to Creedmor, particularly one of the larger organizations, the time available for each man is very short. The practical experience of the great majority is limited to what they have been able to learn from the one or two visits to the range they have made within the year, and the difficulties arising from the atmosphere alone are all that they are able to contend against. If, in addition, they are required to learn by themselves the peculiarities of their different guns, how much shooting could they do in a day, and how much ammunition would they be required to expend?

Would it not be better for the State to have the rifles tested by some competent rifleman, and resighted, so that they will all shoot alike, condemning all those which are found imperfect? This would not be expensive, and would result in procuring uniformity, which would be to enable each man to shoot with his own gun, and an officer to know how to direct him to do it properly. This would render sighting shots unnecessary.

But I submit that the real difficulty in the instruction in rifle practice of the National Guard at the present time lies behind the point which you criticized. It is, that there is practically no instruction at all. Some of the regiments, such as the 7th, have a fine shooting gallery in their armory, that is used to such an extent by their members as amounts to instructing them in shooting, and the results appear in their large number of marksmen, and small number of third-class shots. But outside this, and in other organizations which have no galleries or use them but little the best information that I am able to get is, that instruction in rifle practice has for the last few years been given up. The foundation of our system of rifle firing is, "that the range is not a place to learn, but to show what has previously been taught." How is this carried out now-a-days? With rare exceptions there is no instruction given in aiming or position drill in any of our regiments, consequently with the exceptions above stated the general skill of the troops when they are brought down to Creedmoor to shoot their class practice is little, if any, superior to what it was in 1876, the second year after instruction on rifle practice was first introduced in the National Guard. The officers now know how to handle their men and there are a number of "team men" whose aid helps many a recruit through, but the mass of the men come on the grounds no better instructed now than they were then. I would be very glad if this statement was incorrect, but from the statements which I have heard made by officers of different organizations I am satisfied that it is true.

Anybody who has been at Creedmoor and noticed the firing of the different companies, particularly the volley and skirmishing, cannot help but be impressed by the ignorance and timidity displayed by the men, and, particularly by the recruit, which ignorance would not be displayed if any previous instruction had been given on the use of their rifle. The Journal could not do any better service for the National Guard than to impress upon their commanders that if soldiers are to be divided into those that shoot and those that merely serve as targets, the latter are of no use. That they must teach their men to fire accurately by requiring proper aiming and position drill to be regularly carried on under proper supervision throughout the drill season. That this practice is an important, if not the most important part of their instruction, and that no man is fit to take his place in the ranks of a company as a drilled soldier, unless he is able to aim his rifle accurately. If this is once attained, the firing at Creedmoor will not only become much more accurate but men will know enough to be able to shoot the guns that they carry, even if they differ somewhat in the manner in which they are sighted. G. W. W.

New York, October 12, 1886.

NATIONAL GUARD ITEMS.

On Monday evening, Oct. 4, the investigation of Lieut.-Col. Jacobs's accounts with the 1st Cavalry, I. N. G., was resumed. The principal work accomplished was examination

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of ow test, short weight, alum or phosphate powders. *Sold only in cans.* Royal Baking Powder Co., 106 Wall st., New York.

BAKER'S
Breakfast Cocoa.
Warranted *absolutely pure Cocoa,* from which the excess of Oil has been removed. It has *three times the strength* of Cocoa mixed with Starch, Arrowroot or Sugar, and is therefore far more economical, *costing less than one cent a cup.* It is delicious, nourishing, strengthening, easily digested, and admirably adapted for invalids as well as for persons in health.
Sold by Grocers everywhere.
W. BAKER & CO., Dorchester, Mass.

ALLAN RUTHERFORD,
Late Third Auditor U. S. Treasury, late Captain U. S. Army, and Colonel of Volunteers),
ATTORNEY AND COUNSELOR AT LAW,
(Corcoran Building), F. and Fifteenth Streets, Washington, D. C.
Havin been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refers to Gen. W. S. Rosecrans, Register U. S. Treasury, Washington, D. C.; Hon. John S. Williams, 3d Auditor, U. S. Treasury, Washington, D. C.; Hon. W. P. Canaday, Sergt.-at-Arms, U. S. Senate, Washington, D. C.; General O. O. Howard, U. S Army.

SPORTSMAN'S
The Latest and becoming very popular. Manufactured by special request.

NEW YORK

by the prosecution of Capt. Hiltman, of Troop A, and Private Tansey, the latter having been formerly employed as janitor. The evidence showed very conclusively, that there was a surprising lack of system in the management of the accounts, and that while there was apparently no intention to defraud the regiment, the careless book-keeping was, in itself, deserving of censure. Nothing in the organization of State militia helps so much to keep it on a successful footing, as a few ex-Regulars scattered through the various companies. The 1st Cavalry, I. N. G., the only organized regiment of militia cavalry in the United States, has over a dozen non-commissioned officers, musicians and privates, who have served in the Regular Army on the Western plains. The genial and whole-souled Adjutant Wickersham, is a veteran of the Civil War and was brevetted Major for gallantry. Sergt.-Major Chas. C. Ames has served through two enlistments on the frontier and performs his duties in such a thorough military manner that no suggestions are necessary. Chief Trumpeter Wiggin put in a term in the U. S. Cavalry, and Trooper Peckham, the man who made the best shot in the 1st Brigade at Camp Lincoln, was formerly a soldier in the Regular Army. Sergt. Norris was Q. M. Sergeant in the 14th Hussars, and was at the famous charge of the Light Brigade near Balaklava. When sixteen such men are scattered through four companies, a satisfactory result is assured and to-day no regiment in Illinois bears so close a resemblance to United States troops as the 1st Cavalry.

NATIONAL MILITIA ENCAMPMENT.

THE proposed national encampment of uniformed militia of the United States at Washington next year bids fair to become a pronounced success. A national competitive drill and rifle competition are the principal objects of the meet. The executive committee in charge of the enterprise have received letters from hundreds of prominent people throughout the country indorsing the project and offering assistance in carrying it out. Although no official communications have yet been sent out to the militia companies, letters have been received from 16 infantry companies, one cavalry company, four artillery companies and three companies of zouaves, asking admission to the drill. The sum of $23,500 has already been subscribed to the fund, and as much more is promised. Prizes aggregating $25,000 will be offered.

NEW PUBLICATIONS.

The story of Raleigh, in D. Appleton and Co.'s series of English Worthies, edited by Andrew Lang, is told by Edmund Gosse, M. A., Clark Lecturer in English Literature at Trinity College, Cambridge. It is the first life of Raleigh in which the fresh matter procured ten years ago by Mr. Edward Edwards and by Mr. James Augustus St. John has been collated. It contains various minor data obtained from other sources and now for the first time published, and is the first attempt to portray the personal career of Raleigh disengaged from a general history of his time. The "Discourse of War" is recommended to the modern reader as the most generally pleasing of Raleigh's prose compositions, and the one in which, "owing to its modest limits, the peculiarities of his style may be most conveniently studied." Of the final scene in the life of Raleigh his biographer says: "He took his public execution with delight, as if it were a martyrdom, and had the greatness of soul to perceive that nothing could possibly commend his career and character to posterity so much as to leave this mortal stage with a telling soliloquy. His powers were drawn together to their height; his intellect, which had lately seemed to be growing dim, had never flashed more brilliantly, and the biographer can recall but one occasion in Raleigh's life, and that the morning of St. Barnaby at Cadiz, when his bearing was of quite so gallant a magnificence. As he stood on the scaffold in the cold morning air, he foiled James and Philip at one thrust, and conquered the esteem of all posterity. It is only now, after two centuries and a half, that history is beginning to hint that there was not a little special pleading and some excusable equivocation in this great apology which rang through monarchical Engl nd like the blast of a clarion, and which echoed in secret places till the oppressed rose up and claimed their liberty."

Benson J. Lossing, LL.D., tells the story of "The Two Spies, Nathan Hale and John André," in a way to set forth in sharp contrast the motives and the character of the two. Hale said: "I wish to be useful. If the exigencies of my country demand a peculiar service, its claims to the performance of that service are imperious." André avowed that in the enterprise in which he was engaged all he sought "was military glory, the applause of his king and country, and, perhaps, a brigadiership." The last words uttered by André under the gibbet indicated that his supreme thought at that moment was of himself: "I request of you, gentlemen, that you will bear me witness to the world that I die like a brave man." Hale said, "I only regret that I have but one life to lose for my country." Yet André is the hero of story and romance; a monument in Westminster honors his remains and one has been erected at the scene of his execution—which expresses the English rather than the American sentiment concerning him. Hale lies in an obscure place, and only of late years has an attempt been made to restore his memory from oblivion. Mr. Lossing is always an interesting writer and is especially at home in the field of Revolutionary recollections. His volume is illustrated by spirited pen and ink sketches, copied from his own original drawings, and to it are added the full text of André's "Cow-Chase," the famous "Monody on Major André," by Miss Anna Seward, with a portrait and brief biographical sketch of the author: also three characteristic letters written by André to Miss Seward, when he was a youth of eighteen. The volume is published by D. Appleton and Co.

Mr. Vernon-Harcourt, the author of "Rivers and Canals," has given us the result of further researches in the kindred subject of "Harbors and Docks," in a work entitled, Harbors and Docks, their Physical Features, History, Construction, Equipment and Maintenance. By Leveson Francis Vernon-Harcourt, M. A., M. Inst. C. E. Oxford: At the Clarendon Press. Four chapters are devoted to detailed descriptions of British docks and two to foreign docks and river quays. Seven appendices give in a tabulated form information concerning the height and range of tides at different places, the constitution of concrete as used in some of the works mentioned, and commercial details, as to the growth of trade both in tonnage and value. The second volume is devoted entirely to plates. One interesting statement in the work is concerning the results of some careful experiments in pile-driving for the New York quays. The bottom referred to consisted of mud 200 feet thick, and it was found that though a 100 ft. pile driven its full length into the mud by an 18 cwt. ram with a 10 ft. fall, yielded some inches at the last blow, and could be pulled up again directly afterwards with a strain of only three or four tons, yet if the pile was left for some hours it was impossible to draw it, and when left for several days, any further attempt to draw it only injured the head.

Among the readable novels recently issued by the J. B. Lippincott Company, Philadelphia, are: "Lady Valworth's Diamonds" and the "Haunted Chamber," by "The Duchess," in one volume, price 75 cents, and "A House Party," "Don Gesualdo" and "A Rainy June," by Ouida, one volume, price, $1. The lovers of the works of The Duchess and Ouida, and they are legions, will find reproduced all the distinguishing traits of these favorite authors.

SOME ONCE FAMOUS GENERALS.

FROM an article with this title in the New York *Sun* we extract the following:

Gen. Abner Doubleday is occasionally seen at the Astor House. No one could be more unmilitary in appearance. He appears more like an agriculturist who has come to the city to see the proper sights. Yet he was the chief of artillery at Gettysburg, and his services of this arm was one of the memorable events of that battle. He is unknown, and spends much of his time while in the city in rumaging over the books at the second-hand bookstores.

A handsome, well-dressed, dignified man, who is frequently seen in the lobby of the Fifth Avenue, would be taken for a prosperous man of business rather than the General who commanded Burnside's left wing at Fredericksburg. Yet General Franklin has both records. He has flourished since the war better than some of his noted companions in arms.

Little Joe Wheeler has been trying to interest New York capitalists in the development of the rich Alabama lumber districts. Though little Joe is scarcely five feet four in height, and walks with stooped shoulders as though his body were not strong enough for his large head, yet he was ranked with Wade Hampton as one of the most dashing cavalry Generals in the Confederate Service.

Gen. Ned. Harland, who is now most of the time in New York as receiver of the American Rapid Telegraph Company, was regarded as one of the ablest of the Brigadier-Generals. He never knew fear, and yet is singularly quiet and undemonstrative.

Gen. Averell, who is the head of the Averell Conduit Company, is the same Averell who ranked with Custer, Kilpatrick, and Pleasonton, as one of the dashing, brave, and spectacular cavalry commanders of the war. The General has not had a flowery path since the war, but thinks he sees fortune ahead now. He is an elderly, dignified man, thick set, with pleasing eyes and smile, and so gentle in manner that one wonders if he can be the same man who dashed up the Shenandoah Valley so furiously in 1864.

Gen. Alf. Pleasonton has recently been spending some days here on purely literary business. No one would take him for a warrior who had won great renown before Sheridan was much known. His lines have not been laid in pleasant places since the war.

THE engagement is announced between P. Asst. Surgeon John C. Boyd, U. S. N., and the only daughter of C. C. Willard, of Willard's Hotel fame. They are to be married in February of the ensuing year. Dr. Boyd is at present on duty in the Bureau of Medicine and Surgery. He was appointed from South Carolina as assistant surgeon April 3, 1873.

THE MESS.

"I see," said Stubbs, "that Dr. Michael Foster tells the British Association that smoking tobacco produces defective vision, do you believe it?" "Oh, I'm sure of it," replied Mrs. S., "for I saw your friend Butts last evening puffing away, quite unconscious that there were several ladies in the room."

—

Geronimo is a U. S. prisoner. P. S.—U. S. stands for unconditional surrender.—*Critic.*

—

THE MIDDY.

(Dedicated to the Class of 1887, Annapolis, by a Middy.)

Oh, the midshipmite,
In his jacket tight,
Laughs at the thought of care;
And complacently smokes
And cracks his bad jokes
With the air of a *mousquetaire.*

He longs for the day
When he sails away
On a two years' cruise at sea,
With his blonde mustache
And unlimited cash
To pay for his *Eau-de-Vie.*

He feels very grand
As he takes his stand
In the stern of the Admiral's barge,
And waves a last kiss
To the heart-broken Miss
Who wishes him "*bon voyage.*"

Oh, the midshipmite
Is a thing of light
As he swells round the big ironclad,
With his swaggering air,
So "devil-may-care,"
He's a terror to everything bad.

COST OF RIEL'S REBELLION.

THE commission to adjust claims arising out of the late rebellion has awarded $1,000,000 to the Hudson Bay Company and $600,000 to the Canadian Pacific Railway Company. These amounts have both been paid by the Dominion Government. There is a balance of $100,000 still in dispute between the Government and the Canadian Pacific Up to the present time 1,800 claims have been settled.

FOREIGN ITEMS.

LORD HARRIS proposes to convert the English Yeomanry into Rifle Cavalry.

THE floating islands of pumice, thrown up by the late stupendous volcanic eruption at Krakatoa, in the Javan seas, are found to have drifted in the Indian Ocean, 676 miles in a direction west by south, from the spot where they were a year ago.

THE first railway constructed in Japan was opened in 1872, and at the close of March, 1885, the extent of line in operation was 266¼ miles, established at a cost of £3,447,760. The extent of line now in course of construction is returned at 272½ miles, while further lines are under survey to the extent of 524 3-8 miles.

A SERIOUS attempt is to be made to ingraft mounted infantry upon the British Army. The Duke of Cambridge has sanctioned a plan for instruction of a large number of men selected from the infantry battalions of the Southeastern District, in the duties of mounted infantry. They must be first-class shots, receive extra duty pay, and have horses left behind by the 7th Hussars, now under orders for India. The course of training will extend over two months.

THE *Resistance* experiments were not resumed according to programme, owing to the injury done to the ship on the previous trial. During the day men were able to keep the water under, but after dark they found that it was percolating in every direction, and they were utterly unable to cope with the inflow. The leakage must have been caused by the springing of the plates, as the diver had previously reported that there was no hole in the hull of the ship. The vessel was docked and repairs taken in hand at once.

THE EBBITT:
WASHINGTON, D. C.
ARMY AND NAVY HEADQUARTERS.
Four Iron Fire Escapes.
[illegible] and $4.00 Per Day

AT the close of June, 1885, Canada had 10,773 miles of railway as compared with 4,929 miles in 1876.

A NEW Spanish Cabinet has been formed, which includes Gen. Castillo as Minister of War and Admiral Arias as Minister of Marine.

THE *Nouveau Monde*, of Paris, publishes a letter from Gen. Diaz, President of Mexico, to the effect that during the attempt to establish an empire in Mexico, Marshal Bazaine, through a third party, offered to place in his hands the towns occupied by the French and to surrender Maximilian, Marquez, Miramon and others if he accepted a certain proposal, which Diaz rejected because he deemed it dishonorable.

IN practice the choice of a particular metal for a particular purpose, according to its degree of hardness, may be of consequence. It may, therefore, be useful to give the following scale of hardness of certain metals, arrived at by Gallneo after an infinity of trials: (1) Pure soft lead; (2) pure zinc; (3) pure hard lead; (4) soft yellow brass; (5) cast fine copper; (6) soft journal bronze; (7) malleable cast iron; (8) fibrous wrought iron; (9) gray cast iron; (10) cast iron which has been repeatedly melted; (11) soft Bessemer metal; (12) unhardened Bessemer steel; (13) hardened Bessemer steel; (14) crucible cast steel; (15) crucible cast steel hardened to a soft temper; (16) hard journal bronze; (17) crucible steel of hard temper.

A PARIS despatch says: There is a vivid growth of the war feeling in France. The Boulanger party have begun the issue of two new journals—*La Revanche* and *Le Soldat Laboureur*—to advocate an offensive policy in vindication of the old military prestige of France. Gen. Boulanger, however, disowns any connection with the papers. M. Lavedon, the military critic, writes to the *Figaro* that Gen. Boulanger has prepared a well conceived plan, in conjunction with a staff officer of high rank, for a Continental campaign. The *Militaire* says that Gen. Boulanger desires war, not for the purpose of recovering Alsace, not to gratify personal ambition, but as a step leading to the solution of social questions. The strictest taboo of everything German is being observed. M. Lockroy, Minister of Commerce, has ordered the police to prosecute all persons selling boxes of toys imported from Germany and containing a map of France without Alsace.

THE Kinney Tobacco Company of New York, successor to the famous Kinney Bros., pursue the even tenor of their way, and maintain, with undiminished zeal, the high reputation of their various brands of tobacco. Their latest "Sportsmans," a blend of choice Turkish and Virginia, has struck a popular chord and is in great demand. Their cigarettes are so well known that to mention them is sufficient. All are of excellent quality, Caporal, Sweet Caporal, St. James, Ambassador, etc. Customers will find this firm a good one to deal with, straightforward and honest, and in accord with the times in matters of price.

UPON requisition any Commissary in the U. S. will furnish you with Vallette and Mitchell's
"ECHO,"
"A five cent cigar fit for a gentleman to smoke."

R. W. TANSILL & Co., Chicago, are now making especially for the Officers of the Army and Navy a new and very fine Havana hand-made cigar, known as "TANSILL'S REINA." They are put up in beautiful packages of 25 cigars, each cigar banded. They come in three sizes, 4¼, 4⅛, and 4¾ inches, while their moderate cost, viz. $65, $70, and $75 per thousand brings them within the reach of the entire Service.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

BIRTHS.

MERRIAM.—At Fort Spokane, Wash. Ty., September 21, 1886, to the wife of 1st Lieutenant Lewis Merriam, 4th Infantry, a son.

Detachable Magazine, charged.

Remington-Lee Musket with Magazine attached.

The Remington-Lee Detachable Magazine Rifle.
Recommended by the U. S. Magazine Arms Board,
First in Order of Merit for Trial in the Field,
AS A SERVICE ARM FOR THE U. S. ARMY.

A single Breech Loader, that can be instantaneously changed into a perfectly safe Magazine Arm, giving an unequalled rapidity of fire.
Smaller number of component parts than any other Arm ever made. Every part simple and strong.
Magazine may be attached or detached in one second, and the Breech System dismounted or assembled in ten seconds.

The Rifle weighs 8¼ lbs. without bayonet, and can be used as a Sporting Arm.
The possibility of a premature discharge through the bullet of one cartridge coming in contact with the primer of another, from the shock of continuous firing, the simple performance of ordering arms, or the effects of a long march—incidents of danger inseparable from Repeating Arms that carry their cartridges in Tubular Magazines under the barrel or in the butt-stock—is absolutely prevented; the position of the cartridges in the Lee detachable magazine not only assuring safety against explosion by impingement but against the deformation of the projectile by "upsetting."

RELATIVE RECORDS of the three arms recommended in order of merit by the late U. S. Magazine Arms Board:

	Remington-Lee Magazine Rifle.	*Chaffee-Reece.*	*Hotchkiss.*
Two minutes' firing as repeater with accuracy	68 shots, 41 hits.	38 shots, 25 hits.	31 shots, 14 hits.
Two minutes' firing as single loader	46 shots, 31 hits.	41 shots, 15 hits.	45 shots, 21 hits.

THE LEE MAGAZINE RIFLE is the only Military Repeating Arm which has demonstrated its superiority in RAPIDITY with ACCURACY as a REPEATER over its execution as a SINGLE LOADER.

Descriptive pamphlets in English, Spanish, and French sent on application.

NEW ENGLAND MUTUAL Life Insurance Company,

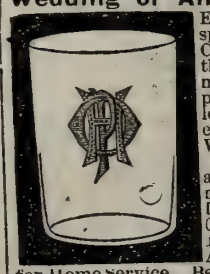
OF BOSTON, Mass.

Assets, ... $17,846,546.65

Liabilities, ... 15,238,761.16

Total Surplus, . $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.



Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on applicadon at Compy's Office, *POST OFFICE SQUARE.*

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 13. WHOLE NUMBER 1209. | NEW YORK, SATURDAY, OCTOBER 23, 1886. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE Board appointed to make the statutory tests of the new Navy guns are still waiting for a proper standard of powder before beginning the firings. The equivalent they have decided upon for "battle firings" is understood to be ten rounds fired as rapidly as possible with each type of gun.

THE Elcho Shield, won by the Irish team this year at Wimbledon, has been handed over to the custody of the Lord Mayor of Dublin, where it will again grace the walls of the City Hall. The Elcho competition was established in 1862 and opened to representatives from Ireland in 1865. Since then Ireland has won it eight times; six times since 1875, to four victories for England and one for Scotland.

INSPECTORS GENERAL have had the inspection of State universities and colleges, to which Regular Army officers are assigned, added to their duties. They are to make annual visits to these places and report upon the duties performed by the officer instructor; the number of students at each college, their standing, etc. The main object of these visits is to see that the Department is not being imposed upon in the matter of detail of instructors. Each of the Inspectors General will inspect the colleges within a certain limit from their stations. Major FARNSWORTH is off from Washington this week on this duty.

AS ILLUSTRATING the advantages of systematic training in rifle firing the London *Army and Navy Gazette* calls attention to a regiment of native infantry which was, for many years, one of the worst shooting regiments in India, till their musketry was taken in hand by an officer who understood his work. He corrected the sighting of every rifle himself, and originated a system by which every duty was made second to musketry. All things turned upon it; good shots received indulgences, and private practice was encouraged to a great extent. In one year the regiment rose from near the bottom of the list to the best shooting regiment in the whole native army, with an average of 85 per cent. marksmen.

A CORRESPONDENT referring to the discussion last week before the Military Service Institution of the U. S. as to "How to Feed the Soldier," writes: "Why not try the British garrison plan? It is simple and economical, eliminates the chances of complaint by the men and would save an untold amount of labor and expense to the Government on account of subsistence." We may say that we have some practical knowledge of the system suggested and believe it to be a good one, although it might not be so easily worked at our remote, although permanent, garrisons, as it is by the large garrisons in England, stationed in cities with ample facilities to purchase groceries, etc., from neighboring provision stores.

WE referred last week to the retirement for age, October 19, of Colonel J. N. G. WHISTLER, 5th U. S. Infantry, and gave the promotions which would ensue therefrom. The day of retirement arrived on Tuesday, and Colonel WHISTLER, after an active service of over forty years, enters upon the enjoyment of that rest which his long and faithful services have so well earned for him. He was graduated from West Point July 1, 1846, and rose step by step until he attained the colonelcy of the 5th Infantry, May 31, 1883. In the Mexican War he received the brevet of 1st Lieutenant for gallantry at Contreras and Churubusco, the brevets of Major, Lieutenant-Colonel and Colonel for North Anna and Petersburg, and the brevet of Brigadier-General of Volunteers for "gallant and meritorious services during the war." He served from 1862 to 1865 as Colonel of the 2d New York Artillery.

THE *Century Magazine* commences in its November number the publication of a new life of LINCOLN. It is written by the two gentlemen employed by Mr. LINCOLN as his private secretaries during his term as President, JOHN HAY and JOHN G. NICOLAY, who have been engaged upon it for the past sixteen years. They have had access to a large amount of material never before made use of, and the volumes will contain revelations very unpleasant for the gentlemen who took part in the conspiracy which led to the Rebellion while continuing to hold office under the United States Government. They will be convicted of double dealing upon the evidence of their own letters, and General SHERMAN'S statements as to the existence of a conspiracy preceding the war will find abundant confirmation. Messrs. NICOLAY and HAY make no attempt to eulogize Mr. LINCOLN, but their simple presentation of the facts of his history will set him forth in clearer light than ever as the master spirit of the great revolution which transformed our Government in those eventful years from 1860 to 1865.

WE publish this week the proceedings of the court martial in the case of the officers of the cadet battalion at West Point, in reference to whom the President has, in our judgment, made a wise use of his power of condoning offences. It was not to be expected, or desired, that the Academy authorities should overlook a direct breach of discipline, and the punishment adjudged by the court was that which logically followed from the offence. At the same time it is to be remembered that these young men were sent to the Academy for the purpose of being disciplined for the Army, and not out of the Army, and it is a subject for congratulation that a way of escape from the consequence of their one thoughtless act has been found, without too greatly relaxing the bonds of discipline. The stress of military training upon youthful exuberance of spirit is very hard, at the best, and it requires the wisest possible adjustment of means to end to bring the ill-regulated freedom of youth under the restraints of army discipline, without so overstraining the tension of authority that it breaks altogether.

COLONEL CASEY'S assignment to duty in New York as President of the Board of Engineers places him in the direct line of promotion to the office of Chief of Engineers. General WRIGHT was president of the Board before he was placed in charge of the corps, and Generals NEWTON and DUANE followed to the office through the same channel. He will be the ranking officer of his corps after the retirement of General DUANE June 30, 1888, next to General GILLMORE, who retires eight months later, leaving Colonel CASEY nearly seven years active service after the retirement of his chief. Colonel CASEY will continue to direct the work on the monument and the State, War and Navy Buildings. All the other work that has been under his supervision, including the improvement over the grave of Thomas Jefferson at Monticello, Va., the erection of a statue of the late President GARFIELD and a pedestal therefor, the erection of monuments at Washington's headquarters, Newburg, N. Y., and at WASHINGTON'S birthplace. and the erection of a building for an Army Medical Museum and Library, is to be assigned to Colonel WILSON. Colonel CASEY will therefore keep open his office in Washington, and as his family will remain there, much of his time will be spent in travelling between the two cities.

THE annual report of the Adjutant General will show a very gratifying reduction in the number of desertions in the Army during the fiscal year ending June 30, 1886. The number aggregates but 1,800 against 3,100 in 1885, 3,600 in 1884, and almost an equal number in the four or five preceding years. The stereotyped reasons heretofore assigned by those whose duty it is to report on causes of desertions can now be changed to explanations as to the factors which brought about the very large reduction during the past year. General DRUM'S report will show that the amendment to the regulations made last fall, by which enlisted men are not to be recorded as deserters until after ten days from date of disappearance, has aided very materially in lessening the number. Past experience has shown that the soldier frequently absents himself without leave for the purpose of a little "spree," and when sobered up is quite willing to return to duty if he can escape a trial by Court-martial as a deserter The ten days limit was prompted to cover just such cases, and, as the results show it, has proven very satisfactory. The strict manner in which the rules governing the selection of recruits has been enforced during the past two years, has also tended to reduce desertions, a better class of men being thereby secured. The new retirement law for the soldier is also, no doubt, regarded as a strong inducement to remain in the Service.

WITH regard to the Naval War College, and other subjects, a correspondent writes: There is throughout the Service a hearty unanimity as to the good which will result from what may be called a post graduate course, but we want the work to be carried on at Annapolis, which is the place above all others. There is a feeling, and a strong one too, against Newport's War College. We are trying to reduce stations and increase the efficiency of a few. If all the money, energy and talent spent in Newport were spent in getting ships, guns, etc., there would be a more hearty support of a war college at the Naval Academy, requiring no outlay. In your last valuable JOURNAL I notice you ask why our present Board of Examination—or Selection, for it is that, fails to accomplish its intended purpose? The answer is very simple indeed: "Make the Board do its whole duty, without fear or favor, and I warrant it would realize all we have longed for." Your correspondent, who thinks nothing can be worse than the present plan, gravely proposes to form a board of three senior officers to select, etc. He already condemns the seniors; yet he proposes still to continue them!! I think the Service at large are perfectly satisfied with the present plan, only they complain of the way in which the duty is done. Make the Board do its plain duty and no one can complain. This question of promotion by selection is very detrimental to the discipline and harmony of the Service. If its agitators were only sent to sea to do legitimate service much benefit would come to the plain seafaring ones, who are trying to do their duty quietly without knocking in the head officers who have borne the heat and burden of the day.

PERSONAL ITEMS.

—

LIEUTENANT D. L. HOWELL, 7th U. S. Infantry, has been visiting friends at Keokuk, Iowa.

GENERAL P. V. HAGNER, U. S A., was a recent guest at the Continental Hotel, Philadelphia.

LIEUTENANT J. E. RUNCIE, 1st U. S. Artillery, has joined at Fort Mason, Cal., for temporary duty.

MAJOR J. C. BATES, 20th U. S. Infantry, leaves Fort Assiniboine this week on a month's leave.

CAPTAIN R. G. HEINER, 1st U. S. Infantry, has taken charge of recruiting matters at Benicia Barracks, Cal.

LIEUTENANT COLONEL J. G. TILFORD, 7th U. S. Cavalry, will prolong his stay East until early in November.

EX-PRESIDENT GONZALES of Mexico has not been assassinated, as stated in recent despatches, but is alive and well.

LIEUTENANT C. L. STEELE, 18th U. S. Infantry, was a guest at the Hotel Continental, Paris, France, early this week,

LIEUTENANT C. H. HEYL, 23d U. S. Infantry, has established a recruiting rendezvous at Camden. N. J., as an experiment.

CAPTAIN C. M. CALLAHAN, 4th U. S. Cavalry, is spending a few weeks in New York City, with quarters at 57 West 23d street.

MAJOR W. R. KING, Corps of Engineers, absent from Willet's Point, N. Y. H., on two months' leave, will rejoin in November.

COLONEL H. C. MERRIAM, 7th U. S. Infantry, visited friends in New York this week and starts in a few days for Fort Laramie, Wyo.

CAPTAIN G. A. GOODALE, 23d U. S. Infantry, and Mrs. Goodale, joined at Fort Mackinac, Mich., this week from their wedding tour.

BRIG.-GENERAL J. C. DUANE, Chief of Engineers, U. S. A., has taken charge and is rapidly familiarizing himself with his new duties.

MAJOR RUSSELL, Captain, 9th Infantry, is A. A. A.-G., at Whipple Barracks, during the absence of Major Barber, the Adjutant-General.

LIEUTENANT CHARLES DODGE, JR., 24th Infantry, has returned to Fort Leavenworth from a visit to the posts in the Indian Territory on rifle practice duty.

CAPTAIN J. B. BURBANK, 3d U. S. Artillery, leaves Washington next week for San Antonio to take command of the light battery of his regiment stationed there.

LIEUTENANT W. R. ABERCROMBIE, 2d U. S. Infantry, and bride, are expected to join at Fort Omaha early in November. A hearty garrison welcome will be given them.

THE statue of the late Major-Gen. H. W. Halleck, U. S. A., which is to be placed in the Golden Gate Park, San Francisco, is now ready for shipment from Westerly, R. I.

LIEUTENANT-COLONEL R. S. LA MOTTE, 12th U. S. Infantry, will command the regiment from Plattsburg Barracks until the arrival of Colonel E. F. Townsend at Sackett's Harbor.

ASSISTANT SURGEON W. W. R. FISHER, U. S. A., and bride, at the expiration of their wedding tour, will join at Fort Bidwell, Cal., to which the Doctor has recently been assigned as post surgeon.

MAJOR J. W. MACMURRAY, 1st U. S. Artillery, lately visiting at 33 West 33d street, New York City, will remain East a few weeks longer, and then go to San Francisco to join his battery at the Presidio.

CAPTAIN Jos. T. HASKELL, 23d U. S. Infantry, arrived in New York this week from Fort Wayne, Mich., and reported to Major-General Schofield for special service in connection with the Bedloe's Island ceremonies.

A LAREDO despatch says: The charges which were preferred against Capt. Ward and Lieut. Whitall, 16th Infantry, growing out of their recent personal encounter have been withdrawn, and the affair settled without a Court-martial trial.

CAPTAIN D. H. KINZIE, 5th U. S. Artillery, will leave New York next week for Salt Lake City to take command at Fort Douglas, Nov. 1, of Light Bat. D of his regiment. Major J. B. Rawles will then leave for the East to join at Fort Schuyler for duty.

LIEUTENANT JOHN BIGELOW, Jr., and Mrs. Bigelow, who have recently sustained a severe domestic affliction in the death of their child, will spend most of the winter in the East. They arrived in Baltimore this week and will go from there to New York.

CAPTAIN MORRIS SCHAFF, formerly of the Ordnance Corps, U. S. Army, who resigned in 1871, has an interesting account in the Springfield *Republican* of the terrible explosion of the Ordnance Depot at City Point, Va., Aug. 11, 1864, caused by a torpedo from Richmond.

CAPTAIN J. G. LEEFE, 19th U. S. Infantry, just promoted, was a 1st lieutenant for nineteen years, and has a war record dating from 1862. He is a gallant soldier, and we have a pleasing recollection of him many years ago when he was A. A. G. of Dwight's Division of the 19th Army Corps.

CAPTAIN H. H. HUMPHREYS, 15th U. S. Infantry, in a recent letter to the *Pioneer Press*, quotes official documents tending to show that Colonel Julius Hayden, Inspector-General of the 3d Army Corps, was responsible for General A. A. Humphreys's round-about march to Gettysburg in July, 1863.

GENERAL O. B. WILLCOX, U. S. A., arrived at Fort Leavenworth early in the week and assumed command of the Department of the Missouri. It is needless to say he received a hearty welcome. General Willcox has selected as one of his aides-de-camp his son and former aide, Lieutenant E. F. Willcox, 6th U. S. Cavalry.

"GRANT IN SOCIETY," is the subject of General Badeau's latest article on the dead soldier.

CAPTAIN FRANCIS MOORE, 9th U. S. Cavalry, arrived at Fort Leavenworth with his troop Oct. 15.

CAPTAIN A. B. MACGOWAN, 12th U. S. Infantry, left Sackett's Harbor on Monday on a week's leave.

ASSISTANT SURGEON EDWARD EVERTS, U. S. A., has taken station at Fort Grant, Ariz., from field service.

MAJOR BARBER, Adjutant-General, Department of Arizona, and Mrs. Barber, are visiting in San Francisco.

LIEUTENANT C. D. PARKHURST, 4th U. S. Artillery, left Fort Trumbull, Conn., on Tuesday on a short leave.

MAJOR EVARTS S. EWING, U. S. A., of Des Moines, Iowa, was a recent guest at the West Hotel, Minneapolis.

LIEUTENANT A. W. VOGDES, 5th U. S. Artillery, of Fort Columbus, spent a few days in Philadelphia this week.

ASSISTANT SURGEON DANIEL WEIZEL, U. S. A., has changed base from Fort Fred Steele to Fort McKinney, Wyo.

LIEUTENANT COLONEL J. S. POLAND, 21st U. S. Infantry, was expected to join this week at Fort Bridger, Wyo.

CAPTAIN A. GEORGE, of the French Veterans, has been assigned as Marshal of the French Division, Bartholdi Statue.

MRS. MILES, wife of Gen. Nelson A. Miles, U. S. A., is visiting in Washington and will likely remain East during the winter.

LIEUTENANT WHIPPLE, 10th Cavalry, Fort Verde, son of Adjt.-Gen. Whipple, visited Whipple Barracks a few days last week.

LIEUTENANT J. J. O'CONNELL, U. S. A., on recruiting service at Cincinnati, is located at the Burnet House in that city for the winter.

CAPTAIN JOHN M. NORVELL, 12th U. S. Infantry, of Madison Barracks, Sackett's Harbor, is on a few weeks' visit to relatives in Michigan.

LIEUTENANT-COLONEL E. P. PEARSON, 24th U. S. Infantry, has arrived at Fort Sill, Indian Territory, and taken over command of the post.

CAPTAIN L. T. MORRIS, 8th Cavalry, is visiting friends in the North, and will return to Fort Clark, Texas, about the middle of November.

CAPTAIN W. B. PEASE, 9th U. S. Infantry, lately returned from Europe, has joined at Fort Union, N M., and taken command of his company.

LIEUTENANT AND MRS. WATKINS, Signal Corps, of Whipple Barracks, Ariz., were guests of Major and Mrs. McLellan, at Fort Verde, last week.

GENERAL J. H. POTTER, U. S. A., and family, late of Fort Leavenworth, will settle permanently at San Antonio, Texas, where they will be cordially welcomed.

CAPTAIN S. R. STAFFORD, 15th Infantry, lately relieved from recruiting service, will shortly leave New York for Dakota, and join his company at Fort Randall.

PRINCE NAPOLEON and his travelling companion and physician, Dr. M. Michaela, spent a few days in Chicago this week, and go from there to Niagara en route to New York.

HARRISON TERRELL, the mulatto body servant of Gen. Grant for several years, has been appointed a laborer in the office of the Paymaster-General of the Army at a salary of $1,000 per annum.

GENERAL Q. A. GILLMORE, U. S. A., will, it is understood, move the headquarters of the Mississippi River Commission from Kansas City to St. Louis, which is deemed a more central point.

LIEUTENANT B. A. BYRNE, 6th Infantry, who has succeeded Capt. S. W. Groesbeck as regimental adjutant, joined the regiment in 1875. The appointment takes him from Fort Douglas to Fort Leavenworth.

COLONEL THOMAS L. CASEY, Corps of Engineers, U. S. A., who comes to New York for duty, will be warmly welcomed by many friends there who have not had an opportunity to be near him for some years.

LIEUTENANT J. T. KNIGHT, 3d U. S. Cavalry, and Mrs. Knight, on their wedding tour, left Farmville, Va., early in the week for the North. They will return to Fort Hancock, Texas, about the middle of November, visiting Kansas City and Leavenworth on their way.

IT won't do, says an exchange, referring to the recent expedition to Alaska, to belittle Lieut. Schwatka, for he is one of the calmest, most modest, and most level-headed of men. The soldier who made a 3,000-mile sledge expedition to the Polar regions and brought back the remains of Sir John Franklin's party is hardly to be tossed out on the point of a sneer.

ON Oct. 13 Lieut. Dodge, 24th Infantry, gave a farewell reception to Gen. J. H. Potter. There were present Gens. Terry, Drum, and McCook, the officers on duty at Department headquarters and Lieut. Groesbeck. Both Gens. Terry, and Drum deeply regretted losing Gen. Potter from active service, and Gen. Terry paid him the highest and most complimentary tribute for his long and faithful service. Those who heard Gen. Terry's remarks state that they were exceptional and that he spoke with much feeling.—*Kansas City Times.*

LIEUTENANT PHILIP READE, U. S. A., Inspector of Rifle Practice, Division of the Missouri, is reported by the Omaha *Bee* as saying with reference to the Bellevue Rifle Range: "It is one of the finest pieces of land in the country for the purpose. I am delighted with it. When one considers that in May last not a single improvement had been made on the land, the changes that have been brought about are wonderful. Colonel Guy V. Henry, with his characteristic energy, is going ahead and making still further improvements in anticipation of next year's shooting."

GENERAL STEWART VAN VLIET, U. S. A., was a visitor in New York this week.

GENERAL W. B. HAZEN, U. S. A., arrived in New York from the South Pacific early in the week and went on to Washington.

GENERAL A. MCD. MCCOOK, U. S. A., in a recent circular earnestly asks every one concerned to help build up the post library of Fort Leavenworth.

COLONEL GEORGE GIBSON, 5th U. S. Infantry, lately on leave at Carlisle, Pa., visited New York this week registering at the Fifth Avenue Hotel.

MAJOR GENERAL A. H. TERRY, U. S. A., returned to Chicago, and Adjt.-Gen. R. C. Drum to Washington early in the week from their visit to Fort Leavenworth to inspect the military prison.

THE St. Louis *Globe-Republican* publishes an interesting "Arctic Romance," in which the central figures are the late Dr. Octave Pavy, a Parisian mistress, a natural daughter, and an American wife.

MAJOR-GENERAL J. M. SCHOFIELD, General W. D. Whipple, and Major J. P. Sanger, of Governor's Island, attended the meeting in Philadelphia, on Wednesday, of the Commandery-in-Chief, Loyal Legion.

LIEUTENANT R. D. POTTS, 3d U. S. Artillery, will move his *lares et penates* in a few days from Fort McHenry, Md., to Washington Barracks, D. C., Lieut. Chas. Sellmer, of the 3d, taking his place at the former post.

LIEUTENANT-COLONEL E. G. BUSH, 11th Infantry, under his recent promotion, will likely go to Fort Sully, Dakota, to command the post and regiment until Colonel R. I. Dodge returns next spring from his six months' leave.

MAJOR JOHN I. RODGERS, 1st U. S. Artillery, after a few years' pleasant stay at Fort Canby, W. T., goes to Alcatraz Island, Cal., to take command there. He will be replaced at Fort Canby by Major A. M. Randol, 1st Artillery.

A VERY pleasant wedding was that on Oct. 19 at Piqua, Ohio, of Lieut. Wendell L. Simpson, 3d U. S. Cavalry, to Miss Marian Wood, daughter of Mr. and Mrs. W. W. Wood, of Piqua. The ceremony was performed at the residence of the bride's parents. The married couple will shortly go to Fort Elliott, Texas.

FORT MCINTOSH, Texas, was the scene of a pretty wedding this week, that of Lieut. Beamont B. Buck, 16th U. S. Infantry, Oct. 20, to Miss Katie May Bernard, daughter of Col. R. F. Bernard, 8th U. S. Cavalry. The marriage took place in the evening and like all garrison weddings was a brilliant and enjoyable occasion.

PAYMASTER WM. E. CREARY, U. S. A., was not able to make his payments at Fort McKinney, Department Platte, Oct. 15, in consequence of illness. He was en route to that post from Cheyenne, when a wound in his left limb, caused by a dog bite received a few weeks previous, became so painful and inflamed that he was compelled to return to Cheyenne.

LIEUTENANT GEO. S. YOUNG, 7th U. S. Infantry, arrived last week at Watervliet Arsenal, West Troy, on a visit to the Lieutenant's parents, and were tendered a brilliant reception by Mrs. Capt. Young and Mrs. Meneely. The rooms were decorated with flowers and autumn leaves, which, with the many handsome costumes, produced a pleasing effect. The married couple will leave this week for Detroit, the home of Mrs. Young, journeying via New York and Washington. From Detroit Lieut. Young proceeds to join his regiment at Fort Laramie.

THE great King-Remington suit, involving the title to nearly $3,000,000 worth of property, was ended on Saturday by the filing of an opinion by the Minnesota Supreme Court, in which the decision of the court below in King's favor was fully sustained upon every point. By this decision Col. King recovers real estate of the value of $2,000,000 in Minneapolis, besides a money claim of at least $500,000 more for property wrongfully sold by the defendant. Mrs. King recovers not less than $500,000 of her property, in addition to a money claim of $150,000 for real and personal property illegally converted by the defendant, one of the Arms Manufacturing firm of Ilion, New York.

A WASHINGTON correspondent writes: "Colonel John M. Wilson, Corps of Engineers, U. S. A., who has charge of the public buildings and grounds in the Capital, including the White House, and who was supposed to have about all the business that he could competently look after, has been ordered to add to his duties the care of the grave of Jefferson at Monticello, Va., the erection of the Garfield statue to take the place of the Peace Monument on Pennsylvania avenue, the erection of a Washington monument at Newburg, and the new Army and Medical Museum Building. All this was made necessary by the transfer of Col. Thomas L. Casey from Washington to New York to take the place of Gen. J. C. Duane, promoted to be Chief of Engineers."

LAST week we briefly reported the marriage, at St. Louis, October 15, of Lieutenant J. R. Williams, 3d U. S. Artillery, to Miss Marie Hewitt. The *Globe-Democrat*, referring to the occasion, says: "The bride was one of the loveliest of the season. It was during Miss Hewitt's sojourn at Old Point Comfort that she made the acquaintance which has terminated so auspiciously. The elegant suite of apartments at the Southern Hotel was redolent with the perfume of the rare flowers that were banked on the mantels hung from the chandeliers, and were grouped in artistic designs in every available space. The bridesmaids and groomsmen entered the room first, then followed the bride, leaning on the arm of the groom, the military band from Jefferson Barracks playing the time-honored wedding march of Mendelssohn. The bridesmaids were Miss Williams, of Detroit, sister of the groom; Miss Mimi Morrison and Miss Mattie Blow and little Miss Bertha Turner, niece of the bride. The groomsmen were Lieut. Brown, of the Cavalry; Lieut. Scriven, of the 3d Artillery; Lieut. Pitcher of the Cavalry. The presents were very valuable and numerous. The newly wedded pair left on the evening train for the East, and from thence go abroad for six months, returning to Fort McHenry, where the groom is stationed.

CAPTAIN J. H. CALEF, 2d U. S. Art., left Fort Monroe, Va., on Wednesday, on a week's leave.

COLONEL R. S. LAMOTTE, 12th U. S. Infantry, left Plattsburg Barracks, N. Y., on Wednesday on a short leave.

COLONEL H. CLAY WOOD, U. S. A., has left Vancouver Barracks for the East to enter upon duty at the A. G. O.

PRINCE KORNATSK, of Japan, a Lieutenant-General, and uncle of he Mikado, arrived in San Francisco, Oct. 20.

COLONEL L. L. LANGDON, U. S. A., left Atlanta early in the week on leave and is visiting friends in St. Louis, Mo.

LIEUTENANT S. Y. SEYBURN, 10th U. S. Infantry, has moved his recruiting rendezvous at Baltimore to 48 N. Liberty street.

MISS SADIE WADLEY, daughter of D. T. Wadley, Esq., of Ga., is to be married to Ensign E. E. Capehart, at Portsmouth, N. H., Oct. 27.

THE death of Capt. Birney B. Keeler, 18th Inf., promotes 1st Lieut. H. H. Adams to Captain and 2d Lieut. W. T. Wood to 1st Lieutenant.

LIEUTENANT L. A. CRAIG, 6th U. S. Cavalry, has relinquished duty on recruiting service and goes to Fort Bayard, N. M., to resume his old position of Regimental Adjutant, which he held in 1883 and 1884.

BENJAMIN FRANKLIN CLEVELAND, a cousin of President Cleveland, was married Oct. 20, at Jersey City, to Miss Emma Coe. Mr. Cleveland is Chaplain-in-Chief and Brigadier-General of the Union Veterans' Army of the U. S.

IT was decided this week that Lieut.-Colonel E. C. Mason, 4th Infantry, should remain at St. Paul as Inspector-General of the Department of Dakota, and Major W. F. Drum, 14th Infantry, at Whipple Barracks as Inspector-General Dept. of Arizona.

MAJOR JAMES BIDDLE, 6th Cavalry, relinquished command of Fort Myer, Va., this week, in order to attend to his duties as President of the Board of Officers appointed to examine the claims of the States and Territories named in the Act of June 27, 1882.

THE friends of 1st Lieut. John Scott, 4th Inf., will be pained to learn that his long illness has resulted in the partial loss of reason and it has become necessary to place him in the Government Insane Asylum at Washington, for treatment. He arrived there on Oct. 18 from his home in Kentucky, accompanied by Lieut. Rufus P. Brown, of the 4th Inf.

AMONG the President's appointments, Oct. 18, was that of General Dabney H. Maury, of Virginia, to be Minister to the United States of Colombia. General Maury was nominated some months ago for the same position and was rejected by the Senate, owing to a letter received by Senator Sherman, in which the writer said that Maury, on one occasion, standing on the street in Washington and pointing to the Stars and Stripes, said: "That flag be d——d; the other one ought to have been flying over this country.'"

THE systematic study of the great mass of earthquake returns gathered by correspondents of the Geological Survey from all portions of the area affected by the recent convulsions is about to be undertaken by officials of the survey under the supervision of Captain Clarence E. Dutton, United States Ordnance Corps, who has been for many years connected with the work of the Geological Survey, and is a well recognized authority upon volcanic and seismic phenomena as well as upon general geology.

IT is related of the late Col. Whittlesey that during his second year at the Military Academy a fiery Southerner made a personal assault upon a superior officer and was condemed by Court-martial to be shot. While awaiting approval from Washington of the sentence the culprit was in prison without irons, and one night when Cadet Whittlesey was on guard as he passed the door the prisoner sprang out and seized the sentinel's musket from behind, at the same time presenting a pistol at his head with an admonition to keep quiet. Young Whittlesey, however, shouted for the corporal of the guard and giving chase overhauled the fugitive, and was about to plant the bayonet in his back when the guard seized him.

THE Omaha *Excelsior* of Oct. 16 says:

Miss Harker, one of Leavenworth's accomplished young ladies, is the guest of Mrs. Lieut. Van Liew ... Miss May Stevens, cousin of Capt. Cook, Fort Omaha, has returned to Chicago ... Mrs. Daggett, wife of Col. Daggett, 2d Infantry, is with her husband again. When the 2d Foot left the South for the Columbia, Mrs. Daggett remained in the East.... Mrs. Lieut. Kinzie, with her four children, joined her husband, Lieut. John Kinzie, 2d Infantry, Fort Omaha. Mrs. Kinzie has been in New England the past three years.... The engagement is announced of Miss Agnes Royall, daughter of Col. Royall, and Mr. J. H. Parsons, of Baltimore. Miss Royall has many acquaintances in Omaha society.... Lieut. H. B. Sarson's genial countenance once more beams upon his friends in the Fort Omaha garrison; he has just returned from a four months' leave in the suburbs of Chicago.... The labor question has given greater or less perplexity to every family of the 2d Infantry since their arrival at Fort Omaha. Servants can scarcely be secured at any price, and when they do come their stay is so brief that it is an open question whether they are a help or a hindrance.

THE *Tribune*, in "Glances at Men and Things," thus amuses itself at the expense of West Point:

An Army officer with whom I was chatting yesterday said: "The complications arising from the Court-martial of cadets at West Point on the return of the Second Class from furlough will be made the basis of an entire change in the administration of the Military Academy. For many years after the war the entire administration at West Point was embraced within the Engineer Corps. The question that is now being agitated by the War Department is whether or not the administration of the affairs there could not be made less top-heavy by the appointment, likewise, of some efficient officer from the line of the Army, as the infantry or cavalry. A common opinion at West Point is that Captain Spurgin, of the Infantry, who is now Commissioner, and who has proved himself an efficient officer at the post, is under consideration for the superintendency to succeed Colonel Merritt next spring. It is to Captain Spurgin that the Government owes many of the recent improvements that have been pushed to a successful conclusion, not the least of which was the levelling of what from time immemorial has been called Monument Hill, thereby greatly enlarging the beauty of the scenery of the Hudson."

ASSISTANT SURGEON E. C. CARTER, U. S. A., will spend a portion of the winter abroad.

GENERAL R H. JACKSON, U. S. A., will take command of Ft. Schuyler, N. Y. H., early in November.

GENERAL JOHN GIBBON delivered a lecture on Yellowstone Park at recently, for the benefit of the fund for the earthquake sufferers at Charleston.

THE engagement is announced of Capt. H. P. Birmingham, assistant surgeon, U. S. A., to Myra E., daughter of Richard H. Clarke, of New York City.

GENERAL W. B. HAZEN, Chief Signal Officer, returned to Washington on Tuesday from an extended tour to the Pacific Coast and the Isthmus of Panama.

COLONEL HENRY C. MERRIAM, 7th Infantry, leaves New York next week for his post, Fort Laramie. He receives from all sides the most encouraging reports of the success of his new equipments.

THE most notable society event in St. Paul for many months was the marriage of Miss Elizabeth S Hancock to Edward I. Frost. Miss Hancock is the daughter of Col. John Hancock, of Washington; niece of the late Gen. Winfield S. Hancock, and grand-niece of President John Adams. Mr. Frost is one of the prominent youdg men of St. Paul both in business and social circles.

THE following officers are registered at the War Department this week: Maj. J. V. D. Middleton, Surgeon; Maj. Theo. J. Eckerson, retired; 1st Lieut. C. P. Terrell, 8th Inf.; Capt. Chas. Bendire, retired; Maj. D. B. McKibbin, retired; W. Whitney, Asst. Surgeon; 2d Lieut. John Bigelow, Jr., 10th Cav.; 1st Lt. Rufus P. Brown, 4th Inf.; Capt. C. A. Alligood, Q. M. D.; Col. H. F. Clarke, retired; Captain W. P. Atwell, retired, and 2d Lieut. Ormond M. Lissak, 4th Art.

A WASHINGTON despatch states that the District Attorney of Arizona recently represented to the Attorney-General that sufficient evidence was obtainable to convict Geronimo and his braves of murder before a civil tribunal, and that in view of that fact, Gov. Zulick, of Arizona, had requested the President to cause the military officers to surrender the hostiles to the civil authorities of the Territory for trial. Notwithstanding this request, the action of the President in ordering the confinement of the Indians at Fort Pickens, Fla., is accepted at the War Department as conclusive evidence of the intention of the Government to treat them as prisoners of war and not as ordinary marauders, amenable to civil jurisdiction.

A DESPATCH from Quincy, Cal., says: "There has been considerable excitement over the pursuit of two robbers who attacked a stage on Tuesday near here, in which General Day, of Bowling Green, O., brother of Captain S. A. Day, 5th U. S. Artillery, was shot. The robbers were finally captured. Gen. Day was travelling in the stage with others when it was stopped by the robbers in open daylight. One of them entered the coach pistol in hand to search for treasure. While rummaging around the pistol was accidentally discharged, the ball taking effect in General Day's back, ranging down towards the groin, inflicting a probably fatal wound. The robber coolly turned to the General and asked his pardon, saying it was really an accidental shot." Capt. Day will leave New York at once to be with his brother.

LIEUTENANT I. N. LEWIS, 2d U. S. Artilery, was married at the church corner of Lexington avenue and 52d street, New York City, on Thursday evening of this week, to Miss Minnie Wheatley, daughter of the Rev. Richard Wheatley, D. D., of 606 Lexington avenue. The married couple will remain East for a few weeks, and will join at Fort Barrancas, Fla., towards the end of November. The ushers were Lieuts. J. I. Sanford, Henry Taylor, Irving Hale, and C. E. Gillette, of the Engineer Corps. They were in full uniform, as was the groom and his best man, Lieut. W. L. Gilbert. The bridesmaids were Miss Louise Thompson, of Titusville, Penn.; Miss Lina Slee, of Poughkeepsie, and Miss Margarhetta Wheatley, a sister of the bride. After the ceremony there was a reception for the bridal party and relatives at the residence of Dr. Wheatley, 606 Lexington-avenue, followed by a supper. Among those at the church were Capt. and Mrs. Crawford, Mr. and Mrs. Samuel Harper, Mrs. Gallaher, Miss Gallaher, Mr. and Mrs. L. H. Baldwin, Mr. and Mrs. E. P. Needham, Mr. and Mrs. J. M. Anderson, Lieut. Chittenden, and Dr. and Mrs. Happersett.

THE Brackett-*News*, of Oct. 16, has the following Fort Clark items:

Captain Remington and Son returned Sunday from Kansas City....Captain Robinson, 19th Inf., has returned from recruiting service....Major J. A. Wilcox, after an absence of several months, returned this week, and was warmly welcomed by his many friends....Major S. C. Vedder, arrived at Fort Clark Thursday....Captain C. T. Witherell has returned, looking well. The genial captain, after the close of the rifle competition at Leavenworth, took a trip to Georgia, Mrs. Witherell is at present visiting in Boston.

THE Presidio County *News* of Oct. 15 has the following Fort Davis items:

Captain J. C. Thompson has been ill, but is improving.... Lieut. T. B. Dugan has recovered from his late illness.... Lieut. J. W. Heard and wife returned from El Paso Saturday....A pleasant hop was given in the post hall Wednesday night and was well attended....Colonel A. G. Brackett, 3d Cav., with Mrs. Brackett returned Thursday from a visit to Madison, Wis., and other eastern cities....Lieut. J. H. King, 8th Cav., with his bride, returned to Marathon last Friday, and they are now at his old station Nevills Springs' camp.

CAPTAIN J. G. WALKER, U. S. N., arrived in New York from Europe on Wednesday and went on to Washington.

P. A. SURGEON J. C. BOYD, U. S. N., attended the wedding at Keyport, N. J., Oct. 20, of Mr. H. D. Olphant to Miss E. V. Dayton.

PAY DIRECTOR J. S. CUNNINGHAM and Medical Director G. Peck, U. S. N., were guests at the Lafayette Hotel, Philadelphia, on Tuesday.

COLONEL C. G. MCCAWLEY, Commandant of the Marine Corps, visited Norfolk, Va., this week and inspected the marines stationed there.

SECRETARY WHITNEY remains in New York until Saturday and he may not return to Washington until after the Bartholdi statue dedication.

LIEUTENANT J. S. ABBOTT, U. S. N., returned from New York to Newport on Tuesday and reported to Rear Admiral Luce.

CAPTAIN E. E. POTTER and Lieutenant Andrew Dunlap, U. S. N., arrived in New York early in the week from Rio Janeiro.

ADMIRAL PORTER, U. S. N., who is still at Newport, R. I., and is rapidly convalescing, will shortly return to Washington for the winter.

REAR ADMIRAL A. LUDLOW CASE, U. S. N., returned from Europe on Monday and took temporary quarters at the Clarendon Hotel, New York City.

REAR ADMIRAL M. SMITH, U. S. N., registered at the Continental Hotel, Philadelphia, on Wednesday, and Lieut. E. S. Farrow, U. S. A., at the Lafayette Hotel.

LIEUTENANTS B. DE VILLENEUVE and E. Aubry, French Navy, and Major H. L. Ellis, 6th Dragoons, British Army, registered at the Fifth Avenue Hotel, New York, on Tuesday.

ENSIGN WILLIAM E. SAFFORD, U. S. N., attached to the *Vandalia*, has made quite extensive preparations for taking natural history notes during his cruise to the South Pacific Station.

COMMANDER C. M. CHESTER, U. S. N., called upon Major-General Schofield on Tuesday as the representative of Rear-Admiral Luce in connection with the Bartholdi statue celebration, Oct. 28

LIEUTENANT W. S. HUGHES, U. S. N., has a well written and interesting article in "Frank Leslie's Popular Monthly" for November on "The Great Fishing Ground and its International Questions." Several illustrations accompany the article.

LIEUTENANT-COMMANDER ISAAC HAZLETT, U. S. N., who has been ordered before the retiring board at Washington, entered the Service from Ohio, Sept. 27, 1861, was promoted to his present grade, Dec. 21, 1881, and completed his last cruise in April, 1883.

GOVERNOR AND MRS. FITZHUGH LEE, of Virginia, invited Lieutenant Albert C. Dillingham, U. S. N., and Mrs. Dillingham to visit their private family seat in Richmond in order to assist the Governor in receiving President and Mrs. Cleveland this week.

THE many friends of Rear Admiral W. G. Temple, U. S. N., retired, will be pleased to hear that the "Portland" will again be his winter home. Seeing the Admiral's erect, vigorous style, it is difficult to believe that nearly three years have elapsed since his retirement from active service.

LIEUTENANT-COMMANDER EUGENE B. THOMAS, U. S. N., who was ordered before the naval retiring board for physical examination Oct. 12, has been on sick leave for nearly three years, and it is quite probable that he will be placed on the retired list as it is believed that his disability was incurred in the line of duty.

VICE ADMIRAL S. C. ROWAN, U. S. N., has been on the active list longer than any officer in the Service, having completed 60 years of Naval life and duty on Feb. 1 last. Admiral Porter on Feb. 2 next, will have completed 58 years of active service. Rear Admiral Worden on Jan. 10, 1886, completed 52 years on the active list.

THE leave of absence for a year granted to Lieut. Martin E. Hall, U. S. N., is to enable him to devote his entire attention to a torpedo of novel design invented by him, but which required for experimentation more undivided attention than can be spared from even the "*softest*" billet to which an officer can be assigned.

LIEUTENANT COMMANDER WILLIAM WELCH, U. S. N., entered the Navy as a volunteer officer June 15, 1864, and was appointed an Ensign in the Regular Service March 12, 1868. His present commission bears date of April 23, 1883. His last cruise was on the store-ship *Onward* from which he was detached in June, 1880. His orders to appear before the Retiring Board were issued Oct. 12.

LIEUTENANT RIDGELY HUNT, U. S. N., and Miss Virginia Kearney, stepdaughter of Rear Admiral Upshur and sister of Mrs. Russell Selfridge, will be married in Washington at 8 o'clock Wednesday evening, Nov. 3, at the Ascension Church. The bridesmaids are to be Miss Gouverneur, Miss Lena Porter, Miss Hunt, Miss Victoria Emory, Miss Minnie Mollie West, and Miss G. Morris. The groomsmen will be brothers of the bridegroom—Mr. Livingston Hunt and Mr. Gaylord Hunt.

THE number of mates now in the Navy is 37, but the roster is growing smaller year by year, no new appointments being made, while death claims its quota. The number, however, on the list at this time, has been maintained for no less than three years. The oldest appointment is that of John Griffin, who first entered the service as an officer June 18, 1861, and the last appointment is that of Harold Neilson, March 29, 1870. Nearly all of the gentlemen holding this position in the Navy have rendered, and continue to render, good service to the Government.

THE announcement a few days since of the death of the wife of Chief Engr. Robert L. Harris, U. S. Navy, will cause a widespread sympathy among those to whom they have endeared themselves by uniform kindliness and cheerfulness under the constant expectation for several years past of that which has at last come to pass. Mrs. Harris died on Oct. 19 of Bright's disease of the kidneys, at Washington, and was buried at 3.30 P. M. on the 21st, from her late residence, 1216 G street, N. W. Her remains were interred at Rock Creek Cemetery. She leaves several children.

LIEUTENANT GOTTFRIED BLOCKLINGER, U. S. N., was married, Oct. 13, at Dubuque, Iowa, to Miss Ella Weigal, of that city. The ceremony was performed in the Methodist Church, which was crowded. An unique feature was the substitution of the conventional bridesmaids and groomsmen with six little boys dressed in sailor costumes, who preceded the bridal couple to the altar. A full-rigged three-decker ship, covered with flowers, hung suspended over the couple as they received the marriage rite. A reception was held in the evening at the residence of the bride's parents, after which the married couple left for the East.

COMMANDER CHAS. J. TRAIN, U. S. N., arrived at Norfolk, Va., Oct. 17, from Washington, D. C.

LIEUTENANT COMMANDER E. W. WATSON, U. S. N., left Norfolk, Va., early in the week on a short leave.

MR. ROBERT BOYD, Jr., son of Capt. Robert Boyd, U. S. N., and a student at the Peekskill Military Academy at Peekskill, N. Y., has been promoted to the rank of 2d lieutenant. This is the handsome student's second promotion within the past two months.

MRS. ROBERT BOYD and Miss Minnie Boyd, wife and daughter of Capt. Robert Boyd, U. S. N., the commanding officer of the flagship *Tennessee*, have left their cottage at Newport, R. I., and removed to their handsome residence at Montague street, in Brooklyn, N. Y.

A WASHINGTON despatch says: "Among the marriage licenses issued by the clerk of the court on Monday last was one bearing the names of P. A. Paymaster John M. Speel, of the Navy, and Miss Frances P. Stevens. One of his friends with a turn for practical jokes, took out the license. The penalty is $500 fine or imprisoment in the Penitentiary for a term of not more than five years or both. The joker will not be prosecuted, but it is understood that he has left town until the affair blows over."

CADET ENGINEER THOMAS J. HOGAN, who recently resigned from the Navy, has been appointed a fourth assistant examiner in the Patent Office. Mr. Hogan was restored to the Service under the late decision of the U. S. Supreme Court in the Perkins and Redgrave cases. At the time of the decision he was filling a clerkship in the Patent Office. He resigned the same, made application for duty, and was assigned to the new cruiser *Atlanta*. He made one short cruise, tendered his resignation, went back to Washington, passed a creditable Civil Service examination and received the appointment above referred to.

RECENT DEATHS.

BREVET MAJOR BIRNEY B. KEELER, captain 18th U. S. Infantry, who had been on sick leave for several months past, died Oct. 15, at Afton, Iowa. Maj. Keeler was a native of New York, and went to the war in 1862 as 1st lieutenant of the 142d New York Volunteers, and attained the rank of captain in 1864. In June, 1865, he was transferred to the 169th New York; was mustered out in the following July, having been appointed a judge advocate of volunteers, with the rank of major. He held that position until May 31, 1866, and on July 28 of that year was appointed 1st lieutenant 39th U. S. Infantry, and promoted captain June 5, 1868. In 1870 he was assigned to the 18th U. S. Infantry. He received the brevets of major and lieutenant colonel of volunteers and of captain and major in the Regular Army for gallant and meritorious services at Chapin's Farm and assault on Fort Fisher, and for gallant and distinguished services in the field during the campaign of 1864. Major Keeler had large experience as a staff officer, and served from 1875 to 1882 as A. D. C. on the staff of Major-General McDowell.

—

COLONEL CHARLES WHITTLESEY, well-known in literary and scientific circles, died Oct. 18, at his residence in Cleveland, Ohio, of inflammatory rheumatism. He was born in Southington, Conn., on October 8, 1808. He entered West Point in 1827, was graduated in 1831 and promoted brevet 2d Lieutenant 6th Infantry, July 1, 1831. In October of that year he was transferred to the 5th Infantry and resigned Sept. 30, 1832. In 1837 he was appointed on the Ohio Geological Survey. From 1847 to 1851 he was in the Government Survey of Lake Superior and the Upper Mississippi with reference to the mines and minerals. From 1858 to 1860 he was in the Wisconsin Geological Survey. In April, 1861, he joined the Ohio Governor's staff as Assistant Q. M. General. He was State Military Engineer for Ohio troops with Gens. McClellan, Cox and Hill in West Virginia in the three months' service; then he was made Colonel of the 20th Ohio Volunteers and detailed as Chief Engr. of the Dept. of Ohio. He was at the battle of Fort Donelson and commanded the 3d Brigade of Wallace's Division at Shiloh. He resigned on account of illness April 19, 1862, and returned to Cleveland, which has been his residence for many years. Col. Whittlesey's contributions to scientific literature have attracted wide attention among the scientific men of Europe and America. Among his literary works are "Smithsonian Contributions to Knowledge," "Fresh Water Glacial Drift," "Fugitive Essays," "Ancient Mining on Lake Superior," "Fluctuations of Lake Levels," "United States Geological Surveys of the Upper Mississippi," and essays on the mineral resources of the Rocky Mountains and other subjects.

THE Rev. John Forsyth, D. D., LL. D., died in Newburg on Sunday night, Oct. 17, in his 76th year. He was graduated from Rutgers College and afterward from the Edinburgh University, Scotland. He studied theology in the latter place under Dr. Thos. Chalmers and in Glasgow under Dr. Thomas Dick. He was licensed to preach in April, 1833, by the Presbytery of Aberdeen, Scotland, and ordained in July, 1834, by the Presbytery of New York. He was Pastor of an Associate Reformed congregation in Philadelphia until 1836 and of the Union Church, Newburg, to 1847. He was Professor of Biblical Literature in the Theological Seminary, Newburg, from 1837 to 1842, Professor of Latin in Princeton College from 1847 to 1853, and again Professor in the seminary at Newburg from 1853 to 1858. He was Professor of English Language and Literature in Rutgers College from 1860 to 1863. Serving from July to September, 1862, as chaplain of the 19th New York State Militia. In 1871 he was appointed chaplain and Professor at the Military Academy and served in that position until Dec. 12, 1881, when he was retired with the pay of a Colonel. He was the author of several works on theological subjects and was highly esteemed by all who knew him, for his learning, piety and kindliness of heart.

THE remains of the late Capt. O. B. Boyd, U. S. A., who died a few months ago in New Mexico, were brought to San Antonio Oct. 8 and buried in the National Cemetery on the hill. The funeral services at the grave were conducted in the usual military manner, and were witnessed by Gen. Stanley and staff and nearly all the officers and their families on duty here. "Capt. Boyd," says the San Antonio *Express*, "is lovingly remembered by many San Antonians for the many sterling qualities which go to make a soldier and a gentleman. Besides being an accomplished officer, beloved by his brothers in the Army and companions in every walk of life, he was an orator of the highest order, having distinguished himself here on several occasions; but most notably as the orator on Decoration Day in 1885. He was one of the most genial of men, and his unexpected death, away from home on duty, was a sad blow to his loving family and devoted friends."

THE suicide is reported of Mr. Bayard Taylor Putnam, of the U. S. Geological survey, in charge of the surveying party in Hoosac Mountain. He had been missing from camp for two days, and after a thorough search his lifeless body was found hanging to a tree. He was a brother of the Messrs. Putnam, the publishers, and was considered one of the most promising geologists in the country. He had a severe attack of typhoid fever about a year ago from which he never fully recovered, and it is thought the exposure among the mountains must have so worked upon his weakened constitution as to cause temporary insanity. Mr. Putnam leaves a widow, who was a Miss Grace Thacher, of New York, and one child about two years of age.

MRS. FRANCES E. HARRIS, the wife of Chief Engr. Robert L. Harris, U. S. Navy, died October 19, at her home, No. 1216 G Street, Washington, D. C., after a long and painful illness. The funeral took place October 21, and the remains were interred in Rock Creek Cemetery.

MISS MARY ORNE PICKERING, who died recently in Salem, Mass., aged 81, was a grand-daughter of Col. Timothy Pickering, Washington's Adjt.-General in 1777, Postmaster-General from 1791 to 1794, Secretary of War, 1794 to 1795, and Secretary of State from 1795 to 1800.

GENERAL BACON MONTGOMERY, who was killed a few days ago at Lamulla, Chihuahua, Mexico, by the accidental discharge of his own gun, commanded the 50th Missouri Volunteers during the war and was afterwards brigadier general of the Missouri militia.

MR. JOHN ARMSTRONG, who died at Baltimore, Md., October 18, aged 72, was the son of the late Major Horatio Gates Armstrong, Assistant Inspector General, U. S. A., who served in the War of 1812, and left the Army in 1815.

MRS. JONES, wife of Ordnance Sergeant James Jones, U. S. A., of Fort Popham, Me., died at Stewart's Station, Pa., Sept. 27. Her husband was with her when she died.

MAJOR-GENERAL SIR H. T. MACPHERSON (V. C.), commander of the British army of occupation in Burmah, died this week from fever after two days illness.

WE regret to learn of the death at Fort Sill, I. T., of Mrs. Taylor, daughter-in-law of Surgeon Morse K. Taylor, U. S. Army.

"LITTLE MAC," the infant and only son of Lieut. C. B. Gatewood, 6th U. S. Cavalry, died at Fort Stanton, N. M., Oct. 6.

MRS. MANNING, mother of P. A. Engineer C. H. Manning, U. S. N., died at Milford, N. H., Oct. 9.

THE NEEDS OF THE ARMY.

To the Editor of the Army and Navy Journal:

THAT the Army may be a school for the thorough military instruction of its officers, their duties should be so arranged that each officer after learning and performing one class of duties thoroughly well, should be subjected to a similar training in connection with another class of duties.

It is but natural that an officer should wish to obtain and continue the duty that is the most agreeable, distinguished and remunerative, and it is to be expected that he will pull all wires for his own benefit, unless there are rigidly enforced rules to prevent.

1st. The Regulations should designate the rank of the line officers who may be detailed on staff of the different grades of general officers. The line officer when performing staff duty should have the local rank, pay and emoluments of a mounted officer of one grade higher than the rank he actually holds in his regiment. As two years is ample time for the General to instruct the officer in staff duty and as the object is to instruct as many officers as possible in that duty, two years should be the extreme limit of that detail. This term is quite sufficient for an officer to become rusty in his regimental duties. Every officer, when promoted, should, if absent, return at once and serve two years in his new grade before being detailed away from it. No officer who has served one tour of staff duty should be detailed for a second tour while holding the same grade. No officer should be detailed for staff duty who has not served the previous two years with his regiment and in the grade he holds. When a regiment is removed from the command of a General, the officers on his staff who belong to the regiment should be relieved and accompany their regiment.

2d. Every officer will in time have a staff of his own. He will be a more competent instructor and a more efficient officer if he when a junior had practically performed staff duty. A second lieutenant should learn the field, garrison, and paper duties of his company and post, and should serve continuously with his company, but the duties of first lieutenant are similar to those of a second, and when he becomes a first he should be taught staff and other detached duties. Regimental commanders should be required to detail for their regimental staff the two senior first lieutenants who have never performed that duty. At the expiration of two years (or sooner if he wishes and they have learned the duties) he should relieve them and detail the next two.

3d. At the commencement of a war, or when going into the field during Indian troubles, etc., every general and regimental commander should be allowed to relieve the officers (being instructed) on his staff and detail any others of the same grade whom he may prefer.

A young man wishing to become an officer in the German Army must pass the University examination and then be accepted by the officers of some regiment as a cadet. He then learns and performs all the duties of private soldier, corporal, and sergeant (though he all the time lives at the officers' mess and associates with the officers), and then he goes to the Military College. After completing his studies he returns to his regiment, and is then voted upon at a confidential meeting of all the officers of his regiment. If elected he is appointed an officer in that regiment. If any officer votes "no" his objections are discussed, and if considered valid the cadet is confidentially informed that he is not elected, which of course ends his connection with the Army.

All lieutenants of three years' service can compete for entrance to the Staff College. The course there is three years. A certain number of those who graduate distinguished for good habits, ability and hard work are appointed captains in the *line* corps to which they belong. They serve in the line as line officers, but at any time can be detailed to perform staff duty for a tour of two years only. The authorities consider continuous staff duty as injuring an officer for command, and that longer than two years' absence weakens an officer's sympathy with and interest in his particular line corps. All promotion in the German Army (except the special distinction at the Staff College, which gives a captaincy) is by seniority from junior lieutenant to commanding general. After the long marches and grand manœuvres of corps every autumn all generals who have not shown activity and ability are retired.

Is it not a matter of surprise that our Army is as efficient as it is, when it is a struggle of *political influence* among brigadier generals as to who shall be major general and among colonels as to who shall be brigadier general, and a struggle of political, family or personal influence among lieutenants and captains as to who shall be detailed on staff duty or appointed in a staff corps? TEXAS.

THE SIGNAL OFFICE ACCOUNTS.

SECOND COMPTROLLER MAYNARD and Third Auditor Williams concluded, this week a critical re-examination of the accounts of the Signal Service from Sept. 1, 1880, to July 1, 1886. The expenses during that period aggregated $1,865,333, and of this amount the accounting officers have disallowed and suspended items amounting to $1,081,669. The disbursements were made by Lieut. Robert Craig, 4th Art.; Capt. S. M. Mills, 5th Art., and Capt. F. B. Jones, Asst. Q. M., who consecutively held the office of disbursing officer during the period mentioned. The expenditures disallowed as authorized by law were principally for telegraphing, the purchase of supplies, and for the foreign service.

GERONIMO TO BE CLOSELY CONFINED.

WAR DEPARTMENT, October 19, 1886.

Lieut.-Gen. P. H. Sheridan, United States Army:

SIR: By direction of the President, it is ordered that the hostile Apache adult Indians, 15 in number, recently captured in Mexico and now at San Antonio, Texas, viz: Geronimo, Natchez, Percio, Fun, Abnandria, Nahi, Yahnsza, Fishnolth, Touze, Bishi, Chapo, LaZaiyah, Molzos, Kilthdigai, Sephonne and Lonah, be sent under proper guard to Fort Pickens, Florida, there to be kept in close custody until further orders. These Indians have been guilty of the worst crimes known to the law, committed under circumstances of great atrocity; and the public safety requires that they should be removed far from the scene of their depredations and guarded with the strictest vigilance. The remainder of the band captured at the same time, consisting of 11 women, six children, and two enlisted scouts, you are to send to Fort Marion, Florida, and place with the other Apache Indians recently conveyed to and now under custody at that post. You will see that all details and arrangements are made for the prompt and efficient execution of this order.

Very respectfully, your obedient servant,
W. C. ENDICOTT, Secretary of War.

CAPTURE OF THE LAST OF THE APACHES.

THE following despatch, transmitted by Gen. Miles to the War Department, forms a fitting sequel to the General's report, which appears elsewhere:

FORT APACHE, A. T., Oct. 9.

A detachment under Capt. Cooper, 10th Cav., has just arrived at the post, having captured Mangus and his whole party, consisting of Mangus, two men, three squaws and five children; also 29 mules and five ponies, all of which were brought in. VIELE, Captain, commanding.

These Indians have been pursued by Lieut. Johnson and others through Chiricahua (Mexico) and New Mexico since September 7.

A later despatch (dated San Francisco, October 21,) from Assistant Adjutant General McKeever says:

The following telegram just received from General Miles: "Mangus, who was captured by Captain Cooper, states that part of his band was captured by Mexicans and never heard from afterwards. This would seem to confirm other reports and give rise to the report that Mangus himself had been killed. Captain Viele, commanding Fort Apache, states that he believes we have all that are left of the Mangus party."

LATE ARMY ORDERS.

1st Lieut. Robert H. Fletcher, 23d Inf., has been retired on account of disability. (S. O., H. Q. A., Oct. 22.)

Leave for one month, to commence as soon after Oct. 28 as his services can be spared, is granted 1st Lt. William R. Hamilton, Fort Columbus, N. Y. H. (S. O. 165, Div. Atl., Oct. 22.)

Capt. Blair D. Taylor, Asst. Surg., Jackson Bks., La., and 1st Lieut. Freeman V. Walker, Asst. Surg., Fort Adams, R. I., are relieved from duty in the Div. of the Atlantic. (S. O. 165, Div. Atl., Oct 22.)

A Board of Survey to consist of Major James W. Scully, Q. M., will meet at Fort St. Philip, La., to assess the loss of, and damage to, quartermaster's stores and property for which Ord. Sergt. John H. Coligan is responsible, the said loss and damage having resulted from a terrific storm which occurred Oct. 11, 1886. (S. O. 165, Div. Atl., Oct. 22.)

THE ARMY

G. O. 73, H. Q. A., Oct. 8, 1886.

By direction of the Secretary of War, par. 2257 of the Regulations, is amended to read as follows:

2257. Carbolic acid, sulphate of iron, chloride of lime, corrosive chloride of mercury, solution of chlorinated soda, and other articles, when needed as antiseptics or disinfectants in hospitals and for general use at military posts, will be issued by the Medical Department upon the requisition of the medical officer.

By command of Lieut. Gen. Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 75, H. Q. A., Oct. 14, 1886.

The following order has been received from the War Department:

WAR DEPARTMENT, WASHINGTON, Oct. 14, 1886.

Brigadier General Orlando B. Willcox, U. S. Army, is, by direction of the President, assigned to the command of the Department of the Missouri.

WM. C. ENDICOTT, Secretary of War.

By command of Lieutenant General Sheridan:
J. C. KELTON, Act. Adjt.-Gen.

G. C. M. O. 79, H. Q. A., Oct. 12, 1886.

By direction of the Secretary of War the unexecuted portion of the sentence of a G. C. M. published in G. C. M. O. 66, August 4, 1886, from this office, in the case of Robert Marsel, late recruit, General Mounted Service, U. S. A., who was charged with desertion from Jefferson Barracks, Missouri, June 17, 1886, and who surrendered at Pittsburg, Pa., June 24, 1886, is remitted, and he will be released on the receipt of the order at the Leavenworth Military Prison, where he is now in confinement.

In the opinion of the acting judge advocate general of the Army the brief period (seven days) of prisoner Marsel's absence and his voluntary surrender raised a doubt of his intention to abandon the service which was not removed by the evidence produced at the trial.

The Secretary of War considers that the proceedings in the case of prisoner Marsel contravene the provisions of paragraph 220 of the Regulations, as published in G. O. 84, August 4, 1885, from this office, and he requires a more strict observance of the same hereafter.

By command of Lieutenant General Sheridan:
J. C. KELTON, Act. Adjt.-Gen.

CIR., WAR DEPARTMENT, A. G. O., Oct. 11, 1886.

Gives notice of the discontinuance as a U. S. depository of the First National Bank of Yankton, Dakota, at its own request.

G. O. 4, H. Q. CORPS OF ENGINEERS, Oct. 14, 1886.

The undersigned having been appointed Chief of Engineers, with the rank of Brigadier General, hereby assumes the command of the Corps of Engineers and the charge of the Engineer Department.

Existing orders and regulations from these Headquarters will remain in force until rescinded or modified.

JAMES C. DUANE, Brig. Gen., Chief of Engineers.

G. O. 23, DIV. OF THE MISSOURI, Oct. 12, 1886.

By direction of the Lieutenant General, the Division Commander will exercise immediate command of the Dept. of the Missouri until the arrival of the officer designated as successor to Brigadier General Joseph H. Potter, retired.

By command of Major-General Terry:
ROBERT WILLIAMS, Asst. Adjt.-Gen.

G. O. 22, DIV. OF THE MISSOURI, Sept. 27, 1886.

Publishes results of competition held Sept. 17, 18, 20 and 21, at Fort Leavenworth, for places on the Division rifle team.

(Heretofore given in full in the JOURNAL.)

STAFF CORPS AND DEPARTMENTS.

Judge Advocate General's Department.

Capt. J. G. Ballance, A. J. A., will proceed to Fort McIntosh, Tex., on public business (S. O. 142, Oct. 8, D. Tex.)

Adjutant and Inspector Generals.

Major G. H. Burton, Inspector General, will inspect the posts of Forts Gibson, Sill, Supply, Reno, I. T., and Elliott, Texas (S. O. 117, Oct. 15, Dept. Mo.)

S. O. 225, 1886, relating to Lieut. Col. Edwin C. Mason, 4th Inf., and Major Wm. F. Drum, 14th Inf., is revoked (S. O., Oct. 19, H. Q. A.)

Quartermasters and Subsistence Departments.

The journey, on official business, performed by Capt. Addison Barrett, from Jeffersonville, Ind., to Indianapolis, Ind., and return, Oct. 8, is approved S. O., Oct. 20, H. Q. A.)

Major James Gilliss, Chief Q. M., will proceed to Fort Riley, Kas., on public business (S. O. 117, Oct. 15, Dept. Mo.)

Major G. B. Dandy, Chief Q. M., will proceed to Price, Utah, on public business (S. O. 152, Oct. 11, D. Platte).

Supt. Ed. M. Main is relieved in charge of the Arlington National Cemetery, and will proceed to New Orleans, La., and assume charge of the Chalmette National Cemetery, relieving Supt. John A. Commerford, who will proceed to Washington and assume charge of the Arlington National Cemetery (Q. M. G. O., Oct. 18.)

Post Q. M. Sergt. Edward R. Brown will proceed to Fort Totten for duty (S. O., Oct. 14. H. Q. A.)

Capt James M. Marshall, A. Q. M., will inspect C., C., and G. E., at Philadelphia, for which Capt. John V. Furey, A. Q. M., is responsible (S. O., Oct. 14, H. Q. A.)

During the absence of Capt. W. V. Richards, 16th Inf., A. A. Q. M., on leave, Capt. John Simpson, A. Q. M., will take charge of the work of construction of public buildings at San Antonio (S. O. 142, Oct. 8, D. Texas).

Major John P. Hawkins, Chief C. of S., will proceed to Neligh, Neb., on public business (S. O. 132, Oct. 11, D. Platte).

Pay Department.

Leave for one month, with permission to apply for an extension of one month, is granted Major Chas. I. Wilson, Paymr., Omaha, Neb. (S. O. 133, Oct. 12, D. Platte.)

Medical Department.

The C. O., Willet's Point, N. Y. H., will designate one of the medical officers of his command to accompany the Battalion of Engineers to New York, Oct. 28, the day of the ceremonies attending the inauguration of the Statue of Liberty (S. O. 165, Oct. 22, Div. Atlantic).

The extension of leave of absence on account of sickness granted Major Warren Webster, Surg., is further extended one year on account of sickness (S. O., Oct. 20, H. Q. A.)

The following changes in the stations and duties of officers of the Med. Dept. are ordered: Captain Blair D. Taylor from duty in the Dept. of the East to Columbus Barracks, O., for duty. Captain Louis S. Tesson, Asst. Surg., is relieved from duty in the Dept. of Texas and from temporary duty in the Dept. of Arizona, and will report to the Comdg. Gen. Dept. of the East, for duty. 1st Lieut. Charles C. Barrows, Asst. Surg., from duty in the Dept. of Arizona, will report to the Comdg. Gen., Dept. of the East, for duty. 1st Lieut. Peter R. Egan, Asst. Surg., will be relieved from duty in the Dept. of Arizona, and will report to the Comdg. Gen., Dept. of Texas, for duty. 1st Lieut. Freeman V. Walker Asst. Surg., will be relieved from duty in the Dept. of the East, and will report to the Comdg. Gen., Dept. of Texas, for assignment to duty (S. O., Oct. 20, H. Q. A.)

Leave of absence for two months on surgeon's certificate of disability, when his services can be spared, is granted to 1st Lieut. Charles S. Black, Asst. Surg. (S. O., Oct. 20, H. Q. A.)

Leave of absence for six months, with permission to apply for an extension and to go beyond sea, to take effect when his services can be spared, is granted 1st Lieut. Edward C. Carter, Asst. Surg. (S. O., Oct. 20, H. Q. A.)

1st Lieut. Francis J. Ives, Asst. Surg., is ordered to report in person, at the H. Q., Dept. of the Platte, for duty (S. O. 146, Oct. 16, D. Tex.)

Asst. Surg. C. F. Mason is relieved from temporary duty at Fort Verde, and will proceed to Fort Huachuca, A. T., for duty (S. O. 99, Oct. 12, D. Arizona).

Asst. Surg. Daniel Weisel is relieved from duty at Fort Fred. Steele, and will proceed to Fort McKinney, Wyo., for duty (S. O. 135, Oct. 15, D. Platte).

Leave for one month, with permission to apply for an extension of one month, is granted A. A. Surg. Charles Anderson, Fort Union, N. M. (S. O. 98, Oct. 11, D. Ariz.)

The leave granted 1st Lieut. Wm. P. Kendall, Asst. Surg., is extended fifteen days (S. O., Oct. 14, H. Q. A.)

Lieut. Col. Chas. Page, Surg., Medical Director, will proceed to Fort Reno, I. T., on public business (S. O. 115, Oct. 11, Dept. Mo.)

Asst. Surg. W. B. Banister will proceed to Fort Wingate, N. M., and report for duty (F. O. 97, Sept. 29, D. Ariz.)

Major Wm. H. Gardner, Surgeon, is relieved from duty at Fort Davis, Texas, and in the Dept. of Tex. (S. O. 140, Oct. 5, D. Tex.)

Hospl. Steward Charles Parker will report to the C. O., Fort Leavenworth, Kas., for duty (S. O. 115, Oct. 11, Dept. Mo.)

Hospl. Steward Thomas Batterton is relieved from duty at Fort Fred Steele, Wyo., and will proceed to Fort Omaha, Neb., and report for duty, relieving Hospl. Steward Carlos H. Howard, who will proceed to Fort Robinson, Neb., and report for duty, relieving Hospital Steward John S. Sweeny, who is authorized to take advantage of the furlough granted him for four months after his re-enlistment (S. O. 135, Oct. 15, D. Platte).

Engineers and Ordnance Departments.

Major Alexander Mackenzie, C. E., will proceed to Saint Paul, Minn., and Keokuk, Iowa, on duty connected with works under his charge (S. O. 155, Oct. 20, C. E.)

The leave granted Capt. Eric Bergland, C. E., is extended eight days (S. O. 155, Oct. 20, C. E.)

Lieut. Lansing H. Beach, C. E., will proceed to Rising Sun, Ind., on duty connected with works under his charge (S. O. 155, Oct. 20, C. E.)

Major Alexander M. Miller, C. E., will proceed to such points on Osage and Gasconade rivers as may be necessary, on duty connected with works under his charge (S. O. 151, Oct. 14, C. E.)

Lieut. Col. Walter McFarland, C. E., will proceed to Saugerties, N. Y., on duty connected with works under his charge (S. O. 153, Oct. 18, C. E.)

Major L. Cooper Overman, C. E., will proceed to Huron and Fairport harbors, O., on duty connected with works under his charge (S. O. 152, Oct. 16, C. E.)

Leave of absence for two months is granted Lieut. Col. Wm. E. Merrill, C. E. (S. O., Oct. 20, H. Q. A.)

The following changes are ordered: Major Oswald H. Ernst, C. E., will be relieved from his present duties by Major Alexander M. Miller, C. E., and will take station at Galveston, Tex., relieving Major Samuel M. Mansfield of the charge of the river and harbor works under his control. 1st Lieut. Henry E. Waterman will be relieved from his present duties at Willet's Point, N. Y., and will take station at Chattanooga, and report to Lieut. Col. John W. Barlow, C. E., for duty under his orders. 1st Lieut. Eugene J. Spencer will be relieved from his present duties as engineer officer, Dept. of Arizona, and will proceed to Louisville, Ky., and report to Major Amos Stickney, C. E., for duty under his orders. 1st Lieut. Edward Burr will be relieved from his present duties as engineer officer, Dept. of the Columbia, and will proceed to Portland, Ore., and report to Capt. Charles F. Powell, C. E., for duty under his orders. 1st Lieut. Wm. O. Langfitt will be relieved from duty with the Battalion of Engineers, and will proceed to Vancouver Barracks and report for duty as engineer officer, Dept. of Columbia (S. O., Oct. 19, H. Q. A.)

Col. Thomas L. Casey, C. E., will take station in New York City for duty as president of the Board of Engineers for Fortifications, and will turn over to Col. John M. Wilson, C. E., the charge of the improvements over the grave of Thomas Jefferson at Monticello; of the erection of a pedestal and statue of the late President James A. Garfield; of the erection of a monument at Washington's headquarters at Newburgh; of the erection of a monument to mark the birthplace of George Washington; and of the erection of a building for the Army Medical Museum and Library (S. O., Oct. 16, H. Q. A.)

Lieut. Col. Jas. M. Wilson, C. E., ordered to proceed from Washington to Newburgh, N. Y., on public business (S. O., Oct. 21, H. Q. A.)

Leave of absence for one month and fifteen days is granted 2d Lieut. Hiram M. Chittenden, C. E. (S. O., Oct. 20, H. Q. A.)

Capt. Wm. H. Bixby, C. E., will repair to Newport, R. I., for the purpose of consulting with the president of the U. S. Naval War College (S. O., Oct. 15, H. Q. A.)

The journeys performed by 1st Lieut. E. J. Spencer, C. E., Engr. Officer, from Fort Huachuca to Wilcox, Sept. 4, and from Wilcox to Albuquerque, Sept. 10, 11, and 12, are confirmed as necessary for the public service (F. O. 94, Sept. 18, D. Ariz.)

1st Lieut. E. J. Spencer, C. E. Engr., will proceed to Whipple Barracks, A. T., and there take station (F. O. 94, Sept. 18, D. Ariz.)

The journey performed by Brig. Gen. James C. Duane, Chief of Engrs., from New York City to Washington, under instructions given in his letter of appointment, is approved by the Secretary of War (S. O., Oct. 14, H. Q. A.)

Ord. Sergt. Casper App, retired October 16, enlisted in 1849, was in many engagements during the War of the Rebellion, and was appointed Ord. Sergt. Dec. 29, 1862.

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., **B, D, E, G,** and **K,** Ft. Custer, Mont.; **A** and **C,** Ft. Maginnis, Mont.; **I,** Ft. Leavenworth, Kas.; **F, H,** and **L,** Ft. Assiniboine, Mont.; **M,** Camp Sheridan, Wyo.

1st Lieut. Robert P. P. Wainwright, Adjt., is detailed on recruiting service at Fort Custer, M. T., vice 1st Lieut. Frederick K. Ward, relieved (S. O. 107, Oct. 12, D. Dak.)

The journey of 2d Lieut. James B. Aleshire from Huntley's Station, M. T., to Camp at Pompey's Pillar, M. T., and return, being necessary for the public service, the order of Sept. 29, 1886, is confirmed (S. O. 108, Oct. 14 D. Dak.)

1st Lieut. H. E. Tutherly is appointed inspector on certain property pertaining to the roads and bridges of the Yellowstone National Park, for which Capt. D. C. Kingman is responsible (S. O., Oct. 21, H. Q. A.)

2d Lieut. S. C. Robertson has qualified as a sharpshooter.

Pvt. George F. Reifschneider has been appointed corporal in Bat. M.

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, and F, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal.; B, Ft. Gaston, Cal.; K, Ft. McDermit, Nev.; H, Ft. Halleck, Nev.; I, San Diego Bks., Cal.

The San Francisco *Report* says: "The new Army officers of the 1st over at Angel Island are smarter than their sex usually runs. Whether this smartness is going to benefit the ladies remains to be seen, for it cuts off some attentions from them, and just here is where the hitch will occur. It will not take more than two afternoons to show how this plan works. I know the physically weaker, but morally stronger, sex, and if those Thursday receptions are not held on Saturdays before many days are over, it will be because the Angel Island husband ranks the Angel Island wife."

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, and H, Ft. Omaha, Neb.; G and K, Ft. Niobrara, Neb.; I, Ft. Robinson, Neb.

The leave granted 2d Lieut. Abner Pickering is extended two months (S. O., Oct. 14, H. Q. A.)

Dept.; 1st Lieut. Solon F. Massey, 5th Art.; 2d Lieuts. Reuben B. Turner, Clarence E. Dentler, and Amos B. Shattuck, 6th Inf., and 2d Lieut. Richard W. Young, 5th Art., J.-A. (S. O. 134, Oct. 13, D. Platte.)

At Fort Sisseton, D. T., Oct. 20. Detail: Major Frederick Mears, Capt. David Schooley, 1st Lieuts. Henry P. Ritzius and John McMartin, 25th Inf.; 1st Lieut. John L. Phillips, Med. Dept.; 2d Lieut. James O. Green, 25th Inf., and Capt. Washington I. Sanborn, 25th Inf., J.-A. (S. O. 108, Oct. 14, D. Dak.)

At Fort Lowell, A. T., Oct. 20, for the trial of 1st Lieut. D. N. McDonald, 4th Cav. Detail: Col. A. V. Kautz, 8th Inf.; Majors F. M. Coxe and G. R. Smith, Paymasters; Major E. J. Spaulding, 4th Cav.; Capt. D. T. Wells, 8th Inf.; Capt. T. C. Lebo, 10th Cav.; Capt. Thomas Wilhelm and 1st Lieuts. J. W. Summerhayes, R. Q. M., and Edward Lynch, 8th Inf., and 1st Lieut. J. McE. Hyde, Adjt., 8th Inf., J.-A. (S. O. 99, Oct. 12, D. Ariz.)

Army Boards.

A Board of Officers, to consist of Major J. Ford Kent, 4th Inf.; Major William E. Waters, Surg.; Capt. Thomas F. Quinn, 4th Inf., and 1st Lieut. Lewis Merriam, 4th Inf., Reorder, will assemble at Fort Spokane, W. T., Oct. 11, to inquire into the facts attending the wounding by himself of Private William L. Kennady, Co. A, 4th Inf., July 31, in consequence of which his index finger was amputated (S. O. 175, Oct. 4, D. Columbia.)

Boards of engineer officers are constituted as follows, to meet in New York City and in Portland, Ore., respectively, for the examination of officers of the Corps of Engineers: Detail, New York City: Col. Henry L. Abbot, Lieut.-Cols. Cyrus B. Comstock and Walter McFarland, for the examination of Capt. James F. Gregory and 2d Lieut. James C. Sanford. Detail, Portland, Ore.: Col. George H. Mendell, Major William A. Jones, and Capt. Charles F. Powell, for the examination of 1st Lieut. Willard Young (S. O., Oct. 18, H. Q. A.)

A Board of Survey, to consist of Lieut.-Col. Marshall I. Ludington, D. Q. M. G.; Capt. James M. Marshall, A. Q. M., and 1st Lieut. Hugh L. Scott, 7th Cav., will assemble at the general depot of the Q. M. Dept., Philadelphia, Oct. 20, for the purpose of examining into a deficiency of 200 drumsticks found to exist in making transfer of public property from the late Capt. William H. Gill, M. S. K., to Capt. John V. Furey, A. Q. M. (S. O., Oct. 18, H. Q. A.)

Retirements of Enlisted Men.

Ord. Sergts. Casper App and Patrick Gallagher; Private William H. Kennedy, General Service, and 1st Class Musician Bernhard Dürr, Band U. S. Mil. Academy, all on Oct. 16.

DEPARTMENT NEWS.

Dept. of Texas.—Brig. Gen. D. S. Stanley.

A "Roster of Troops" for October comes acceptably to hand this week.

Division of the Pacific—Maj.-Gen. O. O. Howard.

Desertions from regiments from May 1 to Aug. 31, 1886, have been as follows: 2d Cav., 17; 4th Cav., 12; 6th Cav., 11; 8th Cav., 1; 10th Cav., 1; 1st Art., 19; 1st Inf., 2; 2d Inf., 4; 8th Inf., 2; 9th Inf., 1; 10th Inf., 14; 13th Inf., 7; 14th Inf, 13, and 22d Inf., 8. Total, 112.

Dept. of Dakota.—Brig. Gen. T. H. Ruger,

The *Rising Sun*, of Sun River, says: "There is at present every indication that Fort Shaw will soon be abandoned. We have our information from an authoritative source."

Division of the Atlantic.—Maj.-Gen. Schofield.

Maj.-Gen. Schofield orders that whenever any officer or other personage entitled to a salute arrives on Governor's Island the guard will report the fact to the commanding officer, who will at once order the necessary preparations for firing a salute, and then report in person at Division Headquarters, (office or residence as the case may be) for orders.

TROOPS FOR STATUE OF LIBERTY DAY.

THURSDAY, Oct. 28, 1886, having been decided upon as the day for the public inauguration of the colossal statue of "Liberty Enlightening the World," at Bedloe's Island, N. Y. H., the Major-General commanding directs participation by U. S. troops, as follows: The Battalion of Engineers, with its band, from Willet's Point, N. Y. H., and Light Bat. F, 5th U. S. Art., from Fort Hamilton, will report in New York City on the 28th for participation in the street parade. The C. O. Fort Hamilton, N. Y. H., will send to Bedloe's Island, early on the morning of the 28th, a suitable detachment, prepared to fire salutes. The C. O. Fort Schuyler, N. Y. H., will send to Bedloe's Island, early on the morning of the 28th, one foot battery for guard duty on the island during the day. The C. O. Fort Trumbull, Conn., will send one foot battery of his command to Fort Columbus, N. Y. H., for guard duty at Bedloe's Island on the day of the inauguration. Major Marcus P. Miller, 5th Art., is assigned to the command of the guard of U. S. troops to be stationed on Bedloe's Island, Oct. 28. Capt. Wallace F. Randolph, 5th U. S. Art., is assigned to the command of the battalion of U. S. troops designated to participate in the street parade. 2d Lieut. Harvey C. Carbaugh, 5th U. S. Art., is detailed for duty as acting signal officer at Bedloe's Island on the 28th, and will report to Lieut.-Col. William D. Whipple, U. S. A., Chief of Staff, at the island and take his orders from him. The troops at Forts Hamilton, Wadsworth, and Columbus will be held prepared to fire a salvo at the moment of the unveiling of the statue, and a National salute at the conclusion of the ceremonies (S. O. 161, Oct. 16, Div. Atlantic.)

COURT-MARTIAL CASES.

IN a case recently tried at Fort Snelling, Minn., the reviewing authority, Gen. T. H. Ruger, says: "It appears from the record that after the finding of guilty had been rendered, evidence of one former conviction only, and that of an offence of minor degree, comparatively, was submitted. It is thought the sentence is more severe than is suitable under the charge and with due weight given both to the fact and the nature of the former conviction."

In the case of a soldier tried at Fort Omaha, Gen. Crook says: "The proceedings are fatally defective, in that the record of the same fails to show the place where, and the date when, the court was in session for the trial of this case; it further fails to show the names of the members and of the judge advocate of the court, present at the trial, and the names of the members absent, if any. Judge advocates of courts-martial should be more careful in making up the records of proceedings, so that offenders may not escape deserved punishment, through some fatal defect therein."

In the case of a soldier recently tried at Fort Wayne for disobeying an order, the reviewing authority, Maj. Gen. Schofield, says: "The proceedings are approved, with the exception of the admission by the court, against the protest of a member, of certain immaterial hearsay testimony. In its findings and sentence the Division Commander is unable to concur in the conclusions of the court. The evidence shows that as the prisoner was entering Fort Wayne, dressed in his best clothes, he was seen by 1st Sergt. Wright, who at once sent Corp. Ryan to meet him with an order to report at the coal shed to assist in drawing coal for the company. Instead of obeying instantly the prisoner, who was encumbered, moreover, with a box and a bundle which had to be disposed of, went first to his quarters to put on his canvas suit, overalls, etc., and while doing this was followed successively by the corporal and the 1st sergeant, and in less than 10 minutes found himself in confinement for disobedience of orders. The practice of the company, as established in evidence, to allow men ordered on fatigue duty time to don their canvas suits, is thought to have so far justified the prisoner in his action in the present case, that the Division Commander finds himself reluctant to admit the justice of punishing him for assuming that this reasonable practice would not be disregarded in his single case. The opinion of Corp. Ryan that the prisoner was a "little slow" in changing his clothes, as he himself could have done it in five minutes, loses its significance in view of the witness's later statement that the prisoner proceeded promptly to change his clothes as soon as the former gave him the sergeant's order, and that he had no reason to believe that the prisoner did not intend to report at the coal shed as directed. The findings and sentence are disapproved, and the prisoner will be restored to duty." (G. C. M. O. 43, Div. Atlantic, Oct. 16.)

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

OCTOBER 14, 1886.

THE entertainment on Friday evening, Oct. 8, in behalf of the "Charleston Relief Fund," was a grand success.

Battery G, 3d Art., arrived at the post on Oct. 13, A. M., under the command of Capt. George F. Barstow, from Fort McHenry, Md., for the purposes of completing their target scores at long ranges.

Marching manœuvre in accordance with Tidball's, from 8 to 9 o'clock, is the morning exercise for the boys.

A sergeant belonging to the band and a private of the heavy batteries are the victims of two embezzlements at the post. The first one was $185 and the latter a gold watch valued at $65, together with a bill of $20 and two of one dollars each. The affair is in the hands of the detectives.

The Gibson Social Club will hold a business meeting on Thursday evening, October 14.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Oct. 21, 1886.

THE funeral of the late Professor John Forsyth took place from the American Reformed Church at Newburg this afternoon. The large building was completely filled with the many friends who came to pay the last tribute of respect to one who was so well beloved by all who ever knew him. The services were very impressive. The church is just across the street from the residence. At 2 o'clock a procession, headed by the professors and officers from here, marched to the church. Seven clergymen were seated behind the pulpit and all took part in the services after an excellent funeral sermon. Resolutions adopted yesterday at a meeting of the Classis in New York were read. The services were closed by a brief address from the Rev. Dr. Duffield, of Princeton, at which college Dr. Forsyth was at one time a professor. The face of the dead professor was natural and lifelike, but somewhat emaciated. Those who went from here were Professors Michié, Larned, Postlethwaite, Bass, Tillman, and Mercur, Colonel Hasbrouck, Captains Augur and Sharpe, Lieutenants Davis and Braden, Mr. Craney, Mrs. Michié, Mrs. Bass, Mrs. Davis, and Miss Blanche Berard, and the Rev. Mr. Thomas from Highland Falls. Prof. Forsyth was buried from the same house in which he was born more than three-fourths of a century ago. The place of interment is only a few blocks from the church in which the services were held.

Mr. Henry R. Cranston, manager of Cranston's Hotel at Highland Falls for the past four years, died suddenly of heart disease on Monday morning as he was dressing for breakfast. A scream was heard in his room, and when assistance reached him a few minutes later life was extinct. Mr. Cranston was about sixty-eight years old, and had been enjoying remarkably good health up to the time of his sudden death. The remains were taken yesterday morning on a special train to his old home and birthplace, Stephentown, N. Y. There were no services at the house previous to the departure of the train.

There are about twenty-five guests at the hotel, which will probably be kept open until early next month.

Gen. Sherman was here yesterday for a few hours, as the guest of Capt. Rockwell.

Gen. Augur visited his son, Capt. Augur, on Sunday, remaining only a day.

Lieut. Ives, 19th Infantry, spent several days at the post the early part of the week.

The following appointments have been made in the Battalion of Cadets: Lieut. Hanson to be captain, vice Jenkins; Cadets Shunk, McAlexander, Tripp, Lucas, E. W. V. C., and Smoke, to be lieutenants, vice Peck, Russell, Harman, Isham, and Meyler, reduced, and Cadet Hayden to be sergeant, vice Donaldson, C. V., reduced.

The order relating to all of the cadet officers recently Court-martialled, except in the case of Lieut. Williamson, was published last Saturday evening.

The officers are to have an informal hop on Friday evening.

Morgan Brown Thompson (alt.), Nashville, Tenn.; Truman O. Murphy, Mansfield, Ohio, and Samuel Wolgamot (alt.), Millersburg, Ohio, have been designated as candidates for examination for admission to the U. S. Military Academy.

G. C. M. O. 78, Headquarters of the Army, Oct. 5, give the proceedings, etc., of Sept. 2 and 3, of the court-martial at West Point, N. Y., of which Capt. W. F. Spurgin, 21st Infantry, was president, in the case of the cadets named below. The charges and specifications in each case were as follows:

Charge I.—"Violation of paragraph 109, Regulations U. S. Military Academy."

Specification 1st—"In violation of Orders No. 90, Headquarters U. S. Corps of Cadets, West Point, N. Y., Aug. 27, 1886, crossing sentinel's post No. 6 for the purpose of meeting the furlough class."

Specification 2d—"In violation of Orders No. 90, Headquarters U. S. Corps of Cadets, West Point, N. Y., Aug. 27, 1886, greeting the furlough class outside the line of sentinels with loud cheering and other noisy demonstrations."

Charge II.—"Conduct prejudicial to good order and military discipline."

Specification 1st—Being one of a party of 30 or more cadets that crossed sentinel's post No. 6 in violation of Orders No. 90, Headquarters U. S. Corps of Cadets, West Point, N. Y., Aug. 27, 1886, and did fail to exercise his authority as cadet lieutenant in the Battalion of U. S. Cadets to repress, but did by his presence and example encourage the said act of insubordination."

Specification 2d—"Of 30 or more cadets that had been halted, formed in ranks, and marched into camp immediately after they had passed beyond the line of sentinels to meet the furlough class, in violation of Orders No. 90, Headquarters U. S. Corps of Cadets, West Point, N. Y., Aug. 27, 1886, did fail to exercise his authority as cadet lieutenant in the Battalion of U. S. Cadets to repress, but did join in and by his presence and example encourage the cheering and other noisy demonstrations made in palpable approval of said disobedience of orders by said party of cadets. This at Camp W. S. Hancock, West Point, N. Y., about 12 M., Aug. 28, 1886."

The court found the accused guilty and sentenced each "to be dismissed the Service of the United States."

The proceedings, findings and sentences having been submitted to the President, the following are his orders:

EXECUTIVE MANSION, Washington, Oct. 5, 1886.

The proceedings and findings of the general court-martial in the foregoing cases of Cadet Lieuts. James J. Meyler, Fremont P. Peck, Pierrepont Isham, John A. Harman and Cadet Capt. John M. Jenkins, first class, U. S. Military Academy, are hereby approved; but in view of the excellent standing and good conduct of the accused prior to the commission of the offences of which they have been convicted, and the absence of willful and deliberate design in the commission thereof, the sentences of the said court-martial dismissing them from the service of the United States are mitigated to "reduction from the grade of cadet officer to that of cadet."

GROVER CLEVELAND.

By command of Lieut. Gen. Sheridan:

R. C. DRUM, Adjutant General.

GEN. MILES CONGRATULATES HIS TROOPS.

HEADQUARTERS DEPARTMENT OF ARIZONA,
WILLCOX, A. T., Oct. 7, 1886.

General Field Orders No. 12.

It is gratifying to the Commanding General to announce to the troops serving in this Department the close of the Indian campaign, and the establishment of permanent peace and security against future depredations of the hostile Apaches, as the result of the fortitude and endurance of the troops in the field.

You have effected the subjugation of the hostiles under Geronimo and Natchez, and, with the exception of one small thieving party now in Chihuahua, Mexico, all have been removed to a place of safe custody. At the same time the entire tribe of Chiricahua and Warm Spring Indians, whose presence has been a menace to the settlements and whose camps have for years been the rendezvous, the source of supplies, and the safe refuge of the hostile element, have been entirely removed from these territories.

For centuries the warlike Apaches have been a terror to this country. Neither Indian nor Spaniard have been able to successfully cope with them in their peculiar methods of savage warfare, and for years they have retarded the progress of civilization and industry. It was against such an enemy as this, and in a wild, arid country, traversed by a series of rugged and almost impassable mountain ranges, with great scarcity of water, that the troops, already worn and tired, re-entered the field.

In the early days of April last, the hostiles, then in Sonora, Mexico, began their depredations, and on the 27th of that month invaded the territory of Arizona. They at once met active opposition; Capt. T. C. Lebo, 10th Cavalry, true to his reputation as a gallant and successful cavalry leader, moving first against them. He followed the hostiles rapidly for over two hundred miles, and finally on May 3 forced them to an encounter. During this spirited engagement, the officers and men evinced great bravery, contending against an enemy on ground of their own choosing, among rugged cliffs almost inaccessible. During the engagement, Corporal Scott, a brave soldier, lay disabled with a serious wound, exposed to the enemy's fire, and Lieut. P. H. Clarke, 10th Cavalry, rushed to his assistance, carrying him to a place of safety. Such acts of heroism are worthy of great praise.* After the engagement the hostiles continued their flight, and for nearly a fortnight the troops, under Lieut. Benson, Capts. Lebo and Lawton, continued the pursuit without cessation. On May 15 Capt. C. A. P. Hatfield, 4th Cavalry, intercepted the hostiles east of Santa Cruz, Sonora, surprising their camp and capturing nearly all of their equipment, supplies, and twenty horses. Subsequently, while passing through a deep canyon towards Santa Cruz, burdened with his captured property, Capt. Hatfield's command was attacked by the Indians and a desperate encounter ensued, but despite every disadvantage of position, the troops made a commendable fight. There were several acts of conspicuous bravery displayed in this engagement. The action of Sergt. Samuel H. Craig was most heroic and very worthy of praise. 1st Sergt. Samuel Adams and Citizen Packer George Bowman exposed their lives in attempting to rescue Private John H. Conradi of that troop, who lay seriously wounded on the ground, but still using his rifle to good effect. This act of bravery and heroism would have been richly rewarded had not this unfortunate soldier received a second and mortal wound as he was being borne from the field by his devoted comrades.

After Capt. Hatfield's fight, Lieut. R. A. Brown, 4th Cav., struck the trail and vigorously pursued the hostiles in an easterly direction, securing at one time some of their valuable property. At this time the hostiles divided into two parties, one going north and the other west. The former were vigorously pursued through the Dragoon, Caesura and Santa Teresa Mountains by Lieut. L. M. Brett, 2d Cavalry, who displayed great energy and determination, making one forced march of twenty-six hours without halt and going eighteen hours without water during the intense heat of the summer. Subsequently the trail of the hostiles was taken up by several other detachments acting in concert, each commanded by energetic and capable officers, until Capt. J. T. Morrison, 10th Cav., near Fort Apache, captured all their horses and they took flight on foot south and were driven across the Mexican boundary. The other band meanwhile had been pursued by other commands through the Santa Rita, Whetstone, Santa Catalina and Rincon Mountains and on the evening of June 5, when in the Patagonia Mountains, were surprised and much of their stock and equipments captured by Lieut. R. D. Walsh, 4th Cavalry.

Thanks to your noble efforts the hostiles were allowed to remain but twenty-six days within our territory, and were so hotly pursued that they committed but fourteen murders. From this time on the hostiles never returned to the American side of the boundary line, but to surrender, and it was then that Capt. H. W. Lawton, 4th Cav., with his command took up the trail which he followed for three months, 1,600 miles, over mountains sometimes 10,000 feet high, and through arid valleys and canyons beneath a burning sun, often going many hours without water and frequently hardly stopping for food. At times almost barefooted, with only such provisions as their pack mules carried, they marched on and over cacti and rocks in the fevered districts of Old Mexico and never allowed the hostiles to rest. On the Yaqui river and in the district of Moctezuma July 13, Capt. Lawton's command surprised and captured the hostile camp. No hesitation is felt in pronouncing this steady tireless march of resolute men, in their purpose to succeed, as one of the most remarkable in the history of military achievements. The march of Lebo's troop, 20 miles in two hours, Benson's ride of 90 miles in 19 hours and Dr. Wood's skill and remarkable marches with a detachment of infantry are worthy of mention.

The discomfiture of the Indians had been such that in June, evidences of weakening had been discovered and after a most rigorous campaign of three months in which they had been pursued more than 2,000 miles, an opportunity occurred for Lieut. W. E. Wilder, 4th Cav., then with a command near Fronteras, Mexico, to notify them to surrender. Four days later Lieut. C. B. Gatewood, 6th Cav., rode into their presence at the risk of his life and without any assurance of a peaceable reception, demanded their surrender through two friendly Apaches. Finding no place of safe refuge and troops in every section, the leaders desired to see Capt. Lawton and requested favorable terms. Their requests were refused and Capt. Lawton was authorized to receive their surrender as prisoners of war. The Indians agreed to surrender to the Department Commander and marched 11 days parallel with Capt. Lawton's command to Skeleton Canyon, Arizona, for that purpose, and on the 4th of September on learning that their tribe was being removed from their native country, worn down and exhausted, with not enough ammunition to make another fight, and with the expectation of banishment for life, they surrendered as prisoners of war, trusting entirely to the honor of brave officers and soldiers who had pursued and fought them incessantly for four long weary months, and placed themselves and their families at the mercy of the Government.

The story of your services and well merited success is but briefly told. The two objects of the campaign have been attained: first, to give the largest degree of security and pro-

**Harper's Weekly* has recently published an illustration of this gallant act.—EDITOR.

tection to all the scattered settlements of the exposed country: the second, the complete subjugation of the hostiles.

In addition to the above, another most important achievement has been attained, namely: the absolute removal of the entire tribe of the Chiricahua and Warm Spring Indians, from the Apache reservation to a place remote from the mountainous regions of Arizona and New Mexico.

Much credit is due to the able and judicious management of Lieut.-Col. Wade, an officer whose judgment could be trusted and whose abilities were equal to every difficulty that developed.

In some respects it has been a double and complicated campaign and few will ever know the obstacles encountered or the narrow wall that at times divided failure from success. Simultaneous with the surrender of the hostiles under Geronimo and Natchez, the camps of Chatto, Kitena, Loco and others, were being removed from these territories. The question of capturing or wearing down the hostile bands was a problem of extreme hardship, danger and endurance, and the removal of the whole tribe was fraught with much difficulty and grave responsibilities. To the noble men who have laid down their lives in this enterprise the highest meed of praise should be given. Now that all has been accomplished, the troops in this Department will duly appreciate the feeling of relief as expressed by the people of Sonora, Mexico, through their Governor, Louis E. Torres, the resolutions of thanks for your heroic services offered by all parties in every section of Arizona and New Mexico; the approval of Gen. Sheridan and Secretary Endicott, all of which are most gratifying, but you will regard higher than all praise, the deep and lasting gratitude which comes from the thousands of homes scattered over this vast area to which you have given security and happiness.

By command of Brigadier General Miles:

WM. A. THOMPSON, Captain 4th Cav., A. A. A. G.

THE NEW BARRACKS AT ATLANTA, GA.

THE following account of the progress of the building of the new barracks at Atlanta, Ga., is clipped from the Atlanta *Constitution*, of Sunday, Oct. 10:

Capt. J. W. Jacobs, U. S. Quartermaster, who has charge of the erection of the barracks, is a most efficient constructor, and the quality of the work done under his supervision will be of the first class. The Captain has already established a reputation in Atlanta of being a man impossible to impose upon, and it is said that the contractors who expected to make big profits by furnishing poor work and material at low prices have been grievously disappointed.

The new Army post, known as Camp Hancock, is four miles from the city, on the line of the Central railroad. It lies on the right of the railroad, going toward East Point, and consists partly of open fields and partly of woodlands. The number of acres is 140. It is proposed by the Government to purchase 100 acres more, thus making 240. The site is admirably suited for the purpose intended. It is easily drained, and yet is not so hilly as to prevent the necessary grading.

The space to be occupied by the buildings to be used by privates has been graded, and four structures have been begun. Two of these are near the railroad, placed there for convenience in loading and unloading heavy articles of freight. One will be used for the commissary, and the other for the bake house. The other two buildings will be used to house soldiers.

The commissary and bake house will be 40 feet long and 30 feet wide. One of the buildings used to house soldiers will be 317 feet long by 30 feet wide, and the other will be 270 feet long by 30 feet wide. All the buildings will be two stories high.

On to-morrow the contract for grading 22,000 cubic feet will be let, and on Oct. 30 contracts for constructing eight more buildings will be let.

The total number of buildings to be erected will be 50. Every one of them will be of brick and stone. They will be erected on either side of well arranged streets, with similarly constructed entrances facing north and south. The streets will be macadamized and the sidewalks will be curbed and paved.

Besides the buildings to be used by the soldiers, there will be a hospital, a guardhouse, stables and all necessary outhouses. The officers' quarters will be upon a low hill about 508 feet north of the soldiers' quarters. Between the two will be the parade ground.

Briefly, it may be said that when the post is completed it will be a little town. The very best system of drainage will be used, and both gas and water works will be erected. Already an artesian well has been bored, which will furnish about half the water needed. The unoccupied land, that is, that not occupied by the buildings, will be used chiefly for gardens. It is proposed to raise all sorts of vegetables and whatever provender may be necessary for the stock kept at the post. A range for rifle practice will occupy an open space south of the buildings.

The post will accommodate at least ten companies, and it is probable arrangements would be made for twelve. Three years will be required to complete the work, which includes beautifying the grounds. A sufficient number of buildings to accommodate four companies will be completed by June next.

ARMY AND NAVY CHAPLAINS.

WE give below a list of the chaplains, now on the active list of the Army and Navy, with the various denominations they represent:

Episcopalians (17), *Army.*—John S. Seibold, Daniel Kendig, Osgood E. Herrick, James A. M. La Tourrette, Thos. W. Barry, John V. Lewis. *Navy*—John S. Wallace, John R. Matthews, John K. Lewis, Adam McAlister, Robt. Hudson, Sylvester D. Boorom, Richard Hayward, Alfred Lee Royce, Wm. F. Morrison, Frank Thompson.

Methodists (15), *Army.*—James O. Rayner, W. H. Pearson, John W. Jackson, Geo. W. Collier, John H. Macomber, David Wilson, Orville J. Nave, Sherman M. Merrill, Wm. H. Scott, Brant C. Hammond. *Navy*—Henry B. Hibben, Wesley O. Holway, Geo. A. Crawford, David H. Tribou, Henry H. Clark.

Baptists (9), *Army*—Geo. D. Crocker, Malnor C. Blaine, Winfield Scott, Henry W. Plummer, Allen Allensworth. *Navy*—John D. Beugless, James J. Kane, Frank B. Rose, Thos. A. Gill.

Presbyterians (7). *Army.*—Geo. Robinson, Stephen G. Dodd, Wm. T. McAdam, Robt. McWatty. *Navy*—Wm. H. Stewart, Donald McLaren, R. Randall Hoes.

Congregationalists, *Army.* — John D. Parker. *Navy*—Edw. K. Rawson.

Lutheran.—Geo. W. Simpson, Francis H. Weaver.

Roman Catholic.—Eli W. J. Lindersmith.

Christian, *Army.* — John B. McCleery, Geo. G. Mullins. *Navy*—Carroll Q. Wright.

Not Reported.—Joseph A. Potter.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

The Navy Department is informed that Patrick McKennon, belonging to the crew of the *Galena*, was drowned off Portsmouth, N. H., Oct. 16. The circumstances reported are as follows: He, with C. P. Finley, left the *Constitution*, on which the *Galena's* crew were quartered, about 6 P. M., Oct. 15, without permission, and went to Portsmouth. They attempted to return in a cat boat about 3 A. M., and were capsized in midstream. Both men cried for help. Finley, who could not swim, got hold of one of the bottom boards, and kept himself above water. McKennon started to swim for shore, but after going a short distance cries were heard, and he was seen no more. Three dories went to their assistance, and Finley was rescued, but neither McKennon nor the boat could be found. Further information has been requested by the Navy Department, as Patrick McKennon does not appear on the *Galena's* roll, and it is thought likely the drowned man was Peter McKinnon.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. Sailed from Newport, R. I., Oct. 21, for New York, to participate in the ceremonies attending the unveiling of the Bartholdi Statue. Arrived at New York Oct. 22.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. At Portsmouth, N. H. Has been ordered to New York, her repairs having been finished.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. At the New York Navy-yard. Ordered to join the South Atlantic Station. Expected to sail daily.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. At Rio de Janeiro Oct. 6, 1886.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro Aug. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. At Genoa, Italy.

KEARSARGE, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. At Gibraltar Oct. 5, 1886, per cable despatch. Has been ordered to return to the U. S., and is expected to arrive the latter part of October.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Sailed from Legborn for Genoa, Italy, Sept. 26, to undergo repairs, on completion of which she will proceed East for the winter.

Pacific Station—Rear-Adm. E. Y. McCauley.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Was at Iquique, July 31.

HARTFORD, 2d rate, 16 guns (f. s. p. s.), Capt. J. H. Gillis. Was at Callao July 31. Will shortly be ordered to San Francisco, Cal. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Sailed from New York, Aug. 16, for Pacific Station.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Was at Payta, Peru, Sept. 13.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr. George B. Livingston in command. Used as a storeship at Coquimbo, Chili. Comdr. S. H. Baker was ordered to command, per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Advices from Auckland, N. Z., of Aug. 16, say that the *Mohican* arrived from Fiji on Aug. 16, and would remain three weeks.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. At Sitka, Alaska. Address care of Navy Pay Agent, San Francisco, Cal. Lieut. Comdr. J. S. Newell has been ordered to command.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station. Arrived at Montevideo Oct. 19.

Asiatic Station—Rear-Admiral J. L. Davis.

Rear Admiral Ralph Chandler has been ordered to command this station, and will leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Port Said, Sept. 28, 1886, as reported by cable.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Reported by cable to have arrived at Malta, Oct. 15, 1886.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. Anchored off Chemulpo Sept. 3. Would return to Chefoo Sept. 6.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. At Hong Kong, China, for repairs.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Was at Hakodadi, Japan, Sept. 11, 1886. To sail for Chemulpo, Corea, in a few days.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Arrived at Chemulpo, Corea, Aug. 24, from Chefoo. Has been ordered to return to New York by the middle of February, 1887.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Canton, China, Sept. 3.

Apprentice Training Squadron.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station F, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. At Newport, R. I., Oct. 21. To be at New York to participate in the Bartholdi Statue celebration.

SARATOGA, 3d rate, 12 guns, Comdr. C. H. Davis. At Newport, R. I., Oct. 21. To be at New York to participate in the Bartholdi Statue celebration.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr At New York.

DOLPHIN, despatch boat. Lieut. Chas. O. Alliboné in command. At Norfolk, Va. Has been ordered to proceed to New York to take part in the Bartholdi celebration.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Sailed from Norfolk, Oct. 19, for New York, to take part in the Bartholdi celebration.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. Chas. E. Clark. At San Francisco. Comdr. F. A. Cook has been ordered to command.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 20 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Commander H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Silas Casey. Receiving Ship. At Washington, D. C.

PHILOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

VARIOUS NAVAL ITEMS.

THE name of the U. S. Fish Commission steamer *Lookout* has been changed to the *Altyon*.

ORDERS were received at the Navy-yard, Norfolk, Va., on Oct. 19, to place a full crew on the despatch boat *Dolphin* and prepare her for sea.

THE Bureau of Equipment and Recruiting, with a view to economy, has decided to substitute boat-cloths for boat-cushions. The new cloth will be of blue, with an anchor in red in each corner. One each will be allowed for the barge, gig and one other boat. The change is a saving to the Government of about 75 per cent.

WE are glad to learn, as we do from private letters, that there is no foundation for the criticisms, which we quoted from one of the dailies, upon the action of the Navy Department in sending vessels to Portsmouth for repairs. They were badly in need of it, and the demand for labor the work upon them created did not affect the election. We are assured that the old order of things has not been restored, and that increased efficiency and economy are the result of the change.

SIR WM. ARMSTRONG said in his speech at Newcastle on the ordnance question that "Sails in warships are rapidly going out of use, yet sailing drill, which causes immensely more accidents to life and limb than arise from the practice of gunnery, is still treated as a thing of greater importance than mechanical training." Sir William would seem to view naval warfare from the sham-fight point of view. When once war has begun, it is hard to say what may or may not have to be done; but a squadron of ships with empty coal-bunkers and an enemy's fleet between it and the nearest coaling station would be in a sufficiently awkward plight without having crews on board who know nothing about handling sails. In southern latitudes it would always be the object of the commander to save all his steampower for pursuit, capture, or evolutions in a fight. To do this he must have seamen on board who know how to handle sails.—*St. James's Gazette.*

THE officers of the Canadian Arctic steamer *Alert*, which has just returned from an exploring expedition to Hudson's Bay, report a strange phenomenon which they experienced during their recent voyage The story is told as follows: Southampton Island was made at noon on Aug. 28, the compass working very badly. Leaving there after taking observations, the vessel proceeded to Diggs, but on account of bad weather did not arrive there until Aug. 30. During the night of Aug. 30 it got unusually dark, the air being filled with dense smoke, which smelled like burning pitch. The sea, it is represented, was literally on fire, while on the deck of the steamer the smoke was so thick that one could not see his hand before him. A furious gale was blowing at the time, and the lead was the only guide. Capt. Gordon, commander of the expedition, reports that he is of the opinion that great fires were raging in the centre of Labrador, and that the dense smoke and heat which about that time was experienced along the coast from the Gulf of St. Lawrence to Cape Breton were due to this cause.

THE Secretary of the Navy has not as yet selected a commandant for the reorganized Washington Navy-yard, and there is some doubt as to whether he will do so. There is an impression in the Department that the Yard should not have any other official head than the Chief of Ordnance.

IT is probable that the U. S. steamer *Shenandoah*, which recently returned from the China Station to San Francisco, has made her last cruise. The Board of Survey has reported to the Secretary of the Navy that it will require over $130,000 to repair her, which is fully 26 per cent. of what she could now be built for. The law limits repairs to 20 per cent. of the cost of the vessel, so that the *Shenandoah* will be put in ordinary and probably be sold at public sale. Her original cost was $379,717.64.

A PRESS despatch from Newport, R. I., Oct. 19, says: It is learned from authoritative sources that nearly 200 cases of wines and liquors, together with quantities of gloves, fans and other dutiable articles, have been found upon the United States war vessels *Saratoga* and *Portsmouth*, which have just returned from a cruise and been seized for the payment of the duties. One of the officers had orders to proceed to New York to attend the Bartholdi statue exercises, but could not depart until he got permission from the customs authorities, all the officers being under the ban of suspicion. A despatch one day later says: "A deputy collector of customs boarded the U. S. ships *Saratoga* and *Portsmouth* to-day and collected nearly $800 on the contraband goods on board. The officers paid under protest. The information came from Lisbon and Madeira and indicated exactly where the goods would be found stored. Admiral Luce says the matter has been grossly exaggerated; that there was not room on board the vessels for one-half the goods alleged to be stowed on them, and he doubts that duty can be legally assessed on them. The vessels will leave here at 8 o'clock to-morrow morning for New York.

NAVY GAZETTE.

Ordered.

OCT. 18.—Lieutenant Wm. P. Conway, to take charge of the Branch Hydrographic Office at Philadelphia.

Ensign Wm. S. Sims, to the Yantic.

Detached.

OCT. 16.—Lieutenant Clifford H. West, from Lighthouse duty and ordered to duty on Asiatic Station.

OCT. 18.—Lieutenant C. C. Rogers, from the Yantic and ordered to the Galena.

Leave.

Assistant Engineer Wm. H. Platt, retired, for six months with permission to leave the United States.

Prospective Retirements.

Lieutenant-Commanders E. B. Thomas and Isaac Hazlett were before the Naval Retiring Board of which Admiral Worden is President, this week, for examination for retirement.

Lieutenant-Commander Wm. Welch has been authorized to delay reporting before the Board for one month.

Boatswain Thomas Savage has been ordered to report before the Board on October 27.

MARINE CORPS.

OCT. 18.—1st Lieutenant H. G. Ellsworth, detached from the Marine Barracks, Portsmouth, N. H., when the Marine Guard of the U. S. S. Swatara has been transferred there, and ordered to proceed to Brooklyn, N. Y., and report for duty at the Marine Barracks there.

OCT. 20.—1st Lieutenant S. H. Gibson, granted leave for one month from October 22.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending October 21, 1886:

Jos. W. Crouse, captain of afterguard, U. S. S. Alliance, October 15, in Brooklyn.

Peter McKinnon, seaman, U. S. S. Galena, October 15.

NAVY DEPARTMENT, WASHINGTON, D. C., Oct. 14, 1886.

DEAR SIR: A custom has grown up in Navy-yards of having a list of men employees "suspended." There is no authority of law for this, and you will see that it is discontinued and all such lists erased. Yours respectfully,

W. C. WHITNEY, Secretary of the Navy.

NEWPORT NOTES.

THE flagship *Tennessee*, of the North Atlantic Squadron, flying the flag of Rear-Admiral Stephen B. Luce, leaves Thursday for New York to participate in the exercises attending the unveiling of the Bartholdi statue, accompanied by the training ships *Saratoga* and *Portsmouth*. The vessels named will be joined at New York by the training ship *Jamestown*.

Admiral Luce, accompanied by his chief of staff, Capt. Boyd, made an official visit to the *Saratoga* and *Portsmouth* Oct. 18 and was received with due honors.

Lieut. John F. Meigs, U. S. N., who has been delivering a series of interesting lectures on the tactics of naval gunnery at the War College, has reported for duty on the *Tennessee*, and has been assigned to the Admiral's personal staff and will act as fleet gunnery officer. The *Tennessee* will have to leave Newport harbor without recovering her valuable anchor and chains which were lost recently. A naval diver made an unsuccessful search for them Oct. 18, and it was only a few days ago that the torpedo station diver, F. A. Smith, came very near losing his life while trying to find the anchor. Smith is now in the naval hospital at Boston and is in a critical condition.

Lieut. Abbott, U. S. N., secretary to Admiral Luce, returned a few days ago from New York, where he had several conferences with Gen. Schofield in reference to the marine parade on the occasion of the dedication of the Bartholdi statue.

The last of the very interesting series of lectures on international law at the War College by Prof. J. R. Soley, U. S. Navy, was delivered Oct. 19. It is understood that Prof. Soley is to publish a book on international law for the benefit of Army and Navy officers.

Rear-Admiral Luce, accompanied by his staff, inspected the training ships *New Hampshire*, *Saratoga* and *Portsmouth*, Oct. 19, and subsequently inspected all the apprentice boys attached to the squadron.

Prof. J. R. Soley delivered a very able lecture on international law at the War College Oct. 19. A large audience was present. The Professor has returned to Washington to resume his duties at the Navy Department.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Oct. 19, 1886.

Green things within the Academy limits are beginning to assume their autumnal dress, and workmen are kept busy in removing the rapidly falling leaves.

Tennis players are making the most of the delightful weather, and the tennis grounds are visited daily by large numbers of interested spectators. Some very exciting matches have been played during the past week, in which Superintendent Sampson, Chaplain Rawson, and Ensigns Smith, Knapp, and Blish participated.

The chapel has been undergoing a few internal repairs, with the object of bettering the acoustic effect. Chaplain Rawson is taking matters in hand with decided vim—his formation of a large Bible class, together with his admirable help in F. M. C. A. matters—have led both officers and cadets to take more interest in these affairs than have previously characterized such movements. The choir has been reenforced by Mosely, '87.

Fortunate people who expect to go on leave at Christmas, are looking forward with joy at the prospect of making quick connections with Baltimore. The new short line has its tracks laid to the water's edge, and as soon as the stone butments of the draw are completed, the road will be in running order.

Liberty loving cadets have been deprived of the joys of Annapolis, since the term began, the prevalence of diptheria in the city being the drawback.

The delegation appointed from the cadets' hop committee to ask for eleven o'clock hops, were disappointed. The superintendent says that the old ten o'clock system must be adhered to, except in the case of special events. The season will be opened with the Thanksgiving Eve Hop, and be continued every Saturday evening until Lent.

The foot-ball team has accepted a challenge to play a game with the Princeton College second team, on Thanksgiving Day.

(Correspondence of the Army and Navy Journal.)

MARE ISLAND.

THE Alden Dramatic Association gave a charming performance of "Home" on Saturday evening, and a delightful rendering of "A Change of Base." The theatre was crowded and the occasion was most successful. The characters in "Home" were taken by Mrs. C. M. Thomas, Mrs. F. Rodgers and Miss M. Lockwood; Lieut. J. G. Eaton, Ensign J. M. Ellicott, Civil Engr. C. C. Wolcott and Surg. G. W. Woods. At the end of the comedy some beautiful floral pieces were sent up to the ladies. In "A Change of Base" Capt. C. F. Williams, of the Marine Corps, acted the part of Hezekiah Tarbox to perfection. He was ably assisted by Miss Bradley, Mrs. Eldridge and Ensign Harry Phelps. JUNK.

BOSTON AND ATLANTA.

SECRETARY WHITNEY recently directed the Naval Advisory Board to furnish the Department with the estimated cost of the completion of the *Boston* and *Atlanta* for service. The Board's report was received this week in which they say the work on the *Boston*, under the superintendence of the Bureau of Steam Engineering, to be paid for by the contractor, will cost $2,792. The cost of the work under the same bureau, to be borne by the Government, is $5,473. All the ordnance work for this vessel is yet to be done. The Bureau of Equipment has yet to complete the rigging, to erect the galley, and to supply curtains for wardroom and stateroom doors, and carpets for the entire vessel. The Bureau of Navigation has yet to finish the electric lighting apparatus. The work to be done under the Bureau of Construction and Repair will cost the contractor $392 and the Government $8,473.

On the *Atlanta* the work under the direction of the Bureau of Construction will cost the contractor $362 and the Government $5,605. On the machinery work is yet to be done which will cost the contractor $2,298 and the Government $3,462. The Bureau of Ordnance has to complete gun circles, mounts for secondary battery, turning engines for 8-inch guns, 1 8-inch gun carriage, torpedo gear for boats and the placing of guns on board. The Bureau of Equipment will have to furnish carpets for wardroom and steerage, and curtains for cabin, wardroom and stateroom doors, and to complete collar upon galley pipe. The Bureau of Navigation has yet to furnish platform for standard compass.

WHITNEY BASIN.

COMMODORE HARMONY returned to Washington on Saturday last from New York, whither he went the early part of the week to see the condition of the work on the new basin being formed there for the anchorage of ships, with the view to submitting an estimate to Congress this year for its completion. This new basin was contemplated and designed thirty years ago, but the scheme was dropped, and since then it has been used only for seasoning oak and other ship-timber by burying them below the earth. Last year, however, when Secretary Whitney and Commodore Harmony were together at Brooklyn, they jointly concluded that it would be a good thing to revive the basin scheme, and they decided to do so. At that time the bottom of the basin was dry at low-tide; but since then a contractor has been at work dredging and excavating to a depth of eighteen feet. The clearing is done at the rate of ten cents per cubic yard. The work, up to the present, has cost but a few thousand dollars—four or five thousand—which the Secretary has been able to apply to this purpose out of the general appropriation, but Congress will be asked to make a special appropriation of $70,000 or $80,000 to proceed with the more expensive work of construction. It is intended to protect and strengthen the banks of the basin with walls of sheet-piling. When Commodore Harmony was in Brooklyn Commodore Chandler, the commandant of the yard, said the basin wanted a name, and Commodore Harmony christened it Whitney Basin.

THE CRUISE OF THE APPRENTICES.

COMMANDER CHAS. V. GRIDLEY, commanding the U. S. S. *Portsmouth*, has made a report to the Navy Department of the summer cruise of the training squadron, which sailed from Norfolk, June 21, reached Newport, June 27, and sailed July 8 for the Azores, arriving July 29. Sailed from Horta, Aug. 2, and reached Lisbon, Portugal, Aug. 14, when liberty was given to all hands. Aug. 31 sailed for Funchal, Madeira, arriving Sept. 6, liberty being given there to the deserving. Sailed from Funchal on Sept. 11 for Newport, where the *Portsmouth* arrived Oct. 14, 33 days from Funchal. The ships parted company off Bermuda. On the average, one-third more time was taken for the passages than on the previous year when the squadron sailed six weeks earlier. No bad weather was experienced up to Oct. 6 off Bermuda when a moderate gale from the westward was found, and on the 8th one from the north and east. The health of the different ports visited was excellent. The drills, exercises, etc., were carried on regularly and the apprentices made good progress and will give a good account of themselves. Their conduct was, as a rule, excellent, particularly the new draft. Some of those left over from the former cruise gave much trouble and were a bad element among the other lads. The draft received from the *New Hampshire* just before leaving for Europe was the best lot of boys, Comdr. Gridley says, that he ever had the pleasure to command, and Comdr. Davis experienced the same. The ship will need extensive repairs before making a winter cruise.

The general health of the squadron was excellent, and but one desertion occurred during the cruise, a special service landsman.

STATIONS OF COAST SURVEY VESSELS.

W. H. Brownson, Lt. Comdr. U. S. N., Hydrographic Insp'r.
Lt. J. F. Moser, U. S. N., Coast and Geodetic Survey Office.
Lt. Geo. H. Peters, U. S. N., Coast and Geodetic Survey Office.
P. A. Paymaster J. R. Stanton, U. S. N., Room 127 Corcoran Building, Washington, D. C.

Steamer *A. D. Bache*, Lieut. J. M. Hawley, U. S. N., commanding. Address Portsmouth, N. H.

Steamer *G. S. Blake*, Lt. J. E. Pillsbury, U. S. N., comdg. Address Hyannisport, Mass.

Schooner *Eagre*, Lieut. Chas. P. Perkins, U. S. N., comdg. Address Salterville, N. J.

Schooner *Earnest*, Lieut. C. T. Forse, U. S. N. Address Tulalip, Snowhomish, Wash. Ter.

Steamer *Gedney*, Lieut. F. H. Crosby, U. S. N., comdg Address Greenwich, Conn.

Steamer *Hassler*, Lieut. David Peacock, U. S. N., comdg. Address Box 2402, San Francisco, Cal.

Steamer *M'Arthur*, Lieut. J. M. Helm, U. S. N., comdg. Address, Navy Pay Office, San Francisco, Cal.

Steamer *Patterson*, Lieut. Comdr. A. S. Snow, U. S. N., comdg. Address Navy Pay Office, San Francisco, Cal.

Steamer *Endeavor*, Lieut. G. C. Hanus, U. S. N., comdg. Address Elizabethport, N. J.

Schooner *Scoresby*, Lieut. Francis Winslow, U. S. N., commanding. Address New Berne, N. C.

Steamer *Arago*, Lt. F. S. Carter, U. S. N., comdg. Address Northport, L. I., New York.

Schooner *Palinurus*, Lieut. D. D. V. Stuart, comdg. Address Roslyn, L. I., N. Y.

FATAL EXPLOSION AT SANDY HOOK.

AN explosion occurred at the Ordnance Proving Grounds at Sandy Hook on Thursday afternoon, Oct. 21, by which 1st Lieut. W. M. Medcalfe, Ordnance Corps, U. S. A., and Private Joseph King, Ordnance Detachment, lost their lives. The details of the accident are given as follows:

A 12-inch shell, intended for firing from the 12-in. mortar, exploded. Private King had filled a shell with musket powder and closed the hole. Another shell was filled with 25 pounds of the same powder, while two barrels of powder stood near by. Lieut. Medcalfe overlooked the work and seven or eight other people were working round the mortar. The plug was put in, when suddenly the explosion occurred, tearing the body of King to pieces, mutilating Lieut. Medcalfe fearfully and setting fire to their clothes. The pieces of the shell flew in all directions, but, luckily, did little other damage.

Corpl. Clark, who stood about three feet away, was not hurt, and Corpl. Moore, who was standing about the same distance on the other side, was blown 20 feet back, but was uninjured. Sergt. Abbott was slightly injured by sand and lead both in the face and leg. Supt. Sinclair received a few scratches in the leg.

Lieut. Medcalfe was lying about 10 feet away on the plank walk, both feet cut away and his intestines exposed, and having several other wounds. His face was blackened by powder burns. He lived about half an hour after the accident, but never spoke. After death his body was removed to the machine shop.

Private King's body was picked up in pieces and removed in a blanket to the same place.

Lieut. Medcalfe's mother, who is still in mourning for her husband, resided with her son at the officer's house, and witnessed the sad affair from there, but did not think that her only son was one of the killed until the news was broken to her. Private King, who was from the Frankford Arsenal, is reported to have one brother living in the old country, but no relations on this side of the ocean.

Lieut. Medcalfe was a brilliant young officer, and singularly popular with all who knew him. He was graduated from West Point in 1872, and promoted 2d lieutenant of the 4th Artillery, and transferred to the Ordnance Corps with rank of 1st lieutenant March 18, 1881.

The shell which exploded was made to fire in the largest mortar in the world. It was 12 inches in diameter and 30 inches long, and weighed 610 pounds. It was charged with 27 pounds of musket powder; and to make it a solid shot 25 pounds of sand was put in the shell. It is alleged that the cause of the accident is due to the use of this sand. Although the loose sand is taken out it is impossible to get it out of the grooves and when the plug was driven in it is thought that the flinty substance in the sand may have set fire to the powder. The shell when being loaded stood on the point on some planks, and after the explosion it was noticed that but comparatively little damage was done to the planks, the whole force being expended upwards.

Cooley's Weekly, of Norwich, Conn., says: "W. T. Chamberlain, of Norwich, has invented and perfected a new projectile. It is an ordinary, hollow cast ball, conical in shape, the hollow part of which may be filled with dynamite, without the use of any covering, or packing inside or out. The ball can be fired without danger of it exploding in the gun, and such is the character of the invention there will be no need of getting it patented. Mr. C. claims that he is willing to hand the balls to any persons for inspection, let them fill them with dynamite, fire them from their own gun, and will defy them to tell why the ball does not explode in the gun." Probably, at that stage of the experiment they will find a difficulty in expressing their opinion of Mr. Cooley's invention, except it be through a spiritual medium.

Military Order of the Loyal Legion.

The Commandery-in-Chief held its annual encampment in the hall of the Pennsylvania Historical Society at Philadelphia Oct. 20. The following were present from New York: Maj. Gen. John M. Schofield, U. S. A.; Gen. John Cochrane, George Peck, Maj. Gen. Martin T. McMahon, Gen. W. D. Whipple, Maj. J. P. Sanger, Chief Engr. Charles H. Loring, Medical Director Charles Martin, Gen. Richard Jackson, U. S. A.; Col. Horatio C. King, Gen. Charles A. Carleton and Gen. John J. Milhau. Ex-President R. B. Hayes filled the chair made vacant by the death of Maj. Gen. Hancock. Lieut. Gen. Sheridan was elected Commander-in-Chief.

The Commandery of Pennsylvania held a meeting at the Union League in the evening and invested the officers elect. At the close of the business meeting a banquet was tendered to the companions of the Commandery-in-Chief.

BLACK STARR & FROST

SUCCESSORS TO

BALL BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

CHOICE OLD WHISKIES,

MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Old Reserve Whiskey, - - - - $18.00

Unrivalled Upper-Ten Whiskey, 15.00

Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi river; and by freight to any part of the U. S. (prepaid.)

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guarantee to give PERFECT SATISFACTION; otherwise to be returned at our expense.

TESTS OF ARMOR PLATES.

APPLICATIONS from the following persons and firms have been received at the Navy Department for the Ordnance Bureau's circular giving the conditions of the rules prescribed "for testing American armor made of American material," for which purpose $25,000 was appropriated by the act of March 3, 1885: J. W. Frost, H. Ayres, Ruhle Bros., E. Gomez, W. H. Wallace and Co., T. S. Garrison, F. A. Butler, Chrome Steel Works, Pittsburgh Steel Casting Co., Midvale Steel Co., W. M. Sitchley, Atlantic Iron Works, Builders' Iron Foundry, A. R. Whitney and Co., and J. A. Tobin, P. A. Engineer, U. S. N. Whitney and Co., and Wallace and Co., of New York, representing respectively the Soho and Spang Steel works of Pittsburgh, and Midvale Steel works, are the only firms that have thus far signified their intention of submitting plates for trial. The circular requires that the applications for trial should be made before October, 1886, but it is presumed by the Ordnance Bureau that this clause has been overlooked by manufacturers and inventors, and that there will be a number of plates delivered before Oct. 1, 1888, the date when they are all required to be in.

P. A. Engineer John A. Tobin, U. S. N., at present assistant to the Superintendent of the State, War and Navy Department, will submit a steel plate for test. He has just been granted a patent for a new steel armor, and the method of constructing the same. Simplicity and cheapness of construction are among the good features of his invention.

The regulations established require that the plates to be tested should be not less than six inches in thickness, variations in thickness of one-tenth of an inch, more or less, incident to manufacture being admissible. The plates must be rectangular, six feet on each edge, the edges cut straight, sharp corners removed with a file. A uniform system of bolting has been established, and balls and bolts, with direction for their location, etc., will be furnished. Owners wishing a different kind or quality of fastening must first submit their plans for approval. A drawing of each plate must be sent for the location and size of the bolt holes, and the guidance of the owner in drilling and threading the holes. Scraps must be furnished for tensile specimens, and a sworn statement that the plate is of American manufacture. Regular freight charges on plates and test specimens will be paid at the conclusion of the trial and the plate returned, if desired, at Government expense, to the point from which received. The following are the conditions of trial:

The plate will be bolted against a close wood backing, two and one-third times the thickness of the plate. Behind the backing there will be a thin iron skin plate. The whole structure will be braced from the rear. Three hard steel projectiles (of qualities and manufacture to be determined by the Bureau) will be fired normally against the middle region of each plate. The gun to be used, the weight of the projectile, its striking velocity and striking energy, are given in the following table. The velocities, energies and other conditions will vary within the limits that usually obtain in service. The formulas generally employed at the Proving Ground will be used:

Thickness of plate.	Extreme diameter of bolts.	Gun to be used.	Weight of projectile.	Striking velocity.	Striking energy.
Inches.	Inches.		Pounds.	Ft.-sec's.	Ft.-tons.
6	2⅞	6-in. B.L.R.	100	1519	1600
7	2⅞	6 in. B.L.R.	100	1822	2300
8	3	8-in. B.L.R.	250	1337	3100
9	3	8-in. B.L.R.	250	*1519	4000
10	3¼	8-in. B.L.R	250	1669	5000
11	3¼	10-in. B.L.R.	500	1327	6100
12	3½	10-in. B.L.R.	500	1451	7300

The impacts will form as nearly as practicable an equilateral triangle, each side to be in length about two and a half times the calibre of the shot. These points must be marked on the plate by the Bureau previous to the test; but it must be understood that the shot cannot certainly be made to strike on the points aimed at.

No projectile must get through the plate and backing. The plate must not break up and pieces be displaced so as to expose the backing before the impact of the third shot. After the first shot, if the owner should so request, the following changes may be made: When serious cracks develop, running near either or both of the proposed points of impact, these points may be shifted to such positions as the owner may select, provided no point is placed more than two and a half calibres from the centre of impact of each of the preceding shots. Firing at a plate will be stopped whenever, in the opinion of the Bureau's agents, the plate has demonstrated its incapacity to stand the full test. The Bureau may discontinue the test of a plate whenever, in its opinion, the safety of the employees may so require, or whenever it does not consider that the Government property being used is of suitable quality or sufficient in quantity. The decision of the Bureau as to the behavior of the plates shall be final. Any owner whose plates may have failed, and who may wish to present others of the same thickness, must previously obtain the permission of the Bureau.

THE English are finding in the case of Burmah that the old proverb that it is the first step that costs, does not hold good. The expedition of Sir H. PRENDERGAST was a holiday excursion compared to what follows. Sir H. MCPHERSON has resolved to make a further advance to see if he cannot restore the country to tranquillity. Great objection is made to employing regular troops for this purpose, but the advocates of the advance urge that it is not a mere question of suppression of dacoity; that the whole country is in open revolt, and needs summary treatment; that the error lies, not in the proposed action, but in the past, when Sir H. PRENDERGAST'S expedition was permitted too quickly to end, and the Hootlaw allowed to exercise civil control. Messrs. YARROW and Co. are completing, with the utmost despatch, a stern wheel steamer of an exceptionally shallow draft, for the transport of troops in connection with the expedition which will take place next winter. This vessel will be of the same type as those constructed for the Nile Expedition, and which proved so invaluable during the operations in Upper Egypt. The transfer of English attention from Egypt to Burmah seems to be a case of "out of the frying-pan into the fire." Their experience in the land of the Pharaohs was sufficiently humiliating without being repeated. That spectacular soldier, Lord WOLSELEY, seems to be the only one who has gained anything by it. GORDON was

not rescued, nor has his death been avenged, and what practical result has followed the expenditure of British blood and treasure? Our contemporary, *Broad Arrow*, asks: "Is not the story of our operations in Burmah the counterpart of all our military expeditions? We fall foul of some semi-civilized potentate and send an expedition to punish or annex him. We despatch an excellent force of some 5,000 men, when France or Germany, if she had occasion to do so, would send 20,000. Our force, partly owing to the fighting qualities of our soldiers and the surprise of our enemies, who cannot believe that we should attempt to attack them with so small a body as we really have, carries all before it. We then imagine the whole matter is ended, settle down in the country and live there as if we were at home, start cricket clubs, polo matches, and administer the country for the good of the peo ple. The natives, however, finding no more soldiers arrive, recover from their astonishment and take to what we call dacoity, or rebellion, but what they call fighting for their independence. We are astonished in our turn, and with loud complaints over the ingratitude of the people, send in hot haste for another 5,000 men, and tighten our grip. Probably the time has gone by for that force to be effective, and we have to send for a third instalment. Finally, at great cost and trouble to qurselves, we thoroughly subdue the country. By this process the bill when presented for payment is found to be twice as great as if we had sent an adequate force and thoroughly subdued the country at first."
